

STRIKER 26

Chapter 26 Part 1: Meeting Hall

Jeremy realised that these two were up to something. He leaves the place without telling them.

A few minutes later,

He arrives at the dorm building. Only after staying here did he realise that this dorm building is allocated for freshers. There is a separate dorm building for females. Everyone was given a single room, respecting their privacy.

Because of it, he can stay in his room peacefully. After walking past a few rooms, he arrived in front of his room.

Creak!

After entering inside, he locked the door. Then he turned to look at his wide spacious room. There is a separate bedroom, a bathroom, a small living space, a small kitchen and a balcony. It's like a small house.

No wonder, he felt the dorm building was massive in structure. Jeremy then went to the bath to take a shower.

Meanwhile,

Petra Ross realizes she has been fooled by Jeremy Night. He was nowhere to be seen.

"I think he must have spotted us together," Levy said with a small grin.

"It's bad. Then he won't talk to me again," Petra uttered while touching her forehead.

"Common, we have just started our university life. It's going to be fun," Levy said.

Petra smiled in response. Then both of them started walking away from the auditorium together.

...

Administration building,

Inside a similar brick-style building, a meeting is going to take place shortly. This building is an administration building where teachers and staff have their offices here.

Only during their class time do they have to go to the main building for a lecture. The rest of the time they can stay here in their office.

At this time, inside the meeting hall. The 1st year teachers have started coming in. One by one teachers seated around the massive wooden round table.

They are going to review the talent of over 300 freshers this year. The meeting is important to identify the new Beast Tamer's talent in the early stages.

So they can be placed under a suitable department.

A few minutes later,

For 10 Beast Taming Departments, over thirty 1st year teachers are gathered here. Including the senior and junior ranks. Even Teacher Jacob Henry was seated here.

Everyone is chatting and laughing. They are discussing interesting talents this year. Only Teacher Jacob Henry looked solemn.

His expression was noticed by others. One of the Teachers couldn't help but ask. He is none other than his best friend here.

"Hey, Jacob, what are you sulking about?" A brown-haired middle-aged man asked.

Jacob shakes his head by replying, "It's nothing."

"Hmmm, I doubt it's something else," his friend refuted.

Just as everyone was talking and laughing, three people walked into the meeting hall.

Quiet!

Everyone quieted down upon seeing them. An old lady in the middle is accompanied by a beautiful lady and a man. They are 3rd year students.

Violet Heath and Ernest Knox. The Heath and Knox Families are major shareholders in Central University 14. Their family has a large number of Elite Beast Tamers who graduated from Central University 14.

These families keep their power and foundation stable by contracting with Beast Tamers without background. The majority of them enter their family after graduation.

These Two Families have considerable say in the Human Alliance as well. If the Lindsey and Scott families are rated as Top Families.

Then, these two families are above them, rivalling the Beast Taming Association, the Military, City Governors and other private organisations.

Violet Heath was dressed in a black uniform. She has long purple hair and eyes. Her skin tone is fair. She stands almost 5.9ft tall in height.

Ernest Knox is blonde-haired and has eyes. He is wearing a black uniform as well. His height is 6ft. His physique is well-built, and his skin tone is pale. He looked sharp.

Lastly, the old lady is the Dean of Central University. She is also one of the top powerhouses in City A. Upon seeing three of them, everyone stood up in respect.

Her name is Carolyn Morgan. The old lady swept her eyes across everyone. Her gaze was powerful. Everyone showed respect and reverence.

They know that their dean has slaughtered many Elite Colossal Corrupted Beasts during her prime days. She sat on the main seat.

Ernest and Violet sat next to her on both sides. The dean then told everyone to take a seat. Hearing that, Teachers sat back in their chairs.

Then an old man who is also the head of all the 1st year teachers started the meeting. His name is Derek Gibson. He activated a device. A blue holographic screen appears showing the profile of more than 300 freshers.

Violet and Ernest both of their eyes fixed on the screen. There is a reason why they are here. Each here, they identify talents early so that they can bring them into their family.

This year will be the same.

Dean Carolyn looked at the Head Teacher and asked, "Show the top talent of this year."

Hearing that old man Derek selected the profile of May Lindsey and Victor Scott. When both of their pictures appear on the blue screen.

The Teachers' eyes fixed on the screen as well. The teachers from the Elemental Department and Control Department were especially excited.

"Dean, these two are the top beast tamers to join our university. Both of them are S- Graders. Ms. May Lindsey awakened Talent Ice Supreme."

"Mr. Victor Scott's talent is Spider Lord. Both of their talents tilted towards the Elemental and Control Department," Derek said.

"Spider Lord, interesting," Ernest's gold pupils flash. It was just a moment of interest. But the interest fades away the next second.

Because the Scott Family is one of the top families. Victor Scott is going to lead the next generation of the Scott Family. He can't join the Knox Family.

Ernest can only choose those without background.

Violet Heath sighs inwardly. She was hoping to recruit top talent as well. But this year top talents are from the established families.

She can only look for A-level Talents. Which is also good. Most of their recruits are from A-level Talents.
