

STRIKER 471

Chapter 471: Core area!

Wilderness (10th Zone):

Cave tunnel,

Jeremy Night started walking back. But half way back into the tunnel. He notices that someone is coming from the other side. His expression changes drastically.

He didn't expect someone to have entered the cave tunnel other than himself. What more? He is feeling a threatening aura coming from the other side.

He thinks that someone strong is coming. It could be a higher tier beast tamer. If he wanted he could take the risk to wait for them. He doesn't want to do that.

Because he feels more than one person is coming here. The next second, he turns and rushes towards the edge of the cave tunnel.

Soon, he reached the end of the cave tunnel. He sees the top cover. The next second, he jumped higher and landed on the sunken land.

After walking further high in the land, he looks around the similar giant tall trees.

Swoosh!

He quickly started rushing towards the side of the giant trees. In a flash, he disappeared into the woods.

Not long after, the three middle aged men appeared above the ground. The three of them are Tier-6 Beast Tamers.

The three looked at each other's faces.

"There is no sign of murderer here," One of them said.

Hearing that the other two started scanning the surroundings. They too found it hard to look at the clues.

"It must be Tier-6 Beast Tamer or above," the second middle aged man said.

"One of us should wait here. Then the remaining two can go back to the organisation," The third middle aged man said.

Hearing that the other two agreed. Since their members have died. They need to report back to the higher ups.

At the same time, they need to secure a place here. If the location was exposed, then no one could save their organisation and them.

Two of them entered the cave tunnel again. They started going back towards the entrance.

Meanwhile,

The third middle aged man stood on higher ground outside.

On the other hand, Jeremy is watching using the eye ability. He didn't expect three people to appear.

From their appearance, he can tell that they are Tier-5 and above Beast Tamers. If they were Tier-4 Beast Tamers, he wouldn't have felt that much threatening aura.

He furrowed his eyebrows. He wanted to escape from this place. Because this place is part of the core area. He can't stay here.

At the same time, he can't fight against this Tier-5 or Tier-6 Beast Tamer. Jeremy doesn't know what to say.

Then he notices that the unknown beast egg is still consuming the natural energy from the surroundings.

After giving some thought, he decided to wait here. He then looks around. He is using eye ability to look for the perfect spot to hide.

The trees were so gigantic. He looks so small standing under the tree. He is looking for a mountain rock with cave-like openings.

The cave openings could harbor high tier corrupted beasts. But standing in the open is more threatening.

A powerful high tier or Colossal beast can easily find him. He marked the place and started entering the core area.

It's a bit of a risk. But he can clearly feel the pure natural energy in the surroundings. The unknown beast egg is using the opportunity.

As the time passes, he is slowly exploring the area. While marking the area as he walks forward. So far he hadn't come across Colossal Beast.

The 100ft tall mountain was the last seen. It didn't take long for him to find the small rocky mountain. It's over the size of 30ft.

But there is a small cave opening for him to get inside. Yet this small opening was not enough for the higher tier and Colossal beasts to enter.

Seeing that he took a deep breath and walked into the cave opening. He saw that the entrance was covered with weeds and overgrown vegetation.

Slash!

The next second, he takes out the blade to clear out the weeds. One by one he removed those green weeds. Then he walks into the cave. He saw the cave was dark.

Only a small amount of daylight is getting into the cave. So far he didn't feel any sense of crisis. He confidently walks into the place.

Crack!

Something cracks underneath his feet. He was stunned. The next second, he tries to discern what's going on.

He feels that the thing cracking under his feet was some kind of bone. When the thought occurs to him. He was shocked.

He is hoping that the cave was not a living place for the corrupted beasts. He is using his eye ability to see the details.

After going quite deep, he stopped his footsteps. He doesn't want to go further deep inside the cave. Because it's pitch black dark.

He leaned on the wall. Then he sat there on the ground crosslegged. He notices that the unknown beast egg continues to absorb the natural energy from the surroundings.

This cave structure is not far away from the cave tunnel. He can slowly explore the place later. If that Beast Tamer was not there later, then he might try to enter the cave tunnel again.

Now he was quite curious. He doesn't know which organisation is doing these dangerous actions. He doesn't think that City Governors are doing this.

It's already great for them to allow everyone to enter the wilderness. They wouldn't do something dangerous to attract the Colossal beast.

Even he was frozen on the spot upon seeing the 100ft tall mountain earlier. He hopes that no such corrupted beasts roaming nearby.

He is also thinking about the purpose of these people. What are they ? It's not an inner area but the core area of the wilderness.

The high tier corrupted Beasts here have intelligence. If they were angered they could attack the city next.

Jeremy started to feel a sense of urgency. He wanted to go back and inform the team leader and the Head of the organisation as soon as possible.

He thinks something suspicious is going on. He doesn't know which organisation is doing it.

Chapter 472: Part 1: Unknown Organisation

City A (10th Zone):

Time passed,

Inside the Shadow Moon Organisation, the Team Leader Gisela was in her office. She is thinking about giving missions to the three squads under her control.

The City Governors had given permission to everyone. The Beast Tamers can start their livelihood. They can enter the wilderness again.

So she has already thought of missions. She wanted 3 squads to do missions right away. She then texted all the 3 squad captains about the missions.

Meanwhile,

Captain Sinag received the message. Upon seeing that she decided to inform others. So she called for a small meeting outside the meeting.

A few minutes later,

Apart from Jeremy Night, everyone has gathered outside the building. They are discussing the mission. But Jeremy Night's absence was felt.

Unlike before, everyone knew about Jeremy Night's strength. With Tier-2 Strength, Jeremy Night can kill Tier-4 Beast Tamer.

Everyone turned towards Captain Sinag. Only she was close with Jeremy Night.

But Sinag turned towards Ada. Both of them received a message from Jeremy Night this morning that he is entering the wilderness to train.

Sinag said, "He is not here. He went to the wilderness for training. I think the leader knows this as well."

Fredric, Albert, George and Cedric heard it. They were shown mixed reactions. Jeremy Night was one tier lower than them.

Yet he has entered the wilderness for training. Florence, Amelia and Ruby heard it as well. They were too surprised. They would think twice before entering the wilderness alone.

"Let's talk about the mission. We have to collect bodies of Tier-3 Corrupted beasts for research. We should go to the inner area," Sinag said.

