

## STRIKER 461

### Chapter 461: Part 2: Conflict

Wilderness:

Jeremy Night sees the arrogant middle aged man. The middle aged man has brown hair and eyes. His physique is well built.

But his behaviour was not good. He is acting like a ruffian. Jeremy was pissed off. He wanted to beat this person.

Swoosh!

The brown haired middle aged was furious. He already disliked the young man. Because he is just a Tier-2 Beast Tamer.

He thinks he is better than Tier-2 Beast Tamer from City A. The other 2 middle aged men were in shock. They looked at each other's faces.

Their brains started working. Whatever their dislikes may be. But it's not the place to show. That young man has an identity.

They both remember that the young man was from the Shadow Moon Organisation. Incharge Otto reminded them before.

Swoosh!

So they quickly rushed to stop him. Before the brown haired middle aged man could strike. Two of his friends caught his shoulder.

"He is from the Shadow Moon Organisation," One of them said.

Hearing that brown haired middle aged man was stunned. He almost forgot about it. His eyes still showed anger.

Then three of them continued on their way.

Jeremy was rooted there. From the beginning to end he has witnessed the scene. But he doesn't know the cause of their anger.

He doubts it was simply because of the outsider situation. After collecting his thoughts, he continues doing his work.

Meanwhile,

The professional killer Harold has come to the Human Settlement in the broad day light. He didn't enter the settlement.

Instead he started patrolling along the border. He has already done some research about the settlement. He knows the important places and borders.

He thinks that the target must be patrolling right now. He is doing it solo as well. He has plenty of opportunities to kill as long as he is careful.

Harold knows about the ten teams. They were one who were doing daily patrolling work. There is a good chance for him to come across them.

Especially in the daylight. It's difficult to hide. But Harold decided to take risks.

There is a big wilderness outside. No one would doubt him if he came to the wilderness to hunt.

He then started walking along the border. It didn't take long for him to come across three people. Seeing that Harold stopped.

He sees their uniform and understands that they are part of the patrolling team.

Harold decided to ask them. To them he was another outsider. He goes to them. The three middle aged men were discussing Jeremy Night.

Upon seeing another new stranger, they were shocked.

"Who are you?"

"What are you doing here?"

The brown haired middle aged man asked. The other two middle-aged people were in shock. Because this is a border area.

Upon the patrol guards no one was allowed to roam around here.

Harold smiled and said, "Ha...Ha...Ha..., it's nice to meet you, the patrol guards."

"I came here to look for someone," he added.

Hearing that brown haired middle aged man and the other two looked at each other's faces. They don't know what to say.

But the brown haired middle aged man frowned and said, "You are from City A."

Hearing that Harold smiled and said, "Yes."

Hearing the faces of the three middle aged men said. They were angry. But they saw the strength of the killer.

Then they choose to compromise. This person was not weak as the young man who is a Tier-2 Beast Tamer.

The brown haired middle aged man decided to answer.

He asked, "Whom are you looking for?"

Harold smiled and replied, "His name is Jeremy Night."

Hearing that three middle aged men were dumbfounded. They just had a conflict with the young man. They didn't expect to meet his acquaintance soon.

The brown haired middle aged man said, "He is doing the patrolling work. We met him not long ago."

The other two middle aged men pointed in the direction. The next second, Harold thanked them before going in that direction.

The three middle aged men looked at each other's faces. They were glad that they didn't beat up the young man earlier.

This person seems to be a known young man. If they had caused trouble, then the consequences would have been disastrous.

The brown haired middle aged man realises his mistake. He was hot blood earlier. Now that he has cooled down. He knows his mistake.

Three of them then left the place.

Harold is going happily. If he had wanted he would have killed them. But before that they answered his questions.

Meanwhile,

Jeremy Night doesn't know what's going on. He is doing the patrolling work. It didn't take long for him to complete the one round.

He is going to start the second round. But so far he didn't come across any threats.

About 20 minutes later,

He is using the eye ability to observe the places. Suddenly, he sees someone coming in his direction. When he zoomed into the person.

He found that person was a new person again. But he was not wearing the uniform of the patrolling guards.

So he must be local. Then he found something weird again. The person is looking in his direction as if he is coming for him.

He zoomed into the person's face. The person's facial reaction shows that he recognises him.

Jeremy thinks something was not right. He moves away from the spot. He immediately changed his direction and entered the wilderness.

On the other hand, Harold was dumbfounded. He didn't expect Jeremy to change his direction. He didn't know that Jeremy had spotted him from afar.

Harold sees that Jeremy Night is going to the wilderness. Seeing that he started following him.

As the time passes, Jeremy goes deep inside. He saw that person was still following him. Seeing that he was sure that something was wrong with the person.

He decides to take a few more rounds. As the time passed, he once again changed direction.

Meanwhile,

Harold is changing direction everytime. He started to think that he was exposed.

Chapter 462: Killing Harold!

City C (10th Zone)

Jeremy Night has entered the deeper part of the wilderness. There was no one apart from him and the person who was chasing him.

He was sure that person was chasing him with bad intentions. But he doesn't know why. He found out this aura on the person is stronger than Tier-3 Beast Tamer.

Such Beast Tamers held high positions in any organisation. So what is he doing here? Why is he after him?

Harold's expression started to become ugly. Now that he thinks that he was exposed. He thinks there is no point in acting anymore.

Boom!

He brings out his Lifeline beast. A 5t tall insect bug appeared beside him. The insect bug was full of pitch black in color.

Its eyes were red in color. It has claws like hands and legs. The wings in his back are strong and powerful. Harold immediately told his lifeline beast to attack the target.

Buzz!

With a flapping sound. The insect bug started flying towards the enemy. Harold is following the lifeline beast from behind.

He shedded his fake acting. Now he looks ferocious and angry.

Meanwhile,

I'm using the eye ability to monitor the enemy.

Suddenly, I saw the opponent taking out his Lifeline beast. The lifeline beast looks sinister. When I'm zoomed into the beast.

I noticed that it's an insect type lifeline beast. Seeing that I was convinced that person is a bad one.

Most of the Beast Tamers don't sign contracts with insect type beasts. Unless their talent demands one.

My gaze fell on the incoming bug. The speed of the insect bug was fast. The flapping of wings is causing boooming noise in the air.

Swoosh!

The insect bug is coming towards them. Harold is running behind the lifeline beast.

Jeremy Night takes out the hand gun. He thinks it's not wise to waste more. He uses his eye ability to aim.

He covers the bullets with the new starlight energy. His gaze locked into the insect bug.

