

STRIKER 321

Chapter 321: New blade technique!

City A, 10th Zone:

Western Area:

Gisela drives him around the western area. The Sun Wheel Organisation's Main Building is located inside the gated community, like them.

So she can't enter that place. But she shows him around the nearby locations. While driving, she spotted Sun Wheel Organisation members from the car.

She then told Jeremy to take notice of their uniforms. Jeremy obviously saw their uniforms. It's a red dress with a blazing sun wheel insignia on their chest.

His eyes flickered. Soon, he would be meeting them face to face.

Time passed.

Dusk fell, and they returned to the Shadow Moon Organisation. After stepping out of the car, Jeremy turned around and thanked her.

He could tell that Leader Gisela had her own home in the city.

"No need to thank me. You are a member of my team. You should know these things. Now get ready for tomorrow. I'll take you to the wilderness, where your real test awaits," she said mysteriously before leaving.

Jeremy nodded to her. When she left, he walked back into the building and started heading towards his room. Once again, the staff and other members saw him.

They could tell that the newcomer was adapting to the new place. They were curious to know about his strength and his future here.

About five minutes later,

He returned to his room, locked the door, and went to take a bath. He spent twenty minutes in the shower before stepping out. Then he changed into fresh, comfortable clothes.

Only when he sat on the sofa did he feel relaxed. Today's experience was overwhelming, as if he had visited multiple cities in one day.

But they were just different parts of the same city. There were still northern and southern parts left.

Leader Gisela told him that the City Administration and other government department offices were located in the northern area, including the offices of the Beast Taming Association.

Similarly, the major beast taming families were living in the southern area.

In the small middle part, which is almost equal to City A of the 14th zone, the Central University 10 and other academies are located there. All other major business shops are spread around the whole city.

Coupled with the information he had read earlier, he now had a clear idea of the city. It was unimaginably big, with numerous small forces wielding Tier-5 Beast Tamers' strength.

After pushing down those thoughts, he considered his new team members. They were his seniors with Tier-3 strength, and he hoped everything would go well.

Not long after, he received another surprise. Team Leader Gisela sent him the new blade technique that suited his single sharp-edged blade. His eyes flashed with interest.

He hadn't expected her to act on his request so quickly. He opened the technique to read it. It came with a skill division description as well.

About ten minutes later, a look of understanding dawned in his eyes. He was surprised by the history of the technique, but it was an incomplete one. Leader Gisela bought it through an auction.

Compared to the simple "Triple Rapid Cuts," this blade method was very detailed with skill divisions.

"Maybe she knows that, apart from the ability, I'm not an actual weapon talent beast tamer," Jeremy thought.

Because only those with awakened weapon talents study their attack techniques more deeply. He just knew the basics about stance, grip, slashes, thrusts, and footwork.

It was enough for him to manage with the "Triple Rapid Cuts."

But the technique given to him by Leader Gisela was even more detailed. It was more intricate than the sword arts he had studied back in the library.

However, he was confident in himself because of his A-Grade Supreme Combat Body Talent. He believed it would help him comprehend this powerful technique.

It's just that the technique given to him was incomplete. It had been created by a Beast Tamer who awakened "Blade Talent" 300 years ago. However, this talent had died out halfway when he was just a Tier-7 Beast Tamer.

Later, it had changed hands through auctions before Leader Gisela bought it. This incomplete blade technique contained one chapter called "Blade One: Silence."

Maybe because of this one chapter, it hadn't become famous unless someone was willing to put in their energy on it. Jeremy pushed those thoughts aside.

Fortunately, this blade technique was attribute-less, which meant he could use starlight energy to cause elemental damage.

Then he looked at the skill division description. When he finished reading it, he felt his horizons had widened.

Skill Division: Beginner, Intermediate, Advanced, Expert, and Void.

Time passed.

He continued to read about each division. He was familiar with the beginner stage because it covered the basics of the katana with more detailed information.

Then he went through the intermediate stage, which dealt with multiple strikes, distance, and control. Jeremy's eyes gleamed with excitement. This was the stage he was currently working on.

Suddenly, he couldn't help but think about the "Triple Rapid Cuts." If his skill had been better, perhaps he could have caused more damage with the previous technique.

Now that his horizons had expanded, he realized he lacked mastery over the blade. He couldn't imagine what someone at the Advanced stage could do with the "Triple Rapid Cuts."

But he was not disappointed. He was not a sword talent to begin with; he would need to put in extra effort in training compared to others. He pushed those thoughts aside before turning toward the third stage.

The Advanced stage was more about control, adaptation, precision, and awareness. His eyes shone with bright light. He was hearing about the advanced concepts for the first time.

Then came the fourth stage, the Expert stage. As the name suggests, it encompasses expertise over everything.

At this stage, one can teach others. It's also mentioned that people at this stage have unique powers known as sword light.

Jeremy didn't know if he could reach such a stage, but he believed he would become powerful if he became an Advanced Sword Wielder.

Then his gaze fell on the last stage. It was completely blank. The Void stage, it was the name given by seniors. But it stated that no one could teach such a stage unless one experienced it.

Gasps!

Jeremy took a sharp breath. The last Void stage was difficult even for those with Sword Talent. His current goal was the Intermediate stage.

Chapter 322: Body Armour Suit?

City A, 10th Zone:

Jeremy then collected his thoughts. Now he understood what a professional sword talent looked like. He used to manage with basic skills.

But this time he was going to practice to be a real sword wielder, with his eye ability and the starlight energy. His sword moves would be more lethal.

Then he stood up and went to the practice room. He sat cross-legged on the ground. Then he started to comprehend the blade technique, Chapter 1, Blade One: Silence.

Time passed.

He walked out a few hours before early morning. The Grade-7 blade technique was not easy to understand. He still needed a couple of days to fully grasp it.

But he was not without results. He still had a general outline understanding of the blade technique.

Then he looked at the time. Seeing that only a few hours were left before sunrise, he decided to take a nap.

...

The next morning, he woke up and got out of bed. He started doing his morning routine. He entered the practice room an hour later.

He was going to practice the Inner Healing Method.

Time passed.

Around 10 in the morning, Gisela walked into the building. As usual, the staff were working, and the members were going about their business.

She then called the 3rd squad team captain. She wanted to introduce Jeremy Night to them. When the call was connected, she heard an urgent voice.

Her 3rd squad was in danger. If no rescue arrived soon, the whole squad could be wiped out. Before Gisela could ask about the enemies, the call was disconnected.

The next second, her expression changed drastically.

A monstrous coercion erupted from her body, which immediately alarmed everyone.

"Gisela Reyes!"

A commanding deep male voice sounded next. The person was none other than the Head of the Organisation, Neil Moon.

He was casually walking around and didn't expect to come across this scene.

Gisela recovered her thoughts and removed her coercion. She was lost for a second.

"What happened?" Neil asked.

Hearing that, she turned around and found that Head Neil was standing in front of her.

She then told him everything. Not only was the Head of the organisation listening, but the staff and other members paused their work to hear it as well.

Head Neil's eyes turned cold.

"It could be the work of those rats. Take an available team with you," Head Neil said in a serious tone.

Gisela nodded her head.

Then Oldman Neil thought of something.

He said, "Take the new kid with you. Let him experience the danger here."

"Okay," Gisela said before calling Jeremy.

Meanwhile,

Jeremy, who was patiently waiting in his room, received a call. He answered the call.

"Jeremy, come to the first floor." After saying that, Gisela ended the call.

Jeremy was taken aback by surprise. He hadn't expected her to call him so soon. But what surprised him was the tone of her voice.

It was filled with a sense of urgency. He immediately began to put on the uniform.

It didn't take long for him to get ready and go to the first floor.

Leader Gisela summoned the available first squads. The first squads were filled with Tier-5 Beast Tamers.

The team members of the hostile forces were similar.

When she saw Jeremy Night, she immediately told him what was going on. She wanted him ready because Jeremy could take care of Tier-4 Beast Tamers and beasts.

So far, 10 Tier-5 Beast Tamers have come from different teams. Her 10th team's squad had gone for the mission.

"Let's go," she said.

Under the gazes of everyone, they exited the building and came to the street. More than one flying car arrived at the spot.

The next second, they all entered the car one by one. In the blink of an eye, everyone was seated.

Swoosh!

Shortly afterwards, the flying cars left the Shadow Moon Organisation one by one.

In the head office, Oldman Neil looked at the flying cars. His eyes flashed with a gleam.

