

STRIKER 351

Chapter 351: Red Salamander

Wilderness:

As time passes, Jeremy continues to pay attention to his body. He forgot about the outside world.

Meanwhile,

Sinag and Ada were paying attention to the surroundings. They had escaped from one danger. But the crisis was not over.

They could come across other Tier-5 Corrupted beasts. So they must keep an eye on the surroundings.

Sinag then thought of something and said, "Why don't we spend the night here?"

"Jeremy Night is still injured. He needed rest right now," She added.

Hearing that Ada agrees with her. She doesn't want to face more danger. Only Jeremy the Night can confront the Tier-5 Corrupted Beast.

They needed Jeremy Night's help for their survival as well. If the explosives run out, then no one would be able to save them.

Meanwhile,

Charles was able to find a spot to rest. He was running nonstop earlier.

After confirming that there was no threat around them, he began to rest. The spot has small bedrock. He was resting at its foot.

While resting, he couldn't help but recall the events.

"That was a Tier-5 Snake beast," Charles said in his heart.

At that time, he fled without turning back. Now he has started to think about others. He doesn't know whether they have survived or not.

"Leader Gisela won't let me go," He uttered.

Now he was stuck. He didn't know what to do. He doesn't think others are alive. He had assumed that the Tier-5 Corrupted Beast had killed others.

After giving some thought, he had decided to visit the nearby human settlements. Once he reaches the place, he will decide what to do next.

He then puts some sensor devices around him before going to sleep.

On the other hand, Jeremy knows what's going on outside. After some time, he told Sinag and Ada to sleep.

Both of their tents were not far from here. So they both went back to bring their tents.

About 20 minutes later,

They found another safe spot before arranging the tents. Both the female beast tamers went inside to sleep.

Jeremy opened his eyes and started to pay attention to the surroundings. He was glad that they used their explosives at the right time.

Time passed,

The next morning, Sinag and Ada walked out of the tent. They saw that Jeremy Night was still awake. They realised that both had deep sleep.

They had failed to keep night watch. The next second, they apologised to him.

But Jeremy Night doesn't care. He said, "It's time to leave. We should be returning to the city before nighttime."

Hearing that Ada and Sinag nodded their heads. They thought that Jeremy Night needed treatment.

About 30 minutes later,

After packing their things, they have started their journey. Fortunately, they didn't come across any other beasts last night.

Because of it, their energy is at its peak right now.

As time passed, they continued to walk on the path. From time to time, they came across corrupted beasts. But they were all Tier-2 Beasts.

Three of them didn't waste their energy fighting against them. Upon sensing their strength, the Tier-2 Corrupted Beasts fled in fear.

While walking, Jeremy continuously practised the inner healing breathing method. The inner healing method has special healing energy, which can heal internal wounds.

Because of it, his complexion improves as time passes.

But Sinag and Ada don't know about it. They were surprised how Jeremy Night is doing this.

Rustle!

At this moment, Jeremy's eyes spotted the corrupted beasts hiding behind the bushes. He was sure that those beasts were bigger.

He was sure that there were no Tier-3 Corrupted Beasts of that size. He then pauses his footsteps all of a sudden.

Seeing that Sinag and Ada were taken aback. They saw that Jeremy's expression was serious.

"What happened?" Sinag asked.

Jeremy pointed his fingers towards the direction of the bushes. Then they turned towards the bushes as well. They could only see the shape of the beasts.

But they were not sure what type of corrupted beast it was.

But Jeremy was able to see clearly because of his eyesight. It's a six-legged hybrid salamander. What more? He found out that corrupted beasts appear to be larger and stronger than the Tier-4 beasts.

"It's a Tier-5 Corrupted Beast," Jeremy took a deep breath.

They had faced a Tier-5 Corrupted Beast last night. It had almost beaten him to death. Finally, they had to use those explosives to kill it.

Now, there is another one hiding nearby. Any sudden movement could cause the beast to appear. Jeremy doesn't know what to do.

Sinag and Ada were clueless. But if they saw the beast they would be frozen in fear.

Swoosh!

A red salamander rushes out of the bushes. The humongous size startles everyone. Seeing the beast of at least 50 feet tall.

Jeremy confirms that it's a Tier-5 Corrupted Beast. He glances at the female beast tamers behind him. He saw them petrified on the spot.

Seeing that he sighs inside. But he knows it's time to be calm and collected.

The Red salamander was observing them. If it wanted to act, it would have done so already. Instead, the red beast is still cautiously looking at them.

The Red Salamander suddenly senses something before disappearing into the wilderness.

This scene has further scared them. Jeremy's expression turned grave. It's one thing if the Tier-5 Beast confronts them.

If it's not, then there must be some reason.

"It's gone," Sinag said after some difficulty.

Ada came back to her senses as well.

"We should leave this place ASAP. Let's run," Jeremy said to them.

Sinag and Ada started to run as if they were running for their lives. Jeremy is running alongside them. So far, he hadn't seen anything through his eyesight.

But he doesn't want to take any chances. Who knows? Could these be Tier-6 beasts coming?

Time passed,

They were running non-stop for more than an hour. Yet there were no other corrupted beasts following them from behind.

Jeremy uses his eyes to confirm the situation.

"Stop!"

Jeremy said to them.

Sinag and Ada stopped running. As Tier-3 Beast Tamers, they can still run non-stop for another hour. But their hearts are filled with fear.

They worried that something worse than Tier-5 Beast could appear.

"There are no other threats. We can relax," Jeremy said with a smile.

Seeing that Jeremy was relaxing. Both the female beast tamers let out a sigh of relief.

Sinag then sees a huge shade tree not far away from them. She decides to take a rest under the tree. She then tells them about it.

Hearing that Jeremy hesitated. They were almost close to the Central part of the outer part of the wilderness.

Once they leave the central part, they can return to the outer part. Then there would be no danger.

"What are you thinking?" Sinag asked.

Jeremy shakes his head and says, "It's nothing. Let's just take a rest under the tree."

Then three of them went to a shade tree. Jeremy uses his eyes to check the place again. He found out that the place was fine.

Sinag and Ada found a small bedrock to sit down on. Both of them were in their armour suits. Jeremy was the only one without one.

But he feels lighter. It's just the pain that's making him uncomfortable.

"What was that?"

"Why didn't it attack us?" Ada asked all of a sudden.

She was still in shock. The Red Salamander was so close to them at that time. If it had attacked, they don't know what the situation would look like.

Jeremy raised his eyebrows. Even he was confused about that. He had thought that the beast had fled because of some other powerful beasts.

Now he realises there are other reasons. Jeremy then saw Sinag who appears to be in deep thought.

"Captain Sinag, what are you thinking?" He asked.

Hearing that Ada turned towards her as well. She knows her reaction. If she had this deep thinking, then she must have found something suspicious.

Sinag raises her head and looks at them.

