

STRIKER 311

Chapter 311: Part 3: Stunning the City A

Shadow Moon Organisation:

Gilesa's eyes turned cold. She didn't expect the Faction leaders to come here. She ignored her and asked the head for permission to enter.

Creak!

The next second, she received permission and entered. She didn't even spare a glance at the Faction Leader.

The middle-aged man frowned. He had arrived before her. Yet the head had allowed her to enter first. Then his eyes flickered with understanding.

She was able to recruit such talent into her team. Now the whole top 10 zones were talking about the talent. The Head must be naturally impressed.

Now, he slightly regretted not paying enough attention.

Inside the office, the head, Neil, was sitting behind the desk. Upon seeing Gisela, a bright smile appeared on his face. Gisela had increased the prestige of the organization by successfully recruiting Jeremy Night.

He then asked her to sit.

Gisela sat in the opposite chair.

He said, "You have done a good job. Even I was hesitant at that point. But that kid turned out to be more talented than we had expected. He was basically born for combat."

Gisela smiled and replied, "Head, there is one more thing to do. You need to talk to the city administration so that they can fast-track the residence status for Jeremy Night and his family."

Neil was taken aback. He said, "Thanks for reminding me. I'm going to take care of that next."

"That kid's whereabouts are now exposed. Soon the organization might contact him. I'm hoping that kid will come here sooner."

"If any Tier-9 Beast Tamer wants to recruit the kid, it would become a headache for us. The Human Alliance might hesitate to offend the Tier-9 Beast Tamer for us," he added.

Gisela's expression turned serious. She recalled that the kid wanted to spend a few more months there. But now the situation appeared to be unfavorable for them.

"Alright, I'll go there to see that kid," she said.

Upon hearing that, the head felt relieved.

Then they spoke about a few other things before she left the room. Now she had an important task at hand. She decided to leave for City A.

...

City A, Goldcorp Organisation:

In the organization, everyone was talking about the new shocking talent coming from Central University 14. As a corporate organization, they knew the importance of talent who could fight across tiers.

The well-known people wanted to have good relations with Jeremy Night's family after knowing that his father was one of the city governors in City C.

Meanwhile, one of the shareholders, Rick, was also discussing the talent of Jeremy Night. He felt envy. If he had known about such talent, he would have found him before others.

Maybe he could have used this opportunity to advance his plan. But ever since the Rat Beasts incident, he had been facing numerous difficulties, especially the investigation from the city administration.

Fortunately, nothing bad had happened to him. He had been on hiatus since that day.

He asked, "Javier, what do you think about that kid?"

The old man, Javier, was lost in thought. His master's words brought him back to reality. He hadn't expected the kid he was targeting not long ago to have grown up to this point.

Now the old man was starting to fear his past deeds. He had tried to kill that kid many times. But fortunately, no one knew it was him.

The City Police hadn't cracked the case yet. It had saved him.

"Javier?" Rick uttered again.

Hearing that, the old man shuddered before replying, "Master, the news was too shocking to hear. I couldn't believe it for a second."

Rick nodded his head before saying, "I felt that too. But it happens. Now various powerful organizations would want that kid to join their organization."

"I don't know whether the chairman and other shareholders are thinking about recruiting the kid," Rick added.

Hearing that, old man Javier broke out in a cold sweat. He didn't want his deeds to be exposed. But he thought that the kid would probably join the organization from the top 10 zones.

So he put his heart at ease.

...

Central University 14:

Jeremy Night, Daniel Stone, and Betsy Lowe were inside the class. They were discussing how Jeremy Night's strength had shocked the entire zone 14 and other satellite cities.

"Brother Jeremy, did your parents call you?" Daniel asked.

"Yes, I have already told my parents about my strength. They weren't that surprised," Jeremy told them.

"I knew it. Then what about next?" Daniel asked.

Before Jeremy could open his mouth, Betsy said, "What next? The top organizations from the top 10 zones will contact him."

"I heard there are many powerful organizations in the top 10 zones. The place is filled with rich resources. You can find different types of growth resources there," Betsy added.

"It's true that those places are filled with resources," Jeremy replied.

He didn't want to reveal anything about the Shadow Moon Organisation because it would cause another breaking news.

"What more? Hereafter, the senior students won't dare to bother us. Brother Jeremy's strength was exposed. Even the instructors are showing respect," Daniel said with a smile.

Betsy nodded her head in approval as well.

The senior students were their only problem. Apart from that, their university life was going well.

"Brother Jeremy, I heard the whole city is talking about you. If you go outside, you will be swarmed by a group of people," Daniel Stone said.

Hearing that, Jeremy shook his head before saying, "I won't be going outside for at least a week."

Betsy let out a chuckle.

While they were chatting and laughing, one more person made an entrance. The person was none other than the Department Instructor, Jacob Henry.

He walked into the room and saw the three of them chatting and laughing. He sighed inwardly. He didn't know whether he would continue to see the same scene in the future.

Now, Jeremy's talent and strength were exposed. Everyone thought that he would move to the top 10 zones because Jeremy Night had already shared his dreams with them.

Chapter 312: Part 1: Meeting with Leader Gisela

Central University 14:

Jacob then started the class. They discussed the different corrupted beasts. For the first time, every first-year student had come across the Wild Eyed Cats yesterday.

Such beasts can only be found in the inner part of the wilderness.

Time passed,

Instructor Jacob then left the class two hours later. Since it was post noon, everyone decided to hit the training center.

After leaving the department building, they were on their way to the training center. Jeremy was chatting with the others too.

Betsy Lowe was sharing her conversation she had with her grandfather. Everyone wanted to meet Jeremy Night.

Not only her, Daniel expressed that his parents wanted to see him as well.

Jeremy raised his eyebrows in surprise. He told them that he would tell them later because he had a feeling that something was going to happen next.

Soon, they reached the joint training facility and entered different practice rooms. The other students were quite surprised.

Jeremy Night is a big celebrity now. Even if the seniors ordered them to do something, they wouldn't do it anymore.

Inside the room, Jeremy decided to practice the katana blade arts.

In the following days, he continued his routine. He would go to the library to select blade and sword methods to learn.

Apart from the "Triple Rapid Cuts," he wanted to learn a few other methods. He realized his shortcomings during his fight against the Two Tier-4 Corrupted Beasts.

If not for the new starlight energy, he wouldn't have been able to slay those beasts.

Time passed,

Dusk fell, and he exited the joint training facility and was on his way to the dormitory.

Buzz!

He received a sudden call. He took the digital device out and saw the person who was calling him. It was a new number.

But he answered the call the next moment.

"Jeremy Night, come to the restaurant next to the university."

He heard a beautiful voice. But he immediately recognized the voice of the person it belonged to.

"Yes, leader," Jeremy uttered unknowingly.

The person who spoke was none other than Gisela Reyes. She came here after completing her busy work.

Here, Jeremy looked at his attire. His clothes were drenched in sweat. He quickly bolted toward the dormitory the next moment.

About 20 minutes later,

He exited the university gate and came to the main street. There were flying cabs parked on the platform.

He spoke to the driver before entering his car.

Swoosh!

The cab driver started driving the vehicle toward the destination.