Bang!

The next second, he fires the bullet. The starlight bullet cuts through the air.

In a flash, the starlight bullet reaches the target. The starlight bullet appears before the insect bug.

The insect bug felt a sense of crisis. But before the insect bug could do something. The bullet goes through the head.

Pfff!

The blood splattered on the ground. The insect bug dropped dead on the ground.

AaahhhHhh!

Harold let out a scream. He clutched his head in pain. The pain he was under was inhuman. He fell down and started rolling on the ground.

On the other hand, Jeremy Night puts his hand gun back into the case. Seeing that enemy was down. He sighed inwardly.

He knows what's going on. Because the lifeline beast was killed. The enemy was crippled right now.

After confirming that, he started going towards the enemy. When he reached there. He saw that the enemy was bleeding right now.

Jeremy's eyes turned cold. He looks at the rolling middle aged man on the ground.

"Who are you?" Jeremy asked.

Harold is feeling immense pain right now. But he still was conscious. His mental zone collapsed.

The dead insect bug was beside him. Harold turned his head and looked at the young man. His eyes flashed with fear and disbelief.

The young man was supposed to be the easy target. He is a Tier-4 Beast Tamer. But the young man is Tier-2 Beast Tamer. The ending should have been different.

"Do you hear me or not?"

"Who are you?" Jeremy asked him again.

Harold is bleeding from his nose and ears. His mind was injured. He was conscious because he was a Tier-4 Beast Tamer.

This time he heard the questions clearly. He feared that the young man could kill him. He started stuttering.

"My name is Harold"

"I have accepted the task to kill you."

Hearing that Jeremy's eyes turned cold. He was right. Something was indeed wrong with this person. He came to kill him.

"Who ordered you?" Jeremy asked again. This time he was really angry. If not for his starlight power, he would have died right now.

You can't confront the Tier-4 Beast Tamer in close combat. He had to rely on his ability to save himself from this type of situation.

"Sun Wheel Organisation!"

Harold uttered with a great difficulty before falling unconscious on the ground.

"Sun Wheel Organisation," Jeremy uttered in a solemn tone. Things have come this far. They have started targeting him again.

This time it was a direct attack. They had sent a Tier-4 Beast Tamer after him. He was shocked and confused. He doesn't know what to do.

Should he ignore the threat? Or should he inform the leader to alert others. After giving some thought, he has decided to inform the Leader Gisela.

He then started dragging the body towards the border. From time to time he takes out the device to check whether the signal was strong or not.

At one place, the signal showed strong strength. He takes out the device for the first time to call Leader Gisela from here.

When the call was connected. He was shocked. He didn't make it after coming here. He was glad that call was connected.

"Jeremy Night, what happened?" Gisela asked.

Hearing that, Jeremy calms his heart and tells her about Harold and the Sun Wheel Organisation's task.

Gisela was shocked. This threat was back in everyone's mind. But no one had thought any one would do it. Especially after the Beast Invasion.

It appears that Sun Wheel Organisation didn't care.

"Where are you right now?" Gisela asked.

"I'm in the wilderness near Sunset Human Settlement," Jeremy replied.

"Okay. Stay there. I'll send the team to take him back," After saying that, she ended the call.

Jeremy then thought of the log cabin. He started taking the unconscious killer to the wooden cabin. He knows that the Shadow Moon Organisation had an interrogation team and prison cell.

If they come they will take care of this matter. Once this matter was exposed, he thinks there will be a lot more attacks from the Sun Wheel Organisation.

----

City A(10th Zone):

Gisela immediately went to Head Neil's office to report. It didn't take long for her to meet him and brief everything.

Neil Moon was stunned. He didn't expect the Sun Wheel Organisation to stoop so low. They dared to do it under this situation.

Since this was a task. The task must include other targets.

"Inform other members ASAP. The threats could be near them," Neil said.

Gisela left the office and informed other team leaders and elders immediately. They in turn alerted their squad members through calls.

The phone calls exposed everything. Some of the members were actually attacked by unknown people. But no casualty was reported so far.

Head Neil Moon has sent a small team to investigate. He had asked the seriously injured people to return. He was glad that there were no casualties.

Since the Sun Wheel Organisation did it. There is no point in continuing the volunteer task. Head Neil leaves the office to meet with the City Governor Marcos and others.

---

City Governor Office:

City Governor Marcos was here. But not the other two City Governors. They went to Central University for the meeting.

It didn't take long for Marcos to learn that someone came to meet him. When he learned about the person. He was stunned. He didn't expect Head Neil to come here.

He then gave the permission. Neil Moon walks into the office. He met Marcos and greeted him.

"Elder, what happened?" Marcos asked.

His eyes flashes with solemnity. He knows that Elder Neil is a Tier-8 Beast Tamer. His contribution during the Beast invasion was immense.

Old man Neil was serious. He quickly began explaining to him. He told him what happened to Jeremy Night an hour ago.

A few minutes later,

Marcos's eyes flashed with anger. He didn't expect Elder Frank Doolin to betray him. He had hoped that they would show him some respect.

But he started doing shady work right after the beast invasion.

"Do you have evidence?" Marcos asked.

"I have sent a team to capture the killer," Neil Moon replied.

"Then bring him here. We will interrogate him together," Marcos said in a cold tone.

Hearing that Neil Moon agreed. He knew Marcos won't believe it unless he sees himself.

---

City C (10th Zone)

Wilderness,

At midnight, Jeremy Night was in a log cabin with an unconscious body. He received a call. It was none other than Leader Gisela.

"Jeremy. The team is here, where are you?" Gisela asked.

Hearing that Jeremy explained his whereabouts. It took less than two hours for the team to reach. He realises that they must have come through private flight.

He then goes to the meeting area with the unconscious Harold. When he got there. He sees a team of middle aged people.

Some of them are old. But they are wearing the uniform of the Shadow Moon Organisation.

A white haired middle aged man stepped forward. He has seen Jeremy Night in the organisation. But Jeremy doesn't know about it.

"I know you are Jeremy Night. I have seen you in the organisation. We are here to take him back to the city," he said.

Hearing that Elder's words Jeremy was shocked. But he believed it. Team Leader Gisela reminded him earlier.

Chapter 463: Sudden news!

Wilderness:

Jeremy agreed to hand over the unconscious killer. The white haired elder then nodded to him before taking the killer with them.

In the blink of an eye. The team disappeared from the spot. Jeremy Night was stunned. He didn't expect them to come fast and go right away.

But he too understood the seriousness. Since he had exposed this killer. The organisation behind him won't stay silent.

