

## Star of Space 3311

Chapter 3311 No, not sure

"This is really, really exciting!"

Looking at the many ghost guards with their faces covered, Lin Caisang crossed his arms and looked at them with a smile.

I really don't understand what is going on in the Ghost Emperor's mind. Are the people at Wuzhu Tea House really that easy to deal with?

Well, she and Zimo may be easy to deal with. After all, even if there is a golden finger in the hand, it is only a mortal body, right?

But they have plug-ins.

"Red gold, red silver, I leave it to you."

Sure enough, without saying anything, she heard her husband give instructions to the yard.

The next moment, the masked ghost guards saw two figures appearing in front of them, and then they were stunned. Before they could react, their faces and bodies were already covered with injuries. ๐๗

A group of people fell to the ground and kept wailing. They didn't have the same momentum as before.

Minister: "..."

He finally knew that the red gold was really useless when it dealt with Master Ming and the ghost guards around him.

Otherwise, according to the current situation, seeing those masked ghost guards being pressed to the ground and being rubbed, there were only two people, Master Ming, who would have died several times, right?

He couldn't help but swallow secretly.

"Two adults, what are you going to do with them?" Looking at those people, he asked Lin Caisang.

"How else can it be installed externally?"

Lin Caisang chuckled, naturally it was impossible to let them go back.

They are going to be killed. If they are still alive, wouldn't it look like they are too... Bai Lian?

"Kill him with poison first, and then leave it to Lord Ming to deal with." Sui Zimo said.

During their virtual missions, it would be better for them to do less killing, etc. What if their points are deducted again?

After finally accompanying his wife on a mission, he couldn't lose a single point, otherwise, his wife would be the one who was tired.

"right."

Lin Caisang supports her husband unconditionally.

"Let's get knocked unconscious first."

She immediately took out a bottle of poison. Hong Jin came over, took the bottle away, and fed one pill to each of the masked ghost guards.

"Don't... put it back?"

The minister looked at what they were doing and couldn't help but twitch the corners of his mouth.

Is this really a good thing? They were people sent by the Ghost Emperor. If he hadn't gone back to recover, who knows what more disgusting things the Ghost Emperor might have done if he was so crazy?

"put it back?"

Lin Caisang turned to look at the minister.

"you sure?"

"No, not sure."

The minister quickly shook his head, not because he was afraid of the two people in front of him, but because he was afraid of the Ghost Emperor.

If these people are released, the Ghost Emperor may come in person next. There is no human life that the Ghost Emperor wants that cannot be taken, and he will definitely try his best to kill them.

"That....."

This is really a dilemma, I don't know what to choose at all.

"What else is there? Just go directly to the palace tomorrow and find all the babies. That will be enough. Is it possible that the Ghost King can still send all his troops here?"

Lin Caisang looked at the minister angrily and said.

Minister: "..."

Could he say that it was really possible that the Ghost Emperor would do this?

It's not like he's done it before. He's really sent a large army just to destroy a family that he couldn't stand.

"Sir, why don't we leave for a while?" Lao Qi came over and suggested in a low voice.

Chapter 3312 The client is dead

They are soft-spoken and have no skills. Any ghost guard in the ghost palace can kill them if they come over.

So he was thinking, should they stay away for a few days?

"You... don't have to."

The minister felt that it was necessary for others, but it was completely unnecessary for the seventh old couple in front of him.

It is impossible for the Ghost King to hurt two insignificant people. Killing them would be of no use to him, so why bother?

"They really need to leave."

Lin Caisang looked at Lao Qi and said quietly.

It may not be necessary for others, but the two people in front of her really have to hide. If something happens to them, wouldn't her mission be ruined all of a sudden?

"Two adults, the Ghost Emperor probably won't..."

The minister wanted to say that the Ghost Emperor was not so concerned with two people who were nothing, and that the Ghost Emperor's eyes were not that shallow.

"If the client dies, then our mission will end immediately. We will pretend that we have never taken over this mission. What do you think?" Lin Caisang interrupted the minister and asked him.

For this mission of Wuzhu Teahouse, the most important person is the person who initiated the mission for them.

If the person who initiated the mission dies, what other mission will they do?

"Well.