Not long after, the driver dropped him in front of the restaurant located next to the university. Jeremy stepped out and paid the fare to the driver.

He then turned toward the restaurant and started walking toward it. He arrived at the door and opened it to enter.

Creak!

As he walked inside, his eyes wandered around to find the leader. He had been studying and living at the university, but he had never come to this particular restaurant.

Buzz!

The next second, he received a call. When he attended it,

"Come to the 2nd floor!"

He heard her voice. The call ended the next second. Then he looked around before finding the elevator to the second floor.

Shortly afterward,

When he arrived on the second floor, he found the whole floor was covered with transparent glass walls.

He then saw Team Leader Gisela sitting at the corner. He opened the door and started walking toward her.

From beginning to end, no staff took notice of him. Everyone was busy serving the customers on the first floor, but there was no one on the second floor.

Jeremy came to her and sat in the chair opposite her.

"Kid, you have become famous now," Gisela said with a smile.

"It changes nothing," Jeremy replied.

Her eyes flashed with approval.

She then said, "I have come here to discuss something important. Your permanent residence status is ready. You can shift with your family to City A in the 10th zone. We have arranged residency status for them."

Hearing that, Jeremy was shocked. He hadn't expected this to happen so soon.

Gisela saw through his thoughts and said, "You are famous now. Not only here, but in the top 10 zones as well."

"Since you have officially joined our Shadow Moon Organization, the city administration has fast-tracked the application process," she added.

Jeremy's eyes flickered in understanding. His fame had brought the permit faster.

"I have one more thing to discuss. The head of our organization wants you to join right away," Gisela said while looking at him with a direct gaze.

Jeremy was dumbfounded because this came out of nowhere. He had already told them about his condition: he wouldn't leave until the end of this year.

He wanted to complete at least the first year of studies here.

Before he could say something, she started to speak.

"I know about your condition. But it's different now. Your talent and strength have been exposed. You will be sought after by more powerful organizations and Tier -9 Beast Tamers."

"The head of our organization feels that if you are in our organization, no one will force you to join them. But anything can happen here."

"If any Tier-9 Beast Tamer or big organization comes here to recruit, then it would become difficult for us to stop them," she revealed.

Jeremy was stunned. He had forgotten about their difficulties as well. It was true that her concerns were genuine. It could happen.

But he was struggling inside. His mind was not set to leave right now. But what if some organization forced him to choose them and leave?

Gisela saw that Jeremy Night was considering his options. She knew that the kid was not stupid. He could think for himself.

She then thought of something before saying, "Just remember not all organizations are filled with good people. Not all Tier-8 and Tier-9 Beast Tamers are good."

Her words woke him up. He almost forgot that there were corporations like Goldcorp and illegal trade organizations like Mighty Order.

He didn't want to come across them before he completely grew up.

Chapter 313: Part 2: Meeting with Leader Gisela

Restaurant:

Jeremy now found himself in a tricky situation. He had no options right now.

Either he had to go with her to officially join the organization, or he should join a better organization.

But he had already signed a contract. It wasn't wise to break the contract. After pondering for 15 minutes, he made a decision.

He said, "I can come with you. But I still want to complete my first year of studies here. Is this possible?"

Gisela was taken aback. She thought he would decide to come with her. But then she realized the kid was feeling uneasy right now.

"I can't make a decision on this. But you can speak to the Head of the Organization. Once you become part of our organization, you can then visit this city whenever you want," she said.

"If you want to continue your studies, you can join Central University 10 in our City A," she added.

Hearing that, Jeremy shook his head before saying, "No, I'm thinking about this university because of the STRIKER Department."

"Okay, as per your wish. Are you coming right now?" Gisela asked.

"What about my parents and the Dean?"

"Should I inform them?" Jeremy asked.

Gisela said, "You can talk to your parents first. We will tell your Dean later."

Hearing that, Jeremy nodded to her before taking out the digital device to make a call.

When the call was connected, he spoke to his father and informed him about the current situation. Ron Night was rather shocked.

He didn't expect the day to come so soon. He felt sadness because of the sudden parting. But Jeremy assured him that he would come back after spending a few days there.

He wanted to speak to his mother, but his father stopped him. His father had decided to talk to his mother later.

After the call, he turned towards Leader Gisela.

"My father has agreed. He will convey it to my mother later," Jeremy said.

"Let's go to our university right now," Gisela stood up and said.

Jeremy was stunned, but he agreed. Night had fallen. It was a good time to talk to the Dean.

About 20 minutes later, they entered the university. He brought her to the Dean's office. On the way, everyone was shocked upon seeing her.

The aura coming from her was oppressive, similar to that of the City Governors.

When they arrived in front of the Dean's office, he directly knocked on the door.

Knock!

"Come in!"

An old female voice came from inside.

Creak!

Jeremy opened the door and walked in the next second. Gisela followed him inside.

Old lady Carolyn was sitting behind the desk. She was surprised upon seeing Jeremy Night. But when her gaze fell on the middle-aged woman, Gisela, her expression changed drastically.

"Tier-7 Beast Tamer," she stood up and said.

Gisela smiled and said, "It's nice to meet you, Dean. I'm Gisela from the Shadow Moon Organization, 10th Zone."

"Shadow Moon Organization!"

"10th Zone," old lady Carolyn was shocked to the core.

She was not new to the name. She had heard about this organization before. It's one of the famous organizations in the 10th zone, headed by a Tier-8 Beast Tamer.

The next second, she recovered her thoughts and said, "It's good to meet you, Ms. Gisela. Please take your seat."

"You sit as well," she then said to Jeremy. Then she sat back in her seat.

Jeremy Night and Gisela then sat down.

Old lady Carolyn had already guessed what was going on in her heart, but she was shocked.

She didn't even know that someone from the Shadow Moon Organization had contacted the kid before.

Gisela was still smiling.

She said, "I guess you have already figured it out. But I'll say it openly: Jeremy Night has joined our organization. He and his family got a residence permit as well."

"You can say that he is a local of the 10th zone right now," she added.

Old lady Carolyn widened her eyes in disbelief. This was news to her, shocking news at that. She had guessed it a second ago.

But still, it was a huge shock to her.

"When did this happen?" Carolyn asked.

Her eyes were directed at Jeremy Night, wanting to know the answer.

Jeremy sighed inwardly. He could tell that she was annoyed. Before he could open his mouth, Gisela said, "It was not long ago. We found his profile during the Genius List meeting of the Human Alliance."

"Apparently, his profile was not selected for the genius list, but we thought Jeremy would be a good addition to our organization," she added.

Hearing that, a look of understanding dawned on the Dean. In fact, she knew Jeremy Night's profile would be exposed.

But she hadn't expected one of the top 10 zones to really pick him. What more? She realized that the kid was deeply hidden.

"He is already a Tier-2 Beast Tamer," old lady Carolyn thought to herself.

Not long ago, she, Elder Derek, and Instructor Jacob had come to the same conclusion.

She then gave a deep look at Gisela. She knew that Jeremy's information was confidential. That kid must have spoken to her about this, especially about the unknown lifeline beast which the kid was unwilling to use.