She said, "I guess you are new to the 10th zone. So perhaps you didn't know?"

"That Red Salamander was not an ordinary Tier-5 Corrupted Beast. It has bright red patterns all over its body."

"I guess it's one of those kinds," She added.

"One of those kinds?" Jeremy uttered in doubt.

Ada's eyes flickered with understanding.

She said, "Do you think only Beast Tamers got talent?"

Jeremy's expression changes. It's not like he didn't know. He had escaped from the clutches of Tier-5 and Tier-6 Corrupted Beasts before.

It's just the talent thing that didn't cross his mind so far. Now that she has mentioned it. He, too, thinks that Red Salamander was different from other Tier-5 Corrupted Beasts.

Suddenly, he thought of something.

"Could it be?"

"Is it possible that it's a lifeline beast?" Jeremy asked.

Hearing that Sinag nodded her head seriously.

"Which explains why it didn't attack us?" Ada uttered.

Jeremy once again uses his eyes to observe the surroundings.

Chapter 352: Part 1: Up against the Sun Wheel Organisation Team

From MC's Perspective:

Wilderness,

As time passes three of them continue to take rest under the shade tree. Jeremy is paying attention to their surroundings.

Suddenly, he thought of something before taking out the explosive device from his storage ring. Then he gave it to Sinag.

Sinag was surprised. Before she could ask anything.

"Keep it, I don't need it," Jeremy said.

Hearing that Sinag accepted it.

Time passed,

They continued to pay attention and took rest at the same time. There were no signs of other beast tamers. They were worried that the Tier-5 Red Salamander belonged to the Beast Tamer.

But no one has come so far.

"It's weird," Jeremy thought.

The sight of Red Salamander didn't disappear from his mind.

After resting for one hour, they have decided to resume their journey. Sinag and Ada eventually forgot about the Red Salamander thing and started to pay attention to the road.

As time passed, they were getting closer to the outer part of the wilderness.

Suddenly, Jeremy saw something in the distance. He used his eyes to confirm the situation.

He sees a group of beast tamers coming in their direction. Seeing that he stopped his footsteps.

It was seen by Sinag and Ada. They got quickly alerted.

"What happened now?" Sianag asked.

She felt Jeremy was acting the same again. Last time, they came across Red Salamander. This time they don't know what's going to happen.

Ada began to observe the surroundings.

At the same time, Jeremy wanted to know the organisation of the Beast Tamer. But when his gaze fell on the badge on their armour suit.

His expression changes. He didn't expect the Beast Tamers from that organisation.

Jeremy turned around and looked at Sinag and Ada.

"Beast Tamers are coming ahead. They are from the Sun Wheel Organisation," Jeremy said to them.

Hearing that they were taken aback.

"Beast Tamers, I don't see anyone," Ada said.

"Wait for a minute," Jeremy replied.

Sinag and Ada were confused. But they have decided to wait. After one minute, they saw a team of 10 Beast Tamers coming in their direction.

Sinag and Ada were both shocked.

"Your eyesight is better than ours," Ada said with envy.

She started to realise that the new junior has more ability than he shows.

"No wonder you were able to spot the Red Salamander earlier," Sinag said with a smile.

Jeremy's mouth twitches. He thinks that they have yet to see their badges.

Shortly afterwards,

The smile on both of their faces disappears. They saw the badge of the Sun Wheel Organisation on their armour suits.

"It's them," Sinag said in a serious tone.

Ada's expression turned grave as well. They had escaped from one danger last night. Now they encountered another one.

As they got closer, Jeremy didn't feel any sense of crisis from them. He thinks they are Tier-3 Beast Tamers.

He hadn't heard anyone hiring Tier-2 Beast Tamers. He was the first one.

When they got closer. Their appearance becomes visible and clear. The leading man was a middle-aged man. He was the one who was walking in front.

"Ha..Ha..Ha.." the middle-aged man let out a laugh.

His name was Rodie. He is middle-aged and 7ft tall. His skin tone is tan.

Upon seeing the target, he couldn't stop smiling.

"I told you, my red salamander found them," he turned around and said to his other 9 teammates.

They were smiling as well. They had thought their mission would require them to enter the Inner part of the wilderness.

They have been delaying their journey. Their Captain Rodie had sent his lifeline beast to explore. It was a Red Salamander.

It had seen the Shadow Moon Organisation's badges on the Beast Tamers before returning to their camp. Now they were here because of it.

On the other hand, these words fell on the ears of Jeremy Night and others like a thunderclap.

The worst thing has happened to them. They had suspected it to be the lifeline beast but they never thought it was the lifeline beast of the Beast Tamer from the Sun Wheel Organisation.

"He is bluffing!"

" What we saw was a Tier-5 Beast? Remember?" Jeremy said to Sinag and Ada.

Hearing that Sinag and Ada agreed. They thought it must be some other salamander beast.

Trio confirmed that the people in front of them were Tier-3 Beast Tamers.

Sinag and Ada's gaze turned towards Jeremy Night. He was injured fighting against the Tier-5 Snake. These Tier-3 Beast Tamers were simply no match for him.

Rodie asked, "Who is going to fight then?"

Hearing that one of the warriors stepped forward.

"I'll take care of Tier-2 Beast Tamer," A middle-aged man said.

Hearing that Rodie agrees. At this time, they were able to see the strength of the trio as well. They believe that it's going to be an easy task.

The middle-aged man, without summoning his lifeline beast, started walking towards the Tier-2 Beast Tamer.

Seeing that Jeremy was surprised. He thinks that the middle-aged man was too confident. He was not bringing out his lifeline beast.

Sinag and Ada backed away a little.

Seeing that Rodie smiled and said, "You guys are going nowhere. It's a pity that such a talented kid has joined your dumb organisation."

"He is going to lose his life for nothing," he added.

He thinks that a Tier-2 Beast Tamer is going to be slaughtered by the middle-aged man whose name is Reef.

"Reef, kill that kid in one blow. I want to see the terror on the ladies' face," Rodie said.

Hearing that, the other 8 Beast Tamers smiled. They were standing carelessly without defence. They were thinking the mission was going to end now.

They have come here with this many people for nothing. But they had done it as a precautionary measure.

They were worried that the Sand Blood Team might assist the Beast Tamers of the Shadow Moon Organisation.

But they were nowhere to be seen right now.

Meanwhile,

Sinag and Ada were not worried at all. They have already predicted the outcome.

It's just that they don't know how many moves it would take for Jeremy Night in his injured state to kill him.

Chapter 353: Part 2: Up against the Sun Wheel Organisation Team

From MC's Perspective:

Wilderness,

A few seconds later,

Reef is taking smaller steps. He is not in a hurry at all. He wanted to see the panic on the face of the newcomer.

He hadn't expected the opportunity to come for him to slay a talented Beast Tamer.

