

## **STRIKER 411**

Chapter 411: Part 1: 14th Zone reaction!

City C (14th Zone):

Ron Night, who was one of the city governors in the City, heard about the crisis faced by the 10th zone.

He was shocked to the core. He couldn't get himself out of the shock. The staff beside him took him to his home.

They had thought he needed rest. So they didn't examine him.

But the atmosphere at the Night Mansion was much worse. The wife of Ron Night was unconscious herself.

The city Administration was further shocked upon knowing what happened. The wife of the City Governor was taken aback by the news of the 10th zone's beast invasion.

The footage is going viral here as well. Everyone has seen the videos. The 10th zone is many times stronger than the 14th zone. Yet they were facing such problems.

If the flying ants were to target their city, then they would have slaughtered the city in one hour.

The city administration staff then collected their thoughts before leaving. Both the Master and Madam of the Night Mansion were admitted to their bed inside the mansion.

The servants were there to protect them and take care of the place. But they still didn't know what made both of them so worried.

At this moment, they thought about their young master as well. But they had no way to inform their Young Master Jeremy Night.

They could only wait for the Master and Madam to wake up. Only Ron and Nora knew what they had felt before losing consciousness.

The shock was too large, they couldn't take it before losing consciousness.

...

Central University 14:

Inside the dean's office, the old lady Carolyn was sitting behind the desk. She is watching the videos coming from the 10th zone.

Each of the videos made her heart palpitate. She didn't expect the beast Invasion to occur. She was aware of the previous beast invasions as well.

But she found that this time the beast invasion was intense. Not only that, but she also realises that the Tier-9 Colossal corrupted beast has set its eyes on the City.

Because the spider webs covering the city were clear. Apart from the Tier-9 Colossal beast, no other beast has such an ability to cover the city with a single attack.

She also knows that the Human Alliance must be paying attention to the situation. Yet things have reached this far.

The whole city is trapped. If such an attack were to land on the city, then half of its population would be wiped out.

Unknownst to her, sweat beads covered her forehead.

She then wipes out the sweat before thinking about an important person. The important person is none other than Jeremy Night.

She knows that Jeremy Night has joined the Shadow Moon Organisation. One of the Powerful Mercenary organisations in there.

She thinks that Jeremy Night must be under their protection. So the chances of his life being at risk would be low. Yet the scale of the beast invasion has scared her.

She is hoping that Lords from the Human Alliance will take action. Only they can put an end to the Beast Invasion.

Until then, she is hoping that Jeremy Night will survive as well.

After Jeremy Night got an early graduation from here to join the Shadow Moon Organisation, she had a little bit of resentment in her heart.

She had thought Jeremy Night was opportunistic. That's why he had disregarded her STRIKER development program and went to join some other better force.

But all of that resentment is gone now. Because she came to realise that Jeremy Night was facing the second beast invasion.

When he had faced the beast invasion. That kid was at the forefront in eliminating the corrupted beasts. Especially the Tier-3 Corrupted Beasts.

This had greatly helped to reduce pressure on his team. She thinks Jeremy Night must be doing the same as well.

Before leaving the place, he held the record of killing a Tier-4 Corrupted beast. She thinks that kid must be fighting against the Tier-4 flying ants.

Unfortunately, she didn't know that Jeremy Night had long since been able to break the record. He is capable of killing Tier-5 Corrupted Beasts right now.

Knock!

Suddenly, there is a knock on the door.

Hearing that, she collected her thoughts and allowed the person to enter. The next second, an old man walked in.

The person is none other than the Head of the first-year department, Derek. His face was written with horror. As if he were terrified by something.

Dean Carolyn saw her as well. She has asked him to take a seat. Derek sits opposite her.

He looked into her eyes and said, "Jeremy Night?"

Hearing that Dean was not surprised. She was thinking about that kid a moment ago.

"There is no news about that kid. But I'm sure he must be under the protection of the Shadow Moon Organisation," She replied.

Derek nodded his head and said, "I think so. But the threat they are facing right now was not ordinary."

"The Flying ants came in numbers in the form of black clouds. It appears that they are between Tier-3 to Tier-7 Beasts."

"I don't know whether the help from the Human Alliance has arrived or not," he added.

"Don't worry, everything is under the watch of the Human Alliance. They must have dispatched someone during the beast invasion."

"This beast invasion will be over soon," She said to him.

"What about Jeremy's parents?" Derek asked.

Hearing that old lady was stunned. She has forgotten about them. Apart from a few of them and Jeremy's friends, no one knows about Jeremy Night's whereabouts.

She said, "You should go and talk to them. I'm afraid they might try to go there."

"Ron Night is one of the City Governors there. I don't think he would take such action. But I'm ready to go and see what's going on there," Derek replied.

They talked about a few other things before he left the room.

"Kid, you'd better survive. You have a long way to go," Carolyn thought.

Chapter 412: Part 2: 14th Zone reaction!

City A(14th Zone):

On the other hand, the Instructor, Jacob Henry, saw the viral videos online. He broke out into a cold sweat the next moment.

He had never thought the 10th Zone would face a beast Invasion. If it were an ordinary beast invasion, he wouldn't have been worried.

Because there are city governors and heads of the beast-taming forces. They would solve the problem easily.

But he saw the whole city was covered in spider webs. Many top high-rise buildings were entirely trapped.

He knows that such a scale of attack can only be done by a powerful beast.

"It must be a Tier-9 Colossus Beast," Jacob thought.

Jacob had never seen Colossus the Beast in real life. He had seen such a Tier-9 Lifeform only online. Even in those online videos.

No one has seen the entire body of the Tier-9 Colossal Beast. Those online videos have captured some glimpses.

Because the fight between Tier-9 Beast Tamers and the Tier-9 Colossal Beasts was terrifying. No one has the guts to record it.

Jacob Henry was scared. He knows Jeremy Night has joined one of the organisations in the city as well.

He didn't know the condition of Jeremy Night, either. He is thinking the same as the Dean. He believes Jeremy Night was under the protection of the city.

So he was not worried about the kid. But he is worried about the kid's family and friends. He knows Jeremy's father is a City Governor.

He thinks they can handle the shock. But he was not sure about the STRIKER Department members.

Ever since Jeremy Night graduated from here. Only Betsy Lowe and Daniel Stone were left in the department.

He thinks they must have seen the videos as well.

While he was thinking, the same discussion was happening on the side of Betsy Lowe and Daniel Stone.

Right now, both of them are in class. Betsy and Daniel saw the online videos. Their faces were full of fear. Their backs went cold.

From the online videos, she can tell that black clouds were filled with the dangerous flying ants.

"It appears to be a dangerous beast invasion," Betsy said in a serious tone.

"The Flying Ants are hundreds in number. They are mostly Tier-3 to Tier-7 Corrupted Beasts," She added.

"We can't even fight against Tier-4 Corrupted Beasts. Let alone the Tier-5 and above beasts," Daniel said.

"If such beasts were to appear here, then our city would be razed to the ground," Daniel added.

"Those who are seeing the footage, comparing themselves to the situation. We don't have such terrifying beasts living in our wilderness."

"But the wilderness surrounding the top 10 zones is different. Without sufficient strength you cannot survive there," Betsy said in a serious tone.