"What about the STRIKER Department?" she asked.

"Jeremy Night is willing to complete his first year of studies here before moving out completely. But before that, he has to convince the Head of our Organization," Gisela said.

Jeremy was silent from the beginning to end. He did not feel guilty at all because he had long since expressed his desire to enter the top 10 zones.

"Okay, I'll take care of things here," old lady Carolyn said after accepting the facts.

She knew that the kid wanted to move from the beginning, but she had underestimated him at that time.

Instead of the 2 S-Graders from the first year, Jeremy Night, with A-Grade talent, was going to move out.

She didn't know how others would react if the news came out. Then they spoke about a few other things before exiting.

Jeremy Night didn't pack his things. The important stuff was inside his storage ring.

Chapter 314: 10th Zone- City A

Airport:

About 20 minutes later, Gisela and Jeremy arrived at the airport. They had booked a special flight to the 10th zone.

The special flight is operated by one of the aviation organizations in the top 10 zones.

This organization offers more special flight services throughout the 10th zone, as beast attacks are very common in that area.

Services of such special flights are very much needed in that location. Upon their arrival, they had to wait briefly for the special flight to arrive.

In the meantime, Jeremy was asking about the 10th zone. He wanted to know more about that place. He wanted to prepare psychologically before anything upset him.

"The Shadow Moon Organization has fewer members, but all of them are strong. It's not easy to enter our organization. Fortunately, your strength is evident now."

"No one will cause trouble for you inside the organization. But it's different on the outside; we have our competitors as well."

"The City Administration usually gives special missions to powerful organizations. In some rare cases, they assign missions based on the beast tamers' talents."

"Because of this, there is always competition between various organizations in the 10th zone, unlike the satellite cities here."

"The power structure of the cities is almost the same in the 10th zone. You can find some powerful organizations with bases in City C and D."

"All of this is because of the wilderness. Everyone wants to explore the wilderness to open new territories from the bases."

"If the organizations are successful with their exploration, the Human Alliance then grants them a plot in that newly explored area," Gisela said in a serious tone.

Hearing this, Jeremy was surprised. He soaked in the details but was shocked to learn that the satellite cities were equal in strength.

Not only that, but he was also excited to know there are different organizations exploring the vast wilderness independently. He had always thought you needed permission from the City Governors for such jobs.

Because if the Mercenaries mistakenly caused any problems for the corrupted beasts, it could immediately trigger a beast invasion. That's why the people here are defensive.

Then he pushed down the negative thoughts and waited for the flight to arrive.

Shortly afterwards, the special flight landed at the base. The aircraft's body was completely black. It was hard for any beasts to spot it during nighttime.

"Let's go," Gisela said.

Hearing this, Jeremy recovered his thoughts and followed her to board the special flight.

A few minutes later, he boarded the flight and sat in the window seat. Jeremy then swept his gaze across and found there were only 10 seats—five on each side.

There was space for cabin crew at the back and a cockpit at the front. Gisela sat in the left window seat.

The flight waited for another 30 minutes, but no other passengers came to board.

"It appears we are the only ones," Gisela remarked.

Then two female flight attendants came to assist. Jeremy shook his head; he didn't need anything. Right now, he wanted to get some sleep.

His mind was already loaded with too much information. He needed time to adapt. Then he closed his eyes and began to sleep.

Gisela noticed that Jeremy had fallen asleep. She thought that the kid was totally exhausted. She hoped he wouldn't be surprised after arriving in the 10th zone.

The infrastructure and facilities were on a different scale compared to the 14th zone. The 10th zone's population was quite large, with more genius beast tamers.

Everyone would be looking forward to meeting the kid once his identity was revealed. Gisela sighed inwardly. She ultimately thought that the kid would handle it.

Shortly afterwards, the pilots started to operate the aircraft. The flight took off and began flying towards the destination.

...

Meanwhile, Old Lady Carolyn was still finding it hard to accept. She hadn't expected such changes to take place so soon. The kid's strength exploded at a time when he needed protection.

She could tell that the kid was not feeling safe here. Once he went to the 10th zone, the forces there would dare not attack, especially the beast-taming families would not target that kid.

Buzz!

Suddenly, she received a call from a familiar person—the City Police Captain Nathan.

She answered the call at the next moment.

"Dean, the three governors have given me permission to investigate the beast-taming families?"

"What's your opinion?" Nathan asked.

Hearing this, Carolyn was stunned, but her eyes flashed with regret. It was too late to press the final button. The kid had already moved out.

She decided to agree, thinking about the future. It was better to take action against the families and punish the criminals.

Otherwise, if the kid took action against them in the future, it would lead to bloodshed.

"You can proceed with the investigation. Our university will support you," she replied.

Nathan sighed in relief. Then they discussed a few other matters before ending the call.

She decided to inform Elder Derek and Instructor Jacob the next morning.

...

10th Zone- City A:

The next day, in the early morning, the black flight reached the 10th zone. It was going to land at the 10th zone, City A- the Airport.

Gisela woke him up. Jeremy opened his eyes and looked out the window. The first thing he saw was the giant city walls over 500 feet high.

Now the black jet was flying over them. Jeremy was dumbfounded; the height of the city wall was taller than that of the previous city.

He continued to look for the end, but he couldn't see it from the flight. The city walls on both sides extended beyond his vision.

"City A of the 10th zone has a vast territory. It can hold multiple 14th zone satellite cities within it," Gisela said.

Hearing that, Jeremy's eyes flickered with understanding. Earlier, she had reminded him, but the visual impact brought him real comprehension.

He suppressed the shock in his heart and continued to look outside the screen through the window.

Chapter 315: Entering the Shadow Moon Organisation

10th Zone - City A,

The black aircraft quietly flies over the humongous city. It took another ten minutes for the aircraft to reach the airport located inside the city.

This shows the sheer size of the city. The airport here is one of the busiest and largest airports in the 10th zone. The black aircraft is trying to land.

There are other big aircraft from different destinations also trying to land. Fortunately, the experienced pilots communicated with air traffic control to land safely.

This operation has brought another shock to Jeremy Night. He is seeing aircraft in different models and sizes. Their numbers are quite large as well.

It's also reminding him how many people use the airport on a daily basis. Jeremy doesn't know what to say. He is dumbstruck right now.

The black aircraft slowly landed on the ground. When it came to a halt, he recovered his thoughts.

Gisela is carrying a smile on her face. She has seen Jeremy's shocking reactions. She thinks this experience is going to open new horizons for this young man.

At this time, the more shocked people were none other than the flight cabin crew. This small cabin crew of three people has recognized Gisela.

They knew she was one of the famous Tier-7 Beast Tamers. So they were quite curious about the identity of the young man.

When the exit door was opened, both of them stepped out. When they landed on the ground, the cabin crew and the pilots walked out as well. They saw Gisela and the young man next.

They were curious about the young Tier-2 Beast Tamer.

But Gisela was in no mood to explain to them. She wanted to take Jeremy Night to her organization first because she knew there were some influential people who had Jeremy Night's information beforehand.

They could recognize his face. They reached the departure gate and soon came to the lobby.

