

Star of Space 823

Chapter 823: Isn't it a bit too much?

"If Mrs. Zhou can come up with an idea, she can come up with a second one and a third one. I think this old woman is very vicious. I should give her some color.

Hearing this, Lin Caisang also nodded.

The Zhou family was bullying others too much, thinking that she was afraid of them because she repeatedly gave in.

"Let's let it go and let everyone in Qianlin County know that Zhou Liang found two more girls outside and secretly hid in the outer house to have a good time. This matter doesn't need to be revealed to the county magistrate Jiu Qianjin, just let them know It's enough for the county governor to know."

She placed her fingers on the table, nodded lightly on the table in turn, and said to Nangong Piao'er.

Zhou Liang was really bold. He would do anything if his moral character was not good. The Liu Yushui matter had just ended. He found two more girls outside and secretly provided for them.

If his brother hadn't been well-informed, even Nangong Piao'er and the others wouldn't have found out about this matter.

"Mother, where did you get this news?" Nangong Piao'er was also surprised when she heard this.

"You don't have to worry about where the news came from, just go and do it. Also, the county governor's daughter should also be carefully discussed. She and the guards around her should also be told about it, so that she can hear it. She also considers what she should do and what she cannot touch."

Lin Caisang said.

"Yes, Mistress, I will take care of it tomorrow morning." Nangong Piao'er responded.

"in addition....."

Lin Caisang thought again, took out a shining golden token from his arms, and threw it on the table.

"Take this and show it to our Lord Sheriff."

"Is this...a gold medal to avoid death?"

Ya Yufeng had never seen this thing before, but Nangong Piao'er had been following Ya Molian on errands since she was a child, so she had some sharp eyesight.

When I saw the death-free gold medal that Lin Caisang took out, I was almost shocked.

"This... Mistress, are you a little too big for your game?"

He's just a county guard, does he need this thing? If this thing is placed in Jian'an City, it is also something that can cause a wave of waves. Could it be used to scare a mere county guard?

"I've been very busy recently and have no time to deal with those unimportant people." Lin Caisang said straightforwardly.

She also wants to spend more time with her brother Mo Lian. As for the Zhou family, she has no control over how they like to cool off.

Just don't mess with her.

"In addition, you should pay more attention to the affairs in the village. Don't make any more noise because of buying a mountain and digging a pond. Also... Ban Yilu must keep an eye on it. Behind her, there is probably someone A big fish."

She warned them again.

"Don't worry, mistress, my subordinates and Beidou are keeping an eye on me. She doesn't have time to pry into other people's affairs." Nangong Piao'er said.

Of course, this can only be done during the day. Whatever Ban Yilu wants to do at night is beyond her and Beidou's ability to interfere. However, she and Beidou will just keep an eye on it.

"Um."

Lin Caisang nodded.

"Brother Yufeng, Piao'er, I may not be in the village from time to time these days. If anyone asks, please remember to find some good reasons for me and don't sell me out."

she said.

"Yes, Mistress." Nangong Piao'er responded.

...

Shaohua City, in the imperial palace.

Rather than the female doctor in the Imperial Prefect's Mansion, the emperor was more concerned about his son, who had been exiled for many years. Suddenly, there was a woman around him, and he was openly wandering on the street outside.
