

STRIKER 401

Chapter 401: Call for help?

Wilderness (Inner Area):

Jeremy still has four explosives left. While he was searching around this area. He heard the battle sounds coming from a distance.

When he raised his head. He saw a large number of flying ants in the sky. Seeing that his expression turned serious.

He was sure that fierce fighting was going on there. It must be City Governors engaging in a fight.

Just as he was looking at the sky, he saw the appearance of the Giant Golden Green Crocodile.

He was sure that it must be a lifeline beast of one of the city governors. He has to make a decision right now.

Since the City Governors are here. There must be an ant queen living in that place. Jeremy gave up his search and decided to retreat.

Swoosh!

He turned around and started going back towards the outer part of the wilderness. He had made a long journey to come here.

Now he is going back after eliminating one of the ant-beast colonies. Unfortunately, no one was here to acknowledge it.

As time passed, the Black clouds stopped moving towards the City. Jeremy thinks it's a good sign for the city. But the entire pressure must be on the city governors.

He also thinks it's the right opportunity to escape. There would be no other corrupted beasts on the way. Not only can he escape and reach the city.

He thinks that other genius beast tammers must be waiting for such an opportunity.

Meanwhile,

The genius beast tammers who were hiding found out that black clouds had stopped appearing. They too realised it was the right opportunity to escape.

Then everyone started rushing out towards the city. Including Audrey Reed who was totally exhausted. She has suffered some injuries as well.

At first, she had dealt with these small black clouds. But she came across the Tier-4 and Tier-5 Flying Ants as well.

With the help of the family trump card. She was able to save herself. Now she has the opportunity to go back to the city.

On the other hand, the City Governor Marco is eliminating the Tier-7 Flying Ants with the help of his Golden Green Crocodile.

But he has been coming across more worker ants as time passes. He was worried that the flying ant beast queen might plan something else.

At the same time, he is feeling the presence of the City Governor Enzo and Leonor. They are facing the army of Tier-7 Flying Ants.

Both Giant Red Lion King and Blue Wind Horse were killing the Tier-7 Flying ants coming towards them.

Whereas Enzo and Leonor can use their individual ability. They are launching their attacks against the ant colony in front of them.

The Two Ant Beast Queen were getting angrier as time passed. Because they both found out about the loss of Tier-7 Worker Ants.

If all the worker ants were gone, then there would be no worker ants left to protect her and her eggs.

Despite the distance between the two colonies. The ant queens communicated with each other. They both found the count of Tier-7 Reducing.

If this goes on, not only will the attacks on the city be stopped, but they will be wiped out as well. Then the two intelligent and beast queens decide to call for help.

Tier-8 and Tier-9 Corrupted Beasts are living in the core area.

The two ant-beast queens think that if they learned that human beast takers of the same strength had gotten close to their territory.

Then they would retaliate for sure. The next second, both the ant beast queens called for help.

Weird noise!

Outside everyone heard a weird noise. The flying worker ants became more aggressive and started charging towards the lifeline beasts.

The weird sound was heard by the City Governor Marcos as well. His expression changes drastically.

His worst fear has come true. He thinks that the Two Ant beast queens could be calling for help.

Marco then ordered his lifeline beast to attack the ant beast colony directly.

Boom!

The huge body of the crocodile then landed on the ant beast colony. The next second, the colony exploded into pieces.

The already destroyed part was further damaged and sunken below. The remaining hundreds of ant eggs and larvae were crushed under the rubble.

Weird cry!

The Ant Beast Queen made a weird cry again. This time again with a high-pitched voice.

Old man Marcos was frightened after hearing the voice. If the ant queen continues to hide in the underground, then more powerful corrupted beasts might come from the core area.

Which is more dangerous? Marcos then ordered the lifeline beast to take down the remaining Tier-7 Flying Ants before retreating.

The Giant Golden Green Crocodile also senses that the flying ant beast queen is hiding deep below. It won't be easy to get her in a short time.

Boom!

The Giant Golden Green Crocodile starts taking down the rest of the Tier-7 Flying Ants.

Swoosh!

Marcos left the spot and went to meet the other two. They were fighting not far away from here. He got there and saw that they were trying to destroy the ant beast colony as well.

But the Ant Beast Queen is hiding deep inside.

"Both the Ant beast queens have called for help. We won't be able to reach her place in time. Let's go back to the city."

"Most of the Tier-7 Worker Ants were cleared. There won't be any black clouds entering the city," Marcos said to them.

City Governor Enzo and Leonor agreed. Then they called back their Lifeline beasts. The Red Lion King and the Blue Wind Horse disappeared into their respective mental zone as well.

Swoosh!

Then they left the spot with Marcos. When they returned to the previous spot. The Giant Golden Green Crocodile has wiped out the remaining worker ants.

Marcos then took his lifeline beast back to the mental zone. Then three of them started flying towards the City.

...

City A(10th zone):

The City is experiencing a peaceful time. Because there were no other black clouds, whether big or small, entering the city.

Because of it, the beast tamers were able to take down the flying ants terrorising the city. Right now, there are a couple of escaped flying ants here and there.

But the beast tamer teams were after them. The major organisation, beast taming families and the Central University have done their job.

They have stopped the flying ants from causing major destruction. There were casualties but it was not alarming.

The mercenary organisations can still handle the losses. But it's different for small and medium-sized forces. They didn't have a large number of strong beast tamers.

Because of it, they have a larger number of casualties on their side. But thanks to the help from the community. The beast tamers assisted them in avoiding major destruction.

...

Shadow Moon Organisation:

Head Neil is still looking in the direction of the wilderness. While others were celebrating the disappearance of the black clouds.

He, on the other hand, was extremely worried. He knows what to come across Tier-8 Ant Beast Queen.

The Tier-7 and above Corrupted beasts are terrifying existences. Their intelligence is on par with the human beast tamers.

Old man Neil deduces that the sudden disappearance of the black clouds had a lot to do with the City Governors.

"They must have found the colony," Neil Moon thought.

Yet he was still worried. Because the flying ant beasts invasion had happened before. The City Governors of that time took a lot of time to reach the ant beast queen.

The ant queen has an extraordinary ability. At that, she had buried herself deep. She can move around the underground freely.

It had become difficult for the lifeline beasts to attack her at that time. In the end, they were saved with the help of the Human Alliance.

Old man Neil's eyes flickered thinking about the Human Alliance. When it comes to the Human Alliance, he doesn't have either a good or a bad opinion towards them.

It's just whenever a city faces a disaster, their help would come at the last moment. At times, he had felt they were doing it purposely.

He thinks the answer lies with the city governors. He didn't know whether the current city governors had requested help from the Human Alliance.

He had given them evidence earlier. If they had acted on it, they could have avoided the beast invasion.

On the other hand, the team leaders saw the serious expression on the Head of Neil. They were aware of the dangers of the beast Invasion.