"It's a pity. But I can't let you live," Reef said.

Hearing that Jeremy simply smiled. He never expected this day would come sooner. He had thought that they would cross paths someday, but not today.

Both of us are standing face to face against each other.

Reef thought the newcomer was frozen in fear. He raises his hand to punch forward. He is aiming for the good and young face of the kid.

Cut!

At the same time, Jeremy quickly unsheathes his katana blade and swings it casually.

Puchak!

Reef only felt something flash before him. The blade slits his throat in a fraction second. A torrent of blood emerges forth the next moment.

Reef touched his neck with disbelief. His face was written with horror. He wanted to say something. But he fell to the ground the next moment.

His body is lying in a pool of his own blood.

Gulp!

The Sun Wheel Organisation Beast Tamers gulped their saliva in fear and shock. Their team member was slain before their eyes. But they stood watching it.

"Reef," Rodie uttered in disbelief.

He hadn't expected his team member to die before his eyes.

Swoosh!

He looks at the Tier-2 Beast Tamer. He got angry. The next second, he summons his lifeline beast.

A Tier-5 Red Salamander appears in front of him. It's the same salamander which had appeared before them earlier.

"Impossible," Jeremy uttered.

Sinag and Ada were in disbelief as well.

Seeing the trio's reaction. A satisfied grin appears on the face of Rodie.

Now, the trio can confirm that it was them all along. The Tier-5 Salamander was the lifeline beast of Rodie.

Sinag and Ada knew about the Sun Wheel Organisation's Beast Tamers. They had especially heard about the 3rd Squad Team.

They had read intel that 3rd Squad Captain has a Salamander type lifeline beast. But it's the first time both of them are facing it right now.

But they never expected it was a Tier-5 Lifeline beast.

Then Sinag seemed to recall something. It was rare for a Beast Tamer to have a lifeline beast above the Beast Tamer's Tier. But it was not an impossible thing.

"Jeremy, sometimes Beast Tamer's Talent can allow them to bond with the higher tier beast," She said to Jeremy.

A look of understanding dawned on Jeremy's face.

Ada too realises that. Her face was relaxed a lot. She didn't know what was going on for a second.

"You guys were too late to figure it out. Yes, my A- Grade Talent has allowed me to have a higher tier lifeline beast," Rodie said with immense anger.

He was regretting a little. He should have brought his Lifeline beast earlier.

Now he has lost one of his members. Then he orders his Lifeline beast to task the head of the newcomer.

Rosie's words woke up Jeremy Night. He had never expected to see such a talent in Beast Tamer.

"You guys take care of others. I'll deal with the Red Salamander," Jeremy said to Sinag and Ada.

Swoosh!

The Red Salamander darted out to attack the target.

Sinag and Ada retreated backwards. They can deal with the rest of them. They were confident. They couldn't help Jeremy earlier. Now they have decided to do it.

Sinag recalls that Jeremy had given explosive device. She can use desperate moments to save themselves.

Ada is aware of this as well. So she moved backwards along with Ada.

Swoosh!

Seeing that Tier-5 Salamander is after him. He retreats backward to create space for their fight.

Rodie smirked. He thinks that newcomer is going to die at the hands of his Lifeline beast.

So he ignored and started paying attention to the female beast tamers. Upon seeing them, his eyes flashed with a lust.

He thought it would be a waste to kill them and dispose of their corpses. He wanted to enjoy it before doing that.

He then turned towards the 8 Beast Tamers behind him.

"You guys chase the two of them down. Don't kill them. Just capture them and tie their hands," Rodie said to them.

The Beast Tamers understood what's going on. But they don't want to disobey their Captain's words. In one way, the Tier-5 Salamander had also scared them.

Swoosh!

The next second, the eight of them rushed out towards the female beast tamers.

Rodie stays behind. Because his lifeline beast was about to kill the Tier-2 Beast Tamer. He plans to follow them after killing the newcomer.

Red Salamander got closer to the target. At the same time, Jeremy sees that others have left. Only their leader has stayed behind.

"Is he dumb?" Jeremy thought.

Because one of the ways to kill the lifeline beast was to kill its Beast Tamer. If it was a Tier-5 Corrupted Beast, he would have been afraid.

But not the Tier -5 lifeline beast. What more? This moron didn't leave using the opportunity. Instead he stayed behind to watch the fun.

Swoosh!

Just as the Red Salamander's poisonous tongue about to hit him. He moved away from the spot.

Boom!

The tonguer struck the empty ground with a great force. The dust rose from the ground the next moment. The strike left behind a small pit.

Jeremy retreated backwards. His eyes flashed with fear. Because he was not wearing the armour suit right now. So the tongue attack would have torn his body apart.

"Ha...Ha...Ha..., You can't escape," Rodie said with a laugh.

Jeremy's eyes flickered. Obviously, his target was Rodie. If he kills Rodie then the Red Salamander would eventually die.

But Rodie didn't have any idea about this. He has immense confidence in his Tier-5 Lifeline Beast.

Just one hit from the Red Salamander would be enough. The newcomer would be dead.

Chapter 354: Sun Wheel Organisation Team Eliminated!

Wilderness:

Boom!

The Red Salamander's tongue struck the empty ground once again. Jeremy is moving away from the beast. His real target was Rodie.

He is looking for a perfect opportunity to take him down. He uses his eyes to assist in fighting.

A deep pit once appeared on the ground. The Tier-5 Red Salamander was intelligent. It felt that the target was not intending to confront head-on. Instead, it's going backwards.

Swoosh!

The huge salamander bolted out towards Jeremy Night again.

As time passes, Jeremy uses his eye ability and senses to evade the attacks continuously. Each time he evades the attack at the last moment.

He is not giving any chances to the beast to respond.

Boom!

One deep pit after another appears on the ground.

Meanwhile,

Sinag and Ada were fighting against the 8 Tier-3 Beast Tamers. Each deals with the four Beast Tamers. Unfortunately, they are being pushed to the defensive position.

The Beast Tamers were not intended to kill them right away. Both Sinag and Ada understood what was going on. These Beast Tamers were merely trying to capture them.

It angered them. They are just waiting for Jeremy Night to return and deal with others.

Hum!

The Green butterfly has started getting injuries. The Black Bear was no different. Its forearms were bleeding.

Both the lifeline beasts are dealing with 8 other lifeline beasts. It's already great for them to survive so far. It's because the green butterfly can fly.

It's evading most of the attacks. The Black Bear managed so far because of its brute strength.

Time passed,

Jeremy found that the patience of the Tier-5 Red Salamander is running out. He is also feeling exhausted. He is doing this to let down the guard of Rodie.

"Harumph!"

"You are wasting time. Once you took a small misstep. My lifeline beast will take your life." After saying that, he started to walk towards others.

He thinks that the remaining members are taking too much time to capture the two female beast tamers.

