

## **STRIKER 451**

Chapter 451: Landing at City C (10th Zone)

City C (10th Zone):

Jeremy Night arrives at the airport 20 minutes later. After entering the airport, he walks up to the counter.

A middle-aged man is standing behind the ticket counter. Jeremy goes there and stands in line.

He looks around and finds that there are many beast tamers. Everyone is going for the volunteer task.

He didn't expect this many people to be ready to do the task.

Soon, his turn comes. The middle-aged man behind the counter looks at him.

"Show me your task details," the middle-aged man said.

Hearing that, I showed my device to him. The middle-aged man received the device. He then checked the message.

After knowing that the young man was posted to City C's Human Settlement, the middle-aged man confirmed the details with his own database.

When the information appearing on the screen matched the device information, he gave a flight ticket to the young man.

Jeremy gets back his digital device. He then collects the ticket before leaving the place. He then goes to the area where the flight to City C is departing.

To his surprise, he found that the flight was already waiting for the passengers. He was surprised that the officials were rather fast in their work.

He then goes towards the flight. After arriving there, he showed his ticket to the staff, then he was allowed to enter.

Jeremy goes inside and quickly finds his seat. He saw others were yet to come. Then he sits on it.

It didn't take long for the seats to get filled. Apart from a few locals, most of them were beast tamers going for the volunteer task.

Jeremy opened his eyes for a few seconds. After taking a look at the people, he then closed his eyes to sleep.

Shortly after,

The flight takes off from the airport. Then it starts moving towards the destination.

Meanwhile,

The Sun Wheel Organisation's Elders Paul and Todd have made other arrangements to eliminate their targets on the kill list.

Though arranging tasks was not in their hands, they contacted their people who were going to the same location as their targets.

The people include the members of the Sun Wheel Organisation and the professional killers. They have their eyes on the target.

For example, on the same flight as Jeremy Night, a professional killer was traveling. He marked Jeremy Night as one of the targets on the kill list.

Not only is the Sun Wheel Organisation doing this heinous act, but some Beast Taming Families are committing this crime as well.

But the City Governors didn't have a clue. They are sending Beast Tamers for this volunteer task.

Time passed,

The flight reached City C a few hours later. The officials from the City Governor's office were waiting there to greet the Beast Tamers.

Shortly afterward,

The flight touched down. When the flight came to a halt, the door was opened. The passengers exited one by one.

Jeremy Night wakes up. After seeing that he had reached his destination, he stood up to leave as well. He goes to the exit.

Then he follows the people to reach the main hall. He sees the officials standing there greeting everyone. In particular, they are greeting the Beast Tamers.

The locals are on their way to the airport exit.

Seeing that, Jeremy too steps forward to speak.

"Hi, I'm Jeremy Night from the Shadow Moon Organisation," he said to the bearded middle-aged man.

"Shadow Moon Organisation!"

"It's a well-known organisation. My name is John. It's nice to meet you," the bearded middle-aged man greeted.

Just like that, they started talking. Jeremy shows his task to John, who is one of the officials here.

John reads the information and understands that the young man was assigned to the human settlement's patrolling team.

"I'll take you there so that you can start your work right away," John said.

Then Jeremy follows him towards the exit. He didn't expect to get help. Then he thinks it was due to the Shadow Moon Organisation.

Otherwise, why would an official waste his time?

A few minutes later,

Jeremy enters his car. Then John started driving towards the human settlements. The car hovers above the ground and starts moving in mid-air.

As the car moves in the sky, Jeremy sees the condition of the city down below through the window. Like he had guessed, the city was not that big.

He could see tall city walls on all four sides from here. City C here is slightly larger than his home city.

The buildings here are taller and greater in number than in his home city.

Not only that, but the natural energy in the surroundings is slightly weaker than in City A. But it was many times better than the 14th Zone.

He continues to watch the passing scenes. John couldn't help but speak. He started to ask about City A.

But Jeremy was more curious about the wilderness outside. While answering the question, he started asking about the wilderness.

"Our wilderness inhabits many Tier-3 and Tier-4 Corrupted Beasts. Once in a while, we face a threat from a Tier-5 Corrupted Beast. But the City Governors would take care of the problem."

John explains while driving.

Jeremy's eyes flickered. He sees no threat from this place. But his heart was not calm. There must be some reason behind this volunteer task.

Team Leader Gisela talked about the change in the wilderness as well. According to her, the threat could spread widely and affect the wilderness surrounding the human populace everywhere.

If he were a high-tier beast tamer like the others, he would have already entered the unexplored area to find out the problem.

It didn't take long for the cars to fly over the City Walls. There are others who are going outside right now. Not only that, there are cars coming from the wilderness as well.

It's because the activities have not stopped here. There are corrupted beasts living in the outer and inner areas. There is no core area in the wilderness.

Jeremy takes it as a positive sign. If there was any problem, then the wilderness wouldn't be this calm.

Chapter 452: Sunset Human Settlement

City C (10th Zone):

Now, John was driving towards the human settlement. Jeremy was viewing the passing scenes. Each city was different. He didn't know how strong the beast tamers here were.

Meanwhile,

The professional killer was chasing Jeremy Night's car from another vehicle. He had received a different task in this city, where Jeremy Night was going to join the patrol team at the human settlement.

The professional killer was going to join one of the teams patrolling the city wall. So, he had to make a plan to eliminate the target.

The killer's name was Harold. He was a Tier-4 Beast Tamer. He is working for a small mercenary organisation. His organisation works for many big organisations.

One of them was the Sun Wheel Organisation. Inside, the organisation did legal and good work. But outside, the organisation did a lot of shady work, including the work of professional killers.

Now, Harold was happy about the target, because the target was the easiest amongst all the targets.

The target was just a Tier-2 Beast Tamer. He had decided to kill the target once he went into the wilderness.

It didn't take long for the cars to reach the area of the human settlement. The flying car landed in front of the Human Settlement.

After parking the car, John walked out first. Seeing that, Jeremy exited the car. His gaze immediately fell on the name board ahead.

[Sunset Human Settlement]

It was the name of the Human Settlement here. John came to his side.

John looked at the same sign board before saying,

"Sunset Human Settlement has less than a few thousand people. So we've got not more than 10 teams here. You will be joining one of the teams."

Hearing that, Jeremy's eyes flickered with understanding. He had thought the population would be larger.