It won't end easily until the leader is taken out.

Like others, they were thinking about the city governors as well.

At the same time, the team leader, Gisela, is thinking about Jeremy Night. She doesn't know whether Jeremy Night was able to hide himself from the danger.

Here, everyone has the support of one another. But out there in the wilderness, there is no one for Jeremy Night.

Chapter 402: Part 1: Lord Afonso

City A (10th Zone):

The three City Governors appeared in the sky closer to the city. Seeing the commanders and leaders standing on top of the city wall, they all sighed in relief.

They assumed that city governors were returning from victory. The patrol guards started celebrating without any confirmation.

The commanders and the team leaders were waiting for the response from the city governors. So everyone can stop fighting and tend to their wounds.

But to their surprise and shock. The City Governors went directly back to the city administration building. Seeing that the faces of commanders and the team leaders have changed.

Only the patrol guard Captains and the patrol guards were continuing with their celebration.

...

Shadow Moon Organisation:

Head Neil Moon saw the return of the city governors as well. But their faces were not good-looking.

Seeing that Neil understood that they had failed to eliminate the Ant Beast Queen.

His expression turned grave. His reaction was seen by the team leaders as well. Gisela realises that something must have happened.

She also saw the City Governors returning to the City Administration without informing anyone.

She then turned towards Head Neil, waiting to hear some response from him.

The other team leaders were doing the same. But the Squad Captains and the members were celebrating as well.

But Sinag and Ada were thinking about Jeremy Night.

They don't know what's going on with Jeremy Night. They are hoping he is alive.

Meanwhile,

The other mercenary organisations, beast taming families and Central University had the same reactions.

The Heads of all these forces saw something wrong with the City Governors. They had faced the previous beast invasion as well.

They knew the current beast invasion wouldn't end unless the ant beast queen was killed. Unfortunately, these people didn't know the reality.

Right now, their enemy was not one but two ant-beast queens. If the news were released, then the whole city would go into panic.

Not only that, but the two beast queens had already called for help. The Tier-8 and Tier-9 Corrupted beasts might respond to the call.

So compared to the previous time, City A is facing an existential threat.

If the Colossal beasts living in the core area have decided to attack the city, then the City Governors won't be able to do anything.

Only the city governors knew the seriousness right now. Their actions had pissed off the two ant-beast queens.

Unlike the previous times, the Two Tier-8 Flying Ant beasts queen had directly called for help.

After returning to the city administration building, the City Governors contacted the Human Alliance. They had already called for help.

They don't know the status right now. When the call was connected. They were able to hear the good news. According to the Human Alliance's officials.

The help had already arrived here. But they didn't know about it. After ending the call, the city governors look at each other's faces.

Marcos said, "Someone is already here. But we didn't know."

"Could the lord want to make an assessment first," Leonor replied.

"You may be right," Marcos uttered.

"Let's get the help of the lord to get rid of the two ant beast queens," Enzo said.

Hearing that, three of them walked outside to look for the Lord. The officials thought that City Governors were looking around the city to assess the damage.

Meanwhile,

An old man dressed in a black suit is walking on the street. He has long white hair and a moustache. He was the help sent by the Human Alliance.

His name is Afonso. He is one of the Tier-9 Beast Tamers of the Human Alliance.

It's been several minutes since he arrived here. By the time he could help, the beast tamers here had cleared out the black clouds.

Now he is taking a stroll around the city. Earlier he saw the three City Governors returning to the city. He noticed that they didn't make any announcement.

But they silently went back to their administration building. He was sent here to protect the city from extinction.

Because he was aware that colossal beasts were living in the core area. Yet upon seeing the city governors' reaction. He was disappointed.

Their behaviour alone tells him that they had failed to eliminate the ant beast queen.

Usually, the beast invasion won't happen without indication. Especially, when it comes to the flying ants. He didn't know how the city governors missed the appearance of the Ant Beast Colony.

Afonso decided to investigate after everything was over. As time passes, he continues to go around the city making assessments.

He is not planning on meeting the city governors soon. Yet the three City Governors were looking for him everywhere.

...

Wilderness:

Jeremy Night is moving towards the city. The disappearance of the black clouds has allowed him to travel faster.

On the way, he didn't come across any corrupted beasts. Strangely, the whole wilderness is experiencing quietness.

Meanwhile,

A change is taking place inside the Ant Beast Colony. Since the whereabouts were exposed.

The Two and Beast Queens have decided to shift their home somewhere closer to the core area.

The City Governors wouldn't have imagined that the two cunning ant-beast queens would make such a move.

In the previous beast invasion, the ant beast queen fought alone till the end. But this time, the ant-beast queens have changed their tactics.

At the same time, their calls for help were heard by the corrupted beasts living in the core area. The core area of the wilderness was 30 times larger than City A.

It's a massive region. A different type of corrupted beasts had made their own territory and had been living there for decades since the mutation.

There were several attempts in the past by the Human Alliance Beast Tamers to drive them away. But all of their attempts were for nothing.

The number of powerful corrupted beasts was too high. In the end, the corrupted beasts living in the core area with intelligence stopped paying attention to the small city in their eyes.

Only the corrupted beasts in the outer and inner areas have interactions with the Beast Tamers. Because the Beast Tamers needed resources as well.

Chapter 403: Part 2: Lord Afonso

Wilderness:

Right now, a few irritated, bloodthirsty, corrupted beasts have decided to help the ant-beast queens. These corrupted beasts looked at the city as it was filled with food.

They were long since dissatisfied with the presence of such a city near their territory. It's just that all the high-level corrupted beasts were on the same page.

Others want to mind their own business. Some of them had fought against the Human Alliance Giants previously.

So they knew the force behind the small city. They didn't want the current peace to be broken. But there will always be some exceptions.

Among them was a lonesome, bloodthirsty Tier-9 Male Purple Spider moving towards the border. It had always been a solo predator.

While it was looking for food. It heard the call for help from the ant beast queen. The massive spider beast, over 100ft high, is going towards the ant beast queens.

The movements of the purple spider lord are visible to other corrupted beasts. But most of them were not solo. They can't leave their group.

The purple spider lord doesn't have such restrictions.

It's feeling hungry and bloodthirsty. It consumes blood as the source of food as well.

At the same time, the other Colossal Corrupted Beasts are hesitant. They have intelligence. They wanted to see what's going to happen next.

If there is no threat to them, they would march towards the city as well.

...

City A (10th Zone):

The City Governors didn't have an idea that Colossal Beast had set its eyes on the city. The colossal beasts are the real walking disaster.

One of them could easily wipe out a big city with their abilities. They don't have to reach the city. They could take down the city from a long distance.

The city governors are still searching for the lord. While the heads of the various forces were trying to communicate with them.

They wanted to know what happened in the wilderness. But their delay in responding is only causing further fear and panic.