She has figured out the situation. Daniel said nothing. But both of them worried about Jeremy Night.

The secret of Jeremy Night's departure was disclosed by the Instructor Jacob sometime ago.

So they knew Jeremy Night had joined the Mercenary organisation there. They were angry about it.

Because Jeremy Night didn't reveal a word about it. Then Head Jacob told them about the dangers of the top 10 zones.

In the top 10 zones, the infighting within the organisation is severe. Jeremy Night had to face dangers from the corrupted beasts and the hostile beast tamers as well.

It's totally different from their small city. After hearing that the resentment in their heart had disappeared.

They too realise that the risk was taken by Jeremy Night. They realised that if Jeremy Night had wanted, he would have become the next City Governor in their own city.

He can kill a Tier-4 Corrupted Beast with his own strength. So he can kill Tier-5 and Tier-6 Corrupted Beasts easily in the future.

Yet Jeremy Night had avoided the safe route and took the risks to join the Mercenary organisation in the 10th zone.

"Don't worry, he will be fine. He had never acted without a plan. He won't take reckless actions there," Daniel said to her.

Hearing that, Betsy recovered her thoughts.

She said, "According to the news, a Tier-9 Colossal Beast has attacked the city with spider webs."

"Unless they get help from the Human Alliance, it's difficult to save them," Betsy added.

"Tier-9 Colossal Beast!"

"Don't scare me like that," Daniel said with fear.

The mention of Tier-5 Beast itself scares him. But people are talking about the Tier-9 Colossal Beast online.

Betsy saw his reaction and shook her head.

Even she was scared herself. They are just Tier-1 Beast Tamers. The Tier-9 Colossal Beasts are far away from them.

"Let's just hope. He is going to be safe," Betsy commented.

Then they changed their topic and started focusing on other works.

Meanwhile,

They are not the only ones who knew the truth about Jeremy Night. People with an influential background learned about it as well.

Among the things May Lindsey learned from her family. Ever since she came to know about Jeremy Night's early graduation.

She wanted to enter the top 10 zones as well. Her family is trying several other ways. As long as May Lindsey's strength reaches Tier-3.

She will gain an entry-level qualification. But it will take at least one year. But before that, she had decided to work hard.

But this beast invasion news came as a shock. She saw the trending videos. An entire city was covered with spider webs.

Flying Ants are attacking in large numbers in black clouds.

She saw how the flying type Corrupted beasts had successfully entered the city and were causing various damage to the people and infrastructure.

She was able to learn from her family that the spider web was released by the Tier-9 Colossal Beast. When she heard that, she was dumbfounded and scared.

A mere Tier-7 Corrupted beast caused a beast Invasion not long ago here. But the 10th zone is facing a threat from the Tier-9 Colossal beasts.

She came to realise how serious the threat was surrounding the top 10 zones. Then Jeremy Night joined such a city.

And this beast invasion is going to be his second. She doesn't know what to say or how to react. But she is feeling competitive.

As an S-Grade Talent, she wanted to do better as well. So this is only motivating her. She will definitely fight against powerful corrupted beasts in future.

Chapter 413: Spider Lord retreated!

Wilderness (10th Zone):

The Colossal Spider Lord retreats to the core area. Seeing that, Afonso sighed in relief. Though he was unable to kill the Colossal Beast.

He was able to injure to an extent that the Spider Lord doesn't dare to attack again.

The Spider Lord indeed came back to the core area. Because, the Spider Lord has suffered severe injuries.

It couldn't afford to continue with the attack. It urgently needs to take care of the injuries.

Afonso then looks at his lifeline beast leopard. The Big Leopard played a huge role in driving away the Colossal beast.

Because the lightning power of the leopard was so destructive.

"You have done a good job. Go back to take a rest," Afonso said.

Swoosh!

The next second, the lifeline beast leopard disappeared and went back to the mental zone.

Afonso turned around and saw that two ant beast queens were nowhere to be seen. His mouth twitches.

The City Governors and the various organisations' Heads failed to eliminate the ant beast queens.

Marcos' face turned ugly. He had tried to kill the Ant Beast Queen. But it escaped with its small body.

The Golden Green Crocodile failed to land its attack on the Ant Beast Queen. Not only has he failed to stop.

The other Family Heads were unable to stop the Ant Beast Queen.

If the news reaches back to the city, then it would be a huge embarrassment for the city.

Head Neil was present as well. He was shocked inside. The Ant Beast Queen was tougher than he had thought.

He knows they hadn't faced such difficulties in previous beast invasions.

Afonso appeared in front of them and started to observe them. He had noticed that both Ant Beast Queens escaped into the underground earlier.

At that time, he was busy blocking the Colossal Spider. So he couldn't help.

Swoosh!

At this time, another group returned. It was headed by the Sun Wheel Organisation's Head.

The group then saw Lord Afonso. They were stunned. Then they realised that Lord Afonso had driven away the Tier-9 Colossal Beast.

"You guys have disappointed me," Afonso said in a serious tone.

"Lord, the Ant Beast Queen is cunning. She has escaped into the underground," The Sun Wheel Organisation Head said in a serious tone.

He was feeling embarrassed. Then he glances at the side of Neil Moon. He saw they were being down as well.

A look of understanding dawned on him.

Afonso said, "Go back to the city. I'll look for the Ant Beast Queens."

But the real reason was that he wanted to report to the Human Alliance. He needs help to put an end to the Beast Invasion.

City Governor Marcos looks at Enzo and Leonor. They nodded to each other before leading the organisation's head back to the city.

Swoosh!

The three City Governors left together with the organisation heads. When they were gone from the place.

Afonso looks around before taking out his communication device. He saw that there were numerous calls. They were all from the Headquarters.

Seeing that he became serious. He realises that news must have reached them. He then calls back.

It didn't take long for the connection to be established. The official who got the call was taken aback.

He immediately informed the higher-ups. A few Elders came to speak to him. Afonso then informed them about his situation.

After learning that Tier-9 Spider Lord has not died. It simply retreated to the core area. The Elders felt relieved.

Then they knew that Tier-9 Spider Lord might attack again. The danger to the city was not over yet.

What more? Afonso revealed that they had failed to eliminate the Ant beast queens as well. The Elders got angry after hearing this news.

They felt the sense of the City Governors and various Heads had become dull. They have become so weak that they couldn't defeat the Flying Ants anymore.

Then the Elders informed him that they would help him on the way. That person will take care of everything.

Hearing that Afonso was relaxed. He wanted to know the person's name. But the Elders didn't inform him.

They were angry that Afonso failed to do such simple tasks. If the news spreads to other zones, then people will laugh at their Human Alliance.

But they knew that it was not easy to fight against the Spider Lord. Especially when it has a potent poison.

It can kill the Lifeline Beast and the Beast Tamer. So they didn't say anything further to him before ending the call.

Afonso put back his device. But his face was not good-looking. He could tell that the Elders were angry. He could guess the reason as well.

He had failed to eliminate the ant-beast queens as well.

"There is no use in trusting the City Governors and various Heads," Afonso thought.

He then turns around and starts searching for the Ant Beast Queens.

Meanwhile,

The City Governors and Heads returned to the city. The first thing they saw was nothing but spider webs.