It's possible for the Sun Wheel Organisation to target others as well. Then he collected his thoughts and left the place.

He is going back to the hotel. Soon, he left the Sunset Human Settlement. He didn't report to the incharge Otto.

About 20 minutes later,

He returned to the Blue Parrot Hotel. He doesn't know how long he is going to stay here. After returning to this room, he went to take a bath.

Meanwhile,

The illegal organisation failed in their search. They failed to find the reason for their disappearance.

The Head and the elders of this small organisation were in panic right now. They didn't know who was targeting them right now.

Because of the presence of the Beast Tamers from the City A. They were unable to do their search on a large scale.

Finally, the Head has decided to use his personal connection to find the truth.

---

City A (10th Zone)

City Governor Marcos and Head Neil of the Shadow Moon Organisation were waiting in the office. It didn't take long for the special team to return.

Marcos and Neil walk out of the office and see the unconscious killer.

Marcos looks at the special team before turning towards the white haired elder.

"Which organisation does he belong to?" Marcos asked.

"He belongs to a small mercenary organisation. They accept tasks from the big organisation to survive," White haired elder replied.

Hearing that Marcos' eyes turned cold. He knew there were organisations doing shady work.

But he has been turning blind eye to some extent unless they crossed the line. He won't take serious action.

"Lock him up in a cell. Find out the names of the professional killers," Marcos gave a strict order.

Hearing that white haired elder and others acted. They took Harold to lock him up in the cell.

Head Neil Moon was visibly angry. He turned towards Marcos. He wanted to know what he was going to do.

Marcos felt the gaze. He knew Head Neil was angry. He was angry too. If he doesn't take any action, many forces would be dissatisfied.

"Head Neil, I promise you that Sun Wheel Organisation won't escape. I will take action against them," Marcos said in a serious tone.

After getting permission from the City Governor Marcos eases down his eyebrows. He then nodded to him before leaving from the place.

Meanwhile,

The Sun Wheel Organisation isn't aware that their act was exposed. All because of the lack of information. They miscalculated Jeremy Night's information.

Time passed,

The City Governors Enzo and Leonor learned about the new problem. They were furious as well. They knew how hard it was to save the city from the beast invasion.

Yet the Sun Wheel Organisation has backstabbed them. If the news were to reach the ears of the Human Alliance's elders. They would be shocked to the core.

Before taking action against the Sun Wheel Organisation, they need evidence and more information. As the time passes, the elders are carrying out the investigation.

Apart from Harold, many killers were caught. The interrogation goes for a full day and night. Most of the killers revealed the name of the Sun Wheel Organisation.

There are other killers who were employed by some Beast Taking Families. Which came out as a surprise.

The Three City Governors got furious again. They hadn't expected the small beast taming families to fool them again.

City Governor Marcos fell into deep contemplation. He needs to make a decision right now. They had issued the volunteer task.

But the time limit for the mission was not decided.

He has decided to give three more days. Then he would call back everyone. Then he collected his thoughts and told this to the other 2 City Governors.

City Governor Enzo and Leonor agreed. Then they sent the next order. All those who were doing volunteer tasks received messages from their organisations.

They can return to the city three days later.

---

City C (10th Zone)

The following day,

Jeremy started doing the patrolling work as usual. He didn't meet with other teams. Compared to the last day, he was in a better mood today.

He received from the organisation that he can return after three days. He thinks that the issue of killers must have shaken the City Governors.

Time passed,

Just as he was doing the patrolling work. He found several groups entering the border. Upon seeing that he was surprised.

Apart from locals, no one comes to the Sunset Human Settlement. He was curious about these people.

He saw them going into the wilderness. Looking at the desert forest, his eyes flashes with a gleam. It's the exact area where those illegal groups were removed.

He doesn't know whether they are related to the illegal group. But why would illegal people appear in broad daylight with this many members?

He had so many questions. He decides to follow them.

As the time passed, he saw them doing something. They are searching for something. Upon seeing that his expression got serious.

Because they are searching in the same sunken ground. He thinks that they must have gotten here by tracing the location of the device.

Jeremy calms his heart down. This was something bound to happen. He didn't know whether they got the news about new news from the City Governors.

He had already disposed of their corpses. They won't be able to find anything. Because of his eye ability, he didn't have to get near them.

He can watch their activities from this distance. The illegal groups are spread across and widen their search area.

Seeing that he have decided to return and resume the patrolling work.

Chapter 464: Frank Doolin fled!

Wilderness:

Jeremy Night is doing his patrolling work. He forgot about the illegal members. He thinks they would leave after finding out nothing.

Soon, it happens. The illegal group fails to find anything. Not even a clue was found. They could only guess that some corrupted Beasts had killed their missing members.

---

City A (10th Zone)

Sun Wheel Organisation,

Frank Doolin was confused and worried. The task of eliminating the threats was over before the killers could carry out the task.

Why? It's because they were exposed. Frank frowned. Right now, he is in big trouble. If the City Governors found out his involvement.

Then he could face punishment from the human alliance.

He decides to leave for the top 5 zones. Once he gets there he will be safe, then without informing anyone. He left the organisation.

Elder Paul and Todd were clueless. They too were worried that their actions were exposed. They didn't know what's going to happen next.

Meanwhile,

It didn't take long for the Beast Taming Forces to find out something was wrong. The volunteer tasks are going to end after three days.

Their Beast tamers will be returned. But it was not because things have become normal. It's because of some shady work of the organisation.

The forces were scared. The city governors assured them through the back channel that actions will be taken.

But they didn't know the main master mind was on his way to the top 5 zones. He is going on his private flight. The officials didn't know about this.

Marcos wanted to handle it secretly. He didn't know Head Frank had fled.

The following day,

City Governor Marcos himself paid a visit to the Sun Wheel Organisation. Elder Paul and Todd greeted him among other elders.

They didn't know why the City Governor had come. But Paul and Todd were panicking inside. They knew the crime committed.

They can't even escape now. Marcos has told Enzo and Elenor to wait outside. They would capture anyone who tried to flee.

"Take me to the Head office," Marcos said.

All the elders turned towards Paul and Todd. Because they were left and right hand people for Head Franklin.

Paul doesn't know what to do. He found that the City Governor's gaze was on him. He can't escape.

"City Governor, Head Frank is not here," He said in a grave tone. Because it was true.

When he entered his office this morning, he found out the room door was open. No one was inside.

It won't happen unless Head let it himself.

Marcos frowned. His eyes turned cold. He didn't receive any information on this matter.

"I will see myself," Marcos said.

