

STRIKER 361

Chapter 361 361: Part 2: Auction going on!

Auction House:

The Auctioneer Murray sold the second item successfully.

The glass box goes down to the ground. The platform cover closed up the next moment. It's time for Murray to auction the third item.

His gaze sharpened after knowing the third auction item. His gaze sweeps across the audience on the first floor.

Murray said, "The third auction item is an important one. It's an earth-grade breathing method. It's called Sky Whisper."

"It's a wind-type breathing method. The Beast Tamer with wind-type element or wind-type lifeline beast will benefit from this method," He added.

Gasp!

The Beast Tamers were taken aback. An Earth Grade Method can help Beast Tamers build a medium-sized family.

So the breathing method is important for beast tamers. But for the influential people. It's going to be another collection in their inventory.

Murray saw the reactions of the audience. He was satisfied. It's not easy to find the earth grade method.

Because only the human-grade methods were made public. The Earth Grade Methods are at the hands of major forces and families.

Murray said, "This Earth Grade Method is priced at 50 million."

"The price of the Earth Grade Method is 50 million," Murray said it second time.

Hearing that everyone was stunned. The Beast Tamers were shocked to the core. The price was too high. 50 million? It could be the total wealth of a medium-sized family.

If the Beast Tamers had such length, then they would be settled down. But here a single Earth Grade Method is selling for such a price.

The beast tamers on the first floor looked at each other. The Earth Grade Method is too important. They wanted to buy it. But the price was too much for them.

On the other hand, the Sun Wheel Organisation Beast Tamers were quite interested in the Earth Grade Method.

Because a single Earth Grade Method can help A-Grade or S-Grade Talent Beast Tamers to reach Tier-6 level.

The Tier-6 Beast Tamers are considered above medium-strong beast tamers. They are an important pillar of strength for the 10th zone in dealing with the outside threats.

They are especially needed when facing the Tier-6 Corrupted Beasts. It's common for City A and the surrounding settlements to be attacked by Tier-6 Corrupted Beasts every now and then.

The 2nd Squad Captain Tim was interested in this bidding. He is seeing whether anyone is bidding. If there is no reaction from the VIP floor. He plans to bid for it.

His family is a medium-sized family, but he was able to save personal wealth. He can only buy this method with his personal wealth.

But he was still careful about the hidden arrows. There is one thing to buy with this method. More challenging would be keeping it safe from the outside threats.

So if the VIP people bid for the method, then he would give up. He is not going to offend them unnecessarily.

"Is there anyone willing to bid for the Earth Grade Method?" Murray asked.

But he saw no response from the audience. He can understand their reasoning. They are waiting to see a response from the VIP section.

So his gaze turned towards them.

On the other hand, Jeremy Night is watching with interest. Each and every auction item so far has been expensive. It can't be bought outside with the money alone.

Only the auction house can bring out these items for the normal people.

At the same time, Sinag, Ada and others were watching the auction as well. The price money is beyond their pay grade.

You need a decade of wealth to buy the Earth Grade Method.

Fredric, Albert, George and Cedric were discussing this. They were quite envious. They knew the auction house was held for the VIPs. No normal beast tamers can buy something with their wealth.

...

Shadow Moon Organisation:

Several minutes ago,

Inside the office, Gisela was waiting for the updates. But the backup team has yet to call her. She knew the difficulties of establishing contact in the inner part of the wilderness.

...

Wilderness (Inner Part):

The Back Team and Charles encountered a serious situation at the target site. It's the site where the Sand Bloom Team has lost contact.

The Sand Bloom Team was nowhere to be found. Charles was uncomfortable. He had actually wanted to flee from the inner part of the wilderness.

But he had met with the Backup team. They had brought him here. It's easy to encounter Tier-5 Corrupted Beasts here.

While he was sulking. The backup team is looking for the clues. They wanted to find even the smallest clue related to the Sand Bloom Team.

As time passed, they found nothing. If they spend time here, they might come across roaming corrupted people here.

The Back-up Team Captain decided to contact Team Leader Gisela. But they weren't able to establish contact. It didn't surprise them.

They had expected it. If they go deeper into the wilderness, the possibility of establishing communication would be lower.

The Backup Team Captain has to make a decision right now. He thinks that the Sand Bloom Team met with danger. They had likely lost their lives.

Because everyone knows that they are Tier-3 Beast Tamers. It's already puzzling why they had travelled so far inside the inner part of the wilderness.

Only the Sand Bloom Organisation can answer them.

Buzzing!

Just as the captain was thinking, everyone heard a buzzing sound.

Hearing that everyone's expression changes. They knew corrupted beasts had come. Charles arrived at the side of the Captain.

The other Beast Tamers stood together. Everyone was in their armour suit ready to confront the Corrupted Beasts.

The Captain's face turned grave. Because he spotted the flying type of corrupted beasts. Which is troublesome among all the beasts.

Shortly afterwards,

A 10-foot black worker ant beast with two wings flapping behind its back made an appearance.

"Ant beast?" Charles uttered in a surprise.

Others had the same expression as well. Because a single ant worker beast won't come alone. There must be other beasts nearby.

They might be searching for food.

"It's bad, let's retreat without making too much noise," The captain said.

Hearing that everyone starts going backwards. They still think that the Ant beast came out in search of food.

Chapter 362 362: Part 3: Auction going on!

Wilderness:

"We need to get back and inform the leader," The Captain thought.

Just as they were going backwards. They heard a few more flapping sounds coming from behind. Undoubtedly, there are more flying ant beasts present in this area.

Blood on Charles' face was drained. The worst has happened to him. He is running without turning backwards.

As time passed, the backup team was able to escape from the hostile area. Charles was with them as well. For some reason, the flying ant beasts didn't follow them.

They stayed in that area. It took them a few minutes to realise what was going on. The Captain of the backup team started to connect the dots.

The flying ant beasts are present in large numbers in that area. It was the exact same spot where the Sand Bloom Team had lost the connection.

In his mind, he was able to reach a terrible conclusion.

But he dared not tell others before reporting to Leader Gisela.

"Let's go, " he said to the others.