Marcos said, "We need to remove these things ASAP."

Hearing that everyone acted. The Organisation's Heads returned to their organisation area to remove the spider webs.

The Spider Lord attacked the city while they were fighting in the wilderness. They didn't pay much attention that time.

But they could see the state of the City right now. The whole city was covered with spider webs including the high tower infrastructures.

The City administration building was covered with spider webs as well. The Heads began to remove the spider webs with the help of their lifeline beast.

Swoosh!

Head Neil comes to the Shadow Moon Organisation. He saw that everyone had eliminated the black clouds.

Seeing that no one has suffered from the spider web attacks. He sighed in relief.

"Head!"

Upon seeing him, everyone greeted him.

Neil Moon saw everyone and confirmed that there was no casualty.

"You guys have done a good job," Neil Moon said.

"But the threat was not over yet. So focus on recovery," he added.

Those who were smiling happily right now were stunned. They had thought that the Beast Invasion was over.

They were looking at Head Neil in confusion. Including the Leaders of the various squads.

Gisela was expecting answers as well.

On the other hand, Jeremy Night, Sinag and others were watching. Head Neil Moon's words came out as a thunderclap for them.

They didn't expect the beast invasion to be over. Everyone was happy seeing the City Governors and the Head of the organisations coming back.

Fredric showed fear. He was close to death. But he was able to remain alive somehow. Yet he was dumbfounded by the news right now.

Albert, Cedric and George listened with tense faces as well.

"Head, what happened out there?" One of the retired elders asked the question this time.

Hearing that Head Neil felt hesitant. He obviously doesn't want to talk about the embarrassing situation. Both the Ant Beast Queens were able to escape under their watch.

Instead, he said, "A Tier-9 Colossal Spider saved the Ant beast queens from our attack. They have now escaped into the core area."

His words once again fell like a thunderclap in people's ears.

"A Tier-9 Beast," Jeremy said in his heart. He had these doubts earlier. But getting confirmation from the mouth of Head Neil was something else.

He is just a Tier-2 Beast Tamer. The Tier-9 Colossus Beast topic was far from him.

At the same time, the elders, leaders and members were experiencing the shock as well. The City Governors and various Heads are just Tier-8 Beast Tamers.

They can't drive away the Tier-9 Colossal Beasts. Head Neil saw through their thoughts.

"Don't worry, the Human Alliance has sent a Tier-9 Beast Tamer earlier. He was the one who fought against the Tier-9 Colossal Beast."

"He is still staying in the wilderness to protect us from the Colossal Beast," Head Neil said in a serious tone.

Hearing that everyone heaved a sigh of relief. The presence of Tier-9 Beast Tamer gives them confidence and strength.

As long as the Tier-9 Beast Tamer is here. Nothing bad will happen to their city.

But they didn't know, the Tier-9 Beast Tamer was unable to kill the Spider Lord. He has requested help from Human Alliance already.

Time passed,

The spider webs were brought down by the various Heads with great difficulty. By this time, nighttime has come as well.

But everyone is staying outside on the ground. No one is going inside their room to take a rest. The black clouds' attack can happen at any time.

So they have to stay vigilant.

Meanwhile,

The news spreads to other cities and zones as well. The City A in the 10th zone is experiencing momentarily peace. But it could break at any time.

Everyone saw the new recovery videos where they saw huge spider webs covering the building getting removed. It brought huge relief to other zones' people as well.

No one wants to see the human population destroyed. Since City A has a chance. They think Human Alliance's help is on the way.

Chapter 414: Colossal Black Centipede

City A (10th zone):

Jeremy Night and his team members were waiting outside. None of them went back inside the building. The black clouds could appear again.

Everyone is carrying fear on their faces. The leaders were no different. They are experiencing fear too. In the face of the Tier-9 Colossal Beast, they are nothing but ants.

Gilsela is watching the expression of her squad. Compared to the 1st and 2nd squads. Her gaze was set on the 3rd Squad.

She sees Jeremy Night, Sinag and others. She found that Jeremy Night was fine. But others' faces were not good-looking. Their faces filled with fear.

Gisela wants to comfort them. But she doesn't know what to say. Everyone heard about the Tier-9 Colossal Beast. It was enough for them to have immense fear.

Even if she tries to comfort them, it won't work. Unless, the Tier-9 Beast Tamer himself says the truth about killing the Ant beast queens.

Time passed,

At nightfall, the whole city was filled with terrifying silence. The Heads of the various organisations were standing guard for their people.

The City Administration's guards were dispatched in many teams to protect the local residents. In the city administration, the three City Governors were standing outside, gazing at the sky.

It has been several hours but there was no sign of Lord Afonso coming back. They felt guilty. They think Lord Afonso must be searching for the ant beast queens.

"Shall we help?"

"It's nighttime. He might face the attack of the Colossal Beast," Leonor said with concern.

Hearing that the faces of Marcos and Enzo change as well. The teamwork of three of them was necessary to block the two ant-beast queens.

More importantly, there is a need to be someone here to guide the various organisations' Heads. The forces here have a rivalry between them.

Only the city governors can make them listen.

"Alright, I'm going back to the wilderness," Marcos said to them.

"You guys should take care of the matters here. Don't allow the Heads and their people to leave the city. It might anger Lord Afonso," Marcos added.

The strength of the City Governors and the various Heads was the same. Because of it, it's hard for them to convince the various Heads sometimes.

If not for their position as the City Governors, the various Heads wouldn't listen to them.

"We will take care of the city," Enzo said to him.

"I won't allow anyone to enter the wilderness," Leonor said.

Hearing those words from two of them, Marcos nodded to them.

Swoosh!

Marcos then rose from the ground and appeared in midair. This was seen by the locals and other beast tamers.

Even the various organisations' heads saw City Governor Marcos as well. They wanted to follow the City Governor Marcos.

Then they saw City Governor Marcos was going alone. So they stopped going towards him.

Under everyone's watch, City Governor Marcos entered the wilderness. He didn't stop anywhere. He is flying directly towards the inner area.

Meanwhile,

Something serious is happening in the inner area.

Boom!

The Spider Lord has returned. It's now fighting against Afonso and his lifeline beast. This time, the 100-foot-tall Spider Lord has decided to kill Afonso.

Boom!

Instead of attacking the enemy with the spider webs. It's attacking using the poisonous ink. The poisonous ink was pitch black in colour.

Wherever the poisonous ink lands. It's corroding the entire place. In the blink of an eye, the targeted spot turned to nothing.

Including the plants, grasses and the ground.

Afonso's face was grim. He knows the danger of the poisonous ink. Once he gets attacked by it. Then he would be poisoned to death.

There is no cure for the poison as well. No one can save the beast tamer. If the Lifeline beast were poisoned, then the Lifeline beast would die as well.

Swoosh!

As time passes, the fight continues to happen. At this time, Marcos arrived at the place as well. He saw the destruction that had happened in the inner area.

The place was covered with black ink everywhere. He doesn't want to inspect it. Because he is already experiencing a sense of crisis.

The black poisonous ink was dangerous. Marcos could guess that it was the poison of the Spider Lord.

Then he hears a loud booming sound from a certain direction. He could see the towering giant. It's the body of the Spider Lord.

Swoosh!