Then everyone started discussing the mission. They are planning to enter the wilderness the next morning.

Before that they have to make arrangements tonight. They have to fix their combat suits. After the meeting everyone left the place.

Wilderness (Core Area)

The night time comes. Jeremy Night stood up and went towards the exit. He walks out of the cave. The place is dark with little visibility.

He doesn't want to leave the cave structure at night. But he wanted to know whether the Beast Tamer had left the place or not. He then started looking around this place.

Boom!

He sees a purple color light fly over the sky. From his eye sight he saw that purple color light was not ordinary light.

"It's a flying type corrupted beast," he uttered. It's absolutely dangerous to move at night time.

But he doesn't have any other choice. He took a deep breath. Then he started going towards the cave tunnel under this low visibility.

By following my previously placed marks. I got near the cave tunnel. I came to the giant tree and stood behind it.

From there I turned towards the cave tunnel structure. I'm using eye ability to find the Beast Tamer.

To my surprise, the middle aged man was still there. It's just him sitting in that sunken land, near the entrance to the cave tunnel.

He has been waiting for the reinforcement to come.

His organisation members have been killed. He doesn't know who was responsible for this. If their organisation doesn't act swiftly, then they could be exposed.

On the other hand, Jeremy Night suddenly had an idea. He had never gone against the Tier-6 Beast Tamer in the duel.

Last time, he faced Tier-5 Beast Tamer. He had killed him after a great struggle. Now he has another opportunity to face a powerful beast tamer.

But this time it was a Tier-6 Beast Tamer. Jeremy decides to fight against him. He thinks that Tier-6 Beast Tamer won't dare to leave the cave tunnel opening.

The next second, he takes out the hand gun. He covered the bullets with the starlight energy. He raised his hand and pointed the hand gun at the target.

Just before he could release the trigger.

Boom!

The ground between the Tier-6 Beast Tamer and him exploded. The next second, the shock force struck him hard.

Swoosh!

Jeremy Night was forced to retreat. On the other hand, the Tier-6 Beast Tamer's body was sent back flying.

A huge 50ft tall snake tail smashes the ground once again.

Boom!

A deafening noise occurred. The shock force once again sweeps away the place. The dust and debris rose above the ground.

The huge boulders flew everywhere. The Tier-6 Beast Tamer was stunned. He raises his head and sees that Tier-7 Corrupted Snake attacked him just now.

He was shocked. He didn't see the Corrupted beast at all. It looks invisible in the darkness. Just as he was thinking, a huge snake tail struck his body again.

He felt a sense of crisis. Out of nowhere the snake tail struck him.

Boom!

His body flew backwards like a broken kite. By the time, the Tier-6 Beast Tamer suffered injuries.

Swoosh!

The next second, he started fleeing from the place. He can't face the Tier-7 Corrupted beasts. Unfortunately, he is randomly escaping in the darkness.

Whereas Tier-7 Black Snake is still located near the cave tunnel.

On the other hand, Jeremy Night is laying low on the ground. He didn't even move away from the spot. He fears that the beast would find him right away.

He didn't even know when the Tier-7 Black Snake had appeared.

Hiss!

Just as he was lying flat on the ground. He heard a hissing noise of the snake. He felt goosebumps all over his body.

A huge snake body goes past him. The Tier-7 Black Snake felt the presence of Tier-2 Existence. But for the Tier-7 Black Snake, the Tier-2 existence was nothing but a snack.

Swoosh!

The snake left the place in a flash. He sighed in relief. He doesn't want to stay here any longer.

A few minutes later,

Jeremy Night stood up. He then goes to the cave tunnel opening by following the clue. When he arrived there, he jumped inside the cave tunnel.

Then he started going towards the entrance. He wants to leave before their back up comes up.

Chapter 473: Part 2: Unknown Organisation

Wilderness (10th Zone):

One hour later,

Jeremy Night reached the end of the cave tunnel. What greeted him was the presence of four Tier-5 beast tamers.

The two middle aged men who came earlier were nowhere to be found. But these Tier-5 Beast Tamers were not much of a threat.

I drew the katana blade and immediately covered it with starlight power.

Swoosh!

I rushed forward to attack. Just as I got closer towards them. They got alerted. Only two of them retreated immediately.

I used the blade in one move. The blade went in a perfect arc before going through the flesh of the Tier - 5 Beast Tamer.

Puchak!

The blood splattered on the ground. I swung the sword at the 2nd Beast Tamer in a succession.

The blade went in a flash before cutting through the stomach of the 2nd Beast Tamer.

Puchak!

The red blood dyed the ground again. The two Beast Tamers' faces were written in horror. They couldn't believe someone attacked them.

Boom!

The next second, a 15ft long Red Centipede Corrupted Beast appeared on the ground. It was summoned by the 3rd Beast Tamer.

The first and second Beast Tamer laid on the ground. They have suffered serious injuries.

Boom!

The 15ft long Red Centipede opened its mouth. The next second, a black poison at the target.

Jeremy felt a sense of crisis. He stepped from the spot. The black poison like a light reached in a flash before striking the ground.

Zzzzz!

The black poison immediately corroded the plants and vegetation. The smoke began to rise from the ground.

The 3rd Beast Tamer was standing in the distance. Upon seeing that attacker was a Tier-2 Beast Tamer. He was shocked to the core.

Boom!

He summons a bloodthirsty mosquito which is his Lifeline beast. The mosquito was 5ft tall in height. It's main weapon is the stinger

Unlike other lifeline beasts, this beast needs an opportunity to strike.

The 3rd Beast Tamer was standing behind the Red Centipede. His talent ability was to do with the poison.

That's why he is making his lifeline beast to attack. At the same time, he knows his friend's lifeline beast was a mosquito.

Boom!

The Red Centipede rushes forward to attack again. Jeremy relies on his eyes' ability to predict the movement of the Centipede.

The Red Centipede is a Tier-5 Lifeline beast. It's moving faster than he had expected. If not for his eye ability, he would have been clueless.

The Red Centipede is destroying the ground by missing the target. Its movements were fast yet it missed the target at the last moment.

The Tier-5 beast tamer behind it was in shock. He couldn't believe his lifeline beast was missing the target.

The Tier-2 Beast Tamers are like ants. It shouldn't be a problem for his lifeline beast to crush it.

