

## **STRIKER 341**

Chapter 341: Part 1: Rescue mission

Shadow Moon Castle:

Gisela was in her office. She came to know about this little meeting. She was happy that the 3rd Squad members could meet each other.

Next time, if she gives them any mission, they can do it with good teamwork. Just as he was focusing on other work. She receives a call from the Head.

The Head summoned her.

Gisela then leaves her office and heads towards the Dean's office. Soon, she reached his office.

Creak!

She got permission to enter. When she walks in. She saw him sitting behind the desk. He was dressed in a white tuxedo.

"Sit," Neil said.

Hearing that she sat opposite him. Upon seeing Head Neil's serious face, she knew something was up.

"I received a response from the City Governors. They weren't satisfied with the evidence. If it were Tier-5 or Tier-6 Red Ant beasts, they might pay attention."

"But they think the presence of Tier-4 Red Ant Beasts was not enough evidence to suggest there could be an ant-beast Invasion in future," Neil said in a serious tone.

Gisela was taken aback by surprise. Because she had thought this evidence was more than enough. She thinks that if there is an ant colony, then there must be an ant queen.

If the normal Ant workers had the strength of the Tier-4, then their queen must be stronger than they are.

Head Neil saw through her thoughts. He had thought about the Ant beasts colony as well.

So he said, "I know what you are thinking. The existence of the Ant beast colony was enough to suggest that these ant colonies pose a threat."

"But for whatever reason they are ignoring it," he added.

Gisela was unwilling to accept the news. Because they had faced the Ant beasts' invasion before. At that time, if they acted easily. They could have avoided the invasion from happening.

"Don't think too much about it. Just focus on other missions. The Ant beasts' invasion won't happen suddenly. There would be some reaction," Old man Neil said.

Hearing that Gisela chose to give in. She knows there are powerful beast tamers above her. They could see if there is something wrong.

If there is a sign of any beast invasion they won't be silent.

"Okay," She replied.

"Did you give any missions to your 3rd Squad?" Head Neil asked.

Hearing that Gisela raises her eyebrows. Because she was looking for good missions to send them. But right now, the available missions are quite dangerous.

"Head, I'm looking for a good mission. So they can operate in a team," Gisela said to him.

Head Neil nodded before saying, "I have got one rescue mission request from the Sand Bloom Mercenary Organisation's Head."

"Their team has got stuck somewhere in the Inner Part of the Wilderness. It's been five days since their communication was cut off. Their Head had thought the team had faced some hurdles while returning."

"But they have yet to return. He thinks something must have happened to the team," He added.

Gisela remained silent. She had done the rescue missions before. So she has decided to accept the mission.

"What's the strength of their team?" She asked.

"The team that got stuck was made up of Tier-3 Beast Tamers. You can take your 3rd squad with you," Neil replied.

Hearing that, she understood. The Head had thought her 3rd Squad could do this mission.

She then nodded before replying, "Alright, I'll take the 3rd Squad with me."

"Okay, update me from time to time," Old man Neil said.

She then stood up from the seat and left the Head's office. She then returns to her office a few minutes later. She sat in the seat and summoned the 3rd Squad Team Captain Sinag Clark.

After doing that she also called Jeremy Night. She thinks Jeremy Night could be practising. But he would take her call. Like she said, he attended the call and she asked him to visit her office ASAP.

On the other hand, Jeremy Night began to get ready. After wearing the white uniform with half-moon insignia, he combed his hair.

Then he left his room and headed towards the team leader's room. He has already memorised the important places in this castle.

It didn't take long for him to get there. But when he got there he spotted Captain Sinag Clark as well. She was about to enter the room. But his arrival has caught her attention.

Seeing that Jeremy walks up to her.

"What are you doing here?" Sinag asked.

"The leader has summoned me," Jeremy replied.

Sinag then nodded her head and she replied, "Let's enter inside."

Both of them walked into the room. Gisela asks them to take the seat. They sat on the chair opposite her.

Gisela then looks at them before looking at Jeremy Night.

"Did you meet with other members?" She asked.

Hearing that Jeremy wasn't surprised.

"Yes, we met briefly for a few minutes," Jeremy replied.

Sinag sighs in her heart. She knew that Leader Gisela would be paying attention to them. The meeting could have gone better. But she still believes things will change in the future.

Gisela then decides to speak about the topic.

"We've got an urgent rescue mission. A group of beast tamers from the Sand Bloom Organisation have got stuck somewhere. The Head has given me the task of completing the mission. "

"The Head has asked you guys to take part in this mission. Because the beast tamers who needed our help were Tier-3 Beast Tamers. It's not difficult for your team to complete the mission," Gisela said to them.

"Rescue mission is good," Jeremy said immediately.

"We can do it," Sinag said as well.

"Don't hurry to make a decision. If it were a normal rescue mission, there wouldn't be any problem. But I suspect the problem is not that simple."

"We could face a threat from the Corrupted Beasts and beast tamers as well. So ask the members whether anyone is willing to come. There is no need to force anyone for this mission," Gisela said.

"This?" Jeremy uttered in surprise.

This thing didn't cross his mind at all.

Sinag understood as well.

Chapter 342: Part 2: Rescue mission

Office:

Sinag said, "I'll talk to the members."

Hearing that Gisela nodded to her. Then she turned towards Jeremy Night.

"What about you?" She asked.

"I'm going?" Jeremy replied.

But in his heart, he knew there could be dangerous situations out there. You never know what's going on inside the wilderness

Seeing that Jeremy Night had agreed, Gisela felt relieved. She knows Jeremy's strength. He believes Jeremy Night can take down Tier-4 Corrupted Beasts or Beast Tamers.

Sinag felt relieved as well. She had done a mission together with him not long ago. So with Jeremy Night's presence, they could avoid any Tier-4 Corrupted Beasts or Beast Tamers threat.

"You guys can go now," Gisela said.

"Leader, are you coming with us?" Jeremy asked all of a sudden. I'm a Tier-7 Beast Tamer. I don't think my presence is necessary."

"It would be enough for you guys to rescue them," She said.

"But if there is any unavoidable situation, then call me. The communication network won't be cut off in the Inner Part of the Wilderness. So you don't have to worry," She added.

Jeremy said nothing. Next, with Sinag, he walked out of the room.

"When do we leave?" Jeremy asked.

"I'll speak with others first. I'll call you thereafter," Sinag replied.

Hearing that Jeremy said, "Okay." Then he heads back to his room.

Sinag then turned around and started walking back to her room. Soon, she reached her room. She then called the members and spoke with them one after another.

Since it's a rescue mission. They didn't reject it right away but when they heard about the location. They started to hesitate. Because it's actually the inner part of the wilderness.

Last time, the hybrid Tier-4 Corrupted beasts had tried to take them down near the city itself, which is exactly the starting point of the outer part.

So the situation inside the inner part could be more dangerous. It's not that they were afraid. It's just that they have recovered from that incident.

Now, if they come across a similar situation in the inner part of the wilderness, then something worse could happen.

Sinag understood the stuff as well. But she told them that Jeremy Night is coming. The others had seen his combat strength before.

So she is hoping that it will give them confidence. But still, they showed hesitation. Only Ada among the females has agreed to come.

The four male beast tamers refused to come. Their reason was that the inner part of the wilderness was too risky. Fredrick and Albert made the decision first.

Then Cedric and George have refused to come as well.

Sinag knew Cedric and George would listen to Fredrick and Albert. If they don't come, then these two won't come either.

She shakes her head in helplessness. The other three girls refused to come as well. Because they had just recovered from the injuries as well.

They don't want to risk it right now. Which leaves only Ada. With Jeremy, her and Ada, she doesn't know whether they could do the mission.

