

## **STRIKER 371**

Chapter 371: New armour suit!

Shadow Moon Organisation:

Jeremy then pushed down the thoughts. He began to get ready. After wearing the uniform, he went to the lobby.

He saw that everyone was going about their business.

He entered the inventory room. Then he met with the same staff. He told the staff to repair his armour as soon as possible.

But he didn't tell the reason to the staff. After asking him to repair it faster, he exited the room. Then he recalls that everyone went to the auction house last night. He wonders what happened to others.

Then he thought of Team Leader Gisela and decided to meet her. He started walking towards the Leader's office. When he arrived at the Leader's office.

He saw that the office was closed. He then tried to contact Leader Gisela. But the call was not connected. Jeremy looked at the room in confusion.

He thinks that the Leader was not here. So he has decided to go back to his room. If it were the 14th zone, he might have entered the wilderness without asking for permission from anyone.

But the situation here is different. He can't do as he pleases. He needs permission. He then thought of the Head of the Organisation. The next second, he shakes his head.

He doesn't think the Head of the organisation would allow him on the solo mission. And it's not mission-approved by the organisation. It's not an official mission but a personal one.

Then he turned around and started walking back to his room. On his way, he came across other members. They looked at him and started discussing Charles.

The mere mention of Charles takes him back to the memory lane. He paused his footsteps and continued to listen to their conversation.

Then he had heard something which shocked him to the core.

"Charles was here. Then he was imprisoned in the cell, " Jeremy thought.

He thinks, Why has no one told him? Then he realised he was in his room. Apart from Sinag and Ada, no one bothers to tell him.

Then he resumed his walk. Soon, he reached his room and walked inside. He locked the door and went to bed. He lay down in the bed and took his digital device out.

He started doing research on the inner wilderness. He wanted to know what kind of dangers were hidden in the wilderness.

Meanwhile,

Sinag and other members were taking a rest. They don't have any idea that Jeremy Night is planning something.

Sinag was happy that Charles was locked up in the cell. She didn't show much reaction in front of others. But she was happy.

...

The following day:

Audrey calls Jeremy Night again on 10 in the morning. She wanted to know when he was leaving for the mission.

Audrey was happy that someone was going to do the mission. So she didn't check further information on Jeremy Night.

Jeremy Night was surprised by her call. He told her that he had given his armour suit for repair. So it will take time. But Audrey was impatient. Reader support at NovelBin made this translation possible.

She told him that she would send a new and better armour suit for his safety. But she wanted him to leave for the mission right after that.

Jeremy Night was shocked. He is yet to get any permission from the leader. But then he told her that he would do as she said.

Audrey ended the call. She is preparing to send a new armour suit. This armour suit is an advanced one. It fits the user's exact size.

On the other hand, Jeremy is wondering what to do right now. He needs to prepare. If he had explosives, it would be good. But he had given those two to Captain Sinag during the mission.

He thinks she might have given them back to Leader Gisela. He knows he needs equipment. But he doesn't have money.

"Sigh!"

He is going to walk on the dangerous path again. In Audrey's message, he saw the location of the mission site. The special healing herbs grow in quite a tricky place. It's a little deeper into the inner part of the wilderness.

As long as he reaches the places and completes the task. Then returned to the outer part of the wilderness in a short time. It would be good.

After collecting his thoughts, he lies on the bed. He is going to have some rest now. Once he leaves for the mission. There won't be one.

One hour later,

The staff comes to his room and knocks on the door.

He went to the door and opened it. Then he saw the staff standing in front of him.

"You got a package," After saying that, the staff gave him the rectangular box.

Upon seeing that Jeremy Night realises that there is an armour suit in there. He then thanked the staff before getting the box inside the room.

He locked the door and began to open the rectangular box which was neatly packed. When he opens inside. He saw a metallic silver suit inside.

His eyes flash with disbelief. Because the suit looks a lot simpler than the previous one. The previous one was bulky and heavier as well.

"She is serious about the mission," Jeremy thought.

Otherwise, she won't send this armour suit. He can tell that it was newly bought and an expensive one as well. He then picked the armour suit and began to wear it.

He wore it like a cloth. The next second, the armour suits fit his body size. Seeing that he was shocked. What kind of technology is this? He feels a lot lighter as well.

It doesn't look like an armour suit, but rather a slim combat uniform. But he believes the defence of the suit must be stronger.

Now he has little confidence in facing the threat against the Tier-5 Corrupted Beast.

Buzz!

The next second, he received the call from Audrey.

He attended the call and heard her voice.

"Did you get it?" Audrey asked.

"Yes, it fits my body size," Jeremy replied.

"Good, I hope you can now leave for the mission. It's urgent," Audrey said. Her voice sounded impatient.

"Okay," Jeremy replied without thinking.

Chapter 372: Getting a new license!

Shadow Moon Organisation:

Audrey ended the call after telling him to leave. Jeremy Night's eyes flickered. He just can't disappear all of a sudden.

It will raise questions. So he has decided to see whether there is a mission available in the location of the outer part of the wilderness.

It took a few minutes to get ready and get down to the first floor. When he got there. He immediately asked the staff about the mission.

The staff thought that the newcomer was getting bored here. They are looking for any available mission. But unfortunately, there was no solo mission available.

The staff told him that only the team leader can create new missions. Right now, the available missions are all the team missions.

Jeremy was disappointed. But he didn't show it on his face. Then he left the place and walked towards the exit.

The staff saw the disappearing back of Jeremy Night. They assumed that Jeremy Night was going to roam around the city. It didn't cross their minds that Tier-2 Beast Tamer is daring enough to go for a solo mission.

The Tier-2 Beast Tamers were all protected well inside the city.

Jeremy comes outside. He then started walking on the footpath towards the gate. No one noticed his actions.

While walking, Jeremy started typing a text message. He is going to send it to Leader Gisela and Captain Sinag. He didn't tell them about Audrey's mission.

Instead, he said that he is going to the Beast Tamer Association to look for a solo mission. He is planning to do the mission in the outer part of the wilderness.

After typing the message, he sent it immediately. Then he increased his pace towards the gate. He reached the gate and saw the guards.

He showed his ID before exiting the place. Then after taking a few hundred metres of walk, he arrives at the main street. It's the first time for him to visit the Beast Taming Association.

