

Star of Space 949

Chapter 949 They escaped long ago

"Aren't they all...all here to hunt for treasure? No..."

Suddenly, he thought of a question, where did these people hear about the purple mist, and how did they know that treasures would appear when purple mist appeared on Baibind Mountain?

In the past, I had never heard of the purple mist on Baibind Mountain, let alone what treasures there were.

Therefore, this deception is to deceive everyone into believing about the treasure.

"My lord, you should be one of the first ones to arrive at Baibind Mountain. Have you seen how many people were sucked into the whirlpool?" Lin Caisang asked the eldest prince of Luoyun Kingdom with a side glance.

Hearing this, the eldest prince thought for a moment, then raised his head to look at her.

"The number of people who have been sucked into the whirlpool is countless. The people who came to Baibind Mountain after Wen Bao are not just the people in our cave. Those people are probably all sucked into the whirlpool. , and finally died without a burial place."

he said.

He could tell how many people came to Baibind Mountain. He only knew that people have always been greedy. If they knew there was a treasure, no matter how dangerous the place was, they would want to venture into it. .

Not to mention that after these powerful people disappear, their families will definitely send people to rescue them. Naturally, these people will be sucked into the whirlpool.

Otherwise, the person who was secretly harming them was really vicious!

"Girl, now is not the time to talk about this. Let's first think about how we are going to go back." The Sixth Prince said.

The vortex outside will start to move as soon as they get out, and the suction force will become stronger and stronger, leaving them no chance to escape. How are they going to escape from this place?

What's more, he also saw just now that the cloaked man who was fighting King Mo was waiting outside for them to surrender.

"Everyone has just eaten. Let's rest for a while to regain our strength. Then we can think about how to go out." Lin Caisang said.

"You don't have to think about how to get out."

The other man swallowed and shook his hand at them.

"It's not that we didn't think of a way before, but if we want to leave this cave and go down the mountain, we must pass through the middle of the whirlpool. The whirlpool moves so fast that we don't have enough time to escape."

If it was so easy to escape, they would have escaped long ago, why would they wait until now?

Hearing this, Lin Caisang and Ya Molian looked at each other.

"You guys rest first, let us figure this out." With that said, Lin Caisang and Ya Molian stood up and walked out of the cave.

"Sui Zimo, what are you doing again? Are you thinking of some crooked idea and want to leave us and run away?" When Sui Zi saw the two of them walking out of the cave, he quickly wanted to stand up and catch up with them.

"roll!"

Ya Molian turned around and uttered a word coldly to him.

Lin Caisang also turned his head and glanced at him with disdain. This King Lin is really a weirdo. If they want to leave first, why bother coming to this ghost place?

"Prince Lin, I would like to advise you. If you want to leave alive, shut your stinky mouth. Otherwise, by the time I try to make you shut up, it will be too late!"

After saying that, she pulled Yamo Lian up and left.

"You... you..."

"Your Highness Prince Lin, you'd better come and sit down." Commander Mo called Sui Zilin helplessly.