Hearing that Paul and Todd led him towards the Head Frank's office room. When he got there. He saw that room was empty.

Marcos's eyes turned cold. He immediately contacted officials at the airport.

Paul and Todd were silent. But they knew it was over. They are not going to escape this time.

Soon, Marcos got the confirmation. The authorities saw the private flight leaving the city yesterday. The flight was owned by Frank Doolin. He was seen leaving the city as well.

"You guys come with me," Macos said without turning back.

Paul and Todd looked at each other. They started following him from behind. They left the organisation in mid air.

Enzo and Leonor were three. Upon seeing the two Paul and Todd were even more shocked. They knew they were exposed. There was no chance of escaping from the crisis.

"Head Frank has escaped," Marcos said to them.

"He is a Tier-8 Beast Tamer. It's not easy to accuse him. He must have gone to one of the top 5 zones," Enzo said.

"I know. The forces there are mixed. Even the Human Alliance won't force them. Let's go, we can lock these two people for the time being," Marcos said.

The faces of Paul and Todd changed drastically. But they had no choice other than to follow three of them.

Marcos can take more severe action. But the threat of the Colossal beasts was not over. The corrupted beasts are returning to the outer and inner area of the wilderness.

They still need some time period for observation.

Time passed,

This matter was kept quiet. If the Beast Taming Forces knew that Head Frank of the Sun Wheel Organisation had fled. Then the consequences would have been disastrous.

2 days later,

Jeremy returns to City A without any trouble. The past 3 days have been peaceful for him. He hadn't come across any problems.

Especially from the Illegal Organisation. He thinks they might widen their search after the City A Beast Tamers' departure.

He then arrived at the Shadow Moon Organisation and went to his room. Not only him, the other members were coming back one by one.

None of them have suffered because of the Sun Wheel Organisation's conspiracy. But they didn't know the person responsible for their safety was none other than Jeremy Night.

Sinag and Ada learn of Jeremy's return. But they didn't disturb him. They have decided to meet him tomorrow.

Head office:

Head Neil Moon is reading the reports. He was glad that members were all coming back sound and safe. He knows it's because of Jeremy Night's report they were able to act.

If something had happened to him, not only would he have died. So many others as well. He then removed his drawer.

There is a decorated red box storing priceless items. He took the red box and opened it. Inside there was a radiant blue color pill.

The pill was made by powerful pill makers in the top 5 zones. It's hard to find the ingredients for this pill.

Some of the ingredients were brought from the unexplored region.

The purpose of the radiant blue pill was to forcibly raise the Tiers of the Beast Tamers without damaging their foundation.

It was given to the descendants of the Beast Taming Families to raise their tier. It was given to him by one of his close friends.

He doesn't have any descendants but he is thinking about giving it to Jeremy Night right now. He thinks this kid deserved it.

Chapter 465 465: Radiant blue pill

City A (10th Zone)

The following day,

Jeremy Night woke up the next day. After getting out of the bed, he started doing the morning routine. It's been a days since he had good training.

He is going to start training today. It didn't take long for him to complete the routine. Then he entered the training room for practice.

He sat crosslegged in the middle and started running the breathing method. His body started to absorb the rich natural energy from the surroundings.

At the same time, the unknown egg inside the mental zone began to observe the natural energy from the surroundings.

The unknown egg is feeling extremely hungry. It's digesting the pure natural energy from the surroundings.

Seeing that I closed my eyes and continued with the process.

Outside,

Everyone is starting their day as usual. But to everyone's surprise. The City Governor office has released a statement that they will soon enter the wilderness.

After getting the news, everyone started their training.

The beast invasion had opened their eyes. Many of them had felt how weak they were when facing the many corrupted beasts.

They have so many things to improve.

A few hours later,

Jeremy Night exited the training room. He feels he is close to the next breakthrough. In the next breakthrough, he might reach 3rd Rank.

Then he entered the bathroom to take a shower. The bath lasted for 20 minutes. He walked out and changed to comfort clothes.

After getting ready, he came to the lobby to walk around. Surprisingly, he meets with Captain Sinag and Ada.

Sinag saw Jeremy as well. She raised her eyebrows in surprise.

"Looks like you were eager to enter the wilderness again," Sinag asked.

Jeremy smiled and said, "Yes, it's boring to spend time doing nothing."

"Did you face any trouble?"

"I heard some senior brothers didn't have an easy time," Ada opened her mouth this time.

Hearing that Jeremy knew she was asking about the killers. He shook his head and said, "I heard about it as well. But I was safe."

"Glad nothing like that had happened. Otherwise, the team leader would have gone on a rampage," Sinag said in a cold tone.

Three of them then left the building and started going for a walk outside. The other members noticed them as well.

But they took a glance before minding their own business. The news about the killer wasn't made public.

Yet people who faced the attack have shared the news with friends and families. Some hostile force is targeting them.

They won't be surprised if recently joined Jeremy Night were to face an attack from the enemy.

---

Meanwhile,

The powerful Beast tamers from the Human Alliance have reached the unexplored region. They wanted to find the cause for the changes in the wilderness.

The special team didn't take long to find out the reason. When they found out what had happened. The Tier-9 Beast Tamers were all trembling in fear.

The team made a huge shocking discovery that it is going to shake the human alliance. A Colossal Beast had made a breakthrough here.

How did they find out? It was easy. The lingering breath left after achieving breakthrough has covered the place.

This lingering energy has injured a few of the Tier-9 Beast Tamers here. It was enough to tell them what happened here.

The special team made a decision to leave. They don't have the courage to enter an unexplored region. The Colossal beast which had made a breakthrough must have gone to the unexplored region.

At this time, they have decided to alert all the zones. Some of the zones were close to the core area. They should monitor the Colossal Beasts' movements.

---

Time passed,

After spending time with Sinag and Ada, Jeremy decides to return to his room. But he was soon summoned by Head Neil Moon.

It's the first time where Head Neil Moon had summoned Jeremy Night directly. This has never happened before.

Jeremy felt nervous. He doesn't know whether it's bad news or good news. But he thinks it has something to do with news he shared about the killers.

He then changed his direction and went to the Head Neil Moon's office directly. When he got there. He asked for permission to enter.

Creak!

The door opened. Then he walked inside. He saw the old man sitting behind the desk. Seeing that he had a peaceful expression on his face.

Jeremy sighed inwardly. He was worried that it would be something serious.

Neil's gaze fell on the young man. He then asked him to sit down.

"Young man, I was impressed with your performance. Because of you we were able to swiftly act and save a lot of people."