The minister was choked by her words and did not dare to say anything immediately.

"You guys should find a place to hide and come back after the storm calms down." He said to the two of them.

"Yes, sir." Lao Qi responded.

...

Lao Qi and his wife quickly hid out.

They didn't go anywhere, except that there used to be a cellar in their home, which was very hidden and impossible for outsiders to find.

So the two of them put the food at home into the cellar and lived in it.

After all, it is not safe to go anywhere now. It is not the most dangerous place. Who would have thought that they would still stay in their home? Even the ghost guards sent by the Ghost Emperor would see their house empty. Sometimes, it feels like they have gone outside to hide.

As for the Ghost Emperor, after the ghost guards he sent out never returned, he knew that it was impossible to kill the people in Wuzhu Tea House.

But he was still very angry and banged the table hard.

"Those trashes are really useless! They can't handle such a small thing, trash!"

It's useless to not be able to kill even two people and not to be able to come back.

Seeing that those people were about to discover him, he couldn't even drive away the two people from Wuzhu Teahouse. He didn't know how angry he was, he was about to explode.

"Ghost King, I heard that the people from Wuzhu Teahouse came to investigate the missing baby after receiving a mission. What if the person who went to find them dies?"

Beside the Ghost King, a ghost guard whispered a reminder in his ear.

"Um?"

The Ghost King looked sideways at the Ghost Guard.

"you mean....."

"Have you heard that the people from Wuzhu Teahouse once received a mission from the human race, but the person who gave them the mission died, and then they went back without accomplishing anything."

The ghost guard said to the ghost emperor again.

He had checked the people at Wuzhu Teahouse. The purpose of these people was very simple, which was to help the sufferer accomplish what they wanted to do.

But after the torturer died, they would no longer investigate and would leave directly.

Chapter 3313 What are you going to fight with me for?

After hearing the Ghost Guard's words, the Ghost Emperor's eyes lit up.

"So, as long as that family is dead, the people from Wuzhu Teahouse will leave the ghost clan?"

If that's the case, then he will have a direction for what he does. Lao Qi's family actually found people from Wuzhu Teahouse, so they should have died.

"You're fine."

He glanced at the ghost guard and nodded with satisfaction.

"Thank you Ghost King. This is what you should do. Ghost King, are you going to kill that family now?" he asked.

It is difficult to kill the people in Wuzhu Tea House, but it is not easy to kill a few unknown members of the ghost clan. You can do it anywhere.

"Go and do it, I will let them die without a burial place." The Ghost Emperor ordered to the Ghost Guards.

If you dare to cause trouble to him, how could he easily spare that family member? He originally thought of waiting for this matter to pass before dealing with that family member, but now it seems that he has to deal with it now.

But it's all the same. It's all about death anyway. What's the difference between dying early and dying late?

"Yes, Ghost Emperor, I'll do it now." The ghost guard listened to the Ghost Emperor's instructions and immediately went to do it.

But not long after, he received a reply that Lao Qi's house had long been empty, and there was no one else there. Only the empty house was left.

After receiving the reply, the ghost guard was so angry that he smashed his fist against the wall. He hated himself for not warning the ghost emperor earlier.

Otherwise, his great achievements would have been established!

"Since there is no one left, no one is allowed to mention them from now on.

After a long while, he took a deep breath and gave instructions to the people under his hands.

As long as the person is gone, he can say whatever he wants in front of the Ghost Emperor, and the Ghost Emperor cannot verify it.

He just told the Ghost Emperor directly that it would be fine if all the family members were killed.

"You guys go down."

"Yes, boss." The other ghost guards turned and left.

The ghost guard turned around and went to the ghost emperor's side to reply.

Of course, what he replied was that Lao Qi's family had been killed by the people he sent, and no one was left alive.

The Ghost King was quite happy and rewarded the Ghost Guards with many things. Of course, this was also due to the fact that Sui Zimo and Lin Caisang really disappeared and disappeared from their ghost clan.

"Hmph, Guiming, I want to see what you can do to fight me without those two people from Wuzhu Tea House!"

He has been comparing himself to Gui Ming all his life. Ever since he was little, he has never been as good as Gui Ming. The throne finally fell to him. How could he let Gui Ming continue to dominate him?