On the other side, the heads of the Shadow Moon Organisation, Sun Wheel Organisation and several other organisations' heads were pissed off.

They could already guess that threats weren't over.

Head Neil is discussing with his friends. They, too, were frustrated with the city governors. Nobody knows what they were doing.

Head Neil doesn't want to waste time. He turned towards the ten team leaders and elders. He told them not to be complacent.

The city governors were not responding. He has asked everyone to wait. Hearing that the team leaders were surprised.

But they, too, realise that the beast invasion was far from over. Leader Gisela's expression was grave. She had suspected earlier.

Now she was sure about the seriousness of the current situation. She immediately thought of Jeremy Night.

She doesn't know what's going on with him. She has decided to enter the wilderness herself.

"Head, I'm going to the wilderness," Gisela said to him.

Hearing that the rest of the leaders were surprised. They thought Gisela was going to fight against the flying ants in the wilderness.

But Head Neil knew what she meant.

"Okay, you can leave. But come back faster. I don't have a good feeling about the current situation," Head Neil said.

Hearing that Gisela understands. Before leaving she instructed her three squad captains to take care of the members.

At this moment, everyone had thought Gisela was entering the wilderness to fight against the flying ants.

Some of them were forced to think. They don't feel good if one of the team leaders goes there alone.

But before anyone could make a request. Head Neil said, "No one else is going there. She will come back sooner."

Hearing that everyone has become silent.

On the other hand, Sinag and Ada began to worry. They didn't know where Jeremy Night had gone.

But looking at the current situation, they are guessing that it must be wilderness. Before they could ask Leader Gisela. She has left the place.

Meanwhile,

Afonso has done his observation. According to his assessment, the city was saved from large-scale destruction.

The flying ants that had entered the city earlier caused the infrastructure destruction. But human lives weren't that many.

Then he goes directly to the city administration building. The City Governors who had searched the whole city returned to their office a few minutes ago.

Afonso went directly to their office. The staff working inside were about to stop him. But upon seeing the Human Alliance badge on his chest.

They were petrified on the spot. A realisation dawned on them that the old man was from the Human Alliance. No one is daring to breathe loudly.

Afonso ignored them and went inside the room.

He saw that three of them were sitting behind the round table and were discussing something.

His arrival has caught their attention. When they saw his badge. They stood up from their seats in fear.

"Your senses were dull."

"I have never seen such weak City Governors before"

Afonso said to them.

Hearing that three of them were even more shocked.

Marcos doesn't know what to say. He had not seen or heard of this Lord before. The other two were the same. They are seeing this lord for the first time.

Afonso smiled and came to the main chair and sat on it. He then signalled three of them to sit down.

"You guys were in a huge mess. You failed to eliminate the ant beast queen. Yet you dare to sit and talk here," Afonso said in a cold tone.

Marcos, Enzo and Leonor were stunned. They didn't know the Lord found out. They decided to tell the truth right now.

Marcos began to reveal the truth. They have not only found one but two ant-beast queens. He also mentioned the Ant Beast Queens' cry for help.

Hearing this the face of Afonso changes. His eyes flashed with anger. He looks at them angrily before leaving the place.

He then appeared outside and started flying towards the wilderness.

Chapter 404: Part 1: Trap

City A (10th Zone):

Afonso reached the outer area of the wilderness. He is standing in the mid air. His gaze is directed at the inner part of the wilderness.

"These idiots not only failed to kill the ant queens but allowed them to call for help," he thought.

He knows that a really powerful Tier-9 Corrupted beast can attack from as far as the inner part of the wilderness to the city.

The beast doesn't have to be near the city. But its attack will decimate the whole city. He knows the wilderness around the 10th zone is a problem.

The wilderness around City A is especially dangerous. Because it's closer to the core area in comparison to the other established cities.

The real reason for the city A to be built here was to monitor the movements of the core area. The Colossal beasts are living in the core area.

You will never know when they will move or attack.

Right now, he thinks that City A has invited one such catastrophe. Where the Colossal beasts have set their eyes on the city right now.

Afonso hopes that he was wrong. But if the Ant beast queens manage to get help, then he might need additional help.

He is looking in that direction. But he didn't feel any dangerous aura coming towards him.

Meanwhile,

The Purple Spider Lord has just entered the border. Its body, over 100ft in height, is visible to other corrupted beasts living in the nearby area.

They were petrified in fear. Already, they were driven out by the flying ants. Now another Colossal beast comes out of the core area.

The spider lord felt the presence of the two ant beast queens who had shifted to a new home underground. The Two Ant beast Queens felt the presence of the Spider Lord.

They were stunned in fear as well. They didn't expect Spider Lord to come. Then they realised the spider lord is a loner. It loves to live and hunt alone.

But it has a huge hunger for blood. Wherever it goes it has even killed the corrupted beasts. If they don't respect him, then they might become blood food for him.

Swoosh!

Both the Ant Beast Queens came out of their nest to meet the Spider Lord. Their sizes were small, like a pebble, in comparison to the massive 100-foot-tall spider lord.

The spider lord stopped its movement and began communicating with both ant queens. The ant queens started to tell what had happened so far and their call for help.

A few minutes later,

The spider lord understood that dangerous human prey had entered the inner area. But it's dangerous for others. But not for the spider lord.

The spider lord then communicated that it needed a massive amount of blood, which could only be obtained by destroying the city.

Both the Ant Queens agreed to help. The Tier-9 Spider Lord has human-like thinking. It knows if it goes there and gets exposed, then the whole human prey would flee.

Then it would have become a waste of time. So it decides to trap the humans in their own city. They won't be leaving, and no one can enter the city.

The 100ft Spider Lord moves again. Seeing that the two beast ant queens follow side by side of it.

A few minutes later,

The Spider Lord sees the city from the inner part of the wilderness itself. After observing the city, it decides to go closer to attack.

As time passes, the giant body of the spider covers further distance. At one point, it stopped. It has reached the area closer to the Outer Area.

Meanwhile,

Afonso, who was waiting in the sky for some time, decides to leave. But his facial expression changes drastically.

Right now, he felt a sense of crisis out of nowhere. But he knows it's an imagination. But something dangerous is approaching him.

"Don't tell me a colossal beast has moved," Afonso thought.

...

City A:

The three City Governors were out in the sky, standing in mid-air right above the city. They were looking in the direction of the outer area of the wilderness.

"We were f@cked," Marcos said in a grave tone.

"Don't worry, the lord would do something," Enzo said with hope.

"There were two ant-beast queens behind the invasion. We were tricked," Leonor said with frustration.

"No one has seen this coming," Marcos said.

"We were ill-prepared. Let's focus on the current situation," Marcos added.

Hearing that the other two have become silent.

Meanwhile,

The Heads of the various forces saw the City Governors in the sky again. Their expressions turned serious. They don't know what's going on.