So he has decided to help them. But he didn't know it was going to be his biggest mistake. Just as he starts walking, Jeremy sees him.

His eyes flickered. He was waiting for this exact opportunity.

Boom!

He evades the attack of the salamander once again. He took a few steps backwards before taking out the handgun. He started to cover the starlight with the bullets.

Once he was done. He raised his hand and pointed towards Rodie who was walking away.

The Tier-5 Red Salamander felt something was wrong. But it was too late.

Bang!

Jeremy fired a continuous shot at Rodie. The Starlight bullets pierced through the air. In a flash, the bullets go through the body of Rodie one after another.

The last bullet pierced through the head of Rodie. Rodie's eyes were filled with confusion. But he dies without knowing anything.

Punchak!

Blood gushes forth from Rodie's body as he falls to the ground.

Click!

The next second, the Tier-5 Red Salamander dies by spewing a mouthful of blood. The contract seal in the Red Salamander beast's mind was broken. The death of the beast tamer cost its life.

Phew!

Jeremy heaved a sigh of relief. He was able to kill them in the end. But it took a lot more time than he thought.

Swoosh!

Jeremy then rushes out towards others. While running, he put the handgun back in the case. Next, he brings out the sword and holds it tightly in his hand.

The rest of them are Tier-3 Beast Tamers. He can deal with them easily.

Shortly afterwards,

He rushes to the spot. He saw that both Sinag and Ada were surrounded by the 8 Tier-3 Beast Tamers. Their lifeline beasts were nowhere to be seen.

On the other hand, Sinag and Ada spotted Jeremy Night. Their eyes flashed with relief. Sinag was about to use the explosive given by Jeremy Night.

Fortunately, he was here before she could activate it.

The 8 Sun Wheel Organisation Beast Tamers saw Jeremy Night as well. But they petrified on the spot. They don't know how Tier-2 Beast Tamer was able to come here.

More importantly, they are curious about what happened to their Captain Rodie and his Tier-5 Red Salamander.

Swoosh!

Jeremy dashes out towards them without much talk. He covers the katana blade with the starlight energy.

Seeing a mere Tier-2 Beast Tamer coming at them. The Tier-3 Beast Tamers were enraged. Four of them brought their Lifeline beast out.

Then they ordered their lifeline beast to attack. They were all different kinds of four-legged beasts.

Each of them, with their sharp claws, started charging towards Jeremy Night.

At the same time, Sinag and Ada confronted the other four beast tamers.

Pfff!

In a flash, Jeremy's blade sliced through the neck of the four-legged cat. With the blood spurting out, the cat falls to the ground.

Jeremy is using his eyes. So the speed of the Tier-3 Lifeline beast appears to be slow under his eyes.

Jeremy went forward before slaying another four-legged beast. The beast's head rolls over the ground.

With each lifeline beast dying, their beast tamers suffer backlash. The beast taming contract was broken. They received a severe mental blow.

Swoosh!

With the two down, Jeremy attacks two more lifeline beasts. He killed those two lifeline beasts in no time.

Pfff!

The four beast tamers collapsed on the ground. Their Lifeline beast has died. Now they are disabled.

Jeremy set his gaze on the other four. Two of them were injured by Sinag and Ada. He targets the other two.

Pfff!

His blade dances in the air before coming into contact with the Beast Tamers. Both of them tried to flee. But unfortunately, the blade slits their throat one after another.

The next moment, they fell down to the ground.

Hum!

The Green butterfly made a happy sound. It recognises Jeremy Night. It's happily flapping its wings.

"My Green butterfly is happy to see you," Sinag said.

Hum!

Hearing that Jeremy waves his hand at the green butterfly.

Hum!

The Green butterfly again makes a happy sound.

Sinag smiled before taking back her lifeline beast.

Growl!

The Black Bear makes the next second.

Ada's mouth twitches.

"Don't tell me your Lifeline beast said something to you," Jeremy asked.

"Yes, the black bear told me that you are strong," Ada replied.

"It's smart," Jeremy said with a smile.

Chapter 355: Returned without Charles!

Wilderness:

After eliminating the Sun Wheel Organisation Team, three of them started to dispose of their bodies and lifeline beasts.

It took them 20 minutes to complete it and erase all of their traces.

"We should leave now," Jeremy said to them.

Sinag and Ada nodded their heads. But Sinag paused her footsteps as she recalled something important.

"Did you guys forget that the backup team must have entered the wilderness?" Sinag asked.

Hearing that Jeremy's eyes flickered with an understanding. He almost forgot about it.

"We don't have to wait for them. Our Leader has ditched us. So no one can blame us if he doesn't receive them," Ada said in a cold tone.

Jeremy and Sinag's faces changed after hearing about Charles. They wouldn't have been in this situation if not for that b@stard.

"I don't think he is safe either," Jeremy uttered.

"You are underestimating him. The 1st and 2nd Squads had numerous experiences. He knows how to survive."

"I'm hoping that he will come back to the organisation," Sinag said.

Then they pushed down the thoughts and started their journey back to the city.

Meanwhile,

Charles was safe. He is returning to the city on a different route. He was nervous and quite scared. He hopes that everything will go according to his plan.

Suddenly, he felt the presence of beast tamers ahead.

He was alert. He hadn't expected anyone to use this tough path. He thinks the other group had encountered a similar problem.

They might have run into terrifying corrupted beasts.

But as he got closer. His mood worsens. Because he sees the badge on their armour suit.

Upon seeing that moon insignia, his face changed.

"Don't tell me. It's the backup team," Charles thought.

He paused his footsteps. He thought of running away for a second.

"No!"

"I still have a way out. Those 3 would have already become food for the Tier-5 Corrupted Beasts. I can lie to them," Charles thought.

Then he decides to take the risk to convince the backup team.

Time passed,

Jeremy, Sinag and Ada entered the outer part of the wilderness after non-stop walking for a few hours. They were now in a safe zone.

There is not going to be a threat of any Tier-5 Corrupted Beasts and above. But they had to be careful of a surprise attack from the Tier-4 Corrupted Beasts.

The trio can deal with the Tier-3 Corrupted Beasts.

As they were walking along the path. Jeremy saw that Sinag was unusually silent.

"What are you thinking?" Jeremy asked.

Ada, who was paying attention to the surroundings, turned towards Sinag as well.

"I'm thinking about the Sun Wheel Organisation. What would they do if they found out?" Sinag asked.

"They are going to be pissed off. I think we should not tell anyone about this. Including our Leader Gisela," Ada replied.

Jeremy raised his eyebrows in surprise.

"You are right. We should not tell anyone," Sinag said.

"What are you guys even saying?" Jeremy asked.

He has been thinking about getting rewards. But these two were talking in opposite directions.

Three of us paused our footsteps and looked at each other's faces.