"There was no casualty," he added.

Jeremy doesn't know what to say. He was relieved in his heart. He was worried that it would relate to some other thing.

Then he saw the old man take out something. It was a luxurious wooden box.

Neil opened the box and showed the radiant blue pill to him.

"It's a rare precious pill. It helps in breakthroughs. Based on the talent and foundation the breakthrough benefits vary," Neil said with a smile.

Hearing that he doesn't know what to say. The pill was expensive. It was definitely useful to him. But he doesn't know what the breakthrough benefits he is talking about.

Jeremy Night accepted the gift. He needs strength more than ever. He is coming across more enemies these days. Only by achieving breakthroughs can he strengthen himself.

Neil then said, "Don't tell anyone about this pill. It may attract unwanted trouble."

Jeremy's heart skips a beat. But he thanked Head Neil for this previous pill. He can't wait to go back to his room to consume the pill.

Head Neil Moon saw through his thoughts. He then told him that he could leave.

Jeremy Night once again thanked him before leaving the room. Soon, he came back to his room and was ready to consume the pill.

Chapter 466: Tier-2, 5th Rank - Early Stage!

City A (10th Zone):

Jeremy entered the training room. He sat in the middle of the room. He then takes out the box to consume the pill.

He opened the box and took a radiant blue pill in his hand. He can't wait to see the miraculous wonder of the radiant blue pill.

He looked at the pill before eating it. He closed his eyes and started running the inner healing method.

At the same time, the pill melts in his mouth and energy starts coursing through his body.

Wherever the energy passes. The human body cell began to absorb the pill's energy crazily. As the time passed, their evolution began to progress at a rapid rate.

The pill energy was so powerful that the body started to feel the pressure. If he doesn't do something about it, his body could burst into a blood cloud.

Buzz!

At this time the unknown egg made a move. It started to absorb the excessive overbearing energy. The unknown egg likes the power of the pill.

Because it was made from powerful treasures brought from the unexplored region. Even Head Neil made a mistake by not providing someone to protect him.

Time passes,

The capacity of the body is limited. So the unknown beast egg is absorbing most of the energy. At the same time, the unknown beast egg evolved faster.

It's strength grows yet it's very far away from achieving the condition for hatching. It's still in its incubation stage.

Click!

Tier-2, 3rd Rank Early Stage...

Tier-2, 3rd Rank Mid Stage...

Tier-2, 3rd Rank Peak Stage...

Tier-2, 4th Rank Early Stage...

Tier-2, 4th Rank Mid Stage...

Tier-2, 4th Rank Peak Stage...

Tier-2, 5th Rank Early Stage...

The unknown beast stopped absorbing after consuming the whole pill energy. By the time it has already reached 5th rank.

Jeremy Night was shocked to the core. He underestimated the power of the pill. He was expecting one or two small stage breakthroughs.

But he didn't expect to cross two major ranks directly to reach 5th rank.

Buzz!

The starlight liquid becomes more dense and powerful. Even a small strand from it can hurt Tier-3 or Tier-4 Corrupted Beasts.

Not long after, he started receiving the feedback. His physique started to evolve. It Breakthrough from the 2nd Rank Peak Stage to 3rd Rank Early Stage.

As the time passed, his body evolution crossed the 3rd Rank and reached the 4th Rank. Evolution didn't stop. It continues.

Click!

The power of Physique crossed the 4th Rank in an hour before reaching the 5th Rank. The feedback energy finally showed the sign of stopping.

But the remaining energy was enough to stabilize the 5th Rank-Early Stage. Jeremy Night's heart was stirred. He didn't expect people to make such a treasure.

He doesn't know whether his A-Rank Talent had only allowed him to cross two major ranks. What if? S-Rank people consume the treasure.

He doesn't know what to say. He was shocked by the benefits of the pill. Head Neil Moon truly rewarded him with important treasure.

He thinks it won't be long before he reaches the 9th Rank before breaking through to reach Tier-3. Those days are not faraway.

Jeremy then collected his thoughts. He didn't get up. He still practised the inner healing method half an hour before getting up.

He saw his skin was covered with black sludges. These were the impurities expelled from the body. He looks at his smooth skin. But it holds immense power beneath it.

Jeremy then focused on his mental zone. On the huge black door, the 2 concentric circles were lit representing the 2 Tiers.

Inside the 2nd concentric circles the first 5 blocks were lit representing the ranks.

The 2nd circle still had four blocks left. He is hoping to light them soon. He then shifted his attention to the unknown beast egg.

His heart skips a beat. The breath of the unknown beast egg has become stronger. Yet the unknown beast is not ready to hatch. He doesn't know when the day will come.

With each passing day, he finds it hard to keep the secret. Everyone is asking about the lifeline beast.

He hopes that his lifeline beast wood will appear soon. Then he recovered his thoughts and exited the room. He then went to take a bath.

The following day,

He entered the training room to practise. He wants to see the effect of new strength.

Boom!

Jeremy unsheathed his blade and started swinging it. The footworks was faster than before. He could perform some moves easily.

What more? He could feel his understanding got better. His talent is the Supreme Combat Body. Each evolution is bringing out the power of talent.

Jeremy then shifted his focus on understanding the incomplete blade move, Blade One: Silence. Once his skill level reaches an advanced stage.

He believes it would be easy to cut down the Tier-5 Beast Tamers like weeds. He started practising the blade one move diligently.

As the time passed, his understanding got better. The previous doubt in his mind got cleared. He didn't get blade talent. Yet with the body talent and good understanding he is progressing.

Time passed,

The next few days, Jeremy Night spent the time in practising the blade one move. His blade skill is getting close to the advanced stage from the intermediate stage.

This was rapid progress no one has seen. It's comparable to people with the blade talent.

Meanwhile,

The wilderness outside has returned to normal. The corrupted beasts are roaming everywhere. The core area was silent. There was no movement whatsoever.

The City Governors have been paying attention to the core area. They are under the period of observation.

City Governor Marcos has sent reports to the Human Alliance HQ. Once they give a green signal. Then he can allow beast tamers to go to the wilderness.

If there are movements from the core area, then there are chances that City A could be abandoned. The Human Alliance won't take risks to fight against the Colossal beasts for just one human city.

It was already great for them to dispatch two Tier-9 Beast Tamers to help them solve the problem some time ago.

Marcos is hoping that the worst case won't happen anymore.

Chapter 467: Entering the wilderness!

City A (10th Zone):

The Elders in the Human Alliance went through various reports and found that the 10th zone is normal. There were no more threats from the Colossal beasts living in the core area.