But they knew it must be something serious. Earlier, they returned from the wilderness and didn't say anything.

Now they have appeared in the sky again. They are looking in the direction of the wilderness. Seeing that the Heads of the various forces turned towards the wilderness as well.

But none of them had seen Lord Afonso in the sky. His speed was so fast that none of them saw him.

...

Outside:

Gisela has entered the outer area of the wilderness already. She immediately contacted him. If Jeremy Night were in the outer area, then the communication could be established.

Meanwhile,

Jeremy Night, who was on the move already, had his communication device turned on. It's just he didn't know about the threats.

He is moving at his own pace towards the city.

Suddenly, his device rings.

Hearing that he was surprised. He picked up his device and answered the call. The call was from none other than Leader Gisela.

"Jeremy Night, where are you?" Gisela asked.

"Team Leader, I'm close to the city," Jeremy replied.

"Then come to the parking area," Gisela said before ending the call.

On the other hand, he was surprised. He thought that Team Leader Gisela had entered the wilderness to eliminate the flying ants.

He then started rushing out towards that location. Leader Gisela has arrived at the spot. She was waiting for Jeremy Night to come.

Wilderness:

Jeremy Night reaches the parking area a few minutes later. There he saw Leader Gisela. He then went up to her.

Gisela also saw Jeremy Night. Her eyes flash with surprise. She saw that Jeremy Night was completely fine without any injuries.

She even doubted whether Jeremy had placed those explosives or not.

"Let's go back to the City," Gisela said.

Hearing that Jeremy nodded his head. She then grabbed Jeremy Night's shoulder and started going back towards the city.

They flew across the top of the city wall. The commanders and the team leaders saw her as well. The commanders knew about the special mission.

Only the team leaders and the patrol guards were surprised. They didn't expect someone to be in the wilderness at this moment.

One of the commanders said, "There will be others as well. So keep an eye on the entrance."

Hearing that team leaders and parole guards were shocked.

At the same time, the Heads of the various families saw someone flying into the city. They recognised Gisela as well. But they also saw she was bringing someone else.

Some Heads have read the intelligence report. They immediately recognised Jeremy Night as well. Seeing that she is bringing that kid from the wilderness.

The other heads thought about their family members as well. Because their genius beast tamers had picked the special mission as well.

They must be in the wilderness waiting for their rescue. Because of the battles here. They almost forgot about it.

They immediately sent their elders to rescue their genius beast tamers. One after another the figures flew over the city wall to enter the wilderness.

At the same time, Gisela brought Jeremy Night to their Shadow Moon Organisation. Both of them landed on the ground.

Head Neil Moon saw Jeremy Night. His eyes filled with surprise. Like Leader Gisela, he too thought about how Jeremy Night was able to remain unharmed.

The other team leaders and Elders recognised Jeremy Night as well. They had thought Gisela went to the wilderness to fight. But instead, she had brought this kid back.

A look of realisation dawned on their faces. Now they understood that the kid had gone to the wilderness.

Not only were they shocked. The staff and the members were in shock as well.

Gisela's three squad members looked at Jeremy Night with surprise.

Sinag and Ada don't know what to say. But back in their mind, they too felt that Jeremy Night perhaps went to the wilderness.

Florence, Amelia and Ruby were in a daze. Though they didn't interact much with Jeremy Night. But they, too, sense what's going on here.

While everyone thought he was hiding somewhere. But he went to the wilderness for a mission in reality.

Fredric, Abert, Cedric and George were speechless. Three of them turned towards Fredric. He slandered earlier.

Right now, Fredric doesn't know what to say.

On the other hand, Gisela saw everyone's reaction. She knows everyone had a negative opinion earlier. Now, everyone was in shock.

Jeremy Night figures this out as well. They don't know about his mission. So they were shocked to see him coming out of the wilderness during the beast invasion.

Chapter 405: Part 2: Trap

City A:

"Jeremy, are you alright?" Sinag asked.

Hearing that I turned towards her and replied, "I'm fine. What about you guys?"

Sinag smiled and said, "We were fine. We were fighting as a whole team."

"Did you go to the wilderness?" Ada asked.

She asked out of curiosity. But this question was on everyone's mind.

Fredric and others turned towards Jeremy Night.

Before Jeremy could say anything. Leader Gisela said, "We can discuss it later. The beast invasion was not over yet."

Everyone's expression changes. They saw her looking at the sky. Seeing that Jeremy followed her gaze and saw the City Governors in the sky.

He has better eyesight than others. He uses his eye ability to look at their faces. But when he saw their faces filled with fear.

His heart skips a beat. He had never seen such an expression on the City Governor's face. He realises these people were scared.

Jeremy had not seen such expressions on the faces of the City Governors of the 14th zone. Then he noticed that they were looking in the direction of the wilderness.

This was only noticed by the Heads, elders and team leaders of various organisations. The Heads are Tier-8 Beast Tamers as well.

So they could see the expression of the City Governors. The Leaders and Elders are Tier-7 Beast Tamers. Some elders are retired Tier-8 Beast Tamers.

They could watch their expression as well. So everyone is looking at them. Head Neil knew something was wrong.

He was more suspicious earlier. Now he thinks things have gone south. He had never seen City Governors panicking before.

"What have they done?" He asked himself.

Not only was he wondering. The Heads of other forces are in doubt as well. An unknown fear began to occupy their hearts.

Marcus said, "Did you guys feel it?"

Hearing that Enzo and Leonor looked at each other's faces. Their faces are written with horror.

"I'm being stared at by an unknown thing," the old woman Leonor said in a trembling tone.

"I'm feeling the same. The sense of crisis is increasing," Enzo said.

Marcus' mouth twitches. Because he knows the sense of crisis is coming for a reason. There is something in the core area that has moved.

...

Wilderness:

Afonso is standing in the mid air. But his expression was grave. He is feeling apprehensive for the first time after coming here.

He sees that both the ant beast queens are succeeding in getting help. Over 100ft Colossal Corrupted Beast is staring in his direction.

He was sure that the beast was looking at the city. He knew it was a Tier-9 Corrupted beast. It doesn't have to be near the city to attack it.

If he doesn't take action right now, the whole city might come under attack.

Swoosh!

Afonso moves from the spot. He is going to face the spider lord.

On the other hand, the Spider Lord has been observing the city for some time. The two ant-beast queens are on their two sides.

They are waiting for it to take action. The spider lord has already felt a threat from a human presence in the inner area.

It was observing it as well. Then it saw the human threat coming towards it.

Boom!

The spider lord didn't wait further. It launches a series of attacks. It starts shooting white silk balls.

The white silk balls were powerful. It travels through the air at breakneck speed.

Afonso saw the web balls flying past him. He takes out his axe and strikes one of the balls.

Boom!

