Chapter 347 Do you want to test poison?

No matter what they were going to see, they were also looking to see if God would give them a year's harvest. It was raining so hard. As long as the water could be cleared from the fields, it would be good.

Besides, he followed the planting time of mulberry seeds this year and roughly estimated the crops he planted together. If he keeps planting like this in the future, there will be no shortage of food.

Moreover, will he still lack the little food in the land?

"Let's go, let's go early and come back early today."

"Okay." Lin Caisang nodded.

The two left the Lin family, closed the courtyard door, and walked toward the woods. As expected, they saw many people wearing raincoats standing in their fields, watching, and several families gathered together to chat.

She also saw her grandpa, grandma, three uncles, three aunts, and a few little guys who loved to join in the fun.

"Third Aunt, please be careful and let Third Uncle support you."

She warned Yang Lin, who had not yet revealed her pregnancy, and continued walking forward. As she walked towards the forest, there were fewer and fewer people there, until she and Ya Molian were the only ones.

"Brother Melian, what are you doing?"

Looking at Ya Molian who squatted down in front of him as soon as he entered the forest, Lin Caisang asked him with confusion on his face.

"Come up, I'll carry you." Ya Molian said directly.

"Take a nap on my back. It's not too early to go to the princess's mansion. Let's take our time."

Lin Caisang: "..."

Who was that person who just said to leave early and come back early? who is it? Could it be her?

Now he actually told her that it didn't need to be too early and that she could take her time. This really allowed him to say everything and she didn't have to say a word.

"oh."

Without him thinking, she immediately climbed onto his back.

...

In the eldest princess's residence, Lin Caisang handed several identical prescriptions written by herself into the hands of the eldest prince.

It is impossible for the emperor to stay in the eldest princess's mansion every day. He only came to see her yesterday. Everything here depends on the prince, and the things she needs must be prepared by the prince.

"Girl, are there too many things in your prescription?"

The eldest prince carefully looked at the medicinal ingredients on the prescription, with a look of confusion and disbelief on his face.

This is not just a few dollars, but a few pounds per kilogram. Does refining the antidote require so many medicinal materials? If the calculation was based on what was on the prescription, how long would his aunt have to take the medicine?

"This is just a rough prescription. You can't just grab the medicine and give it to the eldest princess." Lin Caisang explained.

"ah?"

After hearing her words, the eldest prince was even more puzzled.

"Girl, what do you mean?"

"Let me tell you, there are three kinds of poisons in the eldest princess's body. Whichever one is eliminated first or last, the eldest princess's body will not be able to withstand it. We use medicine first to fuse these three poisons into one poison. Detoxification, do you understand?"

Lin Caisang explained again.

"So this prescription is not an antidote, but a prescription that can combine these three poisons into one."

"this....."

The prince's face turned green, and his face was full of worry.

"Girl, if you do this, will my aunt be able to withstand it?"

"The eldest prince, please rest assured. I will test the poison first, and will not test the medicine on the eldest princess first, so we need more medicinal materials." Lin Caisang said.

"What? You want to test poison?" The great prince was shocked.

This girl is too bold. She actually wants to try poison. Isn't she seeking death?

"This is not possible. If you are in a coma like my aunt, then no one can cure this antidote. No, it will never work."