"I hope it's not the Sun Wheel Organisation," he said to himself.

Recently, a lot of good things were going for them. They had added a new member to their organisation. This kid's name was now popular among the top 10 zones.

He thought that the Sun Wheel Organisation couldn't digest it anymore.

Time passed.

The flying cars flew over 500 ft walls towards the wilderness. It didn't take long for them to arrive at the outer area of the wilderness.

The outer area of the wilderness here was more dangerous than the inner area of the wilderness in the 14th zone.

Gisela Reyes tracked the 3rd squad team captain's last position. Soon, the flying car descended down at the marked location.

Everyone could see injured Beast Tamers lying on the ground. There were a few defending against the Corrupted Tier-4 and Tier-5 Hybrid Beasts.

Boom!

When the car landed, the faces of the 3rd squad team turned better. Rescue had come on time because 6 of them were on the verge of death.

The remaining three, including the captain, were blocking the corrupted beasts.

Swoosh!

One after another, Beast Tamers stepped out. The next second, they dashed out towards the Corrupted Beasts in a flash.

Gisela went to the side of the injured Beast Tamers. She then injected them with a syringe that had a healing solution.

Jeremy Night stepped out as well. He was taken by the scene in front of him. The huge wide space and colossal trees were everywhere. He appeared to be a tiny person in front of it.

The corrupted beasts were all over 20 ft in height with six legs, long bodies, and tails. This was the first time he had seen something like this.

This was the same feeling he got in the forbidden area back then. But this place was like an outpost close to the city. Yet he had this feeling. He was shocked to the core.

It was a clue as to how dangerous this place was. It was hard to survive here. Jeremy's gaze then set on the injured warriors.

A hint of disbelief flashed in his eyes. Everyone was wearing some kind of metallic armor suit. It looked expensive and hard to break. Yet there were dents all over. No one was unharmed.

Now he understood why they were able to survive against the Tier-4 and Tier-5 Corrupted Beasts until now.

Chapter 323: Show off!

City A - 10th Zone:

Jeremy is standing and observing. But suddenly a six-legged Tier-4 Corrupted beast locked onto him. A sense of crisis rose in his heart.

He saw one of the beasts saw him, and it was ready to make a move. Since he had come here, it was time to show his talent.

This is a good chance to impress others.

He unsheathed his katana and held it tightly in his right hand. Then he slowly started to circulate the new starlight energy.

In a blink of an eye, the white liquid covered the single sharp-edged blade, making it look like white blade.

At the same time, Jeremy used his eye ability to zoom in. The next second, he used another ability to find the weakness.

The hybrid beast's body became transparent under his eyes. He could see the blood vessels running throughout its body.

As long as he could sever the blood vessels, the beast would die faster.

Roar!

The six-legged beast let out a weird roar before charging towards him.

Boom! Boom!

At the same time, a fierce fight was happening everywhere. The Shadow Moon Organisation's members were engaged in a tough battle.

Even the Tier-4 weird six-legged beast was attacking and injuring the Tier-5 Beast Tamers.

Gisela was keeping an eye on the surroundings. As a Tier-7 Beast Tamer, she could kill all the Corrupted Beasts here.

Since no one was dying, she wanted to treat the Corrupted beast as a whetstone right now. The squads had a good opportunity to gain experience.

Suddenly, she noticed something in her perception. She saw a Tier-4 six-legged beast dashing towards Jeremy Night.

A quick gleam flashed in her eyes. She wanted to see how he was going to react, seeing the katana in his hand.

Her eyes flashed with approval. If it were other Tier-2 Beast Tamers, their legs would go weak.

Not only her, but the Tier-5 Beast Tamers from other teams were also keeping an eye on Jeremy Night while fighting. Everyone had discussed the newcomer before coming here.

Back at their building, they found out the newcomer was likely a Tier-2 Beast Tamer. It was shocking to them.

Because the minimum requirement to join their organization was a Tier-3 Beast Tamer with good talent.

Someone had even made a bet about the newcomer fainting upon touching down in the wilderness.

But right now, seeing his actions, everyone's mouths twitched.

A Tier-2 Beast Tamer was going to confront the Tier-4 Corrupted Beasts. Everyone wanted to watch this battle.

Unfortunately, they could only spare a glance while fighting against their own corrupted beasts.

On the other hand, the 3rd Squad Team Captain was watching in disbelief. She had heard the news from the leader.

Meanwhile,

Jeremy Night moved from his spot. The next moment, the huge body of the corrupted beast appeared. The 20ft tall six-legged beast hit the empty spot with its massive claw.

Boom!

A shock wave spread across the place.

At the same time, he jumped high, swinging his blade.

Cut!

The blade went in a beautiful arc before slicing through the beast's neck like butter. A long red line appeared in its neck.

The white starlight energy met no resistance before coming into contact with the blood vessels.

Puchak!

Jeremy's eyes flickered. He could spot the blood vessels clearly. He then pushed the blade forward.

Puchak!

A torrent of blood gushed forth as he cut the blood vessels.

Tud!

Jeremy then landed on the ground. Without giving the beast a chance to run away, he slashed at its front leg.

In a flash, the blade cut through the beast's leg before hitting the bone. The starlight caused the bone to break, but the power was not enough to completely sever it.

Feeling the resistance, he withdrew the sword before jumping up to attack the beast.

Meanwhile,

Those who were keeping an eye on Jeremy's duel were dumbstruck. They watched as the newcomer handicapped the beast in two blade moves.

Roar!

The six-legged beast roared. The vitality in its body was slipping away. It wanted to move, but one of its front legs was broken.

Before the beast could think further, a white light flashed before its eyes. The next second, the starlight penetrated deep into its eyes before stabbing the brain.

Puchak!

The next moment, the brain ruptured. The beast's eyes lost color before its massive 20ft body dropped down dead to the ground.

Tud!

Jeremy retreated backwards and sheathed his sword.

From beginning to end, he only made three moves. He had brought the Tier-4 beast down to the ground.

Gasp!

A sharp exclamation occurred the next second. Some of the Tier-5 Beast Tamers widened their eyes in disbelief.

"Careful!" Gisela shouted before throwing a knife at the beast.

Puchak!

In a flash, the blade penetrated the heart of the beast before coming out the other side. The Tier-5 Beast Tamer broke out in a cold sweat.

He lost focus for a moment. The newcomer's kill left everyone stunned. Fortunately, the 10th Team leader was there.

Then the beast tamer went to assist others. The other Tier-5 Beast Tamers were terrified before recollecting their thoughts.

The 10th Team leader Gisela's voice had roused everyone. They continued to engage in the fight against the corrupted beasts.

"Fast and precise," Gisela uttered in surprise. As a Tier-7 Beast Tamer, she could tell what had happened.

This kid had made no mistakes. He hadn't even wasted any energy. He weakened the beast before cutting the blood vessels, then attacked the leg to restrict the beast's movement.

Then he attacked the brain of the beast through its eyes. She knew it was not easy to do. The response must be faster and more precise.

Otherwise, the Tier-4 beast easily could have shattered Jeremy Night's Tier-2 physique.

Not only was she shocked, but Jeremy Night's new team members were in disbelief as well.

Some of them were lying down getting treatment, but they couldn't contain their shock.

They never thought the famous Jeremy Night would be this fierce and powerful.

The 3rd Squad Team Captain was in disbelief. Her heart was shaking to the core. It wasn't easy to fight across the ranks. Yet the newcomer fought two levels above his strength to kill the Tier-4 Beast.

Her name is Sinag Clark. She has short black hair and dark eyes. Her skin tone is pale. She is 6 feet tall. She is wearing the armor suit now, but it is broken.

However, Sinag's gaze was set on the newcomer. She thought the rumors were exaggerated. Even she felt that Leader Gisela was overestimating a Tier-2 Beast Tamer earlier.

She has changed her opinion now. He could kill the Tier-4 Beasts in the span of a few seconds. Then he could kill Tier-4 Beast Tamers even more easily.

It didn't take long for everyone to completely eliminate the Tier-4 and Tier-5 Hybrid Six-legged corrupted beasts.

When the dust settled, the 10 Tier-5 Beast Tamers and the 10 members of Team 3's 3rd Squad turned their gaze toward the newcomer.

Their eyes flashed with brilliance. Hereafter, no one would raise any questions about Jeremy Night.

At this time, Gisela raised her eyebrows. She didn't want to stay there any longer; other mercenaries might come.

