

## **STRIKER 481**

Chapter 481: Part 2: Wild Ox Mission

City A (10th Zone):

Jeremy then applied for the mission. After filling the information he showed it to the staff for approval. The staff was dumbfounded again.

He doesn't know how Tier-2 Beast Tamer can take down the Tier-4 Wild Ox. Even with deadly poison, it's difficult to return unharmed.

But he recalls the Shadow Moon Organisation badge. He can't afford to offend them. So he gave approval for the mission.

Then he asked the young man's licence to update the mission details. After doing that he gave the licence back to the young man.

Jeremy then thanked him before leaving. He started going downstairs. On the other hand, the Sun Wheel Organisation Beast Tamers looked at each other.

One of them decided to tail Jeremy Night. Otherwise, they will lose his tracks. Jeremy came to the main road.

He then finds another cab driver and asks him to drop him off at the wilderness entrance. He then entered and sat in the back seat.

Swoosh!

The driver started driving. The car rose above the ground. It started moving in the mid air.

The Sun Wheel Organisation Beast Tamer is following the cab from another cab. He then informs his team members. They are waiting in line.

Once they are done with the mission selection. They will go after the kid.

About 10 minutes later,

The flying cab leaves the city and reaches the landing point in the outer area. Then the cab slowly landed on the ground.

Jeremy then stepped out of the car and paid the fare to the driver. He sees that there are many teams coming and going out for the wilderness.

He didn't pay attention to the cabs that were coming. He then started walking into the wilderness. Since it's an outer area, he is using the main route to walk.

Once he reaches the inner area. Then he will look for the wild ox. At the same time, he is looking for a good place to wear the combat armour.

He has confidence in his own strength. But he wants to be careful against the Tier-4 Wild Ox. Anything could happen. He hadn't faced the Wild Ox before.

Just as he is walking on the road. His Tier-2 strength attracted the attention of others. The Beast Tamer's Teams who were coming out of the wilderness were looking at him strangely.

At the same time, the Beast Tamer Teams going for the mission were confused as well. They don't know why someone alone with Tier-2 Strength would go to the wilderness.

Everyone had thought that the young man might be going to the area for the mission. But if they learned his mission, then they would be shocked.

On the other hand, not far away from behind. A middle aged man in a red uniform and Sun Wheel Organisation emblem is following the young man.

Seeing that young man walking casually. His mouth twitches. He thinks that the young man was not aware of the coming danger.

Otherwise, he won't have such carefree time.

He thinks the young man will flee for his life soon. The middle aged man is reporting back to the members. They have accepted the inner hall mission.

But they have selected one with a longer time limit. Because they are going to spend some time dealing with the young man.

After eliminating the young man, they wanted to start the mission immediately.

Time passed,

The number of people traveling on the road has decreased. The Beast Tamers have separated from the path to complete their mission.

The road now leads straight to the inner area. Those who got the inner area missions were walking on the road.

But their numbers were low. Right now, there are only a few teams. They are walking a distance away from each other.

The plundering and kill were common here. So the fight could break out at any moment. But in contrast to them. There were 2 people who were walking alone.

The young man who was walking ahead was Tier-2 Beast Tamer. The middle aged man who is coming behind them was Tier-4 Beast Tamer.

From the emblem of the middle aged man's uniform, they confirmed his identity. They don't dare to offend the Sun Wheel Organisation.

The people deliberately started walking slowly. Some of the teams entered the wilderness on the right side.

Swoosh!

Not long after the path becomes clear. Only two people were walking on the road. Jeremy Night noticed this strangeness.

He turns around and sees that only one person was walking in the middle of the road. There were no other teams.

Just as he was about to resume his walk. His eyes flashes with a glint. The person's red uniform and emblem flashes before his eyes.

"Was this a coincidence?" He asked himself.

He was expecting something to happen when he was leaving the room. But he didn't expect to come across one.

Out of curiosity, Jeremy turned around and looked at him.

The middle aged man knew he was exposed. It would be foolish to think that kid was not suspecting them.

Especially after yesterday's incident. He came across the same Organisation member.

Boom!

The next second, the middle aged man brings out his lifeline beast outside.

A green snake with blue eyes appears behind him. The snake beast is big with the sparking blue eyes.

Hiss!

The snake hisses. The next second, a black fork tongue was visible. The green snake appears to be slim but it has deadly toxins.

The green snake stands 20ft tall in height. The body of the snake stretched up to 60ft in length. It's a big snake. Its wide mouth can swallow three human beast tamers as a whole.

The green scales were shining under the day light.

On the other hand, Jeremy Night is observing the Tier-4 Lifeline Beast. This snake was not a corrupted beast. So it acts on the Beast Tamer's command and its own instincts.

Swoosh!

The next second, he unsheathed his katana blade. He regrets that he didn't wear combat armour earlier.

Now he should be careful dealing with the green snake beast. He could target the Beast Tamer first. But the battle would end easily.

Right now, he wants to gain battle experience.

Chapter 482: Tenacious Green Snake

Wilderness (10th Zone):

Green snake starts dashing towards him. In a flash, the green snake got closer to him. The towering 20ft tall snake tried to bite him.

Jeremy uses his eye ability to dodge the attack. He escapes from the mouth of the green snake. In a flash, the green snake uses its tail to attack.

Jeremy sees that tail coming towards him. Once again his reaction speed was faster. He evades the tail.

The snake tail just went past his face and struck the ground.

Boom!

A deafening noise sounded. The shock force is sweeping away the surrounding area. Jeremy retreated backwards.

The snake recoils again before looking towards him. Its blue eyes sparkled. The Green Snake must be surprised.

Hiss!