The 4th Beast Tamer was hiding behind the tree with his mosquito lifeline beast. He was dumbstruck.

He couldn't believe the scene in front of him. His friend's lifeline beast was struggling to kill the Tier-2 Beast Tamer.

Cut!

On the other hand, Jeremy swings his blade at the beast. He moved his body precisely away from the beast while aiming at the beast body.

Pfff!

The blade covered in starlight comes in contact with the beast skin.

Clang!

A metallic noise sounded the next moment. The blade opened the gap in the skin slightly. Only a small amount of blood shedded on the ground.

Swoosh!

Upon not much successful contact. He withdrew the blade before going backwards. At the same time, he understood that beast skin was naturally stronger.

His new starlight was able to create a wound. But if he wanted his attack to be successful. He can use blade one move.

But before that he needs to remove the pest. A cold glint flashes in his eyes. He shifted the blade to his left hand.

Then he grabs the hand gun with his right hand. He started to cover the bullets with the starlight energy.

His eyes set on the 4th Beast Tamer. His gaze locked into the Mosquito Lifeline beast. But he set his target on the Beast Tamer.

Bang!

The next second, he pulled the trigger. The starlight bullet goes in a flash. The Star light bullet reaches the Beast Tamer and goes through his eyes.

Puchak!

A torrent of blood gushes forth. His brain was crushed. The bullet struck in its skull. With the unwillingness the Beast Tamer died on the spot.

With that Lifeline Beast Mosquito lost life on the spot. This all happened within seconds.

"What?" The Third Beast Tamer uttered in disbelief.

He couldn't believe what he had seen. He immediately took Red Centipede back to his mental zone.

He knew once the lifeline beast was hurt. He could suffer injury as well. Right now, he wants to escape from the bizarre Tier-2 Beast Tamer.

Swoosh!

The next second, he starts fleeing. He didn't know whether the young man in front of him was hiding his strength or not.

On the other hand, Jeremy's eyes flashed with a gleam. He can't afford to let him escape. So he pulls the trigger at the fleeing Beast Tamer.

Bang! Bang!

The starlight bullet never missed the target. His aim has always been precise. Thanks to his eye ability.

Puchak!

Multiple starlight bullets struck the skull of Beast Tamer. After multiple strikes, the head burst like a watermelon.

The torrent of blood gushes forth like rain drops. The third beast tamer died like that. His body fell to the ground.

Jeremy then takes his eyes off them. He knew the first two Beast Tamers were still alive. But they were injured.

Swoosh!

In a flash, he appears in front of the second Beast Tamer who is lying on the ground. He puts a back hand gun in the case.

Then he holds the katana in his right hand and slashes at his neck. The blade cuts through the neck. The 2nd Beast Tamer was in shock.

Swoosh!

Similarly, he went to the first Beast Tamer and ended his life. Both of them for some reason didn't try to flee earlier.

But it ended their life in the end.

Chapter 474: Gisela's wish?

City A (10th Zone)

Jeremy Night escapes from the place and returns to the city early in the morning. He urgently needs to report about the cave tunnel structure.

But he is not going to tell them the truth. If they find out he was the one who killed the Tier-5 Beast Tamer. They won't believe it.

On top of it, he is not foolish to attract attention to himself. Right now, he is on the way towards the organisation.

About 20 minutes later,

The cab driver dropped him off at the main gate. He paid fare before going to the organization. His appearance has drawn attention.

Right now, he looks shabby covered with mud. The onlookers don't have any idea that he has returned from the core area after escaping from the Tier-7 Corrupted Beast.

To be honest, Jeremy knows that Tier-7 Snake never paid attention to him. If the beast had wanted then he would have died already.

He had no resistance against the Tier-6 Beast Tamer. Let alone the Tier-7 Snake.

He was glad that only Tier-5 Beast Tamers were guarding the entrance. He was able to successfully eliminate them.

After waking inside the building, he turned and started heading towards the Leader Gisela's office.

The 3rd Squad is getting ready for the mission. They are going to do it without Jeremy Night. Some of them were awake and started getting ready.

While others are still sleeping. Captain Sinag is going to wake them up. After witnessing Jeremy Night's strength a long time ago, she had stopped worrying about him.

Instead they had to improve their strength, they don't have talent like Jeremy Night to fight across the tiers. If they had such ability, they would have done better during the Beast Invasion.

A determined glint flashes in Sinag's eyes. After a very long time, she has felt the urge to improve. Not only her, she thinks it's the same with other members as well.

All of these changes started occurring when Jeremy Night joined their organisation and the squad. His performance during Beast Invasion had impacted everyone.

But Sinag herself underestimated the impact. Not only the 3rd Squad under Team Leader Gisela. The first and second squad members were feeling urgency.

They don't want their limelight to be taken. Especially by the newly joined 3rd squad member. The other Team Leaders are quite jealous of Gisela for recruiting prodigy into her squad.

They too started thinking about traveling to other zones to discover such prodigy. Not only would they gain fame, their organisation would be strengthened as well.

Meanwhile,

Jeremy Night appeared in front of the office. He knows that no one would be present at this time. It's early morning.

Those who had done night missions started coming back. He then takes out the device and texts to Leader Gisela.

He specifically noted that it was an emergency.

On the other hand, Gisela who was in her room woke up to the notification sound. She gets up and reads text. Her facial expression changes.

She knew Jeremy Night wouldn't be joking. If he says something serious, then it must be a serious problem that needs to be addressed immediately.

She then started getting ready. But she didn't take a bath. She wants to know the details first. After just wearing a uniform, she immediately rushed to her office.

It didn't take long for her to come. She needs Jeremy Night in front of her office.

"What is it?" She asked.

Hearing that Jeremy looks around the place. There is no one else in the corridor. Yet he is hesitating. He fears walls have ears.

He doesn't know the talents of others. If someone could listen to their words then it might cause unwanted problems.

Gisela saw through his thoughts. Her mouth twitches.

"Get inside," She uttered.

She opened the door and went to her seat to sit.

Jeremy Night walks in and sits on the chair opposite her. The door behind them was shut.

"No one can eavesdrop here. Tell me what's the matter," Gisela said in a serious tone.

Jeremy takes a deep breath. He looks into her eyes.

"I went to the wilderness for training. After practising at the outer area for some time, I entered the inner area."

