

## **STRIKER 381**

Chapter 381: Submitting the mission items!

Wilderness (Outerpart):

Jeremy started walking along the path. He sees the Mercenaries are moving forward. As time passed, the mercenary teams saw him as well.

There are four teams. The Team moving in front of Jeremy Night has 6 members in total. There are three other 3 mercenary teams as well.

But they are moving way ahead of Jeremy Night and the 6-member team.

The 6-member team has once again started paying attention to Jeremy Night. Upon seeing that Jeremy Night is a Tier-2 Beast Tamer. They felt even more curious and started discussing.

They didn't know that Jeremy Night was returning from the inner part of the wilderness. They have assumed that Jeremy Night was separated from his team.

Now he is following the fellow beast tamers to return to the city. They belong to a medium-sized organisation.

The 3 other teams ahead of them were from similar organisations as well. They didn't notice what's going on behind them.

Time passed,

Morning comes, and they are getting closer to the city. By this time, a few more Mercenary teams joined the walk as well.

Strangely, no corrupted beasts were spotted. It appears that they were purposely avoiding the path. Because the number of beast tamers using the path was high.

If they bring out their lifeline beast during the fight, then their number would double.

Jeremy was relaxed as well. He was not on the edge anymore. He had escaped from the main threat. He doesn't feel threatened by the beast tamers.

On top of it, the Beast Tamers who were travelling along the path weren't hostile either.

Time passed,

The journey was smooth. Jeremy was able to see the city wall from this distance. He felt a huge weight lifted off his shoulders.

He knows that everything is not okay yet. There is this stalker team who were after him to plunder. He doesn't think they would take action against him in broad daylight.

Soon, the Mercenary Teams got closer to the entrance. They truly have returned to the entrance. Jeremy could see different flying cars.

Seeing that, he started walking up to one of the flying cabs. The beast tamers who were coming and going past him took notice of him.

He then went to the driver and spoke to him. The driver agreed to take him to the Beast Taming Association.

Jeremy sat in the car, back seat. He had collected a few natural treasure herbs. So he needed to submit them to the Association.

Swoosh!

The driver starts the car. The engine started. The car slowly hovers above the ground. Then it appeared in the midair before it began moving towards the destination.

A few minutes later,

It crossed over the 500-foot wall. It flies over the tall structures. Then it's slowly going toward the marble building. It's the Beast Taming Association.

In the meantime, Jeremy texted Audrey Reed that he was back. He asked her to come to the Beast Taming Association to collect her special herbs.

Meanwhile,

Audrey Reed, who was in her home, stood up from the sofa in shock. The next second, a bright smile appeared on her face.

Her earlier worries were all swept away by this news. Not only had Jeremy Night returned. But he was able to bring the Special herbs as well.

At this time, she truly recognised the strength of Jeremy Night. There aren't many people in the city who can do a solo mission in the inner part of the wilderness.

So her impression of Jeremy Night has skyrocketed just now. She then collected her thoughts and began to get ready. She needs to leave for the Beast Taming Association.

Beast Taming Association:

Meanwhile,

The flying cab drops him off at the entrance. Jeremy then paid the fare before going inside. He then started walking towards the mission Office.

Soon, he reached the marble building. Then he entered their mission office. His arrival made many people raise their eyebrows.

Because he was the only one with Tier-2 Strength. He quickly became the centre of attraction. It's just that his Shadow Moon Organisation Uniform has deterred many people.

Jeremy then went forward to one of the desks of the staff. He is looking for the same staff who assigned the mission to him. But she is not here.

So he turned towards the female staff member in front of him and told her about the mission.

The female staff member asked for the name and ID. Jeremy told her his name and gave her a Beast Taming License. She enters the name and ID number.

She then checks the current mission. Seeing that there was indeed a mission. She reads the mission description before asking about the result.

Jeremy then takes out the first container and places it on the desk in front of her.

The Female staff member opened the container to verify it. She then saw a few natural treasure herbs.

She was impressed. There was no limit on the number of treasure collections. The rewards will be based on the number.

She called one of the staff and asked her to invite the elder. An old man then comes to the desk. He started looking at the herbs.

He then gave a positive answer before the female staff set the mission to complete. She then told Jeremy Night that their money would be transferred to his account later.

Jeremy then thanked her before leaving the place. Not only has he done a solo mission for the organisation. Now he has done it for the Beast Taming Association as well.

He thinks that it was a good record. Next, he is going to meet an important person. He exited the marble building and came to the exit.

Then he saw someone standing in front of a black flying car and dressed in black combat clothes. The car itself speaks to how expensive it was.

When he got closer. The woman turned towards him and started walking up to him.

She is a middle-aged woman. Her gaze shows that she is here for him. Jeremy Night immediately thought of the special herb.

Chapter 382: 1 million credit points!

City A, 10th Zone:

Jeremy stares at the middle-aged woman. He thinks that the middle-aged woman might be related to Audrey Reed.

She walks up to him and then points towards a black flying car.

Seeing that Jeremy followed the direction and saw the flying black car.

Then someone opens the door. Audrey Reed shows her face the next moment.

Jeremy's eyes flash with an understanding. He walks up to her with a smile on his face.

Upon arriving at the car, he takes out the container from the storage ring and gives it to her.

"Thanks," After saying that Audrey accepted the container. She then opens the cover and checks. She sees the yellow special herb.

A hint of relief flashes in her eyes.

She then closed the cover and put the container back inside the storage ring. She turned towards Jeremy Night.

She then said, "You have completed the mission. So I'm going to keep my word. I owe you a favour. If you need something, you can tell me."

"But before that, I'll pay you 1 million credit points," she added.

Hearing that Jeremy Night was surprised. But he accepted her payment.

"One more thing. I'll contact you after making some arrangements for the field area. Then you can come and practise for two days," Audrey said.

Jeremy knows the importance of the Field Area. He thinks that 2 days were enough. He had the feeling of a breakthrough already.

"Okay," Jeremy replied.

Audrey nodded her head. But she suddenly noticed something. Jeremy Night was too young. She is getting a weaker aura from him.

But then she quickly forgot about it. Right now, she wants to go back home to use the special herb.

Jeremy said thanks before leaving. He doesn't want to interact too much with this person. He doesn't know about the Reed Family. He decides to do some research on her family background.

When Jeremy Night had gone from the place. The middle-aged woman sat back in the car.

"Rebecca, let's go back to the family," Audrey said.

"Yes, my lady," the middle-aged woman uttered before starting to drive the car.

Swoosh!

The flying car hovers above the ground. It slowly appeared in the midair. Then it started moving towards their family territory.

In the car, the middle-aged woman who was driving was not only the driver but also her personal protector.

Her expression was full of doubt right now.

Audrey notices her expression in the front mirror.

She asked, "Rebecca, what's wrong?"

Hearing that Rebecca collected her thoughts.

She said, "My lady, did you see that kid's student?"

"Who?" Audrey asked.

"The one who gave you the special herb," Rebecca said.

"Oh, his name is Jeremy Night. So what's wrong with him?" Audrey asked.

Hearing that Rebecca was stunned. Her eyes flash with a gleam then.

She has realised that the lady hadn't realised yet.

Audrey saw something wrong.

She asked, "What happened?"

"Did you notice something?"

Rebecca is driving the car. She is replying without this back. Her eyes were on the front.

"My lady, he is a Tier-2 Beast Tamer. I'm not wrong. Then how did he complete the mission? The special herbs were found in the inner part of the wilderness."

"The place is filled with Tier-5 and above corrupted beasts. He must have come across at least one. Then how did he survive with Tier-2 strength?" Rebecca said with a full, shocked expression on her face.

Because her mind is failing to come up with a solution.