He hadn't upgraded his old ID card either. Fortunately, he got the residence permit here. So there will be no problem for him to upgrade his Beast Taming License.

Not long after he spotted the flying cab service. He spoke to the driver before getting into the car. The car left the place shortly.

Swoosh!

It started moving towards the Beast Taming Association. The driver was a middle-aged man. He is local. He started striking conversation with him.

He thought the youngster had just awakened his talent. Now he is going to the Beast Taming Association to get a License.

Jeremy continues to give a short reply. He didn't want to be rude. So he spoke with him continuously.

About 10 minutes later,

The flying cab lands in front of the huge marble building with a flag hoisted on the front plot. He stepped out of the car and paid the fare to the driver.

He then started walking towards the building. There are two main entrances and exits. People are coming and going. Some are in groups and some are in singles.

The size of the place is bigger than the size of the Beast Taming Association back in the 14th zone. He started following the people.

While walking he is also overhearing some conversations. They are discussing the daily happenings in the city and their mission. There was nothing new to know.

Soon, he reached the main building and found the direction to the help desk. He started walking towards the help desk.

It was in the first corridor itself. He walks up to the desk and tells the staff about his purpose. The staff was female.

The female staff member who appeared to be a middle-aged woman wasn't surprised. Because it's normal for Beast Tamers to upgrade their license.

"Okay. Give me a few minutes. I'll call someone," the female staff member called another staff member and told her. Because she can't leave her position right now.

Jeremy began to wait.

A few minutes later, First seen on NovelBin.

Another female staff member comes to the place. She asked Jeremy to follow her to the testing centre. Where can they find out the Beast Tamer's Tier?

After walking past another corridor, they came to a lab-type room. The staff walked inside. Jeremy followed her to enter. Then he saw a few other staff members working there as well.

"We have a member here to upgrade his license," The female staff member said.

Hearing that one of the male staff members went forward to activate the scanning type device. The staff asked Jeremy to stand in front of the device.

Seeing that Jeremy was shocked. He was looking at the scanning type device for the first time. He then walked up to the place and stood in front of the scanning device.

"Give me your old ID," the female staff member asked.

Hearing that I took out the old beast taming license. Then I gave the card to the female staff.

The staff received the card. But upon receiving the card, she saw that the card looked different. Then she noticed that behind that card, it was mentioned that it's in the 14th zone.

Her eyes flash with surprise.

"Are you from the 14th zone?" She asked.

Hearing that other staff in the room were in shock as well. They didn't expect someone from the 14th zone to come here.

The other male staff member who was standing beside the scanning device was taken aback as well.

Jeremy Night saw everyone's reaction. He smiled and said, "Don't be in shock. I have joined the Shadow Moon Organisation recently. And I got a residence permit as well."

Hearing that staff were further shocked.

"Are you Jeremy Night?" The staff who led Jeremy Night here asked.

"Yes, it's me," Jeremy replied.

"No wonder," the female staff member uttered.

The other staff knew about the recent news as well. They knew who Jeremy Night was.

"You have defeated Tier-4 Corrupted Beast," the male staff member standing beside the scanning device asked.

"Yes, I have," Jeremy replied.

"Can you upgrade my card?"

"I'm in a hurry," Jeremy added.

Chapter 373: Threat of stalkers!

Beast Taming Association:

After the shock, the staff were able to understand that Jeremy Night is now the official resident of the 10th zone.

They don't need documents to verify. The news about Jeremy Night is known to all of them. His name had even shocked some forces in the top 5 zones.

"Alright, let's get started," The male staff member said.

He then explained to Jeremy Night about what was going to happen now. The device will scan Jeremy's body from top to bottom.

Then the scanned information will appear on the screen. Everyone will know then what the strength of Jeremy Night is.

Jeremy Night said, "Okay. Let's start."

He doesn't want to waste time as well. A blue ray shot from the device. It started to scan Jeremy's body from the top head to toe.

The others are curious to know. They knew that Jeremy Night was a Tier-2 Beast Tamer. His license was not upgraded.

A few minutes later,

The scanning device finished the task. The blue rays stopped coming. The next second, the information appears on the screen.

[Tier-2, 2nd Rank-Early Stage]

Seeing that the male staff wasn't surprised. Everyone can see that Jeremy Night is a Tier-2 Beast Tamer.

"It's confirmed. You can get your new license," the male staff member said.

The female staff member then collected the old ID card and replaced it with a new one. It took her a few minutes to update the details in the new card.

The new card has the name and the organisation's name. At the back of the card, it's mentioned that it was the 10th zone.

She then gave the new card to Jeremy Night.

Jeremy Night accepted the black crystal-like card. A smile appeared on his face. He had thought it would be a difficult process.

But the process was completed smoothly.

"Do you need any other help?" The female staff.

Hearing that Jeremy Night said, "I'm planning to do a mission. Can you help with it?"

"What?" The name staff was dumbfounded.

"Are you insane?"

"You are just a Tier-2 Beast Tamer. You won't be able to survive there," The male staff said.

"Yes. He is right. You recently joined the organisation, don't you think it's too early to do a mission?" the female staff member said.

The other staff in the room were watching them as well.

Jeremy smiled and said, "It's going to be my third mission and second solo mission. Don't worry about me?"

"What?" The female staff were surprised this time.

Jeremy Night's words had left them speechless.

The male and female staff looked at each other's faces. They realised they were underestimating Jeremy Night.

"Alright, come with me. I'll take you to the office," the male staff member said.

Hearing that Jeremy thanked them for their help.

Then he started following the male staff. The rest of the staff were looking at Jeremy Night's back with amazement.

They didn't expect to meet such a talented young beast tamer here.

"He will soon become famous," one of the staff said.

"He is already famous. But everyone will start taking him seriously," the female staff said.

On the other hand, the male staff brought Jeremy Night to the main office. Already, beast tamers are standing in the queue.

"You just need to stand behind the line. When your turn comes up, just make your request to the staff," The male staff member said.

"Okay," Jeremy replied. Then he thanked him before standing behind the line.

The male staff then nodded to him before leaving. A few curious people saw this scene as well. They don't know why the staff is speaking to this person.

Time passed,

One after another beast tamers left after getting the mission. Eventually, his turn came. He stepped forward and spoke to the staff.

