

## Star of Space 508

Chapter 508 I'll cook for you

Lin Caisang found out the truth, but she didn't expect that her luck was really over the top. Yamo Lian had encountered the white fox that she had not encountered in so many years, and the two of them even caught the white fox. .

"I've seen it. That white fox is a female. It would be great if we could catch another male."

Yamolian: "..."

He raised his hand and tapped her forehead.

It's too good, so they have to be able to touch it. If they can't touch it, it won't be in vain.

"Aren't you going to catch civets? Come with me, I know where there are more civets."

"Wait, no more."

Civets are not carnivores. If she catches a few more civets, but if she eats all the rabbits and quails she caught before because of catching a few civets, then her efforts will be in vain.

"Let's catch carnivores next time. Brother Melian, let's catch sika deer, red deer, and peacocks. Didn't you catch wild pigeons last time? There are also pheasants that you can catch."

"All right."

Ya Molian leaned against her and nodded.

I thought that since I had entered the inner forest, I couldn't come here in vain, so I naturally had to catch more animals for her, at least to make her laugh.

"Peacocks and wild pigeons are easy to catch, but red deer and sika deer depend on luck."

"It's not just these kinds of things, just grab whatever you see." Lin Caisang curled his lips and said.

...

For a whole morning and half an afternoon, the two of them spent time in the inner forest, occasionally encountering large animals, such as black bears and panthers.

Lin Caisang was stunned when he saw the black bear that was much taller than him, and the black panther standing on the fork of the tree, ready to go. In his previous life, he could only see animals in the zoo, but here he is. I can see it up close.

Moreover, Lin Caisang didn't care that the danger was approaching. Since he was the one who rushed to the door, wouldn't he be sorry if he didn't catch him? In the end, he didn't care whether it was a carnivore or not, he would catch him as soon as he saw it.

"Brother Mo Lian, we are really lucky."

The harvest was full, Lin Caisang looked at the white fox in his arms that was trying to escape but couldn't escape no matter what.

Just now she caught a glimpse of the white fox hiding aside, holding its breath and motionless. It took Yamo Lian a lot of effort to catch it, and it was only a male.

It happens to be a pair with the one in the pasture space.

"It's your luck."

Ya Molian reached out and pinched her cheek.

"Do you want to arrest more? You have already arrested a lot today."

In fact, what he wants to ask is, if you catch so many animals, can you raise them by yourself? You just want to have ten pairs of hands and ten pairs of feet, right?

"Well, that's about it for today. Let's come back next time."

Lin Caisang thought for a while and felt that she had almost caught them. He turned around and waited until she memorized the ranch space manual before catching more.

She also knew that it was a bit reckless to enter the inner forest so quickly today. Maybe it was because of the horse. She always wanted to fill up her pasture space quickly.

"Brother Melian, are you hungry? I have peaches and other fruits here. Do you want them?"

After scratching for a long time, she realized that neither of them had eaten lunch.

"No, go to the bamboo house and I will cook for you." Ya Molian said.

"OK."

Lin Caisang nodded happily.

"Brother Mo Lian, you are so good, you really know everything."

Yamolian: "..."

This girl knew she was going back, so she hurriedly said a lot of good things. Was she afraid that he would beat her because she sneaked into Neilin this time?