"I'll do my best here," Jeremy replied.

John smiled and started guiding him to the settlement.

Shortly afterwards,

Another black car landed at the place. Harold stepped out. His gaze fell on the car ahead and the human settlement.

There was no need to collect information. He could guess that the target had come here to join one of the teams.

He then decided to leave right now. He had to join his own team first. He would be back some other time. Then he left in the same car.

Meanwhile,

Jeremy was walking along with John to the office. He saw the settlement was neat and clear, with wider roads. It was suitable for the lifeline beasts to walk on.

While walking, he came across a small medic clinic for both humans and lifeline beasts. Seeing that, he was more surprised.

Because back at home, the human settlements there were unorganised and more crowded. The facilities there were fewer.

He didn't understand why they didn't relocate people to the top 10 zones. He knew it was a bigger issue apart from the Corrupted Beasts.

Everything was controlled by the Human Alliance. If he could become part of the Human Alliance in the future, he could get some answers.

Soon, they reached the office. The office building was big. It was enough for the 10 teams to accommodate. Both of them walked inside the building.

The person in charge of the place was a Tier-4 Beast Tamer. He was an old man with a lean physique. His name was Otto. He was wearing the Beast Taming Association's uniform.

From the uniform, it was clear he was a person of the Beast Taming Association.

In the room, Jeremy greeted the old man with respect.

Otto saw the young man. His eyes flashed with surprise, because he was sensing the aura of a Tier-2 Beast Tamer.

"Are you a Tier-2 Beast Tamer?" he asked.

John's face changed. He too had felt that aura but thought it was too rude to ask.

Jeremy replied, "Yes, I am."

Instantly, Otto's expression darkened before he could say anything further.

John said, "Elder, he is from the Shadow Moon Organisation."

Otto's expression changed drastically. Now it was filled with fear and respect.

"A Tier-2 Beast Tamer from the Shadow Moon. Then there must be something special about him," Otto thought.

He immediately changed his attitude. His gaze towards the young man turned kind.

"I have heard of the Shadow Moon Organisation. It's not easy to become a member there. Can you show me your task?" Otto asked.

Hearing that, Jeremy sighed inwardly. He then took out his device and gave it to him. The old man Otto received the device and began to go through it.

A few minutes later,

"Everything is good. You are assigned to work in our patrol team. We have ten teams here. Each team has 5 members. There is no space left.

"But you can work with whichever team you want as a 6th member," Otto said.

"I'm not in a hurry. I'll look at the teams before making the decision," Jeremy replied.

Hearing that, old man Otto was not surprised. He thought that the young man was from the Shadow Moon Organisation, so his vision must be high.

Jeremy then turned towards John and thanked him.

John smiled and said, "You still have your accommodation left. If you want, you could stay in the city hotel."

Hearing that, Jeremy nodded his head. But he looked towards the old man.

"It's fine with me. You are here for temporary work. You can join the team the next morning," Otto said.

Jeremy sighed inwardly. He then thanked the old man. Then both John and Jeremy left the office. They reached outside.

John had a serious look on his face. To be honest, he was impressed with the young man here. He wanted to give him some friendly advice.

Jeremy noticed the change in John's expression as well. But he didn't ask. Soon, both of them exited the human settlement and came to the place where the car was parked.

"Jeremy, you seem to be a good young man. I want to give you some advice. Not all the teams here are friendly. They hate outsiders."

"If you were a Tier-3 or Tier-4 Beast Tamer, it wouldn't have made any difference. But you are a Tier-2 Beast Tamer. Be careful of them," John said all of a sudden.

Jeremy wasn't surprised. He knew this problem existed everywhere. He thanked him for the advice. The duo then left the city to find a good hotel.

Chapter 453: Undercurrents!

City C (10th Zone):

Blue Parrot Hotel,

Soon, the duo reached one of the good luxurious hotels. After dropping Jeremy, John left the place.

Jeremy was already grateful that someone had helped him this far.

He walked into the hotel lobby. Then he met with the manager and booked a room. He found out that the manager was aware of the visitors from City A.

A few of them had booked rooms in the same hotel. Jeremy then got his room key before going to the fourth floor.

He arrived on the 4th floor through the lift. Then he went to his room. He inserted his key. The next second, the door opened.

A wide spacious room greeted his eyes. The room decoration was minimal and aesthetic, which was pleasing to his eyes.

He locked the door and went to check the bath first.

Meanwhile,

On the third floor, Harold was staying in one of the rooms. He didn't know his target had selected the same hotel as him.

He had thought Jeremy Night was staying in that human settlement. He thought there would be an opportunity to target Jeremy Night soon.

The following day,

Jeremy Night woke up earlier. He was impressed with the room. So he didn't know when he had fallen asleep.

Now, he got out of bed and started doing his morning routine. The unknown egg inside the mental zone became active.

It started to slowly absorb the natural energy from the surroundings. Seeing that, he was not surprised. He hoped that the natural energy in the place would satisfy the unknown beast egg.

Time passed,

An hour later, he appeared in the small living room. He sat cross-legged on the ground. He closed his eyes and started practicing the breathing method.

Slowly, the natural energy from the surroundings began entering his body. He started circulating the natural energy according to the breathing method.

As the energy coursed through his body, the cells were being energized. They had started absorbing the natural energy.

Jeremy immediately felt the cooling sensation all over his body. Then he continued with the process.

Meanwhile,

The Beast Tamers from City A had started their first day as volunteers. Many of the locals welcomed their presence in their city.

Including the City Governors of City C. They felt grateful that Beast Tamers from City A were here.

In case something happened in the wilderness, then these Beast Tamers wouldn't be able to stay silent.

The City Governors of City C were relaxed right now. At the same time, something else was going on as well.

Some of the organizations were doing illegal work. For the criminals, cities like City C and other lower cities were their habitat.

They couldn't roam openly in City A and B. Their activities would be exposed soon if they were to do something there.

Now, the arrival of the Beast Tamers from City A had triggered them. If their activities were to be known by these people, then the authorities would start coming for them.

The criminals came to know that the Beast Tamers would stay here for a few days. So they decided to lower their activities.

10 A.M. in the morning,

Jeremy left his hotel. He booked a cab to the Sunset Human Settlement. He was going to meet with the teams.

The cab left for the destination a few minutes later. In the cab, he couldn't help but recall John's words. There might be hateful people inside the teams.