"Jeremy, we know you are stronger. But think about us. If the Sun Wheel Organisation learned about it, then they would do anything to kill us," Sinag said.

"She is right. You have no idea about the influence of these people. Both of our organisations have numerous ways to damage each other."

"It's just that they don't care about normal beast tamers. But if someone is talented, they would definitely target it," Ada said.

"They have already sent people to kill us. I think their primary target was you. If they knew their team got eliminated."

"Then they will take serious action next time," She added.

Hearing that Jeremy frowned. He doesn't think that the news will be leaked that easily. But he had to think about Sinag and Ada.

Then he said, "Alright, we tell no one."

Sinag and Ada sighed in relief. They don't want any target on their back. They are not as talented as Jeremy Night.

If they encounter a similar problem in future, it's hard for them to escape.

Then they resumed their journey.

Time passed,

Soon they got closer to the city. They began to come across beast tamers from other Mercenary Organisations.

Everyone saw Jeremy Night. Because he was the one without an armour suit.

Then they came to the contact spot. Sinag then called the staff to pick them up.

About 20 minutes later,

The flying car landed in front of them. The staff has arrived to pick them up.

Creak!

Sinag and Ada opened the door to sit in the back seat.

Jeremy then sat in the front seat next to the staff.

Swoosh!

The staff started to drive. But he was shocked in his head. Because he noticed that Charles was not with them.

But he didn't ask them. According to the rules, they had to report to the Team Leader first.

The flying car hovers above the ground. After appearing in mid-air, it started to fly towards the destination.

Shortly afterwards,

The car flies over the tall city wall. It enters the city and then follows the air lane to go towards the Shadow Moon Organisation.

About 15 minutes later,

The flying car enters the gated community. It slowly arrived in front of the arch-type castle building and landed on the ground.

Creak!

Jeremy opened the door and walked out.

The next second, Sinag and Ada stepped. Sinag then thanked the driver and led the team to the building.

After entering the building, they found everyone's gaze on them. But they ignored and headed towards the Team Leader Gisela's room.

It didn't take long for them to reach the office.

Upon arriving there, they informed the Team Leader Gisela.

Creak!

The next second, they got permission.

Sinag opened the door to walk inside. Leader Gisela was sitting behind the desk. Jeremy and Ada walked in next.

Chapter 356: Hiding the news!

Shadow Moon Organisation:

Jeremy, Sinag and Ada were sitting in front of the Team Leader Gisela. They don't know how to hide the truth from her. Leader Gisela can see if something is suspicious.

Gisela saw their faces. She knew instantly something was wrong. Because she got the call from the backup team. The 2nd Squad Member, Charles, was with them as well.

As per Charles's words, his teammates were killed by a Tier-5 Snake beast. Only he was able to survive because of his Tier-4 strength.

It happened when the trio walked into the building. Right at that moment, she understood something.

"You guys can tell me if something is bothering you. Did Charles cause you any difficulties?" Gisela asked.

Hearing that Jeremy and others were taken aback. The trio understood immediately. Charles might have made contact.

"Jeremy, what happened?" Gisela asked.

Hearing that, Jeremy replied, "After our last communication with you, we encountered a Tier-5 Snake at night."

"Upon seeing that beast, Charles fled from the spot. Then we three of them killed the beast using the explosives given by you," Jeremy added.

"How dare he?" Gisela uttered in anger.

She hadn't expected the 2nd Squad member to be so cowardly.

She said, "It appears we have made a mistake in the recruitment process. He shouldn't have been here in the first place."

"I'll tell them to bring him back. He will then be put behind bars," She added.

Sinag and Ada showed relief on their faces. They were worried that Charles might escape. But they didn't expect him to get caught.

Jeremy sighed inwardly. He thinks that the moron forgot about the explosives. Otherwise, he wouldn't have fled.

But still, they were able to confirm that Charles was unreliable, just as they had thought.

Gisela noticed their expression. Three of them showed relief on their faces.

She then asked, "Is there anything?"

"You guys wanted to tell"

Hearing that Sinag thought about the Sun Wheel Organisation Team. But she didn't say anything.

Ada remained silent as well. They were worried that Jeremy might say something. On the contrary, they found him staying silent as well.

"Leader, we have nothing else to say," Sinag replied.

"Okay, you guys can go back to your room," Gisela replied.

Hearing that Jeremy stood up. Sinag and Ada stood up to leave as well. After coming out of the room, they let out a sigh of relief.

"Jeremy, thanks for not saying that," Sinag said.

"I thank you as well," Ada said.

"It's okay, don't mention it," Jeremy replied before parting ways.

Sinag and Ada looked at each other's faces.

"Do you think he is upset?" Ada asked.

"If I'm not wrong, he wanted the rewards for eliminating the entire 3rd squad. It's a huge achievement."

"If the news is leaked, then it would shock the entire city. He will get more resources from the organisation," Sinag explained to her.

"Don't worry, we will compensate him in future," She added.

Hearing that Ada agreed.

About 10 minutes later,

Jeremy returned to his room. His gaze swept across the room. Coming back to his own room, he is feeling relaxed.

Then he enters the bathroom to take a cold shower. The bath lasted for 20 minutes. He then walked out of the bath and changed into comfortable clothes.

Now he has free time. He then went to bed to lie down.

Meanwhile,

The other staff learned about Jeremy Night, Sinag and Ada's return. They started to discuss it. Because they saw no sign of Charles.

They were wondering what happened to him. The news also reached the squad members. The 2nd Squad members thought that Charles must be assisting the Tier-5 Beast Tamers.

...

Sun Wheel Organisation:

The staff in the Sun Wheel Organisation were expecting good news from their 3rd Squad member. But it didn't take long for the spies to get news from the shadow moon organisation.

The staff received the news that their targets had returned from the mission. The news has shocked them. Because they had sent their team to eliminate Jeremy Night, Sinag, Ada and Charles.

But their main target was Jeremy Night. To think three of them returned from the mission unharmed. They were disappointed.

The staff understood that their team had failed to complete the mission. The staff immediately informed the Team Leaders and other elders.

Upon hearing that, the elders immediately tried to establish communication. But they failed to establish communication.

This sends them the wrong signals. The Elders tried to contact other Beast Tamers in that team. But they still failed to establish any contact.

This thing only happens when they encounter a difficult situation. Such as danger from the corrupted beasts or they entered the inner part of the wilderness.

So the elders and the team leaders have decided to contact them later. But they were disappointed to know that Jeremy Night was still alive.

...

The following day,

Jeremy woke up the next morning. He started doing the morning routine. Soon, he completes the morning routine.

Then he entered the training room to practise. Inside the room, he sat cross-legged on the ground. He closed his eyes and started practising the breathing method.

As he started to practise the Inner Healing method. The natural energy from the surroundings entered his body.

At the same time, the unknown lifeline beast egg in the mental zone becomes active. It started to absorb the natural energy from the surroundings as well.