She then informs Leader Gisela. But Gisela was not surprised. Because she was expecting this news. The inner part is certainly dangerous. There is a possibility that the team could come across Tier-5 and above corrupted beasts.

No one can predict the outcomes. She then asks Sinag whether she wants to do the mission. If she were not confident, there was no need for them to go.

She can ask the members of the 2nd Squad. The 2nd Squad is full of Tier-4 Beast Tamers. Even a few of them could accomplish the mission with ease.

Sinag agreed to do the mission. Because she wanted to improve her strength as well. Only during the fight can you gain experience. She thinks it's the same case with Ada as well.

Ada was naturally competitive. After hearing about Jeremy Night's strength, she has agreed to the mission.

Gisela then said, "Okay, I'll arrange someone from the 2nd Squad as your team's temporary captain. Come to the first-floor lobby in 15 minutes."

Hearing that Sinag replied, "Okay."

She thought they would do the mission as a team. But she understood that the Leader is worried about their safety.

After ending the call, Sinag then called Jeremy Night and informed him.

Jeremy, who was in his room, was taken aback by surprise as well. He felt the mission was not difficult. But when he asked about the reason. He then understood.

The other members have just recovered. They feel it's too risky to enter the Inner part of the wilderness. Besides, he thinks of their Tier-3 strength. They won't be much of help when facing Tier-4 Corrupted Beasts and Beast Tamers.

That's why Leader Gisela asked for their opinion. Jeremy thinks they shouldn't come. He didn't have any good impressions to begin with.

Sinag told him to come to the lobby in 15 minutes. After ending the call, Jeremy began to get ready. He checked the armour suit first.

Then he began to check other stuff.

Meanwhile,

Gisela made a call to a person named Charles. He is part of the 2nd Squad. He is currently available. Charles attended the call and heard about the rescue mission.

After knowing that he is going to lead a three-member team from the 3rd Squad, he was surprised. But then he agrees to do the mission. Since it's a rescue mission.

Apart from that, he is curious about their newcomer. The kid is named Jeremy Night as well.

He wanted to meet the powerful Tier-2 Beast Tamer. He heard from other members about Jeremy Night's strength.

But he didn't have the opportunity to witness it that day. But he got an opportunity now.

Gisela was glad as well. She then asked him to lobby in 15 minutes. After ending the call, she still had some concerns.

The inner part of the wilderness is a site of danger. The situation of the Sand bloom team is still unclear.

But if the Sand Bloom Team had come across Tier-4 and above corrupted beasts. Then it would have been hard for them to survive.

That's why she thinks that if they were alive, then the small team would be enough.

## Chapter 343: Part 3: Rescue mission

Shadow Moon Castle:

15 minutes later,

Jeremy comes to the lobby on the first floor. He has worn his armour suit without headgear. He sees Captain Sinag and Ada.

They are appearing the same. His arrival has caught their attention. He then walks up to them.

"Where is the leader?" Jeremy asked.

"She is yet to come," Sinag replied.

He nodded to her.

Right after, a middle-aged man made an appearance. He is none other than Charles. He is going to lead this team on the mission.

But he didn't wear his armour suit yet.

Charles saw Sinag, Ada and the newcomer. He was familiar with those two. But, he is meeting with the newcomer for the first time.

"So you are the newcomer, Jeremy Night?" Charles asked.

His face was full of curiosity. He began to observe the newcomer.

Jeremy was taken aback. Before he could say something, Captain Sinag opened her mouth.

"He is Senior Charles from the 2nd Squad. He will lead us on this rescue mission, " Sinag said.

Hearing that Jeremy's eyes flickered with an understanding. Ada understood as well.

Charles realises that these two have yet to know the news.

"Don't worry, the mission will be a success," Charles said with a smile.

At this moment, Team Leader Gisela walked in. Upon seeing four of them, she said, "It looks like you guys had a meeting."

"Since you guys are done with the talk. You can leave for the mission," Gisela said.

After saying she took one of the four boxes and gave it to each.

Jeremy accepted the task. His eyes flash with curiosity. He was about to open. But Leader Gisela's voice stopped him.

"Don't open it now. It has explosives. If you come across Tier-5 and above corrupted beasts. Use it then to save your lives."

"But I would be happy if you don't use it against Tier-4 and other corrupted beasts. These things are costly. Hard to come by. Not everyone is eligible to buy in the market," Gisela said to them.

Jeremy sighed inwardly. He was wondering how they could face Tier-5 Corrupted Beasts and above. Especially when the Team Leader, Gisela, was not travelling with them.

But now he has the answer for that.

Sinag was taken aback by surprise as well. She knows those things were used for emergency purposes. For example, the beast invasion and other disaster incidents.

But she didn't expect Team Leader Gisela to take out these things. It's very costly.

Ada confidently puts the box in her storage bracelet.

Charles was shocked as well. They had done many dangerous missions before. But at one time, they got explosives to use.

But this time he got this thing for the rescue mission. Now he fears no one. He knows the power of the explosives. He had seen it before.

Team Leader Gisela gave them such a thing. His gaze fell on the newcomer the next moment. He had heard that the newcomer was directly recruited by her.

"Lucky kid," Charles said in his heart.

Jeremy placed the box inside the storage bracelet as well.

Gisela said, "If you come across any big threat, don't forget to call me. "

Charles and others nodded their heads.

Leader Gisela left the place.

Charles then said, "Give me a few minutes. I'm going to wear my armour suit."

After saying that he heads to his room to change. When he was gone from the place, Jeremy's eyebrows eased down.

"Are you surprised?" Sinag asked.

Hearing that Jeremy looks at her.

"Yes, I didn't expect someone from the 2nd Squad to help us," Jeremy replied, honestly.

"Don't be disappointed. Senior Charles had records of killing a few powerful Tier-3 Corrupted Beasts," Sinag said.

Ada continued to remain silent. But she is enjoying the conversation between the two.

Meanwhile,

The staff and other members who were walking past saw the scene as well. They understood that a small team might be heading for a mission.

Shortly afterwards,

Charles arrived wearing a full armour suit.

"Let's go," he uttered.

Sinag and exchanging looks with Ada and Jeremy. Then the trio followed him back.

Upon arriving outside, they found a special flying cab waiting for them. This time it was a new driver. He is an old man in his fifties.

Charles walks up to the driver and tells him about the destination. The driver nodded his head before opening the door to sit in the driver's seat.

Charles turned around and asked others to hop in.

Jeremy, Sinag and Ada sat in the back seat. Charles sat in the other front seat.

Shortly afterwards,

The flying car hovers above the ground. After appearing in mid-air, the car starts heading towards the destination.

Leader Gisela got the notification the next second. She had done a huge thing by giving them advanced explosives. Not even the 1st Squad enjoys the treatment.

The others are fighting, betting their lives on the line. But she had done it because of Jeremy Night. The previous driver had leaked Jeremy's whereabouts.

As far as she knows about the Sun Wheel Organisation, they won't let go of such chances. So she doesn't want any danger to happen. So the advanced explosives would be a trump card for them.

She had given them in the box. So the staff and other members were unaware of it. If the news was leaked, the other Team Leader would be pissed off.

After giving some thought, she has decided to report to Head Neil at least. She then immediately calls and informs him about this matter.

Old man Neil was shocked. The use of advanced explosives is not necessary in this mission. But after learning that she was worried about the Sun Wheel Organisation.

He understood the problem. The Sun Wheel Organisation and other hostile organisations could plan something if they knew about Jeremy Night's departure.

Then he told her that it was his decision to give explosives. If anyone asks, she should be saying that it was the Head of the organisation.

In that way, no one can target her.

Gilsela knew that Head Neil was protecting her. So she thanked him before ending the call.