"Let's go," she said to everyone.

Jeremy Night sighed inwardly. He was wondering when everyone would leave. Fortunately, Leader Gisela made a decision.

Under the shocked gaze of everyone, he sat back in the car. Then everyone entered the car one after another. They also took the injured members of Team 3's 3rd Squad with them.

Shortly afterward, the flying cars started moving back to the city one by one. In the car, everyone couldn't help but discuss Jeremy Night.

Everyone thought that the upcoming days wouldn't be peaceful.

In Jeremy's car, the others were looking at him, but he simply closed his eyes, noting that they didn't disturb him.

They were already shocked by the earlier scene. Even the S-Grade Talents wouldn't be able to do something like that.

About 20 minutes later, the flying cars returned to the Shadow Moon Organisation's castle building. Then everyone stepped out one after another.

Gisela had already reported to the infirmary. They were waiting outside upon seeing the injured people.

They placed them on stretchers before taking them to the infirmary.

Jeremy Night stepped out as well. He then walked to Leader Gisela.

Gisela saw him and said, "You did well. You can go to your room. I'll call you when everyone is ready."

Hearing that, Jeremy nodded to her before walking into the building. Upon entering, he once again attracted attention.

But the staff were yet to know the details. Jeremy ignored them before going toward his room.

Meanwhile, Gisela told the other 3rd Squad members to get treatment as well. She then started walking toward the infirmary with the others.

The other Tier-5 Beast Tamers returned to the building. They couldn't help but continue discussing Jeremy Night.

The staff were all curious. They didn't know what was going on. Why were the members all discussing Jeremy Night?

Chapter 324 324: Reactions from the all sides

Head office:

"So it's just the ambush of six-legged hybrid beasts," Oldman Neil said to himself.

He learned what happened from Leader Gisela. He was more taken aback by the surprise of learning about Jeremy Night's performance.

He hadn't expected that kid to fight against the Corrupted Beasts right away. His earlier intention was to get familiar with the wilderness here.

The wilderness in their 10th zone was more treacherous than the 14th zone. Beasts here are cunning and clever. They do a lot more ambushing and killing.

If the Beast Tamers were not careful, they and their Lifeline beasts would die. So he thinks that kid has done pretty well.

Not only did he kill the Tier-4 corrupted beast, but he also defeated others as well. So he was feeling good.

...

Infirmery:

Gisela is speaking to the doctor. The doctor has administered the healing cure to everyone. It won't be long before the seriously injured wake up.

The doctor not only treated them but also treated their Lifeline beasts as well.

The Lifeline beasts consumed the recovery solution before going back to the beast tamer's mental zone.

An hour later,

The 3rd Squad Team Captain Sinag Clark has almost recovered from her injuries. She didn't suffer like others. She was able to block most of the attacks.

But the battle was a struggle. She is now in her treatment room. She couldn't help but think about the confrontation. No one had an easy time.

Suddenly, the image of the newcomer's blade fight flashes before her eyes. In two or three moves, the newcomer had killed the Tier-4 Beast.

Even she, as a Tier-3 beast tamer, found it difficult to fight across two levels. They were able to survive because of the armor suit.

If the newcomer had made a mistake, then he would have died. The Tier-4 Beasts and above are cunning; they have good intelligence.

But she doesn't know how the coming days will be. The 10th zone was not calm like it appeared on the surface. Under currents are surging a lot.

Someone had previously murdered the 10th member.

She hopes that the newcomer will survive.

Slowly, the other team members wake up one by one. They were also discussing the battle. Of course, the newcomer was the topic of their discussion.

How could they forget him? That guy not only impressed them, but he had shocked the 1st Squad members.

Who are the first squad members? They are the Tier-5 Beast Tamers. Each and every one of them is elite. Their Lifeline beasts are formidable as well.

None of them had slandered the newcomer. It shows that the newcomer has gained the approval of everyone. So there is going to be little chance of any infighting.

Unless someone is blind enough to provoke Jeremy Night.

Meanwhile,

It didn't take long for the news to spread across the office as well. All the old and new staff were shocked.

They had never seen anyone kill a Tier-4 beast at the Tier-2 stage. Since the news came from the 1st Squad, they had to believe it.

For this rescue, the 1st Squad members from others' teams went as well. They all had witnessed the power of Jeremy Night. What's more, Jeremy Night didn't use his Lifeline beast at all.

This news was more shocking to everyone. When the news became known to everyone, they were warned not to leak this to the outside world.

Otherwise, if the Sun Wheel Organization and other hostile organizations knew about this, they would definitely take action against Jeremy Night in the future.

...

Inside the room, Jeremy changed into comfortable clothes after taking a bath. He was in a good mood because of the successful plan. He was able to impress others.

He thinks that everyone would be discussing his fight now. If not for the Eye and Starlight abilities, it would have been impossible for him to kill the Tier-4 hybrid beast in such a short time.

What's more? He learned that the wilderness surrounding this city is far more dangerous than back at home. The Tier-4 and Tier-5 Corrupted beasts are roaming in the outer part of the wilderness close to the city.

Then what's living in the inner part, core part, and beyond? His spine went cold thinking about it. He is not going to enter the wilderness before getting started on the new blade technique.

At least, he wants to achieve a beginner-level skill in the new blade technique. After making the decision, he started to take a small nap. He will later enter the practice room.

...

14th zone, Central University 14:

Post-noon, Betsy and Daniel were ready to go to the training facility again. But their faces did not look good.

"It's been several days, but there is no sign of Jeremy Night," Betsy Lowe said.

"Senior brother must be spending more days in the wilderness," Daniel Stone said.

But he was not sure about that. Usually, Jeremy Night doesn't spend more than 2 days in the wilderness. This time it's taking longer.

"Was he injured or something worse happened?" Betsy asked.

Hearing that, Daniel Stone's face changes.

He said, "It can't be true. Because if something happens to Brother Jeremy Night, then his parents would know."

"Elder Derek and Instructor Jacob won't be silent," he added.

Betsy's eyes flash with brilliance.

She said, "Could they be hiding something from us?"

Daniel raised his eyebrows in doubt. Truly, he didn't know about it.

"Let's see and wait for a couple more days. If brother Jeremy has not returned by then, we can be sure something is wrong," Daniel said.

Betsy liked the idea. She said, "Okay."

Not only them, but the two S-Graders were confused as well. There was no news of Jeremy Night whatsoever. Even the two STRIKER Department members were clueless.

The other first-year students were discussing him from time to time. Without Jeremy Night, they felt the first-year campus was getting boring.

On the other hand, Instructor Jacob only knew himself how hard it was for him to hide the secret from others, especially from Betsy and Daniel.

He understood that they felt something was wrong. But they had never asked him yet..

.....

10th Zone, City A

The following day,

Jeremy Night was ready. He came to the first floor like yesterday. This time there were more curious eyes. It was like a powerful prodigy becoming the center of attention.

But Jeremy's eyes were set on a short, black-haired woman because she was looking at him. She must be one or two years older than him.

Jeremy then saw Leader Gisela beside her. He walked up to them and greeted Gisela first.

"You are here. Let me introduce your squad captain. Her name is Sinag Clark. She is a Tier-3 Beast Tamer. You must have seen her yesterday."

"There are other guys, but I have told them to rest first. Their bodies are still weak after recovery," Gisela said with a smile.

She was glad that there were no serious damages yesterday. Everyone was able to walk out alive.

Jeremy turned toward the captain and said, "Hi, my name is Jeremy Night. I'm a Tier-2 Beast Tamer."

It was a simple introduction, but Sinag was not going to underestimate him.

"I'm Sinag. I hope we can get along well," she replied.

Jeremy nodded to her.

"Now that the intro is done, let's talk about serious business. Someone from the City Administration has contacted me."

"They need two Tier-3 Beast Tamers to clear out the lair of poisonous black Tier-3 scorpions. They were found in the cave close to the northern settlement."

"The City Administration has hired a team, but they are missing two people right now. They have asked me if you guys want to team up," Gisela said.

Hearing that, Jeremy felt it was the right opportunity to explore the wilderness.

Sinag thought the same as well. She saw this as a good chance to observe the newcomer's strength.

"Good, you guys should leave right now. The team is going to wait at the City Hall," Gisela said.

She then thought of something important.

She said, "After completing the mission, don't forget to inform me."

Both of them nodded to her. Gisela then left the place.

"Come with me. I'll take you to the armory," Sinag said to him with a smile.