The female staff member behind the desk asked for the license. Jeremy then gave his new license. The female staff member accepted the license and began to verify it.

Then she looks up for the available solo mission for the Tier-3 Beast Tamers. It's only the lowest level missions they have.

She saw the Beast Tamer was only Tier-2. But upon seeing the name, she recognises the person. She didn't expect this famous kid to come here.

Now he is going to do the mission. She didn't want any commotion to happen here. She quickly showed the available missions.

Jeremy Night began to go through the mission details. Then he selected a similar herbal collection mission.

He accepted it. The mission location was the outer part of the wilderness. The female staff then registered Jeremy's name for the mission.

She also told him there is only a 4-day time limit for the mission. Jeremy agrees to the mission. The female staff member got the confirmation before giving back the ID card.

Then Jeremy Night left the place. Some people had eyes on Jeremy Night earlier. Because he was only Tier-2. Seeing him accepting the mission, they felt it was kind of a joke.

That's why many unwanted eyes fell on him. Seeing him leave, some of them had malicious intentions.

They are planning to plunder. A few people quickly started following Jeremy Night. Once the Tier-2 Beast Tamer enters the wilderness. They will have the opportunity to act. Your support at MV^LEMP^YR keeps the series going.

But they can't do anything here. It's forbidden to fight inside the city.

Jeremy had powerful senses because of his talent. He felt that some people were stalking him.

As long as the Beast Tamers are not Tier-5 and above, he can handle the rest of them. He then found a flying cab and asked the driver to drop him at the wilderness entrance.

The flying cab driver demanded high fees. He understood why the organisation had their own flying cars.

Then he negotiated with the driver and managed to lower the price. He then entered the car.

Swoosh!

The car hovered above the ground and started flying towards the destination.

The stalkers quickly informed their leaders. They want to leave quickly as well. Otherwise, they would lose their tail of that kid.

Chapter 374: Part 1: In search of herbs?

Wilderness:

The flying cab flies over the huge city wall and starts going towards the wilderness entry. It didn't take long for the flying cab to reach the spot. It slowly landed on the ground.

At the same time, a few other flying cabs came to the same spot. They are Beast Tamers from the City as well. When the car landed, Jeremy stepped out of the car.

He paid the fare before going towards the wilderness. He then followed the path where a few other beast tamers were using the same path.

Beast Tamers are coming and going out of the wilderness.

Jeremy Night is wearing the new armour suit. But it doesn't have headgear. Because of it, others could see his face. But he doesn't care about it.

The other Beast Tamers saw Jeremy Night as well. They were surprised to know that a Tier-2 Beast Tamer is going alone into the wilderness. Since they were unfamiliar. No one bothered to ask questions.

Jeremy Night decided to complete the Beast Taming Association's mission first. Once he was done with it. He can then go to the inner part of the wilderness.

So he changed direction and deviated from the original path. He went towards the right side of the road. He started walking deep into the wilderness.

About 20 minutes later,

After walking a couple of hundred metres, he found out that the place looked like a shrubland. So he can spot the corrupted beasts from a distance. There won't be any danger of a surprise attack.

Rustle!

A rustling sound comes all of a sudden.

Hearing that Jeremy turned around. He started using his eye ability. From his eyesight, he spotted a corrupted beast going past the shrubs.

"What is this?" Jeremy asked himself.

There is a definitely corrupted beast around him. Just as he is observing the spot. He hears another rustling sound. This time it comes from another direction.

He slightly turned his head and saw a four-legged hybrid beast standing behind one of the shrubs. Seeing that Jeremy understood, he came across a group of beasts.

Not an individual wandering corrupted beasts. Jeremy takes his handgun out and holds it in his hand. Since he had spotted the corrupted beasts. He can't retreat without finding these herbs.

The herbs are growing in this direction. If he goes in this direction, he could come across their growing place.

A few seconds later,

The four-legged, hybrid, corrupted beast over 8ft in height appears out of the bushes. It has strong, busy, and dangerous biting teeth.

When Jeremy takes a good look at the beast. He heaved a sigh of relief. He had thought it was a dangerous beast. But it turned out to be a Tier-3 Corrupted Beast.

So far he has seen only 2 corrupted beasts. Jeremy continues to use his eyes to monitor the place. But there was no sign of more beasts appearing. The canonical source for this content: M|V|L2EMPYR.

It's just these two beasts hiding behind the bushes that are posing a threat. Jeremy then starts to circulate the starlight energy.

He uses the starlight liquid to cover the bullets. He is still holding his gun down. But his eyes wander to find the target.

Swoosh!

One of the four-legged hybrid beasts dared out towards the attack. Jeremy finally sees its full body. The hybrid beast has its mouth wide open.

The razor-sharp teeth were wanting to bite the flesh of someone.

The next second, I raised my hand and pointed at the Corrupted beast.

Because of Supreme Combat Body Talent. My senses were all heightened. The corrupted beast's movements appear to be slow.

With the support of the eye ability, I was able to lock in the target.

Bang!

The next second, I pulled the trigger. A silver bullet is released from the handgun. The silver bullet pierced through the air.

At breakneck speed. The bullet speeds through the air before reaching the target.

Puchak!

The silver bullet then goes through the head of the corrupted beast. When the silver bullet comes out of the forehead of the corrupted beast. It leaves behind a small hole in the forehead.

Tud!

The huge body of the four-legged corrupted beast paused for a second before falling to the ground.

Swoosh!

At the same time, the 2nd Corrupted beast leaps forward to attack. It's launching a surprise attack. But unfortunately, Jeremy Night lost his eyesight.

He then targeted its forehead and pulled the trigger the next moment.

Bang!

The starlight bullet then speeds through the air. In a blink of an eye, it enters the forehead of the corrupted beast and comes out of it.

Pfff!

The blood emerges from the forehead. The corrupted beast didn't know what had happened. It falls to the ground. After killing the two corrupted beasts, he resumed his journey.

Time passed,

He continues to move forward. While doing that, he is using his eyes to monitor the place. If any corrupted beasts appear here, he would know that.

...

Shadow Moon Organisation:

Sinag woke up after taking a small rest. Right now, she feels better. She is ready to go on the mission. But she knows Leader Gisela won't give them a mission any time soon.