Seeing that he went to that side. Afonso and Big Leopard were trying to inflict injuries on the spider lord. Afonso saw that Marcos was here.

He asked, "What are you doing here?"

"Lord, I came here to see you," Marcos replied.

Afonso understood the reason.

"You can't do anything here. The Ant Beast Queens must be resting and recovering right now. So go back to the city," Afonso ordered him.

Hearing that Marcos' face was darkened. But it was true that he couldn't do anything against the Spider lord. Only the attacks from Tier-9 Beast Tamers can inflict injuries.

Marcos then gave a look before leaving the place. He came here to check up on the Lord. He is doing his best to block the Spider Lord.

If not for the presence of the Lord and his Lifeline beast, the Spider Lord would have marched towards their city. He didn't know whether it was good to reveal the news to others.

Swoosh!

When Marcos was gone from the place. Afonso's eyes flickered. There is a reason why he wanted the Marcoses gone. He had already requested help from the Headquarters.

They had dispatched another Tier-9 Beast Tamer. He doesn't know who that person is. It would be a matter of time before he comes here.

He could have told Marcos so that people in the city could be at ease. But he didn't. Because there is a reason. The spider lord in front of him has good intelligence.

If it learned that help is on the way, it might call for help from the core area. He doesn't want that to happen.

A few minutes later,

Roar!

The Big Leopard let out a roar. Its blue lightning is striking the ground everywhere.

Afonso, who was using his lightning ability, was stunned as well. Because he found out that the big leopard was not attacked by the Spider Lord.

Then why did his lifeline beast let out a roar? Afonso's expression darkened.

Roar!

The Big Leopard let out a roar in pain again. Its paws were releasing the blue lightning bolts. The big leopard is trying to hit something.

Finally, it's landed on the targeted area, it's nothing but its own body. Yet something sinister has coiled around the Leopard's body.

Boom!

When the blue lightning bolts struck the black colour thing. It immediately releases its grip on Big Leopard. Then the black colour thing was hidden behind the bushes.

The Big Leopard was injured. Its back and abdomen were full of blood marks

Roar!

The Big Leopard let out a roar before going to the side of Afonso.

At the same time, Afonso notices the blood marks and realises that Big Leopard was injured.

"What?" Afonso uttered in shock.

Boom!

The next second, the black colour thing appears out of the bushes. It's moving like a snake. But it was not a snake. It's a Tier-9 Black Centipede.

It has a body size of 30ft fall and more than 100 ft in length. The centipede was the one that gripped the body of Big Leopard earlier.

Afonso recognised the Colossal beast. His face was filled with horror. He never expected the Spider Lord to call for help.

The spider lord stopped attacking. It's now looking at both Afonso and the leopard. Earlier, both of them annoyed me so much. It went back to the core area to bring back the help.

Upon returning, its main goal was to eliminate both of them. If it had wanted to attack the city, then the city would have chaos right now.

What more? Another colossal beast has joined them. Both of the goals were to eliminate the threat in front of them. If both Colossal Beasts were to attack the city, then Afonso wouldn't be able to save the city.

That's why he was terrified right now. He can only try to stall them for some time. He is hoping that help will come at the right time.

Boom!

He then orders his Lifeline beast to block the Spider Lord. He will take care of the Black Centipede. Since his body was small, the Centipede beast wouldn't be able to catch him.

Boom!

The next second, a fierce fight takes place. Both Big Leopard and Afonso were trying their best with blue lightning attacks to stop them.

Meanwhile,

Marcos is returning to the city at full speed. But he could hear the sounds coming from behind again. He broke out into a cold sweat.

He doesn't know what happened now. He thinks that Spider Lord must have been enraged. That's why the sound has increased so much. He convinced himself.

Chapter 415: Lord Camille

Wilderness:

At this time, a flame ball is approaching City A like a meteor in the sky. At first, it appears as if it is going to land in the city.

Then the flame ball flies across the city, approaching the wilderness. The red and orange mixed flame ball was seen by everyone.

The City Governors Enzo, Leonor and various organisation heads saw the phenomenon as well. For a second, they were scared.

They had thought it might be another Colossal beast.

But as it went past their heads, it went to the wilderness. The flaming meteor is moving towards the wilderness.

It enters the outer area. It crosses the whole stretch of the outer area wilderness in a few minutes.

Then it's going straight towards the inner area.

Meanwhile,

Head Neil and others saw the meteorite flame. They don't know what's going on. Head Neil saw the direction it's going. His eyes flickered.

Others can't tell. But he saw the silhouette of the meteorite flame. In fact, he thinks it's a flame-type beast.

He hadn't heard of such a beast from the corrupted ones. Which leaves only one possibility.

"Another Lord has come for the rescue," Neil thought.

Slowly, the City Governors Enzo, Leonor and others figured it out as well.

If it were a corrupted beast, then their City would have been the perfect place to attack, not the wilderness.

On the other hand, Gisela saw that the meteorite flame was going in the direction of the wilderness.

She and others turned towards Head Neil.

Head Neil said, "Just wait for the good news."

Hearing that everyone was stunned. It's the first time they are hearing something good from Head Neil. Especially since the beast invasion started.

Jeremy Night's eyes flickered. With his eyesight, he caught a glimpse of something incredible. He saw a female beast tamer standing on top of the flame bird.

After hearing Head Neil's words, he thinks it must be a Tier-9 beast tamer from the Human Alliance. So his expression eased as well.

A relieved smile appeared on his face.

"Do you know something?" Sinag asked.

Hearing that I was taken aback. I didn't expect her to notice my expression.

"It's nothing," I uttered.

Sinag raises her eyebrows. She definitely saw that Jeremy Night was relieved about something.

I recovered my expression and maintained a neutral expression.

Meanwhile,

Afonso and his Big Leopard were severely injured. Afonso had thought he could trick the Black Centipede with his small body.

But he was totally wrong. The black Scorpion had the poison ability as well. It has been shooting the purple poison at him.

The situation had pushed him into a defensive position. It was the same case with the big lightning leopard.

The spider lord is not giving the lifeline beast a chance to rest. It's troubling the leopard with the black ink as well.

Because of it, the big leopard was unable to attach to lightning power. If Afonso wanted, he could have asked the leopard to take a risk.

No one can match the leopard's speed. But he doesn't want to take a risk. He had called for help. He has decided to block until the help arrives.

This decision has pushed him into this miserable condition.

"What's taking the person so long?" Afonso thought.

He didn't know who was coming to help. He hoped they would arrive better sooner. Otherwise, he would be forced to take risks.

The Spider Lord is getting frustrated. It was thought that Beast Tamer and his lifeline beast would take a risk.

Then it would give them a chance to strike. But from the beginning, both the Beast Tamers and his lifeline beast were trying to block them.

The Spider Lord has decided to attack the city right now. Its gaze turned towards the city.

Boom!

The next second, the Spider Lord shoots a poisonous black ink. The poisonous ink is coursing through the air like a shooting star.

It's flying across the sky in a straight line to City A. Afonso saw the attack as well. He was petrified.

He didn't expect the Spider Lord to change its tactics. The spider lord is not getting fooled anymore.

Just as Afonso was thinking. The Black Centipede took the action as well.

Boom!