Jeremy nodded to her. This was going to be his first mission. He couldn't wait to perform. On the other hand, he was quite shocked to know the details.

How could there be a Tier-3 Corrupted Beast lair near the human settlement? Didn't the authorities clear it from time to time?

He had a lot of doubts, but he thought that the cave had been occupied by beasts over time.

Soon, they came to the armory. It was located next to the office. Some of the office workers who had nothing to do kept an eye on the two.

They didn't know what had happened earlier, but they could tell that Sinag and the newcomer might be going for a mission. Otherwise, there would be no need to go to the armory this soon.

Upon entering the armory, Jeremy's eyes widened in surprise. It was not like an old rundown room; this place was wide and spacious.

The walls and floors were built with special materials. They were all white in color. With the lighting, the place looked bright.

Chapter 325 325: Part 1: First mission (10th Zone)

Armory:

Jeremy Night then turned towards the right side. He saw different types of armor suits inside the glass display.

"There are different types of armor suits. Depending on a beast tamer's body strength, they can choose their armor suits," Sinag said in a serious tone.

Jeremy frowned. He had just started practicing a new blade technique yesterday. If he fought wearing this thing, it would affect his speed and blade strikes.

But then, considering the hostile environment in the wilderness, he thought about how he could never know when a Tier-5 beast might sneak attack him.

Even if he got hit once, it could leave him bedridden for months.

"What are you thinking?" Sinag asked, sensing that the newcomer was worried about something.

"How am I supposed to select?" Jeremy asked.

Hearing this, she pointed towards a small chamber.

"Wait for the staff to arrive. Once you get inside, they will scan your body. Then they will give you a suitable armor suit," she replied.

Jeremy nodded to her. It didn't take long for the staff to arrive. Someone had informed them just a few minutes ago. He was a middle-aged man dressed in a combat uniform.

"Mr. Carlos. We are going for a mission. He is Jeremy Night, the 10th team member. He needs an armor suit," Sinag said straightforwardly.

"So you guys are really going for the mission," Carlos said. He had been in the staff room and overheard the discussion as well. But he hadn't expected it to be true.

"Alright, I'll start the work. Jeremy Night, you can enter the chamber," he said.

Hearing that, Jeremy did as he was told. Inside the chamber, a blue light began to scan from the top of his body.

Shortly afterwards, Mr. Carlos was ready with models. The only suitable model for Jeremy Night was the basic one. He knew that the kid was a Tier-2 Beast Tamer.

All of their products started from Tier-3. He had found a piece made not long ago, intended for display. But he never thought anyone could use it.

He then said, "This armor suit is the only one available for a Tier-2 Beast Tamer. It was made long ago for display purposes."

"Just wear it for today. If you find anything uncomfortable, you can report it after the mission. Don't think of it as junk. It was made with special materials as well," Carlos added.

Jeremy thanked him.

"Okay, you can wear your suit here," Carlos said.

Sinag entered another room to wear her suit. Jeremy Night's gaze settled on the black suit.

He touched the body and found it to have a hard and smooth surface. The metal body was less than one inch thick.

He could easily carry the armor suit, so the weight was not a problem. Under the gaze of Mr. Carlos, he walked inside the room.

Inside the room, he removed the scabbard with the sheathed blade. He took off the gun case as well.

Then he began to wear the armor suit. He wondered why this technology was not popularized in the 14th zone. Maybe the corrupted beasts living there were not as dangerous as in this place.

After pushing down those thoughts, he focused on the black metal armor suit. He wore the headgear and then the helmet. He felt a difference after putting on the suit.

There was some extra weight on him. Then he wore the gun case and scabbard belt. Fortunately, he was able to wear them. Otherwise, he would have had to place them inside the storage bracelet.

Then he walked out of the room. He felt a little heavy with each step. It was going to take time to adapt.

"It suits you."

Jeremy heard a voice from behind. He saw Sinag in a female black suit. The quality of her suit looked ten times better than his.

"All the best for your first mission," Carlos said.

"Thanks," Jeremy replied.

Then they left the armory and went to the exit.

On the way, many curious gazes spotted them. Both of them walked out of the building. Then they saw someone waiting for them.

He was another staff member who was going to drop them off at the location. Jeremy felt it was convenient. Then they entered the vehicle.

Shortly afterwards, the flying car hovered above the ground and started moving towards the location.

"Since it's your first mission, I'm going to tell you some important things. First, don't trust others, especially if someone speaks nicely and asks you for your help."

"There are rivalries between organizations as well. There have been many unspeakable deaths. So don't forget to watch your back," Sinag said.

Jeremy's eyes gleamed with a twinkle.

"Don't worry. I will keep an eye on you as well. Since we are going to join another team, it's possible that Beast Tamers from hostile factions will be present. That's why I'm reminding you," Sinag said.

"Thank you," Jeremy replied.

The driver remained calm from the beginning, as if he had heard newcomers go through this process many times.

The car flew across the buildings in the air lane. There were other flying cars in front and behind them as well. It didn't take long for them to arrive in front of the white building, which was the City Hall.

The car landed on the road. Sinag thanked the staff before stepping out. Seeing that, Jeremy did the same. It was the first time for him doing something like this. He had never fought using the armor suit.

But Leader Gisela had made him join the mission. Maybe it was going to be some kind of test. Just as they were waiting, Jeremy spotted some people coming from a distance.

There were eight of them. He used his eye ability to zoom in. Then he saw everyone's faces clearly. They were laughing and chatting while looking at them. It was obvious that they were discussing something.

It was a pity that he didn't have super hearing senses. But anything was possible with an unknown beast egg. If the beast had super eyesight, then its other senses must be powerful as well.

.....

City Hall:

Sinag Clark also notices the people as they get closer. Among the eight of them, she recognizes four. They are all from the Sun Wheel Organisation.

All eight of them are Tier-3 Beast Tamers. They are all experienced. Otherwise, the city administration wouldn't have contacted their organization.

The four of them are middle-aged men. A middle-aged man with a long, sharp nose recognizes Sinag Clark. His name is Butch Bart.

Together with the other three middle-aged men, their names are Dalton, Cassidy, and Billy.

"Oh my! Who do we have here?"

"She is the 3rd squad Captain Sinag," the sharp-nosed middle-aged man uttered.

Hearing that, the faces of the three of them change drastically. They didn't expect to see their enemy here, especially such a high-profile target. Their eyes turn cold.

The other four beast tamers are from a different mercenary organization. They know about the enmity between the Sun Wheel Organisation and the Shadow Moon Organisation.

They are not going to take part in it. Once the mission is done, they will return to their respective organizations.

Sinag's heart turns cold as well. She remembers Jeremy Night is with her, too. She then whispers in Jeremy Night's ear about their identities one by one.

The eight of them stand near them, waiting for the authorities to arrive. Meanwhile, four of the Sun Wheel Organisation's members are looking at Sinag Clark and a new face.

"Who is he?" Butch asks.

He knows about everyone in the Shadow Moon Organisation. So who is the newcomer?

"Brother Butch, you may not have heard the news. The Shadow Moon Organisation has recruited a newcomer not long ago."

"He must be that newcomer," the middle-aged man, Dalton, says. He considers Butch a brother. They have done a lot of missions together.

It's the same case with Cassidy and Billy. There are not many people who command such respect in the Sun Wheel Organisation.

Among their Elite Tier-3 Beast Tamers, Brother Butch is among them. It's a pity that their brother Butch has A-Grade Talent. Otherwise, he would have become their Squad Captain.

"What's his name?" Butch asks.

"Brother, he is Jeremy Night. He seems to be a first-year student from the 14th zone. He became famous by killing a Tier-4 beast," Dalton says in a serious tone.

"Harumph!"

"A Tier-4 corrupted beast. What a lie!" Butch says with a snort.

He thinks something is wrong with the brains of the Shadow Moon Organisation people.

"Brother, you are right. I just saw him a moment ago. He is a Tier-2 Beast Tamer," Cassidy says. Compared to the other three, he is heavily built.

"Tier-2? Maybe we could use this opportunity to kill him. If I'm not wrong, his name must be on the kill list as well," Butch says.

Hearing that, the faces of the other three light up. They know about the kill list. Their enemy organisation's elite beast tamers are all on it.

As long as one can kill the beast tamers on the kill list, they can earn rewards and resources.

On the other hand, Jeremy Night's heart stirs. Just now, he felt malicious intent from one of them. He thinks this trip is not going to be peaceful.

