

## **STRIKER 188**

Chapter 188: May Lindsey came to help

Dilapidated Building Area:

Jeremy saw that the beast was going to bite his neck. He thought it was going to be over.

"Ice spikes!"

The next second, several ice spikes came out of nowhere and struck the Tier-4 Rat Beast.

Boom!

The Rat Beast, caught off guard, moved away from the spot.

Jeremy was stunned. He didn't expect someone to help him out. When he tried to get up—

Swoosh!

A figure appeared before him. Jeremy saw that the person was none other than May Lindsey. She extended her hand to help.

Jeremy was shocked inside, but it wasn't the time to ask questions. He grabbed her hand to stand up from the ground.

Screech!

The Rat Beast made the sound again. This time it was interrupted by another enemy. The Tier-4 Rat Beast had slightly better intellect than Lower Tier Beasts.

It was assessing the new enemy to decide whether to attack them or not.

"Thanks for the help," Jeremy said to her.

But he found she was trembling in fear as well.

"Is that a Tier-4 Beast?" she asked.

Sigh!

Jeremy let out a sigh before replying, "Yes, it's the Tier-4 Rat Beast."

May Lindsey was dumbfounded. Actually, this place was not far from her estate. After learning from the family beast tamer, she had come to check out the situation.

But she didn't expect the situation to be dire.

"It's the first time I've seen a real Tier-4 Rat Type Beast. We can't handle it. Let's go," May Lindsey said.

She had figured out the situation. They couldn't possibly confront the Tier-4 Rat Beast.

Jeremy looked at the beast with a serious expression.

He said, "If we choose to go away right now, then the Tier-4 Rat Beast might attack someone else. Don't forget we are inside the city."

"The beast's attack might cause more casualties," he added.

May Lindsey's expression changed. She almost forgot about it. No wonder Jeremy Night was fighting all alone. If the beast escaped, it might bring serious trouble.

"What do we do now?" she asked.

"We can try stopping it. Use your signature attack, the snow wind tornado. I'll try to attack at the same time," he said to her.

Hoo-hoo-hoo!

The snow owl appeared beside her. After receiving a command from her, it flew towards the sky, ready to release the attack.

Shriek!

The Tier-4 Rat Beast sensed the threat. It let out a scream before dashing towards them.

Seeing that, May Lindsey retreated backward. Her lifeline beast was going to use her talent to launch the snow wind tornado.

On the other hand, Jeremy's whole body was aching. His internal organs were hurting. He was just a Tier-1 Rank 5 Beast Tamer.

Any more impact on his body would rupture his internal organs.

But he had no choice other than to stop this beast from going on a rampage inside the city.

Meanwhile,

Instructor Jacob and old man Derek arrived at the spot. Both of them had serious expressions on their faces. On the way, they had heard from Daniel Stone that Jeremy Night was confronting the Tier-4 Corrupted Beast.

They felt it was absurd. But Daniel Stone and Betsy Lowe both confirmed the situation. Because of it, they exited their flying taxi and used their power to come here.

After arriving at the spot, they immediately looked for the incident site. It didn't take long for them to find the place filled with barricades; the locals were leaving the area as well.

"Let's go, I have found the other two members," old man Derek said after he saw Daniel Stone and Betsy Lowe.

"Okay," Jacob replied.

Swoosh!

Then they left the place and reached the core area in the blink of an eye. When they got closer, they both heard the Rat Beast's scream.

From the scream alone, they could tell that it was a Tier-4 Rat Beast.

"It's really Tier-4," old man Derek exclaimed.

He then swiftly rushed towards the place where the sound was coming from.

Jacob was shocked as well. He quickly followed him, ignoring Daniel Stone and Betsy Lowe. They were doing fine. It was important for them to rescue Jeremy Night first.

Meanwhile,

Jeremy Night was once again going to use the starlight energy. But this time he planned to use the Rapid Triple Cut as well. He hoped that the power generated by the Rapid Triple Cut would harm the beast.

When the beast got closer to them, the snow owl beast released the snow wind tornado.

A fierce snow wind tornado over 20ft with bone-chilling coldness appeared the next second. The snow owl flapped its wings to direct the attack towards the incoming Rat Beast.

Screech!

The Rat Beast ignored the tornado and continued to charge.

Boom!

But it was struck by the snow wind tornado. The chilling effect of the tornado, coupled with the fierce wind, attacked the beast.

At the same time, the wind force swept away the area. The nearby buildings were struck by it and got destroyed.

Screech!

The Tier-4 Rat Beast felt the chill and fierce cut of the wind attacking its body. But it was not enough to stop the beast as a whole.

The attacks were leaving no mark on its body. The beast let out a scream. A more fierce corrupt aura erupted from its body. The rage was increasing its strength.

Jeremy and May Lindsey were witnessing the scene. Their eyes were solemn. They understood the gap between the Tier-4 and other Lower Tier Beasts.

Jeremy was doing better than before. After receiving two hits from the beast, this time he was able to think more calmly.

"The beast's left eye was damaged. It's time to attack the right eye," Jeremy thought.

May Lindsey felt how hard her snow owl was trying to block the Tier-4 Beast.

Swoosh!

Suddenly, Jeremy used his explosion steps to get closer to the beast.

May Lindsey was not surprised. She recognized what he was trying to do.

As he approached the beast, he felt the bone-chilling coldness from the tornado as he was moving away from the tornado.