She then casually takes out the digital device to check the message. She wants to see if anyone has sent her a message. She then saw unread messages.

Among them, she saw the message sent by Jeremy Night. She raised her eyebrows in surprise. She opens the message to read it. But upon reading the message, her expression changes drastically.

"What the..?" She stopped after saying that.

She doesn't know what's wrong with Jeremy Night. She knows that Jeremy Night is strong.

Stronger than herself, the Captain of the 3rd Squad. But she wonders where the guts for Jeremy Night come from.

What more? She saw that it was not their organisation's mission. Jeremy Night has taken a mission from the Beast Taming Association.

She then saw that the mission area was located at the outer part of the wilderness. There won't be any threat of the Tier-5 Corrupted Beasts. But no one can say for sure.

Chapter 375: Part 2: In search of herbs?

Shadow Moon Organisation:

Just as Sinag was thinking over Jeremy Night's mission. She receives a call from someone suddenly. The person is none other than Leader Gisela.

Seeing that she knows that trouble has come. But she can't ignore her. Sinag then attends the call. The next second, she hears the voice of Leader Gisela.

"Sinag, what's going on here?"

"Where did he go?" Gisela asked.

Hearing that Sinag touches her forehead. She then began to tell her about the mission.

"I got the forward message as well. But how dare he go without asking permission," Gisela said with anger.

"Leader, I think he went to upgrade his Beast Taming License. From there, he might have thought about doing a small mission. I saw the mission location was the outer part of the wilderness," Sinag tried to cover for Jeremy Night.

But Gisela was still angry.

She said, "I'm not concerned about the mission. I'm worried that Sun Wheel Organisation people might do something."

Hearing that Sinag was left speechless. She knows how Jeremy Night dealt with the 3rd Squad that day.

"Sinag, what happened?" Gisela asked.

"Leader, don't worry about him. He can take care of himself. As long as there are no Tier-5 Corrupted Beasts, he would be fine," Sinag replied.

"Alright, report me if you get any message from him," After saying that Gisela ended the call.

"Phew!"

Sinag heaved a sigh of relief. She was worried that Leader Gisela would send them after Jeremy Night. Because she knows they would be no help to Jeremy Night.

Even if it's a Tier-5 Corrupted beast, Jeremy can fight against it for some time. But they can't do that. She then collected her thoughts before starting to do some other work.

...

Wilderness (Outer part):

The stalkers who followed Jeremy Night earlier entered the wilderness a few minutes ago. They are now looking for the Tier-2 Beast Tamer.

Their actions were secret. If others knew about their actions, they could inform the family or organisation behind the Tier-2 Beast Tamer. So they wanted to do it without alerting anyone.

It didn't take long for them to collect information about the Tier-2 Beast Tamer. The other Mercenaries had seen Tier-2 Beast Tamer going forward.

After knowing that they had started moving in the same direction. They were confident that they could find the Tier-2 Beast Tamer soon.

Because they had years of experience. They knew almost every nook and corner of the outer part of the wilderness. If it's an inner part of the wilderness, they might show some hesitation.

But the outer part of the wilderness is totally different. They can walk around freely. The strength of the team varies from Tier-3 to Tier-4. Apart from finding the Tier-2 Beast Tamer, they were interested in finding other targets as well.

A group of beast tamers is coming and going out of the wilderness from time to time.

As time passes, under the Tier-4 Beast Tamers' watch. The Tier-3 Beast Tamers were looking for Tier-2 Beast Tamers and other targets.

Nobody knew the real identity of the Tier-2 Beast Tamer. They thought a beginner had come out to try his luck.

Meanwhile,

Jeremy Night continues to look for the herbs. Before nightfall, he comes across a place that is lush and has a different type of plant growing there.

Jeremy pauses his footsteps and checks the place with the mission description. The current place exactly matches the location mentioned in the mission description.

A hint of relief appeared in his eyes. He has been wandering around this place for some time. But he didn't expect the lush green area to be the exact site.

With the help of his eyesight. He started looking for the herbs. The mission description has the herb illustration as well. He needs to collect available herbs.

There is no limit to the number of herbs. He has decided to find a few before heading towards the inner part of the wilderness. The real mission lies there.

While looking for the herbs, he is also wary of the corrupted beasts guarding the herbs. So far, he hadn't seen one in his eyes. But he is not going to let down his guard.

It didn't take long for him to find half-moon-shaped red flowers. He hadn't seen such flowers before. But it matches one of the illustrations.

Jeremy then uses his second eye ability to check whether any corrupted beasts were hidden near the place. Surprisingly, he found none. So he went to collect the red flower.

He then neatly removed it from the soil before placing it inside the container. Then he spends time finding other herbs. There were no other beasts here.

About 20 minutes later,

He was able to collect 5 more herbs without any problem. Now he has 6 in total. Among the illustrated herbs, these 6 herbs are considered important.

Jeremy thinks that it's enough. He has decided to go towards the inner part of the wilderness. But for that, he needs to return to the main route. Which was far safer.

Time passed,

It's well into the nighttime. With the help of his eye ability and superior senses, Jeremy was able to avoid the troublesome areas. He is getting closer to the main route.

Fortunately, he remembers the route. Just as Jeremy thought there would be no danger. He sees Beast Tamers coming from the opposite direction.

He was surprised. Because this is just uneven land filled with shrubs. There aren't many corrupted beasts on this side as well.

He doesn't know what to do? He doesn't want to cause any problems.

"Someone is out there!"

The next second, he hears a loud voice from the other side. He was exposed.

"It could be the Tier-2 Beast Tamer."

"There are no Beast Tamers around him."

When Jeremy heard continuous shouts. His expression changes. Their target was him. He immediately thought of the Sun Wheel Organisation.

Swoosh!

The next second, he turned around to flee. He wasn't sure whether any Tier-5 Beast Tamers were accompanying them. He didn't want to confront them without knowing about them.

Chapter 376: Unexplainable situation!

Wilderness (Outerpart):

Jeremy Night was on the run. Beast Tamers are chasing him from behind. He knows this route. Because he just came back following the route.

Now he is using the same route again. He recalls a perfect place to hide. It's the spot behind the mountain rock. The place was covered with high dense shrubs.

