

## **STRIKER 23**

Chapter 23 Part 2: Central University 14

A Female Beast Tamer with sky-blue hair and eyes entered the place. Everyone's eyes were focused on her. Because she was an S-Grader.

She appears to be a beautiful young woman. She stands 6ft tall. Her skin tone is fair. She is dressed in designer blue clothes, representing her family status.

Looking at her dress, everyone can know her status. It sets her apart from other wealthy children here.

Jeremy's eyes flickered. To thrive in this university, he has to mark his rival as well. So he perked up his ears to listen.

"She is here!"

"May Lindsey"

"The prodigy of Lindsey family"

"Her talent is Ice Supreme"

"S-Grade Talent- Ice Supreme"

"The name itself is befitting for the Ice talent"

The Beast Tamers here couldn't help but admire. Who doesn't admire strong talent? At this time, more than jealousy. Everyone was in awe of her.

Because of her family, no one would dare to have other thoughts on her.

May Lindsey then confidently walked to the front row and sat on the first seat. Seeing her taking the front-row seat, those who awakened A and B-level talent vacated the row.

This row is unanimously reserved for the S- Grade Talents. As per the information, she is not the only one who awakened S-grade talent this year.

Jeremy is reacting normally to this situation. But he couldn't help but compare his and her talent. Both of their talents have the word name "Supreme"

But his talent is rated as A. Where her talent is rated as S. Jeremy thinks that his body type martial talent is no way weaker than her ice element talent.

It's just you can't over-change the long-standing prejudice against the Body Type Talent.

As time passed, more students started coming in.

Shortly afterwards,

Another commotion occurs. Because another famous S-grade talent made an entry.

The person has black hair and eyes. But his skin tone is pale. He is wearing a black and purple designed blazer on top of a white shirt and black pants.

His name is Victor Scott. A prodigy from the Scott Family. His S-Grade Talent is Spider Lord. The talent gives him control over Spider Beast.

New is that he has bonded with a powerful bloodline lifeline beast. Seeing that everyone's gaze was on him. Victor adjusted his hairstyle before walking towards the front row.

May Lindsey be aware of his presence. But she chooses to ignore him. Both the top families are situated in City A. There are other top families. But they have connections to other organisations.

They are backing the Beast Taming Association and military and private organisations. So not all the awakened students from City A choose to join Central University 14.

These organisations have their own Training Boot Camps. So currently, the eyeballs will be on May Lindsey and Victor Scott in the freshmen year.

Victor glances at May Lindsey. Seeing that her eyes were closed. He sneered before sitting a few seats away from her. The cold relationship between these two was clear to others

Especially for the people from the City A. They are aware that these two families are rivals. When the commotion died down. People noticed almost everyone had come.

"Spider Lifeline Beast uh," Jeremy thought. He can guess what his bonded lifeline beast would be. He couldn't help but furrow his eyebrows.

Usually, someone can infer information from an awakened talent name. Victor Scott's talent is Spider Lord. Which means he can control more than one Beast.

Otherwise, the name of Spider Lord would be useless.

He is feeling the challenge even before they can formally meet. Jeremy then glances at Victor Scott for a moment before taking eyes off. He is more or less aware of the situation here.

The Top Families in City A are backed by some organisations. As far as he knows, quite a few families are backed by Central University 14. The families, in return, sponsor them. It's a mutual relationship.

It's just that only May and Scott have awakened S- Level Talent this year. Last year, it was other families. Jeremy doesn't know how many heirs these families have.

For example, there are also City Governors here in the City A. He doesn't know whether their descendants would be studying here or not.

Like them, his family is connected to the Human Alliance. His family had met with one of the city governors here. At that time, he was also with them.

"If I'm not wrong, his son is similar age to mine," Jeremy thought. But he was not sure. Because the City Governors here are far more stronger and influential than City B and City C.

He wouldn't be surprised if they had sent their son and daughters to the higher zones for study. City Governors have strong connections in the Human Alliance.

While he was lost in thoughts. A middle-aged man in a tuxedo appeared on the stage. Seeing him everyone quieted down. Because everyone felt a creepy feeling upon seeing him.

Jeremy's thoughts were broken. His mind returns to reality. He saw a dangerous person gazing at everyone. His gaze is like a predator looking down on the prey.

The middle-aged man is not even hiding his act. Some of the female students fainted on the spot. The weak-willed students are trembling in fear.

This made the place more gloomy.

Jeremy's senses were warning him as well. But he is not reacting. Though he didn't like to admit it. But he thinks it's a test.

The middle-aged man is doing what a Corrupted Beast would do. Intimidation before the attack. If the students here don't have practical experience, then it's normal for them to faint.

Jeremy felt glad that he had a Combat experience with the Night Squad. Recently, he had fought against the Tier-3 Corrupted Beast as well.

Compared to those, the middle-aged man is being lenient on everyone.

May Lindsey is unbothered. She is not fazed by this level of intimidation. Children of these top families were already equipped with practical experience.

Victor Scott is smiling. The scene is amusing to him. He thought the number of weaklings was high this year.
