

Star of Space 838

Chapter 838 The color on the face is completely black

"Please step back first. I still have to think about this matter."

"Concubine, please retire."

Concubine Lian retreated obediently.

...

Lin Caisang completely ignored how things were developing in Shaohua City. After returning from Jian'an City, she had been taking care of the medicinal materials in the medicine garden space.

Just watching, I suddenly noticed something strange.

Turning her head back and forth, she looked at the empty land with nothing on it. She looked at the jade mirror again.

"Brother Jade Mirror, please tell me, where is my Thousand Needles Jade?"

She clearly remembered that the Thousand Needles Jade was brought back by her and placed next to the jade mirror in the Medicine Garden. How could the Thousand Needles Jade, which was even taller than hers, disappear in less than a day and a night? Woolen cloth?

'Melt.

In the jade mirror, two appeared.

"Rong... melted?"

Lin Caisang's eyes widened instantly, staring at the two words in the jade mirror in disbelief.

"Don't kid me. That's jade, not wood. How can it melt just by saying it melts?" If it could really melt, the land in her golden bead space would be too corrosive. ?

Also, her brother Mo Lian spent 5,000 taels of silver to buy it, so it just melted?

This is definitely a joke on her.

'Dear Master, Thousand Needles Jade is not an item like jade. ' Yu Jing said.

"Then what is it?"

Lin Caisang asked directly without trembling.

She also knew that the Thousand Needles Jade Sword could not be cut or melted by fire, so it must be extraordinary. But no one knew how to use this thing.

'Thousand Needles Jade is the white spider silk produced by the white spiders on Baibland Mountain. This is a kind of silk fabric. Although no one has ever used it to make clothes, according to the ancient books in the Golden Pearl Space, white spider silk can indeed be used to make clothes. For making clothes, clothes woven with white spider silk are invulnerable and harder than ice silk. '

Lin Caisang: "!!!"

I thought it was a piece of jade, but to my surprise, it turned out to be a ball of wool, right?

But what's the use of talking about it now? What I spent five thousand taels of silver to buy has already been handed over to the land in the medicine garden space. Even if Jade Mirror talks about flowers, it's useless.

"Such a big ball of silk fabric, all gone, phew."

She sighed heavily.

'Dear Master, the White Pearl Silk is still there, because it is considered a high-end medicinal material, so the Medicine Garden Space has automatically placed it on the Medicine Peak. If you need it, you can get it by yourself.'

A few lines of words were displayed again in the jade mirror.

Hearing this, Lin Caisang's body flashed and he immediately reached the Yaofeng Peak, but...

When she came down again, she was staring at the two balls of thread in her hand, which were still smaller than her head. The color on her face was completely black at this moment.

"This is what you said. Bai Zhusi is still there?"

A piece of Thousand Needle Jade as big as hers, after being digested by the space of the medicine garden, becomes two balls of silk thread. If it is woven into cloth, how many meters can it be? Can you make me a dress?

'A large part of Thousand Needle Jade is waste. A piece of Thousand Needle Jade that is so small has two clumps of white spider silk, which is already very good.' Yu Jing said.

Lin Caisang: "..."

At this moment, she wanted to be quiet.

"Then I want to weave it into cloth, what can I do?" she asked.

Since it is a treasure, it is natural to put it to use quickly. It just so happens that Yamolian will set off to the top of the Baibland Mountain in the near future. This white spider silk has the effect of warming up the body. If it can be worn on Yamolian, it will definitely be It helps him suppress the poisonous attacks in his body.
