

## **STRIKER 22**

Chapter 22 Part 1: Central University 14

Jeremy is enjoying the passing view of clouds through the window. Suddenly, he spots something disturbing. He stared out the window.

A big bird beast has interjected the flight path. Next, the airplane seems to slow down all of a sudden.

"Sh!t," Jeremy cursed out.

At the same time, the other passengers on the flight realised as well. There Beast Tamer Passengers and non-awakened were travelling as well.

If something happens to the flight in mid-air, then everyone's chances of survival would be slim.

Jeremy is aware of these things. At the same time, he knows that the plane is equipped with weapons. So, they are still far away from the worst-case scenario.

Outside,

A bird beast rushes towards the flight cockpit to attack. But before it could reach out there. A blue laser beam shot at the bird beast.

Boom!

The beam went across in a straight line before piercing through the body of the bird. The energy of the beam shredded the body of the beast in mid-air.

Seeing the successful hit, the pilots celebrated. But still, there were other beasts on their flight path to clear out.

Boom!

In the next second, multiple blue laser beams shot at the bird-corrupted beasts. The Attack killed most of the bird beasts instantly. Those who managed to survive the attack fled from the Place.

With all the beasts gone. The flight path becomes clear.

About two hours later,

The airplane reaches the City A. City A is larger than City B and City C. It is called the Capital City of Zone 14. All the Sub-Headquarters of the Major Organisations running in Zone 14 were located here.

Including the Human Alliance's Sub-Headquarters and Beast Taming Association. They each have their Sub-Headquarters situation in City A of all the zones.

The airplane then lands on the runway safely.

Shortly afterwards,

The passengers started to step out one by one. Jeremy then walks out with excitement in his eyes. He has come to this City before with his parents.

But most of them were all for professional reasons. This time he has come alone for his study. After calming his heart, he started walking towards the exit.

A few minutes later,

He arrives at the parking car. Where he saw the flying cab. He booked one before entering inside. The car driver asked Jeremy about the Destination.

When the driver heard the destination was Central University 14. He was happy for some reason. Because he had already taken 2 more students there earlier that day.

From all the cities under Zone 14, the talented awakened ones were coming to the City. The flying cab then rose from the ground and started flying towards the destination.

Jeremy sat on the window seat as usual. He then watches the outside scene through the window. City A's infrastructure is better than other cities.

Because no matter what the population of the City. No one feels it's crowded. There is even enough space between each building. The buildings don't look like they are close to each other.

The City is prosperous because they have strict requirements for living permits here. While other cities accepted refugees during emergency times. But the City A remained alone. They didn't accept anyone.

In one way, it can be said that City A is a living place for the best of the best. Jeremy pushes down these thoughts. Right now, he should be focusing on his university. He has a lot of work cut out for him.

About an hour later,

The flying cab enters the private area. It's Central University 14. No public movements here. Apart from the parents and relatives of the students studying here.

Jeremy notices that there are many buildings in this place. It's like the University is built in the middle of a green forest.

The flying cab landed in front of the main gate. Jeremy steps out of the vehicle and pays the fare to the driver. When the flying cab left. He got a clear view of the surroundings.

There are other flying cabs coming from the airport as well. Everyone here is a newcomer.

Jeremy's eyes flash with a quick glint. He feels that place is going to be interesting. He never had any conflict in high school. Because no one disturbed him. But here things will be different.

He then follows the people ahead of him. Everyone stepped onto the campus. Jeremy followed their footsteps to walk inside.

Males and females are wearing premium clothes walking into the place. Clearly, this shows the difference between their status and others.

"Don't tell me they are already forming a group," Jeremy thought.

But he was not interested in these games. As everyone walked on the road, they saw the administration building at the end of the road. It's where your identity will be verified. And you will be given your Uniforms and ID.

At the same time, the Beast Tamers begin observing others. People who can enrol in this university are top talents. So everyone is curious about each other.

Just as we reached the building, a middle-aged person wearing a black tuxedo walked out of the building.

"Everyone, come and sit inside," He said before walking back to the building.

Jeremy followed everyone to enter. Inside, there are numerous chairs. Seeing that, everyone started to take their seat.

Jeremy furrowed his eyebrows. He thought this would take all day long. But nothing new can be done. It's the last step before officially enrolling in Central University 14.

He then found an empty seat nearby to sit down. Though it's boring, he could use this opportunity to observe other Beast Tamers here.

"Let's see if there are people with interesting talent here," Jeremy said.

Gasp!

A commotion attracted everyone's attention.

"Hey, we got an S grader here!"

"S-Grade Talent"

"Unbelievable, we thought we were the lost people to arrive."

Everyone exclaimed in a low tone. Those who got surprised obviously had lower talent than S- Grade.

Jeremy's eyes flash with curiosity. He followed everyone's gaze and turned towards the entrance.