It won't be easy for others to find him. Unless they rely on the help of their Lifeline beasts. After going through an uneven path, he came to the location.

He quickly hides in the bushes and comes behind the mountain rock. At the same time, he is using his eyes to monitor the surroundings.

The place is not far away from the place where he encountered those four-legged hybrid beasts. There are chances of them living nearby as well.

Shortly afterwards,

A commotion occurs.

"He must be here!"

"Find him."

The voices of urgent shouting reach his ears. Jeremy Night's eyes turned cold. He needs to confirm which organisation the beast tamer belongs to.

At night, though, it's difficult. He could see that their badges were different. The strength of the beast tamers doesn't seem to be strong.

So far he could see eight people. Among them, two of the Beast Tamers appear to be the leaders of the group. Their strength seemed to be Tier-4.

His gaze swept across. He was able to confirm that their strength was Tier-3. This group doesn't pose a threat to him.

Then Jeremy was surprised. Apart from the Sun Wheel Organisation, no one pays attention to his existence. Only they care about him because of the Shadow Moon Organisation.

He hadn't made any enmity with others. While he was confused. He continues to hear their shouts and screams.

Suddenly, he caught a clue from their conversation. There were a few people who followed him after leaving the Beast Taming Association.

But they had disappeared when he boarded the flying cab. He understood that these groups had followed him to the wilderness.

He could understand their reason for targeting him as well. He was just a Tier-2 Beast Tamer in their eyes. But they didn't know it was their biggest mistake.

Jeremy takes out the handgun and decides to shoot them.

"Aaaahhh!"

"There are corrupted beasts here!"

Suddenly, someone shouted. Hearing that Jeremy pauses his actions. He didn't expect the corrupted beasts to appear just now.

He then lowered his gun and began to watch their fight. The corrupted beasts that appeared were the Tier-3 Corrupted Beasts.

Boom!

The next moment onwards a fierce fighting started. The Beast Tamers started clashing against the Corrupted Beasts. The 2 Tier-4 Beast Tamers are helping from behind.

Jeremy began to observe the fighting and watch his back as well. The Corrupted beasts were the same as the hybrid four-legged beasts.

He had only encountered two earlier. But there are more beasts now. He wonders whether there are any Tier-4 corrupted beasts behind this attack.

It's surprising to see that all 5 corrupted beasts are Tier-3 beasts.

About 10 minutes later,

They had killed the four beasts. The last beast was left in the ground. When they were about to win. A loud rustling sound appears.

In the blink of an eye, four more corrupted beasts appeared. This time they are Tier-4 corrupted beasts. Seeing that Jeremy was stunned. He was just thinking about them.

Now he has become serious. If there are Tier-4 Hybrid beasts here, then what about the Tier-5 Corrupted beasts? Jeremy uses his eyes to look around carefully.

Because he wasn't able to spot the sudden appearance of the Tier-4 Beasts earlier.

The Beast Tamers were shocked and started panicking. The faces of the two leaders have changed as well. They have come in search of the Tier-2 Beast Tamer.

But they encountered danger themselves. The Two Tier-4 Beast Tamers were clever. They summoned their lifeline beasts.

A two-lizard-type Tier-4 Lifeline beast appeared. Now the strength on both sides has become equal. The Tier-3 Beast Tamers won't partake in this battle.

The Tier-4 Corrupted Beasts are stronger than the Tier-3 Corrupted Beasts. They can easily kill them. The Tier-3 Beast Tamers don't want to take risks.

They went to the side of their leaders.

Boom!

The next second, the fighting started. The Tier-3 Beast Tamers started escaping. Only if they escape from the place can the Tier-4 Beast Tamers save their own lives.

As time passes, the battle continues to become fiercer. The Tier-3 Beast Tamers had long since fled from the place.

Now the two Tier-4 Beast Tamers were unwilling to continue with this duel. They wanted to retreat as well. But the Tier-4 Corrupted beasts are relentless and bloodthirsty.

On the other hand, Jeremy Night is closely following the situation. He wants to intervene as well. Not to save them but to kill everyone.

It's just that he is still wary of the Tier-5 Corrupted Beasts.

It didn't take long for both sides to suffer injuries. Jeremy thought it was time to end them. He picks up the handgun again. Using his eyes' ability, he locked onto his target.

Cry!

All of a sudden, the 2 Lifeline beasts made a weird cry. The Two Beast Tamers' faces were written with horror. The lifeline beasts communicated with them.

Swoosh!

The next second, they took back their Lifeline beasts and started fleeing from the place. The 4 Tier-4 Corrupted beasts were in an injured state as well.

But they were enraged and bloodthirsty and didn't want to give up on their target. Just as they were about to chase.

The Tier-4 hybrid beasts felt a sense of crisis. They fled in different directions. All of this happened within seconds

Jeremy, who was watching everything in secret, was shocked to the core. It was something unexplainable. Why would everyone run away? He couldn't find anything in his eyesight.

Jeremy knows it's not normal. So he doesn't plan on leaving right away. He decides to stay here until he confirms that the situation here is safe.

Chapter 377: Stepping inside the inner area alone!

Wilderness (Outer part):

About 15 minutes later,

Jeremy found that the place was quiet. There is no sign of any danger. So he finally left the place and started moving towards the main path.

He doesn't think others are waiting near the main path. If those people still came across him, he wouldn't mind eliminating them. Since he knows their strength right now.

Time passed,

Soon, he came to the main path. He doesn't see anyone there. His eyes flashed with relief. He checks the front and back of the path. After confirming that there was no one there, he started moving towards the inner part of the wilderness.

The real tests start right now. While walking on the path, I'm still using my eyes. But I'm not able to see anything. It doesn't mean I'm going to let down the guard.

The night passes, and eventually the next morning arises.

Surprisingly, Jeremy didn't come across other beast tamers, despite walking on the same path. By this time, he had already crossed the central part and got closer to the inner part of the wilderness.

As time passed, he started to get serious. He has somehow crossed the central part of the wilderness. Which was an easy task. Hereafter, he has to be careful.

He once checked the mission description. The mission site is still far away. He needs to enter the inner part of the wilderness first.

It didn't take long for him to get closer. But he started to come across beast tamers from other Mercenary teams. Jeremy becomes wary of others. The other Beast Tamers started to notice him.

