

Star of Space 473

Chapter 473 How painful would that be?

"In addition, the facial bones are injured. There is not much flesh on the face, and even less on the bridge of the nose. Although the bones have healed, they are always different from the original ones. Even if the surface is restored, the protruding part of the bones, it will also highlight your skin and flesh.

"What should we do?"

Jin Lele became anxious when she heard what she said.

"Can't my sister's face be cured? Miss doctor, you must think of a way. I beg you, I will kneel down for you."

Lin Caisang: "..."

Is this little lady here to tease her?

She quickly supported Mrs. Zhi, who could kneel down even when she said she wanted to.

However, looking at this situation, she could also understand that the relationship between the two ladies in Zhifu was really not that good. I am afraid that many people in Jian'an City secretly envied them.

"I didn't say it can't be cured. You get up first."

"Can it be cured?"

Jin Lele was overjoyed, stood up quickly, and ran to Jin Anan's side excitedly.

"Sister, did you hear it? The doctor said it can be cured."

"I heard it, Lele, don't get excited, listen carefully to the doctor's daughter." Jin Anan patted Jin Lele's hand and ordered.

"well."

Jin Lele was satisfied when she heard that her sister's face could be cured.

"Ms. Langzhong, please tell me."

Zhi Lingyang and Jin Anan said to Lin Caisang at the same time.

"Madam Zhi has only one way to restore her appearance."

Lin Caisang's eyes looked back and forth at the three people in front of him, and finally he spoke quietly.

"To put it simply, the skin and flesh on Mrs. Zhi's face are cut again, and then some of the protruding bones are removed, so that the facial bones look similar to before. Then the skin and flesh are repaired again, and the scar removal cream is used , it can be restored.

But even so, I can't guarantee that Mrs. Zhi's face will definitely return to its original appearance, and it will most likely turn into another appearance. But what I can guarantee is that you will not have this injury on your face again.

However, this method sounds very simple, and I can guarantee that there will be no danger, but the suffering that Mrs. Zhi has to endure cannot be replaced by others. After all, it is an injury on the face, and there will be a period of healing afterwards. It can be said that The most unbearable.

It's up to you to decide whether you want to restore your appearance. "

She finished her words in one breath and waited for their words.

At this moment, Jin Anan, Jin Lele, and Zhi Lingyang were all stunned. How could there be such a way to treat injuries, and they had to re-slit the skin and flesh of a person? Was An An trying to kill him? ?

"Mr.....Ms. Langzhong, you..."

Zhi Lingyang couldn't speak clearly and looked at Lin Caisang like he was looking at a monster.

"Young lady, if you cut my sister's flesh, it will hurt so much. Can she bear it? Even if she can bear it, she still has to scrape the bones. She..."

Jin Lele felt that the girl in front of her was a madman, how could she come up with such an idea.

Don't you want her sister's life?

"Don't worry about this. I have medicine here specially designed to anesthetize people. When I scrape the bones of Mrs. Chi, she won't feel any pain." Lin Caisang said.

"I have used this medicine on others before, so you can rest assured of its effectiveness."

"Really?"

Jin Lele still didn't believe it.

"I treat illnesses and save people, and I never say a word." Lin Caisang looked at Jin Lele and replied solemnly.
