

STRIKER: INDEPENDENT BEAST TAMER

Chapter 19 Part 2: Contract

Study Room:

Ron Night goes through the contract details again. Seeing that there is nothing doubtful in the contract.

He turned towards his son and asked, "What do you think?"

Jeremy replied, "It's alright, Father. At least I can choose the resources that I want."

Kim smiled and asked, "Then shall we proceed to sign the contract?"

Jeremy then nodded his head. A blue virtual screen appears in front of him. Before signing the contract, he once goes through the contract.

Then he signed a digital signature on the contract.

Seeing that, Representative Kim sighed in relief. Now, he can return to Central University 14 with smile. Then he suddenly thought of something.

"By the way. Mr. Jeremy. Since you have already bonded with the Beast. You should get a Beast Tamer Licence. If you get a licence here, then you don't have to go through the additional tests at the University," Kim reminded me.

"I almost forgot about it," Jeremy uttered.

"You can get it tomorrow. There is no hurry. But when will my son have to join Central University 14," Ron asked.

"Usually, classes will start in one or two weeks after the awakening ceremony. I think Mr. Jeremy should join within a week," Kim said.

"Alright, I'll send my son in a few days," Ron said with a thoughtful look.

Representative Kim smiled and stood up to leave. After saying a few words to us, he left the place.

"Jeremy, you did a good job in killing the Tier-3 Corrupted Beast. The Western Settlement will have peace for some period," Ron said.

"Father, what about the Tier-3 Bloodthirsty Salamanders?"

"Did the Mercenary Teams find any of them?" Jeremy asked.

Ron Night sighed. A complex glint flashes in his eyes.

"The Mercenary Teams are having a hard time. They are still searching for the Tier-3 Corrupted Bloodthirsty Salamander out there," He said.

Jeremy remained silent. He knows how much experience the Mercenary Teams have. Even they are facing such difficulties. He doesn't know what to say.

Then, they changed the topic and discussed other things before Jeremy returned to his room.

The following day,

After having dinner with Father and Mother. Jeremy left the estate with Captain Morris in a flying car. They are going to the Beast Taming Association to register.

On the way, Captain Morris shared the difficulties faced by other Mercenary Teams. The Tier-3 Bloodthirsty Salamander is still nowhere to be found.

Shortly afterwards,

The flying car landed in front of the high tower building. Which is the Beast Taming Association building. Looking at the building, Jeremy's eyes flash with a complex glint.

He doesn't want to expose his lifeline beast, the unknown beast egg. He doesn't know whether he can do that.

"Young Master, what happened?" Morris asked.

"It's nothing, let's go inside," Jeremy said.

Then they both walked into the building. The staff working here immediately recognised Jeremy. As the son of one of the City Governors, it's normal for people to recognise the face.

"Young Master, are you here for licence registration?" An old man wearing a grey tuxedo asked.

He is the Head of the Beast Taming Association here. He was on his way to his office room. But he didn't expect to see Jeremy Night here.

"Yes, I'm here for the licence," Jeremy replied.

"Then, young master, come with me. I will personally oversee the process," the old man said before leading them to the testing area.

The staff are all excited and discussed in a low tone. Because it's been less than two days since the awakening ceremony. They didn't expect Jeremy Night to come here.

Only people who have bonded with the Lifeline Beast can come here. Jeremy Night's presence here shows that he has bonded with the lifeline beast.

The staff here are aware of Jeremy's A-level Talent, the Supreme Combat Body. So they are curious about his Lifeline Beast.

Not only them, but the head who is guiding Jeremy to the testing area has various thoughts running in his mind.

Once they reached the testing area. Captain Morris was asked to stay outside. Only Jeremy and the Association Head walked inside the room..

The room is small, but in the middle there is a stone platform. A crystal ball is standing on the top of the platform. It's similar to the awakening stone. Yet, its function differs.

This stone only shows the level of Beast Tamer and Lifeline Beast.

"Young Master Jeremy, you can place your palm on the crystal ball. It will display your and lifeline Beast's Rank," the old man said.

Jeremy's eyes flash with a glint.

He asked, "Do I have to summon my lifeline beast here?"

The old man was stunned. Then he thought of something.

"Maybe the young master wants to keep his lifeline beast secret," the old man thought.

Then he replied, "Young Master, there is no need to summon your lifeline beast to test the rank. But if you want your lifeline beast name to appear in the license."

"Then you have to show it for verification," He added.

Jeremy sighed inwardly. Since he can obtain a license without showing it to others. Then he decides to do it this way.

"Then I want my lifeline beast information to be secret," Jeremy said before placing his right palm on the crystal ball. Then a small amount of starlight energy enters the stone.

The next second, the crystal ball shines. A bright white envelopes the room before a character's status floats above the Crystal Ball.

[Beast Tamer: Tier-1, Rank 1- Peak Stage.]

[Lifeline Beast: Tier-1]

Looking at the information, my eyes flash with approval. Then I took my hand to the crystal ball.

"Peak Stage already?" The old man was surprised.

Then he thought of the unknown lifeline beast. He sighed inwardly.

Since the young master wants to keep it secret. He can't force him to reveal his Lifeline beast. Otherwise, he might have to face the wrath of the City Governor Ron Night.

"Alright, young master. The rank verification was done. I'll send the licence to your contact in one hour," The old man said with a smile.

Hearing that Jeremy smiled and stepped out of the room.