He contacted the Leader, Gisela, after reaching a better communication area. Then everyone resumed their journey.

Charles didn't have any clue that he was exposed. He is simply following them. In his mind, he had assumed that Sinag, Ada and the newcomer were dead.

...

10th Zone, City A:

Auction House:

"55 Million!"

Finally, someone from the VIP section quoted the price.

Hearing that everyone was shocked. They turned towards the source of the voice. They heard a female voice from the 1st private room.

It's a person from a big family. But they were unable to figure out her identity.

Jeremy raised his eyebrows in surprise. He found that the voice was young. He then glances at the other private rooms. But no one raised their voice after her.

Auctioneer Murray was stunned. Because the old man found out that the voice was a little familiar. It only happens when it's the voice of a regular customer.

"Is there anyone willing to raise the price?" Murray asked.

But there was absolute silence. No one was increasing. The audience on the first floor was looking at the VIP section.

But no one is increasing the price. Most of the Beast Tamers were taken aback. But somewhere I understood that the female voice belongs to someone influential.

On the side of the Sun Wheel Organisation Team, Captain Tim was shocked. He was about to bid for it. But someone from the first private room bid it.

He immediately extinguished the thought of bidding. He doesn't want to offend the person.

Murray then said, "The Earth Grade Method is going to be sold for 55 million once."

"Going twice!"

"Going thrice!"

"Sold!"

"The Earth Grade Method now belongs to the guest from the 1st private room."

Auctioneer Murray's voice sounded.

Time passed,

The auction house continues to take place. Auctioneer Murray is working non-stop. The auction items are getting more costly.

Time passed,

Jeremy and the other members were watching the auction with a serious expression. The auction is nearing its final end.

Auctioneer Murray said, "We have reached the last three auction items."

Cheers!

Hearing that audience on the first floor let out applause. This auction event was eye-opening for them.

The Auction House has shown rare items that can't be bought from the outside. Most of them were bought by the VIPs.

"The next auction item is the egg of a lifeline beast," Murray said.

Gasp!

Some took a sharp breath among the beast tamers. They have reached a final phase. The VIPs are here for the lifeline beast egg.

With this Lifeline beast egg, they can give it to their family member.

In the VIPs section, everyone straightened their backs. But their appearance was not visible to others. If others can look at their reaction, they can understand how excited they were.

Murray glanced at the VIP section before turning towards the audience.

He said, "It's not an ordinary lifeline beast egg. It's a Grade-7 Purple Lion King egg. It has a Grade-7 bloodline. It can become a Tier-7 lifeline beast without any trouble."

Gasp!

This time the auctioneer's words shocked everyone to the core. It's not easy to get the egg of a king-type lifeline or a regular beast.

Either the egg has been obtained from the Tier-7 Beast Tamer's Purple King Lifeline beast, or it was obtained from the wilderness regular beasts.

It's hard to find the populace and the habitat of the regular beasts. After the mutation of the world, the corrupted beasts are trying to take over the land.

Whereas the regular wilderness beasts have migrated.

That's why the beast tamers were in shock. In either of the cases, it must not be easy for the auction house to get its hands on the lifeline beast egg.

The Purple Lion King is known for its lightning attack. Whoever gets it will become a powerhouse in future.

Auctioneer Murray gave a pause after announcing it. He is looking at the reaction of everyone. He thinks it will take time for everyone to settle down.

Jeremy Night sighs inwardly. He knows the values of the Grade-7 Bloodline. The evolution of the Beast Tamer depends upon the lifeline beast.

He thinks even if some average talent gets bonded with the egg of the purple king Lifeline beast. He will reach at least Tier-5 in his life. If there are chances, he could even achieve a further breakthrough.

"It's a Purple Lion King's egg," Sinag said with envy.

"It belongs to the big family. We can only appreciate it from here," Ada uttered.

Hearing that, Jeremy Night sighed inwardly. From their conversation, he can understand that they were not from a big family either.

Amelia, Florence and Ruby commented one after another. Everyone was quite envious and shocked by what was taking place here.

On the other hand, the male members were no different. Fredric had a plan to buy at least one of the auction items. But from the first auction item, he didn't have any chance.

Chapter 363 363: Part 4: Auction going on!

Auction House:

Murray looks at the platform. The platform cover opens up. The next second, the stand rose up. On top of the stand, there is a small glass container.

Inside the glass container, the purple egg can be clearly seen. It was small in size. But no one is underestimating it.

In the private rooms, the guests were even more sure. They had seen what the eggs of the king stage beasts looked like.

Now they are sure that the auction house is telling the truth. They can bid for it now. But they didn't know the price yet.

Fredric thinks that the first auction item itself was expensive. Now after looking at the egg of the Purple Lion King. He was expecting skyrocketing prices.

Albert was thinking the same. He saw that the auctioneer was deliberately delaying in saying the price. So that everyone can understand its value.

At the same time, the reaction of the Sun Wheel Organisation members was no different. Tim was expecting to buy an auction item. But he didn't get any opportunity.

He failed to buy the Earth Grade Method. Now this egg of the Purple Lion King has shocked him again. He didn't dare to bid for it.

At this time, the Auctioneer Murray has decided to reveal the price. It made everyone's breathing short.

He said, "The egg of the Purple Lion King is auctioned at 100 million."

Quiet!

The next second, the whole place became quiet. No one expected the price to be set at 100 million. The Beast Tamers looked at each other's faces in disbelief.

Jeremy Night was taken aback. He doesn't know how much the value of 100 million credit points will be.

Sinag and Ada were shocked again. They know the egg must be expensive. But they didn't know it was going to be auctioned at that price.

Jeremy was grateful in his heart that he got this Lifeline beast for free. He knows his unknown egg-lifeline beast was more powerful than any other lifeline beasts.

Because his lifeline beast is still in the egg state.

In the VIPs section, the guests were all shocked. The price is higher than their expectations. It's still the third last item. There are 2 more items left.

Some decisively chose to give up. They will bid for the final two auction items. But not everyone was on the same page.

"110 Million!"

The next second, the female voice sounded from the 1st private room.

Quiet!

Once again the place has become quiet. Because the voice sounded familiar. They understood it was the same person who bought the Earth grade method.