Jeremy Night continued to wander around. He was seeing this massive airport for the first time. He noticed that Leader Gisela seemed to be in a hurry.

Like she didn't want to be recognized by anyone she knew.

Soon, they came outside the airport to the transport area and found the flying cab. Jeremy saw that even the flying cabs were of new models belonging to different manufacturers.

The nearest cab driver saw them. He was a middle-aged man.

"Take us to the Shadow Moon Organization," Gisela said to him.

Hearing that, the cab driver was dumbfounded. Then he nodded his head.

They entered the cab and sat in the back seat. The driver was a middle-aged man. He immediately started to drive the car.

Swoosh!

The flying cab hovered above the ground and slowly ascended into the mid-air. Then it started flying towards the destination.

The cab driver was in shock after learning about the destination. It's the building of the Shadow Moon Organization, so he was driving carefully.

Jeremy watched the passing scenes through the window. There were many high-rise towers. He saw buildings over 100 ft in height.

There were even buildings many times taller than that. He had the feeling they belonged to particular organizations. Those organizations must be powerful.

It didn't take long for the flying cab to reach the destination. The cab entered the gated community. There was a large open green field that stretched over many acres.

There were beautiful flower gardens among them. There were also large pine trees covering the land. The cab flew over before coming to the main place.

It landed in front of the black stone-style castle building. Gisela and Jeremy stepped out. She paid the fare. The driver thanked them before leaving the place.

Jeremy sighed in his heart. He never expected his organization building to be this big. It was a medieval-style pointed arch castle.

"You can appreciate it later. But it's time to meet the Head of the organization," Gisela said.

Hearing that, Jeremy recovered his thoughts and said, "Okay."

Then they started walking up the stairs before arriving at the huge iron gate. Gisela then did something on her device.

Creak!

The next second, the huge iron gate opened.

Both of them walked inside. The next moment, Jeremy felt the quiet environment becoming noisy. He saw people going about their business inside.

He saw that there was an administration office here. Gisela's arrival attracted attention. Everyone looked at her before taking a look at the young man.

They were curious. They thought he could be some client. They were receiving many private and individual requests to hunt down the corrupted Beasts.

Gisela ignored them. Only the Head and other team leaders knew about Jeremy Night. As long as Jeremy Night didn't get into their sights, there would be no problem.

"Come with me," Gisela said.

She then took Jeremy to the Head's office. It was located in an important place in the castle.

Soon, they arrived. There was no one walking in the corridor. Jeremy's heart was beating faster. The new place and the new experiences were making him excited.

But he didn't forget his main goal. He wanted to complete the first-year students in the 14th zone.

They were standing in front of the room. The door was closed. Gisela then took her device out and asked for permission.

Creak!

The next second, the door opened. They walked inside the room. Jeremy saw an old man dressed in a white tuxedo sitting behind the desk.

But his presence was stronger than Leader Gisela's. When his and the old man's eyes met, he felt a strong sense of crisis. The unknown beast egg shook a little bit in the mental zone.

The next second, he felt his heart at ease. The nervousness was gone. The unknown beast egg had helped him just then.

Jeremy sighed inwardly. If not for the unknown egg lifeline beast, his outward expression would have collapsed.

Old man Neil was surprised. He thought of using a little bit of intimidation.

He was expecting the kid to get scared or something. But nothing like that happened. His eyes flashed with approval.

Chapter 316: Slightly tensed exchange

Head office:

"Both of you sit," the old man Neil said the next second.

Hearing that, Jeremy sighed in relief. He sat in the chair opposite him. Gisela sat in the chair as well.

"You are Jeremy Night, right?"

"I'm Neil Moon, Head of the Shadow Moon Organisation. A Tier-8 Beast Tamer," he said.

"Yes," Jeremy replied.

But he was shocked in his heart, looking at the Tier-8 Beast Tamer for the first time. Now he understood why the old man's pressure was stronger than Leader Gisela's.

"You are not a bad kid. You didn't disappoint us. But the competition here is cutthroat. The corrupted beasts' attacks here are more dangerous than you can imagine."

"You won't have peace once you become our member. Don't forget that there are also rivals from other forces. If you are not ready to face all of this, then you should stay back in the 14th zone," Neil said in a serious tone.

Gisela didn't say anything. She knew about the threat as well. Since Jeremy Night was amazed by the good things of the city, he needed to know the ugly side as well.

On the other hand, Jeremy Night sighed in his heart. He knew the risks. His main reason for coming here was to get resources for his unknown egg lifeline beast.

Then there was the threat posed by the beast taming families and the Gold Corp Organisation.

He then said, "Head, I have already decided. The top 10 zones are filled with resources. I want to become a powerful beast tamer."

Hearing that, old man Neil was taken aback. He thought there could be some special reason for this kid to come here. But he wanted to become a powerful beast tamer.

It's just that everyone had this dream. It's the lifetime goal of many beast tamers so that they can expand new territories in the wilderness for the human population.

Neil recovered his thoughts before saying, "Okay, since you have already signed the contract, you are our member now. Here, you can get resources by completing tasks."

"You can take private tasks from the city administration and other friendly forces," he added.

Jeremy thought it was an opportunity to speak.

"Head, I want to ask you something," Jeremy said.

Gisela's eyes flickered. She let him speak.

Old man Neil was surprised, but he found that Gisela was unusually silent.

He then asked, "What is it?"

Jeremy then replied, "I still have my first year studies left. I want to complete them before coming here."

"This?" he uttered in surprise.

He had thought the kid had come here to join.

"What's going on?" Neil said. Then he looked at Gisela Reyes.

"Didn't you tell that kid?"

"Almost all the major forces have his information by now, including the good, bad, and neutral. If the hostile forces knew about his whereabouts, they would try to do something," old man Neil said in a serious tone.

Jeremy's face changed drastically. He didn't expect that the situation here would be so bad as well.

Before he could ask further, she said, "Head, I thought it would be better for you to explain it to him."

"Sigh!"

Old man Neil let out a sigh.

"Kid, you are really naive, aren't you?"

"Since I said that the competition is severe here, do you think we don't have enemies? There is a reason why there are fewer members here," Neil said in a serious tone.

Jeremy was stunned. He had thought about having smooth progression here, but he hadn't expected to catch a tiger's tail. He furrowed his eyebrows.

Now he had seen the size of the city. He could understand the undercurrents surging there.

"If you still insist on finishing your studies, you will die sooner. Your parents will suffer as well," Neil told the truth.

On the other hand, Jeremy felt as if a thunderclap struck his head.

"What?" he blurted out in surprise, his eyes full of disbelief.

He then said, "I wanted my future and parents to be safe. That's why I agreed to join here. But you are scaring me instead?"

"Jeremy," Gisela called out. She found Jeremy's tone rude.

Old man Neil's expression hardened. He never thought someone from the barren zone could talk back to him.

"It's over," Gisela thought.

She regretted bringing Jeremy Night here.

He looked into the eyes of the kid.

He said, "Kid, there are no good or bad people here. I'm stating the facts. You have just entered one of the top 10 zones. You will find everyone has calculations against each other."

"Now that you have joined us, you have become a target for others. Similarly, if you join our enemy force, we will target you," Neil added.