So this time, he must take the entire ghost clan into his own hands!

"Just back off."

"Yes, Ghost King."

After the ghost guards retreated, the ghost emperor's eyes dimmed.

He thought of the mutant plant. Although it was such a small plant, it was buried in the soil and could not even move, but...

This Mutant Absolute Flower really gave him a headache. If he hadn't kept it useful, he really wanted to chop the Mutant Absolute Flower in half with one palm.

Forget it, it's useless to think so much, he should continue to take care of the mutant flower.

...

Early on the next morning, Sui Zimo and Lin Caisang appeared in the ghost palace, where Lord Ming was.

Chapter 3314 They are all hiding inside!

The two of them, Sui Zimo was casually wearing the clothes of a ghost guard, while Lin Caisang was dressed like a palace maid, sitting on a chair, drinking tea leisurely.

"I've asked around, and there aren't many places that the Ghost King often goes to recently. They're not places that are particularly tightly guarded by ghost guards. You should be able to get in."

Lord Ming looked at the two of them and said.

In the Ghost Palace, it is not he or any minister who knows best where the Ghost Emperor has gone, but the palace maids and the Ghost Guards. They know best where the Ghost Emperor has gone and where he has not gone every day.

Even which ghost concubine's palace the Ghost King went to and how long he stayed will be clearly remembered by the ghost guards and palace maids.

Because the one they need to curry favor with cannot be the Ghost Emperor, but the Ghost Concubines.

They will only fawn over the favored ghost concubine.

"Master Ming means that the place where the Ghost King hides the baby will be a place he often goes to?" Sui Zimo looked at Master Ming and asked.

"Isn't it?"

Master Ming also looked at him, with confusion in his eyes.

The mutant Juehua needs to be fed every day, so this place must be the place where the Ghost King goes most often.

He thought so, but he saw Sui Zimo and Lin Caisang shaking their heads at the same time.

"You don't think so?"

"Lord Ming, in this ghost palace, where is the place where the Ghost Emperor spends his time most often?" Lin Caisang asked him.

"Of course it's the study, where the Ghost King handles affairs." Master Ming replied without thinking.

If the place where the Ghost King spends most time is said to be the study, right? There are twelve hours in a day, and for at least three of them, the Ghost Emperor is in the study.

Three hours...

"wrong."

He shook his head and realized that he had really thought wrong.

"The place where the Ghost Emperor spends the longest time is not the study, but the bedroom."

So what they mean is that it is very possible that those babies are in the Ghost Emperor's chamber?

"No, no, it's impossible."

He shook his head in disbelief, feeling that this idea was really terrible.

The Ghost Emperor's dormitory was the former Ghost Emperor's dormitory. He had been there countless times, but there was no secret passage inside. So where would the Ghost Emperor put those babies?

What's more, they had never heard a baby's cry.

"Unless...he dug a secret passage in the dormitory, built a large secret room, and hid the babies in it!"

The Ghost King is considered very powerful. He was able to create such a thing quietly in the Ghost Palace. This is a Ghost Palace, and there are so many ghost guards patrolling it every day!

"Master Ming, do you think it's impossible?" Sui Zimo asked him.

"this....."

Master Ming's face was full of embarrassment.

He wanted to say it was impossible, but even he didn't believe it.

Now he just wants to say one thing, his brother really tried every means to deal with him!

"I don't think so. The Ghost Emperor's bedroom is indeed the most likely one." He had to admit that this was a fact and could only say.

"Do you two have any ideas?"

"Of course I went directly to see it." Lin Caisang said without thinking.

Master Ming: "..."

That was the Ghost Emperor's bedroom, and it was also the place with the most ghost guards. It was really difficult to get in!

"I'm afraid it's not that easy to enter the Ghost Emperor's bedroom."

Chapter 3315 I can't find it back

"Um.

Lin Caisang responded lightly.

"It's not easy, isn't it? Zimo, let's go in first and see what's going on inside."

"good."

Sui Zimo responded.

Master Ming: "..."

Was what he just said in vain?

Didn't they already know that it was not easy to enter the Ghost Emperor's chamber, so why did they still want to enter?

"Two adults..."