Chapter 326 326: Part 2: First mission (10th Zone)

City Hall:

"Don't look at them," Sinag said.

Hearing that, Jeremy nodded to her. Everyone is wearing armor suits here. He doesn't think their eyesight is better than his.

But somehow, they have recognized her. Jeremy's gaze fell on her armor suit.

"Maybe it's because of her armor suit," Jeremy thought.

Since they are showing open hostility, he can tell they might try to eliminate them during the mission or after it.

Jeremy doesn't want to take any risks before finding out about their strengths and weaknesses.

Caw!

The next second, a bird cry disturbed his thoughts. Then he saw a gigantic bird in the sky. Under their eyes, someone jumped from the bird.

The gigantic bird disappeared, and the middle-aged woman in a palace dress landed before us. She has fair skin and long blue hair.

Her gaze swept across everyone.

"My name is Amaira. I'm your employer. Recently, we have taken many missions in the city administration."

"We are short of hands, which is why the city administration has decided to seek outside help."

"Your job is to clear the lair of Tier- Black Scorpion Corrupted Beasts. They are extremely poisonous. Even if you get scratched by one, you will be poisoned to death."

"The rewards will be given directly after the successful completion of the mission. You guys can leave now," Amaira said in a serious tone.

Hearing that, everyone's expression turned solemn.

Jeremy was taken aback by this beautiful woman. He didn't expect she was from the city administration, but he didn't know about her identity.

"If you guys have any questions, you can ask me," she said.

Butch thought of something before asking, "We want to do it as a separate team."

Hearing that, Dalton, Cassidy, and Billy supported it.

The other four beast tamers from different organizations wanted the same as well, which left behind Sinag and Jeremy Night.

They had no other choice than to act separately.

Amaira frowned. She could see the division right here. She knew the rivalry was common in this environment.

So she said, "I only care about the results. I want the beast lair to be cleared. Otherwise, your organizations will receive complaints."

After saying that, she turned around and left the place.

Seeing that, Butch and his friends sighed in relief. They were worried that the employer could force them to act as a team.

"We are leaving," Butch said in a loud voice before leaving with Dalton, Cassidy, and Billy.

The other four beast tamers grouped together to form another team as well. After glancing at Sinag and Jeremy, they left the place too.

"Sigh," Sinag let out a sigh.

She turned towards Jeremy Night and said, "You will get used to it in the future."

"Let's go," she uttered.

Then Jeremy followed her. She made a call to the same staff again.

Shortly afterward, he arrived with a flying car.

Jeremy was surprised. He thought Sinag had anticipated the situation from the beginning to the end. There was no change in her facial expression.

She entered the front seat. Seeing that, Jeremy entered to sit in the back seat.

The staff started to drive the car. The flying car hovered above the ground before appearing in mid-air. Then it started moving towards the city gate.

"Are you surprised?" Sinag asked in the car.

Jeremy raised his eyebrows and nodded at her.

"We never did a joint mission with the Sun Wheel Organization," Sinag said in a cold tone.

"You can already guess that. They might be looking for a way to harm us. At the same time, we can also use the opportunity to eliminate them."

"As long as we can kill those three, Leader Gisela will reward us. Maybe she had known about this, but she didn't inform us," Sinag said while her eyes flashed with brilliance.

Jeremy Night also felt it was a good opportunity. He had been thinking about eliminating them as well. It's just that he didn't want to offend the Sun Wheel Organization and attract their hatred right away.

"What do you say?" Sinag asked, feeling more confident with Jeremy Night's help because he can slaughter Tier-4 beasts in seconds.

The three Tier-3 Beast Tamers were no match for him, so she thought with Jeremy Night's help they could easily take down the Sun Wheel Organization's Beast Tamers.

Jeremy thought for a moment before agreeing with her.

Sinag was happy. As long as they could eliminate the three people, Team Leader Gisela would be pleased.

About 10 minutes later,

The flying car flew over the gigantic city wall. Jeremy Night watched the amazing scene through the window, preparing to fight the enemies while wearing this armor suit.

Meanwhile,

Butch and his group had already gotten near the northern settlement. The northern settlement was like a human city.

It was huge in size, with a population of more than 100,000. Compared to City A, the number of powerful beast tamers was less.

They were governed by City A, but they had their own Beast Taming Association branches and branches of other organizations.

The Beast Tamers in the settlements could move to City A when they reached a higher tier.

Right now, Butch and his friends were moving towards the scorpion lair. It was not hard to find the lair of the scorpion beasts.

Their organization had information on every corrupted beast lair surrounding their city. They had a specific team for this kind of task, whose job was to find the corrupted beast lairs and report back to the organization.

So Butch knew the exact location from the organization's intelligence.

"Brother, should we kill them before or after completing the mission?" Dalton asked.

Hearing that, Butch's eyes turned cold.

He said, "I'm sure they will come for the mission. We will act according to the situation."

Hearing that, the other three got excited. They couldn't wait to kill those two and get their rewards.

Meanwhile, the other four beast tamers were following them from behind. Their organizations were not as strong as the Sun Wheel Organization and Shadow Moon Organization.

But their higher-ups were influential people, so no one underestimated them.

About 10 minutes later,

Butch and his group arrived in front of the Corrupted Beasts' lair. The lair was like an underground cave structure.

Butch frowned. According to the intel, the lair is a Tier-3 Beast Scorpion lair. However, he knew there were cases where Beast Tamers encountered Tier-4 Corrupted Beasts.

He wondered whether this beast lair contained a Tier-4 Black Scorpion inside.

"If the City Admin is playing with us, then it means the beast lair is not simple," Butch said to the others.

Dalton, Cassidy, and Billy were not naive. They also understood the risks of exploring the corrupted beasts' lair first.

"Brother, why don't we send others to explore the cave first?" Dalton asked.

Butch shook his head and said, "If we are thinking like this, then it's possible for the others to think like that too."

"Let's just explore the outer area. When others come inside, we can follow them," Butch said.

Hearing that, the other three nodded their heads. Then they followed Butch to the cave entrance.

Shortly afterward,

The four beast tamers from other organizations arrived at the location as well. They saw the flying car of the Sun Wheel Organization parked here.

Seeing that, they walked out and headed toward the cave entrance. While walking, they discussed the Sun Wheel Organization's Beast Tamers and the Shadow Moon Organization's Beast Tamers.

They didn't want to offend either of them, so they decided to mind their own business. Then they walked into the cave entrance.

About 10 minutes later,

Jeremy and Sinag arrived at the spot. After stepping outside, Sinag turned toward the driver and asked him to leave.

She would contact him after completing the mission.

Jeremy waited in silence until the staff left the place.

"Are you ready?" Sinag asked him.

"Yes," Jeremy replied.

Then they started walking toward the cave entrance.

Jeremy looked at the scabbard and hand case. He was ready to use them at any time. If necessary, he would kill them first.

Sinag took the lead. After entering the cave, she took out a device to scan the area. The footprints were visible.

"They were here before us," Sinag said.

"Follow me," she added.

Meanwhile,

Tier-3 Black Scorpions sensed the intruders. They frantically started running toward the cave entrance. The Scorpions' eyes were glowing with a green light.

In the blink of an eye, a horde of scorpion beasts moved toward the cave entrance.

Meanwhile, Butch and his friends were exploring one of the passages inside the cave structure while the other four beast tamers entered a different passage.

On the other hand, Jeremy Night and Sinag Clark had just come inside the cave. They came across different passages. Both of them knew the passages were dangerous.

The Corrupted Scorpion Beasts lived in any of these.

Butch and his group were the first ones to encounter the horde of Corrupted Scorpion Beasts. They were all taken aback by the surprise.

"Shit!" Butch cursed under his breath.

"Kill the beasts," he added.

In the next second, all four of them were ready to face the beasts.

Chapter 327: Part 3: First mission (10th Zone)

Cave:

Butch and his friends summoned their lifeline beasts to fight alongside them. The Tier-3 Scorpion Beasts were taller than they were. They needed their lifeline beasts' help.

Meanwhile,

Jeremy Night and Sinag Clark heard the noise of the beasts. They knew it must be the Tier-3 Scorpion Beasts.

"Get ready to fight," Sinag said.

Hearing that, Jeremy unsheathed his blade. He could feel the extra weight and power. A good idea crossed his mind all of a sudden.

He decided to fight without using the starlight energy.

Swoosh!