Jeremy eased his eyebrows. He forgot that there was no free lunch in this world, and this place was no charity. Since he had become part of this organisation, he had to take responsibility as a member as well.

Which includes going through good and bad times together. He calmed his heart the next second.

"It appears you have cooled down a bit," old man Neil said.

He was truly impressed by that kid. How many teenagers in the 10th zone could speak to him without fumbling and fear? That too, this kid was a Tier-2 Beast Tamer who had broken through recently.

And he was a veteran Tier-8 Beast Tamer, so he was not offended by the kid's tone.

"Sorry about that," Jeremy uttered.

His outburst was unwarranted, but he realized that the head was speaking with good intentions.

"I forgive you. The reason I'm speaking to you in this way is because I'm treating you as an adult who could become a pillar of our organisation," old man Neil said with a smile.

Hearing that, Jeremy's heart filled with warmth. Since the Head of the Organisation was speaking to him warmly, he realized that Leader Gisela's earlier words were right.

He wouldn't face any trouble inside the organisation. He could basically complain to the Head directly if anything happened.

Gisela's eyes filled with relief. She thought Head Neil would punish this kid, but surprisingly, he was not strict today.

"Maybe he was really impressed by the talent?" she thought.

During the genius list meeting, she went against Head Neil to recruit Jeremy Night.

A few seconds later,

"So, what should I do now?" Jeremy asked.

Old man Neil smiled and replied, "Listen to me. Start your day as a member of our organization. Forget about your academy. If you go back, it would only harm your friends."

"Not today, but in the future for sure," he added.

Then Old man Neil thought of something important before asking, "Ask your family to move out as well. It's not safe for them."

"I can recommend your father for a post in the city administration. With his job here, you can stay with your family."

"Even hostile forces won't target your family here. With the abundant resources, both of your parents can find opportunities for a breakthrough."

"If you agree, I'll ask Gisela to take care of the arrangements," Old man Neil added.

Gisela was surprised. Honestly, she didn't expect the Head of the Organization to speak so much. More importantly, she found out that the Head of the organization also wanted talent like Jeremy to stay.

Jeremy gave it deep thought before agreeing. He knew he couldn't control things outside of his power.

He then said, "Okay."

"Ha... Ha... Ha..., you are a smart kid," Old man Neil said with a laugh.

Gisela sighed in relief. She thought Jeremy Night would be stubborn. But in the face of reality, he accepted the facts as well.

"Gisela, take care of this matter. I'll ask my friends in the city administration to accept this kid's father," Old man Neil said.

"Yes, Head," Gisela replied.

Then Jeremy and she exited the room.

Old man Neil's eyes flickered.

"I hope with this kid's character there won't be a problem here," he said to himself.

To be honest, he wanted all of his members to be happy and safe here. But there is also reality. If they knew the reality, they wouldn't let down their guard.

"There are rooms here. You can stay there until I bring your parents," Gisela said.

Hearing that, Jeremy suddenly thought of Night Mansion. There were guards, servants, and other staff. He didn't want them to be jobless.

"Leader, is there a chance to bring out the guards and staff?" Jeremy asked.

Gisela paused her footsteps. She looked at Jeremy and said, "I'm sorry. It's not possible. We only got permission for you and your parents."

"Don't forget there are rules. There is a reason why there are different zones. Imagine if everyone comes to the 10th zone; it's impossible to allow them. The city is already populated."

"If you want staff, you can choose people who were born and brought up here," she added.

Hearing that, Jeremy sighed. He had actually forgotten about the permits. His father was one of the city governors. Soon, he was going to be an ordinary employee.

"Thanks for reminding me. But I'm curious about the hostile forces here," Jeremy asked.

Gisela's eyes flickered. Since Jeremy was part of their organization now, she decided to tell him.

"We have a competitive relationship with others. But if we truly talk about enemies, then there is one organization. It's called the Sun Wheel Organization."

"Their Head has the same strength as our leader. From the name, you can guess that their members all have fire-related abilities," she added.

Jeremy was surprised in his heart.

Chapter 317: New kits

City A-10th Zone:

Shadow Moon Organisation:

"The Sun Wheel Organisation has a mysterious backer. So we didn't break off bridges with them. But there are secret conflicts and fights with them in the wilderness," Gisela said in a serious tone.

"That's why the head of the organisation was serious with you," she added.

Hearing that, Jeremy nodded to her. He had decided to learn more about the Sun Wheel Organisation. She then brought him to his room.

"I'm going now. If you want anything, you can contact someone in the office on the first floor. And I'll send someone to give you the joining kits, including the uniform." After saying that, Gisela left.

Jeremy said, "Okay."

Then he closed the door before starting to look at his new room. The new room was wide and spacious. There was a small space for a living area.

As Jeremy went around his room, he was stunned to find a personal study room and practice chamber. Upon seeing the practice chamber, he suddenly thought of something.

He focused on his mental zone. Then he found out that the unknown beast egg was actually absorbing the natural energy from the surroundings.

He hadn't even realized it so far. When did this happen? Then he recalled entering the city. It must have happened then.

He noticed that the quality of natural energy was purer and denser here. Because of all the tension, he forgot to notice the natural energy in this place.

It was stronger and purer than the natural energy in the 10th zone. It was an added bonus here. Jeremy's heart eased further.

He thought staying here would increase his progress.

He had a feeling that he would soon reach the 2nd Rank. Then he collected his thoughts before looking around the room.

He then walked inside and found that the practice room was wide and spacious. Its walls were built with special metals. It could withstand his various attacks.

Then he walked out and headed toward the bedroom to check. The bedroom was fine. It had a king-sized bed. He could sleep comfortably here.

A few minutes later,

Knock!

Someone knocked on the door. Jeremy then went to open it. He saw a middle-aged woman in office attire.

The woman said, "My name is Elina. I'm one of the office staff here. 10th Team Leader Gisela told me to give you this."

After saying that, she took out a silver storage ring with a moon insignia on it.

"Everything you need is inside the storage ring. There is also a small help book that can brief you about the organisation and its working structure," Elina said.

"Thank you." After saying that, Jeremy accepted the silver ring and wore it on his right ring finger.

Elina nodded before saying, "I'm leaving."

Jeremy then closed the door and returned to his bed. He concentrated on the new silver storage ring.

Then he brought out a few items and placed them on the bed.

There were four sets of uniforms. Two sets were white with a half moon insignia. Then there were two sets of black uniforms with a full moon insignia.

Suddenly, Jeremy's eyes flickered with understanding.

"Don't tell me there are uniforms for day and night missions," Jeremy thought to himself.

Then his gaze fell on the black compact device. He knew he could use it to connect with the online services here.

Next, his eyes landed on the small help book, where he could learn about the organisation. He picked up the handbook to read it.

Meanwhile,

A new rumor started to spread in the office: that the 10th team got a new member. It's not easy to join any organisation these days.

Every organisation accepts the top talent. They prioritize the top talent first. Elina didn't keep her mouth shut.

On the other hand, people who arranged the kits knew there was an additional member. But they were curious. They didn't know who had joined the team.

How strong is the new team member? Only Elina knew about the news, as she was the one who personally delivered the kits to the new member.