The webball split into two. The two split parts land on the ground with a heavy force.

The landing caused the shock force to spread across the area, sweeping away the nearby long trees and plants.

But Afonso fails to stop other flying balls.

Those web balls reach the city in the blink of an eye.

Afonso's expression changes. He was a bit late to act. He didn't expect the Colossal beast to strike without thinking further.

Meanwhile,

The City Governors, the commanders, the Elders and the leaders of various forces saw something coming towards them at a fast speed.

Marcos, Enzo and Leonor were scared. The worst thing has happened.

Boom!

They summoned their Lifeline beasts the next second.

Giant Golden Green Crocodile, the Red Lion King and the Blue Wind Horse appear in the sky beside them.

Under the City Governor's order, the lifeline beasts acted. They tried to stop the incoming web balls.

Boom!

The Giant Crocodile rushes out to block the web balls. It swings its tail. The tail end struck one of the web balls, sending it away into the wilderness.

Boom!

The Red Lion King and the Blue Wind Horse acted. Each of them struck the web balls. But the number of web balls was high.

Under the gaze of many beast tamers. The web ball explodes in the sky.

The sticky white silk threads start falling on the various parts of the city.

In a flash, the massive infrastructures were covered with the sticky white threads.

Including the City Administration Building, the Beast Association Building and other important structures.

Marcos' expression turned grave. Some of the silk threads fell on the Giant Crocodile as well. It's now trying to get out of the sticky web.

The same thing happened with the Red Lion King and the Blue Wind Horse.

Boom!

The Red Lion King is trying to burn the sticky web with its flames. But it's not burning at all. It's the web attack from the Tier-9 Colossal Beast.

The Blue Wind Horse is trying to cut the threads with the wind blades. But the threads were hard. It's hard to cut them down.

At the same time, a few more web balls reach the sky above the city.

Boom!

One after another, the web balls explode. It has covered the entire city with the silky threads.

The heads of the various organisations could only watch with fear. Because the City Governors and their lifeline beasts were struggling.

Chapter 406: The City Governors were forced to confess

City A:

Head Neil Moon saw the whole thing. His expression worsened. For the first time, he had felt the fear as well.

He said, "Return to the building ASAP"

Hearing that the Elders and the team leaders recovered their thoughts and began to act.

Jeremy Night gulps saliva in fear. He sees that City Governors themselves were helpless. He wasn't able to comprehend what was happening around him.

"Everyone go back to the building," Gisela's voice sounded.

Hearing that Sinag and others started going back to the building. Everyone is trembling in fear.

One after another the members entered the building.

Jeremy Night entered among them. But he couldn't take his gaze away from the three lifeline beasts struggling in the sky.

He then enters the building along with others. Everyone's face was written with horror. The team leaders themselves were scared.

They had seen the same scenes as well. The web attacks have trapped the city governors and their lifeline beasts.

The City Governors are powerful Tier-8 Beast Tamers. They were unable to help themselves. How can they protect the city?

This was on everyone's mind. They are wondering what to do now.

Everyone is standing in the lobby. It was a little crowded. Undoubtedly, everyone is scared. No one is raising the questions.

The Team Leaders themselves were scared. Gisela's eyes flickered. She understood something.

She then looks at Head Neil and asks, "Head, what happened?"

"Why are the city governors helpless?" She added.

Hearing that everyone turned towards Head Neil Moon. Old man Neil has already guessed something.

But if he tells them, he knows everyone would be scared.

"Don't ask anything now. Just be safe here. I'm going to check outside," After saying that Head Neil Moon left.

But his answers only worsened everyone's fear.

Gisela doesn't know what to say. But she was extremely worried. The whole city was covered in sticky webs.

It was definitely an attack from Powerful Corrupted Beasts. But it was not from the flying ants. Some other corrupted beast has attacked the city.

From the webs, they could guess that it was a spider-type beast. Not only her, but others could guess at this point.

But no one is saying this out of fear.

Jeremy Night calms down his heart. His condition was better than before. But when he saw others, they were still trembling in fear.

"What kind of beast attack was this?" Jeremy asked himself.

The City Governors and their Lifeline beasts were weak against such an attack. Jeremy didn't dare to guess even the Tier of the corrupted beasts.

...

Outside:

The Heads of the various forces tried to reduce the City Governors and their Lifeline beasts. They were trapped in the sticky web.

Marcos, Enzo and Leonor were clearly embarrassed. They hid things from various forces. Now they are getting help from them.

Head Neil was among them as well. But before they could completely remove the spider webs.

"You guys go and rescue people trapped in the webs. We can handle it," Marcus gave the order.

Hearing that others' heads didn't have a choice. Then they started rescuing people. But still some of them stayed back.

They are the Heads of the top beast-taming forces.

"Care to tell us what hit us?" The Head of the Beast Taming Association asked.

Other heads were glaring at them. Including the Dean of the Central University, Head Neil and other heads.

The Head of the Sun Wheel Organisation was here. The Head of the Reed Family is present as well. He had sent someone to rescue his daughter.

The special mission was planned by the City Governors. Yet they were helpless in the end.

Marcos saw the anger of fellow Tier-8 Beast Tamers. He saw the head of the Reed Family as well. Things have gone south now.

He doesn't want to hide anything further. Marcos started to tell. Enzo and Leonor were standing with him.

As everyone continues to listen, everyone's expression changes. They didn't expect the presence of the two ant-beast queens.

But what attacked the city now was not the flying ant queens.

Then Marcos revealed a huge truth to everyone.

The Two Ant Queens had called for help earlier. Because of that, they were forced to return. Right now, the attack was from one of the helpers.

"Governor Marcos, are you playing with the lives of the people?"

"That was definitely an attack from the Colossal Beast. Everyone knows that it can take down the city from a far distance."

"We will all be killed without seeing the Colossal beast," The Head of the Beast Taming Association started asking tough questions.

Neil Moon was angry as well. He had given them evidence earlier. These people ignored it. Now they have drawn the attention of the Colossal beast.

Leonor said, "Don't worry everyone. We have the help of Lord Afonso from the Human Alliance. He is a Tier-9 Powerhouse."

"He can handle the Colossal beast," She added.

Hearing that some of them ease down their anger. Since the Lord from the Human Alliance is here.

Even the City Governors had to listen to his order.

"We can't be complacent. That's just one of the Colossal beasts. The core area is filled with such giants," The Head of the Sun Wheel Organisation said.

Hearing that everyone felt cold water poured on their head.

At this time, Neil Moon opened his mouth.

He said, "The Colossal Beast has intelligence as well. I don't know what the ant queens have promised."

"If we don't do something, we might face attacks from the ant beast queens," He added.

"Ant beast queens uh?"

"Let them come. We can surround the cunning beast queens and kill them," The Head of the Sun Wheel Organisation said.