Sinag Clark summoned her lifeline beast. The next second, a large, beautiful butterfly over 6ft appeared above her.

Jeremy Night was taken aback. It was the first time he had seen the rare insect-type lifeline beast with such interest.

Boom!

But before he could observe the lifeline beast further, a large number of Tier-3 Scorpion Beasts rushed out towards them.

Seeing that, Jeremy slashed at the beast coming toward him.

Puchak!

The blade sliced through the beast's legs as Jeremy moved forward. He was surprised by the force generated by the armor.

He thought, no wonder others were wearing the armor. It could provide defense and generate force as well.

The Tier-3 Scorpion Beast tried to attack with its stinger, but Jeremy was faster. He raised his sword to attack the beast's head.

In a flash, his blade penetrated through its head. He didn't have time to take a look at it. The next second, he confronted another beast.

This time, his blade cleaved through the abdomen of the next beast. His eye ability was helping him find the weakness of the beast.

On the other hand, Sinag held a saber in her hand. She was standing behind her lifeline beast. The beautiful butterfly was stunning the Scorpion Beast with a sound attack.

Sinag then attacked the head of the stunned beast.

While fighting, Jeremy glanced at them. He was surprised by the ability shown by the lifeline beast. The sound ability was rare. He had thought it was only found in bird-type lifeline beasts.

But it was impressive to see such an ability from an insect-type beast.

Smack!

Just as he lost concentration for a second, a huge sense of crisis hit him.

"Fu@k," Jeremy turned around to fight. But a long stinger came right before his face.

At the last moment, he sidestepped to avoid it. But he got hit by a giant stinger. He felt the impact through his armor suit.

His body was flung backward the next moment. Then he crashed against the cave walls. For a second, he felt dizzy. His body was aching in pain.

"Jeremy Night, why are you not using your lifeline beast?" Sinag asked out loud.

She watched how the newcomer was sent back flying. But she didn't have time to focus on him. Her lifeline beast was struggling hard against the number of beasts.

One after another, the poisonous black scorpions were trying to attack the beautiful butterfly with their deadly stingers.

Jeremy Night stood up. Like he had guessed, his response was delayed due to the armor suit. He needed time to adapt. Where could be a better place than this?

Then he started to use his starlight ability to attack the beasts.

Meanwhile,

Butch and his friends were engaged in a tough battle as well. But they had strong lizard-type lifeline beasts. Their fighting ability was no weaker than the Corrupted Scorpions.

It's a pity that Butch had different plans earlier. He had thought about exploring a few passages. But the passages were flooded with Scorpion beasts at that time.

"There is no need to go further. Retreat back with your lifeline beasts. We can deal with the corrupted beasts outside," Butch said to his friends.

He didn't want to be surrounded by these beasts. Otherwise, it would become difficult to get out. Moreover, he wanted to eliminate those two from the Shadow Moon Organisation.

The rewards for eliminating them were higher than completing the mission. But he wouldn't dare to abandon the mission.

The employer clearly saw through their hostility earlier. And he was the one who asked them to act separately. So he had no choice but to fight.

As time passed, the number of Scorpion beasts began to decrease. Except for Jeremy Night, everyone was an elite Tier-3 Beast Tamer. Together with their lifeline beasts, they continued to clear out the lair.

On the other hand, Sinag Clark had big doubts in her mind. She hadn't seen Jeremy Night's lifeline beast. She had even called out to him earlier, but there was no response.

Instead, he had been fighting solo. But she knew this was not the place to ask. Apart from the Tier-3 Scorpion Beasts, they had other threats to take care of as well.

It didn't take long for them to kill the last beast. No more scorpion beasts were coming out of the passages. Still, they were not sure whether the scorpion beasts' lair was cleared out or not.

Because there was no sign of other beast tamers; they had entered the passage before them.

"Should we go inside?" Jeremy asked.

After slaying more than 30 Tier-3 Corrupted Beasts, he had somewhat adapted to fighting in the armor suit.

Sinag looked at her exhausted lifeline beast. She then called back her lifeline beast into her mental zone.

She then turned towards Jeremy and said, "I can't go. My lifeline beast is tired. Both of us need time to recover."

Hearing that, Jeremy wasn't surprised. His starlight energy was close to drying out. It's just that he didn't want to give the Sun Wheel Organisation's Beast Tamers an opportunity.

"Alright, I'm going ahead to check out the passage," Jeremy Night said.

Sinag nodded to him. She herself needed time to recover. She then found a place to sit down and started practicing her breathing method right away.

Jeremy entered the passage where scorpion beasts didn't come out in large numbers. He thought others must have entered the passage and confronted those beasts.

He quickly walked inside. Not long after entering, he paused his movements. After giving it some thought, he pressed the chest plate. The next second, the armor suit opened up.

Then he removed the armor suit before placing it inside the storage ring. Now he grabbed the katana blade and felt a lot lighter.

If he fought in this state, then he could fight more corrupted beasts. If Sinag saw him, she would definitely scold him.

But he was doing it for some reason. He didn't want to be restricted by anything, especially when he was engaging in a do-or-die duel.

He then continued to walk inside. At the same time, he was using his lifeline beast.

Meanwhile,

Butch and his group were trying to exit through the passage. They had no idea someone was coming from the opposite direction.

In this narrow passage, their lifeline beasts were finding it hard to move forward. So they had all called back their lifeline beasts into their mental zones.

But they didn't know they had made the biggest mistake of their entire lives. Behind them, the scorpion beasts were continuing to chase them down.

At the same time, the four beast tamers were also retreating with injuries. Their lifeline beasts were exhausted and injured as well.

It was not always easy to clear out the beast lair, especially when the strength of the beasts was similar to theirs.

Right now, they needed to recover before eliminating the remaining beasts.

About 10 minutes later,

Jeremy Night saw them from a distance because of his eye ability. Instead of unsheathing the katana, Jeremy took out his handgun and held it in his hand.

Then he used his starlight energy to cover the bullets.

Butch and his friends were coming back with serious expressions on their faces.

Jeremy then used his eye ability for accuracy. He was going to target the foreheads of the people, so that the starlight bullet could hit their brains.

He held the gun handle tightly and raised his hand to target their foreheads.

Bang!

Jeremy fired the shot targeting Butch, who had shown him hostility earlier. The starlight pierced through the air, moving at breakneck speed.

In a flash, it appeared before Butch's forehead. As a Tier-3 Beast Tamer, Butch felt a sense of crisis because of the fast projectile.

But it too late for him to move. He had not been paying attention earlier. Only after the sense of crisis kicked in did he feel something was wrong.

Pfff!

The starlight bullet went straight through his forehead before coming out.

Bang!

Three more shots fired the next moment. One after another, the bullets went through the foreheads of the other three Beast Tamers.

Tud! Tud!

When the body of Butch fell to the ground, the corpses of Dalton, Cassidy, and Billy dropped down the next second.

Their eyes showed disbelief and unwillingness. The death was so sudden that they didn't know what had happened.

Because of their death, their lifeline beasts met with the same fate as well.

Boom!

Jeremy didn't have time to inspect. He saw Tier-3 scorpion beasts rushing toward him.

Chapter 328: Part 4: First mission (10th Zone)

Cave structure:

Bang! Bang!

Jeremy continues to fire shots at the incoming beast as well. Under his eye ability, the location of their brain becomes transparent.

Swoosh!

One after another, the starlight bullets tear through the air before penetrating their heads. The corpses start falling to the ground.

Jeremy thought of going further to explore but denied this idea. After killing the last beast, he decides to leave because he doesn't know what lies at the end of the lair.

There could be a Tier-4 Beast hidden in this lair. So, without recovering the starlight energy, he doesn't want to fight again. Then he turns around and starts walking back.

He doesn't care about the corpses of the Sun Wheel Organisation's members because he has a plan. He wants to see the reaction of Sinag and others.

If he reveals he was the one who did it, there is a high possibility of facing direct threats from the Sun Wheel Organisation.

His parents are still living in the 10th zone, and he doesn't want any target on their backs.

Shortly afterward, he returned to the previous spot.

Boom!

The next second, he heard fighting sounds. When he got closer, he saw Sinag facing off against the four beast tamers. He hears their conversation as well.

"If you attack me, our Shadow Moon Organisation won't let you go," Sinag said in a cold tone.

The four beast tamers sneered. They wanted the reward offered by the Sun Wheel Organisation. They don't care about the Shadow Moon Organisation right now.