Elina was already talkative. Now that people were asking her, she revealed the news.

"Tell us, who is he?"

"Where is he from?"

"How strong is he?"

"What's his Lifeline beast?"

One after another, a barrage of questions assaulted Elina.

She revealed a helpless smile before replying, "He is a young kid, similar to a high schooler."

Gasp!

The people around her took a sharp breath.

Because high schoolers normally graduate from academies before formally joining any organisation.

But here they had accepted a high schooler.

"Don't tell me he is a dropout?"

"Maybe she saw the son of a new team member."

"Could she have mistaken him for someone else?"

People nearby came up with some theories.

Elina said, "No."

Hearing that, five people around her quieted down.

No one said anything the next second.

"It's the kid. I forgot to ask his name. But we can check the database. Since Team Leader Gisela said so, there must be information about him," Elina said.

"Good idea. Why didn't I think of it?" one of the female staff said.

The female staff started to search for the new member's information in the database.

[Confidential!]

Seeing that the information was confidential, the faces of the female staff and the people behind her changed drastically.

"I didn't see anything." After saying that, one of them slipped away.

Seeing that, others left with regret and unwillingness as well. In the blink of an eye, everyone was gone except Elina.

"I guess only the Head of the organisation can do something like that," Elina said.

The female staff nodded to her.

Elina sighed inwardly. They thought it was just a normal new member. But she didn't expect it to be a big fish that had caught the eyes of the Head.

She thought Team Leader Gisela knew about this. That's why she was confident about revealing his identity.

Elina had a feeling that the upcoming days wouldn't be peaceful. The news would soon reach the ears of others. It would attract unwanted attention toward them.

A few hours later,

Not long after his meeting with Jeremy Night, the Head of the Organisation, Neil Moon, released a public statement saying that they have specially recruited a new member into their 10th team.

He only released the name of the new member; the other information he kept confidential. Not even the office staff can view it without permission.

Because Jeremy Night had mentioned in his contract the sensitivity of the lifeline beasts, he made Jeremy's lifeline beast information secret.

When the official statement was released on the site, it didn't take long for everyone to notice it. The first ones to get notifications were the members of the Shadow Moon Organisation.

They would receive any message from top management to their contacts. If it was a message from the Head of the Organisation, it would come as an important message.

First, the Elders, the active members, the unofficial members, retired members, and the working staff in the office all received it.

When they received the message, everyone's doubts were cleared. Elina and her friends especially sighed in relief. As they had expected, the newcomer was indeed a high schooler.

Now they knew who the high schooler was, since his name was disclosed in the statement. They knew recent shocking news was taking all the top zones by storm.

It was the news of a new talent who had fought against and slain the Tier-4 Corrupted Beasts successfully.

His name was Jeremy Night. The people in the office were jolted awake when the realization dawned on them. Their Organisation had recruited not just an ordinary talent, but a talent comparable to the S-Grade.

In some top zones, there was a discussion that even S-Graders can't achieve records like this. This has caused uneasiness among the S-Graders.

Especially those who had attack-type talents. They felt it necessary to make a point, mainly those who are the same age as Jeremy Night.

Now that Neil Moon has released the news, it didn't take long for it to spread outside as well. The major organisations in the 10th zone received the news first.

Then the news spread to the remaining top 9 zones. There were forces willing to invest in Jeremy Night when his achievements were known.

But this sudden news caused them to dispel their ideas. The Shadow Moon Organisation had gone ahead of them and successfully recruited Jeremy Night into their organisation.

Many of them were puzzled. Through connections, it didn't take long for the intel to leak. Neil Moon himself was sharing news with the connections.

Soon others came to know that Neil Moon had recruited the talent long ago, especially during the Genius List meeting.

After learning that, other forces felt short-sighted; they had dug deeper before recruiting all the S-Graders and A-Graders into their organisation.

But they had missed Jeremy Night somehow. However, those who had attended the meeting knew it was not their fault. Jeremy Night's profile information was incomplete to begin with.

So they didn't take any risks. This has caused the higher-ups of the organisation to sigh.

Chapter 318: Tier 2, 2nd Rank-Early Stage

City A - 10th Zone:

Sun Wheel Organisation:

The news of a new recruit to the Shadow Moon Organisation spreads across the Sun Wheel Organisation. The organisation is located in the western part of the city.

Whereas the Shadow Moon Organisation is located in the eastern part. The whole city knows about the rivalry between them. They fight secretly inside the city and openly fight outside in the wilderness.

The Sun Wheel Organisation has a large membership. But compared to the few members of the Shadow Moon Organisation, their overall strength is not strong.

So the competition between them is going on severely. The Sun Wheel Organisation higher-ups have placed a bounty on the heads of the members of the Shadow Moon Organisation.

Whenever their beast tamers get the opportunity, they do their best to kill their rivals. The same thing is happening on the side of the Shadow Moon Organisation.

Now that the Shadow Moon Organisation has a new member, he was added to their killing list, especially after learning about the new member's identity. They have even increased the reward even more.

The new addition to the killing list has caused a stir among the members. They are curious about the new target named Jeremy Night.

After learning that it was the same kid who had caused a shock among the top 10 zones, the members are in disbelief. They didn't expect it was the same kid who had killed Tier-4 Corrupted Beasts at Tier-1 level.

The S-Graders were especially shocked because they don't have members at such a young age. The youngest beast tamer was a third-year dropout student.

But the Shadow Moon Organisation has recruited this first-year student. They are curious. Slightly older members have decided to test the strength of Jeremy Night later.

Meanwhile,

The locals in City A have also heard about the news because the local reporters have reported it. So those who have watched the news now know that there is one more member in the Shadow Moon Organisation.

...

Shadow Moon Organisation:

A few days passed,

Gisela Reyes was able to convince Jeremy Night's parents to move out. However, Gisela found out there was one difficulty. It's not easy to resign from the post of City Governor. It would take time.

The Human Alliance would select the next candidate. Until then, Ron Night has to work. In the end, Gisela decided to report the news to the Head.

For Jeremy Night's parents, she thinks the Head will make arrangements. When she returned, she didn't even go to see Jeremy Night.

Rather, she went to meet the Head of the Organisation.

...

Inside the practice chamber:

Jeremy Night has been practicing the breathing method since his arrival here. He didn't think about anything else. He is sitting cross-legged on the platform right now. He is using the Inner Healing Method.

The unknown egg lifeline beast has been continuously absorbing the natural energy from the surroundings. Ever since it sensed the changes in the environment, the unknown beast egg has been continuously sucking the natural energy.

A few minutes later,

Click!

The unknown beast crossed its limit. It has reached the next stage. The next second, it stopped absorbing the natural energy. Instead, it is preparing to give feedback.

Jeremy notices the changes. He is happy in his heart. Like he had guessed, his progress was faster here. If it were the 14th zone, the breakthrough would take another week.

Not only did he notice changes in the lifeline beast by practicing here, but he also discovered something about himself. His body has been greedily absorbing the natural energy here.

Usually, he feels this kind of sensation at the forbidden area, but he is experiencing it here. His physique is getting strengthened because of the healing energy. It's equivalent to removing hidden dangers.