It shoots the purple poison as well. The blue purple poison is going straight like a shooting star.

Meanwhile,

The flame meteorite appears in the sky. The Female Beast Tamer standing on top of the lifeline beast saw the black ink.

She orders her lifeline beast to block the attack.

The flame bird shoots out a large flame ball. The red and orange mixed flame ball comes in the way of the black ink.

In the blink of an eye, both energies come into contact with each other.

Boom!

A huge explosion occurs. The impact force quickly spreads across the area. The force is beginning to uproot the vegetation.

In the blink of an eye, vast acres of land become empty. The vegetation and corrupted beasts living in the hidden areas were destroyed as well.

Boom!

The next second, the female beast tamer saw the purple poison attack. She orders her lifeline beast again.

Cry!

The flame bird made a cry before shooting out the large flame ball.

The large flame ball comes in contact with the purple poisonous ink.

Boom!

A deafening noise sounded. The next second, the impact force sweeps away the vegetation.

The flame ball evaporates the purple poisonous ink into thin air.

The Tier-9 Female Beast Tamer. Her name is Camille. She is the help sent by the Human Alliance's Headquarters.

She has black hair and eyes. Her skin tone is fair. She is wearing the uniform of the Human Alliance.

She is one of the powerful Tier-9 Beast Tamers in the Human Alliance's Headquarters. Camille didn't expect there were 2 Colossal Beasts here.

Fortunately, she has arrived in time. If these two attacks landed in the city, then half of the city's population would be poisoned to death.

Swoosh!

She then orders her lifeline beast to reach the battle site. The flame bird made a cry before flying towards the site.

Meanwhile,

Afonso saw the two attacks destroyed by the flame balls. The huge flame ball reminds him of someone.

"Didn't expect her to come?" Afonso thought.

She recognises Camille. She is one of the powerful Tier-9 Beast Tamers. Her flames can incinerate anything including the lifeline beast.

The Spider Lord and Black Centipede sense another powerful aura coming towards them. They have realised that help has come.

The Spider Lord doesn't want to stay here. It knew it was impossible to continue with the attack. Then it communicates with the Black Centipede to retreat to the core area.

Just as the Black Centipede was about to retreat.

Boom!

A huge flaming meteorite came at full speed and landed in the area near Black Centipede. The flame ball explodes.

The fireballs splattered everywhere. Some of them land on the Black Centipede. The next second, the flame starts to burn its skin.

The Black Centipede moves here and there in pain.

Seeing that the 100ft Spider Lord turned around and started fleeing.

Boom! Boom!

Two more flame balls appeared out of nowhere and struck the easy giant target. The Spider Lord was caught in fire.

The flames start burning its body.

Camilla didn't give them a chance to escape. The powerful flames are more destructive than blue lightning.

In a few seconds, it has caused severe burn injury.

The flame bird appears in the sky and drops a few more fireballs at them.

Boom!

In the blink of an eye, the 2 Colossal Beasts were surrounded by the ring of fires. In the middle of the ring, their bodies were burning.

Like a giant torch, it's visible to other Colossal Beasts living in the core area. They didn't expect another dangerous Haman Beast Tamer to come out.

The other wall, Corrupted Beasts living near the core area, starts fleeing to the deep.

The two Ant Beast Queens, who were resting in their new ant colony, felt the sense of crisis as well.

Swoosh!

The two ant queens appeared out of their hideout and saw the two giant torches. Both the Ant Beast Queens realise that powerful human help has arrived.

The help is so powerful that it has taken down the Two Colossal Beasts. They are just Tier-8 Corrupted beasts.

Without thinking further, both the ant queens communicated with each other and decided to enter the core area.

Swoosh!

They started fleeing with the remaining workers.

On the other hand, Camille didn't even care about the Ant Beast Queens. Her immediate threat was the 2 Colossal Beasts.

Camille then shifted her gaze towards Afonso and his Lightning Leopard.

"You guys have done a good job," She said to them.

Afonso nodded to her. Actually, he was thankful to her for stopping the Tier-9 Attack. If the attacks were to hit the City, then it's similar to annihilation.

He can't imagine such a scene. He then called back his lifeline beast. The next second, the leopard disappears into his mental zone.

Chapter 416: Towering Ape's intervention

Wilderness:

The Two Tier-9 Colossal Beasts were seriously injured. Camille and Afonso thought that two Colossal beasts would die in the ring of fire.

The Black Centipede and the Spider Lord suffered severe burns. It would be a matter of time before they die completely.

Boom!

At this time, a deafening sound comes from the core area.

Camille and Afonso's expressions turned serious. The worst case has happened right now. The Colossal beasts in the core area were alerted.

One of their own was getting attacked. It would be a matter of time before the two colossal beasts lost their lives.

Camille said, "Go back to the city. If there is any attack that comes from the wilderness. Then block it."

Afonso nodded his head. Then he left the place.

Camille then turned towards the core area. She could see a Colossal Beast approaching the place.

She is waiting with a serious expression on her face.

Shortly afterwards,

She saw a 120-foot Ape coming towards her. She called her lifeline beast. She then stands on the head of the giant flame bird.

The two colossal beasts, which were struggling, finally saw hope.

Roar!

The Giant Ape roars at her. It was pissed off by the condition of the 2 Colossal Beasts.

Swoosh!

The Giant Flame Bird rose in the sky. It got closer to the towering body of the Giant Ape. Camille was worried.

But she has decided to communicate with the Giant Ape. She knows that Colossal Beasts are intelligent.

They can understand her language.

The Towering Ape, which was brown in colour, looks into her. The Giant Ape was not stupid. It has seen powerful human beast tamers when the city was first built.

A small conflict broke out at that time as well. The Ape had fought against the Human Beast Tamers in that conflict.

So it's not going to attack the Human Beast Tamers in front of the Human Beast Tamers.

The Towering Ape appears to be bloodthirsty. It has scars covering its body. It had a territorial fight with another beast.

Camille said, "I don't have any intentions of breaking the peace. These 2 colossal beasts have attacked the city earlier."

"I was forced to stop them. Two ant-beast queens were causing the beast invasion as well."

"If the Ant Beast Queens continue with their activity, then I will call others," She added.

Like she had guessed earlier, the Towering Ape understood everything.

It had seen the Spider Lord moving out of the core area earlier. The Black Centipede then decided to help the Spider Lord.

Both of them had joined together because of several disputes in their core area as well. The Towering Ape hates the woman.

There is unity among the Colossal Beasts. Otherwise, they would have razed the city to the ground long ago.

The Towering Ape doesn't want to fight alone despite the hatred.

The Towering Ape then nodded to her.

Seeing that Camille heaved a sigh of relief in her heart. But she didn't notice any sign of weakness on her face.

Then she asked her lifeline beast to put out the fire.

Boom!

The Giant Flame Bird does that. It controls the burning fire. The next second, they were extinguished.

The ring of fire was gone. Two roasted bodies were lying in the middle of it. But they have half a life left in it. It would take an enormous time for the two beasts to recover.

But they have chances. The natural energy in the core area was many times stronger than in the city.

The Towering Ape nodded his head again. Then it communicates with the two Ant Beast Queens, who are hiding in the entrance of the core area.

