

Star of Space 342

Chapter 342 Live an ordinary life

"Well.

The imperial doctors didn't dare to say anything, they all just shook their heads.

They thought she was just a fledgling little girl, but they didn't know she was a big wild wolf in sheep's clothing. How could they reply? Who is not afraid of being chewed up by Lin Caisang until even the bones are left?

"Of course I have my own reasons for using medicine. If any of the old gentlemen have different opinions on the prescriptions I use, then let us know and we can improve together." She looked at the doctors.

"But like a few old gentlemen, when I asked you if there was anything wrong with my prescription, you didn't say a word, but you secretly talked about my prescription? Don't you think it's inappropriate? Doesn't it make sense?

It doesn't matter to me. Anyway, this prescription is not suitable for me to drink. It will be the same every morning and every night. But as for the eldest princess, do you think you can afford the delay? Her body could no longer withstand the delay, and all her internal organs were damaged. If she didn't repair it in time, she was afraid that even if she saved her life, she wouldn't be able to live long. (audience)

These...old gentlemen should be able to diagnose it and have already reported it to the emperor, right?"

"What?"

When the emperor heard her words, he immediately screamed regardless of his identity.

"You...are this girl telling the truth?" He glanced at the imperial doctors with sharp eyes and asked coldly.

This girl can even diagnose the poison in his sister, which shows that what she said is true. However, after so many days, none of these doctors have told him, the emperor, that if the poison in his sister is not solved, she will live. Not long.

The imperial doctors were so frightened by the emperor's question that they did not dare to take a breath, and all of them lowered their heads with guilty conscience.

"What am I asking you? Are you all mute?" The emperor was extremely angry and asked sharply again.

"You useless things, why don't you tell the truth quickly? If you hide anything, I won't be the first to spare you without waiting for Father to speak!" Seeing this, the Second Prince stepped forward and faced the elders. the guy yelled.

Several imperial doctors were so frightened that they fell to their knees with a thump.

"Your Majesty... Your Majesty, the poison that the eldest princess suffered is really rare. The ministers are incompetent and unable to save the eldest princess, so that the eldest princess's body is getting weaker and weaker. However, it is not as serious as what this girl said. As long as the eldest princess recovers well after detoxification, After recuperation, you can still live an ordinary life."

How dare they say that because of their incompetence, the eldest princess's life is approaching.

Once such words are spoken, their lives will also go down with them, and they can only pick up nice words to say.

"laugh."

Listening to what the imperial doctor said about 'living an ordinary life', Lin Caisang couldn't help but laugh.

"Old sir, could you please explain what ordinary people's lives are?"

"this....."

The imperial doctor raised his head and looked at Lin Caisang with a low gaze, feeling resentful of this little girl who dared to say anything.

Their hospital was originally a good hospital, and they all agreed with each other about the poison the eldest princess had been exposed to, and would never talk nonsense, because everyone was just a grasshopper tied to a rope.

But after this stinky girl arrived, in just half a day, they lived an unnatural life, fearing that the emperor would drag them out and kill them.

"Your Majesty, do you want to know about the lives of so-called ordinary people?"

Seeing that he couldn't answer, Lin Caisang spontaneously looked at the emperor and opened his mouth to explain to the imperial doctors.
