

Star of Space 918

Chapter 918 Have the courage to say it again

The next moment, all the storks were staring at their group of people with glowing green eyes.

"Jiang Zuo and Jiang Li fight in the front line and banish Jue to the Martial Palace. Let's go!"

Ya Molian immediately made a decision, grabbed Lin Caisang's waist and flew behind him. Commander Mo saw this and followed him quickly.

The fierce storks saw them running away under their noses. They had not yet eaten a big meal, so they quickly chased after them, not wanting to let the prey in their mouths escape.

Banjue and Banwu led a few people to the rear and slashed them with swords as they ran, but found that it was useless because the storks were protected by long hard thorns. No matter how they slashed, they could not cut the flesh.

"Master, no, these things are too scary. Ban Wu shouted loudly.

"Don't worry about them, hurry up. There is a cave ahead. Go there and take shelter." While Lin Caisang was talking, he struggled in Yamolian's arms and took out a packet of medicinal powder from his small satchel. , scattered into the air behind him.

After a few seconds, the storks chasing them slowed down, finally giving them a chance to breathe.

...

More than half an hour later, everyone gathered in two piles in a gourd-shaped cave, looking at the torches used for lighting in front of them, while Lin Caisang was holding a white fox in his arms.

"What should we do now?"

Commander Mo asked aloud as his scalp felt numb as he listened to the howling and screaming of the fierce storks outside.

"This cave is in the shape of a gourd. The entrance is so small that storks cannot enter. You can rest here for a while and regain your energy before talking." Lin Caisang said.

"So what if you have enough energy? Those monsters are not out there yet. We have to find a way to deal with them." Commander Mo looked at Lin Caisang with an air of "hurry up and find a way for me."

Lin Caisang raised her eyes and glanced at him lightly.

"Has Commander Mo come up with a good idea? Then you can deal with the storks outside. I have no objection." She shrugged and said.

"I....."

Commander Mo opened his mouth, but he didn't know what to say.

After a long time, he spoke.

"Girl, don't you have anything you can do? The emperor sent you to Baibind Mountain, but you came to help us. You can't just run away with us without doing anything, right?"

he asked.

"What did you say?"

Lin Caisang's red lips were slightly raised, and the light in her eyes slowly changed.

"I didn't hear you clearly. Commander Mo, do you have the guts to say it again, who sent me to Baibind Mountain? I still don't know who has the guts to send someone to my head! "

"Well."

Commander Mo choked at her words.

I thought to myself, didn't you just take advantage of the emperor and be sent to Baibind Mountain to die by the emperor? What's the use of denying it at this time?

But in this case, he didn't have the courage to say it.

"Girl, please don't be angry. I'm impatient now. After all, I lost a lot of people just now."

He had just been chased by the monsters outside, and all his subordinates who couldn't run became the monsters' food. Now the people around him were not even half of the original ones.

"If you don't have enough ability and you still act like a monster, who can you blame if you die?" Lin Caisang rolled her eyes at him and said rudely.

All she had to say was that if these people followed Commander Mo, a man with no brains, their death would be in vain. No one would feel sorry for them or sympathize with them anyway.