Chapter 344: Part 4: Rescue mission

Wilderness:

The flying car dropped them off at the outer part. Jeremy and others stepped out of the car. Charles stepped out at last and thanked the driver.

The driver then began to leave. When the flying car left. They looked at each other and began to discuss. The Sand Bloom Team's last known location was the inner part of the wilderness.

"Let's follow the popular route to the inner part. We could come across them on our way, if nothing bad had happened to them," Charles said.

Hearing that everyone agreed. Jeremy, Sinag and Ada wore their headgear. After checking everything was ready, they started their journey.

On the way, Charles starts striking conversation with everyone. Especially, he wants to know about the newcomer. But Jeremy has been giving short answers to him.

He is clearly not in the mood to chat. Because he is focusing on the wilderness. Not only were they walking along the path. He saw other mercenary teams at a distance as well.

It's hard to guess who could become your enemy. He was thinking about the Sun Wheel Organisation in his mind as well. So he had no time to pay attention to Charles.

But this attitude doesn't sit well with Charles. He was pissed off. He is someone from the 2nd Squad. He is a Tier-4 Beast Tamer. A senior to the 3rd Squad.

Yet the newcomer was not responding to him properly. He could tell that Jeremy Night didn't want to talk. But he is the one who leads the team.

A bad idea rose in Charles' heart. He thinks that if Jeremy doesn't beg him, then he won't help him. They are going to face a tough situation ahead.

He wanted to see the newcomer struggle. For a second, he forgot that Jeremy Night could be Tier-4 Corrupted Beasts.

Their appearance has attracted attention. The other Mercenary Team, who were coming out and going in, saw the team as well.

After recognising they were from the Shadow Moon Organisation, they reduced their hostile intentions. Since they have seen them, the discussion naturally takes place.

The rivalry between the Shadow Moon Organisation and the Sun Wheel Organisation was not secret. It's known to everyone in the city.

It's just the people with keen eyes who have spotted some information. They saw the appearance of the new beast tamer in the Shadow Moon Organisation.

Those who were in touch with other Mercenary Organisations knew that it was normal for the organisations to target each other in the wilderness.

So they have decided to sell the information for the money.

It didn't take long for them to spread the information. Soon, someone from the Sun Wheel Organisation saw the message. They were shocked.

They quickly informed their higher-ups. After knowing that their rival organisation has sent a team for the mission. They have decided to send one of their 3rd Squad team as well.

Because their 1st and 2nd Squads have gone out on the missions. And as per the information, the enemy's 3rd Squad Team has only one Tier-4 Beast Tamer. Two Tier-3 Beast Tamers and one newcomer.

The newcomer's information was unclear. But according to the eyewitnesses, the newcomer is a Tier-2 Beast Tamer.

Their one 3rd Squad Team was enough to take them down.

If everyone worked together, they and their Lifeline beast could take down the single Tier-4 Beast Tamer.

The Sun Wheel Organisation immediately sent out one of their 3rd Squad Teams. There are 10 members in the squad. It was a bit overkill for the enemy.

But they don't care. They wanted the result.

Time passed,

Charles and the team came across their first corrupted beasts. There were no other mercenary teams nearby. They have already parted ways and gone on different paths.

The Corrupted Beasts in front of them were a Ground Lizard. It's a Tier-3 Corrupted Beast. It was standing a few hundred metres away from them, blocking the path.

The Team paused their footsteps and looked at the corrupted beasts. Jeremy already felt unkind gazes from Charles earlier.

He knows that his attitude has pissed him off. Jeremy thinks this person must be planning to do something.

Sinag already noticed a change in Charles's attitude.

She said, "I'll take care of it."

"No, it's just a Ground Lizard. Don't waste your energy. I want two of you to remain at peak. If we encounter other troubles ahead, then both of you can act," After saying that Charles's gaze fell on Jeremy Night.

"But he can kill the beast. I heard of his record from the members. He had killed or injured a hybrid Tier-5 beast before. So he can handle the Tier-3 Ground Lizard ahead," he added.

"This?" Sinag uttered.

She clearly smelled the friction between them. Charles is causing trouble for Jeremy Night.

Ada didn't move from her spot. She wanted to witness Jeremy Night's strength as well.

On the other hand, Jeremy's heart turned cold. He was expecting this from the narrow-minded person. To be honest, he was the strongest among them.

But Charles doesn't know about it. Jeremy doesn't want to cause any scene here. Since Charles is the leader of this temporary team. Then he needed to follow his order.

"Okay," Jeremy uttered before walking towards the Ground Lizard.

He walks past Charles and others and looks at the Ground Lizard while walking. He started using his eye ability. He zoomed into the Ground Lizard.

The Ground Lizard becomes very clear in his eyes. He could spot tiny details clearly. The expression of the Ground Lizard is angry at this moment.

Then he starts using his second ability. The whole body of the ground lizard becomes transparent under its eyes. He could see the blood vessels that go to the heart.

All he needed to do was sever the blood vessels.

Charles is smirking from behind. He clearly saw that the strength of the newcomer was Tier-2.

The Ground Lizard is not an ordinary lizard. It could give a tough fight against the Elite Tier-3 Beast Tamers.

He doesn't think that a newcomer can withstand the attacks.

Chapter 345: Part 5: Rescue mission

Wilderness:

Jeremy walks up to the ground lizard. When he got closer, a few steps away from it. He unsheathed his katana blade.

Then he started to cover the blade with starlight energy. His actions alerted the ground lizard which was observing a moment ago.

The Ground Lizard set its gaze on the enemy. Its body is similar to Jeremy's height. But its strength can completely overwhelm the Beast Tamer and the Corrupted Beasts below Tier-2.

Charles' mouth curves into an arc. He wants to see the body of a newcomer flying back and then landing on the ground.

Sinag is looking at the scene. She knew what would happen next. Senior Charles would be disappointed. But she hopes that this won't trigger him more.

Ada is closely watching as well. She was surprised by the fact that Jeremy didn't use his Lifeline Beast. She hadn't seen someone fighting against corrupted beasts without the help of their lifeline beast.

Squeak!

The Salamander makes a threatening sound. It's tongue appears outside.

Jeremy continues to walk closer. He was waiting for the right opportunity to swing his katana. Under his eye ability, the lizard body was transparent.

His target was those blood vessels.

Swoosh!

The Ground Lizard leaps forward to attack. It happens so fast. The front claws are aiming at Jeremy's chest. If Jeremy doesn't evade, the claws will tear his chest apart.

At the same time, Jeremy side steps to avoid the attack. The sharp claws strike the mid air, missing the target.

Slash!

Jeremy swung his katana. The blade in his hand came in contact with the lizard's neck. The next second, the blade went inside smoothly before coming in contact with the blood vessels.

Puchak!

The blood vessels were severed. The torrent of blood gushes forth from the next moment.

Tud!

The Ground Lizard collapses on the ground. The main blood vessels were severed. It lost its mobility and balance.

Cut!

Jeremy then withdrew the blade before raising it again to attack. The blade went inside the remaining part completely before severing its head.

Tud!

The huge ground lizard rolls over the ground. The whole killing was done within minutes. There was no waste of time.

Jeremy didn't use his new blade technique as well. He thinks if he uses a new blade technique the lizard would be killed in one move.

But he doesn't want to expose his cards in front of others. He then sheathed his katana blade.

Jeremy then turned around and looked at the three. Senior Charles was left speechless. The scene he wanted to witness didn't happen.

Instead he saw something which shook him to the core. Then he began to recall the words of his team members.

Those who had witnessed newcomers' killing of Tier-4 Hybrid Corrupted beasts found it unbelievable.

Now he thinks that their words were not exaggerating at all. The newcomer does have strength to fight across ranks.

He then suppressed his shock and began walking towards Jeremy Night.