Time passed,

He ended the practice a few hours later. He thinks it won't be long before he gets a breakthrough. During the mission, he found out that his strength was not enough.

The wilderness surrounding the 10th zone is more dangerous than he thought. It's easy to come across Tier-4 and Tier-5 Corrupted Beasts. Which was not in the previous case.

So he thinks it's necessary to increase his strength. If he becomes a Tier-3 Beast Tamer, then he can take a lot more missions with courage.

He then stood up and exited the training room. Then he went to take a bath.

Chapter 357: Auction house?

Shadow Moon Organisation:

After taking the bath, Jeremy continues to spend time in his room. He doesn't plan on spending time outside. He started by watching the online news.

So many interesting things were happening in the city. That he was quite interested in. He was yet to roam around this new city. He knows that the Sun Wheel Organisation is hostile.

But he was also aware that there were a few other organisations that were not friendly with the Shadow Moon Organisation.

So he still wants to learn more about the city before going out to explore. He can only do that in his free time, just like now.

Time passed,

The other members of the 3rd Squad were curious about the mission. Because they had refused to do a dangerous mission. After knowing that Captain Sinag, Ada and Jeremy Night have returned, they sighed in relief.

They were truly worried that something could happen to them earlier. It's not easy to do a mission in the inner part of the wilderness.

Yet the trio were able to return safely. But they were yet to know whether the mission was successful or not. It can only be said by Sinag and Ada. So they are waiting for her.

On the other hand, Sinag learned that other members had come to see her. As a Captain of the 3rd Squad, she can't ignore them.

After getting ready, she went to the lobby to meet them. She doesn't know whether Ada has spoken to them or not. Upon arriving there, she saw other members.

Fredric, Albert, Cedric and George. Among the females, the trio have come as well. Amelia, Ruby and Florence.

The members greeted her one by one. Sinag smiled and nodded to them before sitting among them.

"Captain, what happened during the mission?"

"I heard that the newcomer has survived as well. Did you guys save him?" Fredrick asked.

Hearing that others turned towards Sinag for answers. But Sinag sighed inwardly. She knows how strong Jeremy Night was. He can even go against the Tier-5 Corrupted Beasts.

"Captain?" Fredric uttered.

Hearing that Sinag recovered her thoughts.

She then said, "We didn't do our mission. We were called back halfway. Leader Gisela has sent senior members to complete the mission."

The members were taken aback. Then they thought no wonder they were able to return unharmed.

"I knew it. That's why I told you earlier not to take this mission," Fredric said with a smile.

"The Tier-5 Corrupted Beasts are commonly found in the inner part of the wilderness. It's good that you guys have returned halfway."

"Otherwise, it would have become difficult for you guys to escape," Albert said in a serious tone.

Cedric and George quietly listened. They don't have much of an opinion. They usually follow Fredric and Albert in the team.

"It's good that you guys are safe. So don't take such a dangerous mission next time," Florence said with concern.

Hearing that Sinag gave them an assurance. Only she knows what they have been through.

Florence asked, "Captain, why don't we go to the auction house today? I have already bought tickets for our team."

Hearing that others were surprised. Especially the male members.

"You have tickets for everyone," Fredric said.

"Yes, I do," Florence replied with a smile.

Hearing that Fredric gave a thumbs-up. He wanted to go there as well. But he failed to buy tickets. He didn't expect to hear good news now.

"Albert, let's go to the auction house. I heard that the final three auction items were brought from the top 3 zones," Fredric said.

George and Cedric raised their eyebrows as well. Who doesn't want to see the auction items of the top 3 zones?

Amelia and Ruby became interested as well.

"Let's go, Captain," Florence said.

Hearing that Sinag gave a thought. She thought about Ada and Jeremy Night.

"Let's call Ada and Jeremy Night," Sinag said.

Hearing the name of the newcomer Fredric frowned. He doesn't have a good opinion about the newcomer. He doesn't want the newcomer to accompany them.

"Do we really have to take him with us?" Fredric asked.

The other members are silent. They don't have a good opinion about the newcomer as well. They think he was just a Tier-2 Beast Tamer. He got into the team because of his talent.

They were still unclear about Jeremy Night's background.

Sinag's heart turned cold. She doesn't know what happened to her team.

"When did they start having a bias towards the newcomer?" Sinag thought.

She then thought of something. Her expression changes.

"Are you guys still thinking about the previous member?" Sinag asked.

The next second, the temperature dropped.

Fredric's expression was ugly. But he didn't say anything. Albert was the same. Seeing those two, George and Cedric, showed serious expressions as well.

The expressions of Florence, Ruby and Amelia were neutral. They don't mind the newcomer's presence.

"I'll call Ada," After saying that Florence started calling Ada.

She doesn't want the current conversation to leave them in a bad mood.

Sinag said, " I'm going to call Jeremy. He is still a high schooler who joined the academy this year. His first year of studies was not even over yet."

"Team Leader Gisela has high expectations of him. So don't harbour any ill intentions towards him. I'm making it clear to all of you."

"Don't forget that he killed a Tier-4 Corrupted beast without breaking a sweat. Once he breaks through, he might enter the 2nd Squad in advance," She added.

Hearing that everyone has become silent. There is no one arguing against her. Was what she said right? They are being biased towards the newcomer.

At this time, Florence's call connected with Ada. She told her about their plan. After knowing that everyone will be going to the auction house as a team.

She became interested. But she asked whether Jeremy Night was coming or not. Her question surprised Florence.

She turned towards Sinag with a shocking expression.

"What?" Sinag asked.

"Ada is asking whether Jeremy Night is coming or not?" Florence replied.

Hearing that everyone was stunned.

Chapter 358: Arrived at the Auction House

Shadow Moon Organisation:

Florence's words left everyone in disbelief. They didn't know when Ada became friends with the newcomer.

"I'll inform him. Tell her that he might come," Sinag said to Florence.

After saying that Sinag called Jeremy Night and told him about their plan, Jeremy, who was on the call, was taken aback.

He didn't expect the auction to be held today. He was interested in exploring the city. It was because he was hesitating earlier due to his lack of experience.

Now he has a chance to visit the auction. He wanted to go with the Team as well. So he replied to Sinag that he was willing.

The timing of the auction was in the evening. Jeremy decides to join them at that time.

After receiving a response from Jeremy, Sinag informed the team. Florence smiled. She then informed Ada about this. She has agreed to come as well.

Ruby and Amelia have no problem with Jeremy Night. Only the male members were displeased. Fredric didn't say anything. He just wanted to visit the auction house.

So he didn't create any problems. Albert was the same. He is more interested in seeing the auction items from the top three zones.

Then the team discussed that they would gather in the evening. Then they dispersed and went back to their room.

The news of the auction house event is trending. Not only the team from the 3rd Squad were going. The other squads from other teams were planning as well.