Because Sinag has no support at the moment.

"Nobody knows we did it. The other guy might have died at the hands of Butch and others," one of them replied.

Sinag's expression changed drastically, but she still had her hopes high because she knew the newcomer had killed a Tier-4 Corrupted Beast with ease yesterday.

So the beast tamers from the Sun Wheel Organisation won't be a match for him.

At the same time, Jeremy puts his gun back into the case. He unsheathed his katana blade and started dashing toward them.

"Explosive Steps!"

He used the movement technique all of a sudden and exploded with great speed. In a flash, he got closer. The four beast tamers were all startled.

They just badmouthed him and expected his death. But instead, he was charging at them at full speed.

"Get ready!" one of them shouted.

They were not going to underestimate the person who became famous for killing a Tier-4 Beast at the Tier-1 stage.

At this point, the four beast tamers already knew the identity of Jeremy Night.

That's why they were eager to eliminate two of them for the Sun Wheel Organisation.

Sinag sighed in relief. She was yet to recover. She didn't want to force her lifeline beast, the butterfly, to fight. If the lifeline beast suffers an injury, she would suffer as well.

But fortunately, Jeremy was here. She then watched him perform the same blade movement.

Slash!

Jeremy slashes the blade at the first beast tamer. The blade went in an arc. The next second, a red line appeared on the beast tamer's neck.

Pfff!

The next second, torrents of blood gush forth from his neck. Jeremy ignored him and targeted the next person. The second beast tamer was about to summon his lifeline beast.

Cut!

But his head was severed in a flash. His lifeless body dropped dead on the ground.

Sinag widened her eyes in disbelief. In a couple of seconds, the newcomer had killed them. Then she saw the same thing happen to the third beast tamer, followed by the fourth beast tamer.

Everyone died unwillingly. Everyone's lifeline beast had been exhausted. If a lifeline beast dies, it is the same as crippling them.

But now, without their lifeline beasts, the four of them met their deaths faster.

Jeremy sheathed his blade. He took a deep breath and slowly released it before looking at the corpses. He hadn't expected these unknown people to turn against them at the last moment.

"I guess the rewards made their eyes blind with greed," Jeremy uttered.

Then he walked toward Sinag Clark, seeing that she was looking at him in surprise.

He asked, "Are you alright?"

"Did you kill those four from the Sun Wheel Organisation as well?" Sinag asked.

Hearing that, Jeremy's eyes turned cold. Sinag was taken aback by surprise.

Jeremy said, "My parents are still living in the 14th zone. I don't want them to face any threats."

Sinag's eyes flickered with understanding.

She said, "Don't worry. I won't tell anyone, including Leader Gisela. But the other two organisations won't leave just like that. They would definitely demand a probe."

"Because all of them have died except us," she added.

Jeremy's eyes flashed with a glint.

He said, "This cave is not simple. I guess there are still poisonous scorpions hiding in the depths. If someone asks, let's just say they were killed by a Tier-4 or Tier-5 beast."

Sinag said, "I don't have any problem. Just drop their bodies inside the passages."

Hearing that, Jeremy agreed. Then both of them dragged four corpses into the different passages.

Meanwhile,

The corpses of the Sun Wheel Organisation were taken to the deepest part of the cave by the new scorpion beasts. If Jeremy were here, he would be shocked.

Because, like he had guessed, there are still scorpion beasts living in the depths.

After dropping the corpses, Jeremy asked her about the recovery. Sinag shook her head before saying, "I need at least two or three hours."

"What about your lifeline beast?"

"I hadn't seen you using your lifeline beast," Sinag asked. It was the question she wanted to ask earlier, but due to the situation at that time, she forgot.

Jeremy smiled and replied, "My lifeline beast is recovering right now. Besides, I'm alone to take down everyone."

Sinag was speechless. But she didn't doubt his words because everyone had witnessed what happened yesterday. Now she had witnessed another new move.

She hadn't seen anyone using a handgun before. It was an old-school method.

The normal bullets wouldn't be able to penetrate the beast skin, but here she saw him using some kind of beast ability to make it more powerful.

It was the same case with the blade movement. She was curious about Jeremy Night's lifeline beast.

Chapter 329: First mission was successful

Cave structure:

Jeremy then spends time recovering the starlight energy. Everything depends on his unknown egg lifeline beast. It's absorbing the natural energy from the surroundings.

Two hours later,

Sinag Clark and her lifeline beast have almost recovered their strength. But she still chooses to move around in the armor suit.

She can tell Jeremy Night's speed is faster without the armor suit. But going deep inside the cave may pose a serious threat.

"Jeremy, why don't you wear the armor suit?"

"We are going to face a more dangerous situation inside," Sinag is trying to persuade.

But Jeremy shakes his head. He is denying it. Since it's going to be dangerous, he needs to respond faster to the threat.

Sinag sighs inwardly. But she is also aware of the fact that Jeremy Night can kill a Tier-4 Beast. If there is any situation ahead, she can only rely on him.

Shortly afterward,

Both of them entered one of the passages and started walking. They can't return without completing the mission.

Jeremy knows that the employer has made it clear. She wanted the mission to be finished successfully, and she doesn't care about the rivalry.

The passage was long and without light. But both of them managed to walk because they had killed the waves of beasts before.

It didn't take long for them to reach a large open space. Jeremy looks around and finds that all passages connect to this place.

This could be the final lair. But they haven't seen the end of it.

Weird cry!

The next second, a weird cry sounded.

Sinag Clark summons her beautiful green butterfly the next moment. She doesn't want to take any chances here.

Jeremy Night takes the handgun in his hand. If there is a small number of beasts hiding here, he needs to take them down sooner.

Boom!

The next second, both of them saw a small number of scorpion beasts charging toward them.

Sound attack!

The green butterfly attacks with sound, followed by the saber attack of Sinag Clark. The duo works in combination to kill the incoming beasts.

Seeing that, Jeremy Night doesn't want to be left behind. He covers the bullets with starlight energy. He has enough magazines.

Bang! Bang!

Aiming at the corrupted beasts' heads, he fires continuous shots at them. The starlight bullets fly through the air at breakneck speed.

The Tier-3 Scorpion beasts have little time to react. One after another, the bullets penetrate through their heads, leaving behind a hole.

Puchak!

Their brains rupture, and their nervous systems collapse the next second. It doesn't take long for the beasts to be completely dead.

Sinag was speechless. Both she and her lifeline beast were working hard to kill one Tier-3 Corrupted Beast. But Jeremy Night is taking down every beast easily, like a walk in the park.

She didn't expect the newcomer's marksmanship to be at this level. Each shot is taking down the life of one corrupted beast.

She was glad that he was part of their Shadow Moon Organization. She doesn't want to come across such an enemy. If you do, you would never know when you might die.

She guessed the fate of others was similar as well. They had died with disbelief and unwillingness.

Bang! Bang!

Jeremy continues firing shots. As time passes, more than 20 beasts have died. They only see a decline in the waves.

About 20 minutes later,

When the last beast was dead, both of them looked at each other.

"Should we go deeper?" Jeremy asked.

"I believe the actual lair is inside," Sinag replied.

Hearing that, Jeremy was surprised. He could not see anything with his eye ability.

"How did you find out?" he asked.

Sinag smiled and turned toward her beautiful green butterfly.

Seeing that, Jeremy understood something. It was her lifeline beast that had sensed something unusual.

He said, "Okay, I'm taking the lead."

After saying that, he started walking forward. At the same time, he is using his eye ability.

Sinag Clark is following him from behind.

It didn't take long for him to reach the depth. He is starting to feel a sense of crisis. A huge scorpion beast's claw comes into view.

It's twice the size of a Tier-3 Scorpion Beast's claw. What's more? He could see a lot more attractive gems. They are shining in bright red light.

"No wonder the employer wanted us to complete the mission. The scorpion lair sits on rare minerals. Our city could benefit hugely from it," Sinag said with a smile.

Hearing that, Jeremy's eyes flickered with understanding. But his gaze never left the Tier-4 Scorpion. He began to cover the bullets with starlight energy.

"Get ready to engage," Jeremy said.

The next second, Sinag told her lifeline beast to attack.

Sound attack!

The beautiful green butterfly released a sound attack.

Jeremy's eyes flickered. He was looking for a good opportunity.

The Tier-4 Scorpion beast vigilantly stared at the two enemies. It knows all the Tier-3 Corrupted Beasts were all killed by the enemies.