Ada and Sinag looked at each other before starting walking. Sinag wasn't surprised much. Because she had seen him killing Tier-4 hybrid beasts before.

Ada is feeling unreal. She feels as if it's a replay of the Tier-4 Hybrid Beast kill. It was over before she could realise. It happened like that day.

What more? She didn't see him using the Lifeline beast at all. Now she understood why? Because it was not needed in the first place.

Jeremy Night alone can take care of it. But she was curious to know what he would do? If he encounters horde of corrupted beasts.

Jeremy saw the shock and surprise in everyone's eyes.

Charles walks up to him. He looks at him from top to bottom.

"You did good. Let's continue with our journey," Charles said before walking forward.

He didn't show any aggression or other things. Sinag was surprised. But she still feels uneasy. Senior Charles could do something worse.

So she has decided to keep an eye on him.

Ada smiled at Jeremy Night. She was impressed with this junior.

Jeremy smiled in response to her. Then he saw worry in Sinag's eyes. He can guess what she is worried about.

"Don't worry," Jeremy said to her.

Sinag understood and nodded her head. Then the trio started following Charles who was fuming in his heart.

"Damn," He said in his heart.

A realization began to hit him. He thinks that it's impossible to make things difficult for Jeremy Night. Most importantly, he can't cross the line.

He knew that kid was specially recruited by Leader Gisela. If he does something bad to the kid, then he could face serious consequences.

Besides, those two girls had already seen him acting against that kid. For a second, he gave it a thought before deciding to stop it.

He has decided not to make things difficult for him. But if there is a situation, the decision could vary. For example, when encountering Tier-5 Corrupted beasts and above.

He won't be stupid enough to risk his life. A cold glint appeared in his eyes. Others don't know what's on his mind right.

On the other hand, Jeremy is chatting with others.

"What do you think happened to the Sand Bloom Team?" Sinag asked.

Hearing that Jeremy raised his eyebrows.

"We still don't know their mission details. What were they doing in the inner part of the wilderness in the first place?" He replied.

"Yes, the leader didn't say anything about it," Sinag said.

"Let's just do a simple rescue mission," She added.

Ada is listening to their conversation. At the same time, she is also keeping an eye on the surroundings.

Jeremy then began to use his eye ability as well. There were no other Beast Tamers and Corrupted Beast around them.

But he thinks it would change if they go closer towards the inner part of the wilderness. They could possibly come across the Tier-5 Corrupted beasts and above.

He didn't trust the person named Charles. He could do something again. So he is going to watch his own back like always.

Chapter 346: Part 6: Rescue mission

Wilderness:

The Team from the Sun Wheel Organisation have entered the wilderness. They are doing the same as Jeremy Night's team.

They don't know about the Shadow Moon Organisation's mission. So they are going to wait at some isolated spot near the route.

There are ten members in total. They were all Tier-3 Beast Tamers like Jeremy Night's Team. Not only that they were experienced Beast Tamers with powerful lifeline beasts.

...

Time passed,

Post noon, Jeremy and his team have crossed the central area of the outer wilderness. They still had a long way to go.

The Sand Bloom Team were stuck at the Inner Part of the wilderness.

Charles' expression was grave. He had thought that mission was going to be easy. If the Sand Bloom Team had lost communication on their way.

They should have met them by now. They have reached the Central part of the outer wilderness. But still there is no sign of them.

Charles begins to think something else has happened. But he didn't say anything to others.

Jeremy and others' expressions were changing as well. It's already post noon, they could face more beasts in the Central part.

If the night fell, their situation would turn even more dangerous. But there was no point in worrying now. They had decided to come here knowing the risk.

Ada didn't speak much. She is staying vigilant. After coming to the central part, there is no time for a few chats.

Everyone is paying attention to their surroundings. Including the Captain Sinag, she doesn't trust Senior Charles like Jeremy Night.

Rustle!

Just as they were moving forward on the path. Everyone hears a rustling sound. This sound indicates something or someone is moving nearby.

"Stop," Charles said.

Hearing that the trio stopped their footsteps. Jeremy uses his eye ability right away. He zoomed in to see whether any corrupted beasts is nearby.

Growl!

Jeremy then spotted the corrupted beast. It's a 5ft tall dog type corrupted beast. As he pays more attention to the details. He found out that the beast's eyes were reddened.

It was clearly bloodthirsty.

Sinag sees Jeremy's reaction. Ada saw as well. They followed his gaze towards the right side. They could only see the overgrown bushes and vegetation.

They couldn't see any corrupted beasts. Because it was not in their sight.

Charles turned around and was taken aback by their reaction. He is the Tier-4 Beast Tamer here and stronger than them.

Yet they were looking in some direction as if they found something. A hint of anger flashes in his eyes.

He regrets accepting the mission. Their actions were only infuriating him.

Growl!

Just as they were looking in that direction. A group of beasts walks out of the bushes.

"Hybrid Jackals," Charles uttered in a shock.

"Tier-4 Beast," Sinag uttered in a solemn tone.

Ada's face turned serious as well.

Only Jeremy Night was calm. Because he sees only Tier-4 Corrupted Beasts. There are no higher tier beasts among the group.

But he is not stupid. There could be stronger beasts nearby.

"Get ready to face it," Charles uttered.

It's time for him to show off. He is the Tier-4 Beast Tamer. He wanted to do it better than Jeremy Night.

"Let's kill it without using a lifeline beast," Charles said in his heart.

Because he had seen Jeremy Night not using his lifeline beast as well.

The armour suit that he is wearing is powerful. It can block the attack of Tier-4 Corrupted Beasts and Beast Tamers.

Swoosh!

The next second, he started charging towards the Hybrid Jackals.

Jeremy, Sinag and Ada were stunned. The appearance of the Tier-4 Hybrid Jackals has shocked them. If they are not careful, they could be killed by the group of Jackals.

Hum!

The next second, Sinag summons her lifeline beast. A beautiful green butterfly appears above her.

The beautiful butterfly sees Jeremy Night and Ada. It made a happy sound the next second

Hum!

"It's time for a fight," Sinag said to her Lifeline beast.

Hum!

The Beautiful Green butterfly made a sound before looking at the Tier-4 Jackals. The butterfly felt fear for a moment.

It's only advantage in this fight is that it can fly. So it can disturb them by using the sound attack from the mid air.

Jeremy Night's eyes flashes with surprise. Because he found that the green butterfly was quite intelligent. It has recognised him as an ally right away.

Then he sees Ada, wondering whether she is going to summon her lifeline beast or not.

Swoosh!

The next second, Ada summons her lifeline beast.

A black color 15 ft tall bear appeared beside her. It has razor sharp teeth with a powerful jaw. It has a strong bite force.

The claws of the beast were not ordinary. Those were strong as silver metals. But they were extremely sharp and they could cut through anything.

Jeremy was taken by surprise. He couldn't help but to observe more.

Boom!

The next second, a booming sound attracted his attention. He saw one of the Tier-4 Jackal Beasts fall down to the ground.

Charles is fighting using his fists.

Seeing that Jeremy doesn't know whether to laugh or cry.

"Is he courting death?" Jeremy asked in his heart.

He can tell that Charles is trying to kill the corrupted beasts like him.

Growl!

There are 8 jackal beasts. They saw the other three targets as well. Four of them dashed out towards the prey. The other four have surrounded Charles.

He could be alright if he summons his lifeline beast.

Jeremy stepped forward.

"You guys assist me from behind. I'll take care of the frontal attack," Jeremy said to them.

"Okay," Sinag said.

"Alright," Ada uttered.

Both of them knew about Jeremy Night's strength.

Growl!

Seeing the Jackals coming at him. Jeremy unsheathed his katana blade. He covers the blade with the starlight in the blink of an eye.

At the same time, he is using the eye ability to target their weak points. All he needed was the quick stab in their head to kill them in one blow.