Now the beast tamers on the first floor, interested in knowing her identity. They think that person is from a big family.

The voice sounded so young. The person could be studying at the Central University here.

Jeremy Night raised his eyebrows. He glances at the first private room. Like others, he was curious as well.

From the conversations around him. He understood that the person has a big background.

"She has a wealth of more than 150 million," Jeremy thought.

Auctioneer Murray saw that the familiar person was bidding again.

He said, "The Guest from the first private room is asked for 150 million credit points."

"Is there anyone willing to increase the bid?" He asked.

Hearing that no one raised a voice.

The Sun Wheel Organisation Team members were discussing it in a low tone. They don't know whether anyone in their organisation has this much wealth.

Earlier, they had some pride. Right now, the pride disappeared from their eyes. The real big figures were sitting in the private room.

On the side of Fredric, Albert George and Cedric. They were watching it with shock as well. Such wealth is hard to come by.

Unless someone owns a big organisation or is from a big family. They were discussing it. They found that the voice of the person was so young. It sounded younger than themselves.

But as usual, there is no one else from the VIPs section who is increasing the praise. As if they were more afraid to offend the person staying in the private room no. 1.

Auctioneer Murray saw that no one else was bidding.

He said, "The Egg of the Purple Lion King is going to be auctioned at 150 million for once."

He then gave a pause before saying, "It's going for twice."

Then he added, "It's going for thrice."

Cheers!

Hearing that audience let out applause for another successful bidding.

"The item is now sold to the guest from the private room no.1," Murray said.

The Beast Tamers sitting on the first floor aren't surprised. Everyone had expected the same result. Next, it's going to be the final two items.

The auction is going to be at midnight. Then everyone can go back to their home.

On the Shadow Moon Organisation's side, everyone was quite excited. It's going to be the last two items. The third item was already amazing according to them.

The last two items are going to be eye-opening.

Auctioneer Murray then looks at the second last item. He was once again shocked to the core. He knows this auction item will be sold at a higher price than the previous item.

His gaze sweeps across the audience on the first floor. Then his gaze turned towards the VIP section. He thinks that this auction item will be bought by the first guest.

He said, "The second auction item is a rare natural treasure. It's called a green water spring."

"The Green Water Spring doesn't have a grade. But it can help Tier-5 Beast Tamers to break through," He added.

Gasp!

"What?"

"Natural Treasure!"

"I heard of this green water spring before. It can even help low-grade talent to break through."

The Beast Tamers on the first floor were dumbfounded. The natural treasures are hard to come by. And that too, which helps Beast Tamers to break through without any requirements, is rare.

Jeremy Night's eyes gleamed with a twinkle. He didn't expect to hear about the natural treasures. And this one he was hearing it for the first time.

Chapter 364 364: Part 1: Auction comes to an end

Auction House:

Auctioneer Murray once again looks at the stage. The platform opens up. The stand began to rise the next moment. On the stand, there was a silver-coloured box.

It's the special box for preserving the natural treasure. Upon seeing that everyone understood that the treasure was real.

But the old man can't open the sealed container to show. If it does, then the energy will dissipate.

If one wanted to use it, then they have to directly consume the natural energy treasure upon unsealing it.

The Beast Tamers on the first floor were in shock. Each and every auction item was eye-opening for them. Either they were scarce or their pricing is sky high.

Auctioneer Murray swept his gaze across the Beast Tamers. Then he looks at the VIPs section. He thinks someone will buy from the VIP section again.

Because the Beast Tamers on the first floor won't dare to offend these people. He has already got the idea about the identity of the person in the 1st private room

"The Green Water Spring is for auction at the price of 150 million," Murray said calmly.

But his voice reached everyone's ears. The Beast Tamers were shocked once again. The auction price was sky high like they had expected.

Jeremy doesn't know whether to laugh or cry. It's just a natural treasure that helps in a breakthrough. He couldn't believe it's priced at this level.

Then he turned towards the VIP section. He realises that they would do everything. If someone in their family is stuck at the Tier-5 level, this treasure might help them.

From the VIPs section's fourth room. An old female voice sounded.

"151 million credit points!"

"I'm hoping that no one will raise the price," the voice added again.

Hearing the old female voice everyone felt goosebumps all over their body. They never expected someone from the VIP section to increase the price.

What more? This time someone warned them. The Beast Tamers on the first floor were shocked and dumbfounded. Some clearly felt fear. No one dared to even speak right now.

Jeremy Night was speechless. This was clearly against the rules of any auction.

How can the guest warn others? But when he saw the face auctioneer. He realises that they won't be offending this person as well.

The faces of Sinag and others were not good-looking. Even if the person doesn't say anything, they won't be able to bid for it. Because the auction price was sky high.

Fredric, Albert, George and Cedric were discussing among themselves.

The Sun Wheel Organisation Team members were in silence as well. Captain Tim's face was set with seriousness and fear. He knows too much about all the big families.

The voice of an old woman made him recall someone. He thinks he had heard the voice somewhere. Maybe on the news media or some other events. But he can't remember exactly.

In either way, he understood that the old woman's identity was big. It's the same as the young woman from the 1st private room.

Auctioneer Murray saw that no one was bidding. He didn't dare to delay it any longer.

"The guest from the 4th private room called it for 151 million credit points. Is there anyone willing to increase the price?"

He sees that no one is raising their voice.

"If no one is bidding, then the Green Water Spring is auctioned at 151 million credit points. It's going for once!"

"It's going for twice!"

"Finally, it's going for thrice."

"It's sold now!"

Murray's voice reached everyone's ears.

Hearing that no was surprised. After the Purple Lion King's egg, this natural treasure was again bought by the VIP section people.

If not for people's interest in viewing the auction items, most of them wouldn't have come here. The majority of them were here to watch the auction.

Now it's time for the last auction item. Everyone was wondering what it could be. Because they had seen the Lifeline beast's Egg and Natural Treasure already.

What was left there to be auctioned. And it's going to be auctioned in the end.

Sinag and others were curious. It's midnight now. With the last item, the auction comes to an end. Then they will return to the organisation.

