

## **STRIKER 139**

Chapter 139 Square logo?

Central University 14:

Dean Carolyn is going through reports. She saw the report about the STRIKER Department. The report was about 1st Year Romeo Barrett's challenge against Jeremy Night. She continued to read the follow-up events.

About a few minutes later,

She frowned. She knows the combat strength of Jeremy Night. Apart from the S-Graders, no one can defeat him in her opinion. So she was confused why that kid accepted the defeat and didn't dare to accept the challenge.

Suddenly, she thought of something that explains Jeremy Night's decision to her.

"That kid is intentionally being low key. Violet Heath's debacle has caused loss of lives," she mutters.

The investigation is currently ongoing. She thinks it's about time for the investigation team to return. Once they submit the report, she can truly make an assessment.

But it was clear that neither she nor the Heath Family can find fault with Jeremy Night regarding this matter. She knows that internal team conflicts have clouded their judgment.

The University Beast Tamers and the Heath Family Beast Tamers wanted to prove Jeremy Night wrong. But they ended up causing a huge mess.

She knows that kid has gone to City C for a mission. She thinks it's good for him to avoid the limelight. If people learned about the Forbidden Area Mission, they would be shocked to the core.

Then it will become hard for students to think about doing missions in the wilderness.

..

City C - Wilderness,

Jeremy is watching the outburst of the enemy from a distance. He is not moving an inch at all. If he senses him, then it would be troublesome. So he is watching silently without making any noise.

The slender-looking man returns to the cave. He then orders the remaining members to work swiftly. He thinks that whoever it was has seen them.

It would be a matter of time before someone comes to explore this place. So he made up his mind to take these goods to their hideout first.

Time passed,

Jeremy waits for an hour. Then he finally saw a development. A massive hover truck appears. It lands in front of the mouth of the underground cave.

Shortly afterwards,

The slender man appears with his remaining lackeys. They start to load the body parts into the truck.

At the same time, Jeremy Night is taken aback by the size of the truck. This type of advanced vehicle can only be found in City A.

Even in City A, he hasn't seen any company with this square logo. The square logo is half gold and half red in color.

Jeremy frowned. As far as he knows, only some wealthy organizations have their company brand logo or name written on their vehicles.

He memorized the logo and decided to investigate later.

It didn't take long for the truck to be filled with the beasts' mutilated body parts. After doing that, the slender man and his lackeys returned to the cave.

The hover truck left the place. Watching the hover truck disappear from sight, Jeremy felt a struggle. Things are going beyond his imagination.

He knew it was going to their hideout. Then how is he going to catch the speed of the hover car? When it was completely gone, Jeremy felt regret.

His current strength is too weak for this type of adventure.

After removing the unnecessary thoughts, he looks at the underground cave again before leaving. Initially, he thought it was some illegal group.

But now he has seen that logo. He thinks that these criminals are backed by an organization. If he goes on a killing spree to eliminate the thugs, the backers behind them might get angry.

Jeremy decides to return to the family to get information about this logo. There is no time limit for the mission, so he can come back again tomorrow.

Swoosh!

Right after that, Jeremy left the spot. The return journey is smooth for him. He didn't face any obstacles. After entering the city, he immediately used an air cab to reach the Night Family Estate.

The guards and staff are surprised. Without telling them, they have realized that their young master is here for some official business.

When he entered the mansion, he spoke with his mother for a few minutes before returning to his room. Jeremy entered the bath to take a shower first.

The bath lasted for 20 minutes.

After stepping out, he changed into comfortable clothes. Only then did he feel at ease. The wilderness journey was exhausting for him. Ever since he had come across that suspicious group.

He was under constant pressure. Now that he was back, the pressure was gone. He can now think about the next course of action.

He can either submit the report and let Central University 14 handle it. If they find that the corrupted beast corpses are shipped illegally, he doubts they would sit back and watch.

Among the beast attacks, there are man-made attacks as well. But he had read about them in history books. So far, he had not seen one.

If these groups are truly up to such evil acts, he thinks it's better for the University to handle it. He alone can't decide on this matter.

After gaining some clarity, he decides to spend a few more days here. He knows that his situation back at the University was not peaceful as well.

...

Meanwhile,

The other two Governors in City C heard about Jeremy Night's return as well. They can only sigh. Their goal of suppressing the Night Family is bound to end in failure.

Instead of standing against the Night Family, both Governor Families have decided to cooperate with the Night Family to administer City C.

News of Jeremy Night's return was mainly spread by the local media. It didn't take long for everyone to know about it. Jeremy Night's former schoolmates sighed regarding this matter. They felt the true gap between them and Jeremy Night.

But they didn't know the threat faced by Jeremy Night. If they learned it, they would never want to leave City C.