Chapter 347: Part 7: Rescue mission

Wilderness:

One of the Jackals attacks Jeremy Night. The deadly jaw of the beast was close to him. He evades the front attack before swinging the blade.

Slash!

The katana blade cuts through the wind before slicing through the neck of the Jackal. The starlight energy felt no resistance. It easily cuts through the blood vessels.

Puchak!

The blood explodes from the wound. The Jackal's body staggered backwards. By using the opportunity, he swings his blade again.

This time the blade cuts through the remaining part of the neck. The decapitated head falls down to the ground the next moment.

Puchak!

The process was complete and smooth. It happened within minutes. The corpse dropped to the ground while blood gushed forth from the neck.

Jeremy didn't stop his attack. He charges forward to attack the remaining beasts.

Cut!

His blade dances in the air before stabbing the head of the second jackal. The jackal was caught off guard. Its Tier-4 defence crumbled under the starlight power.

The skull cracked before the brain was cut into pieces by the blade.

Puchak!

Blood burst out from the head and splattered on the ground. The second jackal died just like that.

Sinag and Ada stood in disbelief and shock. Even if they saw it beforehand, the scene was still shocking to them.

Jeremy hacked down the Tier-4 Corrupted Beasts, like he had done it.

"Attack!" Sinag said to her lifeline beast.

Hum!

The Green butterfly launches a sound attack.

Ada came to her senses as well. She said to her bear lifeline beast to protect them. But she thinks it's unnecessary.

Jeremy Night can take down the remaining beast before their help reaches him.

Meanwhile,

Charles manages to kill 2 Tier-4 Jackals by using his fists alone. But he had used his lifeline beast ability, which boosted his strength.

Still, there are two more Jackals left. They are trying to attack him from both sides.

Growl!

The 2 Jackals' eyes were reddened in anger. They were totally enraged because of their members' deaths.

Charles catches his breath for a second. It's been a long time since he has fought without the Lifeline beast. Then he glances at the team.

"What the f@ck?" He blurted out in surprise.

He saw 2 corpses of the Jackals. The newcomer is confronting the third Tier-4 Jackal. His pupils shrink.

If the newcomer can still fight like this, then what if he uses his lifeline beast? Charles broke out into a cold sweat.

He doesn't want the newcomer to score better than him. His gaze then turned towards the bloodthirsty jackals.

He uses his lifeline beast ability the next moment. His well-built muscles become bulkier again. His body rose taller by a few metres.

The iron armour suits exactly fit his new size.

Growl!

The 2 Jackals leapt towards him. Seeing that Charles charges forward to attack. He was determined to fight alone.

Meanwhile,

Puchak!

The Head of the 3rd Jackal rolls over the ground. The Green butterfly's sound attack came as timely help for him. The corpse dropped to the ground, staining the ground with red blood.

Jeremy's gaze then fell on the last jackal. The last jackal finally started to show fear. Then he sees Charles has 2 beasts left.

Seeing that he dashes forward to attack. The last Jackal is showing hesitation.

Sinag saw through this as well. She told her lifeline beast to use the sound attack again.

Hum!

The Green butterfly uses the sound attack targeting the Tier-4 Jackal. The sound attack reaches the target in the blink of an eye before stunning it for a few seconds.

Swoosh!

Jeremy uses the opportunity to get closer. When he appeared in front of the beast. He didn't hesitate to stab the Jackal's head with the blade tip.

Puchak!

The sharp, pointy end of the blade penetrates the head. Jeremy thrusts forward. The blade went further before cutting the brain.

Blood emerges like a torrent of water. Jeremy withdrew the katana before making sure the beast was dead. He then sheathed his blade and turned towards.

Charles had dealt with the 3rd Jackal. Now he is fighting against the 4th Jackal.

Seeing that his eyes flash with appreciation. He still underestimated the beast tamers of the 10th zone.

What more? He could clearly see that Charles's size is twice what it was before.

"Is this his lifeline beast ability?" Jeremy uttered.

Sinag and Ada looked at each other in disbelief. Their eyes flash with helplessness. From the beginning to the end, they only watched from behind.

Jeremy Night had killed the corrupted beasts without their help.

"Hum!"

The Green butterfly made a sound.

Hearing that Sinag smiled and said, "Yes, you helped him."

Growl!

The black bear made a sound. Hearing that Ada's face turned red.

"Don't worry big black. You will get to fight next time," Ada said before taking her lifeline beast into her mental zone.

Seeing that Sinag did the same as well. She took the green butterfly into her mental zone.

Both of them walk up to Jeremy Night.

Meanwhile, Charles manages to kill the last Jackal. He cracked a wide grin before stopping using his lifeline beast ability. His jacked body recovers to normal the next second.

Charles then turns around to look at his team. He was stunned again. He saw Jeremy Night watching him. Not only he, but also the two women were standing next to him.

He understood what happened. He was a bit late in eliminating the beasts.

Then he said, "Let's go, we have to find a safe spot next night."

Hearing that Jeremy shakes his head. He knows that guy still doesn't want to acknowledge him. But he doesn't care

Sinag showed a knowing smile on her face. Ada felt funny. She clearly sees that Jeremy Night's strength is stronger than Senior Charles's.

Then the trio started following Charles. As time passed, they got closer to the end of the outer part. If they continue at their current speed, they will soon reach the inner part of the wilderness.

Soon, they came across other Mercenary Teams who were returning from their journey. There are more than 6 groups that are returning.

Seeing that Jeremy's team stopped. Charles is looking at them. He thinks it would be best to get some information from them.

"You guys wait for me here." After saying that, Charles went to speak with them.

"What is he doing?" Ada asked.

"He is going to collect information. We still don't know the condition of the Sand Bloom Team. We are walking into the inner part of the wilderness without any clue," Sinag said with a serious expression on her face.

"We have already come across Tier-4 beasts. I don't know whether Tier-5 Corrupted beasts would appear next," Jeremy said next.

Hearing that, the faces of both of them changed drastically. It was one thing that they were worried about. It's hard for them to fight against the Tier-4 Corrupted Beast.

So there is no question of fighting against the Tier-5 Corrupted Beasts.

"Why have you guys become silent?" Jeremy asked.

Ada replied, "I'm thinking what were they doing in the inner part of the Wilderness? They were just Tier-3 Beast Tamers."

Jeremy raised his eyebrows in doubt.

"Nobody goes to the inner part of the wilderness unless it's necessary. Unfortunately, we don't have full information. We can only ask them in person," Sinag said.

While they were discussing, Charles was speaking with Beast Tamers from other organisations. Normally, they won't care. But upon seeing the badge of the Shadow Moon Organisation.

They became more respectful. They knew the Head of the Shadow Moon Organisation was a Tier-8 Beast Tamer. They were the backbone of their City.

So they have decided to cooperate. But they didn't know about the Sand Bloom Team. Charles asked about their return route.

Everyone followed the main route to return. But they didn't come across any Sand Bloom Team members. Charles sighed inwardly.

He then thanked them before turning towards the other Mercenaries. To be honest, he doesn't want to enter the Inner part of the Wilderness.

Because they can come across random Tier-5 Corrupted Beasts which could put the life of their entire team in danger.

But the 2nd Mercenary group didn't know about the Sand Bloom Team. They had completed their mission near the surrounding area of the inner part of the wilderness.

They didn't go deep to explore. Charles thanked them before turning towards the 3rd Team. Everyone showed respect upon seeing the badge of the Shadow Moon Organisation.

Their gazes also fell on the team. They spotted a newcomer with Tier-2 Strength. The lifeline beasts in their mental zone can confirm the strength of the opposite person.

So they were quite shocked. But some people knew the information.

