

Star of Space 911

Chapter 911 The strange disappearance disappeared

"It seems that this is the boundary of Baibind Mountain." Lin Caisang raised his head, looked sideways at Ya Molian, and said.

It is said that Baibind Mountain is a very strange place. The inside is completely different from the outside. It is not just the fact that there is no return, but there are many more.

"How about I go over and take a look first?"

As she spoke, she reached out and wanted to go to the other side of the border to see what kind of existence Baibind Mountain was.

However, a hand was faster than hers and pulled her back.

"Don't act recklessly. Let's all set off together and go back in two hours."

Without waiting for Lin Caisang to say anything, Ya Molian dragged the person away, leaving only the leader and guards who were still looking at the blood river.

"Chief, isn't this river of blood strange?" the guard swallowed and asked carefully.

Originally, there was a slope over there, and the blood river flowing down should reach their feet, but for some reason, the blood river disappeared without a trace.

The leader squinted one eye and looked at the place where the blood river disappeared, and then glanced at the guard beside him.

The next moment, before the guard had time to react, the leader grabbed the guard by the collar and threw him heavily in the direction of the blood river.

'puff!'

A dull sound was heard, and the guard was thrown in by the leader before he could scream.

Ya Molian and Lin Caisang turned around at the same time, and only had time to see the frightened face of the guard, and the leader staring at the guard carefully, not wanting to miss what would happen next.

"Ah."

Lin Caisang smiled lightly.

Only the people around the emperor can do such cruel things, using living people as experimental subjects, and throwing them in if they say they will die.

"Let's go, there's nothing to see."

She looked at Ya Molian and said.

"Wait." Ya Molian called her.

I always feel that things are not simple, and neither is this White Blind Mountain.

The guard who was thrown in by the leader fell directly onto the river of blood, but he was still brave and was not stunned directly. The bullets jumped up and he was about to walk in their direction.

Little did they know, they had just walked a few steps, and everyone felt their eyes blurred. At this moment, the guards were nowhere to be seen, and they disappeared strangely like a river of blood.

"Disappeared?"

Lin Caisang blinked and blinked again, but still couldn't understand what was going on.

"Mo...what's going on? Is there a formation on Baibind Mountain?"

Apart from this explanation, she couldn't think of any other explanation. It was clear that everyone saw the real person, but he was just thrown in. Why did he disappear when he came out?

"It should be more than just a formation." Ya Molian shook his head and said.

Hearing this, Lin Caisang took a deep breath and felt that it was really not that simple. It seemed that the White Blind Mountain was not called "Back and forth" for no reason.

"Now that we are outside, all speculations are in vain. We can only find out after we get inside," she said.

"Um."

Ya Molian nodded.

"Go back first."

"Okay." Lin Caisang responded.

No matter what is on Baiyin Mountain, only after you have eaten enough can you have the strength to think about and deal with those things.

"etc."

Just as they were about to go back, suddenly, the leader made a voice behind them.