Jeremy's gaze was set on the platform. The platform opens up again. Then the stand goes down. He was curious what the next auction item would be.

The Earth Grade Breathing Method, the Tier-7 Lifeline Beast Egg, and the Gradeless Natural energy treasure were all successfully auctioned. Now he is waiting for the final item.

Murray's expression turned serious. Because the last auction item was totally different. The client had different

He said, "The last auction item is quite special. It's not an item or anything. Instead, the client will provide an opportunity to the Beast Tamer to enter their family energy field area for practice."

"In return, the Beast Tamer should complete the client's request. It's a barter method. There is no limit for tiers."

"If anyone is interested they can either send their information to our auction online address or register their name right now. The final decision rests with the client," He added.

Gasp!

A huge exclamation occurs. A few of the beast tamers stood up from their seats.

"Field Area!"

They uttered in complete shock and disbelief. Those who knew about the Field Area were shocked as well. Didn't expect someone to allow an outsider to enter their Field Area?

There are still confused people. Especially, Jeremy Night didn't know about the field area.

He turned to his side and asked, "Captain, what is this field area?"

Hearing that Sinag wasn't surprised. Because this was not known to many. It's not surprising that it didn't spread to the 14th zone. Because the resources there were scarce.

"Did you see that Green water spring earlier?" Sinag asked.

Hearing that Jeremy nodded to her.

"Where do you think it comes from?" She asked.

Jeremy immediately replied by saying, "It must be a special place"

"Good, then think of the field area as a smaller version of the special place. Some are naturally formed and others were artificially built."

"Beast Tamers who practise their breathing method would get twice the results," She added.

Hearing that Jeremy Night's eyes flickered with an understanding.

Chapter 365 365: Part 2: Auction comes to an end

Auction house:

Hearing Sinag's explanation. Jeremy was shocked inside. Because it reminds him of the Forbidden Area back in the 14th zone.

The whole Forbidden Area was a massive Field Area as per their words. But there are corrupted beasts and some other dangerous beasts living in that place.

He also knew that the place had gone through some changes during the mutation. He collected his thoughts and looked at the stage.

The last auction item turned out to be such a surprise in the end. Jeremy Night became interested in this barter method as well.

He wanted to know how the field area here is compared to the Forbidden Area back in the 14th zone. So he would like to know the details.

So he has decided to send them the details later.

The Beast Tamers on the first floor started to raise their hands. They wanted to register their names.

Seeing the number of beast tamers. Murray realises that it might take time.

The VIPs section was quiet. No one is saying anything. But some of the VIPs were in shock as well. They didn't expect the last auction item would be like this.

They felt it was a waste of time. One of them walked out of the private room and decided to leave the auction house.

Then others started to leave the place as well. The old woman on the 4th floor walked out of the private room.

She was dressed in a tuxedo. She glances around the place. The others were in a private room, except the first room, which was still locked.

Her eyes flash with an understanding. She then left the place as well.

On the stage, the Auctioneer Murray saw it was getting late. The time has already passed midnight.

"Alright, the auction comes to an end. Those who want to leave can leave the auction house. The rest of them who wanted to register the name can stay behind," Murray said to them.

"We were glad that you were able to attend the auction. We are hoping for your presence next time," he added.

"Jeremy, we can leave," Sinag said.

Ada, Amelia, Florence and Ruby stood up from their seats. They were ready to leave as well.

Jeremy heard them. He stood up from his seat. He was interested in this last auction detail. He thinks it must be some kind of task.

Once he completes the task, he can enter the field area to practise. He turned towards Sinag and started following her towards the exit.

He doesn't want to tell them yet. He will get the proper details the next morning.

Fredric, Albert, Cedric and George started to leave as well. Today's auction has shocked them. They don't have an opportunity to bid for any item.

Even if they wanted to do some, they don't have enough wealth.

On the other hand, the Sun Wheel Organisation Team Leader, Tim, was in a bad mood. He wanted to go home. He has failed to buy anything.

His team members began to follow him from behind as well. They wanted to leave as well.

While walking past their gazes fell on the Shadow Moon Team as well. The expressions turned bad. But they know it's not the place for a fight.

Sinag and others saw them as well. They ignored them and exited the auction house. They came to the flying cab platform area.

There is a flying cab service for 24 hrs. So they were quickly able to find the cab. They entered the cab one after another. Jeremy entered one of the cars.

Shortly afterwards,

Swoosh!

The Sun Wheel Organisation Team was able to find the cab service. They left the auction house as well.

Then, one after another, the beast tamers on the first floor left the place as well. But before leaving they have all registered their names.

They were keen to get the opportunity to practise inside the Field Area.

When everyone was gone. The young woman inside the first private room walks out. She was wearing a high-grade combat uniform.

She was the one who gave the final auction task. Seeing that many people have shown interest in the task. She was impressed.

She has a huge amount of work to complete the next day. She had to screen the people to find a suitable beast tamer for the task.

She then leaves the auction as well. The time has already passed midnight. The Auctioneer saved those names and gave them to the manager.

About 20 minutes later,

The flying cabs returned to the arch-type castle. The flying cars landed in the parking area one by one.

Then the beast tamers stepped out one by one.

"Damn!"

"The auction was something," Fredric commented.

"When will we become that rich," he added.

"We won't be able to become rich to that level. Unless we marry someone," Albert said.

"That's impossible to happen," Ada joked from the other side.

Hearing that Fredric and Albert were left speechless. They were just saying it casually.

Jeremy stepped out of the car in the end. He saw others discussing the auction.

The flying cabs then departed from the place.

"Let's go back to our room," Sing said.

Hearing that, others stopped the discussion and decided to enter the building.

The Team members had their own families living in the city. At the same time, they have their own personal room allocated in the organisation.

They have decided to sleep here before returning the next morning. One by one everyone walked into the building.

They parted ways before going back to their room. There are some staff working on the night shift as well.

Jeremy Night spoke to Sinag and Ada before going towards his room. He learnt from today's auction. Especially the wealth possessed by the VIP section people has really shocked him.

Soon, he reached his room. After entering the room, he locked the door. Then he entered the bath and started to take a shower.