"Hey, what's going on here?"

"A Tier-2 Beast Tamer is wandering alone!"

"Where is his team?"

"Their team could have left him behind."

The Mercenaries started their discussion. But they never came forward to help. Because of the Factions' fights, most of them don't want to get involved in anything.

Jeremy Night overheard some of the conversation. He was glad that no one came to bother him. Most importantly, he didn't see Beast Tamers from the Sun Wheel Organisation.

Time passed,

He reached the inner part of the wilderness two hours later. By this time, he had come across a few other teams. But still, no one bothered him. Everyone had assumed that he was following his team.

If they knew the truth, they wouldn't be able to sleep for a while. After entering the inner wilderness, Jeremy came to a spot where he needed to walk away from the main path. He needs to go inside the bushes and uneven terrain to find that special herb.

He then walked off the path and started going on the right side of the path. His one hand was on the scabbard. He is constantly using his eyes.

The inner part of the wilderness is the place for the Tier-5 and above beasts to move freely. Not long after entering deep into the grassland. Jeremy's eyes spot a corrupted beast. It's not any beast but a Tier-5 Corrupted Beast.

Jeremy had no other choice but to go along this path. The mission description stated clearly that the special herb can only be found in this spot. He continues to wait here for a few minutes.

But the Tier-5 Corrupted beast is showing no sign of walking away. Jeremy Night uses his second eye sight ability to see through the beast.

Then he found out that the Tier-5 Corrupted Beast was not a Salamander but a Rock Scorpion. The Tier-5 Scorpion beast can use its ability to attack.

The stinger in its tail is so powerful that it can punch through the hard rocks. Some of the hard rocks are special rocks with hard defence.

Jeremy is hesitating. He doesn't know whether it's okay to waste starlight energy here. What if he encounters more dangers ahead? The starlight energy is necessary.

He still decides to wait for some time. If the beast still shows no sign of moving away, then it will attack the corrupted beasts.

....

Shadow Moon Organisation:

Sinag was in the lobby. She is having coffee with other female team members. Everyone is chatting and laughing. But Sinag is thinking about Jeremy Night.

She thinks Jeremy Night should have returned by now. She doesn't think the mission in the outer part of the wilderness would take more than one day.

Ada, Florence, Amelia and Ruby were chatting. Ada notices Sinag's silence. She knows that Sinag doesn't like to talk too much. But she won't be completely silent either.

"Captain, what are you thinking?" Ada asked.

Hearing that the other three female beast tamers turned towards Sinag. They don't know why Ada asked like this.

"It's nothing," Sinag said, shaking her head.

Ada immediately smelled something wrong.

She said, "You are hiding something. Share with us. We can give some advice."

Hearing that Sinag smiled.

"Yes, captain. Tell us if something is bothering you," Florence said

Amelia and Ruby then said the same. Sinag decides to tell them.

She said, "Jeremy Night is doing a mission in the outer part of the wilderness."

"What?" Ada blurted out in surprise.

Florence was left speechless as well. Amelia and Ruby knew that Jeremy Night was their new team member. But their Captain's words have shocked them.

Sinag said, "Yes. He is doing the Beast Taming Association's mission. But he left yesterday. He should have returned by now. That's why I'm wondering what he's doing right now."

Hearing Ada understood the seriousness of this matter. But then she recalls Jeremy Night's strength. He had taken down the whole team of the Sun Wheel Organisation.

So she thinks there won't be any problem for Jeremy Night.

"Will he be okay?"

"He is just a Tier-2 Beast Tamer," Florence asked.

Hearing that Ada revealed a smile. She and Ada looked at each other. Only they knew the strength of Jeremy Night.

But Florence doesn't know the meaning behind their smile.

Ada said, "Don't worry. It's just the outer part. There aren't any dangers there."

"What are you saying?"

"The Outer part is still dangerous. Did you forget how we got injured because of the Tier-4 Corrupted Beasts," Florence asked in a serious tone.

She doesn't understand their reasoning.

Chapter 378: Injuring the eye of Tier-5 Scorpion!

Wilderness (Inner Part):

It's been 30 minutes. The Tier-5 Scorpion had shown no sign of moving away from the place. Jeremy decides to change and go around the Corrupted beast by taking a long route.

Then he starts walking. He continues to walk. He left the place of the Tier-5 Scorpion. After crossing a couple of hundred metres, he sees another beast resting on the ground.

He would have ignored it if he weren't familiar with the beast. Right now, he recognises the beast. It's a Centipede. The back of the beast is red and black in colour.

Thanks to his eye ability. He was able to spot the beast from a distance. But he is facing a new problem right now. The aura coming from the beast is stronger than the scorpion's.

"It's trouble," Jeremy thought.

He doesn't want to spend too much time in this inner area. The more time he spends here. He would come across more Tier-5 Corrupted Beasts.

Jeremy then decides to go back. He walks back on the same route. Soon, he returns to the previous position where he saw the Scorpion beast from this distance. This time he sees it again.

The Centipede beast is resting not far away from here. The fighting commotion could attract the beast. Jeremy didn't expect the Tier-5 Corrupted beasts to live in this close proximity.

He then decides to use a katana blade. The bullets are limited in quality. He has decided to deal with beasts using the blade.

Then he started moving towards the scorpion. The scorpion is well over human height. It uses its ability by using the sharp stinger.

Swoosh!

When he got closer. The scorpion beast awakened. It stood up and started pointing its stinger towards him. Jeremy could see a corrosive substance dripping from the stinger.

He could understand now. How can the stinger break through any defence? If the corrosive substance touched his body, then it would lead to serious consequences.

Jeremy decided to act carefully.

Swoosh!

The scorpion beast takes initiative by darting out towards the enemy. The stinger was in its attack position. It can strike whenever it wants.

The speed was so fast. The beast appears before Jeremy Night in a flash.

Jeremy has already covered his katana blade with starlight energy. When the beast appeared. He uses his eyes and senses to predict the attack.

The beast's movements become slow under his eyes. The Scorpion beast thrust its stinger forward to attack. The stinger is filled with corrosive liquid.

Under his eyes, he found that a powerful stinger was getting close to its body.

Swoosh!

Jeremy moves away from the spot. He evades the deadly stinger and launches a blade strike at the scorpion beast.