"What?" Audrey blurred out in surprise.

She felt a rude awakening. Because she had paid attention earlier. She found that Jeremy Night was too young to be a Tier-3 and Tier-4 Beast Tamer.

She also found him to be weaker. But because of the excitement of getting the special herb. She forgot about it. But now her mind was back on him.

She finds it impossible as well. How can someone with Tier-2 Strength do a mission in the inner part of the wilderness?

"You are right!"

"How did he survive? The Tier-5 Corrupted Beasts can easily kill Tier-3 and Tier-4 Beast Tamers."

It's impossible to survive if he had faced Tier-5 Corrupted Beasts and above," Audrey started speaking to herself."

"Lady, forget about the Tier-5 Corrupted Beasts. He wouldn't have survived if he had come across Tier-3 and Tier-4 Corrupted Beasts," Rebecca said.

Hearing that Audrey was stunned again. Then she nodded to her.

"After going back, details about Jeremy Night. And don't tell Father or anyone else. I have given him my word. I owe him a favour," Audrey said.

"Lady. If you had asked your family, they would have sent a team to get the special herb. There is no need to do this privately," Rebecca said.

Hearing that, Audrey shakes her head and says, "Father had a lot of things on his mind. I just wanted to try it earlier. But it worked out well in the end."

"I think if I need something in future, I can hire the same guy again," She added.

Rebecca then nodded her head and continued to drive the car.

...

Shadow Moon Organisation:

A flying car stops in front of the pointed arch building. Jeremy stepped out of the car. He paid the fare to the driver before going to the building.

He didn't expect to return with this amount of money. Not only did he get a day's time limit for the Field practice. He got 1 million credit points for the payment.

He then opens the glass door and walks into the building. His gaze fell on the lobby. His eyes flash with surprise.

Because he saw Captain Sinag and Ada were discussing something. Upon seeing them, he started walking up to them.

Sinag notices Jeremy Night as well. She put her heart at ease. She was worried about him earlier. Ada turned around and saw Jeremy Night as well.

She then turned towards Sinag and said, "Told you!"

To that, Sinag smiled. Ada was confident that Jeremy would return unharmed. But Sinag was worried about other hostile Mercenaries targeting Jeremy Night.

Chapter 383: Convincing!

Shadow Moon Organisation:

Jeremy arrived before them with a smile on his face. Then he sat on the sofa opposite them. Seeing that Sinag and Ada looked at each other's faces in surprise.

Because they found Jeremy Night was in a good mood. Not only did their gazes fall on his armour suit as well. They knew this was not an armour suit given to him by the organisation.

It appears to be a new armour suit. In their heart, they wondered where he got it from. They found it expensive as well.

But right now, Sinag wanted to know more about the mission. Before Ada could say something. She asked.

"What happened?"

"Was your mission successful?" Sinag asked.

Ada turned towards Jeremy Night as well.

Hearing that Jeremy's eyes flickered with surprise. He understood that they must have discussed his mission.

He then calmed his turbulent heart.

He said, "Yes, I have completed my mission successfully."

Sinag smiled and asked, "Tell us about your mission?"

Hearing that Jeremy knew he couldn't walk away from here. He then began telling them about the mission.

As time passes, Sinag and Ada continue to listen. They were surprised to know that Jeremy hadn't faced any serious threat as they were worried about.

A few minutes later,

Jeremy finished with a quick explanation. He obviously lied to them. If they had known that he had escaped from the Tier-5 Corrupted beasts, they would have been shocked.

Sinag relaxed her eyebrows. She thinks she had worried unnecessarily. Ada wasn't that surprised. Ever since she had witnessed Jeremy Night's strength.

She stopped worrying about him. Then they spoke for a few other minutes. Before leaving, Sinag told Jeremy Night to report to Leader Gisela.

Hearing that Jeremy nodded to her. Then Sinag and Ada left the lobby. Jeremy then started going towards the leader's room.

Soon, he reached the Leader Gisela's room. He was about to knock on the door. But the door opened before him.

Creak!

The door opens.

Seeing that he realises that Team leader Gisela is here. He then walks into the room. He saw her sitting behind the desk.

Jeremy Night greeted her before sitting opposite on the sofa.

"You have gone to complete the Beast Taming Association's mission. What happened? Tell me from the beginning." Gisela asked casually.

She got some information from Sinag. She was not that worried. She knows about Jeremy Night's strength.

But she didn't know that Jeremy not only went to the outer part of the wilderness. But he went to the inner part of the Wilderness as well.

Jeremy then started to speak. He is beginning to tell the same lie.

Gisela continues to listen. At the same time, she is judging whether his words were true or not. She knows the wilderness in the 10th zone better than Jeremy Night.

The danger in the Outer part of the wilderness is great as well. It's not every day you can return unharmed after completing the mission.

She knows it's Jeremy Night's second solo mission. He had returned uninjured again.

A few minutes later,

Jeremy finished his explanation. Gisela found no problem with his words. She then thought of something and her expression turned serious.

She said, "Next time, you are not allowed to leave on your own without informing us. This time I forgive you."

"But next time it doesn't matter how long you should meet me in person before doing something like this."

Hearing that Jeremy Night was shocked as well. This is the first time he has seen such an expression on her face.

Then he said, "I apologise. Next time, I'll inform you in person."

"Good," Gisela replied as her eyebrows eased down a little.

She has a lot of things on her mind. The Sand Blood Team has been confirmed to be gone. The flying ant beasts' existence seems to be confirmed as well.

So she doesn't want to talk anymore. She looked at Jeremy Night and said, "You can go back to your room."

Hearing that Jeremy nodded to her room before leaving. But he was surprised inwardly. Because he found out that Leader Gisela is thinking about something.

"I wonder what she is thinking?" Jeremy thought in his heart.

He then walked out of the room and started going back to his room. Soon, he reached his room. Upon entering, he locked the door and sat on the sofa.

Phew!

He once again heaved a sigh of relief. This mission was intense. He had to be careful each and every second. The Tier-5 Corrupted beasts were not easy to deal with.

Apart from scratches, he wasn't able to do anything to those beasts. He can only target their vulnerable part which is their eyes.

But not every time can he use the same trick. If he missed out on any chance, then he might get attacked by them.

Then he collected his thoughts before deciding to go to her bath. He then noticed the armour suit he was wearing. He was dumbfounded.

He forgot about the armour suit during his conversation with others. His eyes flashed with surprise. He spoke with Sinag and Ada. Then he met with Leader Gisela.

He thinks both of them have seen his armour suit as well. But none of them raised any questions about this armour.

He was speechless. If they had asked him, then the chances of exposure would be higher. Nobody knows about his dealings with Audrey Reed. She seems to be from a big family as well.

He got 2 days for practice in their Field Area. It's quite big news. He is hiding it from everyone. He hopes that they won't make a big deal of it.

Then he collected his thoughts before going to the bathroom. He then entered the bath and started to take a shower.

The bath lasted for 20 minutes,

He then walked out and changed into comfortable clothes. He then went to bed to lie down. He has been awake during the nighttime as well. So he is going to take a rest now.

...

Reed Family:

Audrey Reed is going to consume the special herb. But before she could do that. Her protector comes to her with new information.

Audrey looks at Rebecca who has walked into her room.

"What?" Audrey asked.

"Lady, I got some information about Jeremy Night," Rebecca said in a shocking tone.

Audrey saw her face filled with surprise and disbelief.

She became curious and asked, "Tell me what you found?"

"Jeremy Night is none other than the kid who recently became famous. He was among the genius list as well," Rebecca said.

Hearing that Audrey Reed sat up straight. Because something lit in her mind. She was able to recall the trending news.