"As I was honing myself in the inner area, I came across a suspicious place, I saw corpses of Beast Tamers lying on the ground in front of the man made tunnel."

"The man made the tunnel look suspicious. I went inside to explore. At the end of the tunnel, I found a small opening leading to the surface."

"The natural energy coming from the surface is extremely pure. I had never felt such rich natural energy before"

"That's why I came back running to report," Jeremy said to her. .

Gisela's heart was stirred. She was calm on the surface. But not her heart. Their City A had experienced a Beast invasion.

She doesn't know which organisation is stirring up trouble right now. When it comes to credibility. She believes Jeremy Night.

Because there is no reason for him to lie. She suspected that the place could be a newly formed Field Area.

Jeremy Night saw that she was taking her time.

"Leader, what happened?" Jeremy asked.

"I suspect it could be a field area," Gisela uttered.

Hearing that Jeremy Night was taken back. He didn't expect her to give such a reply. He knew what the field area was. It was the treasure land.

He went to the Field Area of the Reed Family. But it was not the truth. He decides not to talk about the core area.

He thinks it's better for them to discover first.

"Alright, show me the place. After memorizing the route, I'll go with others to explore," Gisela said with a smile.

Her mood was lifted. She thinks this field area is extremely important to their organisation. Once they could get their hands on the Field Area.

The members can increase their strength. They could get advantage over other organisations in getting missions from the City Administration.

Shortly afterwards,

Both of them left the organisation. She is using flight ability to move in the mid air. Her right hand is holding Jeremy Night's shoulder.

Chapter 475: Hidden Scheme?

Wilderness (10th Zone):

Team Leader Gisela brought Jeremy to the inner area. After following the routes shown by him. They have reached the spot.

Gisela's eyes were filled with disbelief. She had thought it's some kind of naturally formed Field Area. To her surprise, this was not the Field Area.

The area is the border area and it's next to the core area. Looking at the cave tunnel. She understood that someone had dug it towards the core area.

Her expression was serious. She understood that someone with schemes is acting behind the scenes. It could put their entire City A in danger.

The last thing everyone wanted was someone to anger the Colossal Beasts living in the core area.

"I'm afraid City A is not a suitable place to live for the long term," she thought.

But she is not saying it openly. She then looked at Jeremy and said, "Let's go back."

Jeremy nodded to her. He thinks she has understood the truth right now.

On their way back, they didn't encounter any trouble. In fact, the unknown organisation immediately erased their traces.

Since their first group has died. They had been sent back up. One of the Tier-6 Beast Tamer stayed behind. Two of them returned.

Yet the Tier-5 Beast Tamers guarding the cave entrance were killed. They were yet to retrieve the corpses. Only from the corpses, they can discern the killer's identity.

About 20 minutes later,

Gilsela returned with Jeremy Night. She recalled the missions given to the squads. She immediately called them and cancelled their missions.

All the Squad Captains are surprised. She didn't want them to enter the wilderness at this time. They were confused. For them the wilderness is absolutely safe right now.

But only Gisela and Jeremy know that human danger is there. People who could do such things were clearly not afraid of the City Governors' wrath.

Jeremy parted ways after entering the building. He goes towards his room. He found his own shortcomings. If not for his hand gun skills, he would have been troubled against the group attacks.

If it were other Tier-2 Beast Tamers, they would have become a snack for the Tier-5 Red Centipede. After entering the room, he locked the door and entered the training room for the practice.

Meanwhile,

Gisela went to meet the Head of the organisation. He was in his office room. She meets him in the office and briefs him about the cave tunnel.

Head Neil Moon was calm and composed at first. But when he heard someone had dug a tunnel to the core area. He lost his cool.

"Who dares to do it?" He said with anger.

It's already a miracle for them to escape from the anger of the Colossal Beast. Now someone is doing these dangerous things.

"If we anger the Colossal Beast again, I don't think the Lords from the Human Alliance would look at us," Neil said in a solemn tone.

"If what you are saying is true then it's not good to enter the wilderness before solving this problem," he added.

Gisela nodded her head.

He then calls the elders and team leaders. In a few minutes, everyone assembled in the room. Upon seeing they were all surprised.

"Gisela has found out that someone dug a cave tunnel to the core area. It happened recently," he said.

Gasp!

A small exclamation occurs. Their city won't withstand the attacks from the Colossal Beast.

"It's true. So I want everyone to cancel the missions given to the members and call back everyone immediately," He said to them.

The Team Leaders are in shock. They looked towards Gisela in disbelief. They wonder how she was able to find out this threat.

Gisela noticed everyone's gazes. She sighed inwardly. It was discovered by Jeremy Night. But she understood that Head doesn't want any attention on Jeremy Night.

Not long ago, Jeremy Night survived assassination from the professional killer. It's understandable that Head doesn't want such mishap to happen again.

A few minutes later,

The meeting ended. Everyone exited the office room. Head Neil Moon immediately informs City Governor Marcos who didn't believe it first.

But he can't ignore the smallest of possible. So he, Head Neil Moon and Gisela went to the wilderness again.

It didn't take long for them to reach the spot. This time the combat power of everyone was strong. They are Tier-8 Beast Tamers and Gisela is Tier-7 Beast Tamer.

With the help of their lifeline beasts they can survive the entrance of the core. They saw the corpses on the ground as well.

They are wearing basic Mercenary uniforms. It's difficult to judge their identity from their clothes. Right now, their urgent task is to explore the cave tunnel.

Three of them have started walking inside the tunnel. Soon, they reached the tunnel and found the opening to the core area.

Gisela was surprised. The natural energy was indeed . In fact she had experience of exploring the inner area.

But she never went deeper to explore. Because she knows that Colossal Beasts live there. Beyond the core area was the unexplored area which was more dangerous.

Marcos is getting angry. Because she has confirmed the truth. Someone or some organisation is messing with their territory.

"Who could be?" Jeremy thought.

Neil Moon sighed. He could see doubts appearing on City Governor Marcos' face.

He said, "Individuals or organizations belonging to the other 9 top zones could be responsible. No one has the guts to go against the Human Alliance."

"If someone still did this then they have someone to rely on to face the Human Alliance," He added.

"You are right. We had already received help from the 2 Lords. Yet someone doesn't want us to live peacefully," Marcos said.