"My arrival must have been known to them. But I don't think they would dare to cross the line," he thought.

The in-charge Otto already knew about the Shadow Moon Organisation.

The name itself would deter their bad intentions.

About 20 minutes later,

The cab arrived at the place and dropped him in front of the settlement. Jeremy paid the fare amount before going toward the settlement.

When he started walking along the wider road, he came across locals. Men, women, old and young children.

Everyone was happily going about their business. But the adults' strength stunned him. Most of them were Tier-2 Beast Tamers.

He spotted a Tier-3 Beast Tamer among the older generation. But that was all. He didn't see any middle-aged figures with that level of strength.

His arrival sparked discussion. No one was surprised, because this was all over the news. Now most people knew that Beast Tamers from City A had arrived.

Jeremy noticed their gazes. He simply responded with a smile as he walked along. Suddenly, the hairs on his skin stood up.

Someone with hatred was looking at him. Jeremy's eyes turned solemn. He looked for the source of the gaze while walking along.

He then saw someone disappearing into the alley. But he saw the person wearing a red hoodie with some markings on its back.

He used his eye ability right away. His vision zoomed in on the cloth. He memorized those markings.

If he saw the same hoodie again, he would recognize it.

A hint of seriousness appeared in his eyes. Because this level of hatred was unwarranted. It was his first time visiting the city. So he didn't have enemies here.

Then why was someone targeting him? He couldn't help but recall Leader Gisela's words. The human heart is hard to judge.

Jeremy decided to be careful of the surroundings.

Soon, he reached the main office. He walked into the building. He saw that no one was there. He raised his eyebrows in surprise.

It was the same yesterday. He thought that they might have gone for work. He then went to the in-charge's office room.

The in-charge Otto was sitting behind the desk. He saw that young man Jeremy was here. He smiled and greeted him.

"I hope your sleep was good." After saying that, he asked the young man to take the seat.

Jeremy smiled and sat on the chair.

He then replied, "I had a good sleep last night. But I was expecting to meet the teams here. Yet there is no one here."

Hearing that, the smile on Otto's face was gone.

He said, "I have informed the teams. But none of them responded."

Jeremy was taken aback in his heart.

Chapter 454: Crime before his eyes

City C (10th Zone):

Sunset Human Settlement,

Jeremy collected his thoughts and asked, "So what now?"

Otto felt awkward, but he replied by saying, "If you want, you could go out and patrol alone. I'll give you a special badge with permission. No one here will question you."

Hearing that, Jeremy felt it was a good deal. He said, "Okay, I'll do the patrolling alone."

Otto sighed in relief. Then he took out the badge and paper. He had already made the preparations. Seeing that, Jeremy was stunned.

He started to doubt whether the in-charge was also part of the hostile teams. He received the badge and the paper.

He looked at the badge and saw the symbol of the Beast Taming Association. So it's not fake. The old man wouldn't dare to fake it.

Then he checked the paper. His name was written on it as a special patrolling officer. After confirming it, he put the things inside his leather jacket.

He then stood up to leave. He felt something was wrong with the in-charge, so he didn't want to spend more time there.

But before going, he received the map of City C, the wilderness, and the Human Settlement. In case he got lost, he could use it to come back.

Jeremy left the office. After coming outside, he took out the map to check the place. He saw that the human settlement was a small place.

He could patrol the whole place in a few hours.

Jeremy then put the map back. Then he started leaving. He decided to go around the settlement's border first. There were people who watched him on his way back.

But he didn't feel any hostile intentions again. Still, he started to think that the in-charge's decision might be related to the teams.

Soon, he exited the human settlement. He walked a few hundred meters away from the place. He started using his eye ability to scan the surroundings.

He wanted to see whether anyone was following him or not.

A few minutes later,

He was sure that he was out of the human settlement. Right now, he was between the border and the human settlement.

A vast wilderness stretched across the border. Jeremy recalled the route on the map and started following it.

Meanwhile,

The in-charge Otto informed the Team Leaders that Jeremy Night had gone out to patrol alone. He wouldn't be joining any teams.

Then only he sighed inwardly. He couldn't afford to mess with the teams here. At the same time, he couldn't offend the young man from the Shadow Moon Organisation.

He thought it was best for these people not to come across each other.

On the other hand, the various team leaders felt good. They didn't want any outsiders to be part of their team.

Especially since the visitors had come to their city to do the work temporarily, it was even more impossible for them to let them join their team.

These teams wanted to enjoy the struggle of the City A Beast Tamers.

Time passed,

By noon, Jeremy was doing the solo patrol. He had covered one side of the borders. But he had yet to come across any corrupted Beasts.

Not even the lower-tier beasts were lurking in this area. As he continued walking along the path, from time to time he used his eye ability to monitor the place.

"Cry!"

Suddenly, he heard a cry from someone. Hearing that, Jeremy paused his footsteps. He heard the sound again. It was the cry of some woman.

He quickly found the location where the sound was coming from. It was coming from the land outside the border. The place looked like a desert forest.

The land was dry, but still, the place was dangerous. Jeremy started rushing towards the place the next second.

In a shot, he crossed the border and entered the desert forest. There were tall trees and bushes, but there were wide gaps of land between them where the sunlight reached the ground.

"Cry!"

The cry sounded again. Hearing that, Jeremy was sure of the direction this time. He continued charging toward that place.

Swoosh!

He crossed the open land and came to an area where the land was a little sunken and covered with dry leaves of the trees.

Three women were tied up, and they were unconscious on the ground. Ahead, a person wearing a hoodie was carrying a woman on his back.

The woman's mouth was not covered. She was the one shouting for help. Jeremy's eyes turned cold.

He didn't expect to come across a dangerous situation so soon. That too, a criminal. Upon seeing that the person was wearing a hoodie, Jeremy used his eye ability.

His vision zoomed in on his back. He saw the same back again. It was the same person who had shown hostile intentions towards him.

A hint of anger appeared in his eyes. He was right, something was wrong with this person. He was committing a crime right now.

Jeremy took out the handgun. He started covering the bullets with starlight. He then aimed at the person's leg. Using his eye ability, he set a precise aim.

Bang!

The next second, he pulled the trigger. A silver bullet shot from the handgun. It sped through the air with a booming sound.

Puchak!

In a flash, the bullet reached the target and went through it.