They suspect the Tier-2 Beast Tamer could be the new member of the Shadow Moon Organisation.

They knew that his name was Jeremy Night who got famous recently. But they didn't dare to disturb them.

Chapter 348: The mission was aborted!

Wilderness:

Charles asked others about the Sand Bloom Team as well. But no one has seen them. Then he returns to the team with disappointment.

"No one has seen them. We don't have any other choice. We can only go to where their communication was last cut off," Charles said seriously.

Hearing that the faces of others change drastically. Because that place was in the inner part of the wilderness. They might have to face Tier-5 Beasts and above.

Jeremy frowned. He started to get nervous as well. It was one thing to face a Tier-4 Corrupted Beast and eliminate it. But when it comes to the Tier-5 Beasts and above.

It's a different game altogether. They have to think about their own survival in such situations.

He doesn't have enough confidence to deal with more than one Tier-5 Corrupted Beast.

"Why have you all become silent?" Charles asked.

"Is it all right to continue with the mission?" Ada asked the question all of a sudden.

Charles raised his eyebrows and asked, "What happened?"

"We have accepted the mission because of Leader Gisela. I doubt she would send us to the inner part of the wilderness alone," Ada said further.

Hearing that Charles couldn't refute. Because he is thinking the same as well. They have come this far because of their blind trust in their Leader Gisela.

Even Charles was the same. He didn't doubt her.

"Why don't we call her?"

"We are still in the outer part. The communication can be established," Sinag said this time.

"Good idea," Charles said.

Then he takes out top-grade equipment. It was a heavily built communication device. It was manufactured specially for the Beast Tamers.

If they find themselves lost in the wilderness, then this device can help them a lot.

Jeremy heard of this tech back in the 14th zone. But before he could graduate, he had come here.

Sinag and Ada stood vigilantly. They don't want any lifeline beast to attack them, right?

Seeing that Jeremy used his eye ability to observe the surroundings as well.

Charles saw that there was a signal. A bright smile appeared on his face.

He said, "There is a signal."

Sinag and Ada were quite relieved. They wanted to hear this exact word. Jeremy saw the device as well. He was quite interested in this device.

If he wants to do a solo mission in the inner part of the wilderness, it would be useful to him.

Charles then contacted Leader Gisela. The connection was established the next second.

"Leader, it's me. Charles," Charles said.

"What happened?"

"Did you guys encounter any trouble?" Gisela's voice sounded from the other end.

Phew!

Charles heaved a sigh of relief.

"Leader, we did encounter trouble." After saying that, Charles began to tell about their experience so far.

Sinag and Ada relaxed a lot now. Leader Gisela's voice gave them confidence.

Jeremy's eyes lit with surprise as well. Now he thinks a lot of their problems are going to be resolved right now.

About 10 minutes later,

"I spoke with the people of the Sand Bloom Organisation. Their team went to check out the unidentified beast's lair. In order not to alert their competitors, they had sent Tier-3 Beast Tamers as well."

"Just spent a night there. The next morning, the backup team from the 1st Squad will arrive there. If you guys want to return you can do it," Gisela said.

Hearing that everyone was shocked to the core. From the beginning, they were suspicious of the Sand Bloom Team. Now they know what's wrong.

"Leader, I'm coming back," Charles replied without hesitation. He doesn't think that the unidentified beast's lair is going to be safe.

If the team sent by Sand Bloom Organisation has suffered a tragedy, then he thinks their presence is not going to help them. Instead, they could find themselves in trouble.

"Okay, who else is coming back?" Gisela asked.

Sinag and Ada looked at each other. The mission was way beyond them. It's not a simple rescue mission anymore.

"Leader, Sinag and I are coming back as well," Ada said.

Charles wasn't surprised. Even he was scared. What could the Tier-3 Beast Tamers do? Then his gaze fell on the newcomer. His eyes condensed.

The next second, his mouth curves into an arc. He wanted to see what the newcomer would do.

"Alright, bring back Jeremy Night with you," Gisela said.

"But wait for the backup team to arrive," Gisela added.

The next second, Jeremy found everyone's gaze on him. He wanted to explore the place. But his strength is still not enough when facing Tier-5 beasts and above.

When facing any corrupted beasts, he wanted to be in absolute confidence.

Sigh!

"Okay, I'll go with you," Jeremy said with a sigh.

Charles smiled. The newcomer acted as he guessed.

Sinag and Ada sighed in relief as well. They know about Jeremy Night's strength. But they don't want him to take a risk.

The Tier-5 Corrupted Beasts are more dangerous. They are more intelligent and bloodthirsty.

"Good, if you guys encounter any danger, contact me again. There is no need for you guys to enter the inner part of the Wilderness."

"Just look for the safe spot there and wait for the back team to arrive the next morning," After saying that Gisela ended the call.

Charles turned off the device and put it inside his storage ring.

"Now we can be at ease. As long as we don't come across Tier-5 Beast and above then everything will be good," Charles said.

"Let's look for a good area. This place is used as a footpath by the beast tamers. The corrupted beasts could come at night in search of prey," He added.

Hearing that everyone agreed. Then they started to look for a safe spot.

Time passed,

When it was close to nighttime. The group was able to find a hidden spot. It was filled with dense vegetation and trees. They have decided to set up a tent here.

After confirming the place one more time, Charles, Ada and Sinag take out their equipment to set up a tent. Upon seeing them, Jeremy was stunned.

He didn't buy any equipment with him. He used to spend the night inside the cave structure during the wilderness trip. But there was no cave structure here.

It didn't take long for them to build tents. Three tents appeared of equal size. Only then did Sinag notice that Jeremy Night was standing, doing nothing.

"What happened to your tent?" Sinag asked.

Hearing that Ada turned towards Jeremy as well.

"I don't need a tent. I'm going to sleep openly near the firewood," Jeremy replied to them.

Hearing that both Ada and Sinag were stunned. They didn't expect such an answer from Jeremy. But they could understand. Jeremy Night was a first-year student at Central University.

There is no chance for him to spend time in the wilderness. Let alone the nighttime.

Charles asked, "Don't tell me you have never spent a night in the wilderness?"

He thinks the newcomer is Tier-2 Beast Tamer. He can't spend the night in the wilderness.

Jeremy Night could see doubt in their eyes. If they had learned about his activities in the 14th zone's wilderness, he wonders what their reaction would be.

He had even escaped from Tier-5 and Tier-6 Worm Beasts.

"Why have you become silent?" Charles asked again.

Jeremy looked at him but he didn't reply. He knows they are not going to believe his words.

Sinag stepped in by saying, "You can stay in my tent. I'm not going to sleep anyway."

Hearing that Jeremy was stunned. He shakes his head and says, "There is no need for that. I can take care of myself."

Ada said, "Let's join both of our tents. It could create more space."

Sinag replied, "Okay."

Then they started to work. Charles went inside his tent.

Jeremy Night continues to keep a watch.

...

Meanwhile,

The Mercenary Team sent by the Sun Wheel Organisation were continuing their journey. But they have yet to come across Shadow Moon Organisation's Beast Tamers.

Like any other Beast Tamers, they came across Tier-4 corrupted beasts as well. But they worked as a team to eliminate the beasts.

But they haven't encountered any group of Tier-4 Corrupted Beasts so far. Otherwise, they could have suffered casualties.

Not long after, they saw other returning Mercenary Teams. Upon seeing them, the Beast Tamers decided to collect news from them.

When they spoke with others. The Beast Tamers from other organisations were surprised. Just a few hours ago, they met with the Shadow Moon group.

Now the Sun Wheel group is asking about them. They understood that the Sun Wheel group was going to ambush them.

But these beast tamers are from the smaller organisation. They don't want to offend these people. Some people lied. But some were ready to share information.

It's not easy to make connections. They are willing to do it due to their own interest.