"We have an invisibility elixir.

Before he could remind them, Sui Zimo spoke to him.

Upon hearing this, Master Ming immediately shut up.

Sure enough, he was thinking too simplistically. These two people in front of him were from Wuzhu Teahouse. Among the three tribes, no one could control them. Naturally, some methods must be higher than them.

"Those two are free to do so," he said.

...

Outside the Ghost Emperor's chamber.

The two invisible people stood there openly, and beside them was a mutant Juehua.

"How's it going? Can you smell it here?" Lin Caisang looked at the mutant Juehua and asked.

"A little bit, it's really light, so light that you can hardly smell it." The mutant Juehua sensed it for a long time before sensing a little bit of the breath, and said to the two of them.

"That person probably knew a lot about Mutant Juehua, so he didn't just create a secret tunnel, but dug a long way to let the aura dissipate.

It's a pity that he doesn't know that the connection between mutants and flowers is sometimes not through smell. It's a kind of... connection that others can't describe.

I can feel that the aura I sensed in this place has a touch of depression, anger, fear and many other emotions mixed together. I can't describe the specifics. "

After all, he is just a mutant flower. There are many human feelings that he does not know.

"Then it must be here." Lin Caisang said with great certainty.

"Go in and have a look."

Sui Zimo was even more direct. He took his wife's hand and the two of them went in.

After a while, they found the entrance to the secret passage in the dormitory, and walked in together with the mutant Juehua.

...

On the other side, in order to allow Sui Zi and Mo to have more time to check out the Ghost Emperor's chamber, Master Ming came to the Ghost Emperor's study, and the two chatted about major events in the Ghost Clan.

Naturally, what was mentioned was the biggest thing among the ghost clan, the disappearance of so many children.

"Ghost King, I still think that we should send people to find the whereabouts of those babies as soon as possible. If they are alive, try to find them so that the children can be reunited with their families."

Master Ming said bluntly.

After hearing their words, the Ghost Emperor snorted coldly in his heart.

get back? How can it be!

He still has use for those babies. How can he let Gui Ming get them back so that he can establish a higher image in the hearts of the people of the Gui clan? Does that seem like something he would do?

"Ming, you don't need to mention this matter anymore. I estimate that those children will never be found again. It's better to keep the ghost clan safe and not let such a thing happen again. That's already good."

He spoke to Master Ming.

Anyway, he already has enough babies in his hand, and there is no need to send people to steal them.

As for whether to guard the ghost clan or not, it's just a matter of his words, which can save a lot of trouble.

Chapter 3316 Self-reliance

"What's more, now that we have found the baby, which one belongs to which family? Let alone us, even they themselves can't tell the difference, right? Instead of letting them pick up a random child and raise it, they will keep it from now on. Beating and scolding the children would be worse than not getting those children back.

Besides, do you think those families would be willing to raise a child that has nothing to do with their own family?

Our ghost tribe is different from the other two tribes. They would rather have their own children die than raise other people's children. This is the nature of the ghost tribe, Ming, do you understand? "

Master Ming: "..."

Is this what a Ghost King should say?

If the people of the ghost clan heard it, they wouldn't be able to curse and shout him and pull him down from the throne of the ghost emperor?

Can he still hold his current position as the Ghost King that he once dreamed of?

Of course, the person in front of me has only been sitting in this position for a few days. When those children are found, it will be his turn. By then, he will definitely not be as merciless as before!

"Even if we don't know which child belongs to which family, if we can find it, it is still the child of our ghost clan! Ghost Emperor, do you know what a thousand children of the ghost clan mean to the ghost clan?"

That is the future of our ghost clan! If they can be found, regardless of whether those families want them or not, even if they don't want them, I am willing to fund the construction of a shelter and raise the children until they can be self-reliant.

He said to the Ghost King.

"you--"

The Ghost Emperor was almost angered to death by Lord Ming.

Is this a deliberate attempt to go against him here?

The children he finally kidnapped were good to Guiming, but he wanted to use them to establish a better image for himself in the hearts of the people?

Ha, it's a beautiful thought, but it depends on whether he agrees, right?

"Forget it, I'm too lazy to explain to you. I just want to tell you, Ming, this matter is not as simple as you think."