The news was so famous. The whole of Central University knows about the news as well. She took her time to digest the information.

Rebecca doesn't have to explain. She knows that Audrey heard about the news as well.

A few minutes later,

Audrey asked, "Did you confirm the news?"

Hearing that Rebecca nodded to her.

"I didn't expect someone from the 14th zone to be this powerful. He is just a Tier-2 Beast Tamer. Yet he was able to come to the 10th zone."

"The Shadow Moon Organisation had recruited Gem this time," Audrey said with a shocking tone.

Rebecca nodded her head before saying, "My lady, I believe that if it's this young man, then he can survive from the inner part of the wilderness."

Audrey nodded her head and said, "He had a record of killing Tier-4 Corrupted beasts before coming to the 10th zone."

"After joining the Shadow Moon Organisation, his strength must have increased," She added.

"Lady, I think it's good for you to meet him. If you can have a friendship relationship with him, then it's beneficial for both of you," Rebecca said.

Audrey smiled and replied, "You are right. I think it's necessary to tell Father. Maybe we can extend the time limit of Field Area practice to three days."

Rebecca didn't refute her. Jeremy Night's ability has shocked them as well. At this age, the young man is doing something impossible for the veteran Beast Tamers.

"I agree, my lady," Rebecca said.

"Okay, thanks for finding out. I'll tell Father during dinner later," Audrey said.

Rebecca nodded to her before leaving the room.

Audrey then smiled. She felt good knowing about Jeremy Night. It's not easy to make friends with such talented Beast Tamers.

She also knew that there was not much information about Jeremy Night. She recalls there was no recorded information on Jeremy Night's Lifeline beast.

"No wonder," she uttered.

She thinks Jeremy Night's lifeline beast must have helped him. But she didn't know that Jeremy had single-handedly dealt with all those corrupted beasts.

Not only her, but many of them who know Jeremy Night think the same as well. It's just that they had thought Jeremy Night didn't like to show his Lifeline beasts to others.

Chapter 384: Team meeting!

Reed Family:

Audrey Reed told her father about Jeremy Night. Her father's name is Dante Reed. Dante Reed was surprised. He knows about Jeremy Night as well.

Jeremy Night is a famous name. He, too, had heard about the genius list. But he didn't expect her daughter to make friends with the kid.

After having dinner, his daughter went back to his room. But he couldn't stop thinking about what his daughter had told him.

Dante Reed's eyes flash with a gleam.

"A Tier-2 Beast Tamer did a solo mission in the inner part of the wilderness," He said to himself.

He refuses to believe that Jeremy Night hadn't faced corrupted beasts there. The Tier-5 Corrupted Beasts are large in numbers and can be seen there.

He had also heard that Jeremy Night had collected the Special healing herb. He knows that the special healing herb was not easy to find, either.

Such natural treasures are often protected by the beasts. So he assumed Jeremy Night had hidden things from his daughter. He became curious about this kid.

Before leaving, his daughter made a request. She wanted to open the Field Area for three days for Jeremy Night. He knows the deal between them.

Though the days were extended by 2. But he didn't mind. He is now interested in knowing this kid. He has this feeling that their family would benefit from maintaining connections.

So he had agreed to his daughter's request earlier.

But he didn't mention which day it would be. Because it would take time for the arrangements. When the things are ready, he will ask his daughter to call Jeremy Night.

Then he collected his thoughts before going to bed.

...

Shadow Moon Organisation:

The following day,

Jeremy Night wakes up to huge breaking news in the morning. He was casually browsing the news. But he didn't expect such a big incident to happen at night.

The breaking news is about the flying ant beasts. They have attacked many Mercenary teams that were coming and going from the place.

The Mercenary Teams were all attacked brutally. There were casualties reported as well. Now the whole City A is tense.

The locals were worried about the Flying Ant Beasts' attack. Because the flying ant beasts take them back to the bad memory lane.

Because the City A of the 10th zone had faced a flying ant beast attack before. At that time, many casualties had occurred.

Jeremy only read a few headlines. But he realised that the situation was bad. Because he had personally faced the flying ant beasts.

At that time, he thought it was his good luck that he had escaped that day. The flying ant beasts went to their colony on that day.

Jeremy then collected his thoughts. He closed the device before going to the bathroom to take a shower.

The bath lasted for 20 minutes.

Then he stepped out of the bath and changed to fresh clothes. After getting ready, he exited the room and went to the lobby.

Jeremy didn't even practise today. Because the flying ant beasts' news has changed his mind. When he came to the lobby, he saw Captain Sinag and others.

Seeing them, he walks up to them. They were all sitting on their chairs and sofa. Upon seeing Jeremy Night, the female beast tamers greeted them.

But the male members simply nodded their heads to Jeremy Night. They weren't interested in talking to Jeremy Night.

"Jeremy, sit," Sinag said.

Hearing that Jeremy sat on the nearby chair. Fredric and others were discussing the Flying Ant beasts.

"Did you see the news?" Sing asked.

Hearing that he turned towards Sinag and nodded to her.

"You should be ready. We can be called back anytime for the mission," Sinag said.

"What is he doing?"

"He is weak. Tier-2 Beast Tamer won't be helpful to anyone. He is a drag. I don't know why he is in our team," Fredric said all of a sudden.

His real self spoke today. But the faces of others change drastically. They didn't expect Fredric to still be adamant about the recruitment of the new member.

Albert frowned. He doesn't like the newcomer either. But it doesn't mean that you can deliberately create a problem for the newcomer.

George and Cedric remained silent as usual. They didn't have much of an opinion to begin with. They were just following the rules.

Sinag and others felt bad. Sinag doesn't want any friction inside the team. She knew how dangerous it could be.

She can tell that Fredric is speaking from a point of ignorance. If he had seen Jeremy's strength in person, he wouldn't dare to speak like this now.

Sinag then said, "Fredric, it's the last warning for you. If you do this next time, then I'll inform Leader Gisela. You are creating an unnecessary problem."

Her voice sounded harsh. The male members felt hurt. Fredric was pissed off.

"Am I causing problems?"

"Did you forget the murder of the previous member?"

"We need stronger members. Only then will the team be safe. I don't know why leader Gisela brought this outsider here," Fredric bursts out.

His voice was loud enough that it was heard by others as well. Including the staff inside the office. Some of the staff walked out and looked towards them.

So do the other members who were walking by. Everyone paused their footsteps and looked at the 3rd squad members.

Everyone understood that it was an infighting.

Fredric saw others' reactions as well. He closed his mouth and sat back in his seat. Sinag was in a bad mood. Fredric is being unreasonable.

He doesn't know that it's because of Jeremy Night that she and Ada were alive. She wanted to tell him about it. Then she found a stern gaze from Jeremy Night.

She then sighed inwardly. She understood that Jeremy doesn't want to expose his strength. Ada saw this as well. She is feeling helpless as well.

The topic of the previous member was a sad one. No one forgot that. But right now they have more pressing matters.

Jeremy Night didn't care about it. He is now thinking about the flying ant beasts. Because there is a possibility of a beast's invasion.

He had experienced one. So he knows how dangerous it can be. He wanted to contribute more and earn respect from members and others in the organisation.

Then he thinks everyone would have a favourable opinion towards him.

The staff and other members resumed their walking. But the staff quickly reported to Leader Gisela. Something is going on with the 3rd Squad.

The staff felt it necessary to report to their Team Leader.

Meanwhile,

Team Leader Gisela, who was in her office, was troubled by the news as well. Because she had reported the news to Head Neil earlier.

But Head Neil told her that the City administration didn't believe their reports. Not long ago, the Sand Blood Team went missing as well.