Aaaahhhhhh!

A torrent of blood gushed forth from the criminal's leg. He put the woman on the ground. His face was contorted in pain. But he turned back to look at the attacker.

Then he saw the person was none other than the Beast Tamer from City A. He was shocked. He was exposed right now. He couldn't move his leg.

Even if he tried to flee, he would still be attacked.

On the other hand, Jeremy came toward him and saw that the criminal was a Tier-3 Beast Tamer. The woman on the ground was unconscious but unharmed.

The person in the hoodie was a middle-aged man.

Jeremy turned toward him and asked, "Why are you kidnapping these women?"

Hearing that, the middle-aged man smiled. He gave up the idea of fleeing. Right now, he stood defiant. He wasn't answering anything.

Seeing that, Jeremy knew it wouldn't be easy to make him answer.

Chapter 455: Rescuing the women

City C (10th Zone):

Wilderness,

Jeremy Night puts the handgun back in the case. Then he walks up to the criminal and punches him in the face.

Smack!

The blow was hard. The criminal's left side of the face shook. He fainted on the ground right then.

Jeremy then turned towards the fainted woman. He took out a water bottle and spilled some water on her face.

The woman woke up. She was a middle-aged woman. She saw that someone else was standing before her. When her eyes turned to the side.

She saw the criminal collapsed on the ground. Her eyes flashed with fear.

"Who are you?" Jeremy asked her.

Hearing that, the woman collected her thoughts.

She said, "My name is Tina. We were abducted during our trip in the wilderness."

Jeremy asked, "Who is he? Why did he capture you?

"Is this for ransom?" he added.

Tina removed the ties before standing up. She then said, "It's a big story. We should leave before his friends arrive."

Jeremy raised his eyebrows in doubt. This person had seen his face. He didn't want to leave him here.

Tina was in panic. She didn't know the young man. Yet he helped her. She then thought of something before saying, "There is an old log cabin not far away from here. We can take him there."

Hearing that, Jeremy liked the idea and he said, "Okay."

"I'll go and bring my friends up here." After saying that, Tina left.

Jeremy crouched down and looked at the criminal. He still thought it was risky to remain unguarded near him. He decided to drag the criminal's body to the wooden log.

If he woke up in the middle and caused problems, he could still use the handgun to hurt him.

Tina went towards her friends. She then removed their ties. She woke up the other three friends. They woke up one after another.

They were scared right now. They looked at each other's faces before putting their hearts at ease. The women then turned towards Tina.

"Tina, what happened?" one of them asked.

"Don't worry. The guy is down. Someone rescued us." After saying that, Tina pointed her finger towards the young man.

The three women turned toward the young man. They were shocked. Because they found out that person's age was young.

"Let's go," Tina uttered.

Three of them then stood up. Tina and her friends rushed to the side of Jeremy Night. When they saw the criminal down on the ground unconscious. They sighed in relief.

"What are you going to do with him?" one of her friends asked.

"This person has rescued us. But the criminal has seen his face. So we are going to lock him inside the log cabin before making further decisions," Tina said.

The three friends were surprised but they didn't know what to say. They wanted to go back home right now. But they couldn't go back without Tina.

Jeremy saw the struggle in their eyes.

"Where is the log cabin?" Jeremy asked.

"I'll take you there." After saying that, Tina started guiding him. The three women started following their friend.

Seeing that, Jeremy started dragging the body of the criminal. The body of the criminal hit stones and grasses along the way. Yet he did not wake.

Jeremy started to think that the problem was big. He was doing patrol work. But he didn't expect to come across this crime.

After walking along the dry route, they soon reached the log cabin. It was located a couple of hundred meters away from the previous spot.

The old log cabin was hidden between two large acacia trees. They quickly went inside. Jeremy went in, dragging the body of the criminal inside the cabin.

Jeremy then dropped his body on the floor. The space inside was empty except for some wooden logs. Jeremy sat on the wooden log and turned towards the four women.

"Can you guys tell me?

"What's going on here?"

Hearing that, Tina looked at the other three. They were not ready to speak. Because they were still in shock.

Tina said, "We were doing a mission in the wilderness. Out of nowhere, this person appeared and kidnapped us.

After kidnapping us, he brought us to this part of the desert forest. He was on a phone call with his friends. But we didn't know what he discussed," Tina said.

Hearing that, Jeremy's eyes flickered. He then checked the hoodie of the criminal and found a digital device in it.

Seeing that, he eased down his eyebrows. He tried to unlock it. But he couldn't do it. It required a passcode.

Then he stood up and looked towards the four women.

"Alright, you guys can leave. I'll take care of him. He won't appear in front of you again," Jeremy said to them.

Hearing that, Tina and the three girls were shocked.

"We don't know your name yet," Tina uttered.

"There is no need for that. We won't cross paths again," Jeremy replied.

Hearing that, Tina and the three women were stunned. They didn't expect the young man to be rude. He was not interested in the conversation at all.

Still, they were thankful for his rescue. Tina and the others decided to leave.

"We again thank you for your help." After saying that, Tina left the log cabin with her friends.

When they were gone from the place, Jeremy sighed inwardly. The last thing he wanted was to get involved in a mess.

Now he thought he was in a similar situation right now. The City Governors had sent them here to protect the place from the Corrupted Beasts.

But it appeared that locals needed protection from the criminals here. He looked at the digital device in his hand.

He was expecting a call from the criminal's friends. He would then uncover the truth behind it. But he thought it must be a ransom case.

The lower cities turned out to be dens of criminals. You wouldn't see crimes happening in broad daylight in City A.

Both City A in the 14th Zone and the 10th Zone were safe and secure. Jeremy then collected his thoughts and looked through the outside scene from the window.

Chapter 456: illegal organ trade?

City C (10th Zone)

Jeremy is looking through the window. He sees no sign of help coming for the criminal. The four women seem to have gone as well.

At that time, the criminal opened his eyes. His eyes were blood red. He recalled what happened to him. He sees that he is on the floor inside the wooden cabin.

His gaze then fell on the young man who had shot his legs. His eyes flashed with anger.

At the same time, a sense of death covered his heart. From the corner of his left eye, Jeremy spotted the criminal.

"He is awake," he thought.

In a flash, his right hand moved to the gun case. He then brought out the handgun and pointed it at the criminal's head.

"Who are you?" Jeremy asked. While doing that, he covered the bullets with starlight energy.

