

Star of Space 906

Chapter 906 Do you understand?

It was really strange. Ever since his young master was cured of poison in the wild, he would knock him out and he would wake up in less than half an hour every time.

Once or twice is okay, but it won't work if it happens too often. He can't always hit the back of the young master's neck. He can handle it. The back of his young master's neck is almost broken, okay?

The bruises on it were already very heavy.

"Are you addicted to drugs?" Lin Caisang asked.

"Yes, yes, it's just the drug." Butler Xin's eyes lit up when he heard her words.

He really had no choice but to ask Lin Caisang for the drug to stun the person directly, so as to avoid knocking the person unconscious again, waking up after a while, and then continuing to yell.

"Girl, you don't want to hear my young master say those dirty words, right? Just a little bit of this drug can make my young master 'rest' for a whole day, right?"

he said.

"Yes, it is." Lin Caisang nodded.

"That....."

"But, I didn't bring any ordinary intoxicating drugs." Lin Caisang said before he could say anything.

"It doesn't matter, it doesn't matter. It's not an ordinary drug." Butler Xin said quickly.

No matter what kind of drug it is, as long as it can let his young master rest for a while and also let their ears rest for a while, that is the best thing.

"oh."

Lin Caisang nodded.

"Doesn't it matter if the drug can kill people?"

Butler Xin: "..."

Of course this is not possible. His young master is your only child, how could he die?

"girl....."

"These medicines on my body are all preparations for going to Baibind Mountain. Just a little bit of each medicine can kill a person without a burial place." Lin Caisang interrupted him and explained.

Yes, there are many medicines on her, including highly toxic ones, mildly toxic ones, detoxifying ones, etc., but none of them are for Sourì.

"That....."

Butler Xin had no choice.

You can't ask Lin Caisang for those poisons that can kill people, right?

"Girl, can you help my young master find out why he could sleep for several hours once he fainted before, but now he can't even sleep for half an hour? Is my young master sick?"

"It's nothing, Butler Xin, don't worry." Lin Caisang said.

"This should be because Mr. Su is physically strong and resistant to many things."

"Resist...resistance?"

Butler Xin's eyes were confused and he had no idea what this thing was.

"That's it... Butler Xin should know that many medical families have some medicine boys, the kind who are specially used to test medicines." Lin Caisang saw that he didn't understand, so he explained again.

"Among them, some people will become invulnerable to all poisons during the process of testing drugs. This means that the body has developed a certain resistance to poisons. Mr. Su should be like this too, but his body is not resistant to poisons. I have become resistant to poison, but to being beaten. Can Butler Xin understand what I mean?"

"Youngster... can... understand, right?" Butler Xin responded blankly.

He knew that this kind of beating could bring out the feelings, but he really... had never heard of it.

"Steward Xin, knocking Mr. Su unconscious now has no effect. In my opinion, why don't you find a piece of cloth and plug Mr. Su's mouth, so that his ears will be better."