Later, it was found that Flying Ant Beasts were responsible for their disappearance. Now this breaking news has come. She is feeling worse.

Buzz!

Suddenly, Gisela receives the call.

Hearing that Gisela attended the call. Then she hears that it's one of the staff. She told her about the 3rd Squad. Her expression changes.

She knew some members didn't like Jeremy Night. She thought things would change over time. But it appears that she needs to talk to them.

She then thanked the staff before ending the call. She called Sinag immediately. When Sinag attended the call. She was surprised.

Because she was still sitting with members in the lobby. Seeing her expression, others became silent as well.

Gisela told her to come to her office with everyone.

Sinag's heart skips a beat. She understood that someone had told the Leader about them. Sinag then agrees to come.

Gisela then ended the call.

Sinag then turned towards others.

She said, "The Leader has summoned us. Let's go."

Hearing that the faces of others change drastically. Fredric's face turned dark. He was the one who caused the ruckus earlier.

Everyone had watched it as well. He thinks someone must have reported to the leader. Not only he, but others were having the same thought as well.

Since the Leader has summoned them. They had no choice other than to leave. Then everyone got up from their seats and started going towards Leader Gisela's office.

Soon, they reached the leader's office.

Creak!

After opening the door, they walked inside.

Jeremy knew Leader Gisela was going to scold everyone. The male members are especially going to hear harsh scolding from her.

The female members sat in their seats. The male members sat in the chairs as well. Those who didn't have seats stood behind them.

Jeremy is one of them. Others were Sinag and Ada.

Seeing that Jeremy Night was stunned. From this alone, he can tell who cares more about the team. Others are self-centred.

Gisela noticed it as well. She sighed inwardly.

Chapter 385 385: Possible invasion!

Shadow Moon Organisation:

Office,

Gilsela swept her gaze across everyone. The members were all quiet. They knew what this was about. Fredric is panicking inside.

"I heard there is infighting in your team," She uttered.

Hearing that members were shocked. Fredric knew he was exposed. He doesn't know what to say.

"I'm the one who recruited Jeremy Night into our organisation. Head Neil gave his approval as well. Because Jeremy Night's combat strength is greater than his Tier-2 strength," Gisela said.

"He is a great addition to our team. He has already done two solo missions in the wilderness."

"So I don't know what the problem is with you guys," She added.

Hearing that everyone was quiet. They don't know what to say. Because Leader Gisela's words were right. They are being unreasonable.

Sinag said, "Leader, we were doing fine. It's only Fredric who is causing the problem. Otherwise, there are no other problems."

The other members were dumbfounded. They never expected Captain Sinag to speak like this. She usually supports everyone.

Now she spoke against Fredric.

Jeremy Night thinks that it's going to be interesting. He knows that Fredric was upset about the previous member's murder.

But he couldn't do anything. So he is taking anger on others. Especially on him.

Gisela then turned towards Fredric. Her eyes turned cold. Fredric was scared.

She said, "Do you have anything to say?"

Hearing that Fredrick immediately replied, "Leader, I was wrong."

Seeing that he admitted the mistake. Others were not surprised.

Gisela said, "Sinag, if anyone creates a problem next time, they will no longer be part of the 3rd squad."

Gasp!

Everyone sucked in the cold breath of air. It was a harsh punishment. They never thought that the leader would take this step.

They saw Leader Gisela's face. She was being serious.

"She was not joking at all," Jeremy thought.

He could understand why she was pissed off. On one hand, the flying ant beasts problem has caused tension. Now there is infighting as well.

"Okay, Leader. I will look after the team," Sinag said.

"Okay, you guys can leave," Gisela said.

Hearing that everyone exited the room. Sinag then warned the members once again. Fredric was the first one to leave without saying anything.

Jeremy frowned. Because he felt troubled. He thinks Fredric is not convinced yet. So he had to watch out for him. He only trusts himself, not others.

Then he spoke with others before going back towards his room. On the way, he couldn't help but think about the flying ant beasts.

He thinks that things are still at the initial stage. If things get serious, then everyone will become serious.

Soon, he reached the room. After entering the room, he locked the door. Then he entered the training room to practise.

He started practising by using the new sword move.

Swoosh!

He started using the black katana blade. He began to act according to the stance and sword draw mentioned in the new sword move.

As time passes, each of the sword swings is getting better. The movements were getting smooth and fluid.

But Jeremy knows it's one thing to practise here. It's even more difficult to do it during the battle.

He mostly relies on eyesight. So he wasn't able to fully utilise the power of the new sword move. He wanted to perform the technique without relying on eye ability.

So it would take time. He then set his goals to be less reliant on the eyes' ability unless there is a dire situation.

One hour later,

He ended the practice and decided to take a rest for some time. So he walked out and went to the bathroom to freshen up.

A few minutes later,

He walks out and sits on the sofa. He then takes out the device to browse the news. He wanted to see the latest update regarding the flying ant beasts.

As time passed, he continued to read a few articles. He was able to learn what happened. The City Administration took action.

They sent an official team to the wilderness. The official team is made up of strong Beast Tamers. They are between Tier-5 and Tier-6 Beast Tamers headed by the Tier-6 Beast Tamer.

After learning the news he sighed in relief. He thinks they will find the root cause and solve the problem. Because the Beast Tamers were strong.

Even if they couldn't solve the problem, they could expect some serious trouble.

Buzz!

The next second, his device buzzes with a sound.

Seeing that he saw the contact name. The person who is calling them is none other than Audrey Reed. His eyes flash with surprise.

He thinks that they have fixed the date for the Field Area practice. So he attended the call.

"Jeremy Night, things have changed now. We have a flying ant beast problem in our hands. So my father had asked you to wait for a few more days."

"If there are no flying ant beast problems, then we will tell you a date," Audrey said in a serious tone.

Hearing that Jeremy Night was disappointed inside. But he didn't tell me.

"Okay, I'll wait for the good news," Jeremy replied.

Audrey told him to take care of himself before ending the call.

Jeremy then put the device inside the storage ring.

He stood up and went to the training room to practise again. He has this feeling that the upcoming days won't be peaceful.

Instead of overthinking, he decides to put effort into the practice.

Time passed,

When the evening came. He came out of the room drenched in sweat. He then entered the bathroom to take a shower.

...

Meanwhile,

The Beast Tamers Team from the Central Administration have reached the inner part of the wilderness.

Upon entering the Inner part of the wilderness, they found that there were no other corrupted beasts.

They could only hear the "buzzing" sound loudly.

The Beast Tamers understood that sound belongs to the flying ant beasts. They might have driven away other beasts.

Once the flying ant beasts were large in numbers. No other beasts can confront them. Unless they can kill the Ant Queen Beast, it's impossible to destroy the colony.

The Beast Tamers then quickly acted. Each of them summoned their lifeline beast and began to look for the flying ant beasts' colony.

Their first job is to find the colony and then destroy it completely. So they spread across the inner part of the wilderness.

As time passed, they began to look for the ant colony. While doing that some of them came across the flying ant beasts.

Boom!

The fight has started. The Beast Tamers and their Lifeline beasts were fiercely fighting against the corrupted beasts.

As time passes, the number of flying ant beasts is getting reduced. On the other hand, the Beast Tamers and their lifeline beasts were getting tired.

They can't endlessly fight against the endless swarm of beasts. Only by finding the ant queen beast can they put an end to this menace.

Time passed,

The casualty started to appear on the Beast Tamer's side. It immediately alarmed the leaders who were Tier-7 Beast Tamers.

They were focusing on figuring out against the swarm of Tier-6 Flying ant beasts. Whereas the Tier-6 and Tier-5 Beast Tamers were overwhelmed by the Tier-5 and Tier-4 flying ant beasts.