The Two Ant beast queens return to the side of the Towering Ape. Both the Ant Beast Queens were scared.

Before they could do anything, the Towering Ape caught both of them with his two hands. Under the horrified eyes of the ant beast queens, it squeezes their bodies.

Puchak!

The Two Tier-8 and Beast Queens burst into the air like a watermelon. The blood-mixed organs splattered on the ground.

The worker ants have become leaderless. Because of the absence of the ant queen, the colony will die out eventually.

Camille's heart filled with fear.

"It's the corrupted beasts after all," she thought.

The Towering Ape was decisive. It's because of the Two Ant Beast queens that the 2 Colossal Beasts ended up in the situation.

Roar!

The Towering Ape let out a roar again.

Hearing that Camille recovered her thoughts. She can guess that Towering Ape did its part. It doesn't want her to stay here.

Since the Two Ant Beast Queens were killed. There will be no beast invasion.

Swoosh!

She orders her lifeline beast. The huge flame bird then let out a cry before turning around to leave.

Like a flame meteorite, it's going back towards the city.

The Towering Ape sees that Human Beast Tamer is leaving the area.

Then it gazes down on the two dying Colossal Beasts. If it were another beast, it would have eaten that flesh.

But they turned out to be insect-type Colossal Beasts. Moreover, their bodies were burnt right now.

The Towering Ape left them there before turning around to enter the core area. It came to halt the further advancement of the Human Beast Tamers.

If more Human Beast Tamers came, then it could destroy the peace here. It doesn't want that to happen.

Meanwhile, the two colossal beasts have some consciousness left. The Black Centipede with numerous legs tries to move into the core area.

The spider lord is doing the same thing with the remaining leg. Because of their large size, their movements were slow.

Meanwhile,

In the city A, Afonso is waiting outside the city wall. He is standing in the mid air. The Big Leopard is resting in his mental zone.

The three City Governors were sitting on top of the City Wall. They were all looking at Lord Afonso. They could tell that the Lord Afonso had been waiting for someone.

Chapter 417: Beast Invasion ended! (10th Zone)

City A (10th Zone):

At this time the various Heads of the organisation, leaders and elders saw Afonso in the mid air.

They recognised that the person must be the Tier-9 Beast Tamer from the Human Alliance.

So everyone was relaxing. They could tell that there would be no more beast Invasion.

But they had no idea about what had gone on inside the wilderness. The local media here began to report on the person standing in the air.

They started to reveal the details. After knowing that someone from the Human Alliance has come. The locals heaved a sigh of relief.

Everyone started to celebrate the victory. But the media themselves didn't know the whole truth yet.

At the same time, the City Administration officials don't know what to do. The City Governors didn't respond to their calls.

If the Beast Invasion was truly stopped, then the City Governors would have informed them already about it.

On the side of the Shadow Moon Organisation, Head Neil, the elders, and the leaders were discussing the same as well.

This time, they are clearly seeing someone standing in the midair outside the city wall.

They could also see that the city governors were one step behind, standing on top of the city wall.

Which means the person standing in the mid air must be the Tier-9 Beast Tamer from the Human Alliance.

Everyone is discussing the person with excitement. Because not every day can you see the Tier-9 Beast Tamer.

Even their own City Governors are Tier-8 Beast Tamers.

If they wanted to see Tier-9 Beast Tamers, then they had to either visit the top zones or see the Human Alliance's Tier-9 Beast Tamers in person.

Now everyone was watching the Tier-9 Beast Tamer.

On the other hand, Jeremy Night, Sinag, Ada, Florence and others are watching the Tier-9 Beast Tamer in the sky.

Compared to before, they are laughing and chatting. They too thought that the beast invasion was over. Now they can get back to their daily life.

But only a few people looked confused. Head Neil, Elders, Gisela and a few leaders.

At the same time, Jeremy Night notices something with his eyesight. He saw that the City Governors still had some serious expressions on their faces.

He then tries to see the Tier-9 Beast Tamer. But he could only see his back. If the enemy were eliminated, then there is no reason for the Tier-9 Beast Tamer to wait.

Swoosh!

Suddenly, everyone saw a flaming meteorite coming towards the City.

The female meteorite then enters the city under the shocked gazes of people. Everyone recognised the flame meteorite because it had been seen before.

Now it's coming back again. But this time it has entered the city. But the City Governors and some other heads guessed it.

The next second, Afonso also enters the city following the flaming meteorite. He didn't know what happened there.

Camille had asked him to protect the city earlier.

Camille reaches above, the top of the city administration building. She then asks her Lifeline beast to enter the mental zone.

Swoosh!

The flame meteorite disappears. She then landed on the ground. Then everyone saw her. She is wearing the Uniform of the Human Alliance.

Afonso went to her side. Both of them were standing in front of the city administration building. It's also the City Governor's office.

It's the most important place in each city.

Camille looks at Afonso. She can tell that he was worried.

She said, "Something happened. I'll tell you after leaving the city. But the two ant-beast queens are no more. So there will be no more beast invasion."

"The city is safe now," She added.

Hearing that Afonso's face turned serious. He was not worried about the Ant beast queens at all. He was thinking about the two Colossal Beasts.

An attack from either of them can destroy the whole city. Yet there were two. He saw how Camille's flames were burning them. He thinks they were seriously injured or dead.

Swoosh!

The City Governors Marcos, Enzo and Leonor reached the place. Upon seeing Camille, three of them greeted her.

"Thank you for the help, lords," Marcos said.

Camille's gaze turned toward them.

She said, "The Two Ant Beast Queens were no more. The colonies will die out eventually. So the City is safe right now."

Gasp!

Hearing that Governors sucked cold breath of air. Because in their mind, the lord has killed the Colossal Spider Lord.

Yet she is mentioning the Ant Beast Queens to them.

Camille said, "There is no need to publicise the news about the Colossal Beast."

"Lord, the city took a hit from the spider webs. It's the attack of the Spider Lord," Marcos replied.

"I know. Just say it's another Tier-8 Spider beast. No good thing will happen knowing too much," Camille said.

Meanwhile,

Various Heads of the organisation were watching the whole thing from a distance. Head Neil has already arrived.

He is watching everything with the other Heads. Right now, everyone can see the faces of the 2 Lords.

If it were City Governors, they would go to them. But right now, they can see that a discussion is happening.

"I don't know what made another Human Alliance's Lord come?" An old male voice sounded.

The voice belongs to the Head of the Sun Wheel Organisation.

Hearing that everyone was confused.

"She must be back up. The other Colossal beasts in the core area could try to take advantage. Her presence could deter them," The Beast Taming Association's Head said.

Hearing the words everyone felt reasonable.

Only Head Neil has different thoughts in his mind. He saw how strong that Spider Lord was. Even Lord Afonso and his Lifeline beast had struggled to eliminate it.

He thinks another Lord has come to eliminate the beast. But no one knows that before coming here, Lord Afonso was blocking not one but two colossal beasts.

It was Lord Camille who attacked them and put an end to the beast invasion.

On the other hand, Camille saw that various Heads of the organisations were waiting for answers.

"You can tell them that the beast invasion is over," She said to the City Governors.

Chapter 418: Lord Camille left the city

City A(10th Zone):

Camille wanted to leave. But before that, she has important things to discuss with Afonso.

