Chapter 364 Can it still be remedied?

...

The next day, before her family members got up, Lin Caisang had already gone out. When she arrived at the bamboo house, it was just dawn. Looking at the rain dripping down the porch, she stood there in a daze.

She wanted to send Ya Molian away last night, but he forcefully refused.

She didn't know when he set off, but she didn't sleep well all night. The place in Youxiang River was really not a good place. She was full of regrets in her heart. How could she let Ya Molian go there? Woolen cloth?

"Miss Lin, are you here so early?"

Ban Wu had just come over and saw Lin Caisang leaning on the door in a daze.

"Ya Molian asked you to come here?"

Seeing Ban Wu, Lin Caisang came back to his senses and took a deep breath.

"You're here just in time. Go to the main room and I'll take your pulse."

"Yes, Miss Lin." Ban Wu responded.

In fact, after receiving the letter of expulsion, he felt faintly excited.

Although he could risk his life for the sake of the palace master, but now that he is still alive, he will never have children in his life. This is not something that any normal man can accept.

The palace master's attitude towards him was also a bit difficult for him to accept.

Except for that aspect, everything else about his body was normal. How come he was sent to raise silkworms? Who couldn't look after that place? He was the palace master's subordinate who was as capable as Ban Jue.

The two of them sat down in the main room one after another. Lin Caisang motioned for him to stretch out his hand and began to feel his pulse.

After a long time, she took back her hand.

"Miss Lin, how is my subordinate's health? Can he still be repaired?" Wu Wu asked when he saw her withdrawing.

Lin Caisang looked up at him with a heavy gaze.

"Exiled Wu, what happened when you went to Youxiang River? I see that your kung fu is not as good as Exiling Art. How could you be so incompetent because you were trapped by the ice?"

"this....."

Ban Wu glanced at Lin Caisang, his face a little embarrassed.

He knew that Lin Caisang was a person whom his palace master trusted very much, and there was nothing he could not say in front of her, so he had no choice but to tell her what happened at Youxiang River two years ago.

"I don't know why the palace master had a poisonous attack, but it was different from previous attacks.

Miss Lin has also seen the poison in the body of the palace master, right? In the past, when the palace master suffered from poisonous attacks, he was able to hold on despite the pain, but that time the poisonous attack was really too severe. "

Recalling the scene when his palace master was poisoned, he couldn't help but shiver, it was so terrifying.

"The whole body of the palace master was purple, and he was not stable for seven days and nights, that is, he was in a coma for seven days and seven nights. The palace doctor was helpless, so his subordinates and banished him arrested the poisonous doctor who had long been famous in the world. Go and heal the palace master.

But when we brought the people here, the master of the palace had already woken up and was as before.

We also learned from the poison doctor that there is a kind of ginseng in the Youxiang River called the 'Ji Hell Ginseng', which can stabilize all poisons in the body. The poison doctor also drew us the appearance of the 'Ji Hell Ginseng'. Only then did we find the 'Ultimate Hell Ginseng'.

Who knew that the 'Ultimate Hell Ginseng' was guarded by so many phoenix puppets, each of which could swallow a person in one bite? At that time, the poison in the body of the main body of the palace was due to the Youxiang River. The cold air suddenly burst out, and the situation was very critical.

In order to save the palace master from trouble, I was stabbed by the barb of the 'Ultimate Hell Ginseng' without checking for a moment, and then..."

As he spoke, his head stopped talking.