The starlight blade comes into contact with the head of the scorpion beast. The next second, he felt the resistance.

Boom!

The sparks appeared.

Then Jeremy used full force to thrust the katana forward. The blade went slightly deeper inside the scorpion beast.

Puchak!

Blood emerges. Seeing that, Jeremy withdrew the blade and leapt backwards to widen the gap.

The starlight blade left an injury on the beast's forehead.

Cry!

The Scorpion beast makes a weird sound. It realised that it was injured. The attack was so close to taking away its life.

The next second, it rushed forward to attack with its movable finger. It wanted to divide the prey body into two parts.

Boom!

The fingers are striking the empty air. Jeremy Night is evading the attack using his ability. The beast is a Tier-5 Corrupted beast.

So its movement and attack speed are giving Jeremy Night a tough time. If not for his superior senses and eye ability, he wouldn't have survived those attacks.

But then Jeremy had no choice other than to confront the beast. So that he can continue with his journey.

Swoosh!

All of a sudden, Jeremy leaps backwards before creating a bigger gap. He found out that the beast was not deterred.

It still thinks that he is an easy prey to kill. Unless the beast suffers a serious injury. The beast won't go away from the place.

Finally, he decides to use a handgun to target the beast's eye.

He sheathed his katana blade and took out his hand gun. The scorpion beast still rushes out towards him.

This time Jeremy remained in the same spot. He raised his hand forward and locked it into the beast's right eye.

Under his senses and eyes, the beast's movements become slower. When the beast came closer towards him.

His target becomes clear. He then covers the bullets with the starlight energy.

Bang!

Then he pulled a trigger. The starlight bullet shot from the gun. It speeds through the air creating booming sound.

The Scorpion beast felt a sense of crisis. But it was too late.

Puchak!

The starlight bullet goes through the right eye. The eye burst. Blood emerges like a torrent of flood.

The starlight bullet didn't stop there before striking the area of the brain. The beast felt immense pain.

Swoosh!

The next second, the scorpion fled from the spot.

Seeing that Jeremy didn't stop it. He wanted this result. When the beast disappeared from the place. He resumed his walk to find the special herb.

He quickly left the area. He doesn't want to face another Tier-5 Beast anytime soon. The fight would exhaust him.

He felt better facing the scorpion than the centipede. The speed and defence of the centipede are faster than the Scorpion.

He doesn't think that if it were a centipede, it would flee sooner. But fortunately, that resting Centipede didn't bother to come towards them.

After following the area described in the mission description. He finds a narrow creek. He decided to follow the water downstream.

The mission description says that water downstream leads to a place where the special healing herb was growing.

At the same time, it's also a place where you can find more corrupted beasts. The corrupted beast part cautioned him. He doesn't want to be surrounded by them.

After getting the special herb, he would flee from the place.

Chapter 379: The special herb was found

Shadow Moon Organisation:

It's evening. Captain Sinag and Ada once again meet up to discuss Jeremy Night.

"Do you think he is in danger?" Ada asked.

Both of them are taking a walk inside the gated community. It's nice to take a walk in the evening.

Sinag heard her question. She shakes her head and says, "I'm not worried about him encountering corrupted beasts. But I'm worried about the beast tamers."

"If the Mercenaries from a certain organisation saw him, then they would tip away the information to the Sun Wheel Organisation," She added.

Ada said, "It's true. But I don't think they will send the 1st Squad after Jeremy Night. Only two of us witnessed his capability. Even if they send the 1st squad, I think he will return unharmed."

"Let's hope it happens that way," Sinag replied.

Then they continued with their evening walk.

...

Reed Family:

Audrey Reed, in her room, was thinking about Jeremy Night as well. She urgently needs the special herb. Only Jeremy Night can help her at this time.

She knows that it was not easy to do a mission in the inner part of the wilderness. She is hoping that Jeremy Night will be safe.

If Jeremy Night could find the special herb, then she had already given her word that she would help him in future.

She means it. All she needed to do now was to wait for Jeremy Night to come back.

....

Wilderness(inner part):

After following the water, I reached a large pool of water. It was a small lake. Around the lake, there are different types of plants and flowers growing.

Upon seeing them, he knew they weren't ordinary plants. They are treasures. It's just that he is wondering why no one has picked these plants yet.

But he was not naive. He could see that the place was not simple. How could the pants have been untouched by her? He thinks that corrupted beasts must be nearby. It must be protecting the lake's body for its own use.

He then started to use his eye ability. Seeing that there is no sign of any corrupted beast. He slowly walks up to the water body. He still needs to see whether the special herb is growing here or not.

If there is no special herb here, there is no point in staying in the place. He doesn't want to poke those corrupted beasts for no reason.

As he got closer, he saw among the different types of growing plants. Among his eyes caught a yellow color plant. Upon seeing that he paused his footsteps. His heart filled with excitement.

But before going for it, he decides to verify with the flower illustration. Then he saw the special healing herb. It has the same yellow petals with a thick stem.

He then shifted his gaze from the illustration. It's time for him to collect the special herb. He unsheathed his blade and started going towards the water body.

At the same time, he is using his eyes. When he got closer to the pond. His eyes quickly see the changes in the pond water. Something is lurking under the pond water.

His eyes flashed with surprise.

He had heard of corrupted beasts living in the water body as well. But they were rare. You can't find them unless you go deep inside the wilderness.

But he had encountered one in this water body. Jeremy had no intention of disturbing it. He slowly walks towards the area where the plants are growing.

Swoosh!

Just as he was about to step inside that spot. He felt something appear behind his back. Jeremy quickly side-stepped out of instinct.

He rolls over the ground sideways away from the pond. He then saw what was awaiting him. It's a massive 6ft frog. His eyes flash with disbelief.

He was wondering what was lurking inside the pond water. But he didn't expect it to be a gigantic frog.

Croaks!

The next second, the yellow and green mixed dotted frog makes a sound. He could see the pus coming out from the back of the frog.

Jeremy had no good feeling about this. What more? The aura coming from the frog beast was no less than that of a Tier-5 beast.

He is now going to clash with another Tier-5 Corrupted beast.

Jeremy then sees the special herb. He wanted to secure the special herb before clashing against this giant frog. Because he doesn't want to attract other corrupted beasts because of their fight.