Though the corrupted beasts' tiers were low. They are large in numbers. It's putting the beast tamers under a lot of pressure.

As the time passed, the morning came closer. They are yet to find the ant beast colony. The Tier-7 Beast Tamers were extremely disappointed.

If they stay here any longer, they will get more casualties. So they decided to leave. Things have gone beyond their control.

They need to have more teams to solve this problem. They can only go back and make arrangements regarding this.

"Retreat!"

One of the Tier-7 Beast Tamers shouted. The next second, everyone heard it and began to retreat.

Time passed,

They returned to the city a few hours later. But their conditions were bad.

Upon returning to the city administration, they reported the situation to the City Governors and other elders.

They were in shock as well. Because they had thought it was controllable. Now that things have gone beyond their control. They can expect a beast invasion from the flying beast ants.

The City Governors quickly acted. They blocked the news from spreading. The injured Beast Tamers were admitted immediately.

Next, they reported to the Human Alliance and sought help from them. It was not the first time for them to face this kind of situation.

The City A had faced a beast invasion before. After doing that, the City Governors informed the major Beast Taming Forces.

Including the beast-taming families and the Central University. It's because they need to be ready in case of an emergency situation.

Soon, the Shadow Moon Organisation heard the news as well. The one who got the news was the head of the organisation Neil Moon.

He wasn't surprised. He was expecting this to happen. Because they were the ones who found out the evidence first.

Chapter 386 386: Calm before storm!

Shadow Moon Organisation:

Head Neil is pondering. He knows the situation has become worse. If the City administration is informing in advance, it means that they wanted him to be prepared.

He decides to convene an emergency meeting. He then sends a message to the elders and the leaders of all ten teams.

He then also sends a message to the elders who were retired long ago but are working behind the scenes right now. Because these elders, during their prime, had faced the Ant-beast invasion.

He thinks their inputs during the meeting were important.

At the same time, the leaders and elders who got the message understood the seriousness of the upcoming threats.

Gisela got the news as well. In the message, the head didn't hide anything.

He just informed them of what the City administration told him. She was pissed off and angry. She had reported the incident not long ago.

But the City administration didn't bother to investigate, citing a lack of evidence. Now their actions have caused such a danger that it has increased to this level.

She has decided to talk to the rest of them during the meeting. Because she has a lot to say. She then left the room and went towards the meeting hall.

On the other hand, the others nearby are going towards the meeting hall as well. Their movements have surprised the staff. They understood something was up. And it was serious.

Soon, all the important people came to the meeting hall.

Inside the meeting, everyone sat in their respective seats. Gisela came as well. She sat in her place. She saw other team leaders as well.

Everyone gathered without skipping the meeting. It didn't take long for the Head Neil to appear. He was dressed in a white tuxedo. But his expression tells that he was being serious.

Upon seeing him, everyone stood up and greeted him.

Head Neil Moon looks at everyone. Seeing that everyone was present here. He was happy inside. It was an important meeting. He doesn't want anyone to miss the meeting.

Head Neil then sat in the main seat. He then asked everyone to sit back. When everyone was seated. Head Neil decides to start the meeting.

"The Flying Ant beast's problem is more serious than I thought. Now the City Administration has asked to be prepared in advance."

"Do you know what it meant?"

Head Neil said while looking at everyone.

Gasp!

Someone gasped. Especially the young leaders and the elders. Because the news was so sudden. It took time for them to digest the information.

Gisela heard the words. But she did better than others. She knew it before coming here.

Head Neil said, "There could be a possible Flying Ant Beasts Invasion. It's happening after a decade. So I'm not going to assign any missions. The mission desk will be closed."

"Everyone should focus on improving their strength and lifeline beast strength," he added.

Hearing that everyone agreed. Because it sounded reasonable. Now they have to discuss resource allocation.

What was the main objective? Head Neil decides to utilise some of the natural resources for emergency use. So the Head Neil started talking.

As time passed, everyone voiced their opinion about resource sharing. Fortunately, the Shadow Moon Organisation doesn't lack resources.

The meeting concluded quickly. It took them 2 hours to complete the meeting. Then everyone exited the meeting.

...

Meanwhile,

Inside the inner part of the wilderness. The flying ant beasts were gathering in large numbers. At any moment, they could leave the inner part of the wilderness and go to the city.

If the beast tamers in the city came to know about it, they would be shocked to the core. Because the flying ant beasts were gathering in large numbers. The number is greater than the previous Invasion.

But the number of beast tamers in the city is less compared to the corrupted beasts. Especially during the Beasts' Invasion, the city administration usually faces a situation of this type.

Yet the flying ant beasts' numbers are greater than the previous Invasion. Unfortunately, the city administration doesn't have intelligence this time.

Now the flying ant beasts were waiting for the instructions. Because of their gathering near the entrance, the Beast Tamers who were leaving took an alternative path for the exit.

Even if it takes a longer time, they have decided to do it. The flying ant beasts were large in numbers. By going against them, it would bring nothing but death and crisis.

The Beast Tamers weren't stupid. They have decided to report to their respective organisations about the flying ant beasts gathering.

At the same time, no beast tamers can be seen entering the wilderness. Almost all the big and small organisations have spread the news.

Because of that, no team has entered the wilderness. At the same time, the news starts to spread across local households and other small shops.

When the news reached them. Everyone was shocked and scared. Because this news was not small and ordinary.

Some of the families have decided to go to their relatives' houses located in different cities.

When it's evening. The families started departing from their houses and went to the airport. The airport started to receive an unprecedented number of people.

The airport staff were terrified. They, too, knew about the flying ant beasts 'news. They had no choice other than to accept the people.

Soon, the flights were packed. They started to depart from the 10th zone. The whole city is now under a state of alert. The city administration is yet to release an official announcement.

Yet the people were preparing for the upcoming threats.

On the other hand, the City Administration dispatched additional city guard teams to support the team in the City Hall.

While this was happening, the Central University in the 10th zone City was preparing as well. They have decided to send the students back. The families behind the students are demanding this as well.

It's just that the city administration is yet to give a clear announcement. The higher-ups didn't have any choice but to send back their students.

...

A few days passed,

The City administration has been keeping watch on the borders. But there were no movements from the flying ant beasts' side.

But it has given the city administration a preparation time. The city administration has already requested help from the human alliance.

The Human Alliance has sent an Elite Beast Taming Team to help the City Governors. They were on their way to the 10th zone of City A.

Meanwhile,

The Beast Taming Families and other organisations were training their Beast Tamers by providing better resources and equipment.

...

Shadow Moon Organisation:

Inside the training room. Jeremy Night was practising. After the meeting with Leader Gisela, he locked himself in his room for the training.

He is practising both the handgun shooting skills and the blade moves. He wanted to make progress in both skills. Fortunately, he can feel that he has been making progress.

Time passed,

After practising it for a few hours, he stepped outside. It's time to meet with others to get resources. Leader Gisela informed us last night that their allocated resources have arrived.

He had this feeling that he would break through soon. He had made his bet on the Field Area practice. But Audrey Reed told him to wait.

He hopes that they won't forget the reward after the end of this current turmoil.

He then refreshed himself before getting ready. Then he exited the room and started going towards the lobby. Soon, he got there and met with other members.

Sinag asked, "You have been practising since that day. Would you give yourself some free time?"

Hearing that, Jeremy smiled and said, "I take a break whenever needed in between. What about the resources?"

Sinag said, "Everyone is waiting for Leader Gisela to arrive. Only she can speak to the elderly."

Jeremy nodded to her. Then he turned towards Ada and spoke with her as well. Then he saw other members. The male members have yet to speak with him.