He spends 20 minutes there before exiting. He then changes into comfortable clothes. Time has already well past midnight. He then went to bed to sleep.

Meanwhile,

Team Leader Gisela is still awake in her office.

Chapter 366 366: Backup team returned!

Office:

Gisela couldn't go back to her home. Because there has been no update from the Back-up Team so far. She thinks that they must have reached their destination.

Now, they must be looking for the Lost Sand Bloom Team. As time passed, her worries started to increase. The wilderness here was already dangerous.

You never know when the Tier-4 and above corrupted beasts would appear in the outer part. Compared to the outer part, the inner part of the wilderness is more dangerous.

The Tier-5 and above beasts roam randomly there. Their activities are more especially at night. So if the back-up team weren't careful. They could meet with serious danger.

Time passed,

She fell asleep in her room. Just before early morning, she received the call. She woke up and attended the call. She found that it was the backup team captain.

Then the Back-up Team Captain started giving the updates. Gisela's expression changes. She didn't expect the Flying Ant beasts to appear there.

Not one but many. There was also no sign of the Sand Bloom Team. She can understand what's going on. The Sand Bloom Team Beast Tamers might have been attacked by the flying ant beasts.

Earlier, she had sent Jeremy Night for investigation. He had found the evidence of the Ant Beasts colony. But the city administration hadn't taken it seriously.

She thinks that if they had taken preventive actions to destroy the ant-beast colony. The Sand Bloom Team would have survived now.

She then recovered her thoughts and remembered Charles. She told the Backup Team Captain to bring Charles to the organisation without failure.

She warned him that if Charles escapes then the Back-up Team will face the punishment. The Backup Team Captain was terrified. He then agrees to bring him.

When the call ended. She went back to sleep again, resting her head on the desk.

...

Meanwhile, the backup team captain looked at Charles after ending the call. Seeing that he was among the group, he sighed in relief.

He doesn't know what he has done. But it certainly broke the organisation's rules. Otherwise, Team Leader Gisela won't speak like this.

She has decided to keep him under his watch.

When the morning comes, the group has finally reached the outer part of the wilderness. It didn't take long for them to reach the parking area.

Charles showed hesitation. He thinks it's time to separate from the ground. He was still not sure what had happened to the team members who came with him.

He doesn't think that they were alive. But he still wanted to be careful. He wanted to confirm their death before going to the organisation.

So he turned around and walked to the Backup team Captain. He told him that he had some other work to do. So he will come to the organisation later.

Hearing that others didn't think much of it. But the face of the Backup team Captain changes. He hadn't expected Charles to ask him this. Now he really thinks something is wrong with him.

His team members noticed the change in expression. They don't know what's going on. Not only them, Charles also had a sudden change in the expression of the Captain.

He knew something was up. He just turned around to leave.

"Wait!"

"Charles, where are you going?" The Captain said in a cold tone.

Hearing that other team members stood up from the ground. They have never seen their Captain's face so serious.

Charles broke out into a cold sweat. He couldn't help but think about Sinag and the other two members.

"Captain, what happened?" Charles asked.

The Backup Team Captain said, "Everyone should return to the organisation first."

"There was no sign of the Sand Bloom Team. I don't want any mishap to happen in between," He added.

Hearing that Charles was stunned. He was taken aback by this answer. He thought he was exposed.

The other members thought that the Captain was being overly cautious.

"Let's contact the staff right now. We should depart from this place ASAP," The Captain said to them.

Hearing that everyone recovered their thoughts.

They started to wait for the flying cab. Charles had no other choice. He had to wait here.

The Backup Team Captain is looking at Charles.

Shortly afterwards,

The flying cabs came to their spot. At this time, Beast Tamers are coming in and going out from the wilderness. They are from different Mercenary organisations.

The Backup Team Captain walked up to Charles.

He said, "Let's get inside the flying car."

Hearing that Charles was stunned. Then he entered the car. The Captain entered next. Seeing that team members entered their respective flying cars.

Swoosh!

It didn't take long for the flying cars to depart from the place. They reached the city wall in 20 minutes.

The flying cars then flew over the city wall and entered the city one after another.

These cars then started moving towards the gated area where the Shadow Moon Organisation was located.

Then the flying cars landed on the platform area. When all the flying cars landed. The Beast Tamers began to step out of the car.

The Captain stepped out of the car. Charles walked out as well. But his forehead is covered with cold sweat.

He looks around the place. Seeing that the atmosphere was the same. There is not much change. He began to calm his heart down.

"Let's get inside," The Captain said.

Charles recovered his thoughts and nodded to him.

Then everyone started to walk towards the building. After reaching there, they walked inside. The Captain waited for Charles to enter first.

When Charles walked inside. He saw that the lobby was extremely quiet. The Backup Team members were still discussing after entering the lobby.

The Back Up Team Captain told Charles to sit in the lobby. Hearing that, Charles went to the sofa and sat on it. Charles doesn't have a clue what's going to happen.

The Back Up Team Captain was about to call Leader Gisela. He saw Leader Gisela coming.

Chapter 367 367: Charles is imprisoned!

Shadow Moon Organisation:

The Backup Team turned towards Team Leader Gisela. He then put back his digital device. The Other Beast Tamers saw Leader Gisela.

They stood up from their seats. Including Charles. They didn't expect Team Leader Gisela to be awake this time. Then they realised that Team Leader Gisela was waiting for them.

Charles is sweating. Words were not coming from his mouth. Because he didn't expect her to be awake. Charles came to the lobby. Her gaze immediately fell on Charles.

The next second, Charles felt he was seen through by the Leader Gisela completely.

"Charles, do you know what you did wrong?" Gisela asked in a serious tone.

Hearing that blood on Charles' face drained. He knew he f@cked up.

The Backup Team Captain and other Beast Tamers in the lobby were shocked. They don't know what happened. But they were able to do so now.

"In the face of Tier-5 Corrupted Beast. Instead of fighting against the beast with your team members. You have fled from the place," Gisela said to Charles.

Gasp!

Others took a sharp breath. The Backup Team Captain stood in disbelief. He had thought about many other things. But he never expected it would be this.

