Chapter 344 This medicine is wrong

When an imperial doctor saw that the emperor actually agreed to the prescription of using Lin Caisheng, he stood up without caring about his own head.

"The eldest princess's body is already weak and cannot be replenished. If she continues to treat her in this way, I'm afraid..."

"What are you afraid of?"

The emperor looked sharply at the imperial physician.

"If you have the ability, then you can also prescribe a prescription to recuperate the body of the eldest princess and detoxify her. If you don't have the ability, just shut up! If you continue to talk nonsense, I will not take it lightly!"

At this time, he could only trust Lin Caisang.

"Well."

When the imperial doctors heard what the emperor said, they were all so frightened that they did not dare to speak any more.

After a while, Aunt Bai came over with a tray in her hand and a bowl of prepared medicine in it. She leaned towards the emperor and was about to take the medicine into the eldest princess's room.

"etc."

Suddenly, Lin Caisang's face darkened and she called out to Aunt Bai.

"Ms. Langzhong, what are your orders?" Aunt Bai turned to look at Lin Caisang and asked.

Lin Caisang raised her feet and took two big steps to come to the front of Aunt Bai. She picked up the bowl of medicine on the tray, put it to her nose and smelled it. She frowned and took a sip from the bowl into her mouth.

After a long while, she spit out the medicine onto the ground, took out a handkerchief and wiped her lips.

"This medicine is not right. 错 误 的 药"

"wrong?"

Aunt Bai's expression changed drastically.

"Impossible, Miss Doctor, the old slave went to the pharmacy to watch the doctor prepare this medicine, and then brewed it himself. It has never been in the hands of others, so there can be no mistake."

Even if she left the kitchen and had her two most trusted maids guarding her, how could she still give someone a chance to do something?

"Girl, has this medicine been tampered with?" The prince immediately came over and asked.

Even the emperor stood up nervously when he heard her words.

The people in the eldest princess's mansion have been replaced. How could something like this happen again? Does he have to let him take his sister into the palace in order to be safe?

Lin Caisang glanced at them, put the medicine bowl back on the tray, and raised his hand to pinch his eyebrows.

"It's not that someone has tampered with it. It's because the amounts of the medicinal materials are wrong, and the properties of the medicine are wrong. The medicine I prescribed is not enough for every medicine that is less or more. Aunt Bai, I wrote the medicinal materials on the prescription. Can you compare the years of production?"

she asked Aunt Bai.

"this....."

Aunt Bai glanced at Lin Caisang, with confusion in her eyes.

"Ms. Doctor, I don't know the year when the medicinal materials in this pharmacy are produced. The doctor only prescribes medicine according to the dosage. As for the year... I think it doesn't matter, right?"

She had never heard of a doctor prescribing medicine, and asking the age of each medicinal ingredient in the medicine would be a torture to someone.

"There may be no problem in curing other people's illnesses, but not the eldest princess." Lin Caisang explained with a serious expression.

"Her body is currently overheated and cannot be properly conditioned. Overexertion will make the body even weaker. There must be no mistakes in the medicinal materials in my prescription, otherwise it will not be a life-saving medicine, but a life-threatening poison. "

"hiss!"

Aunt Bai gasped, her face full of fear.

"Girl, I don't know, I really don't know this will happen..."

If she had known this would be the case, no matter how troublesome it was, she would have taken the medicine exactly as it was written on the prescription.