The middle-aged man grinned before taking out the knife to attack.

Bang!

A silver bullet went through the middle-aged man's head the next second. There was a small hole in his forehead.

His cold corpse then dropped on the floor. Jeremy put the handgun back in the case.

Jeremy thought that the middle-aged man must have committed a lot of crimes. He was not afraid at all. His first instinct was to take him out.

Jeremy shook his head. He then calmed his heart and decided to wait here and see if there was any backup coming.

He refused to believe that no one would come for him. They had planned the abduction. There must be some other members in the same group.

They might soon come looking for him. So he decided to spend time in the cabin. Anyway, he was doing the patrolling work alone.

So he didn't have to report to anyone. In one way, he thought being a special patrolling officer worked out for him. He continued to wait.

Suddenly,

The digital device suddenly buzzed with an alarm. Hearing that, Jeremy took out the device. He saw the name on the device.

Seeing that, he attended the call. The next second, he heard the voice.

"Bob, where are you?"

"We have arrived here. Bring those women. We need to remove the organs for transplant as soon as possible," a deep male voice was heard from the device.

Hearing that, Jeremy was shocked. He had thought it was ransom. But he never expected it to be an organ trafficking crime.

He then ended the call abruptly. He didn't want others to be wary of him. The next second, he put the device into the storage bracelet.

Then he covered the body of the criminal with dry grass.

Jeremy then exited the wooden cabin. He started walking toward the previous location. He suspected that people were in that sunken land.

When he went closer to that place, he saw a group of six people dressed in black uniforms. Their faces were covered.

He didn't know what to do. It was not his job to end the criminal organization. It was the job of the city governors. But such a thing was happening under their nose.

Jeremy hid behind the tree and continued to watch their activities. The six people were standing in the sunken land and they were looking at each other's faces.

They were all discussing the missing member.

"Where is he?"

"Why is he taking so much time?" one of them asked.

"He mentioned that he had tied up the women here. But no one was here," another member replied.

"He must have taken those people somewhere," the person who called earlier said.

"Why don't you try calling him again?" a member asked.

Then the person who spoke earlier took out his device to call the missing member. But the call didn't connect, which left him with frustration.

The other five members understood something was wrong.

At the same time, Jeremy Night continued to watch them. If he wanted, he could have barged into the place and tried to get answers from them.

But he had changed his mind earlier when he heard about the organ transplant. The crime organization seemed to be big.

He didn't want to poke the hornet's nest before knowing the full information.

As time passed, the six-member team grew frustrated. There were only a few hours left before the evening.

At one point, the black-clothed members left the place.

Jeremy didn't leave. He continued to wait there. He still wanted to dispose of the body so that no doubts could arise.

A few minutes later,

He went to the log cabin. He dragged the corpse outside and buried it somewhere behind the giant trees.

Jeremy took out the device outside. He saw the missed calls. But he couldn't open it unless he gave it to someone who could unlock it.

It was his first time here. He didn't know anyone here. Suddenly, he thought of John. His eyes flashed with a gleam.

He didn't know whether it was good to involve or not. But his curiosity filled his heart. He didn't know the threats of illegal organ transplants existed in City A.

So he decided to uncover the truth first. He would then make the decision whether to intervene or not. He then put the device back into the storage bracelet.

Jeremy then left the dark forest. He reached back to the border area. After crossing the border, he came to the patrolling area.

He resumed his patrolling work. As time passed, he covered more and more ground. But he had not seen one patrolling team.

A few hours later,

When it was nighttime, he finished his job and returned to the human settlement. When he walked into the place,

He saw locals looking at him. Seeing that he had returned alone, they started discussing among themselves. They could guess what had happened.

But none of them came forward to speak. Jeremy didn't want to make things difficult for others. He continued walking toward the main office.

Soon, he reached the main office. But when he got there, he saw that the office was locked. The in-charge was not here. He was surprised.

He decided to go back to the hotel room then.

Chapter 457: Repairman Tommy

The following day,

Human Alliance HQ

The Human Alliance was discussing the changes in the wilderness. The discussion was happening between the members and the elders.

The members were all Tier-9 Beast Tamers. They were all strong Beast Tamers. Among them, there were both old and new ones.

But not all of them were here. Only the available members in the HQ were here right now. Most of them were doing missions in the unexplored region.

Now, the reports coming from the wilderness had forced them to discuss it.

"Does anyone know what's causing the corrupted beasts living in the unexplored region to migrate to the wilderness?"

"It's adding pressure to various cities. We were already lacking manpower."

"If more and more corrupted beasts appear, then it would lead to serious consequences."

An old man dressed in white cloth raised these questions. Others in the room heard them. No one had any clue.

"A team has already gone to the spot. We will soon find out. For the time being, we need to send additional support to these cities."

"Some of them lack high-tier Beast Tamers," an old woman wearing a combat uniform said.

These old people had the main say in everything. Because they had more experience.

It wasn't new for the corrupted beasts to migrate to the wilderness from somewhere.

It had happened before. But there was always a solid reason behind it. For example, any natural disaster could easily wipe out the corrupted beast population.

Even their human cities had experienced such natural disasters. For example, the terrific rainfall.

So the old people were thinking the same thing was happening right now. The young people and middle-aged people in the meeting agreed with them.

The Elders had decided to wait for the investigation team to return. Only then could they learn the truth.

Like that, the meeting ended quickly.

---

City C (14th Zone)

After the Tier-6 Horned Lizard threat, there were no other corrupted beasts threatening the city.

Elder Derek and his team from City A had returned to their home after investigation.

Their city was safe right now. Even if there were future threats, the governors here could request help from City A again.

Both the City Governor of City A and the Central University would provide necessary help to them.

Because of this, life returned to normal in City C. But the locals weren't aware of such things except for the City Patrol Guards.

City Governor Ron and the other two City Governors had assured the patrol guards. Only then did they resume their work normally.

---

City A (14th Zone)

The City Governor Elton and the two City Governors were keeping an eye on the situation.

They knew what had happened in City C.

From Harris, they learned that there were no threats outside City C. The Tier-6 Horned Lizard was the last threat.

This brought them huge relief. At the same time, they knew that threats could return at any time. So they had to make preparations.

They were going to allocate resources to Beast Tamers who were on the verge of breakthrough.