He recalled that Charles had told him that team members were dead. Including the newcomer Jeremy Night.

Charles lost strength in his legs. He couldn't believe that he was exposed. How does she know? Did others contact him? Which means they are alive. His mind finds it hard to come up with the answers.

Gisela saw through his thoughts.

She said, "Sinag, Ada and Jeremy Night were alive."

"Now take him to the prison," Gisela said.

Hearing that two elders came to the lobby and started dragging Charles to the prison.

The Backup Team Captain and other members remained here. What they have heard now is shocking to them.

Gisela turned towards the Captain.

She said, "You guys did a good job. I will take care of the flying ant beasts and the Sand Bloom Team issue. You guys can go back to your room and rest."

After saying that she left the lobby. She hadn't slept at all. Before going back to sleep. She is going to get the explosives from Charles.

The Backup Team Captain told the team members to go back to their room as well. He was confused about how the 3rd Squad members were able to escape from the Tier-5 Beast.

The Team Leader, Gisela, didn't say anything about it.

With that confusion in his mind. He went back to his room.

About 10 minutes later,

Charles was locked up inside an individual prison cell. He realised that he was completely exposed. There is no coming back from it.

He also knows that he won't be put to execution. Instead, they would send him to face corrupted beasts in a situation of crisis.

Just as he was thinking over it. He hears footsteps nearing the compound. He raised his head and saw the person who was coming.

His eyes flashed with fear. Because the person who is coming is Leader Gisela.

"What's going on?"

"Why is she here?"

A lot of doubts come to his mind.

The staff guarding the floor came to open the prison door.

Creak!

The door opens up, and she walks in the next second.

"Charles, I don't know whether you are stupid or not," Gisela said.

Hearing that Charles doesn't know what to say.

"I gave you all explosive devices. You should have used it to kill the Tier-5 beast instead of fleeing in fear. How do you think others have survived?" Gisela said.

Hearing that, Charles felt a thunderclap strike his head. He couldn't believe that he had forgotten such a thing.

"She was right," he thought.

The fear had stopped his rational thinking at that time. Then Sinag, Ada and the newcomer were able to leave because of the explosives. The next second, he let out a helpless smile.

"I'm sorry, leader. I'm a failure," Charles admitted his wrongdoings.

Gisela let out a sigh. She knew Charles was not this bad. He was doing fine. But she didn't know when she had this fear of life.

So much so, instead of confronting, he chose to flee.

"Alright, you know the rules. You won't face the death penalty. But you will be sent to fight against the corrupted beasts whenever it's necessary," After saying that she left.

The Guard locked the door.

Seeing that Charles sighed inwardly before closing his eyes.

Gisela took the storage bracelet, which was collected by the Guard earlier. She took the explosive device from it and collected it into her storage bracelet.

She then placed his storage bracelet on the desk before leaving.

...

Inside the room, Jeremy woke up and got out of bed. The first thing he remembered was the auction house event last night.

He immediately took out his digital device and began to access the auction house. He wanted to register his name for the mission.

Soon, he accessed the page. The page opens up. Then he went to the new notification section and found out about the mission details.

The mission description was not provided. It's just that he needs the Beast Tamer's background information. Jeremy hesitated for a second. He didn't hesitate before.

Now that he has realised he is being enthusiastic. What if they reject the Tier-2 Beast Tamer's application? The mission could be dangerous. But he relied on his combat strength.

He then pushes down the negative thoughts before registering his name. It didn't take long for him to submit the application.

He mentioned that he is from the Shadow Moon Organisation. Now it's up to the client whether they will select him or not. But he has done his job.

Then he got out of bed and started doing the morning routine.

Meanwhile,

The whole shadow moon Organisation is talking about Charles' imprisonment. The backup team members didn't hide this matter. From their mouths, news reached others as well.

Now everyone is criticising Charles' actions.

Chapter 368 368: Audrey Reed

Shadow Moon Organisation:

The whole organisation is discussing the betrayal committed by Charles. But the Head of organisation, Neil Moon, has warned everyone not to leak this matter.

The old man had read the report given by Gisela. He hadn't expected the flying ant beasts to appear. They have started killing the Beast Tamers as well.

He was now convinced that the Sand Blood Team had been killed by the flying ant beasts. Fortunately, their beast tamers hadn't suffered any casualties.

His eyes flash with anger thinking about the Sand Blood Team. From the beginning, the head and elders of the Sand Blood Team weren't revealing any full information.

But he thinks it's futile to continue with the mission. So he officially cancelled the rescue mission. Then he sent the information to all the elders and faction leaders.

Meanwhile,

Jeremy came down to the first floor. He is going to give the ruined armour suit for repair. He then comes to the inventory room where he meets with the staff.

He then told the staff about the issue and gave the ruined armour suit to the staff. The staff member was a middle-aged man. He recognised Jeremy Night.

But when his gaze fell on Jeremy Night and the armour suit next to him. His eyes flashed with disbelief.

"What happened to the armour?" The staff asked.

Hearing that Jeremy smiled and said, "It happened because of the corrupted beasts."

The staff was shocked and didn't ask further questions. He knows it's not easy to put this level of damage on the armour suit.

But Jeremy Night's armour suit has suffered this much damage, which means it must be powerful corrupted beasts.

He knows that Jeremy Night is a Tier-2 Beast Tamer. That's why he was shocked in his heart. Then he told Jeremy Night that he would repair it in a few days.

Jeremy Night then walks out of the room. His gaze sweeps across the lobby. He sees that his place was quiet for some reason.

Even the staff who usually pay attention to him were minding their own business right now. He then decides to go back to the room. So he turned around and started walking towards it.

...

Auction house:

The Auctioneer Murray has the list of the interested people. He is now taking the list to the Manager's office. The Manager was a middle-aged man.

His name is Grant. He allowed old man Murray to enter. When the old man Murray walked into his room.

Murray saw the manager and gave the name list to him.

Grant was excited. Because it was a big deal. Once they complete the task, the auction house will earn more health.

He began to read it. Seeing that as many as 30 people have given their names. He was not surprised. Because it's not easy to get connected with a big family.