Then they open the top ceiling before jumping up high. The next second, they landed on the sunken land. The pure rich natural energy enters their body.

The environment here is better than here. The natural energy is pure and rich. Three of them have started observing the place.

Three of them can feel the presence of the powerful corrupted beasts here. More importantly, Marcos and Neil Moon can feel the presence of the Colossal Beasts.

Chapter 476: Part 1: Normal days

Wilderness (10th Zone):

"Let's go back. It's not safe here. I could feel the presence of the Colossal Beast. If they notice us, it could lead to unwanted problems," Marcos commented.

Head Neil Moon nodded to him. He is too feeling the powerful aura nearby. It's better for them to leave the place ASAP.

"Gisela, let's go back," he said.

The next second, three of them entered the tunnel and started coming back. It didn't take long for them to leave the tunnel.

Swoosh!

After appearing outside, Marcos frowned. He is looking at the cave tunnel.

"If I use my Lifeline beasts to destroy the tunnel, then the lifeline beast aura could attract the Colossal Beasts. I can't afford to take the smallest risk at this moment," Marcos thought.

Neil Moon saw through his thoughts as well. He sighed inwardly. The City Governor is facing a lot of problems lately.

He couldn't imagine someone else in his position. They would have given up the position facing these problems.

"Gisela, you guard the entrance here. I'll send Beast Tamers with earth elemental talents. They will destroy the tunnel without alerting the Colossal Beasts," Marcos said.

"Most importantly, I don't think that the culprits responsible for this would come back. They might have been alerted already," he added.

"City Governor, I think we should deploy a special team to monitor the wilderness. So that no one can take advantage of the situation," Neil Moon suggested.

"Head Neil, you are right. I will look into this," Marcos said.

Then both of them left the place, leaving behind Gisela to guard the entrance. Gisela was worried. She didn't know which organisation was behind it.

She doesn't want their Shadow Moon Organisation to be caught in the middle. There are terrifying forces in the top 5 Zones.

They have Tier-9 Beast Tamers under their ranks. So much so that they have special teams to investigate and explore the unexplored region.

Hereby, capturing more territory for the human populace. So they have more say in the Human Alliance.

Their Shadow Moon Organisation was not that strong. They don't explore the core area. Let alone the unexplored region.

After calming her heart, she began to focus on her work.

Time passed,

City Governor Marcos returns to his office. Head Neil Moon returned to his organisation. He was clear with his order.

He doesn't want his members to enter the wilderness now. This move has shocked the members. But none of them questioned his decision.

Captain Sinag and Ada were confused. They went to her leader's office. But she was not there. They don't know what to do.

Everyone was barred from entering the wilderness. Then having no choice, they returned to their rooms.

...

Training Room:

Jeremy Night is busy in the practice. Normally, he should be hunting down Tier-2 and Tier-3 for his actual strength.

But he is feeling competitive against Tier-5 and Tier-6 Corrupted Beast. If others knew about his inner thoughts, they would definitely die from anger.

He doesn't know why? He has started worrying about the fact that such dangerous Colossal Beasts are living near the city.

Or should he say the Human Alliance has built the city near the Colossal Beasts living area. What's the purpose? Now he has time to think it through.

He believes that the main goal of any Beast Taming Organisation was to expand the territory of the Human Cities.

It starts by expanding the human zones. Either the expansion starts from the Human Alliance taking actions or the big powerful Beast Taming Organisation does that.

Jeremy Night thinks that sooner or later. He will explore the unexplored region. Not all the unexplored regions have Colossal Beasts.

Some could be habitable places. Such places are needed for human cities to be built. That's why he wants to become stronger as soon as possible.

Meanwhile,

The illegal organisations have resumed their dirty works. They didn't know what happened at the City A. But it has worked out well for them.

So they didn't think of finding out the mastermind behind the disappearance of their members.

The illegal Organisation was clear that their missing members might have been killed. But they don't want to waste time on finding the mastermind.

They had already fallen behind the deadline. Right now, they are focused on their work.

Days passed,

The organisation responsible for the cave tunnel didn't react or respond. Because of it, the City Governor Marcos has failed to find the culprit.

Gisela had long since returned to the organisation.

The cave tunnel was destroyed by the special team sent by the City Governor Marcos. This matter was settled down in a few days.

Yet the City Governor Marcos hadn't made a decision to stop the Beast Tamers from going out. He wanted to lure out the culprits hidden behind the cave tunnel incident.

But none of them came outside so far. He was frustrated. The other 2 City Governors were waiting for Marcos to make a decision.

Marcos had briefed them about the cave tunnel later. City Governor Enzo and Leonor were both shocked. They immediately thought of the top 5 zones.

No one has the guts to go against the City Governors. But this unknown organisation did it. So they too didn't want to dig too much information about it.

This matter was settled down just like that.

Meanwhile,

The Head of the Sun Wheel Organisation Frank Doolin was staying in his friend's organisation. He is also following the news of the 10th Zone.

His actions were exposed. His two men were arrested and locked up in the cell. His organisation is working like a headless Organisation.

He doesn't know what to do. If he goes back he is sure that City Governor Marcos won't let him off.

He has to get support from someone from the City Alliance. Right now, his friend knows someone in the Human Alliance.

If he gets the support of that Lord, he is sure of getting back to the 10th Zone without any problem.

His eyes flashes with determination. When he gets back, he would definitely eliminate his enemies.

Chapter 477: Part 2: Normal days

City A (10th Zone):

A few days later,

The Shadow Moon Organisation allowed everyone to enter the wilderness again. Head Neil got confirmation from the City Governor Marcos.

There was no response from the unknown organisation. It was clear that they called off their shady mission in the wilderness.

City Governor Marcos has deployed a new special team to monitor the border area. Their job is to arrest anyone going to the core area.

He is also officially out with a statement saying that Beast Tamers weren't allowed to enter the core area. As long as they could explore the inner area and outer area, it's fine.

The atmosphere inside the Shadow Moon Organisation has returned to normal as well. So much so now the attention was shifted towards Jeremy Night.

Everyone was wondering what the talented Young Beast Tamer was up to these days. But they didn't know that Jeremy Night is tirelessly working on improving his blade skills.

Since his lifeline beast in the egg form. He doesn't know when it will hatch. So he has to work on himself to grow.

While he was busy training inside. His squad members have already done two missions. On the other hand, he has yet to join them for the mission.