They gave them permission to continue to live with the city. There is no need to abandon the City A. When the City Governors Marcos and others learned it.

They heaved a sigh of relief. They knew how difficult it was to relocate the entire population along with the human settlements.

Now they can continue with their life without any problem. Marcos then made the announcement three days later.

Hearing that whole city celebrated the news. Finally, they can resume their living and do business. The Beast Tamers have started entering the wilderness again to hunt.

But there are few Beast Taming Forces which are under investigation. The Sun Wheel Organisation and the few other Beast Taming Families.

Their activities were reduced. The Sun Wheel Organisation without the presence of the Head. Only the remaining elders were managing the organisation.

Elder Paul and Todd were not here to support the organisation. They could guess that something bad had happened which invited the wrath of the City Governors.

For the sake of the whole city, the City Governors didn't make the news public. Otherwise, the city might be filled with blood again.

The City Governors understood that they need Beast Tamers more than ever. So they can't afford to take any actions right now.

But Marcos has decided to pressure them from time to time. If they are found to be committing small crimes, then he would extract a huge price from them.

---

Shadow Moon Organisation:

Jeremy Night has made good progress over the past few days. Especially after the breakthrough his combat strength has risen to another level.

With the new blade move, he can even attack and injure Tier-5 Corrupted Beasts easily. He has decided to enter the wilderness today.

He wants to try out the new blade move against the Tier-5 Corrupted Beasts. After getting ready, he comes to the lobby.

He saw that the members were all busy. They are going about their business. He knew that ever since the ban was lifted.

The seniors all entered the wilderness. He then goes to the Leader's office room to report. When he got there. He noticed that Leader Gisela was not here.

Seeing that he was surprised. Then he takes out the device to message her. After texting her, he messaged Captain Sinag and Ada.

Then he went to the lobby and walked out the building.

He meets with the staff who drives the flying car. After telling him to drop him off in the wilderness, he entered the car and sat back in his seat.

Swoosh!

The flying car rose from the ground and appeared in the mid air. Then the driver started driving the car towards the destination.

Soon, the flying car goes to the city wall. When it reaches the place. The car follows the other car before leaving the city.

It didn't take long for the driver to drop him off at the outer area wilderness entrance. After stepping out, Jeremy thanked the driver.

Then he rushes towards the wilderness. He follows the regular path where some of the teams are going. His appearance attracted attention.

After seeing his tiger strength, they took back their gazes. Everyone thought that the young man was the missing person of the team.

Jeremy Night ignored them and resumed going towards the inner area. This time he plans to go a little deeper into the inner area. Last time, he had placed those explosives during the Beast Invasion.

After the Beast Invasion, it's the first time for him to enter the wilderness. It didn't take long for the road to become empty. The teams have gone in different directions for their missions.

Jeremy follows the road towards the inner area.

Time passed,

He reached the inner area a few hours later. Surprisingly, he had not faced one Corrupted beasts in this path. He thinks he will face one hereafter.

If the news were true that corrupted beasts have filled the inner and outer area. Then there is a possibility for me to face one here.

Swoosh!

A corrupted bloodthirsty ape appears at the distance. The beast was about to cross the road to go to the other side. But it paused its movements suddenly.

The ape was over 10ft tall in height. It's a small giant. The red ape has seen a single prey. The strength of the ape is Tier-5. It is quite intelligent.

It didn't expect to come across a lonely prey. If it was a team of human prey, it would have been ignored. But right now, it won't let go of a good opportunity.

It was already annoyed by the presence of human prey in the wilderness. They have appeared in large numbers recently. Not only that, they have started killing the beast members.

The red ape long wanted to kill the humans. Now that it has seen the single prey. It's going to hunt humans.

Swoosh!

The next second, it started rushing towards the human.

On the other hand, he used the eye ability to find out the beast. The appearance of the red ape beast becomes clear. Seeing the fierce and violent aura. His expression turned grave.

Compared to the other Tier-5 Corrupted beasts. This ape corrupted beast seems more dangerous. He grabbed the scabbard.

Instead of using the hand gun, he has decided to use the katana blade.

In a flash, the 10ft tall red ape appeared before me. The red ape becomes more bloodthirsty after seeing the human. It rushes forward to attack.

Swoosh!

The red ape punched forward.

Jeremy's eyes were all on the movements. He could see the trajectory of the punch. Just as the punch was about to hit his chest. He sidestepped to avoid the attack .

Boom!

The Red Ape's punch struck the empty air. The next second, a booming sound occurs as the punch tears through the air.

The oppressive wild aura pressed his body. Jeremy Night could feel that the Red Ape was really a Tier-5 Corrupted Beast.

Chapter 468: Slaying the Red Ape!

Wilderness (10th Zone):

Boom!

The 10ft Red Ape struck its punch again. Jeremy Night evades using the eye's ability. The punch hits the empty air creating a booming sound the next moment.

Jeremy draws his blade and covers the blade edge with the starlight power in a flash. The newly strengthened starlight power has coated the blade.

Slash!

With the help of the eye ability, he slashes at the Red Ape. The blade comes in contact with the skin of the beast.

Upon contact, Jeremy felt resistance. Then he found that the blade went smoothly inside the flesh of the beast.

Puchal!

Blood splattered on the ground. His eyes gleamed with a twinkle. Before he had to put more force behind the attack.

Now facing the Tier-5 Corrupted Beast. He felt less resistant. Yet it's not enough to slay the beast in a single slash.

Boom!

The red ape smashes the ground in a fury. It didn't expect to receive a small injury. The human prey has crossed the limit.

Its action has infuriated it completely. The next second, its body disappears in a flash. It shot towards the human prey.

Jeremy Night's pupil shrinks. He finds it hard to follow the speed of the Red Ape. The Ape is using the power of Tier-5 strength.

Swoosh!

Seeing that he continues to retreat backward. He can't afford to engage in close combat. If his blade missed the target, then the consequences could be disastrous.

He has this starlight power only. Apart from it, he can't hurt the Tier-5 Red Ape. But it can crush his bones in close combat.

Jeremy made a decision. A fiery glint flashes in his eyes. He is going to use blade one move. It's the only thing which can help him to kill the beast without resorting to drastic action.

Swoosh!

The Red Ape enraged. It couldn't figure out that its attacks were missing. It finds human prey to be weird. None of its attacks were touching the prey.

It continues to chase down the prey. As the time passes, the Red Ape finds that human prey to be slippery.

Instead of attacking, the human prey chose to flee. Its eyes reddened. It won't leave such an easy prey to escape.

