Chapter 199: Part 3: Javier's target

Store:

Inside the store, the staff brought him several products to take a look at. Among them, there is even a poison bomb series. Jeremy's eyes flickered. He had asked for the poison gas.

But the staff brought him a poison bomb as well. He knows about the poison bomb, but it was expensive compared to the poison gas.

The staff began to explain the difference between each product.

About a few minutes later,

Jeremy decided to buy the poison bomb. Not only is it destructive, but it can release the poison gas as well.

"Okay, I'll buy the poison bombs," Jeremy said to the staff.

He then bought at least 10 poison bombs. After paying the bill, he stored the items in his storage ring. Jeremy then looked around the shelves.

There are many new products. He is going to stay there for only the daytime. He plans to return before nighttime.

So he decided to stick with the poison bomb only. Then he walked out of the store. He came to the street and saw no air taxi. So he booked one.

Not far away from him, two black cars were parked. The men dressed in black were inside the cars. They were watching the movements of the target.

Shortly afterwards,

The air taxi arrived. Jeremy entered the car. The air taxi then started to fly towards the university. The black cars followed right after that.

"Tsk, it's easy to kill the brat."

"But what does the boss want?"

"He wants to teach a lesson to the kid."

"The Tier-1 kid must have done something."

"Ha... Ha... Ha... you're right. But I want to enjoy the young tender flesh."

"Boss, you are damn fierce!"

The men in the car discussed. They never bothered to check the identity of the target. They thought their boss Javier must have done the background verification.

About 15 minutes later,

Jeremy returned to the university. He went silently back to the dorm room. Only in his room was he at ease.

"Now I have done the shopping. But the next one is important," Jeremy thought.

If he goes to the mission hall building, then his intentions would be exposed. Ever since his duel with May Lindsey, people had started looking at him differently.

So he thinks it's not wise for him to go to the Mission Hall Building. His goal was to visit that dangerous area. He can use the Beast Taming Association license to enter the wilderness.

He then spent the rest of the time in his room.

Meanwhile,

Betsy Lowe and Daniel Stone thought that Jeremy Night was busy with his practice, so they didn't disturb him.

Whereas Instructor Jacob Henry was busy with a task given by Dean Carolyn. He forgot about his department members.

Not only him; even Dean Carolyn and old man Derek thought Jeremy and others were low-key. Especially after the rat beast incident, they didn't think Jeremy Night had the guts to go out alone.

The following day,

Jeremy began to get ready after getting out of bed. It didn't take long for him to take a bath and change into his combat uniform. He then left the dorm room.

Shortly afterwards,

He stepped outside of the university. Jeremy then casually looked around and found two black cars parked at a distance.

He couldn't help but raise his eyebrows. He found it familiar, but he didn't know why. He then shook his head before booking the air taxi.

Shortly afterwards,

The aircraft taxi arrived and landed in front of him. Jeremy then suddenly noticed the movements from the black cars.

He felt something in his heart, but he didn't know what it was.

"Customer, get inside!" the driver said.

Hearing that, Jeremy nodded to him before getting inside the car.

Swoosh!

The flying car hovered above the surface before starting to move towards the city gate. Right after that, the two black cars started following them.

Jeremy's suspicion grew stronger. He decided to keep an eye on them.

It didn't take long for the cab driver to drop him at the city gate. He then paid the fare before stepping out of the car. He immediately walked up to the city gate and stood in line.

Shortly afterwards,

The black cars came to the spot. When they landed on the ground, a few men dressed in black suits stepped outside. They started looking for the target. Then they spotted him standing in line.

"There he is!"

"Go and stand behind the line."

Their leader shouted. Hearing this, the rest of the men went to stand behind the line. They didn't know that their black clothes had exposed them.

Everyone started looking at them differently. Just after they stood in line, a few city guards came to inspect them.

The men in black suits had ID cards from a security firm. The security firm was connected to the Goldcorp Organization. They immediately backed away after learning their identity.

On the other hand, Jeremy Night, who was observing them secretly, was stunned. He didn't expect the city guards to have this reaction.

They seemed to be intimidated by their identity.

Jeremy couldn't help but think that they were here for him, but he didn't know for sure.

On the other hand, Javier's men stood behind the line. The team's leader was keeping an eye on the target from time to time.

In order not to make it more suspicious, they stopped constantly looking at the target.

At the same time, the city guards were allowing people to enter the wilderness after checking their identity. Soon, it was Jeremy Night's turn.

Jeremy took out his Beast Taming Association License and showed it to them. The city guards were surprised because they saw that his Beast Taming power was Tier-1. Even a strong Tier-1 corrupted beast could kill a Tier-1 beast tamer.

Looking at the person's young appearance, they thought he was a beginner wizard.

"Kid, it's dangerous to enter the wilderness without your power. Why don't you come back later?" the city guard asked.

"I'm going to look at the outskirts to catch injured beasts. Then I'll come back sooner," Jeremy said to them.

The city guard failed to persuade him, so he allowed him to leave. Jeremy then stepped into the wilderness. But he knew there were suspicious people behind him. He decided to go to the dangerous area.

Not long after, the men in black suits came to the spot.

"Where is he?" the leader exclaimed.

His men were looking around.

"Let's go deeper. That kid is a Tier-1 Beast Tamer. He must be near," the leader shouted at his men.

Hearing that, everyone started heading towards the wilderness.

Their behavior attracted the attention of the City Guards watching from the gate and others from the Beast Taming Association.

But no one wanted to meddle in other people's business. They simply watched them disappear into the wilderness.