They were confused. But Leader Gisela decided it's up to Jeremy Night to accept the task. Because she knew that it was because of Jeremy Night, they were able to avert a big danger.

The exposure of the cave tunnel deterred the people behind the scenes. Before the cave tunnel could attract people. It was destroyed.

So the public wasn't aware of such an incident. The public were shielded from the killing plans of the major organization as well.

If these things were made public, it could have led to riots. Right now, these things are hidden. The three City Governors were being careful. They don't want similar things to happen again.

Meanwhile,

Head Neil Moon is not quiet either. He is investigating the Head of the Sun Wheel Organisation. His rival Frank Doolin.

He was sure that Head Frank was seeking refuge in a big Organisation. Through his connection he found out the organisation name and their power.

This discovery made him silent. The Human Alliance is the place of personal interest. So there are a lot of good and bad apples inside the Human Alliance.

When he learned that old rival was able to get in touch with one of the bad apples. The warning bells started ringing in his mind.

It's not like he doesn't have anyone known. But why do they help you? Frank Doolin must have offered huge resources.

The Tier-9 Beast Tamers needed the most was the resources. Even if they don't need resources, they can give it to their families.

Since his old rival has prepared this much. He didn't want to save himself. Head Frank might be thinking about coming back.

Once his complaints were cleared. He could return to the 10th Zone. When it happens, then their Shadow Moon Organisation could face a huge threat.

Head Neil Moon is thinking about the alliance. Where the Tier-9 Beast Tamer was in charge of the organisation. But he was not in a hurry.

All of this was his speculation. Who knows? If Head Frank decides not to come back. Then it's also best for them.

Shaking his head, he started working on the other matters.

Time passed,

When the evening time comes. Jeremy Night exited his room and came down to the lobby for a walk. He saw that members were going about their business.

He exited the building and came to the concrete path for walking. To his surprise, Captain Sinag and Ada were there.

"What are you guys doing here?" Jeremy asked.

"I knew it. You would come down in the evening for a walk," Ada said.

"We were waiting for you," Sinag said.

Hearing that Jeremy was confused. He looked at them and thought it could be about the mission.

Then he asked, "Is there any important matter?"

Captain Sinag smiled and said, "Yes, it's an important matter. Why are you not joining us for a team mission?"

"We know that you could kill Tier-4 Corrupted Beasts. Our missions might not be useful to me. But still if you do one or two missions. It will be helpful for team bonding," She added.

"If you join us we could take on difficult missions. The reward points will be higher as well," Ada said from the side. .

Hearing that Jeremy doesn't know what to say. Their complaints were genuine. His participation could improve team bonding. .

But he is focused on improving his strength. Then he gave thought before saying, "I'm training right now. Once I reach the limit. Then I will consider your words."

Sinag and Ada looked at each other. They could tell that Jeremy Night was not lying. He was indeed training hard.

Everyone had witnessed his Combat strength before. So there was no point for him to lie.

"Alright, tell us. When are you ready?" After saying that Sinag left with Ada.

Jeremy waited for them to leave. Then he turns around and sees the cab driver. He decided to roam around the city. It will improve his mood.

He walked up to the driver and spoke to him. The driver agreed. He then entered the cab and sat in the back seat.

Shortly afterwards,

The cab left the place. It started entering the main area of the city. The city was filled with bustling streets. People have long since returned to their normal lives.

Only he knows what happened in the core area. If they knew someone dug a tunnel to the core area. The people would have fled the city.

He then recovered his thoughts and started enjoying the passing scenes. He told the driver to drop him off at the coffee shop.

The driver then reached one of the famous shops and landed the cab in front of it. Jeremy stepped out and thanked the driver before going to the shop.

The cab driver is one of the staff. There is no need for him to pay. He then casually walks into the coffee shop and finds an empty table and chair to sit.

Chapter 478: Small lesson

City A (10th Zone):

Jeremy is enjoying the coffee with the bustling view of the city. The locals are going about their business. The shops on both sides of the streets were open.

They are now busy with taking care of the customers coming to their shops. Just as he was watching, he started to miss his home city.

Though the City C was small with a small population. He can go anywhere with his guards. To be honest, he knew all the nooks and corners of the old city.

Including the places forbidden to enter. After joining the Central University in the City A, too many things had happened. Before he could completely graduate over there. He had come here.

All of this because of the Lord Martha. If she hadn't given her friend's treasure, he would be spending the rest of his life in the 14th Zone.

Now, he knew that his lifeline beast was not ordinary. He can dream of becoming Tier-9 Beast Tamer.

"Look, who do we got here?"

A sinister voice disturbed his running thoughts.

Jeremy turned his head towards the source of voice. He sees Beast Tamers in red uniform. When his gaze fell on their organisation badge.

"Sun Wheel Organisation?"

His eyes flashed with a surprise. How could he forget these people? Not long ago, their organisation sent a professional killer after him.

There are 3 middle aged men in Sun Wheel Organisation Uniform. They are beating down the Beast Tamer from a medium sized Organisation.

The customers in the shop exchanged looks. They knew about the notorious Sun Wheel Organisation. Those with some background knew that Sun Wheel Organisation is going through turmoil.

So these Beast Tamers silently left the spot. If they stay here, the disaster might fall on them. In a flash, all the crowds were gone.

Only Jeremy Night was staying behind. He has yet to finish his coffee cup. These idiots had ruined his mood.

Now he has no plan on sitting here. He placed the half empty cup on the table. He then stood up to leave.

"He looks miserable right now. He shouldn't have bad mouthed behind us," One of the middle aged men said.

They are Tier-4 Beast Tamer. The person who was lying down was Tier-4 Beast Tamer as well. But he didn't dare to bring out his lifeline beast to fight.

Jeremy Night sighs inwardly. He doesn't know what's going on in that direction. He doesn't want to attract attention towards him right now.

But things won't always go as planned. Just as he was about to walk past them. One of the middle aged men noticed him.

"Hey, you stop!"

He shouted the next second.

Hearing that the other two middle aged men turned towards him.

Gasp!

People watching from outside were terrified. They were worried that three mad men were going to hurt someone next.

Jeremy Night's heart turned cold. He knew it's against the rule to fight inside the city. But he can use brute force instead of the ability.

He then turned around and faced the three middle aged men. The three middle aged men who were almost equal in size and physique were shocked.