Once a large number of high-tier Beast Tamers were added to their side. Then they could handle any danger.

---

Central University 14

Dean Carolyn had been watching the developments as well. She was aware that Jeremy Night had returned to the 10th Zone.

City C was not facing any threats anymore. But the changes in the wilderness were true.

With the help of City Governor Elton, they were also making necessary preparations to face this kind of threat.

At the same time, Jeremy Night's friends Betsy Lowe and Daniel Stone were practicing hard. They knew what happened through Instructor Jacob.

Instructor Jacob told them that an unknown threat was approaching the human populace. So they were training hard to improve themselves.

Meanwhile,

The Beast Taming Families and other forces knew something was going on. From the City Governors, they were reminded.

These families had suffered during the Beast Invasion. If another one appeared, then they might lose everything.

So these Beast Taming Families were making necessary preparations for that. This included the Lindsey and Scott Families.

May Lindsey and Victor Scott were working hard to become strong Beast Tamers. These terrifying news reports, one after another, made their resolve strong.

---

City C (10th Zone):

Blue Parrot Hotel

Harold had joined his team successfully and completed his first day of work. Next, he wanted to do the main task. He was going to eliminate the target.

For that, he needed to go to the human settlement. He was planning to get away from the city patrol team today.

But Harold didn't know that the target was staying in the same hotel as him. If he found out, then he would be shocked.

Shortly afterward,

He left for work.

On the other hand, Jeremy Night was getting ready as well. But he knew he was going to do solo work today.

But before that, he had important work to do. He needed to find John to unlock the digital device. He then called him.

John attended the call. Then Jeremy Night made his request. But he didn't reveal anything about yesterday's incident.

John understood that Jeremy needed a person to unlock his digital device. John told him that he would come pick up Jeremy Night now.

It didn't take long for John to appear in front of the hotel. After learning that, Jeremy Night came downstairs to meet him.

Upon seeing John, he entered his car. From there, they started going towards the service center.

Back in the seat, Jeremy Night was worrying. He thought the service center people might recognize the digital device. There could be friends of the criminal gang there.

Then he told John that he needed someone who could teach him how to unlock the digital device when the passcode was lost.

John was dumbfounded. Then he assumed for himself that Jeremy was from the Shadow Moon Organization. So he needed privacy.

"Okay. I'll take you to my friend," John said.

Hearing that, Jeremy sighed inwardly and thanked him

John reached his friend's house a few minutes later. He parked the car inside. Jeremy stepped out of the car, followed by John.

"Let's go inside," John uttered.

Then Jeremy quietly followed him to the main door.

John informed his friend, who quickly arrived to open the door.

Creak!

The next second, Jeremy spotted a bearded middle-aged man.

"Tommy, thanks for agreeing to help," John said.

Tommy smiled and greeted them inside. During the drive earlier, John had told him everything.

Tommy's gaze fell on the young man. He was shocked to know that the young man was from the Shadow Moon Organisation.

He was shocked to the core. He had heard about the terrifying organisation. During his tour to City A, he had seen people from the organisation.

He collected his thoughts and quickly went for a handshake.

"Hi, my name is Tommy," he said.

Jeremy smiled and responded with a handshake.

Jeremy then said, "Thanks for agreeing to help."

"Ha... Ha... Ha..."

"Don't mention it. I'm happy to help someone from the Shadow Moon Organisation," Tommy said.

Hearing that, Jeremy's heart stirred. He didn't expect the Shadow Moon Organisation to have such a good reputation.

Everyone had respect for the organisation.

Tommy then recovered from the surprise.

He then said, "Let's start the work. What kind of device do you want to unlock?"

"It's a communication device," Jeremy replied.

"You guys can start the work. I have a job to do. I'll come later." After saying that, John left.

Tommy then led Jeremy to his workroom to teach him. They came to a wide, spacious room. Inside the room, the light was bright blue. It illuminated the entire room.

Jeremy's eyes fell on the automated device. He felt like he had entered some kind of latest tech shop.

Tommy saw the reaction of Jeremy Night. He then went to the main chair and sat on it. Then he pulled another chair from behind for Jeremy Night to sit.

Seeing that, Jeremy Night sat on it and began to watch him working. Tommy picked a spare communication device and started to teach him how to unlock the device without a passcode.

---

Sunset Human Settlement:

Incharge Otto was in his office. He had left early yesterday.

So he couldn't meet the young man. Today, he heard from the bystanders that a young man came to meet him last night.

He was thinking that the young man might come today to meet him before doing the patrolling work.

On the other hand, the 10 Teams had started their work. From the beginning to the end, they didn't meet the young man nor the incharge.

But they had conveyed their message to the incharge, that they were not going to meet and greet the Beast Tamer from City A.

So they didn't know whether the newcomer was here or not. As time passed, Incharge Otto assumed that the young man wouldn't come.

He might have already started his patrolling work.

---

Meanwhile,

The black-clothed thugs had lost their member yesterday. They didn't know whether their member Bob was alive or not.

They had tried to contact him many times. But the connection was not established. If they wanted to track his location, then it might take a longer time.

Chapter 458: Ugly truth!

Tommy's House:

Tommy is teaching Jeremy Night from every small detail. For Jeremy Night, he doesn't need too many details. He just wanted to open the criminal's device.

He could have given it to him to open. But after considering the safety of everyone, he has decided to open it privately.

He still doesn't know about Tommy. Such crimes are taking place in broadway light. He doubts those black clothed guys are not without any support.

He won't make foolish mistakes. Like he had done it against the Goldcorp Organisation back at home.

A person working in that organisation found out it was him who was causing problems that time.

Before it could cause many problems, the beast invasion occurs. Later, he came to the 10th Zone. He was not afraid of the Goldcorp Organisation anymore.

Similarly, he thinks there must be an organisation behind the black clothes thugs. He then collected his thoughts and continued to listen to Tommy's teachings.

It didn't take long for him to teach everything. He has these instructions noted down. You have to follow the instructions to unlock the device.

Issac had already taught Jeremy how to use these tools. Just as Tommy was advising him to start practicing. Tommy received an important call.

He needed to attend it. The call might take an hour to be over. Tommy reminded Jeremy before leaving the room.

Jeremy's eyes flickered. He never expected the opportunity to present itself right now. He immediately takes out the thug's device and starts working on it.

