

## Star of Space 971

Chapter 971 Kicked out

"The scenery just now should be the ones that were about to change before, but they were blocked by tree poles and could not change." Lin Caisang said.

"So, this method is feasible?"

When everyone saw this, smiles appeared on their faces. As long as they could go out, that would be the happiest thing.

"But the exit is changing too fast, and such a big tree pole is so heavy and heavy. How can we put it up?" Someone raised his own question, thinking it was impossible.

"That's easy. Send two people to guard the border. The tree pole will always be upright. As soon as the scenery changes, just put the tree pole down. If you put it down a few times, there will always be an exit."

Lin Caisang thought deeply for a while and then said.

"Anyway, we have been trapped here for so long. We can wait as long as we can," she said.

"Yes, let's do it."

Everyone agreed.

"Jiang Zuo, you and Jiang Li go first. As soon as the scenery changes, just put down the tree pole." Ya Molian ordered.

"Yes, Master."

The two of them responded and went to take the tree poles from Ban Jue and Ban Wu into their own hands.

In this way, everyone was highly concentrated and kept staring at the scenery on the other side of the border, looking forward to the next moment when there would be an exit.

...

After trying several times, the people changed one after another, and it was Jiang Zuo and Jiang Li's turn again.

Outside, another man and a horse appeared. The two of them were startled. Just as they were about to put down the tree pole, they felt their bodies light up. They held the tree pole in their arms and flew directly to the outside of the border.

"ah!"

The two of them screamed at the same time, and the next moment, they fell to the ground with a bang, a ferocious look on their faces.

"hateful!"

Taking a deep breath, Jiang Li struggled to stand up, and then pulled Jiang Zuo up.

"what's the situation?"

Jiang Zuo was beaten to a pulp and had not yet reacted.

"We were kicked out." Jiang Li said.

He could feel a gust of wind blowing directly in front of his face just now, and the tree pole in his hand was kicked hard. The next moment, the two of them were thrown out.

"What? Who is it? Who dares to kick us out?" Jiang Zuo was shocked.

But the next moment, he thought of who it was. The cloaked man must be near them. When he saw them, he was about to put down the tree pole. In desperation, he kicked them out together with the tree pole.

"Damn it, if I see him again, I will beat him to death!"

Originally, as soon as the tree pole was put down, the palace master and the others could come out, but at this time, an ignorant person came.

"What on earth is that cloaked man..."

"Two Mr. Jiang, it's really you!"

Just when they were about to talk, an excited voice interrupted them. The two of them were startled and turned their heads to look in the direction of the source of the sound.

"Steward Xin, are you still here?"

It's been six hours, it's almost dark, but Butler Xin is still standing here.

"Thank God, those people who came out of Baibland Mountain were right. As long as I wait here, you will definitely come out." Butler Xin was about to cry when he saw the two of them.

How many days have passed since one month, and he is almost dying of anxiety.

"Um?"

When Jiang Zuo and Jiang Li heard his words, they looked at each other at the same time, and then looked at Butler Xin.

"Have you been waiting here?"