Swoosh!

The next second, he rushed out towards the plants.

Croaks!

The Tier-5 Dotted frog made a sound.

Boom!

The next second, it leapt toward the enemy to attack. Jeremy found that the speed of the beast was faster. He paused his footsteps before moving away from the spot.

The giant frog lands on the spot. The ground split opens because of the weight and power. At the same time, Jeremy stands on the other end.

Swoosh!

Without allowing the beast to attack. He rushes towards the plants. The back of the frog is facing him. Before the frog beast could realise.

He appears in front of the yellow special herb. He removed them neatly from the ground and collected them into his storage ring.

Swoosh!

He then turned around and started feeling. He didn't have time to store it inside the container. He found the weakness of the giant frog. Its speed only increases when it tries to leap.

The rest of the time the beast moves slowly.

Croaks!

The giant frog turned around and saw that the prey was fleeing. It saw that one of the treasure plants was gone. I felt anger. But it cannot leave the water body. Which is its home?

Splash!

The giant dotted frog jumps back into the lake water. Then it disappears into the water. In a flash, the water surface returned to calm.

At the same time, Jeremy Night saw this scene from a distance. He was surprised and happy. Then he realised what was going on. The beast was unwilling to leave the water body. It gave him a chance to escape.

Chapter 380: Return journey

Wilderness (Inner area):

Jeremy was fleeing without turning back. He gets back to the main route to the outer part of the wilderness.

From there he continues fleeing towards the outer part.

Time passed,

When night fell, he reached the start of the inner part border. He could spend time here and then continue the journey the next morning.

But Jeremy doesn't want to stay here. He thinks the area is still dangerous. There could be more corrupted beasts appearing on the spot.

So he continues his journey. In the nighttime, he is walking on foot. He suddenly remembers the yellow special herb. He forgot to put them inside the container.

Then he takes out the container and opens the cover. He takes out the yellow special herb and puts it inside the container.

Then he collected it inside the storage ring. He started walking on the path. Not even a long hour has passed. He came across a Tier-5 Corrupted beast.

When Jeremy Night saw the beast. He felt goosebumps all over his body.

Because he recognised the beast. It's the same centipede beast that he saw in the daytime earlier.

"How is this possible?"

"Did it follow me?" Jeremy thought back to back questions.

Then he thinks it must be a coincidence. He believes that the black centipede has come out to hunt. It's nighttime. It's normal to see many more Corrupted beasts.

Now he has trouble on his hands. He can't avoid the battle. Because the centipede has blocked the path. Its long body has covered the tracks.

What more? He was exposed as well. The beast is looking at him right now.

Jeremy drew his katana blade and held it in his hand. He started using his eye ability. His senses were heightened.

He is getting clearer information around him. Even if the tree's leaves move, he would know.

He then started walking towards the centipede. There is no point in escaping into the woods at night. It would lead to more danger.

So he decides to confront the Centipede beast right here. He needs to be wary of its ability. He thinks the beast has an ability related to speed. So he can't afford to make a mistake.

Swoosh!

Just as he got closer. The Centipede finally moved. It has a height similar to a human. But it has a lengthy body and more than a hundred legs.

When it moved. The Centipede crosses a half gap in front of Jeremy Night. But Jeremy Night felt the beast movement was slow.

Swoosh!

He quickly moved his body away from the direct confrontation. He knows the beast would reach the place in seconds.

Just as he escaped. The Centipede beast strikes the ground.

Boom!

The deafening noise sounded.

The huge body of the Centipede creates a huge crater on the ground. The aftermath shock force spreads across the place.

The small vegetation and bushes were uprooted completely. The dust rose from the ground. This all happened within seconds.

Jeremy felt the shock force. He knew the physique wasn't powerful against the Tier-5 Corrupted beast.

So he began to cover the katana blade with the starlight energy. He then started rushing out towards the beast's tail section.

The only way he could think of deterring the beast was to sever its multiple legs.

The Centipede turned his head and saw that the prey was still here. Its front body leaps forward to attack. It's using its ability.

Swoosh!

The Centipede's speed doubled out of nowhere. Jeremy, who is charging forward to target the beast's hind leg, was caught off guard.

Before he could stabilize or evade the attack.

Boom!

Its flattened, segmented body struck its back. His body was sent flying. He then crashes into the ground.

"AaahhhHHh"

A muffled grunt left his mouth. His entire body was screaming at him. He didn't wear headgear. So there are injuries on his head as well.

Fortunately, the beast struck his body, not his head. Otherwise, his head would have burst like a watermelon.

Swoosh!

The Tier-5 Centipede saw that the prey was down. It started charging forward to finish the kill.

Jeremy, who was experiencing immense pain, noticed the beast. His gaze fell on the antennas. He knows that centipede species have poor eyesight.

They can only track and sense using those antennas. He decides to follow the same method when he fought against the Tier-5 Dotted Frog Beast earlier.

He plans to severely injure the beast. Then only the beast might leave his back? He saw the beast get closer to him.

This time he is confronting face-to-face. The katana blade is still covered with the starlight energy.

Swoosh!

When the two poison claws of the beast were about to strike him. He sidestepped and swung his blade at the antennae.

Slice!

The blade movement was swift. The starlight-filled blade comes in contact with one of the antennae. The blade felt no resistance as it passed through the long antennae.

When the blade comes outside. The antennae fall to the ground.

Pfff!

The Tier-5 Centipede Beast was stunned. It stopped using the poison claws. It felt like one of the important organs was gone. It is experiencing pain and sensory problems. All at once.

It's facing difficulties. Jeremy could guess what might have happened. So he started fleeing. The Tier-5 Centipede went on a rampage here.

If I couldn't focus. Then it disappears into the woods to find a safe spot.

On the other hand, Jeremy is running non-stop. Soon, he reaches the Central part of the outer part of the wilderness. He has come out of major trouble.

Jeremy thinks that the possibility of encountering a Tier-5 Corrupted beast has reduced a lot. Now there is no serious threat to his life.

In one hour, it would be the next day. The activities of the nighttime beast would become lower.

As he continued to walk along this path, he finally saw the Mercenary Team walking at the front.

Upon seeing them, he reduced his speed. He thought there was no need to get closer to them. They could be hostile.