He didn't bother to explain. Gui Ming couldn't save those children anyway. He kept those little things and they were of great use, so he wouldn't give Gui Ming this chance.

"I have some important matters to deal with here, so please go back first."

He said something to Master Ming, and then pretended to lower his head and start handling affairs.

Master Ming looked at his pretentious look and sighed in his heart. When did this brother start to become like this?

"Ghost King, besides this matter, there are other things that I also want to talk to you about."

Naturally, he couldn't leave so quickly. He had to give Sui Zimo and Lin Caisang more time to find those children.

After hearing his words, the Ghost King secretly rolled his eyes, took a deep breath, and looked up at him.

"What else?" he asked.

He knew all the little things about the ghost clan.

But those things were really just trivial things that he didn't bother to pay attention to.

If those people from the ghost clan can't even handle that little thing, and they still have to bother him, the ghost emperor, to come forward, then what use does he need those people for?

"And what happened in Ruseong..."

...

Under the Ghost Emperor's chamber.

After walking for a long time, Sui Zimo and the two finally came to a large secret room.

"Oh my God!"

Looking at the dense numbers of babies thrown carelessly on the ground, and listening to the crying sounds.

Chapter 3317 It's terrible

Her scalp was numb.

This Ghost King is really so inhumane. He leaves so many children everywhere, and it seems that he is not prepared to pay attention to them at all.

"over there!"

The mutant Juehua ignored those children, but looked at a place and walked over quickly.

Sui Zimo and Lin Caisang saw this and immediately followed.

However, there was really no place to set foot in this place. They had to be very careful before they could walk over, and they only needed to fly.

"It's here, it's here.

After a while, the two came to a small round jade vat, and saw that it was full of blood.

The two of them frowned at the same time. When Sui Zimo turned around, he saw several bodies of babies thrown on the ground, like rags, thrown everywhere.

"Tsk!"

Lin Caisang couldn't help but clicked his tongue.

At this moment, she really wanted to rush outside and cut the evil Ghost Emperor into pieces!

After using other people's blood and throwing it away like this, at least they need to find a place to bury them, right? I have never seen such a vicious person.

Well, even with the Ghost Emperor's temper, he has already thought of using the blood of babies to water the mutant child's flower. How can he still be humane? He has already turned into a complete evil.

"call!"

She exhaled heavily and looked into the jade vat again, wanting to see if the small mutant Juehua was there, but the mutant Juehua they wanted to see was not there. .

"Where's the little mutant Juehua? Why not?" Lin Caisang asked.

"Right inside."

The mutant Juehua looked at the jade vat and spoke to the two of them.

"That person is really evil. How can he be so impure? He simply wants little Huahua to turn into a devil!"

Even if the mutant Juehua turns into a fierce flower, it needs to absorb the blood of the baby, but it is not soaked in it. It is simply inhumane!

"The mutant Juehua absorbs blood slowly. Where can there be such a thing? It's too scary. It's too scary. Little Huahua, where are you?" He wanted to reach out and looked for his brother.

But when he thought that the jade vat was all filled with baby's blood, he didn't dare.

"Let's do it."

Lin Caisang and Sui Zimo had no choice but to take matters into their own hands.

After a while, they rescued a small, poor mutant Juehua from the jade vat.

I washed him with clean water and put it in the palm of my hand. I saw that he was already sluggish and had no energy at all.

"Oh my God, little Huahua, why have you become so small?" The mutant Juehua saw the appearance of little Huahua, and the black smoke all over her body became even thicker with anger.

When his brother was around him, he was still quite big. Although he was a young flower, none of his children were meant for smaller ones, let alone one that grew out of his body.

But now, the little flower was in Lin Caisang's hand, just such a small plant.

Little Huahua couldn't speak, she just lay in Lin Caisang's hand, trembling.

"He shouldn't have absorbed the blood, right?" Sui Zimo looked at Xiao Huahua and asked.

He didn't smell the smell of blood on the clean little Huahua, which means he didn't absorb something he shouldn't.

Chapter 3318 So shameful

"Yes.

The mutant Juehua replied.

"Little Huahua should be resisting the blood, so it uses its own juice to replenish its own life form, so it becomes so small."

