

STRIKER 130

Chapter 130 Part 2: Like attracts like

Duel Chamber:

Betsy Lowe was frustrated. She was unable to land a single hit on Jeremy Night. Rather, she was getting tired out. Finally, she decided to use her lifeline beast.

Buzz!

A fist-sized queen bee appeared above her. Seeing this, Jeremy was taken aback. He didn't expect her lifeline beast to be a black-colored queen bee.

The black luster of the queen bee lifeline beast was very attractive. Jeremy's gaze fell on the stinger. It was almost 6 inches long.

The bee's stinger could easily reach one's heart. Jeremy's eyes flickered. The Queen Lifeline Beast could pose a threat to him.

Betsy enjoyed the serious expression of Jeremy Night. She had always wanted to surprise him with her lifeline beast.

Now that her Queen Bee had made an appearance, she was naturally happy.

Buzz!

The Black Queen Bee rushed towards Jeremy Night to attack.

Jeremy became unusually calm. Compared to inexperienced Betsy Lowe, her lifeline beast could fight.

When the bee got closer to him, he immediately used the flat side of the katana blade to block the bee's sting. Like swatting a fly, he sent the queen bee's body away.

Buzz!

The Queen Bee stabilized its body quickly before appearing in front of Betsy Lowe. Jeremy knew that if he had attacked seriously, the Queen Bee would have been injured.

In turn, Betsy Lowe would suffer as well.

"You lost. There is no point in wasting time," Jeremy Night said. He didn't want to injure her lifeline beast, so he stopped wasting time.

"Okay," Betsy Lowe accepted her defeat and called back her lifeline beast. The Black Queen Bee disappeared into her mental zone.

Sigh!

With a sigh, she exited the platform. Next, she wanted to see what Daniel Stone was going to do.

"Don't worry, you can learn movement methods to improve your speed," Instructor Jacob comforted her. He knew the result from the beginning.

But these two somehow wanted to see the gap between them and Jeremy Night.

"You did well, Betsy. It's my turn now," Daniel Stone said before entering the fighting platform.

"Brother Jeremy, you know my talent, so I'm going to fight using my lifeline beast," Daniel Stone said with a smile.

Jeremy nodded to him.

Swoosh!

A crocodile appeared with green and black texture. It was 7 feet long, and its razor-sharp teeth were enough to kill Tier-3 Corrupted Beasts.

Jeremy Night immediately felt a threat from the lifeline beast.

Boom!

The crocodile sprinted towards Jeremy Night to bite. In the blink of an eye, it appeared in front of him.

Instead of retreating, Jeremy Night used his katana blade to block its razor-sharp teeth.

Clang!

A collision occurred.

The crocodile beast was able to push Jeremy backward with sheer force.

Jeremy could have easily used the katana blade to stab the beast with the sharp point, but he didn't do it. Since it was a learning experience, he was thinking of other ways as well.

As time passed, a balanced confrontation was happening. Neither side was retreating. The crocodile was putting up a tough fight.

Daniel Stone was gleeful. But he knew Jeremy Night was simply blocking the attack. If he had wanted to injure the lifeline beast, it would have easily happened.

Outside of the platform, Instructor Jacob and Betsy Lowe were watching the confrontation with excitement. The crocodile lifeline beast was doing better than her Queen Bee Lifeline Beast.

She was not jealous. She knew that the crocodile lifeline beast was using force to overpower Jeremy Night, whereas Jeremy Night was still using the flat side of the katana blade to block the crocodile lifeline beast.

Meanwhile,

The Attack Department students had invited their representative. His name was Romeo Barrett. He was a young man with fair skin tone.

He stood 6 feet tall. He has black hair and eyes. He was wearing the First Year Student Uniform.

Upon his arrival, the Attack Department students started cheering.

"Brother Romeo is here!"

"Let's see where Jeremy Night hides now."

"Brother Romeo can easily defeat him."

They started showing their support, while Romeo basked in their cheers. There was a reason he had agreed to come here.

It was because of the senior students. The 2nd and 3rd Year Attack Department representatives were making fun of him. They had uttered mean words to him.

Romeo had A-Grade Talent as well, so he was not afraid of Jeremy Night. It was just that he hadn't had time to take care of this matter earlier. The Beast Invasion had caught everyone off guard.

Now that things had returned to normal, Romeo was ready to face off against Jeremy Night.

"Where is he?" Romeo asked.

"Brother, he is at the last duel chamber. They must be practicing inside," one of the students said.

Romeo's eyes flickered. He heard someone from the crowd say that Jeremy Night had come with his department instructor.

He knew that he couldn't disturb them from outside.

"Go and invite our Attack Department Instructor. I'll be waiting here," he said to the Attack Department students.

Hearing that, a few quickly left together to inform him. Under the gazes of everyone, he went inside the building and found a place to sit.

The Defense Department students were surprised. They hadn't expected Romeo to arrive this quickly. They wished their representative was as competitive as Romeo.

Because not only the Attack Department, the Defense Department students were also receiving verbal abuse from their seniors.

It was just that no one had time and opportunity before. Now, with Jeremy Night presenting himself here, everyone was thinking of ways to get justice.

It didn't take long for this matter to spread as well. Romeo Barrett was a well-known person among the first years, though he was not as popular as Jeremy Night.

He was still the Attack Department representative, which itself was a powerful status. Others had heard of him.

...

Elemental Department:

When May Lindsey heard this new development, she touched her forehead in a headache. She was left speechless. She thought sooner or later she would be dragged into this matter as well.

She did not want to be involved in this kind of drama, but people around her thought otherwise.