The next second, he felt the feedback energy coming from the lifeline beast. It's now transforming his physique again.

His body is greedily absorbing the feedback energy. Now he is starting to evolve. His eyesight, hearing, and other senses become a little stronger.

A few minutes later,

Click!

Tier-2, 2nd Rank - Early stage.

The limit that his physique had been under was broken. Now it has reached the 2nd Rank, feeling the energy coursing through his body.

Jeremy's mouth curves into an arc. He thinks it won't be long before he touches the peak. After pushing down those thoughts, he focuses on stabilizing his strength.

The feedback energy was stopped. Now he starts running the Inner Healing Method again.

...

Head Office:

"It's going to be tricky. Now all the organisations are aware of that kid's new status as a Shadow Moon Organisation member."

"I thought his father would get a quick transfer. Since there is a difficulty, I'll send a retired elder over there for their safety."

"I don't think the hostile forces would send beast tamers above Tier-7," Oldman Neil said in a serious tone.

Hearing that, Gisela sighed in relief.

Oldman Neil then thought of something before saying, "That kid has never left his room. He must be waiting for you. Take him around the city and the wilderness."

"He should know about the city and the dangerous places surrounding us," he added.

Hearing that, Gisela replied, "Okay."

"Good, you can leave. You can start giving missions to the kid. Only then can he get resources," he said.

Gisela nodded to him before standing up to leave.

Creak!

She then exited the room and started going towards Jeremy Night's location. She was not surprised by Jeremy Night's behavior. Anyone would have trouble adapting to a new place.

She knows that the other team leaders and staff learned about Jeremy Night. They can't wait to meet and talk to him.

Soon, she arrived in front of his room. She then sent a message to his device.

Inside the practice room, Jeremy's concentration was disturbed by the buzzing sound. However, he continued to practice. He wants to stabilize his new stage first.

Gisela was confused. After waiting for a few minutes, she left after sending a message.

Chapter 319: Confusion back at the University 14

Inside the practice room:

Jeremy opened his eyes a few hours later. Now his 2nd Rank Strength was stabilized. He could go out now. Fortunately, he had his own practice chamber inside his room.

Otherwise, he would have had to go outside. After coming outside, he went to the bathroom to take a shower. The bath lasted for 20 minutes.

He then stepped out and changed into comfortable clothes. Since he was in the room, he didn't have to wear the uniform.

Then he came to the living space and sat on the sofa. These days he had been observing what was going on in the city by watching the news.

He turned on the big screen and accessed news channels. There were many broadcasting media here. Finally, he set his gaze on one channel and started playing it.

By watching the news channels, he was learning a lot about this city, especially about the various different forces based here. There was Central University 10 located here as well.

He was interested in knowing their reactions. Someone at their age had joined their organization. But he thought that the talent here was much stronger than at Central University 14.

Apart from that, he had been hearing a lot of grim news as well. When it came to such news, there was tight control back at Central University 14.

The people living in City A, zone 14 wouldn't hear about the wilderness activities of the Beast Tamers unless there were big achievements or something.

But here, the news reporters were revealing the activities of major mercenary organizations, including the casualty reports.

The powerful beast tamers here were treated like celebrities. He had even learned names from the news.

Some of them were from the Sun Wheel Organization, which made him not underestimate the people here.

Each day they fought in the surrounding wilderness to protect the city. By watching the news, Jeremy felt the pressure.

Like he had guessed, there were going to be difficulties.

He then pushed down those thoughts before taking out the device. Suddenly, he noticed the unread messages. He opened the unread messages to read.

A few minutes later,

He sighed inwardly. He thought his parents would come here, but his father's Governor job was not an easy one. He understood that the Human Alliance needed a replacement.

Until then, he could only look after himself. But he was not afraid. Compared to the first day here, he was doing alright now.

He was eager to explore the place. The last message sent by Leader Gisela was the same. She wanted him to get ready the next morning.

Jeremy thought that he was probably going to explore the places around the city. Then he closed the message box before turning toward the big screen to watch the news.

Shortly afterward,

He received a call from his father. His father told him about the meeting with Leader Gisela. He had asked for resignation. The Human Alliance would only accept it after finding a replacement.

Until then, both of his parents had to stay in City C. Jeremy assured his father that he would be fine. Then he spoke to his mother, who dearly missed him.

Jeremy then thought about University 14. He asked his father if he had received a call from them, but he told him that no one had bothered them.

"It appears Dean Carolyn has accepted the facts," Jeremy thought.

Then he spoke with them for a few more minutes before ending the call.

...

Central University 14:

A few hours ago:

Dean Carolyn was still thinking about Jeremy Night's departure. It had been abrupt at that time. She didn't have any backup plans. She had thought that the kid would return to complete his studies.

But to her surprise, the Head of the Shadow Moon Organization had denied it. That kid had become an official member of the organization.

He was going to shoulder the responsibility of the organization as well.

"That kid was still hasty. Maybe the situation here had forced him into that situation," she thought.

She didn't know how many times she had gone over the situation. If not for the Beast Taming Families threatening the kid with mercenaries, he wouldn't have left.

Now the kid had another backer. She decided to leave this matter behind since Jeremy Night had joined another organization.

She decided to give him early graduation. Jeremy Night's combat strength had reached the criteria for graduation. His strength was comparable to that of the 4th-year students.

Then she thought about Elder Derek and Instructor Jacob. She told them the news, but they didn't take it well. They felt a loss. Especially Instructor Jacob, who was in disbelief at that time.

She had told him to convey the news to the other two members when there was a right opportunity.

Meanwhile,

Instructor Jacob was inside the STRIKER department class. Both Daniel and Betsy were in front of him. He didn't know when it was the right time to tell them.

Suddenly, Daniel looked at him and asked, "Instructor, what happened to brother Jeremy? He is not picking our calls. Did he go to the wilderness again?"

"It's the first time he has been absent for a few days," Betsy added.

Hearing that, Jacob's face changed drastically, but he quickly controlled his emotions.

He said, "You guys will know soon."

Daniel and Betsy looked at each other. They sensed something was wrong, but they didn't know what it was.

Not only were they wondering, but the other department students were wondering as well because Jeremy Night's popularity was sky-high now. Everyone wanted to see him.

But surprisingly, Jeremy Night was nowhere to be seen. May Lindsey and Victor Scott had asked Daniel and Betsy Lowe earlier. They were clueless as well.

Even Jeremy Night's acquaintances in City A, like the City Guard Captain and the guards, and the City Police Captain and others.

If Jeremy Night had entered the wilderness, the City Guard Captain and Guards would have known. They were waiting to get an autograph from him.

But they had yet to see Jeremy Night. Captain Nathan knew that Dean Carolyn knew something, but he didn't ask her about this matter.

Chapter 320: Lunchtime discussion

Shadow Moon Organisation:

The following day,

After getting ready, Jeremy walks out of the room. He is dressed in the white uniform with the half-moon insignia. He is looking forward to the day today.

He then starts walking toward the first floor. On the way, he encounters the curious gazes of people. Jeremy thinks that people should have known his identity by now.