Unlike before no one is speaking against me. It happened after the meeting with Leader Gisela. They were scared of her. Fredric has stopped making a mess since then.

"You guys are here!"

The next second, Leader Gisela came to the place. She saw that everyone was chatting and laughing. She nodded her head.

Upon seeing her, everyone greeted her.

Gisela saw Jeremy Night as well. Her eyes flash with surprise. She knew what everyone was doing these days.

She knows Jeremy Night has been sincerely training as well.

She knows it was Jeremy Night who had collected the evidence of the Flying Ant Beasts' existence. So she thinks he must have felt great pressure.

She then said, "Alright, come with me. It's time to get the allocated resources."

The next moment, the members began following her. Gisela is leading them towards their treasury. The staff nearby saw them as well.

Chapter 387: Tier-2, 2nd Rank - Mid Stage!

Shadow Moon Organisation:

Team Leader Gisela brought the team members to the treasury room. There is an old man inside the room. He is sitting behind the small desk.

Behind him, there is a big golden door. Inside the golden door, the natural treasures were placed.

The old man who was dressed in a black uniform raised his head. He saw Gisela and her team members. He was present at that meeting that day.

"Elder Ryan, can you give us the resources?" Gisela said in a serious tone.

"Say your name and lifeline beast type one by one," The old man said.

Hearing that the team members stepped forward. The first one to step forward and said his name and the lifeline beast's type.

Elder Ryan remembered the name and lifeline beast. Then he turned towards others. Then one by one stepped forward and told their names and Lifeline beast's type.

Finally, it was Jeremy Night's turn. Everyone looked at him. Elder Ryan turned towards him as well.

Jeremy said, "I need the natural spring type resources."

Hearing that everyone was stunned. They had thought Jeremy would tell his name and lifeline beast. Instead, he has surprised everyone.

They were keen to know about his lifeline beast as well. Because they don't know about it and Jeremy Night never told them.

Elder Ryan was stunned. He didn't expect to hear such an answer. He knows about Jeremy Night as well. He knows that kid was from the 14th zone.

Before he could say anything further.

Gisela said, "Elder Ryan, just give him spring or earth liquid type resources."

Elder Ryan was dumbfounded. Then he nodded his head. He then stood up and went to open the golden door. On the other hand, the members were disappointed.

They didn't get to know about Jeremy Night's lifeline beast.

Team Leader Gisela saved him at the last moment. But Gisela knows that Jeremy Night wanted his lifeline beast information to be confidential. He had asked before joining.

Creak!

The next second, the golden door opens up. Elder Ryan went inside. Everyone could see numerous glass shelves from here. In each of those glass shelves, there are shiny items.

Seeing that the team members were all excited. They knew it was not easy to get those items in normal times. But because of the beast invasion threat, they are going to get these items.

On the other hand, Jeremy Night sighed inwardly. He can see their enthusiasm. Fortunately, his lifeline beast egg truly doesn't need specific resources. It can absorb any type of resources.

Gisela shakes her head upon seeing everyone's reaction. She knows the threat level of the flying ant beasts. She is hoping that everyone will take one step to face the upcoming threats.

She was worried about everyone except Jeremy Night. She had read Jeremy Night's information. He had experience in facing a Beast Invasion before coming here.

She saw Jeremy Night was calm and collected. She thinks maybe it's come from the experience of surviving the beast invasion incident in the 14th zone.

Shortly afterwards,

Elder Ryan came carrying different containers. Each of the containers got special natural resources useful for the Beast Tamers and their lifeline beast.

The Elder then called out, named, and gave them the container one by one. Finally, it was Jeremy Night's turn. He gave a similar container to him.

"Alright, since you got your resources. Go back and practice in your room," After leaving the inventory room, Gisela said to everyone.

Hearing that members agreed and thanked her for the resources. They knew there must be extra resources. It's because of Team Leader Gisela's kindness.

Like others, Jeremy Night thanked Leader Gisela before going back to his room. Upon arriving at his room, he locked the door and entered the training room.

Because the unknown lifeline beast egg inside the mental zone is reacting to the resources. The unknown beast egg began to shake.

Jeremy had a feeling that he should consume the resources right away. Because he might get a breakthrough. If it happens, not only will he break through with these resources, but he could stabilise his strength as well.

After entering the room, he sat cross-legged in the centre of the platform.

Suddenly, there are movements inside the mental zone. When he saw it, he found out that the unknown beast egg had started absorbing the natural energy from the surroundings.

Seeing that he was surprised. Because in the past few days, the unknown egg didn't show much activity. But it has become active now.

He is having this feeling right now. That it's the right opportunity for the Breakthrough. He has decided not to waste any more time.

He removed the top cover and saw the resources inside. The next second, his eyes widened in disbelief. He sees a glass bottle filled with green liquid. It has shades of silver.

Seeing that Jeremy Night knew it was one of the earth-type liquid treasures. A look of yearning appeared in his eyes.

The next second, a look of yearning was increased by the unknown egg-lifeline beast inside the mental zone. Without waiting further, he picked up the glass bottle.

He could feel the power of the natural treasure. The grade of the treasure was unclear. So he decides to take a few sips first.

Then he removed the cork and took a few sips immediately. He then closed the bottle and placed it in front of him. When he gulped down. He felt a fierce, hot stream of energy going down in his throat.

He then closed his eyes and started to run the breathing method. But before he could circulate the energy inside the body. The natural energy treasure had disappeared.

It was absorbed by the unknown beast egg. Upon finding out, his heart was stirred. The natural energy might be too powerful for him.

But it can't do anything to the unknown beast egg. So he opened the glass bottle again and drank a few gulps of green liquid.

Extreme hot energy went down his throat. Jeremy felt a burning sensation. He is trying to resist. Fortunately, the reaction from the unknown beast egg came.

It absorbs the green liquid again. When the energy had completely disappeared. He once again opened the glass bottle to consume a few more gulps.

When he does that. The green liquid in the glass bottle reached the halfway level. Once again the green energy went down in his throat.

It was quickly absorbed by the unknown beast egg. This time, the unknown egg suddenly stopped shaking.

Feeling that Jeremy Night immediately thought that the unknown beast egg might break through at any time. He felt excitement.

It didn't take long for the unknown beast egg to provide feedback. The feedback energy enters his body. Seeing the new wave of strong feedback energy.

He started to guide the feedback energy according to the inner breathing method. The feedback energy starts circulating inside the body.

Whenever the feedback energy passes through the body. The cells began to greedily absorb the feedback energy. Because of it, the cells are getting strengthened at a faster rate.

It means the body is evolving slowly. From the Early Stage of the 2nd Rank, it's breaking the limit to reach the Mid stage.

Click!

The feedback energy continues to spread across every part of the body. It's getting strengthened as well. At one point, the limit was broken.

From the Tier-2, 2nd Rank - Early Stage. The Physique has evolved to become Tier-2, 2nd Rank - Mid Stage.

Tier-2, 2nd Rank - Mid Stage!

The feedback energy continues to come from the unknown beast egg. Feeling that, Jeremy continues to circulate the feedback energy to stabilise the new strength.

About 20 minutes later,

The unknown beast egg has stopped giving feedback. I could feel the increase in strength in the Physique. Not only has the liquid starlight energy inside the mental zone become slightly stronger.

It has brought a smile to my face. I had thought this Field Area opportunity was a must. But I didn't expect to break through before that.

Then I thought it's better to use the Field Area at the right time. I don't want to waste such an opportunity. Maybe I should use it when I reach the Tier-2 limit.

Then I spent one hour practising the inner healing method before getting up. I exited the training room and went to take a bath.

I spent 20 minutes in the bath. Then I walked out and changed into comfortable clothes. When I saw the sky through the window. It's already nighttime.