However, the juice of their mutant Juehua is also limited. In other words, if they come a few days later, the little Huahua will not be able to control their own thoughts and start to absorb the blood.

Thinking of this, he couldn't help but let out a breath of air.

Fortunately, he didn't arrive too late. His brother could still be saved, and he didn't need to be slapped to death by him or others.

"Take him out first, as for these children..."

Sui Zimo immediately made a decision to take Xiao Huahua out first.

As for these children, they only have two of them, and they cannot send them to the Jinzhu Space. And his Sangmo Garden cannot be used here. He can only keep them until Master Ming is found, and then send them out. People came to take these children out.

But before he finished speaking, he heard the voice of mutant Juehua.

"It's definitely not possible to keep them here. I have a way."

Keeping these children here, if they are a step late and let the Ghost Emperor discover that Xiao Huahua is missing, wouldn't it give him the opportunity to destroy the corpse and eliminate all traces?

There are so many children here, so many lives, we can't just throw them away.

"you....."

Lin Caisang heard his voice and looked sideways at him, wanting to ask what he could do.

However, before she could ask, she saw the mutant Juehua in front of her. She had already cloned many identical mutant Juehua and walked towards the children.

Countless mutated Juehua picked up countless children, and then looked at Lin Caisang and Sui Zimo at the same time.

Seeing this, the two of them couldn't help but twitch their mouths.

This mutant's Juehua ability is still useless. There are so many children who can handle it all by himself. What did this guy say before that they don't have much ability?

It's really embarrassing to think about it.

"Then... let's go."

Get out quickly and send the children back. Don't let anything happen to these children again.

...

When the mutant child Juehua in the jade vat moved, the Ghost Emperor over there had already sensed it.

That jade jar is not an ordinary jade jar. He has set up a formation on it. As long as there is a movement here, he will feel it there.

He secretly screamed something bad and wanted to rush over.

But unfortunately...

"Ghost King, as well as the Putrajaya River, many river banks have been washed away. If they are not repaired..."

Lord Ming was still in front of him, and kept talking about the big and small affairs of the ghost clan without stopping at all, which made him even doubt whether all this was caused by Lord Ming.

"It's such a small matter, Ming, you can just handle it yourself. You don't need to tell me."

He quickly interrupted Lord Ming, wishing he could slap him to death right now, so that he could have time to see what happened to his mutant Juehua.

Could it be that the little thing didn't want to absorb the baby's blood, so it escaped from the jade vat?

It was simply disgusting. He wanted to see if that little thing was more powerful than he!

But no matter how powerful he is, no matter how he can subdue the mutant Juehua, he must first drive away the person in front of him. He looked at Master Ming with a headache, and saw that he was still talking there.

Chapter 3319 It's intentional

"Ghost King, that's not what you said. Although it is a trivial matter, you still have to give the order, so that the people below can do things easily. Moreover, it is really not a trivial matter over the Putrajaya River. Many people have drowned. .

Master Ming said seriously.

In fact, he sent people to deal with the matter at Putrajaya River early in the morning. It should have been dealt with by now.

But of course he would not say this in front of the Ghost Emperor.

And listening to his words, the Ghost King really wanted to beat the person out, but unfortunately he couldn't.

"Okay, I will explain this matter tomorrow. If there is nothing else, you can go back first."

He had to agree first. It was just a small matter over the Putrajaya River, how could it be compared with his plan to cultivate the mutant child Juehua.

"Ghost King, and..."

"besides?!"

The Ghost King almost jumped up.

"Ming, what's going on with you today? Where did the ghost clan come from with so many things happening?" He couldn't help but ask.

Master Ming just raised his eyes, glanced at him lightly, and curled his lips.

"Back to the Ghost Emperor, a lot of things have happened to the ghost clan recently, but because babies have disappeared one after another, and even the emperor's nephew has disappeared, those things have not been mentioned.

It's just that I thought that those things are the ghost clan's top priority and cannot be delayed like this, so I simply mentioned them to you today. "

he said.

Ghost King: "..."

He could hear himself grinding his teeth.

Now he can be sure that Guiming definitely did it on purpose. Did he stop him here, but secretly sent someone to check him?