Now that person from the big family has decided to open their Field Area for others. It's a good opportunity for everyone.

But one of the names caught his attention. The Beast Tamer is a Tier-2 Beast Tamer. For a second, he thought someone had wrongly entered his information.

"Okay, I'll send the name list to the client," After saying that, he told the Auctioneer to leave.

When the Auctioneer was gone from the place. The manager made the call to the client. The client was the young woman who attended the auction last night.

She was in the first room of the VIP section, a private room.

After sending the name list, the manager leaned back in his seat. He is going to wait for the reply.

...

Reed Family:

Inside one of the gated communities, there are many buildings. The whole place belongs to the Beast Taming Family.

It's one of the Beast Tamers' families in the city. The young woman was the second daughter of the Head of the Reed Family. Her name is Audrey Reed.

Among the many buildings, there is one well-protected villa. It's the home of Audrey Reed.

Audrey Reed was in her room. Suddenly, she receives a message from the Manager of the Auction House.

When she opened the message to read it. She raised her eyebrows in surprise. Because she saw that 30 people gave their names.

She became interested. She then began to go through the name list.

About 20 minutes later,

She had gone through every name and background information. But the strength of the beast tamers and organisations behind them wasn't impressive to her.

Most of the organisation of these people don't have a good relationship with the Reed Family. Obviously, she can't contact them.

Then her gaze turned towards the name of the Beast Tamers from the friendly organisation. One of the names caught her attention.

Because she doesn't know how a Tier-2 Beast Tamer can register his name. But when she went through the information about the beast tamer.

She was surprised. Because the Shadow Moon Organisation is friendly to the Reed Family as well. But she doesn't know whether the Tier-2 Beast Tamer is joking or not.

Suddenly, a realisation started to occur. She knows that no mercenary organisation would accept a Tier-2 Beast Tamer.

Then why does this beast tamer register his strength as a Tier-2 Beast Tamer? She becomes curious. She then contacted Manager Grant.

When the Manager Grant heard this doubt. He was not shocked. Because he saw the name as well. But he didn't think much about it.

He then told her that someone must have wrongly entered his information. Hearing that Audrey Reed felt it was reasonable.

She thinks that the Manager must have done background checks.

Then she told him that she would take time to go through the list. After saying that she ended the call.

Manager Grant didn't feel any wrong. But he didn't know that Shadow Moon Organisation really have a member with Tier-2 Beast Tamer strength.

Meanwhile,

Audrey got some other work. She didn't think much about it. So she left the name list on the desk before leaving the room.

Chapter 369: All quiet!

Shadow Moon Organisation:

Sinag leaves her room and comes to the lobby for a walk. She had a great experience participating in the auction last night.

She then comes to the waiting area and sits on the sofa. She doesn't know whether others have left the place or not.

It didn't take long for Ada and the other female members to come. Upon seeing Sinag, they smiled and walked upto to her.

Then they sat on the sofa. Florence, Amelia and Ruby began to talk. Only Ada had a solemn expression on her face.

She is looking at Sinag. She had heard the news this morning about Charles' arrest. She didn't know whether Sinag had heard about it.

Sinag could see the change in expression on Ada's face. She frowned. She understood that something had happened.

But she saw Florence and the other two members were behaving normally.

Suddenly, Fredric, Albert, Cedric and George came to the lobby. Everyone had a serious expression on their face. As if they had learned about something.

Ada saw them as well. Upon seeing their facial expression, she understood that they had heard it as well.

Fredric saw Ada and Sinag.

He immediately said, "Captain, when you said it. I didn't believe it completely."

"Now, Charles was captured. I realised that you guys were lucky to escape. If not for the explosives, you would have met with the danger," Fredric said.

Hearing that Sinag was surprised. She realises she has missed something. Ada saw through her thoughts.

She said, "Charles was arrested this morning. He was then put inside the prison cell."

"Oh," Sinag replied.

She wasn't surprised. She knew this would happen if Charles were captured.

"Okay, guys. Leave this matter. Don't think too much about it," Sinag replied. She wanted to drop this matter.

Hearing that Ada realises that she wants to forget this matter. Then she didn't ask further on this matter.

Fredric and others looked at each other's faces. But they didn't see the newcomer here. They thought he must be resting in his home.

...

Sun Wheel Organisation:

The Sun Wheel Organisation Elders are still discussing the disappearance of one of their 3rd Squad. It caused huge damage to their organisation.

They don't know what happened to them. But they were all reaching the same conclusion that something had happened to the time.

Most likely they were all killed. If it was done by the Corrupted Beasts, they can't do anything about it. But if it was done by the Beast Tamers.

Then they have the responsibility to get revenge.

But unfortunately, they didn't have a clue so far. The only clue that they had was the Shadow Moon Organisation Team.

They were able to know something from their spies. One of their 2nd members was imprisoned. He had ditched his team while fighting against the corrupted beasts.

It was the same team that had sent their 3rd Squad members to target them. It was surprising for them that the enemy team was able to return safely.

Including the person who had committed the crime.

Instead, the whole 3rd Squad failed to return from the spot. Even though they don't have any clues. They set their eyes on the Shadow Moon Organisation Team.

If they had an opportunity in future, then they would target the Shadow Moon Organisation for sure.

...

14th Zone:

Central University,

Betsy Lowe and Daniel Stone understood that Jeremy Night had gone from the City A. Not only did Jeremy Night leave the University, but he also left City A.

They were not only thinking about it. All the first-year students are thinking the same. It's been some time since they had heard anything about Jeremy Night.

May Lindsey was most curious other than Betsy Lowe and Daniel Stone. She was able to know from her family. She came to know that Jeremy Night had graduated earlier.

According to her family, Jeremy Night was not in their zone at all. It was huge news. Why is he not in this zone? Because he must have got another opportunity.

May Lindsey was clever enough to figure this out. But she got little envy. She is an S-Grade Talent. She was stuck here. Instead, Jeremy Night, with his A-Grade Talent, was able to leave the 14th zone.

When she had asked her family more about this topic. But they didn't know. According to them, only the Dean and Jeremy Night's parents know about it. But they had yet to reveal any information.

