Chapter 785 It's too precious and she doesn't want it

Accompanied by steady footsteps, two figures came downstairs step by step.

"Master Su is so calm. Half of his son's body is almost buried in the ground, yet he still has the thought to go out to eat. I really have to admire Master Su's determination."

Su Yang raised his head and looked at Lin Caisang, who was walking down the stairs step by step. He had already cursed tens of thousands of times in his heart.

However, he couldn't do anything to her.

Because neither he nor his son Suri would have to rely on her for medical treatment.

"What does the girl want?" he asked in a deep voice.

"Not at all."

Lin Caisang walked down step by step until he was a few steps in front of Suyang, then he stopped.

"Just now, Master Su seems to have some objections to this girl. I think that those who have sought medical treatment in the past have never had any objections to me. It is not good for Master Su to set a precedent here. It is bad. This girl's reputation is right, Master Su, don't you think?"

Lin Caisang looked at him steadily and asked.

Hearing this, Suyang felt as if someone had stepped on his chest, and he couldn't breathe out.

"yes!"

He grinded out one word from between his teeth.

"Girl, it was my master who was disrespectful to you in front of the mansion before. My master apologizes to you. I hope you have more knowledge and don't be as knowledgeable as my master.

Now that he's here, he's ready to fight.

"Easy to say, easy to say." Lin Caisang nodded.

He raised his hand and waved his sleeve gently in the air.

Suddenly, Su Yang felt the endless pain in his body, which seemed to be completely healed in an instant, as if the pain before was all fake and had never existed.

"you--"

He was horrified and felt an inexplicable fear towards the little girl in front of him.

Even though she was wearing a mask, this little girl looked young. How could she be so capable? It seems that he really made a mistake before. This little girl is not easy to mess with.

"Thank you for your mercy, girl."

His face turned slightly dark, and although he was unwilling to do so, he still thanked Lin Caisang.

Lin Caisang just grinned and didn't say much.

"Miss, now that the matter has been resolved, let's... go?" Sui Ziyong stepped forward in time and asked Lin Caisang.

"That's fine."

Lin Caisang glanced sideways at her and nodded.

Hearing the conversation between the two, Su Yang and Butler Xin were startled at the same time. Without thinking, Su Yang immediately glanced sideways and glanced at Butler Xin.

Butler Xin understood, and immediately took out the notice that had been picked up before, and respectfully handed it to Lin Caisang with both hands, "Girl, please lend a little help to treat my young master's illness."

Lin Caisang lowered his eyes and glanced at the notice, but did not take it.

"It is the duty of a doctor to treat illnesses and save people, but this notice... haha." She sneered twice.

Butler Xin didn't know why, so he looked up at Lin Caisang. Seeing that she didn't even glance at him from the corner of his eye, he could only look at his master in confusion.

"Sir, this..."

Isn't this aunt here to treat his young master? Why didn't you answer the notice at this time? Could it be that he is not satisfied with the reward on the notice? But just a thousand-year-old snow ginseng is what many doctors dream of?

What else does this aunt feel dissatisfied with?

"My young lady said that this thousand-year-old snow ginseng is too precious. If she doesn't want it, she should change it to another thank you gift." Sui Ziyu stood up and spoke frankly to Su Yang.
