

## Star of Space 411

Chapter 411 Can't hide it

"Well.

Lin Caisang was stunned by Lin Baiyi's words.

But fortunately, she could make it up, so her secret would not be revealed.

"When I was collecting medicine in the forest, I dug up a wild ginseng. The owner of the medicine shop thought it was good, so he gave me a good price, fifty taels of silver." She thought, the money needed for the family now, five taels of silver. Ten taels should be enough, right?

"How much money can you make by collecting herbs?" Lin Laogeng couldn't help but be shocked.

Why did he suddenly not feel sorry for the money stolen by Lin Caihe after listening to Sang Sang's words?

"Grandpa, what Sang Sang picked was wild ginseng, which is valuable, but ginseng is not found everywhere. You have to rely on luck to get it." Lin Changfeng explained for Lin Caisang.

"Uh-huh."

Lin Caisang nodded repeatedly.

Although she has planted more than a dozen wild ginseng branches in her Golden Pearl Space, it is really hard to find wild ginseng outside. She had to run all over the forest to find these, and she just sat and waited for the wild ginseng in the space to bloom. It can produce more and more seeds.

"So we still have to buy cows. In fact, I also want to buy a few piglets to raise. Grandpa, you see there are so many vegetables grown on the barren mountains. Just get some sweet potato leaves or other leaves. Raise a few piglets, otherwise it would be a waste to grow them, right? "

"Raising pigs?"

Lin Laogan's eyes darkened, and he felt that his granddaughter's words were fair. A few scraps of food on the deserted mountain would be enough for a few piglets to eat.

"Aren't you going to open a shop? Do you have time to raise pigs?"

"Of course I can't. Third uncle and the others can do it." Lin Caisang raised his eyebrows.

Why is she raising pigs? Are they full enough to sustain them?

Her Golden Pearl Space is about to be upgraded. Once the breeding system is turned on, she can raise as many pigs as she wants, but after raising pigs, do she have to let them run around in the space? The pigs were the laziest, so she had to get pig food for them.

If she really wants to raise them, she might as well raise wild boars and plant whatever she wants. Anyway, the crops in the space will grow fast enough for the farmed animals to eat.

"us?"

Lin Baiyi was called out and blinked with a confused look on his face, still out of the situation.

"Yes, Third Uncle, you can clean up the stone mill. It won't be a problem to raise a few pigs. You don't even need to fight the pig grass. You can just go to the barren mountain to get vegetables and feed the pigs. It will save trouble."

Lin Caisang nodded, thinking this idea was quite good.

"this....."

Lin Baiyi looked at his wife and wanted to ask her what she meant.

"Keep it up."

Yang Lin took a deep breath, exhaled heavily, and nodded.

"Bai Yi, you go to the patriarch's house later and tell him about He'er. I probably won't be able to get him back, but there is someone missing from the family. We always want everyone in the village to know what happened. Things cannot be hidden."

I ran away in the morning and now I'm looking for it. Where can I go to find it?

Besides, it wasn't that he got lost, but that he stole something and ran away. If they wanted to find it, they had to be willing to let them find it.

"Okay, I'll go." Lin Baiyi nodded.

...

After dinner, everyone went back to the house. A messy room always had to be tidied up. In Lin Changfeng's house, Lin Caiqing took the initiative to come over and help tidy it up.

"Brother, what do you think the second sister is thinking about?"

The more she thought about it, the angrier she became. She turned to her eldest brother angrily and asked him.

"Grandma wasn't good enough to her? The things you said she did and the words she said, that's what she did here. If you didn't do anything to her, who else wouldn't be beaten half to death? How could she still do it? Not satisfied?"
