

Star of Space 951

Chapter 951 The only thing that can be eaten is the bark and leaves

But even though I think so in my heart, if you can't offend others when you go out, then don't offend them.

"This is their own business, what does it have to do with you? Just let them handle it themselves."

"snort!"

The Sixth Prince still snorted coldly.

"Prince Lin, I'm telling you, if because of you provoking King Mo and that girl, they won't take us out in the end, and let us all suffer with you, none of us here will let you go. !

Do you understand? ! "

"you....."

"Your Highness, don't be angry, don't be like them.

Commander Mo saw that he was about to lose his temper again, so he hurriedly tried to persuade him a few more words.

Indeed, Suizilin Tai didn't understand the general situation. Those who have food and drink on this Baibland Mountain and can travel here without hindrance are the absolute bosses.

At this moment, it was obvious that King Mo and Lin Caisang were the absolute bosses in their group, and it was appropriate for them to be more humble.

...

"Brother Mo Lian, are there any people from the Shuyue Kingdom here?" Lin Caisang immediately asked Ya Mo Lian after arriving outside the cave.

Hearing this, Ya Molian nodded. xºº//~::~ººx

"From this moment on, you should call me King Mo. Don't reveal your identity." He warned.

"you mean....."

Lin Caisang glanced at the people in the cave and then looked outside.

She didn't care about the people in that cave, so what did it matter if they knew her identity? She knew that Ya Molian was talking about the cloaked man.

"King Mo, actually, if we want to leave here, the cloaked man must disappear. You should know this, right?"

Although everything in the White Blind Mountain is not controlled by the cloaked man, it is inseparable from him. If they want to leave here safely, they must deal with the cloaked man and eliminate him.

Otherwise, there would be someone staring at them from behind, which would be an uncomfortable feeling.

"If we want to leave, he will always show up." Ya Molian said.

Lin Caisang curled up the corner of his mouth and breathed lightly, "He seems to be quite afraid of my poison. I will greet him properly when the time comes. These are things that will happen later. Now..."

She paused and looked at the people in the cave.

It takes more than a day or two to reach the foot of the mountain from Baibind Mountain. It took them more than half a month to walk up. Even without the cloaked man acting as a monster, the monsters on Baibind Mountain would have cost them a lot. energy.

And eating is the most important thing they need to prepare.

You can't go on the road for half a month without eating or drinking, right? No one will be able to bear it.

"I have seen all these trees on the mountain. None of them will bear any possible fruit. Most of the monsters are poisonous and cannot be eaten. Just like what they did before, the only thing that can be eaten is the bark and leaves."

Thinking of this, Lin Caisang couldn't help but feel that his head hurt.

There are a lot of things in her golden bead space, and she can eat them for half a year, let alone half a month.

However, how to take out these things is really a headache. You can't show them a big change of food, right? She is afraid of being treated as a monster!

"Just bring out a few things. For the rest, they have suffered a lot these days, so let them suffer absolutely." Ya Molian said.
