

STRIKER 107

Chapter 107 Wakeup call?

Class:

Jeremy Night continues to stay in the class. But he saw no sign of Betsy Lowe and Daniel Stone. He wondered whether they had taken a day off.

Tap!

Then he heard footsteps in the classroom.

Instructor Jacob walked in with a smile on his face. Upon seeing Jeremy, he smiled and said, "I knew you would be here."

The next second, his eyes sparkled. He found Jeremy's aura was stronger than before.

"You gained some improvement in your power," he added.

Hearing that, Jeremy nodded his head.

"Good, then I can put my heart at ease. Your feats on the battlefield were known to Dean Carolyn. She has decided to give you a reward."

"Do you need anything?" Jacob asked.

A surprise appeared on Jeremy's face. This was an unexpected gift.

He then thought of something important before asking, "I need natural treasures that could raise my rank without awakening the foundation."

"Natural Treasures," Jacob uttered in surprise.

This was something that their treasury had.

"I think we have some natural treasures in our treasury," Jacob added.

Jeremy then thought of his parents as well. They had been staying at Tier-5 for a long time. To further improve their ranks, they needed natural treasures.

He didn't know whether Dean Carolyn would give two Grade-5 Treasures.

Jacob saw Jeremy's reaction.

"What happened?"

"Do you want something else?" Jacob asked.

Hearing that, Jeremy told him about his parents.

Jacob said, "I can understand your thoughts. But if you want to get natural treasures for your parents, there are plenty of ways."

"Don't use your current credit. If my guess is right, our treasury has Grade 1 Golden Refining Fruits. But only one or two are available."

"The fruit is rare because it's known for strengthening lifeline beasts. So you should not miss this opportunity," he added further.

Hearing that, Jeremy immediately thought of his unknown egg. He knew his lifeline beast egg required more energy for consumption.

He didn't know when it would hatch either. But if he could provide more resources to the lifeline beast, then it might hatch soon.

Jacob saw Jeremy Night was considering his options. He understood Jeremy's potential. If his rank were higher, then he could have dealt damage to the Tier-4 Beast in the battle.

For now, they had saved City A from the invasion. But the things that had happened behind the scenes were yet to be made public.

Jeremy recovered his thoughts and said, "Alright, Instructor. I want the Golden Refining Fruit."

"Good," Jacob uttered.

Then they spoke about a few other things before Jacob left the class. He wanted Jeremy Night to self-study.

...

From the invasion, everyone had experienced the horror of battlefields. There were different kinds of corrupted beasts that had made an appearance.

So the other department students took the opportunity to visit the library. They wanted to note down the strengths and weaknesses of those corrupted beasts.

If they came across them in the future, it would be good for them.

Similarly, the 2nd, 3rd, and 4th-year students had learned valuable lessons. They now knew where they were lacking.

The different training facilities and beast training grounds were occupied by the students. No one was spending time in class.

Everyone wanted to improve their fighting skills and coordination with their lifeline beasts. The department instructors gave up their classes and encouraged everyone.

Beast Tamers needed theoretical and practical lessons. This invasion was a wake-up call for everyone, including the department instructors.

If the situation had been bad, they would have been forced to fight as well. So the department instructors, who had been lazy earlier, now decided to improve their strength as well.

...

City A, Lindsey Family,

May Lindsey was in her home resting. But she was listening to the information about the invasion. From her family, she was able to learn that a single Tier-7 Worm Beast was behind the invasion.

The information left her speechless. It took her minutes to digest the information, especially knowing that a Tier-7 Beast was close to destroying City A, which had a million people.

Like others, she was also scared by the fact that if a larger number of Tier-7 Beasts had invaded, then it would have been impossible for the City Governor to stop them as well.

This fact came as a wake-up call for her too. Their city defense was fragile in the face of powerful corrupted beasts. So she decided to put more effort into improving her strength.

Time passed.

After stopping the breathing method, she walked out of her natural energy chamber. Then she went to take a bath.

The bath lasted for 15 minutes. Then she stepped out and changed into comfortable clothes before walking out of her room.

The next second, she saw the maid waiting outside.

"Miss, are you going back to the university?" she asked.

"I'm going to the university tomorrow. So don't disturb me until then," After saying that, May Lindsey went to her family library.

She wanted to know about the Tier-7 Worm Beast. She heard from her family that the City Governors were injured. She thought that the injuries were likely caused by the Tier-7 Beast.

But if she learned that the injuries were not caused by the Tier-7 Beast but by Tier-6 Beasts, she would be shocked to the core.

Moreover, the appearance of the Lord from the Human Alliance was kept confidential. Only important people and high-tier beast tamers knew the truth.

It was the Lord who had slain the Tier-7 Beast, not the City Governors. The image of the City Governors had taken a hit.

The big families and organizations stopped viewing them favorably. After the war, everyone had read the report, which showed that the City Governors were incompetent in many areas.

If they had known that a single Tier-7 Beast was a problem, they would have made some mission to jointly attack the beasts.

Instead, the City Governors had no clue about the Tier-7 Beast behind the invasion. These families knew that it would only be a matter of time before the Human Alliance summoned them.

So they were waiting for the show. There were chances of the City Governors' resignation as well.
