

Star of Space 520

Chapter 520 Wrong calculation!

Lin Baiyi was left speechless by the two elders. Although it was a big deal that Yaguman's arm could be cured, was it necessary for the two elders to tell him so?

"Mom, I'm not as old as Qing Yatou, how can I not know?" He asked his mother angrily.

"Do you know how I know? I'm afraid that if you can't hold it back, you might start arguing with those people outside and let the matter slip." Seeing that they all remembered it, Lu Qiubo raised his head and raised his eyebrows. The voice was lowered.

"You all have to remember this. If you want Qing Ya to get married and stay comfortably in her husband's house, you can't talk about Gu Man to anyone now." Lin Laogeng warned the two of them again.

"What do you mean, you are still afraid that Gu Man's parents will cause trouble." Lin Baiyi muttered funny.

But soon, the smile at the corner of his mouth was hidden, and he suddenly came back to his senses, remembering what might happen.

"What do you think?"

Lin Laogong stared at him and asked him.

"I think this is... hanging!"

Lin Baiyi let out a light 'tsk' and shook his head.

"Gu Man is the pillar of his family. If his parents knew that his arm could be cured, they wouldn't cry outside and beg their mother to let Gu Man go back. Then they would have to fill that bottomless hole again. This would be terrible. useless.

That's not right. Gu Man's arm has healed, and he will have to work in the future. Don't everyone have to know, can this matter be kept hidden? "

"It depends on Gu Man himself." Lin Laogong said.

Whether they can hide it or not, they shouldn't be able to interfere. It depends on what Yaguman wants to do.

"Anyway, the matter between Qing Yatou and Gu Man hasn't been settled yet. Gu Man has just moved to the old house a few days ago. We have to wait. Remember, no one is from the Lin family who can say anything about this matter. Go outside and tell the rest of the family later, don't let them show off outside."

"Okay, I get it now."

Lin Baiyi nodded quickly, knowing that this matter was of great concern, so he did not dare to say anything else.

"Qing Yatou, did you hear this? This matter has a lot to do with whether you will be able to live well in the future. Don't go out and fool around. Do you understand?"

"Dad, I'm listening."

Lin Caiqing rolled her eyes at her father, feeling a little speechless.

After all, what Grandpa just said was to her father alone. Didn't she even have her ears covered? She heard it clearly and already knew it.

"Also, that Doctor Lin, stay away from him when you see him in the future!" Thinking of Lin Caisang's words before, he warned Lin Caiqing again.

"Of course." Lin Caiqing replied.

"Our Sister Sang Sang is much more powerful than Dr. Lin. Why should I care about him? Isn't it because he's full? Hey, he came to me a few days ago and told me to ask Sister Sang Sang to get some money. , he can heal Brother Guman's arm, and maybe he can heal it, I believe him!"

"What? He came to see you?" Lin Baiyi was shocked when he heard this.

As expected, as Sangsang said, Doctor Lin is a restless and kind-hearted person.

Seeing that the Ya family had given up on Ya Gu Man, they instead set their sights on the Lin family. Thinking that his family and Ya Gu Man were going to get engaged, they wanted to open their mouths to them.

This is really a good idea, but it's a pity that he made the wrong calculation!

"Why didn't we know when?" Lu Qiubo asked nervously after hearing what his granddaughter said.