Head Neil said, "Governor Marcos, we should allow people to leave the city. We still have break time. Before the next attack comes, we should let people leave."

Everyone's face changes again.

Enzo said, "Head Neil, we respect you. But you are overly worried. It's just one Colossal Beast. Lord Afonso will kill it."

Chapter 407: Part 1: Afonso vs Spider Lord

Wilderness:

Afonso is blocking the attacks of the Spider Lord. Yet some of them went past him and successfully struck the entire city.

Afonso was pissed off. He didn't know how many people had died or were trapped under the attack. The next second, he summons his Lifeline beast.

Boom!

Blue lightning starts surrounding the place. A brown color leopard with blue stripes appears before Afonso. It's over 70t in height.

Yet it's smaller than the spider lord. Afonso looks at his lifeline beast and asks him to take down the Spider Lord.

Swoosh!

The lightning leopard charges forward to attack. The spider lord faces the threat from the leopard.

It shifted its attention from the city to the human and the beast in front of it.

The two ant-beast queens were shocked. They can't face either the human or the leopard beast alone.

Finally, the two ant-beast queens decided to join forces to deal with the human beast tamer. Once he is down, the leopard beast will be gone as well.

Swoosh!

The two flying ant queens started darting out towards Afonso. Afonso saw through their calculation as well.

He knows he can't deal with three of them alone. So he had to bring his lifeline beast outside.

Boom!

The spider lord shoots the web ball again. This time the web ball was larger in size.

In a flash, the web explodes right in the face of the leopard.

The silky threads were covering the body of the leopard and trapping it.

Boom!

This all happened within seconds. But the leopard uses the ability. Blue lightning bolts flash around its body.

It cuts down the threads in the move. After doing that, it leapt forward to attack the spider lord.

Swoosh!

The Colossal spider tries to move away from the place. But its speed was slower than the leopard's.

The leopard's paw, which was filled with the blue Lightning, struck the body of the spider lord.

Boom!

An explosion occurs. The shock wave spreads around the place with huge force. It's destroying everything on the way.

On the other hand, the leopard's attack caused injury. The spider lord again attacks the leopard beast with the web ball attacks.

Swoosh!

The Big Leopard retreats before attacking from another direction.

Clang!

At the same time, Afonso is fighting against the Ant beast queens. They were trying to cut down his body with the leg blades.

He is using his powerful axe to defend it.

...

City A:

The 3 City Governors managed to get out of the sticky web threads. Then they helped their lifeline beasts to get out as well.

About 10 minutes later,

Marcos takes a look at the city. The spider web has covered almost the entire city. As if the Spider beast wants to trap its prey from escaping.

To think that it has considered the entire city population as food, a cold shiver went down his spine.

Enzo and Leonor are having the same expression. They could tell that whatever attacked them didn't want them to die.

If it were from elemental attacks from such a level of beasts, then the entire city would have already been destroyed.

Marcos then turned towards the various Heads.

He said, "If we officially allow people to leave, then it would cause chaos and confusion. A large-scale casualty might occur."

"Instead, I want the Heads of the various organisations to guide the people outside without publishing the news," He added.

Hearing that a look of understanding dawned on various Heads. Head Neil sighed inwardly. Finally, someone understood his concerns.

Neil asked, "Governor, where do you want us to take them?"

Marcos said, "Anywhere!"

"But it's not safe for people to live here," he added.

Old woman Leonor said, "It's difficult to relocate the entire population. We can start from the children, the old and the sick."

At this time, Enzo said, "I think we are being hasty. Why don't we ask the Lord Afonso?"

Hearing that everyone was stunned. They almost forgot that someone from the Human Alliance is already here.

The Sun Wheel Organisation Head said, "It's not wise to make a decision without Lord Afonso. Moving an entire population is not an easy task."

"Let's ask him first," He added.

Marcos gave a thought before nodding his head.

"The black clouds have stopped coming. The Lord must be fighting. Let's go and help him," Marcos said.

Hearing that others are ready to help. The various Heads informed their elders before accompanying the city governors.

Swoosh!

In the sky, many figures are flying towards the wilderness. The people on the ground recognised that they were city governors and the heads of the various forces.

On the side of the Shadow Moon Organisation, Gisela saw this whole thing standing outside. Right now, Neil Moon has sent her a message.

They are going to check out the wilderness. A Tier-9 Beast Tamer from the Human Alliance is fighting against the Ant Beast Queens.

She then went inside the building and informed others. The faces of the elders and leaders were still grave.

At this point, everyone is discussing what has attacked the city from a long distance. Everyone had answers in their own mind. But no one wants to confirm it.

On the other hand, Jeremy Night is feeling helpless as well. When it comes to such a high-tier beast, he can't do anything to help.

His Beast Taming journey has just started. But he has already come across two beast invasions. This time was more dangerous than the last time.

What more? They are facing a beast invasion from a Corrupted Beasts species. It's the flying ants.

In the 14th zone, the whole city had faced a beast invasion from all types of beasts. Yet they were able to survive in the end.

He doesn't know who is going to save them from this beast invasion. Even the leader, Gisela and others didn't say anything.

He can tell that web attacks were from a terrifying spider beast.

He thinks it was at least a Tier-8 Corrupted Beast.

Chapter 408: Part 2: Afonso vs Spider Lord

Wilderness:

Afonso and his blue lightning leopard were fighting against the Ant beast queens and the spider lord.

When the fierce fighting is going on. A couple of figures came to the spot.

They were none other than the City Governors and the heads of some organisations.

Their gaze fell on Lord Afonso and his Tier-9 Lifeline beasts. Upon seeing that they were stunned.

Their eyes flash with fear the next moment. Because they could see over 100ft spider lord beasts.

If such an existence goes to the city, then no one will save the population.

Then they turned towards Lord Afonso, who was blocked by the two ant-beast queens.

Marcos' expression was darkened. Earlier, they were hidden in the underground and refused to come out.

Now both the ant beast queens were fighting against the Tier-9 Beast Tamer.

Enzo and Leonor decide to help. They immediately summoned their lifeline beast.

The red lion King and Blue Wind Horse appear beside them.

Upon seeing that Marcos said, "You guys take care of the ant queens."

"I'll assist the Lord to deal with the Spider Lord," He added.

Hearing that others nodded. Head Neil was present there as well. His earlier assumption turned out to be right.

A colossal Tier-9 Corrupted Beast is targeting their City. If they don't take out this beast soon, then the entire city might face a massacre.

Afonso saw others as well. His eyebrows ease down a little.

Swoosh!

Then he ignored the ant beast queens and bolted out towards the Spider Lord. While moving, he covers the axe blade with blue lightning.

The Big Leopard is attacking from the other side.

Boom!

He struck one of the spider's legs with an axe. The axe went inside the skin. The blue lightning starts rampaging through the flesh and skin.

Cry!

