

Star of Space 959

Chapter 959 Come back if you can

"I forgot to tell you that I am a spiritual cultivator. Nothing will happen to me if I don't eat for a few days!"

These people really have beautiful ideas. Do they think they can deal with him just by spending time with him here? What a wishful thinking!

"Yeah?"

Lin Caisang's eyes flashed and he handed an unknown object to Ya Molian.

The next moment, the cloaked man only felt a pain on his body. When he looked down, he saw that a silver thread had pierced his right shoulder, and the other end of the silver thread was still in Ya Molian's hand.

"What is this?!"

"Prepared specially for you!" Ya Molian said coldly.

He raised his hand and pulled the silver thread directly, and the cloaked man felt his body move closer to Ya Molian's body.

He was shocked, and quickly drew out his sword and slashed at the silver wire connected to his body. He only heard a "dang" sound, and some kind of metal shattered in response, but it was not the silver wire, but ...

"How can it be!"

What broke in response was his sword!

How is this possible? His sword is still a good weapon even in Qianhuan Continent. How could it be broken so easily?

"White spider silk, you actually have white pearl silk!"

He finally figured out that there was nothing but white spider silk that could damage his sword.

But how could they have the white bead silk produced by the unique white spider on Baibind Mountain? The silk produced by this white spider is very special. This white spider silk can only be produced after the white spider dies and its body slowly solidifies into a metal body.

To refine this white spider silk, even the people on Qianhuan Continent will have to spend some time and effort.

He really underestimated these people.

"Sui Zimo, please wait with me!"

Staring at Ya Molian fiercely, he grabbed the white spider silk and pulled it out of his body. Connected to the white bead silk was a short arrow. The short arrow was specially made. of.

When it is shot out, it is in the shape of a small arrow, but once it is fixed, eight thin legs will be spread out at the end of the arrow, like a Bagua plate, for fixation.

Now the short arrow was pulled out of his body, and blood flowed like a column.

Knowing that he was injured, he would be no match for Ya Mo Lian if he really fought with her. He threw away the short arrow, glanced at Ya Mo Lian with his scarlet eyes again, and ran away.

"Why did you run away? Come back if you can!" Sui Zi shouted after seeing the cloaked man running away, chasing after him.

But the next moment, he was slapped directly on the back of the head.

"Shut up!"

Naturally, the person who was beaten would not be anyone else, but Lin Caisang.

"If you say one more word, I will immediately throw you into the whirlpool and let you die without a burial place!"

she threatened.

At this age, he is really stupid and hateful. He just ran away when someone else ran away. Why did he ask them to come back? He wished they would block his way and let them starve to death here.

"you--"

Sui Zilin raised his hand to cover his head and stared at Lin Caisang fiercely.

"We have to get out of here quickly. If that person comes to his senses, he only needs to stand where he can feel the whirlpool, and it will be enough for us to get out." Lin Caisang said to everyone.

"Exile Jue, assign them immediately. If there are not enough manpower, you guys who are good at Qinggong will come back later."