But none of them block his path or speak to him. Soon, he reaches the first floor, where he sees people coming and going. Everyone is minding their own business.

None of them have time to stop and observe. He then approaches the sofa and sits on it.

In the meantime, someone in the office sees him. The person immediately alerts others, including Elina, who gave him the kits a few days ago.

"He is here?" Elina utters in surprise.

"Yes, it's him," a middle-aged man says. He is the one who saw him.

"I thought the newcomer would stay in his room forever," a female staff member says.

"We will know soon whether this kid is as strong as they say," the middle-aged man remarks.

Not only is the discussion happening here, but everyone who saw and recognized Jeremy Night is discussing it with their colleagues.

Meanwhile,

Gisela Reyes arrives in front of the building. Then she walks inside. Her gaze immediately falls on Jeremy Night sitting on the couch. Her mouth curves into an arc.

She walks up to Jeremy Night.

"It's good you are ready. Follow me; I'm going to show you around the important places. Later, if we had time we would go to the wilderness," Gisela says.

Jeremy stands up and nods to her. Then he follows her to the exit. This is seen by the staff members and other people who are curious to know what's going to happen.

Outside,

Gisela enters her flying car and asks Jeremy to sit in the back seat.

Swoosh!

Shortly afterward, the car hovers above the ground. She starts driving. Soon, they are outside the area of the Shadow Moon Organisation.

First, she begins to show him around the eastern area of the city. The Shadow Moon Organisation is located in the eastern area. She informs him about the small and big organizations in this area.

Time passes,

Jeremy is shocked in his heart. It has been two hours since they left the organisation, but they are still going around the eastern part because the city landmass is too big. There are still places to explore.

Other than that, he is surprised to learn that there are too many mercenary organisations here.

An hour later,

They decide to grab lunch. She lands her car in front of a big restaurant. Then he steps out of the car.

"Gwen's Table"

"It's one of the big restaurants where you can only find mercenaries," Gisela says.

"Oh," he utters.

He raises his head and sees the multi-storey glass building.

Then he follows her inside the building. The next second, he is greeted by the noise and a large number of people dining in.

He then follows Gisela to the elevator. On the way, Gisela encounters some acquaintances. They nod to each other. Those people can't help but spare a glance at him as well.

Almost everyone knows that the Shadow Moon Organisation has a new member. Now they are surprised to see that the newcomer is following Gisela Reyes.

From this, they can infer that the newcomer belongs to the 10th Team. Gisela has her own friends and enemies, and they will be surprised by the news.

Soon, they arrive at the 3rd floor via the elevator. Here, there are more private rooms. Gisela enters one of them.

Jeremy walks into the room as well. Gisela sits in the chair, and he sits opposite her.

Shortly afterward,

The staff arrives to take their order. Gisela orders beast meat for both of them. When the staff leaves, she raises her head and looks at Jeremy.

"Since I'm taking you around with me, soon people will know that you are on my team," she says.

Jeremy raises his eyebrows in surprise. He has been wanting to ask this but never found the right time.

So now he asks, "Leader, what about the other team members?"

Gisela's eyes flash with approval. She thought this kid was not interested in the team, but he finally asked her.

On the other hand, Jeremy is curious. It's not that he doesn't know; during the past few days, he has done some digging.

But the number of members in each team varies from time to time. There is no fixed number of slots.

"We used to have a fixed team slot, but it changes during emergency periods such as beast attacks or other disasters," she says.

"Right now, the Shadow Moon Organisation has 10 teams. Each team has three ten-person squads. The first squad is made up of 10 Tier-5 Beast Tamers."

"The second squad consists of 10 Tier-4 Beast Tamers. The third squad is made up of 10 Tier-3 Beast Tamers." After saying this, she pauses.

"My third squad lacks a 10th member. The previous 10th member was killed," she adds with a cold glint in her eyes.

Jeremy is not very surprised. He knew this because of his research. Now that he has received confirmation from her, his doubts are cleared.

He knows the Shadow Moon Organisation has fewer members. Right now, the total active beast tamers are up to 300, including him.

Gisela then says, "Each squad has a team. I'll introduce you to your team leader later. You might face some difficulties because they are all Tier-3 Beast Tamers."

"You have just become a Tier-2 Beast Tamer. They may not be willing to accept you unless you show them your strength," she adds.

"Don't worry, leader. I have done it before by killing Tier-4 Corrupted Beasts. I will do it again," he replies.

Then the staff walks into the room carrying a flat plate.

They stop talking and get ready to eat. The staff is not clueless; he recognizes the two people as well. His heart is thrilled.

Back in the kitchen, everyone is curious to know. Now he has again confirmed their faces.

A few minutes later,

The staff left after arranging the plates, but the discussion continued.

Gisela said, "Soon, there will be a mission for the 3rd squad. You will be called for the mission at any time. Be ready."

Hearing that, Jeremy nodded to her. Then he suddenly thought of something important: he lacks skills. His previous "Triple Rapid Cuts" technique is not enough.

He needs more than one skill in his arsenal.

He asked, "Leader, I need blade or sword techniques, especially one that suits my single sharp-edged blade."

Gisela's eyes flickered. Not many beast tamers fight using weapons unless their talent is related to that.

"What's your attribute?" she asked.

She knows Jeremy Night uses lifeline beast abilities.

"My element is different. Even I don't know exactly what it is," Jeremy replied.

Gisela was surprised since Jeremy has set conditions in the contract. She doesn't want to discuss his lifeline beast.

"Alright, since you already have some kind of element, you can practice fast blade techniques. I'll pick one for you later."

"Do you have a movement technique?" she asked.

"I do have a movement technique. I can practice it up to Tier 3," Jeremy replied.

"Good," she uttered and focused on her food.

Jeremy sighed inwardly. Not only does he have starlight ability, but he also has some eyesight ability. He doesn't know whether there are any eye techniques available here.

He had already exposed his cards. He doesn't want to expose his eye ability as well.

Soon, they finished their food on the plate. Then they stood up to leave. Gisela still has places to show him around, for example, the western part.

Tomorrow, she will show him around the northern and southern parts.

Ten minutes later,

They walked out of the restaurant after paying the bill. At this time, Jeremy had no doubt that Leader Gisela's acquaintance had taken notice of him.

Then he entered her flying car.

Shortly afterwards,

She started driving the car towards the western part.

"Now we are going to the western area. It's also the base of the Sun Wheel Organization. I told you earlier that we are rivals."

"If I'm not wrong, they might have already marked you on their killing list," she said in a serious tone.

"What?" Jeremy blurted out in surprise.

It was not on his list at all. He hadn't done anything; how could he be on someone else's killing list?

Gisela shook her head before saying, "Did you already forget Head Neil's words?"

"Here, everyone fights for resources because everyone has to practice and feed their lifeline beasts. You came with the same intention as well."

"So the competition here is severe. The rival organization wants to eliminate each other. It's better for you to accept the reality here and not let down your guard," she said in a serious tone while driving.

Hearing that, Jeremy replied, "Okay."

But his heart was not calm. The same situation is repeating, but this time it involves open threats. Everyone knows about their enemy. He hopes they don't cross his path.

He won't mind killing enemies; he has done it before.