Fortunately, there was charge left in the device. He saw there were a lot of missed calls. He doesn't know whether the people behind the gang had ways to trace this device.

He wants to uncover the truth before it's too late.

Time passed,

He started using tools as per instructions. He connected the communication device with another device and started working on it.

After giving some input, the device was unlocked. His heart filled with ecstasy. He has done something himself after a long time.

That too related to the tech. He has only focussed on the Beast Taming so far. But this new experience is giving him immense joy.

Then it's time for serious work. He controlled his thoughts and started focusing on the work. He began to open the folders one after another to learn about the criminal.

He came across many group photos. His eyes flickered. They were all wearing the same black uniform which he saw yesterday.

He recognised the criminal among the pictures. Then he continued to scroll down.

Then he spots a picture which has half of the square filled with the red color and the other half with the gold color.

He had seen this symbol before. Jeremy tried to recall. Then suddenly something clicked in his mind.

"Mighty Order," He uttered.

Instructor Jacob had told him about this illegal organization. Because he had encountered a group of people with the same symbol back at home.

At that time, Instructor Jacob had warned him not to get involved. The person behind this organisation is powerful.

The instructor had also told him that an illegal organisation has networks to access the various zones. So it's not easy to tackle them. Unless, the Human Alliance takes an effort.

He was wondering what was the group behind the criminal. But it turned out to be this organisation. He didn't expect to encounter them in the 10th Zone.

That too in this city. Now he is going to lose his sleep. He had eliminated their members. Soon or later, they would know about it.

Jeremy then collected his thoughts and began to go through other pictures.

A few minutes later,

He started reading inbox chat. The chats are sensitive. It's all about the illegal organ trade. These people had their targets set.

Their targets were none other than human settlements around the various cities. Only their disappearance invites lack of investigation.

Everything was discussed in the chat. There is a reason they are not doing so in City A. Because there is strong opposition there.

The powerful Beast Taming Families and other forces won't like such activities. So they shifted their activities to other cities.

Jeremy then closed the device and put it inside the storage ring. He wanted to uncover the truth earlier. Now he knows the backer behind it.

He feels glad that he had killed the criminal. If he had let him go, then it would have been a serious disaster.

He then turned his attention to another device and started working on it.

Outside,

Tommy was on the phone with someone. The discussion is going to continue for sometime. He didn't know Jeremy's intentions.

He returns to the room an hour later. He then sees Jeremy working with an old device.

Shortly afterwards,

Jeremy made up his mind to leave. He has achieved his goal. Now he is going to do the patrol job. He then spoke to Tommy.

When Tommy heard his intentions. He was not surprised. He is happy to help any time. Jeremy then leaves his house.

He knows John would come if he tells him. But he didn't want to disturb him. Jeremy then thanked Tommy before leaving.

Tommy assured John he would explain.

A few minutes later,

Jeremy left the community and reached the main street. He then finds a flying cab and tells the driver to drop him at the human settlement.

The driver agreed. Then he enters the cab and sits in the back seat. The cab driver then started driving towards the destination.

About 20 minutes later,

The cab driver drops him off at the Sunset Human Settlement. He paid the fare before started doing his work.

Instead of going to the human settlement. He is patrolling the area.

Time passed,

Jeremy Night's late appearance is not known to others. Even if they knew they wouldn't care. Because of it, Jeremy Night is casually doing his work.

This time he didn't come across the thugs. But he is going to dispose of the communication device in a deeper area of the wilderness.

He is going to do it at night.

Chapter 459: Finishing off the remaining thugs!

City C(10th Zone)

Harold is doing the work with the City Patrol Team. He has been asking for leave. But the Patrol Team Captain told him that there won't be any special permission.

If he wants to do some other work, he can leave early in the evening. The Captain only has permission for the evening time.

Harold was pissed off. But if he does something it would cause unnecessary problems. They are here to help not to intimidate others.

So he has decided to look for Jeremy Night in the evening time. He is going to find Jeremy Night's place today.

If possible he would complete the task at night time.

Then he can be at ease.

---

Sunset Human Settlement:

Time passed,

When the night time comes. Instead of returning, Jeremy enters the wilderness to dispose of the material. He is not going to destroy it.

He is going to leave it there. He worries if someone could trace it, then it would cause unnecessary problems.

Meanwhile,

The thugs are working hard to trace the communication device. They were doing it from the morning time. But they failed to find anything.

The person who is working on tracing the device found out that the device was active right now. When they were trying it at noon. He wasn't able to trace the location.

Now he got the signal from the wilderness. He immediately informs the Team. The six members group received the news.

After knowing that Bob's device was active, they were shocked. They had thought something happened to Bob.

But if the device was active then something else is going on.

Bob could be hiding something from them. The team departs for the wilderness.

On the other hand, one more person departs from his place. The person was none other than Harold. He is going to the Sunset Human Settlement.

Meanwhile,

Jeremy comes to the log cabin. He had buried the body not far away from the place. It's under one of the Giant Trees here.

He then takes out the digital devices and looks at them.

He doesn't want the thug groups to find out. If they get this device, then anything could happen. He is wondering how to dispose of it.

He could simply hide it in a place where no one could find it. Jeremy then decides to do it. He leaves the log cabin and goes deeper into the wilderness.

He is also marking the place along the way. It's hard to do it during the night time. Since he got experience. He was not afraid.

He is entering the wilderness. It didn't take long for him to go deeper. While walking, he is using eye ability.

In the night time, he sees no Corrupted beasts wandering around here.

As the time passes, he fails to find any good place. Because it's a desert forest with more vacant land.

Swoosh!

Just as he was looking for a good place. From his eye sight he saw light flashes coming from distance. Seeing that he was taken aback.

Because he was sure that he was all alone here. How come a group of people appear so far? He was confused.

Then his gaze fell on the digital device in his hand. His eyes flickered with an understanding.

Unless it's the same group yesterday, it's impossible for others to come here at this time.

So he puts the device on the ground and goes to hide behind the nearby giant tree. Using his eye ability, he is observing the people who are coming here.

Shortly afterwards,

A group of six black clothed people have arrived. They were the same people who had come here yesterday.

Upon seeing them, Jeremy was not surprised. He thinks they have come here by tracking the location.

Like he had guessed, they walked up to the empty plot by viewing something on their device and came to the exact spot where the digital device was on the ground.

Upon seeing Bob's device on the ground. The team members were shocked. They looked at each other's faces.