Because they recognised the person. He is none other than Jeremy Night. The young man who has joined the Shadow Moon Organisation recently.

Everyone got orders to target Jeremy Night back then. Because of the Beast Invasions and other things. Everyone forgot about it.

These three didn't know about the recent professional killer's action Jeremy Night.

The three middle aged men looked at each other's faces. Whenever they find the enemy Organisation's Beast Tamers alone.

They would teach that person a lesson. It happens everywhere on both sides. But this time Jeremy Night has come here alone.

More importantly, he is a Tier-2 Beast Tamer. He is more of an easy target than others.

The three middle aged men exchanged looks again. They have decided to attack.

"You are just Tier-2 Beast Tamer. You can't fight against us," After saying that one of them stepped forward to punch.

The other two had wide grins on their faces. They have started imagining Jeremy Night's face getting smashed.

The Tier-4 Beast Tamer who got beaten miserably fainted earlier.

The public who were watching from outside were terrified.

Jeremy Night uses his eye ability. His eyes immediately started to see the trajectory. The movements of the punch become slow under his eyes.

Swoosh!

Just as the punch was about to hit his face. He sidestepped to avoid the punch. The middle aged man's punch struck the empty air.

The other 2 middle aged men were taken aback.

They didn't expect the Tier-2 Beast Tamer to dodge.

The middle aged man felt embarrassed. He continues to land punches one after another. But Jeremy Night effortlessly dodged the attacks one after another.

Boom!

All the punches struck the empty air. The middle aged men missed all of his attacks. He couldn't believe his own eyes.

He is a Tier-4 Beast Tamer. His strength is stronger than the Tier-2 Beast Tamer. His punches were supposed to hit the target.

The other two middle aged men were dumbfounded. They went forward to attack.

Jeremy Night saw their actions. His eyes turned cold. He immediately rushed out of the shop. The three middle aged men continued to chase from behind.

The crowd were stunned. They immediately left the path for them to leave. From the middle aged man's words earlier.

A few people recognised that young man. Before the Beast Invasion the name "Jeremy Night" was the talking point.

They realised that the young man belonged to the Shadow Moon Organisation. Among the crowd, there are people whose families are related to both the organizations.

So they quickly shared the news to forces behind them.

On the other hand, Jeremy Night leads three of them to the narrow alley. The public didn't follow them out of fear.

Jeremy Night's eyes turned cold. He unsheathed his blade. The three of them are yet to use their talent. He wants to strike before them.

Just as the three middle aged men got closer to Jeremy Night. They started using this fist again.

Puchak!

Jeremy swings his blade at them. Three of them saw a blade flashes before their eyes. The blade made a small cut in each of their bodies.

The blood splattered on the ground. The three middle aged men kneeled down with a face written with shock and horror.

Chapter 479: Head Frank's plan right now

City A (10th Zone):

Narrow Alley,

The three middle aged men were down and injured. There was no one nearby to help them. They could only helplessly watch the young man leave.

Their eyes were fuming with anger. They didn't expect the young man to know blade skills. As far they know the young man has body combat talent.

That's why they were using their fists against him.

On the other hand, Jeremy Night left the alley. He then walks around a few more streets to join the main road.

He may fight across tiers. But it doesn't mean his physique is stronger. His physique at the Tier-2 Stage. It's just the starlight power that gives him the ability to hurt people across tiers.

What more? He didn't use his ability against them at all. He simply used blade slash to cut their skin. It has temporarily hindered their mobility.

With proper treatment, they will recover in a few hours. Jeremy Night then finds a cab. He didn't want to waste more time.

Shortly afterwards,

The cab started moving towards the Shadow Moon Organisation.

About 20 minutes later,

The cab driver dropped him in front of the organisation building. He then paid the fare before walking into the building.

Right then he came across his squad members and people from the 2nd squad.

"Jeremy Night, are you alright?" Sinag asked.

Hearing that Jeremy was stunned. He expected the news to spread. But he didn't expect everyone to get ready to help.

"I'm fine," he replied in a calm tone.

His calm demeanor stunned others. They were expecting to see him hurt. Then they realised something.

Jeremy Night can kill Tier-4 Beast Tamers. So the Sun Wheel Organisation's Beast Tamers weren't much of a threat.

But they were confused. How did he escape without a fight?

Jeremy saw through their doubts. He smiled and said, "I slightly harmed them before coming here. They won't be able to move their body for a few hours."

Gasp!

The squad members exclaimed. They didn't know what happened there. After hearing Jeremy Night's words they were stunned.

Jeremy Night saw their expression. He didn't want to stay here. He thanked them before going towards his room.

"Find out what happened?" The Squad Captain of the 2nd Squad said.

The next second, everyone dispersed. Including the 3rd Squad Captain Sinag and others. They fear retaliation from the Sun Wheel Organisation.

They couldn't believe that a young man who is a Tier-2 Beast Tamer went against the Sun Wheel Organisation Members.

A few minutes later,

Jeremy Night entered his room. He doesn't care about the incident. If he hadn't used the blade, then he would have gotten beaten like the fellow from the medium sized organization.

Outside,

It didn't take long for the 2nd Squad Captain to find out the truth. He sighed in relief then. Apart from the skin injuries, the three Tier-4 Beast Tamers didn't suffer much.

The next second, he became happy that someone from their team had taught a lesson to the Sun Wheel Organisation members.

Though they are a different squad. They all belong to the 10th Team under Team Leader Gisela.

Meanwhile,

Head Neil Moon and Team Leader Gisela give importance to the news related to Jeremy Night.

After learning of the incident, they were surprised by the fact that Jeremy Night actually went outside.

They knew about Jeremy Night's combat strength. But considering Jeremy Night's young age, they had to be careful of traps.

Only they knew that Head Frank Doolin of the Sun Wheel Organisation had escaped. The Sun Wheel Organisation is now functioning without a leader.

They don't care about the retaliation from the Sun Wheel Organisation for the time period.

Head Frank was not thinking about revenge as well. He has been keeping tabs on Frank Doolin.

If Head Frank Doolin gets help from someone from the Human Alliance. Then he has his cards prepared as well. He hopes that it won't happen.

City D (5th Zone):

Frank Doolin was staying in his friend's place. He is staying in the City D. But it's many times bigger than City A of the 10th Zone.