Has Gui Ming already found out about the mutated child Juehua?

If that's the case, then there is movement in the jade jar over there. Someone who is not a ghost has been found...

Thinking of this possibility, he couldn't help but stand up from his chair.

"Ming, this emperor has important things to do. You should go back first. We will talk about other things later."

With that said, he didn't care whether Gui Ming would chase him or not, and left the study directly.

"Ghost King..."

Master Ming naturally pursued him, but he did not pursue him too far.

"Sir, what should we do now?" The ghost guard next to him saw him coming out and came to his side and asked.

"Send more people to pick up the two adults at Wuzhu Teahouse." Master Ming ordered the ghost guard.

"Yes, sir."

The ghost guard took the order, turned around and left.

Lord Ming also headed towards the Ghost Emperor's chamber.

...

Outside the Ghost Emperor's bedroom.

A large number of babies were spread out outside, looking almost unattractive.

Especially the cries of the babies made people's hearts ache.

"Can't you be more reliable?"

Lin Caisang's mouth twitched, looking at the babies on the ground, and then at the mutant Juehua, who had been merged into one by countless clones.

"It's good to be here." Mutant Juehua's tone was also not good.

He is just a mutated Zijuehua. Do they still think he is very capable? It would cost him half his life to get these children out of that dark secret room.

Now, it is absolutely impossible for him to turn into any number of clones.

"Zimo, what should we do now?"

Seeing what the mutant Juehua said, Lin Caisang had no choice but to look at her husband.

Chapter 3320 What suspicious person

"It's okay to put it here.

Sui Zi's dark eyes flickered, and from the corner of his eye, he noticed the people approaching from far away.

"That's right."

Lin Caisang touched his chin and responded.

Naturally, she heard the sound of someone coming, and there were quite a few people there, as if they were trying to surround the dormitory.

Sure enough, after a while, a group of ghost guards surrounded them.

"What are these? Why are there so many babies here!"

"Oh my God, these are not the babies that disappeared before. Why are they in the ghost palace?"

"So many babies, where did they come from? They don't always want to be in the ghost palace, right?"

The ghost guards gathered around and their hair stood up when they saw so many babies on the ground. They were whispering and guessing where these children came from.

When the Ghost King came over, he saw that the babies he had acquired for several months were being dug up. His eyes went dark with anger and he almost fainted.

"What's going on? What's going on?"

Because Lin Caisang and Sui Zimo had taken invisibility medicine, he couldn't see them and could only roar at the ghost guards.

It seems that Gui Ming really did it. He first used himself to hold him back, and then sent people to his dormitory to get all these children out, just to let the ghost guards see. no?

If he had known earlier, he shouldn't have sent ghost guards just in case. If he had been alone, he would have been able to get all these babies back with his henchmen.

Now.....

Damn it, why did you know it earlier and now?

Now that these babies are here, his mutant Juehua will definitely not be here either.

The mutant child Juehua that he finally found fell into the hands of Guiming, and he felt unwilling to think about it.

But what can he do? Even if he is unwilling, he cannot admit now that these children were captured by him. Otherwise, let alone the position of the Ghost Emperor, he would not want to stay in this ghost palace anymore. .

"Who? Who put this baby here?"

When the ghost guards heard his voice, they all turned their attention to him.

Who knows who is so bold as to put all these babies here? Besides, there are so many children crying so loudly. Who has the ability to put the babies here at once?

Therefore, the ghost guards knew in their hearts that except the ghost emperor, who else would have this ability.

This is outside the Ghost Emperor's bedroom, so these babies were taken out of the Ghost Palace's bedroom and put here to attract their attention, right?

"Someone is coming."

The ghost guards next to the Ghost Emperor reacted and immediately picked up one of the leaders of the other ghost guards.

"Have you seen anyone suspicious?"

"No, no."

The leader of the ghost guards immediately shook his head.

Just kidding, if he said yes, would his neck and head still be connected together?

The Ghost King was in a rage, so he couldn't be punished directly for lax guarding. Moreover, he had never seen anyone suspicious in the first place.

"We saw these babies here without seeing anyone, and we didn't know where they came from."

In fact, they are not fools. How could they not guess that this is simply the work of the Ghost King?