At the same time, Jeremy Night is waiting for the opportunity to strike. Right now, he is using the eye ability to find out the weak point.

Under his second eye ability, the body of the Red Ape becomes transparent. He could see the blood vessels running in its body.

As long as he severs the blood vessels, then the red ape would stop moving. That's why he was waiting for the opportunity.

Earlier, this method was difficult against the Tier-5 beast. With the new starlight move and blade one move. He thinks it's possible to slay the Red Ape.

It didn't take long for him to find out which blood vessel to serve. He eyes the blood vessels in the neck. It goes to the Ape's brain.

Next, he has to get closer to the beast.

Swoosh!

Jeremy stopped retreating. Instead he stood on the same spot. In a flash, the Red Ape with the bloodshot eyes appears in front of Jeremy Night.

Jeremy's expression turned solemn. He is looking into Red Ape's bloodshot eyes. He is not retreating anymore.

The Red Ape's blood is boiling in anger. The prey has stopped moving. Now it can squash the prey like a bug.

Jeremy's aura changes as he performs the blade one move. His eyes fixed on the Red Ape's blood vessels.

Boom!

The katana blade gives off terrific pressure.

Feeling the mysterious power coming from the katana blade, the hairs on the red ape's body stood up.

Boom!

Without waiting further, the Red Ape punches forward. The bloodthirsty wild aura coming from the punch.

Even if any Tier-5 Beast Tamer received the punch, then he would be bed ridden.

As the punch is moving forward. At the same time, the blade in Jeremy Night's hand dances. A blade move strike aimed at the blood vessels.

Puchak!

The starlight blade went slicing upward in a perfect arc. Before the Red Ape's punch makes contact. The blood gushes forth from its neck.

The Red Ape halted its movements.

Swoosh!

Jeremy Night withdraws his sword, retreating. He sees that his attack was successful. His mouth curves into an arc. His gambit paid off.

The successful combination of the starlight power and blade one move severed Red Ape's blood vessels.

Tud!

The Red Ape's blood thirsty wild aura was gone. Its mind went blank. It collapsed on the ground the next moment. Until the end, it didn't know what happened.

On the other hand, Jeremy sheathed his blade. The incomplete blade one move turned out to be formidable.

The added starlight power on top of makes it more powerful. Now he is confident of facing the Tier-5 Corrupted Beasts. He got a killer move now.

Swoosh!

After taking a look at the Tier-5 Red Ape, he turned around to leave. He is going to fight against more Tier-5 Corrupted Beasts.

---

Head Office:

Neil Moon was in his office room. He knew what happened with the Sun Wheel Organisation. He didn't expect that treacherous fellow to seek refuge in the Top 5 Zones.

He was angry. But he couldn't do anything. The City Governors themselves didn't want to make things difficult.

Though he is angry. Neil Moon understood that decision behind the City Governors. They don't want any turmoil to happen again.

What surprised him was the new information from the Human Alliance? Ever since, Jeremy Night returned from his home city.

He knew something was going inside the wilderness. Especially the unexplored area. He got news that a special team of the Human Alliance alliance returned from an unexplored area.

He doesn't know what they have found out. But from his connections he learned that. The Tier-9 Beast Tamers were unwilling to reveal anything. Including the elders, they don't know anything.

Chapter 469: Powerful blade one move!

Wilderness 10th Zone):

Time passed,

Jeremy Night has been exploring the inner area. He came across Tier-3 and Tier-4 Corrupted Beasts. But he chose not to kill them.

His target was Tier-5 Corrupted Beasts. Only by fighting against the powerful corrupted beasts, he can improve his strength and skills.

As the time passed, he noticed that the sky was getting dark. It's going to be evening time soon. He is still wandering in the inner area in search of Tier-5 Corrupted Beasts.

He knows during the night time. The activities of the corrupted beasts would be higher. He decided to spend the night here.

Buzz!

At this moment, the unknown beast egg inside the mental zone is shaking. This sudden reaction of the lifeline beast caught him off guard.

Jeremy knew the lifeline beast won't react unless there is pure natural energy around here. He had experienced similar things back at home.

The wilderness out there has a special area where the concentration of natural energy is high. It was considered an abandoned place by the city.

Now the unknown egg is showing a similar reaction. He wonders that he might stumble upon a chance here.

His eyes shone with a twinkle. His breathing gets faster. It took him a couple of seconds to calm down his heart.

He noticed that the unknown egg continued to shake. He started walking around the place to see reaction from the known beast egg.

After moving around in a circle, he finds out that the beast egg is shaking more in one particular direction. He chose that direction and started walking in.

While exploring the wilderness, he still maintains the habit of marking the place. The markings were only understood by him.

It didn't take long for him to find a reason. There is a small cave opened by some ground beast. Jeremy uses his eye ability to observe the cave.

There is a sign of digging there including the earth soil. It was definitely done by the Corrupted Beasts.

Suddenly, he sees a silhouette walking out from the cave. His expression changes drastically. He had just thought it was done by some earth based corrupted beasts.

Yet the Beast Tamers are walking out of the cave. He sees four people. Gradually, his gaze fell on their uniform. They are wearing normal combat clothes.

So it's hard to know whether they belong to any known organisation. He was confused. The Beast Invasion has recently ended.

He doubts that the City Administration would give a major mission to carry out some tunnel digging in the inner area.

Earlier, he thought it was the work of corrupted beasts. Now he thinks that culprits were right before his eyes. It could be working on their Lifeline beasts.

These four people stood outside as a guard. Seeing that, his suspicions grew even more.

He uses his eye ability to see through their strength and finds out that they were Tier-4 Beast Tamers.

He eases down his eyebrows. He decides to go down there now. Next, he started moving.

On the other hand, the four Beast Tamers were chatting and laughing. They were all middle aged people.

Suddenly, all four of them noticed someone was coming towards them. Their expression changes drastically as if someone is trespassing in their place.

Four of them look at each other's faces. They immediately reach an understanding. They have decided to strike down the intruder.

When they saw someone unknown appearing behind the bushes. One of them with flame talent attacked.

He saw through that the intruder was Tier-2 Beast Tamer. Not only that, the other three saw this as well. So they were all relaxed and stood cross armed.

They are imagining that the intruder would burn in ashes. To their surprise, it didn't happen.

Instead the Tier-2 Beast Tamer evaded the attack. Now he is coming at them.

The person who used the flame ball was dumbfounded. He is a Tier-4 Beast Tamer. How his Attack could miss against Tier-2 Beast Tamer.

It should have been a sure hit. Instead the flame ball destroys the empty ground.