Because of Jeremy Night, she was fired up in her heart. She wanted to leave the 14th zone and enter a top zone in future.

On the other hand, Victor Scott knew about Jeremy Night from his parents as well. When he first learned the news he was shocked. He didn't expect Jeremy Night to leave the zone in its first year.

Even the seniors have failed to accomplish such a thing. But he didn't doubt Jeremy Night's talent and strength.

Everyone had witnessed it, Jeremy Night was able to kill Tier-3 and Tier-4 Corrupted beasts without relying on his lifeline beast.

Instructor Jacob entered the STRIKER Department as usual. But these days he has been silent. Especially when he sees the faces of Daniel Stone and Betsy Lowe. He felt even worse.

Nowadays, the whole University knows that Jeremy Night was not studying here and went to some other place. If Jeremy Night had gone to City C, people would have found out.

Now, they knew Jeremy Night was not in the City C as well. From this, any person can figure out what might have happened.

Daniel Stone and Betsy Lowe are in the class. They were asking how to improve their lifeline beasts' strength. They wanted to break through as well.

Instructor Jacob had researched their lifeline beasts to help them. So he is helping them out to improve their strength.

So far, these two haven't pressured him regarding Jeremy Night. They, too, understood that he couldn't tell without Dean Carolyn's order.

Because of it, he was able to teach them better.

Chapter 370: Special healing herb!

The Reed Family:

Audrey Reed came back to her room after finishing her work. After taking some rest, she takes the name list again.

Looking at the name list, she frowned. She had already crossed many names off the list. Only fewer than 10 people are suitable for the mission.

Among them, she rejected Jeremy Night's name. She didn't take it seriously. Right now, she has decided to contact these 8 people.

She then began to contact the first person. He was from a medium-sized organisation. The person was a middle-aged man who was a Tier-4 Beast Tamer.

Audrey told him about the mission. The mission was to enter the inner part of the wilderness to find a special herb. She didn't further explain about the special herb.

She will tell when someone agrees to do the mission.

But the middle-aged man immediately rejected the mission. He was not stupid to enter the Inner part of the wilderness all alone.

The Tier-5 and above corrupted beasts live there.

If he goes alone, then he might not be able to come back. So he refused to do the mission.

Audrey was not surprised. So she contacted the second person. The second person was a female beast tamer. She immediately refused to do the mission when she realised it was a solo mission.

Not many people can do the mission. Unless the Beast Tamers have the strength of Tier-5.

Some elite beast tamers can confront the Tier-5 Corrupted beasts with the help of their lifeline beast.

Time passed,

Audrey contacted one after another beast tamer on the name list. But everyone refused to do the mission. She was disappointed.

She had thought people would do anything to enter the Field Area. But no one is entering the Inner part of the wilderness.

Audrey needs the special herb for a reason. She hopes someone will agree to do the mission. Suddenly, her gaze fell on the list.

She has contacted all eight people. But there is one more name left, it's the person who wrongly mentioned his strength.

The name was Jeremy Night. She raised her eyebrows in surprise. She doesn't know whether the person would accept the mission or not. But she has decided to contact the person. She won't lose anything either.

Meanwhile,

Jeremy Night, who was in his room, received the call. He was surprised by the sudden call. Then he took a moment to realise it could be someone from the Auction House.

He then attended the call. When he heard the voice. He was surprised. Because it was a female voice.

"Are you Jeremy Night?" Audrey asked.

Hearing that he replied by saying, "Yes, it's me."

"How can I help you?" Jeremy asked.

"I'm Audrey Reed from the Reed Family. I noticed that you have sent your details for the mission," Audrey said.

Jeremy was surprised in his heart. He realises it must be the client who is speaking to him.

"Yes, I'm interested in practising in your Field Area," Jeremy replied with an excited voice.

Audrey said, "I'm glad that you were interested. But the mission is going to be difficult. I don't know whether you would agree or not."

Jeremy calmed his heart down.

"You can tell me. If it's a suitable mission, then I will do the mission," Jeremy said to her.

Hearing that Audrey Reed decided to tell the mission content.

A few minutes later,

Jeremy Night was shocked in his heart. He had thought the mission would be difficult. But he never expected to be this difficult.

He didn't give an immediate reply. Instead, he is giving some thought. He had gone closer to the Inner Part of the wilderness in the previous mission.

He knows how dangerous the wilderness is.

Audrey was happy in her heart. She thinks it's the first person who is giving some thought.

She then said, "If you can complete the task, you will be allowed to practise in our Field Area. At the same time, I owe you a favour."

"In future if you need the favour in future, then I'll help you," She added.

Hearing that Jeremy dropped his last doubt. It's not easy to make connections. He thinks it's a good opportunity.

Because he thinks the mission was important to this lady. If he can complete her mission, then he can make a good acquaintance.

"What do you say?" Audrey asked.

"I'll do it. Send me the details of the mission," Jeremy replied.

Hearing that Audrey said, "Thank you. I didn't expect you to accept the mission. I'll send it right away."

Jeremy Night received the mission details a few minutes later.

"After completing the mission, you can directly contact me. There is no need to contact the auction house. This is my contact address, save it," Audrey said.

Hearing that she ended the call. Jeremy then put his device on the table. He then started recollecting his thoughts. He accepted the mission. But it's not easy to do. He still has an armour suit under repair.

He needs to get the armour suit first. Then he needs to get permission from the Leader Gisela.

Jeremy believes that he would achieve a breakthrough once he practises inside the Field Area.

Then he collected his thoughts before taking the digital device. He started to read the mission content.

A few minutes later,

His eyes gleamed with a twinkle. He knows that the lady needs a special herb. But he didn't expect that special herb to be a healing herb.

So he became interested and started searching for the special herb name. So much information appeared online. He began to read those articles.

About 10 minutes later,

He was able to learn more about the special healing herb. The herb is used to heal the injuries of the lifeline beasts.

Jeremy thinks that the lady's lifeline beast may be injured. Maybe she needs the healing herb for others. But anyway, he didn't find any issue with the mission.

It's just that the location of the mission poses a great threat to him. He needs to be careful in doing the mission.