"It's Bob's device. Who put it on the ground?"

"Where is he?"

"Is this some kind of trap or what?"

A middle aged man started raising the questions. The whole team thinks that they were being targeted.

"Let's release our Lifeline beasts. They will track him down. Whether he is dead or alive. We must get his body back,"another member said.

But they didn't know someone else was listening to their conversation. Not far from them. Behind the Giant Tree, Jeremy's expression changes.

He didn't expect trouble to come knocking on the door.

If he doesn't do anything right now, then their lifeline beasts would expose him. He is going to enter the fight inevitably.

So he had no choice other than to draw the hand gun right now. He picked the hand gun and began to cover the bullets with the starlight energy.

With the help of the eye ability, he zoomed into each of their foreheads. One by one they set precise targets. He had locked six targets.

Bang!

He fired the shots one after another the next moment.

The starlight bullets go through the air at a terrific speed. In a blink of an eye, the six bullets hit their targets.

The six bullets leave a hole in their foreheads. Until the death, the six people don't know what happened.

Jeremy Night then goes there. Upon seeing the corpses on the ground. He gets a headache. He thinks something is unavoidable.

Boom!

He stomped on their communication devices one by one. Lastly he stomped on the device which he put on the ground earlier.

After destroying the seven devices. He began to drag the corpses of six people one by one deep into the desert forest.

Not long after, he finds a giant tree. He then began to dig a deep pit to bury the corpses. It took a couple of hours to complete the process.

This was his second time to mess with the Mighty Order Organisation. He doesn't know what will happen next. After burying them and tidying up the spot. Jeremy Night left the place in a hurry.

#### Chapter 460: Part 1: Conflict

Blue Parrot Hotel:

Jeremy returns to his hotel room as usual. But he doesn't know someone else is looking for his traces. But the person was none other than Harold.

The professional killer is facing difficulties. But he was able to collect some news. Unlike others. None of the teams here had accepted Jeremy Night into their team.

So Jeremy Night had permission to do the solo mission. It makes his job easier. As long as he finds that kid he can complete the job.

But the problem was that he wasn't able to find him. He returned to the same hotel a few hours later.

---

The following day,

Jeremy gets out of bed and does his morning routine. He forgot about yesterday's incident. He is starting his day as usual.

After getting ready, he goes to the lobby. He then walked out of the place and came to the main street.

Soon, he finds a flying cab. He told the driver about the destination. The driver is a middle aged man.

He agrees to drop him off at the Sunset Human Settlement. Jeremy then enters the car and sits in the back seat.

Shortly afterwards,

The driver started to drive the car. The car moves in the air and follows the other cars in mid air. Jeremy is watching the outside scenes from the window.

Meanwhile,

The illegal organisation members were killed yesterday. Their disappearance was announced to their organisation this morning.

This small organisation is an illegal organisation working for the Mighty Order. Now their members were missing.

The small organisation's head and the elders were shocked. They don't know what happened to the seven members.

An entire group was missing. They had tried calling them. But the connection was not established. Yet they were able to find out the last known location.

It was the wilderness. After knowing the organisation head has dispatched a small team to uncover the truth.

The small team was made up of five members. They were already doing illegal business. They can't do something openly in the broad day light.

They were especially aware that Beast Tamers from City A have come here. So they have to be careful of their activities.

About 20 minutes later,

Jeremy Night reached the Sunset Human Settlement. He paid the fare to the driver before going to the area. As he entered the place, he came across the locals.

They were looking at him in surprise. After looking at them, he immediately thought of the thugs yesterday.

He did good by eliminating them. These people don't know what kind of danger surrounds them. They have more threats from Humans than the Beasts.

Jeremy then collected his thoughts and continued on the way. While walking he is keeping an eye on the people as well.

Because he thinks that other illegal group members might be here. He doesn't know how many members in their organisation.

But he has seen pictures in that device. There are more than 30 people. They had the logo of the Mighty Order in their uniform.

He could guess that no one would appear wearing their logo in broad daylight. Everyone would know. Especially the City Governors. They are part of the Human Alliance.

If the Human Alliance knows about it, then they might do something. But he thinks it would happen if things come to light.

Soon, he reached the office. He walks into the place. Once again he looks for other teams. But they were not here.

He then goes to the incharge office. He sees that Incharge Otto is here. Upon seeing the incharge, he greeted him.

Otto's gaze fell on the young man. He was surprised. He asked the young man to sit.

"How was the job?"

"Did you find any difficulties?" Otto asked.

Hearing that Jeremy smiled and said, "The borders here are shot. It's easy to cover the important areas."

Otto nodded his head in satisfaction. He knows that young man from City A. So his vision must be high.

"If you have any difficulties, you can tell me," Otto said.

"So far I haven't faced any problems," Jeremy replied.

Then they discussed it for a few more minutes. Then Jeremy stood up and left the place to start his work.

Soon, he walked out of the human settlement. He started doing the patrolling work.

Meanwhile,

The illegal group of 5 members have reached the wilderness. They have started their work. Nobody comes to the wilderness near the settlement.

So they are doing the search without any problem.

As the time passed, the group wasn't able to find out the location. They realised that they are wasting time. But if they go back, the head and the elders won't spare them.

So they continued with their search.

Time passed,

Jeremy Night is doing the patrolling work. He is walking along the border while keeping an eye on the surroundings.

Suddenly, from his eyesight. He spots three people ahead. They are coming in his direction. His gaze fell on their uniform.

A look of understanding dawned on him. They are part of the patrolling team. He didn't expect to see them here.

As he got closer. They too saw him. He thought they would speak to him. But to his disappointment, they simply walked past him.

The three middle aged men completely ignored him.

Jeremy's eyes turned cold. He doesn't know what's wrong with these people. He understood that they don't like the outsiders.

But their behavior right now irritates him. Just as he was about to continue he heard something next.

"Why are they sending Tier-2 Beast Tamers here?"

"Harumph, our locals are better than this kid," A middle aged man said with a snort.

Jeremy turned back and looked at them.

The middle aged man turns to look at that kid after saying that. Upon seeing that young man was staring at him.

"What?"

"Are you not convinced?"

"We don't need outsiders like you in our team," The middle aged man said with an anger

Hearing that other 2 middle aged men turned back as well. They were shocked. They didn't expect their friend to target the young man right now.