Boom!

When the sound hits the Tier-4 Beast, it is stunned for a few seconds. It's stronger than the Tier-3 Corrupted Beast. The effect won't last long.

Bang!

Jeremy fired continuous shots using the opportunity. The starlight bullets hit the target's forehead one after another.

Because of the continuous shots at the same spot, the hard skin, flesh, and bones were penetrated easily. The bullets ruptured the brain, breaking the nervous system.

Pfff!

The huge Tier-4 Corrupted Beast didn't have a chance to fight back. Its vitality ended in a few minutes.

Sinag was speechless. She then recalled her lifeline beast into her mental zone. Now she had to think about how to solve the mess.

Jeremy sighed inwardly. He had to say that the earlier sound attack by the butterfly lifeline beast had helped him.

Otherwise, anything could have happened.

"What do we do now?" Jeremy Night asked.

Hearing that, Sinag Clark collected her thoughts.

She said, "We need to report to Leader Gisela first. It's better to hear her opinion."

Chapter 330: Praise and responsibility

Cave Structure:

Sinag called Leader Gisela and reported to her. After learning about the bright red gems, she immediately asked them to leave and not to interfere in this matter anymore.

Since all other beast tamers had died except the two of them, Gisela thought that the forces behind them wouldn't leave the matter just like this.

So they needed the help of their employer. At the same time, Gisela asked them to dispose of the corpses and clear the traces. After saying that, she ended the call.

Sinag turned towards Jeremy and told him everything. Jeremy wasn't surprised by Leader Gisela's decision.

From the corpses, they could easily find signs of killing. So he agreed to dispose of the corpses as soon as possible.

Then they left the area and entered the passage where they had encountered the members of the Sun Wheel Organisation. It didn't take long for them to reach the old spot.

But Jeremy saw that there were no corpses on the ground. Sinag immediately found clues of the corpses being dragged to somewhere else.

"I'll ask my lifeline beast for help," After saying that, she summoned her green butterfly outside.

Beautiful sound!

The butterfly made a beautiful sound. It recognized the new teammate of its contractor. After receiving the order, it started flying forward.

Jeremy's eyes flickered. He said, "Your lifeline beast is intelligent."

"Yes, she is intelligent. I can tell that she has favorable opinions towards you," Sinag replied.

"Oh," Jeremy raised his eyebrows in surprise.

"Yes, she can sense kind and malicious feelings. She got kind feelings from you," Sinag shared a secret.

Jeremy was taken aback by surprise.

"It's a lifesaving ability," Jeremy replied.

"Yes, let's follow her," Sinag said.

She then began to follow her lifeline beast, with Jeremy following them from behind. He appreciated the convenience of having a lifeline heart around him.

"You have given me powerful abilities. If you hatched and appeared outside, I guess there would be hardly any rivals for us in the future," Jeremy thought.

Shake!

Suddenly, the unknown beast egg in the mental zone shook a little after sensing the thought. Then it started to absorb more natural energy from the surroundings.

Jeremy Night sensed the changes as well. But he had to pay attention to the task at hand. Not long after, they came across the corpses.

But they were in a terrible state. Their bodies were half-eaten. Sinag sighed in relief. She then thanked her lifeline beast before taking her back to the mental zone.

"It worked out well for us. No one will suspect us. Their corpses were eaten by the corrupted beasts," Sinag said to Jeremy Night.

"Yes, we should take care of the other corpses before leaving," Jeremy replied.

Then they started walking back. It didn't take long for them to reach the entrance, where they took care of the corpses of the other four beast tamers.

After erasing the traces, they finally walked out of the cave structure.

"Our task is complete. Let's inform the employer," After saying that, Sinag sent a message to a contact.

Jeremy, standing beside her, was surprised. He didn't know when she got her contract.

Sinag noticed the confusion in his eyes.

She said, "I got it from the leader."

Then the call was connected. Sinag told her employer about the mission and the casualties. The employer, who was a beautiful woman, frowned.

Something happened like she had guessed. But she had given her word earlier that she wouldn't interfere unless her job was complete. Since the lair was cleared out, she didn't ask further questions.

She said that she would send them their reward later. After saying that, she ended the call.

Phew!

Sinag Clark breathed a sigh of relief.

"Everything is good now. It's time to leave," After saying that, Sinag contacted the staff who had dropped him earlier.

After telling him to come, Sinag removed her armor suit and placed it in her storage ring.

Jeremy was digesting the experience in his heart. It was the first time for him to complete a team mission with someone. He had done missions with Betsy Lowe and Daniel Stone.

But they were weaker than him, so he hadn't taken any dangerous missions at that time. He could say that this was his first real team mission.

Shortly afterwards,

The staff arrived in the car. The flying car landed in front of them. Then both of them entered inside.

Jeremy sat in the back seat and closed his eyes.

Sinag asked the staff to return. The staff was surprised because he saw no sign of other beast tamers. For a second, he misunderstood that the others had left before them.

About 25 minutes later,

The flying car reached the city wall and flew over it. Then the car started flying towards the eastern part of the city. The flying car followed the other car.

The staff was following traffic rules.

Jeremy opened his eyes and began to watch the passing scene through the window. He was aware of his shortcomings.

He wanted to get started in Blade One: Silence. If he got a beginner-level skill set in this technique, he could easily kill any Tier-4 corrupted beast in a flash.

About 15 minutes later,

The flying car entered the gated community. They soon arrived at the pointed arch-type castle. It was the building of the Shadow Moon Organisation.

The flying car came to the parking area and slowly landed on the ground.

Sinag thanked the staff before stepping out of the car. Jeremy did the same.

"You can go back to your room. I will report to Leader Gisela," Sinag said with a smile.

Hearing that, Jeremy nodded to her. He needed a cold bath badly right now.

After walking into the building, they both separated. There were staff and other members going about their business.

Their arrival immediately attracted attention, but they quickly parted ways. Jeremy could feel the surprised gazes filled with curiosity. He was heading towards his room.

Everyone saw how both beast tamers returned unharmed, especially the newcomer. It told them many things; the newcomer was definitely strong.

Otherwise, he wouldn't have returned in one piece.

Shortly afterwards,

Jeremy returned to his room. He noticed the shock and surprise on everyone's faces. He was aware that others might know about the mission because the armor suit had conveyed something to them.

He then pushed down these thoughts before entering the bathroom. Today's experience was a bit different. Though the corrupted beasts didn't pose any threat to him,

He found out that human hearts were different. There were beast tamers willing to offend anyone as long as there was no evidence.

Next time, he would be careful in picking a team mission.

Meanwhile,

Sinag Clark came to the office of Leader Gisela. Upon entering the room, she saw her sitting behind the desk.

Gisela asked her to sit.

She then inquired, "How was your first team mission?"

"How did Jeremy Night perform?"

"It went well compared to previous team missions. There were no serious injuries. When it comes to Jeremy Night, he is really strong. He could even do the mission alone," Sinag said straightforwardly.

Gisela then asked, "So who killed the Sun Wheel Organisation's beast tamer and the others?"

"Don't tell me they were all killed by the beasts. They were all quite experienced and veteran beast tamers. The organizations behind them won't accept such a simple statement," she added.

"I don't know. When we found their corpses, half of their bodies were eaten by the corrupted beasts," Sinag replied.

Gisela smiled knowingly. She said, "It's good that you have already started trusting the newcomer."

To that, Sinag smiled in response. She had seen how he shot down everyone in the blink of an eye. They were no match for Jeremy Night.

"Okay, you can leave now. Take complete rest first. I'll assign your next task in a few days," Gisela said to her.

Sinag thanked her and stood up to leave.

When she left the room, Gisela's expression turned serious.

"This kid is going to have a target behind his back," she said to herself.

Then she remembered that the Head of the Organisation had sent people to protect Jeremy Night's parents in secret. They were old seniors who had a decade left to live.

Their prowess was enough to handle most of the trouble.

She then left the room to go see Head Neil.

...

Meanwhile,

The beautiful woman employer in the city hall reported the casualties to the higher-ups and their respective organizations. She had already sent a team to check the previous resources.

She didn't care about the deaths of the beast tamers.

...

Sun Wheel Organisation:

The news reached the Sun Wheel Organisation's office. Their staff was shocked upon receiving the news. They informed their higher-ups, who then reported to the Elders and other senior members.

They found out that the members of the Shadow Moon Organisation survived, but their members did not. It immediately made them think something was wrong.