The spider lord felt pain. It made a weird cry before retreating. The Big Leopard went forward to attack again.

Because of its agility, it was able to leave injuries on the massive body of the Spider Lord. Seeing that the spider lord is being deterred, Afonso was happy.

He doesn't want the Colossal Beast near the city. He then continues with the attack.

Meanwhile,

The Two Ant Beast queens were surrounded by a bunch of Tier-8 Beast Tamers. The corrupted beasts are usually stronger than the humans.

Both of them blocked the Tier-9 Beast Tamer earlier. The Flying Ant Queens were not worried about facing the Tier-8 Beast Tamers.

It's just that the Spider Lord's actions have stunned them. Seeing that Human Tier-9 Beast Tamer joined forces with his beast to attack the Spider Lord.

They felt their plan might fail.

But the city was already trapped under the Spider Lord's webs. It is too much of a loss for the Spider Lords to retrieve.

Swoosh!

The Ant Queens were not without help. They called out their remaining worker ants.

They have asked their nearest ants to assist them and the rest of them to attack the city.

This was seen through by Governor Marcos.

"No, they have called for help. Quickly take them down," Marcos said.

Boom!

The Giant Golden Green Crocodile struck the body of one of the queens. Like a fast projectile, she was sent back flying.

In a flash, her body landed on the ground. The ant queen puked blood. But instead of standing up again.

Swoosh!

The ant beast queen escapes into the ground.

Seeing that Marcos was stunned. The Tier-8 and Tier-9 beasts have intelligence no less than that of humans.

He then went to assist Lord Afonso. The Huge Crocodile follows him from behind.

Before others could react, the second ant beast queen wanted to flee as well. But Head Neil blocked its path.

Others immediately reacted. The group splits into two. One group went to check the underground.

The other group is targeting the remaining flying ant beast queen. The queen's cunning eyes flickered.

While fighting, it's slowly moving backwards. Dragging everyone to the core area.

Enzo and Leonor continued to go after the beast queen without thinking further.

Boom!

The Red Lion King is shooting with flame balls at the flying ant.

From the other side, the blue wind horse attacks with the wind blades.

Head Neil, the Sun Wheel Organisation Head and a few other Heads are yet to bring out their lifeline beasts.

Because they could see that their attacks were not affecting the flying ant queens. Only the attack from the Tier-9 Beast Tamer can injure it.

Both the Ant Queen's body was covered with a powerful exoskeleton. This was seen by the Heads of the organisation.

That's why the Ant Beast invasion is considered troublesome. It's not easy to eliminate the queens.

Boom!

At the same time, the black clouds began to appear in the sky from various places. Seeing that the ant beast queen communicated.

A few of the black clouds are coming towards her. While others are moving towards the city.

Seeing that Head Neil takes out the device. It was an advanced one. He sent a message to Gisela and a few elders.

His actions prompted others to report it as well.

Harumph!

The Head of the Sun Wheel Organisation snorted. The next second, he does the same as well. Already, his organisation suffered casualties.

Now, the next wave of black clouds is going to cause damage again.

...

City A:

Shadow Moon Organisation,

Everyone was inside the building. Some of them returned to their room to recover their strength and tend to their wounds.

Only a few groups were staying in the lobby.

Gisela is sitting with her team. Her device rings up with a notification. She takes out the device to check.

Seeing that it was a message from the head. She opens the chat to read it.

The next second, her expression changes.

"F@ck!"

"The black clouds are coming again. Everyone, come outside," Gisela shouted all of a sudden.

Hearing that Jeremy Night and other members were taken aback. They had thought it was over. But it was not.

The Elders and other team leaders reacted as well.

Chapter 409: Part 1: Fighting against the group

Wilderness:

Boom!

The Spider Lord continues to suffer from injuries. It didn't expect such a powerful human beast tamer to appear at the last moment.

The spider lord knows the existence of such beast tamers. They were responsible for a small city built in their territory.

It's just the powerful beast tamers left after establishing the city. They won't appear unless there is a crisis.

The spider lord realises that the human prey has reported its existence. Now they have come here to rescue them.

"Where are you going?"

"I'm not going to let you go," Afonso shouted in a loud tone.

He realises that they are getting closer to the core area. The spider lord is dragging them to the core area.

So he decisively commanded his lifeline beast to retreat. The big leopard then stopped charging forward.

Swoosh!

The leopard then returns to the side of Afonso.

Both parties are now staring at each other.

Meanwhile,

Marcos was fighting against one of the Ant beast queens. He had tried to help Lord Afonso, but his help was not needed at all.

Enzo, Leonor, Head Neil and a few others chase after the other Ant beast Queen.

...

City A:

Gisela's shout has caused everyone to exit the building. In the blink of an eye, everyone returned to the outside.

Then they were turning towards the sky.

Jeremy Night was with Sinag and others. He is looking at the sky as well. They are hoping that Leader Gisela's words are false.

Not long after, everyone saw the black clouds approaching the city again. But compared to the previous size of the black clouds.

The size of the current black clouds was small. But the danger has not decreased yet.

"Get ready to fight," Gisela ordered.

Hearing that Jeremy Night takes out his katana blade to fight. Sinag and others summoned their Lifeline beasts.

At the same time, Jeremy found out that some of their eyes were on him as well. At first, he was confused, but upon seeing their Lifeline beast.

He understood immediately. He forgot that he can't bring out this lifeline beast egg outside for the fight.

Fortunately, not many were paying attention to this matter. Right now, everyone has the most important task at hand.

Swoosh!

One after another the black clouds entered the city. The commanders and the team leaders standing on top of the walls tried to stop them.

Yet some of them went past them. Upon reaching the middle of the city, the black clouds dispersed.

The flying ants appeared in large numbers. Among them, Tier-5 and Tier-6 Corrupted Beasts were present in large numbers.

There were Tier-7 Flying Ants as well. But their numbers were low.

Swoosh!

They immediately spread in different directions to attack the humans.

A part of the flying ants is coming towards the Shadow Moon Organisation as well. Upon seeing that everyone was ready to fight.

The Team Leader who Tier-7 Beast Tamers acted first. They went to confront the Tier-6 and Tier-7 Flying Ants.

The Tier-5 and the low Tier Flying Ants started coming out in large numbers.

Jeremy Night is watching the coming of the beast.

He didn't expect to see this many Tier-5 and Tier-6 Flying Ants. He started to think the wilderness was safe compared to the city.

Swoosh!

He then collected his thoughts and was ready to confront the beast. He covered his katana blade edge with starlight liquid.

Earlier, he used to cover the whole blade with the starlight power. To minimise the consumption, he coated the blade edge this time.

Swoosh!

A Tier-4 Flying Ant got closer to him first. He was about to cut his hand using wing blades. Jeremy was not afraid.

Puchak!

A katana blade penetrates Ant's thorax before severing it. The upper half of the body was separated from the lower body.