She then said, "You guys take care of other things. I have something important to discuss with Lord Afonso."

Hearing that City Governor Marcos nodded to her.

Then he glances at Enzo and Leonor. Three of them left the place, giving privacy to the 2 Lords. Despite Marcos being curious. He doesn't want to disobey their orders.

He quickly comes to the side of the Heads of various organisations to inform them of the good news.

Swoosh!

Three of them appeared before them. Marcos then summoned the media people as well. In the blink of an eye, a few figures appeared in the midair.

Head Neil, the Sun Wheel Organisation's Head, The Beast Taming Association's Head, The Central University's Head and the Family Heads of the Beast Taming Families were gathered before them as well.

The local media reporters are eagerly waiting for the good news. At this time, everyone understood that the Beast Taming Invasion had come to an end.

Because they could see 2 Tier-9 Beast Tamers discussing in front of the City administration building.

They are the Lords sent by the Human Alliance.

On the other hand, City Governor Marcos, Enzo and Leonor decide to tell the news.

Marcos' eyes wander around. He sees everyone.

The Media people and the heads of the various organisations were ready to hear the news.

"The Lords from the Human Alliance have ended the beast invasion. The 2 Ant Beast Queens were dead. There were no more," Marcos said to everyone.

Gasp!

A small commotion occurs. People exclaimed in surprise. The Heads of the various organisations sighed in relief.

They were worried that Colossal was not repelled. Though City Governor Marcos didn't say anything.

They understood that Two Lords had defeated the Colossal Beast as well.

One of the reporters asked, "What about the Colossal Beast?"

"It has attacked the city with spider webs," he added.

Hearing that everyone has become silent. Because it was important news. The Colossal Beast is more dangerous than the Ant Beast Queens.

Marcos has expected this question. Lord Camille had told him about this question.

He said, "You guys were wrong. It was not the Colossal Beast. It's a powerful Tier-8 Beast. If it were a real Colossal Beast, the situation would have been different."

Hearing that media people had a look of understanding on their faces. The Heads of various organisations are having different reactions.

Because they were clear that they saw 100 a 100-foot-tall Spider Lord. The Spider Lord was so strong that it had pushed Lord Afonso and his Lifeline beast to a defensive position at that time.

So they were sure that City Governor Marcos was lying to the media. But they are not planning to expose it.

If they did, they knew people would be alarmed. So they have decided to ask him separately.

The media reporters further asked a few questions.

A few minutes later,

City Marcos decided to leave. Then he told others that they would be focused on recovering the city's infrastructure from now on.

But the wilderness mission will be cancelled until further notice. No other organisations would be allowed to send their beast tamers to the wilderness.

Since the Beast Invasion was over. The wilderness still needed to be monitored for some period of time.

It was standard procedure everywhere. So no one raised any questions about it. At the same time, a lot of casualties have happened as well.

They need to honour their sacrifices and compensate their families as well. After making it clear, the Three City Governors went back to the City Administration Building.

Meanwhile,

Camille told Afonso about the Towering Ape's intention and their deal in the end. Afonso's heart was set off by storms.

If the Towering Ape had decided to intervene when he was there alone, then he and his Big Leopard would have been dead for sure.

"You did well by calling for help. You can never take chances when it comes to the core area," Camille said while looking at the wilderness.

"What now?" Afonso asked.

"You should stay here for 2 days. If there are no new developments, you can return. But I'm leaving right now. I needed to report to others in person," Camille said.

"Alright, Afonso replied.

He agrees to monitor City A for a while. Because he needs some rest as well. He will use these days to take a rest.

Then he will return to the Headquarters on the third day.

At this time, the Three City Governors appeared.

Camille said, "I'm going back to the Headquarters. Lord Afonso will stay here to monitor the wilderness for two days. Then he will return as well."

Hearing that City Governors Marcos, Enzo and Leonor thanked them.

Camille's eyes turned cold. Her sudden change in expression shocked everyone.

"It's not natural for two ant beast queens to attack the city at the same time. They must have developed their colonies long ago."

"But you guys have failed to find it. As a result, the city suffered casualties.

You will be receiving a summons from the Headquarters. Be ready for that. After saying that, Camille left.

Swoosh!

She appears in midair. The next second, she brings her lifeline beast outside. The flame bird appears in the sky like a flame meteorite.

She once again stands on top of the head of the female bird. Then the flame bird started flying.

Under the gaze of many in the city. The flame meteorite left the city and was gone from their sight.

The three City Governors were sweating. Their mistakes were exposed. Lord Afonso sighs inwardly.

He then said, "Focus on the recovery now. At least, we were able to solve the problems in the end."

Hearing that City Governor Marcos nodded to him. Then three of them decided to damage the city themselves.

They failed in preventing the Beast Invasion. At least, they can focus on the recovery of the city.

The three City Governors started to do their work.

Chapter 419: Recovery!

City A (10th Zone):

Lord Afonso returns to the guest house to take a rest.

The Three Governors are doing their work. The various beast taming forces started counting their damages.

...

Shadow Moon Organisation:

Head Neil returns to the side of the Shadow Moon Organisation. Before he could answer them, everyone had watched the news.

It was streaming online. They learnt that the Beast Invasion was over officially. What more? They learnt that the thing that attacked them was a powerful Tier-8 Corrupted beast, not a Colossal beast.

Everyone was happy. Their fears and worries were swept away. They can return to their normal life now.

Only a few retired elders and leaders had doubts on their faces. Because they had tried to cut the spider webs before.

But they couldn't do it. It was Head Neil who removed every spider web. This itself shows that Spider webs were strong; the beast behind it must be strong as well.

If it were Tier-8 Corrupted Beasts, they would have removed the spider webs by themselves. But the City Governors said it's a Tier-8 Corrupted beast. They didn't know whether it was okay to ask or not.

Head Neil informed that no one was allowed to enter the wilderness until further notice from the City Governors.

In the meantime, the Beast Tamers can focus on recovery and do some other work. One by one, the members started going back to their rooms.

Jeremy, Sinag and others did the same. They entered the building. Jeremy parted ways with others before heading towards the room.

He was tired. Too many things have happened. He wanted to take a rest right now. He returns to his room.

After locking the door, he went to the bed to lie down. He doesn't know what happened next. His eyes closed. He fell asleep.

...

City C(14th Zone):

Meanwhile, the news about City A in the 10th zone reaches other zones, including the 14th Zone.

Elder Derek of Central University is at the airport in City C right now. He spoke to Jeremy Night's parents and assured them that Jeremy Night will be safe.

Compared to Jeremy Night's parents. He knows about the other zones. He has friends from other zones as well.

So he heard about the beast-taming organisations from them. The Beast Taming Organisations were powerful. They would protect their members as well.

So he thinks it will be the same with the Shadow Moon Organisation. He had already left the Night Mansion.

Right now, he was about to leave the City C to get back to the City A. He is in the Airport right now. He has bought the tickets.

Just at this moment, he saw the breaking news on the big screen. The sudden breaking news attracted everyone's attention.

Then they saw the news. The Beast Invasion has come to an end. The City A of the 10th zone is safe right now.