So the staff were discussing the event.

...

Meanwhile,

Inside the office, Gilsela is closely following the updates of the Sand Bloom Team Rescue Mission. She got the update recently.

She had sent a backup team. They were able to enter the inner part of the wilderness today. It's just that the backup team failed to find the Sand Bloom Team.

There is no sign of the Tier-3 Beast Tamers of the Sand Bloom Organisation. She thinks that the worst has happened to them. They were likely killed by the corrupted beasts there.

It's hard to believe. But she thinks it's likely to be the truth. She had sent the Sinag team earlier to rescue them. But they had met with danger and they were able to escape because of her explosives.

Now, the second team is facing the danger as well. She thinks it's not good for them to stay in the inner part of the wilderness for so long.

So she has decided to call them back if they still fail to find some answers.

...

Time passed,

In the evening, Jeremy walked out of the room. He was ready to meet with the team. He then started going towards the first floor.

When he got there. He saw the team members. Everyone was there including Sinag and Ada.

"You have come here at the right time," Sinag said.

Hearing that Jeremy smiled and asked, "When are we leaving?"

"We were just waiting for you. Let's go now," Ada said at this time.

Jeremy nodded to her. Then he noticed other beast tamers. Fredric, Albert, Cedric and George were there as well.

Their faces were not good-looking. Jeremy can tell that they dislike his presence. But he doesn't care.

"Alright, let's go," Sinag said.

Jeremy then started following her to the exit. The other team members followed as well. This was seen by the staff and other members.

One of the female staff stepped forward and asked Sinag.

Sinag recognised her. She told her that they were going to the auction house. Hearing that, the staff was surprised.

Because it's not easy to get tickets. She has realised they must have bought it earlier. Then the team exited the building.

Instead of using the organisation's cars, they have decided to use the cab service.

Sinag booked three flying cabs. The three flying cabs came to the spot 10 minutes later. The cabs landed in front of them.

Fredric, Albert, George and Cedric immediately entered one of the flying cabs. They are not ready to share the seat with the newcomer.

This was seen by Sinag. It angered her. She understood that they were deliberately causing problems for Jeremy Night.

"Jeremy, you can sit with us. There are enough seats," Sinag said.

Jeremy nodded to her. Then Florence, Amelia and Ruby entered the 2nd cab.

Jeremy then sat in the first cab's front seat. Sinag and Ada sat in the back.

Shortly afterwards,

All three flying cabs started flying towards the auction house.

Jeremy tried forgetting about this episode. He is now thinking about the auction house. He doesn't have enough wealth yet to participate in the auction.

But he will definitely participate in future auction events. This time it's going to be an experience.

Swoosh!

The flying cabs left the gated community and started moving towards the Central Plaza.

About 20 minutes later,

The flying cabs reached the Central Plaza. The cabs turned around and started flying towards the auction house.

Everyone noticed that so many flying cabs were going in that same direction. It shows that many people are going to attend the auction.

Many famous beast tamers might appear today.

It didn't take long for the flying cabs to reach the destination. The cabs followed the other cab and landed in front of a high-rise circular building.

Then the team members stepped out one after another. Florence had the tickets with her. So she took the lead.

Fredric, Albert and the other two male members began to follow.

Jeremy followed Sinag, Amelia and Ruby from behind. He was excited. He could see many more people here.

But he doesn't know how many among them can attend the auction. The size of the auction building is massive.

He had not seen something like this in the 14th zone.

They reached the main entrance to the auction house. They were guards standing outside inspecting the tickets.

Eventually, their turn came as well. Florence stepped forward and showed those tickets. The tickets were for all ten members.

Chapter 359: Auction starts!

Auction house:

Florence showed those tickets. The guards began to verify it. They found it no problem. Then they allowed everyone to enter.

Jeremy Night and others walked into the building. The tickets were ordinary tickets. It was not expensive. They are going to be seated at the common seats.

There are other sections on the higher floors. Where the V.I.P.s get private rooms for the auction house.

Soon, everyone found a seat in the 6th row. There are 10 rows in total. With 30 seats in each row.

After that, 10 were comfortable sitting in their seats. They began to observe the incoming people. There are still 30 minutes left for the auction to start.

Jeremy found it interesting. It's the first time he has attended such a big auction. His eyes wandered around.

He raised his head and looked at the open top. He can see other floors above the first floor. There are VIP rooms up to the 4th floor. Then he saw the ceiling.

"Sun Wheel Organisation," Sinag uttered.

Hearing that Jeremy recovered, his thoughts turned towards Sinag.

"What happened?" Jeremy asked.

He found Ada's face was not good-looking either.

"There are team members from the Sun Wheel Organisation," Sinag said in a low voice.

Hearing that Jeremy turned towards the entrance. He saw a team of 10 members make an entry. He saw the badge of the Sun Wheel Organisation on their uniform.

Seeing that Jeremy's expression turned serious. He found out that the strength of the team was Tier-4.

"Is it a 2nd Squad?" Jeremy asked.

"Yes, they are one of the 2nd Squads. Everyone is Tier-4 Beast Tamers," Sinag replied.

"Their faces don't look good. Do they know?" Ada said.

"Ada," Sinag called out her name.

Hearing that Ada recovered her thoughts. She realised that other members were present as well.

"What's going on?" Florence asked.

She heard their conversation as well. She felt something was going on. Amelia and Ruby were there as well.

"It's nothing, don't look at them. They might create unnecessary problems," Sinag said.

Florence, Ruby and Amelia have become silent.

Fredric, Cedric, George and Albert were having their own separate conversations.

They don't even know one of the 2nd Squads from the Sun Wheel Organisation has come.

The Sun Wheel Organisation Team members began to sit in their seats in the 4th row.

Some of them were able to see that one of the 3rd Squads from the Shadow Moon Organisation had come.

Their leader was a middle-aged man. His name was Tim. He has a scar on his face. The mere mention of the Shadow Moon Organisation made him angry.

Currently, the Sun Wheel Organisation is having a tense atmosphere. They weren't able to contact one of their 3rd Squads.

Suddenly, Tim's expression changed drastically. He turned around and looked at the Shadow Moon Organisation's 3rd Squad.

His gaze fell on Sinag. He recognised the 3rd Captain. Because they have all read intel on the hostile organisation's members.

Recently, they read intel about new members who have joined the Shadow Moon Organisation. His name was Jeremy Night.

Tim glanced further. Then he saw Jeremy Night. He immediately recognised him as well.

He recalled that the missing team went after this exact team.

"They went after their Captain, a new member and 2 more members," Tim thought.

His expression was seen by other members as well.

"Captain, what happened?" One of the members asked.

Tim shakes his head and turns around to look at his teammates.

"It's nothing. Don't mind them. We have come here to watch the auction. We can deal with them later," Tim said to them.

The members nodded their heads before sitting back in their seats.