So I went to bed to lie down. Then I took the digital device out to browse the news. I wanted to know the latest update.

The trending news headlines appeared on the newsfeed.

Upon reading the news headlines, Jeremy Night was shocked to the core.

[Flying Ant beasts are gathering in great numbers!]

[The city might face a dangerous beast invasion.]

The first two headlines themselves were a shocker.

Chapter 388: Part 1: New assignment amidst a beast invasion threat

Shadow Moon Organisation:

Jeremy Night spends an hour going through articles. Then he got the full picture of what's happening around.

His mood was worse. Because the reaction of the people here is not positive.

They had faced a beast invasion before. But this time the gathering of a large number of flying ant beasts tells a different situation.

Even the City administration is unprepared for the upcoming beast invasion. Jeremy couldn't help but start getting worried.

He had thought that the City administration here was better than the 14th zone. Yet the people here are unprepared for the upcoming danger.

He is not only thinking based on today's reports. Because he had gone to the wilderness to collect the evidence not long ago. He had seen those and colonies as well.

He had collected the evidence, but the City Administration refused to believe the evidence.

Because of their negligence, the flying ant beasts had gathered in large numbers.

Jeremy doesn't know what to say. It takes him back to the memory lane. In the 14th zone, the City Governors made the same mistake.

They had underestimated the threat. Because of it, the City A suffered numerous casualties during the beast invasion. Now, they are heading to the same situation as well.

What more? The threat that he is going to face is no ordinary threat. He might come across Tier-5 and Tier-6 Flying ant beasts during the beast invasion.

Jeremy then collected his thoughts before going to sleep.

...

The following day,

He woke up. As usual, he does his morning routine. When he finishes doing that he has decided to enter the training room. But before that, his digital device starts ringing.

He took the device out and saw the person who called him. The person was none other than Team Leader Gisela. Seeing that Jeremy was surprised.

He knows that she won't call him unless there is something up. Jeremy then attends the call.

"Jeremy, come to my office ASAP," Gisela said.

Hearing that Jeremy was stunned. He then agrees to visit her. But before he decides to get a good bath. He enters the bathroom. The bath lasted for 20 minutes.

He then walked out and changed into comfortable clothes.

After getting ready, Jeremy left the room and went to Leader Gisela's office. On the way, he came across other members. Everyone had the same solemn expression as well.

Seeing that he was not surprised. He thinks that everyone needs to wake up to the harsh reality. The upcoming beast invasion could be more dangerous.

Soon, I reached Leader Gisela's office. Upon arriving there, I found out that the door was open. I opened the door and entered.

Leader Gisela is sitting behind the desk. Jeremy greeted her.

"Sit," Gisela said.

Hearing that he sits on the chair opposite her.

"Sigh!"

Upon seeing Jeremy Night's face, she let out a deep sigh.

"You had worked hard to find that evidence. But the city administration has failed to act on it," Gisela said in a grave tone.

Jeremy was surprised inside. Because he was wondering about that as well.

"Last night, the City administration had contacted Head Neil for help. They wanted us to do something to reduce the danger," Gisela added.

Jeremy was dumbfounded. Because it's too late to change anything. He doesn't know what they are thinking about it.

Gisela saw the struggle in Jeremy Night's eyes.

She said, "I know you must be confused. At first, I was surprised why Head Neil accepted their request. It's just that I came to know important things."

"To reduce the threat of the beast invasion. The City Administration has been working on some experimental explosives."

'I bought a small version of those through private channels. You must have seen it," Gisela said with a smile.

Jeremy Night's heart was stirred. He remembers the explosives used by Captain Sinag and Ada during the mission.

Seeing that Jeremy Night is showing interest. She decides to tell more.

"This time they have given us new explosives. They wanted us to plant those in strategic locations deep inside the outer part of the wilderness."

"You have done two solo missions in the outer area. I thought you could do it," Gisela said in a serious tone.

Hearing that Jeremy was dumbfounded.

He quickly said, "Leader, I'm just a Tier-2 Beast Tamer. There are Tier-5 Beast Tamers in the organisation you can ask them."

He was disappointed. He didn't expect them to give him such a mission. It's basically risking his own life.

Gisela was taken aback in surprise. She had thought Jeremy Night would like to take risks. Then she realises that Jeremy Night must have read those reports as well.

She said, "I know you are worried. But there is a reason why I'm asking you. The Flying ant beasts can sense high-level threats."

"If we send Tier-5 beast tamers there, the beast invasion could trigger in advance," She added.

Jeremy eases down his eyebrows. But still, he doesn't want to do it. If he happens to come across the beasts' Invasion there, there is absolutely no chance of survival.

Gisela said, "You were not the only one who was going. The geniuses from the Central University, Beast Taming Association and several Beast Taming Families were going there as well."

"The outer area of the wilderness is a large area to cover. So the geniuses have agreed to protect their city. Their Talents were all A and S-Grades."

"There is a risk of sending them out there. If anything happens to them, then it would be a huge loss to their families, the city and the human alliance"

"Now it's up to you whether you want to step up or not. I have trust in your combat strength; there is nothing in the outer area that can pose a danger to your life."

"If you do well then you can get into the eyes of the big people. Especially the Human Alliance. They have failed to accept your name from the genius list before."

"If you can contribute, they would be forced to evaluate your talent," She finishes with a huge explanation.

Chapter 389: Part 2: New assignment amidst a beast invasion threat

Shadow Moon Organisation:

Jeremy heard her explanation. His heart was turbulent. He didn't expect the 10th zone's geniuses to be involved in this mission. He had not even met one before.

He is hesitating. He is the only son of his parents. He has ambition. He doesn't want to be overconfident.

Gisela decides to give him some time.

"Take your time to think. I'll take a walk outside," After saying that Gisela left the room.

Inside the room, Jeremy fell into deep thought. She has put him in a tight spot. If it were earlier, he would have hesitated.

But now he has heard that geniuses were risking their lives as well. He is feeling competitive and necessary to step in as well.

Maybe there is something that leader Gisela doesn't say clearly. The Shadow Moon Organisation might have decided to send him as a representative.

When he starts to think from this angle. It made a lot of sense to him.

"It might be a chance to attract the attention of the Human Alliance's higher-ups," Jeremy Night said in his heart.

After giving some thought, he decides to do the mission. Maybe he could get more resources from them.

Shortly afterwards,

Gisela came back to the room. Upon seeing Jeremy Night's relaxed face, she is expecting good news.

She sat in her seat and turned towards Jeremy Night.

"What's your answer?" She asked.

"I'll do it," Jeremy replied.

"Ha...Ha...Ha...", Gisela let out a joyful laugh.

"Thank you for accepting the mission. Your efforts will be rewarded. The City administration will reward you. Together we will reward you as well," She added.

Hearing that Jeremy put his heart at ease.

"Alright, when should I start the mission?" Jeremy asked.

"Right now is better," Gisela said.

Jeremy wasn't surprised. He agrees to leave right away for the mission.

Then Team Leader Gisela gives him mission details, which include the strategic sites inside the outer area of the wilderness.

"What about the explosives?" Jeremy asked.

"It's with me," After saying that Gisela takes out the black container.

"The black container has explosives. Inside, there is a manual with clear instructions. You can read it after arriving at that place," She added.

Jeremy then collected the black container into his storage ring. Then he takes out the digital device to check the mission instructions.

After confirming it one more time, he decides to leave. He then stood up from his seat.

A hint of worry flashes in Gisela's eyes.

She said, "There is no need to risk your life. If you find yourself in a dangerous situation, you can leave."

Hearing that, Jeremy smiled all of a sudden. From the beginning, she has been convincing him to do the mission. She is showing worry right now.