The 2 Lords from the Human Alliance have saved the city. Upon seeing the news, the passengers and the staff stood up and let out a cheer.

Cheers!

Everyone started celebrating. Elder Derek's eyes filled with surprise. He heaved a sigh of relief. He knew the Tier-9 Beast Tamers from the Human Alliance would put an end to the Beast Invasion.

It's just the attack of the spider webs that stunned everyone across the zones. They had thought it was an attack of the Colossal Beast.

Then he saw something on the breaking news again. The spider web attacks belong to the Tier-8 Corrupted Beast.

Hearing that revelation, everyone was shocked to the core. The whole human population had thought it was a Colossal Beast.

But it turned out to be the Tier-8 Corrupted Beast. Everyone was discussing this spider web seriously.

But only one person was different. The person was none other than Elder Derek. Elder Derek, unlike others, knew more about the Colossal Beast.

He was sure that such large-scale spider web attacks must be caused by the Colossal beast.

But he doesn't know why this has happened. He was happy that the Beast Invasion came to an end. Which means Jeremy Night is safe as well.

...

Night Mansion:

Inside the Night Mansion, Ron Night and Nora were thinking about their son. Then Ron Night suddenly received some news.

It was coming from the City Administration office.

Seeing that Ron Night opened the message. After reading the message, he was surprised. He then let out a joyful laugh.

"Ha...Ha...Ha...."

"Our son is safe right now," he said.

Hearing that Nora Night smiled in relief. She has been waiting to hear this news. Both of them then began to watch the breaking news.

Then they, too, learned that spiker webs belong to the Tier-8 Corrupted beast. They completely believed the news. They became more relaxed.

If their son's city was under constant threat from the Colossal Beast. Then nobody would sleep in peace.

...

The news has reached other zones as well. Many of them believed the breaking news completely. They believe that spider webs belong to the Tier-8 Corrupted beasts.

But the heads of the various organisations knew that was not the case. Since the breaking news has come. They believe it must have been done by the Human Alliance.

They have decided to request clarification privately from the Human Alliance. If there was any city under threat from the Colossal beasts, they felt they needed to know.

The City Governors and people then make preparations according to it.

...

City A(10th Zone):

The whole city is recovering. The dilapidated buildings were getting cleared. Many people were admitted to the clinic.

They are getting treatment there. At the top of the city wall, the patrol guards are monitoring the wilderness.

Since the beast invasion was over. It would be a matter of time before the inner and outer areas of the wilderness were filled with the corrupted beasts.

The Corrupted Beasts, which had fled earlier, would return soon. If no other corrupted beasts return to their places, then something is wrong.

That's why the City Governor Marcos ordered no one to enter the wilderness during this time.

Chapter 420: Part 1: Field Area

City A(10th Zone):

Shadow Moon Organisation,

I woke up early the next morning. I got out of bed and felt refreshed. There was no more pain and tiredness.

Then I turned towards the window and saw the bright sky outside. I knew about the ban as well.

No one was allowed to enter the wilderness until there was notification from the City Governors.

So I have decided to take a rest. But before that, I didn't forget about the practice. During the beast Invasion, he didn't practice properly.

Fortunately, his unknown egg lifeline beast can take the natural energy whenever it wants. He then started doing this morning routine first.

The routine lasted for 30 minutes. Then he entered the training room. He came to the middle of the platform.

He sat cross-legged on the ground. Then he started to practise the breathing method. As he started doing that, the natural energy from the surroundings entered his body.

Then he started to guide the natural energy according to the breathing method. His breathing method was an inner healing method.

As the natural energy starts to course through his body. The healing power of the supreme combat body comes to play.

My body cells greedily absorb the natural energy. At the same time, the various unknown small injuries are healing.

At the same time, natural energy is strengthening the physique.

As time passes, I'm feeling my body getting lighter and stronger. Maybe I will achieve the next breakthrough in the coming days.

Until the next order from the City Governors. There will be no mission to the wilderness. I should use this opportunity to strive for a breakthrough.

As time passes, the unknown beast egg becomes active and starts to absorb the natural energy from the surroundings.

Time passed,

I ended the practice three hours later. I stood up and walked out of the training room. Then I went to the bathroom to take a shower.

The bath lasted for 20 minutes. I walked out and changed into comfortable clothes. Then I sat on the sofa and took out the device to browse online news.

Then I came across various articles and live news. I clicked the live news and began to watch it. The news presenter is talking about the recovery process.

All the major forces are involved in rebuilding efforts. Seeing that I sighed inwardly. It seems there is no infighting now.

But once everything settles down. People start attacking each other. Jeremy doesn't know how long this compassion will last.

He thinks it will be over in a month. Once the Corrupted beasts return to the wilderness. Then their activities will start.

Time passed,

Before noon, he received a call from someone. The person was none other than Audrey Reed.

Upon seeing the contact name, he was taken aback. Because he almost forgot about her and the reward.

He had this feeling of a breakthrough earlier. Maybe he could break through during the Field area practice.

She had given me three days for practice. Right now, the whole city is under a ban. No one can enter the wilderness.

He can use this opportunity to enter the Field Area of the Reed Family. He then attended the call and spoke to her.

Like he had guessed, Audrey Reed wants him to enter the field area for practice. Her family will be busy these days.

Because their family beast tamers have suffered during the beast invasion as well. So he can enter their Field Area without much problem.

Jeremy Night agrees to her words. When he asked about the time. She told him to come right away. Then he told her that he is leaving right now.

After ending the call, he begins to get ready. He changed into some other fresh clothes a few minutes later.

He then left the room after getting ready. He first went to meet Leader Gisela. When he arrives at her office.

He found out that she was inside the office. He then asked for permission to enter.

Gisela, who was sitting behind the desk, was surprised. She doesn't know why Jeremy Night wants to meet her.

She then thought of Jeremy Night's parents. She understood that he may want to go back to meet his parents.

She then allowed him to enter.

Creak!

The door opens. Jeremy walks into the room. He then greeted her. She asked him to take a seat. Jeremy sits in the chair.

"Leader, I have something important to talk to you about," Jeremy said.

Gisela said, "You can go and meet your parents. They must have been worried about you."

Hearing that he was stunned. A disbelief appeared on his face. He forgot about his parents. He didn't even inform them about his well-being.

Jeremy said, "I'm here to talk about something else."

This time she was stunned. She didn't expect there was some other issue troubling Jeremy Night.

She asked, "What is it?"

Jeremy then spoke about his deal with Audrey Reed.

"She has asked me to come now," he added.

Gisela was shocked. But she understood the importance of the Field area. No Beast Taming organisation allows outsiders to use their resources.

Now the Reed Family gives him three days of practice time as a reward.

"You can go," Gisela replied.

Hearing that Jeremy sighed inwardly. The conversation went well. He then thanked her before coming out of the office.

He then went straight to the lobby. After coming there, he looks around. He found out the place was empty.

He then goes outside the building and sees the flying cars there. Seeing that there are drivers there. He then went to speak to them.

The drivers recognised Jeremy Night. He has become famous here. Jeremy then told them that he needed to go to the Reed Family.

The drivers were shocked. The Reed Family was one of the powerful Beast Taming families. They didn't expect Jeremy Night to come in contact with such force.

One of them agrees to drop him off at their place.