The Sun Wheel Organisation Beast Tamers got the news. They were quite happy. But the location of the Shadow Moon Organisation's Beast Tamers made them wary.

Chapter 349: Sudden turmoil!

Wilderness:

The Sun Wheel Organisation's Beast Tamers then decide to resume their journey the next morning. Since they knew the direction and purpose of the Shadow Moon Organisation's Beast Tamers.

They didn't feel any hurry to chase them down. At the same time, they don't want to meet with any danger during the nighttime.

Meanwhile,

As time passed, everyone decided to take turns for the night watch, and the rest of them could sleep. Jeremy agrees to do the night watch first.

He uses his eyes on the place. Charles was sleeping peacefully. Sinag and Ada have decided to stay awake earlier.

But they eventually started sleeping. Jeremy didn't disturb them. He is willing to stay awake all night. Because he doesn't trust Charles yet.

This person has shown him open hostility earlier. But he found out when it comes to the mission. He was serious earlier. He didn't show any signs of threat yet.

Still, Jeremy decides to stay careful. In one way, he was thankful that the mission was aborted. So many things are happening. They don't have full information on the Sand Bloom Team as well.

He thinks that those people have fooled Leader Gisela as well. But fortunately, she is sending back up a team made up of the 1st Squad members.

So they can go back with relief. If the Sand Bloom Team had indeed needed any help, then the 1st Squad would have helped them.

Rustle!

While he is thinking it over. A small rustling sound brought back his thoughts to reality. The sound was faint. Yet he feels something is wrong.

Then he uses his eye ability. His vision was better at night compared to other Beast Tamers. So he is looking for the corrupted beasts.

Finally, he sees a long body moving through the bushes and slowly approaching them. Seeing that his expression changes. If not for his eye ability, he would not have known.

"Let's see which Tier is the corrupted beast," Jeremy uttered.

As he continues to watch he sees the beast's body continue to move. He realises it was the snake-type corrupted beast. But the length of the snake beast caught him off guard.

Tap!

The next second, Sinag and Ada walk out of the tent. Then Charles stepped out next with a panic-stricken expression.

Jeremy raised his eyebrows in surprise. Then he thought of something, and his eyes flickered with an understanding.

"My butterfly says that there is a dangerous aura approaching us," Sinag said with a seriousness.

"It's the same with me. The lifeline beast felt a threatening aura," Ada replied.

Hearing that Jeremy finally turned towards Charles. From Charles' words, he can confirm whether the corrupted beast was Tier-4 or Tier-5.

Charles' face was pale. As if there is no blood circulation happening. But he was petrified. He then wipes off the cold sweat from his forehead.

Then he said, "It's a Tier-5 Beast ready to run."

"What?" Sinag blurted out in surprise.

Ada's eyes flashed with fear.

Jeremy was stunned. Then he sighs inwardly. Only his unknown lifeline beast didn't react. Because it was not threatened by anything.

Charles collected his thoughts. He abandoned the tent and started fleeing right away. Seeing that everyone was stunned.

"I was right," Jeremy said in his heart.

If Charles were doing night watch, he would have fled just like now. Then they would have become snacks for the Corrupted Beast.

The last good thing he felt about Charles has disappeared from his heart.

"Alright, if we run, then it would become difficult to survive," Jeremy said to Ada and Sinag.

Both of them were speechless. They didn't expect a Senior Beast Tamer from the 2nd Squad to ditch them.

"How dare he?" Ada asked.

"It's good that he was not doing night watch," Sinag said in a cold tone. She knew something was wrong with him. She was relaxed earlier because their mission was cancelled.

Now Charles had fled from the place leaving behind them. She was pissed off.

"The communication device is with him. How can we contact Leader Gisela?" Ada said.

Hearing that Jeremy and Ada were in trouble. He forgot about the communication device. He saw that Charles was fleeing. But it's difficult to catch him right now.

Because the snake is approaching the place. It increased pace right after Charles' actions.

"You guys keep an eye on the surroundings. I'm going to confront the beast," Jeremy said to them.

Both of their faces change. They wanted to help. But their strength is too weak.

"What are you doing?"

"Let's run. It could be a Tier-5 Beast or above," Sinag said.

Ada remained silent. She agrees with Jeremy's words. They can't outrun a possible Tier-5 or above corrupted beast at night.

The beast can easily catch up to them.

Jeremy didn't listen to her. He unsheathed his katana blade. He saw that the beast was a couple of hundred metres from him.

He begins to cover the katana blade with the starlight.

Seeing that Ada and Sinag hesitated. But they retreated and decided to make a safe distance for Jeremy Night to fight. But both of them were shaking right now.

They couldn't even fight against a Tier-4 Corrupted Beast. So fighting against the Tier-5 beast and above is an unimaginable task for them.

Swoosh!

A 60-foot-long snake beast appears. It's moving in a zig-zag manner. Upon seeing the beast, Jeremy's eyes flashed with relief.

Because it was not a Tier-6 or above beast. It's a Tier-5 Corrupted Beast. If it raises its head, then it will become taller than humans.

Jeremy stood in its way. The Snake beast saw the prey as well. It sensed that one of the prey had slipped away earlier. Now there are three foods. But one of them was standing in its way.

Hiss!

The snake beast hissed. It decides to swallow the human food as a whole. It started charging towards the human prey.

Sinag and Ada were watching with a fearful expression on their faces. They were so scared that they didn't dare to communicate with their lifeline beasts.

Because their own lifeline beasts were scared right now.

Swoosh!

On the other hand, Jeremy uses his eye ability. He zoomed into the beast's body. At the same time, his Supreme Combat Talent came into play. His senses were increased.

The snake beast's body becomes slow under his eyes. He can tell that the snake beast's entire gaze is set on him. It wanted to devour him.

Jeremy's eyes turned cold. He raises his katana forward. When the snake beast was about to hit him. He side-stepped to avoid the frontal attack.

Swoosh!

At the same time, he swings his blade horizontally. The blade came into contact with the skin of the snake beast.

Spark!

It immediately creates sparks. The starlight energy blade was able to leave behind only a horizontal scar. The blade fails to penetrate inside the skin.

Jeremy's expression changed. But he was not surprised. That's why he never wanted to fight against Tier-5 beasts and above.

His abilities and strength were not strong enough to kill the Tier-5 beast in a couple of moves.

Gasp!

Both Sinag and Ada exclaimed in shock and surprise. Because they saw that Jeremy Night was fearless when facing the Tier-5 Snake beast.

He is dealing with the Tier-5 Beast like he did with the Tier-4 Beast. But the problem here is the Tier-5 Beast. It's stronger than the Tier-4 Beast.

They also saw Jeremy's blade attack fail to create any damage. It was only able to leave behind some sparks. Now their fear has increased.

They had thought Jeremy Night could pull up a miracle. But he was only trying his best.

"We should help him," Ada said all of a sudden.

"How?" Sinag asked.

They were both weak. In this situation, they can't help Jeremy Night. They might become a hindrance.

Suddenly, Sinag thought of something, and her expression changed. She feels confident right now.

"There is a way!" Sinag uttered.

"What?" Ada asked her.

"We can use the explosives. Leader Gisela gave the explosives to use in an emergency situation. We can do that now," Sinag explained.

Hearing that, Ada realises that they still have a trump card. They can use that. Then she thought of Charles.

She smiled and said, "That fool forgot about the trump card in panic."

Hearing that Sinag shakes her head.

She said, "It's not time to make a joke. Let's help Jeremy."

On the other hand, the Tier-5 Snake missed the target. It turns around in no time to strike the target. Jeremy, with his superior senses and eyesight, was able to evade the attack again.

But during the process, he was able to overhear their conversation. His eyes gleamed with a twinkle.