Jeremy Night is charging towards them. He is intending to use the blade one move. If he wanted he could use a handgun to down these four Beast Tamers.

These 4 Beast Tamers came back to their senses.

The middle aged man who used the fire ability earlier went forward to attack again.

Boom! Boom!

The fire balls were shot at the intruder one after another. The other three Beast Tamers acted as well. They were ready to attack, if the flame balls missed the target.

Swoosh!

Jeremy moved in a zig-zag manner. The flame balls went past him one by one. They struck the empty ground behind him.

In a flash, he appeared in front of the Tier-4 Beast Tamer. The middle aged man was still in illusion that he could take down the Tier-2 Beast Tamer.

Yet he was totally wrong. He underestimated the Tier-2 Beast Tamer in front of him.

Slash!

Jeremy unsheathed his blade and immediately used the blade one move. He swings his blade at the middle aged man in front of him.

The blade immediately covered with the mysterious power. This time he didn't use the starlight power.

The blade moves in front of the middle aged man's eyes. Before he could figure out the things. The blade cuts through his throat.

Puchak!

The red blood gushes forth the next moment. The middle aged was in disbelief. He tries to touch his neck.

But he lost strength in his legs the next moment. His mind went blank. He fell down to the ground the next moment.

The blood still gushes forth from the neck. Until the end, he fails to defend the attack.

The other three Beast Tamers were dumbfounded. They didn't expect one of them to be down so soon. That too, in front of their own eyes and killed by a Tier-2 Beast Tamer.

The Three Beast Tamers were enraged. The next second, they rushed out forward to attack.

Swoosh!

Jeremy swings his blade to attack again. His eyes were set on three of their movements. He wants to kill them before they bring out their Lifeline beast outside.

Chapter 470: Suspicious tunnel!

Wilderness (10th Zone):

Puchak!

Jeremy executes the blade one move again. The blade in his hand made an arc, slicing the throat of the second beast tamer.

In flash, the blade in his hand transits before severing the blood vessels of the third and fourth beast tamer in succession

Pfff! Pfff!

A torrent blood emerges forth, dyeing the ground with the blood. The next second, the corpses fell down to the ground one by one.

Jeremy felt exhausted. He thought the body strength was not enough to execute this powerful move.

The mysterious force coming out of the blade is also exerting pressure on himself. He made progress in the blade technique. He thinks that 5th Rank strength was not enough.

He should reach 9th Rank Peak. Then he can execute the technique without burden. After collecting his thoughts, he turned towards the corpses.

He made a good decision by not using the starlight power. Because there are people who could find out the clue.

Now they think someone with blade or sword talent killed these people. Next, his gaze turned towards the cave.

Seeing the artificially dug cave. He feels strongly suspicious. The unknown beast egg inside the mental zone is still shaking.

"Something is attracting the egg," Jeremy thought.

He looks at the cave before taking a deep breath. Since something is attracting the unknown beast egg. He decides to take a look.

He started walking into the cave. The bright light which is illuminating the cave is starting to be reduced. There is no more daylight.

As he further walked into the place. The cave space is getting darker. Jeremy continues walking. He didn't forget to pay attention to the mental zone.

The unknown beast egg is still shaking. The shaking has become stronger. Jerem's eyes gleamed with a twinkle. Now he is sure that something is attracting the unknown beast egg ahead.

Time passed,

In the dark tunnel cave, he is walking to see the end of the cave. He doesn't know how long he has travelled. He takes his digital device to check.

Upon seeing the time, he realises it's late night. He couldn't help wondering whether the path was leading deep into the inner area or into some other place.

He continues to walk.

The next morning,

He reached the end. There is a small opening to the surface. He arrives at the end of the tunnel and looks at the opening above his head.

Buzz!

Suddenly, the unknown beast egg started to absorb more natural energy. Seeing the more rich and natural energy around me. I was stunned.

As I had guessed before, the place above me seems to be special. The natural energy coming from the small opening is rich in concentration.

The unknown beast egg continues to absorb the natural energy. A small ray of daylight is coming from the opening.

Which is illuminating only a small space here. Jeremy has decided to explore the place. He was now sure that this place might be similar to the forbidden area back at 14th Zone's wilderness.

Boom!

He punched forward the sand covering the top blown into pieces. The next second, he jumped higher and landed on the ground.

His gaze then wanders around the place. He saw that he was standing in the lower ground. It's a sunken ground. He needs to go to higher ground.

Then he started walking. At the same time, he is using his ability. Because the land is filled with rich natural energy.

He suspects that there could be higher tier corrupted beasts living here. So he had to be careful. The unknown beast egg is still consuming natural energy.

He started walking forward. After appearing in the higher flat land. His expression changes. He looks around the place before turning towards the tunnel he came from.

He realises that the place he came out of was the cave tunnel. But the place around was filled with tall gigantic trees.

Some of the gigantic trees he hadn't seen before. After seeing that his expression turned solemn. First, it was the rich natural energy.

Now there is an unknown gigantic tree that has surrounded the place. Just as he was observing the information, he felt a sense of crisis.

Boom!

There is a deafening noise from behind. Hearing that I turned around and looked at the place where the sound was coming from.

He then saw something which shook his heart. A 100ft tall mountain is moving ahead. The visual impact was so great that his mind went back. He stood on the same spot.

The 100ft tall mountain disappeared from his sight a few minutes later.

Then only he recovered his thoughts. The next second, his expression changes drastically. His face filled with fear.

Because a huge realization dawned on him. Jeremy thinks that he is in the core area. It's hard to believe. But the existence of a 100ft tall movie was the best proof.

He then took a deep breath. Then he walked back to the sunken land and jumped into the pit again.

Tud!

He landed on the ground the next moment.

Phew!

He heaved a sigh of relief. He was just reckless. He had thought it was some special forbidden area. But he didn't expect it to be the core area.

If he had gone further to explore the place, he could have died.

"The 100ft mountain was definitely some Colossal Beast," Jeremy thought. The Colossal Beast's sneeze can kill him.

A bitter smile appeared on his face. He was so close to death. Fortunately, he came back to this tunnel cave again. Now he can start going back to the inner area.

But before that he realised there is one more thing.

The Beast Tamers had dug a tunnel cave which leads to the core area. He smells conspiracy. He takes out the digital device and noticed that there was no signal.

He can only go back and report about this. Then he started walking back. He doesn't have the confidence to stay here.

If the Colossal beast noticed this tunnel, it could lead to problems as well. Because he knows that Colossal Beast has human-like intelligence.