The Tier-4 Flying Ant ended its life just like that.

Swoosh!

Jeremy didn't stop it right there. He continues to swing his blade at the incoming flying ants. They were all Tier-3 and Tier-4.

Pfff!

His blade dances in the air before cutting down the flying ants one by one. Their body parts were splattered on the ground.

At the same time, the 2nd and 3rd Squad members were focusing on the Tier-4 and Tier-5 Flying Ants.

The Elders were dealing with the Tier-6 Flying Ants. The rest of them were dealing with the low-tier flying ants.

Sinag and Ada are fighting against the flying ants with the help of their lifeline beasts. They were busy.

None of them had time to take a look at others. Everyone was swarmed by the flying ants. But some people are different.

For example, Fredick saw what others were doing while fighting against the Tier-3 Flying Ant. He is dealing with one.

But when his gaze wandered around, he found out everyone was dealing with more than one beast. Which forced him to rethink.

Just then his gaze fell on Jeremy Night. He was shocked to the core. So much so he forgot about the flying ant.

Pfff!

The flying ant struck his back. He was sent back flying before crashing onto the ground.

AaahhhHHh!

A muffled grunt left his mouth. But he couldn't forget the scene that he saw. Jeremy Night is cutting down the flying ants like weeds.

Scream!

A human-sized red-haired monkey rushes to his side. It was his lifeline beast, the Red Haired Monkey. Upon seeing that Fredric was injured.

The Red Haired Monkey charges towards the Tier-3 Flying Ant. This gave time for Fredric to recover his thoughts and to get up.

Not only has Fredric seen that scene. Others have seen it as well. Albert, George and Cedric but they accepted the fact quickly.

Albert knew that Jeremy Night had the record of slaying a Tier-4 Corrupted beast before. That's why he was recruited by Leader Gisela in the first place.

So he was convinced. Just that scene of Jeremy Night eliminating the group of beasts has sent chills down his spine. That too without the help of a lifeline beast.

Chapter 410: Part 2: Fighting against the group

City A:

All the Beast Taming forces once again started fighting against the Black Clouds. Including the Beast Taming Association and the Central University, the Beast Taming Families.

At the same time, the casualties started to increase. The top leaders have gone to the wilderness.

Because of it, the strength on the beast tamers' side was reduced.

The fate of the whole city rested on Lord Afonso and his lifeline beast.

...

Meanwhile,

The news about the flying ant beast invasion in the 10th Zone's City A has reached other cities. The news has spread to other zones as well.

The City Governors and the important Heads of other zones have confidence in the 10th Zone's leadership.

Because they knew it was not the first time the 10th zone was facing the Beast Invasion. There were Beast Invasions in the past as well.

So they were keeping an eye on them. But their reaction changes as time passes. Because the news coming out from City A is grim.

They are getting footage and videos from the City A. Those videos have gone viral in other cities in the 10th zone as well.

Such videos have sent a shockwave across the Human Population. The Rest of the Human Zones are alarmed.

The City Governors were trying to stop the videos from spreading. But unfortunately, most people have seen it.

The City Governors and important leaders in the other Top 9 Zones saw the videos. They were scared and shocked to the core.

They saw that the 10th Zone's City A was covered with spider webs. The scene itself sent a cold shiver down their spines.

They knew it was not possible against the Tier-8 Corrupted beast. Only the Colossal Tier-9 Corrupted Beast and above beasts can do it.

What more? They knew City A was under attack from the Flying ants. So where do the spider webs come from?

From the viral videos, they have seen the beast tamers fighting against the Black clouds. The black clouds are nothing but an army of flying ants.

The lack of information has terrified them. But undoubtedly, the City A has encountered a corrupted beast above the Tier-8.

But they don't know what's going on with the City Governors on the sides of the City and their battle situation. Since they were fighting in the wilderness.

They don't know information about them. But these City Governors then decided to ask for help from the Human Alliance.

If they wanted, they could leave the city, but unfortunately, they have an important position. Their cities were located in the same surroundings.

Their surroundings have wilderness as well. It's just that the corrupted beasts living there were different. Some cities have large forests filled with tall trees everywhere.

The flying bird-type corrupted beasts were living there. If the City Governors leave their post to help others, then they could face the beast invasion as well.

So they could only get answers from the Human Alliance.

On the other hand, the viral videos and other pictures have reached the headquarters of the Human Alliance. The officials there verified the footage as well.

Not one video but hundreds of videos captured by the people in the 10th Zone's City A. All the videos turned out to be true.

The officials were terrified. They informed their higher-ups. The higher-ups are none other than the retired Tier-9 Beast Tamers.

Upon hearing such news, they have checked the footage and pictures. They were confirmed to be true.

After knowing that they have tried to contact the City Governors. But they were not picking up their device. The higher-ups knew that they had sent a Level-9 Beast Tamer there.

They knew about the Beast invasion before. It's just the appearance of the Spider Webs that shocked them as well. They tried to contact Lord Afonso. But he is not picking up his call as well.

The elders realise that a battle must be going on. So they have asked the officials to contact the City Administration there.

If no staff picks up the call, then they can try contacting the Beast Taming Association, Central University, Beast Taming Families and other forces.

The Elders were serious right now. They didn't expect a Tier-9 Colossal beast to set its gaze on the city. They knew the Tier-9 Beast could take down the city from a far distance.

So the people living in City A are in a difficult situation.

Under their watch, the officials were able to establish communication with the Heads in the city A. The staff at Central University has picked up the calls as well.

Then the officials were able to learn what happened with the City Governors and the city.

A few minutes later,

The officials were able to know what happened there. Then they went to inform the higher-ups.

The Elders who were Tier-9 Beast Tamers learned that Lord Afonso and the City Governors were fighting in the wilderness.

They were able to know what happened in the city. The spider webs were shot by something from the wilderness.

This was enough to confirm that Tier-9 Colossal Beast is targeting the City.

The Elders began to discuss now. Sending Lord Afonso was not enough. What if other Colossal Beast targets the city?

Then the chances of City A getting destroyed are higher. Now they have sent someone sooner to City A. They can't waste more time.

In the same meeting, they discussed who to send. The information was sent to other available Tier-9 Beast Tamers.

Some of the Tier-9 Beast Tamers' Lifeline beasts were not suitable to face the Tier-9 Colossal Spider.

The Colossal spider has powerful poison. It doesn't have a cure.

If the Tier-9 Beast Tamers' Lifeline beast was poisoned by it, then the chances of the lifeline beast dying are higher.

So the elders have to carefully select the Tier-9 Beast Tamer from the available people. Many of the Tier-9 Beast Tamers were busy. They have some other work to do.

So the Elders can only look for others. It didn't take long for someone to accept the request.

That person's lifeline beast can easily eliminate the Tier-9 Colossal Beasts.