"Yes, there were explosives given by the Leader Gisela," He thought.

"Don't use it now. I still want to try my best," Jeremy said in a loud tone.

Hearing that both Sinag and Ada became speechless. They felt they had heard something wrong.

Chapter 350: Explosives!

Wilderness:

Jeremy is ready to take on the beast again. He was not joking when he said those words to them. He retreated a couple of steps backwards to create more space.

Ada and Sinag have also gone a few steps backwards. They realised that Jeremy was serious. He was not making any jokes.

But they don't know how he is going to kill the snake beast.

"We should not be careless."

"Let's watch it closely. If he faces any life-threatening situation, then we should use it," Sinag said to Ada.

She is not going to let Jeremy Night take a serious risk. Because she is the Captain of the 3rd Squad. Jeremy Night is a member of her team.

It's her responsibility to assess the risks.

"Okay," Ada replied.

Then both of their gazes turned towards Jeremy Night. They are watching him with a serious expression.

Hiss!

The snake beast hissed. It has missed the target again. Now it has become serious. It started to take the target as a serious threat.

In this situation, it won't hold back any strength. It leapt forward the next moment.

Swoosh!

Its body shrinks and expands like a spring before darting towards the target.

On the other hand, Jeremy felt a sense of crisis. The threat was real. If he makes any mistake, then he might die here.

But he quickly cools down his head and heart before starting to cover the katana blade with the starlight energy.

His senses were heightened. Just before the snake beast could collide with him, he moved. Under his senses, the beast's movements appear to be slow.

Yet for others, it's still breakneck speed.

Stab!

Jeremy thrusts the katana blade forward within a fraction of a second. His target was the right eye of the snake beast.

His blade went straight into the right eye of the snake. It's the weakest part of the entire Tier-5 Snake body.

Puchak!

The stab caused the torrent of blood to burst forth. The Tier-5 Snake beast got amazingly relaxed. It immediately swings its tail to attack.

Jeremy's heart stirred. He withdrew the katana and brought forward the flat side of the blade to block the incoming attack.

Boom!

The snake's tail struck him the next moment. With a loud booming sound, the body flung backwards.

Like a projectile, he is flying backwards.

Gasp!

Ada and Sinag exclaimed in shock and surprise. Their eyes were wide open in disbelief. For a second they don't know what's happening around them.

It took a few seconds for them to realise what had happened here. Jeremy Night was able to injure one of the eyes.

Boom!

The next moment, they heard another booming sound. They saw Jeremy Night crashing into the ground.

"Take out the explosives," Sinag urged Ada.

Ada recovered her thoughts. She takes out the explosives from her storage ring.

Sinag did the same. Because they saw the Tier-5 Snake beast targeting Jeremy Night.

Swoosh!

Sinag brought her lifeline beast outside.

Hum!

The Green butterfly makes a humming sound. It's scary to face the Tier-5 Corrupted Snake beast.

"Don't be scared. Just drop the explosives on the snake beast," Sinag said to her.

Hum!

Hearing that the Green butterfly agrees to do it from the sky.

Sinag received one explosive from Ada. She then turned on the two explosive devices and gave them to the Green butterfly.

Hum!

The Green butterfly grabs the explosives and starts moving towards the snake beast. The Green butterfly is actually scared.

Since it's going to fight in mid-air. It has a chance to survive.

On the other hand, Jeremy felt the armour suit was broken. Just before he could assess the situation. He felt the sense of crisis again.

From his eyes, he sees that the snake beast is coming towards him. Seeing that he tries to get up from the ground. But he is experiencing the tearing pain the next moment.

The brute force hurt him. If he doesn't move now, he might get attacked by another brute force hit. Just as he tries to move his body, he hears a humming sound.

It's the sound of the Green butterfly. Seeing that Jeremy was surprised. But what caught his attention was those explosives.

He understood that the butterfly was going to drop those things.

Boom!

When the snake beast's attack was about to land on him. He used full force to move his body away. The next second, the snake beast's humongous body struck the ground.

The next second, the dust rose above the ground. It blocked the vision of the snake beast.

At the same time, Jeremy is rolling sideways to save himself. This all happened within minutes.

On the other hand, the green butterfly got the signal from Sinag.

Swoosh!

It dropped those two explosives on the head of the snake beast.

Seeing that Jeremy stood up with great difficulty to escape from the impact.

The Tier-5 Snake saw the green butterfly. It hissed in a response. But right before its eyes. The two explosives struck its head.

Boom!

A huge explosion occurs. The Tier-5 Snake was caught up in the explosion. Its huge body is shredded into pieces. The blood and organ mixed parts were splattered across the ground.

Smash!

The impact force struck Jeremy Night. Once again he was thrown off. His body smashes into the ground a hundred metres away.

The armour suit suffered further damage. With dents in my place.

Puchak!

I coughed up blood inside the headgear. My chest and bones were hurting. I can't remember the last time I suffered this much.

Sinag and Ada looked at each other in relief.

Hum!

The Green butterfly made a happy sound. The threat it was facing has disappeared. It happily flies back to Sinag.

Sinag then took the lifeline beast back into her mental zone. Ada let out a sigh of relief. For a second, she lost strength in her legs.

Fortunately, the Green butterfly dropped the explosives at the right time. Now there is no sign of the Tier-5 Snake beast left on the ground.

When the aftermath had settled down. Both of them looked at each other.

"Where is Jeremy?" Sinag asked.

Hearing that, Ada realised that Jeremy had been thrown away by the impact force.

Sinag realised this as well.

"Let's go," She said.

Both of them rushed towards the spot where Jeremy Night had fallen to the ground.

On the other hand, Jeremy is experiencing terrific pain in his body. He is trying to find support nearby. He hadn't felt this much pain before.

He thinks he needs treatment right now. But it was not possible anytime soon. For that, he needed to go back to the City.

But he notices there is one good thing happening. The breathing method that he is practising is the inner healing method.

The healing energy hidden inside his cells was now being activated. They are healing the injured areas. So amidst the tearing pain. He is feeling quite warm as well.

Tap! Tap!

Just as he was thinking over it. He hears footsteps. Jeremy raised his head and saw the footsteps coming from Sinag and Ada.

A hint of relief flashes in his eyes.

"Jeremy!"

Sinag called out. In a flash, both of them arrived at his side. They saw how bad Jeremy's condition was.

"Are you alright?" Sinag asked in worry.

Ada saw the condition of Jeremy Night. She felt it was serious. The armour suit of Jeremy Night was extremely damaged.

"Remove your armour suit. I have an emergency kit with me," Sinag said.

"I'll help you," Ada said.

"There is no need. I'll remove my armour myself," Jeremy said to them.

Then he removed his headgear with difficulty. The next second, he took a breath of fresh air. He then stood up and began to remove other parts.

A few minutes later,

When the whole armour suit was removed. Jeremy felt a huge weight lifted off his shoulders. He feels a lot more light weighted right now.

Tud!

Then he looks at the armour suit parts on his right side. It looked completely unrecognisable.

"How is your body?" Sinag asked.

Hearing that Jeremy pays attention to his body. His uniform clothes have covered his bruises.

He shook his head and said, "There is no immediate danger to my life. I can move around."

Sinag's eyes flash with a complex glint. She didn't expect Jeremy Night to take such a risk. He was so close to death.

Fortunately, they had the explosives to save their life.

Ada doesn't know what to say. But she was impressed with Jeremy Night who was younger than them. As a Tier-3 Beast Tamer, they were afraid to face the Tier-5 beast.

But Jeremy Night had not only confronted the Corrupted beasts. But he was able to injure one of its eyes.

Jeremy feels that the healing energy is working perfectly. It's because of the healing energy that he was able to move his body.

Now he feels glad that he has selected this breathing method.