This time Fredric and others saw them as well. They didn't expect their enemy team to come as well.

As time passes, more and more people walk in. Slowly, the seats started to fill. All 10 rows of seats were filled with people in 10 minutes.

There are still 20 minutes left before the auction starts.

The 2nd, 3rd and 4th floors have private rooms. They were yet to be filled.

Jeremy and others are paying attention to the people.

Jeremy found that he was the only one with the Tier-2 Strength. He found most of them have Tier-4 Strength.

The rest of them were Tier-3 Beast Tamers. He found it interesting. While he was looking at them. He found a couple of gazes on him as well.

He saw a few people recognise him as well. Jeremy then stopped paying attention to them. He turned towards the stage and began to wait for the auctioneer to appear.

Shortly afterwards,

The staff opened the private rooms on the second floor. The V.I.P.s have come. Unfortunately, none from the first floor can look at them. Because the door is on the other side.

Some were heads of the Mercenary organisation. A few were leaders of the popular mercenary team. Then representatives from the major Families have come as well.

They immediately filled the 2nd-floor room. There are still 3rd and 4th-floor rooms left. Everyone began to wait.

But when the auction time came, the people behind the auction decided to start the auction. Even if someone comes later, they can join the bidding process.

On the stage, an old man wearing a black suit and gloves arrived. Seeing the old man, everyone understood that the auctioneer had come.

Those who were familiar with the auction house knew the auctioneer.

The old man swept his gaze across everyone. He greeted everyone before saying, "Thanks for coming to our Auction Event."

"We have collected important items for this auction. You won't be disappointed. So without wasting your time. I'll start the auction," he added.

Clasp!

The next second, there is a round of applause. The Beast Tamers were excited for the auction. Not only them, the V.I.P.s were clapping as well.

The V.I.P.s have come here for an important reason.

Most of the high-bloodline Lifeline beasts can only be fought in the auction. It's completely legal as well. So they don't want to miss out on such an opportunity.

They can buy it for family members if not for themselves.

Chapter 360: Part 1: Auction going on!

Auction House:

The auctioneer's name was Murray. His gaze fell on the audience. Seeing that they were ready, he looked at the VIP floor. It's time to start the auction house.

He said, "The first item that's going to be auctioned is the whole corpse of a Tier-6 Dark Spotted Lizard."

Gasp!

Hearing that, the audience exclaimed in surprise. They knew that auction items were going to be impressive. But they didn't expect the first item to be a Tier-6 Corpse.

That, too, is the corpse of a Tier-6 Spotted Lizard. But they don't know about the price of the auction item.

The V.I.P.s in the private rooms were impressed by the first auction item. They have come here for the exact reason.

It's not easy to find the exact corpse. Unless powerful beast tamers have ended the corrupted beast's life in one move.

Then Murray stepped backwards. The stage has a small platform. The platform cover opens up. The next second, the Tier-6 Lizard Corpse inside the glass container rose from the platform.

Murray said, "The price of the first auction item is 1 million credit points."

Gasp!

Hearing the price of the Tier-6 Corpse. Everyone once again exclaimed. The price is more expensive than last time.

But still, there are people ready to buy the corpse for some research.

"1.5 Million credit points," Someone from the audience said.

"1.6 million credit points," another one from the audience said.

One after another the beast tamers among the audience continued to increase the price of the auction item.

Meanwhile,

Jeremy Night and his team members were watching the auction. They were surprised by the price of the auction items.

Jeremy Night is paying close attention. He had made a decision earlier to participate in future auctions.

For that, he needs to know how the auction works here and how much money is needed for that. Right now, the price has shot up to 5 million.

Jeremy is also looking at the VIP section. But so far none from that section had bid for the auction. He thinks that these people have a powerful background.

They can get the corpse of Tier-6 Corrupted Beasts themselves. More importantly, not everyone needs the corpse of the corrupted beasts.

Those who were related to the research field might need it.

Murray, on the stage, saw that no one from the audience was bidding anymore. He is also aware of the status of the VIPs.

It would be surprising if they need the corpse of corrupted beasts. They can get it whenever they want.

Seeing that no one is bidding any more.

"The Tier-6 Lizard Corpse is going to auction for 5 million."

"Going once!"

"Going twice"

"Going thrice"

Murray said the third time. Which means the first item was auctioned successfully.

"The Tier-6 Lizard Corpse was successfully bought by the Beast Tamer dressed in a green shirt," He said with a smile.

Cheers!

It brought a round of applause from the audience.

Then the glass container lowered again. The next second, the small platform returned to normal.

Murray said, " Next, we move on to the second auction item. It's a Grade-5 Axe Weapon."

"It's an Axe Weapon built by a famous company in the 5th Zone. They are known for making high-grade weapons."

"The Auction price is 10 million," Murray added.

The next second, the small platform was opened again. Then a container rose from the platform. Inside the container, a black axe was placed horizontally for display.

Gasp!

Some of the audience exclaimed again. The price of the second auction item is more than the first one.

But they know why it was. The weapon built by that famous company is normally bought by powerful organisations.

It's rare for them to see one in the auction house. The Beast Tamers on the first floor were tempted to bid for it. But a 10 million credit points price was too high.

So they were hesitating to do it. But the weapon's beauty has attracted everyone's attention.

At the same time, Jeremy Night's eyes flickered. He saw the black axe weapon. He was attracted by the design and colour of the weapon.

He didn't know why but he wanted to wield it. But he is not the user of the axe-type weapon. To think he was this tempted.

He thinks there are beast tamers who use axe weapons. Then they would definitely bid for it.

"11 million!"

A male voice sounded from one of the private rooms.

Hearing that the beast tamers on the first floor were shocked.

Jeremy was stunned. He was thinking about it. He didn't expect someone to bid right away.

Murray recovered his thoughts.

"The Gentlemen from the private room no 3 bidding for 11 million. Is there anyone willing to raise the price?"

"It's a weapon made by a famous company. You won't get to buy it from outside."

"You still got a chance, who wants to raise the price?"

Murray started speaking. But no one from the audience is willing to raise the bid. For the auction money, they can buy 3 Grade-5 weapons from a small company.

Some think it's a waste of money to pay for the brand value. So the Beast Tamers on the first floor didn't want it.

Only the rich people in the VIP section can do it.

Seeing that there was no one bidding on it.

Murray said, " Since no one is willing to raise the price. The auction item will be sold to the Gentleman from room no 3 private room. Going for once!"

"Going twice!"

"Going for thrice"

"It's settled. The Grade-5 Black Axe sold to the Gentlemen from room no 3, a private room."

Murray said to everyone. His voice was not loud but it reached everyone's ears.

Jeremy's mouth twitches. He thinks that 11 million was not huge wealth for the influential people. For them, it's kind of a bargain.

He has started to become curious about other auction items and their monetary value.