He then turned towards her and said, "Leader, I will complete the mission. Don't worry about me."

Hearing that, Gisela showed a relieved smile on her face.

Jeremy then left the place and went towards his room to wear the armour suit.

Gisela sat back in the seat with a solemn expression on her face.

"I'm sorry," She uttered with a sad face.

Because Jeremy Night was right. She did hide things from him. It was not her and Head Neil's decision to send Jeremy Night on this mission.

It was a decision made by the City Administration. They knew Jeremy Night was the one who had collected evidence not long ago.

They had named him, along with the geniuses, to do this mission. When it comes to this type of do-or-die situation. No one has a say in it.

The city administration might consider them traitors. She didn't tell these things to Jeremy Night for a reason.

She doesn't want Jeremy Night to know the ugly side of the City administration yet.

Buzz!

Right after, she receives a call from Head Neil. She attends the call.

"What happened?" Neil asked.

"Jeremy Night agrees to do the mission. I didn't have to explain much," Gisela replied.

"He is a good kid. I hope he survives this mission. I'll reward him," Neil said.

"Head, what about the Sun Wheel Organisation people?" Gisela asked.

"Don't worry about it. They won't dare to do anything shady in this situation. I have already informed City administration officials about them."

"They will keep an eye on their movements," Neil said to her.

Then he asked a few other things before ending the call.

Meanwhile,

Jeremy Night returned to his room. He began to wear the advanced armour suit given to him by Audrey Reed.

"Will she be there?" Jeremy thought.

He knows that the Reed Family is one of the prominent families as well. There is a chance for Audrey Reed to represent her family to complete the mission.

Then he collected his thoughts and wore the new armour. But it doesn't have headgear. But he didn't care.

Jeremy then checks other necessary items. He still has the poison bottle which he had brought from the 14th zone. There is also a basic grade knife and a combat uniform.

He thinks it would be helpful sometime in future. So he still has them inside the storage ring. After making sure everything was inside, he then took his scabbard.

He wears it. Then he wears the gun holder. He takes out a handgun and finds out that there is a limited quantity of bullets. His eyes flickered.

He broke through yesterday. He thinks his starlight ability must have become stronger. He decides to buy more bullets for his handgun.

He thinks his shooting skills will play a more crucial role.

He then locked the door and came to the lobby. Upon arriving there, he went to the inventory. He meets the staff there.

Jeremy made his request. The middle-aged man was shocked. He didn't know Jeremy Night knew firearms skills. But it was an old school method.

"Are you serious?" He asked.

"Yes, I'm," After saying that, Jeremy takes out his hand gun and shows it.

"I need as many bullets as possible, "Jeremy said to him.

Chapter 390: Part 1: Solemn duty

Shadow Moon Organisation:

The middle-aged staff started looking for the bullets. Fortunately, they had the firearms and bullets. They were used for the practice.

He then selects bullets for Jeremy Night's handgun. After collecting them, he started filling the magazines. He quickly filled the 5 magazines with ammo.

He then turned towards Jeremy Night.

He asked, "Is that enough?"

Hearing that Jeremy Night replied, "I need as many as possible."

The middle-aged man's eyes flickered. He was confused. But then he realises that Jeremy Night is going on the mission.

He doesn't want to ask too many questions. Because the whole city is tense right now. The beast invasion threat made everyone speechless.

So the middle-aged didn't cause problems. He selected a few more magazines. Then he started filling the magazines with ammo.

A few minutes later,

He brings the ten magazines with him. Their magazines were new. Each magazine has 30 powerful bullets.

Unlike the previous bullets, the new bullets were special grade. They were stronger than the previous bullets, which Jeremy had bought from the 14th zone.

Jeremy picked the magazine. His eyes flash with a glint. He didn't expect to find special grade bullets. The previous bullets can at least kill Tier-1 Corrupted beasts.

He thinks these new bullets can hurt the Tier-3 Corrupted beasts as well. Then he collected the 10 magazines into his storage ring.

Jeremy then thanked the middle-aged man who was the staff member before leaving the office.

The middle-aged man staff showed worry. He didn't know why the young man was going on the mission at this time.

The news about the flying ant beasts gathering has spread across the city. So the mercenary teams and the beast tamers from other forces have stopped going there.

But he knows it must be the order from above. So he has stopped asking earlier.

Meanwhile,

Jeremy didn't expect to get 10 magazines, each with 30 bullets. He then goes to the exit. The staff members saw him as well.

But they thought he was going somewhere outside.

Jeremy didn't even tell Captain Sinag and others. If they learned about the mission, they would be worried.

After coming out of the building, he saw the parked vehicles. He didn't use their service. Instead, he started walking on foot towards the gate.

Soon, he reaches the massive gate and walks outside. Where he finds the public service cabs.

He then met one of the drivers and asked him to drop him off at the destination.

The old man driver was shocked to learn the destination.

"Are you going to back away?" Jeremy asked.

Hearing that Oldman recovered his thoughts. He understood that the young man must be going on the mission.

Especially in this important situation. If he doesn't do his job, he might be charged with treason. The old man was scared inside, but he agreed to drop him off at the destination.

Jeremy then sat in the back seat.

Swoosh!

The old man started to drive the car. The flying car hovers above the ground before appearing in midair.

Then it started moving towards the destination.

Meanwhile,

Other genius beast tamers have already entered the wilderness to do the mission.

About 20 minutes later,

The flying cab reached the outer part of the wilderness entrance. The cab driver dropped him at the regular entrance.

The cab driver was so scared. He quickly got the money and left the place in his car.

Jeremy Night shakes his head. He can understand the driver's fear. He raised his head and turned towards the outer area of the wilderness.

The wilderness was completely silent without any movements of the Beast Tamers. For the first time, Jeremy is having a different feeling.

Because the outer area of the wilderness now looks creepy with no noise whatsoever. But Jeremy Night quickly collected his thoughts.

He began to use his eyes while he started walking forward. He had memorised the directions earlier. He then started walking in that direction.

It didn't take long for him to go deeper into the woods.

Not long after, he saw a corrupted beast hiding behind the trees ahead. He is going in that direction as well. If the beasts decide to attack him, then he will take care of it.

As he got closer, the appearance of the corrupted beasts became clear. It's the famous four-legged hybrid corrupted beast.

The one he is looking at right now is a Tier-4 Corrupted beast. After confirming that Jeremy draws his katana. He then held it tightly in his hand.

The four-legged hybrid beast, over human height, is looking at the human prey. It seemed like human prey, but it didn't feel any sense of danger.

Swoosh!

It rushes out to attack all of a sudden.

On the other hand, Jeremy is using his eyes. The Corrupted beast's speed was slow under his eyes. He could easily predict the attack.

When the beast got closer to him. He swiftly moved to the side and swung the blade at the beast's neck.

Pfff!

The hybrid beast misses the target. It was about to move sideways to attack. But it was too late. The blade swiftly penetrated the beast's neck and cleaved it.

A torrent of blood gushes forth the next moment. The ground was dyed with blood while the separated head was rolled over the ground.

This all happened within a minute.

Tud!

The corpse of the hybrid beast fell to the ground.

Jeremy then sheathed his blade. He didn't collect the corpse. He resumed walking. He wants to reach the destination soon.

Leader Gisela didn't mention anything about the time limit. Because they didn't know when the flying ant beasts were going to attack.

The current mission was a desperate attempt by the City administration.

Meanwhile,

The other genius beast tamers were going towards their destination as well. Everyone was spread across the outer area of the wilderness.

Among them, Audrey Reed was present as well. She didn't know that Jeremy Night had entered the wilderness to do this mission as well.

Everyone is doing their part to protect their beloved city.