It's home to many organisations and businesses. Families of Human Alliance's Lords are from the top 5 Zones.

A few of them are from the City D. He is going to seek help from one such person. Through his friend.

Frank Doolin knew that there was no free lunch in the world. He might have to forget about the autonomy of the Sun Wheel Organisation.

If negotiation fails he might have to go back to the 10th Zone. He is not going to accept any deal that makes him subservient.

In the worst case, he will be punished by the Human Alliance Committee. They won't kill him. But they would assign him to an exploration team to expand the human Territory.

The death rate is quite high. Without combat strength and talent, it's impossible to survive in that place.

In his old days he wanted to live in peace. But it depends on the negotiation. His friend is not at home right now.

If he comes back then he will visit the Lord's home here.

City A (14th Zone)

May Lindsey is also preparing to enter the top 10 zones. As a S-Grade Talent, she will be placed in a top Organisation.

But she wanted to make progress in a safe place. She knows that Jeremy Night lives in the 10th Zone.

Recently, a Beast Invasion occurred there. Her family is thinking about sending her to a safe place. It could be any one of the zones in the top 10.

But they are not going to send her to the 10th Zone. Because of the Beast Invasion, people in other Zones knew more about the 10th Zone among the other Human Zones inside the Top 10.

It was not a hidden fact anymore that the Human Alliance had sent a Lord level powerhouse to help and protect the city.

Because of it they were able to stop the Beast Invasion. So the young Beast Tamers with A Grade Talent want to join better human zones to grow safely.

Chapter 480: Part 1: Wild Ox Mission

City A (10th Zone):

The following day,

Jeremy Night exited his room. Then he came to the lobby. He plans on doing the Beast Taming Association's mission. There he could find a suitable mission for him.

Before that he needed to check whether Combat armour was ready. During the Beast Invasion his combat armour was damaged heavily.

He has been entering the wilderness without combat armor. When he enters the inventory room. He met with the staff and asked about the combat armour.

The middle aged staff smiled. He had already rebuilt the combat suit for Jeremy Night. Jeremy Night can use new combat armour.

Jeremy Night was happy. He then asked about the hand gun bullets. He needs a new load of ammunition as well. The middle aged staff brought the stuff and gave it to him.

Jeremy was happy that he got all the stuff. He then collected them before leaving the place. He then walks out of the building.

After coming to the footpath, he texted a message to the Leader Gisela and Captain Sinag. If he meets with Leader Gisela, then she won't allow him to leave.

He beat down the Sun Wheel Organisation's people yesterday. He doesn't know whether they are planning anything or not.

After texting them he approached the cab driver and told him to drop him at the Beast Taming Association. He then entered the car and sat in the back seat.

Swoosh!

The cab driver started to drive the car. The car rose above the ground. Then it appeared in the mid air. It started moving in the air towards the destination.

Jeremy Night had the combat armour suit inside the storage ring. He plans to wear it after going inside the wilderness.

About 20 minutes later,

The cab driver dropped him off at the Beast Taming Association. Jeremy stepped out and paid the fare. He then started walking stairs to reach the building.

Last time, he came to complete the mission for the Reed Family. Now he is here again. He truly wants to do a mission which offers good rewards.

He reached the building and opened the door to walk inside. He came to the mission hall. He sees that there are many people standing in the queue.

He stood behind one with the fewest people in line. While standing he checks out the strength of the Beast Tamers.

He sees multiple auras. Most of them are between the Tier-3 to Tier-4 Beast Tamers. He spotted a few people with above Tier-4 strength.

He then takes off his gaze and starts paying attention to the line.

At this time, a group of men entered the mission hall. They are wearing red uniforms with a sun emblem. They are men from the Sun Wheel Organisation.

They came for the mission and stood behind one of the lines. The Beast Tamers were chatting and laughing. Then their gaze fell on the Beast Tamers standing in line.

They have a habit of plundering weak teams. For that they have to find their target. The mission area is the best place for them.

As they were checking out the people one by one. One person noticed the young man. His face seemed familiar to him.

He immediately asked the team member next to him.

Hearing that member turned towards the young man as well. But his face changed the next second. He recognised the young man.

Because there was commotion among the group of friends yesterday. A young Tier-2 Beast Tamer from the Shadow Moon Organisation had harmed their members yesterday.

They didn't believe it at first. But it turned out to be true. Since then they have decided to beat the young man.

Now their middle aged man whispers to his friend. He immediately told the other three friends. Five of them looked at the young man.

They were all discussing the young man yesterday. He was lucky not to be killed during the Beast Invasion.

But they didn't expect a young man to appear here. Seeing that he is standing behind the line. They understood that the young man was here to take the mission.

Their eyes turned cold. They were looking for the targets. At this moment, they have decided to target the young man.

Though they are not going to get much after killing the Tier-2 Beast Tamer. But their elders might appreciate them for taking someone out from the enemy list.

Unlike their friends yesterday, they are not going to underestimate the young man. They learnt that young men could use both body and blade skills.

On the other hand, Jeremy Night was unaware of the crisis. He is patiently waiting behind the lines. Soon, his turn came. He told the staff about the solo mission.

The middle-aged male staff was surprised upon seeing the Tier-2 strength. He thought the young man was here for the outer area wilderness mission.

So he started showing the outer area missions to the young man on the screen. Jeremy Night frowned. He found out that there are only outer area missions.

But he wants to fight against the Tier-5 Corrupted Beasts to improve his strength. He then turned towards the staff and told him that he needed an inner area mission.

The male staff was dumbfounded. He thought it was some kind of joke. Then Jeremy Night showed his Shadow Moon Organisation badge.

Upon seeing that middle aged man fell silent. Then he started showing the inner area missions. Jeremy then started browsing the mission.

Last time, while training he unintentionally went to the core area. He doesn't want the dangerous things to happen again.

So he is checking out the location as well. Soon, he saw a good mission. It needed blood and bones of a particular beast.

It's a Tier-4 Wild Ox. But it has strength to go against the Tier-5 Corrupted Beasts.

Because it has thick skin and strong bones. Even some Tier-5 Corrupted Beasts avoid the wild ox. Jeremy thinks that this mission is suitable for him.

The wild ox doesn't live near the core area. It stays far away from that place. Otherwise, it could become food for some core area beasts.