It hisses again. Behind, the middle aged man was dumbfounded. He couldn't believe a Tier-2 Beast Tamer was able to dodge all of the attacks.

Now he remembers the words of his friends. They had tried to attack the young man last evening. But somehow they weren't able to touch the young man.

Now he understood why? The young man's reaction was faster. He was slippery. He thinks it must be related to his body type talent.

"I don't think you can escape for long," The middle aged man shouted. He then ordered his lifeline beast to attack.

Tier-4 Green Snake standing in coiled up position. The next second, the Green Snake sprung forward right after receiving the command.

On the other hand, Jeremy felt a sense of crisis. He is wielding the blade and waiting for the right opportunity to strike.

Swoosh!

Just as the green snake about to land on his spot. He goes backwards to widen the gap. The Green Snake continues to chase him.

At the same time, Jeremy started using the eye ability to find out the weakness. He uses a second eye ability where the body of the snake becomes transparent.

All the vital organs become visible. Seeing that his mouth curves into an arc. If he attacks the vital organs then he can easily injure the lifeline beasts.

Swoosh!

The Green Snake is chasing after him. He continued to evade the attacks. As the time passed, he started feeling exhausted.

The constant use of the eye ability is taking a toll on the mind as well. He has seen the vital organs and marked them. All he needed to do was to strike at the right moment.

He covers the blade with the starlight power. The blade's single edge was now sparkled with bright light.

Hiss!

The Green Snake hisses again. It felt threatened by the starlight power.

On the other hand, the Tier-4 Beast Tamer is waiting for his team members to come. They have already entered the wilderness.

Now they are coming towards him. Fortunately, the fight is taking place on the main path. They didn't have to look for the young man.

Slice!

An opportunity came. Jeremy swings his blade. Aiming at the vital organ of the snake. The starlight blade comes in contact with the snake body.

The hard scale cracked under the starlight power. Before the blade could go further. The Green Snake goes backwards and coils up.

Jeremy's eyes flashed with disappointment. He was so close to injuring the snake. Yet the reaction shown by the Green Snake was fast. It immediately retreated.

"What?" The middle aged man screamed out in pain. He received the feedback of the pain as well.

His Green Snake's scales were broken. He sees that if the young man targets the same spot. Then it would be troublesome.

He didn't want to admit it. But this Tier-2 Beast Tamer was not easy to handle. He wants his team members to come as soon as possible.

Once this young man slipped away. Then it would be difficult for them.

The Coiled up Green Snake was angry. It hurt after a long time. Seeing that its scale was broken. It felt furious. It's sprung up in action again.

Seeing that Tier-4 Beast Tamer gave the order to come back.

Hiss!

The Green Snake hisses out in unwillingness. Then it retreats from the place.

On the other hand, Jeremy Night squinted his eyes. He heard the scream as well. The Tier-4 Beast Tamer must have felt the terrible pain.

It's a pity that he wanted to continue the fight. Unfortunately, he saw through the middle aged man. He knew his team members might be coming here.

If everyone starts to attack him, then he might fall into a disadvantageous position.

Swoosh!

Jeremy Night enters the wilderness and disappears into the forest. This was seen by the Tier-4 Beast Tamer.

"Damn it," the middle aged man uttered in disappointment.

He wants to follow. But he stopped in his tracks. He realises there is no point in going after that young man.

In the worst case, his lifeline beast would be injured. Then his team members might get credit for it. Right now, his life is important.

He decides to go after the young man when others arrive. It didn't take long for the four people to appear.

Upon seeing their team member here, they were confused. They started looking around. But there was no sign of the young man.

Then they realised their team member must have lost him.

"You can't even do a single thing!"

"Waste!"

The team members started slandering.

"What happened?" The leading person asked.

The Tier-4 Beast Tamer was ready to tell the truth a moment ago. But upon seeing their attitude he changed his stance.

"I lost him," he replied.

Hearing that, the other four Beast Tamers sighed. Though they want to scold him. But they didn't. They knew the risk of going after the Beast Tamer alone.

It could be possible that the other squad members of the Shadow Moon Organisation were here. Everyone does their mission in the wilderness.

It would be disastrous if someone encounters their group alone.

"It's okay. After completing the mission we can wait for the young man to come outside," the leading person said.

Everyone agrees to that. Then they started doing the mission. The group of five men left the place.

Chapter 483: Stepping into the unexplored area

Wilderness (10th Zone):

Jeremy Night has escaped from the Sun Wheel Organisation's Beast Tamer. Now he is searching for the Wild Ox.

According to the mission description, the wild ox doesn't live near the core area. It roams around the grass field.

The only grass field available was the near unexplored region. Jeremy decides to go there. The last Wild Ox was spotted there.

He is hoping that he could find the wild ox this time as well. As the time passes, he goes through the forest.

He cuts down the overgrown weeds and clears out the obstacles blocking the path.

2 hours later,

He comes to the grass land. He sees that vast plain field stretching across miles. He couldn't even see the end from here.

Even if the corrupted beasts appear here, he can spot them from here. Jeremy then takes a breath and enters the grass field.

He started walking forward. At the same time, he is using the eye ability to observe the far away plot. As the time passes, he continues to walk around.

He knew the area behind the grass field was an unexplored area. He got experience of exploring the unexplored area before in the 14th Zone.

At that time he came across the worm type beasts. But here the situation is different. The entire vast land is empty.

His eyes were capturing the pictures of the grass leaves and ground. He is looking for the footprints. Not even the footprints were found.

More than an hour has passed. He is now standing in the middle of the grass. There are not even trees and huge plants around him.

If any Tier-6 and above corrupted beasts pass by here, then he could become an easy target.

Mo!

Just as he was wondering he heard a mild sound. At first he didn't take it seriously, then he continued to hear this mild sound.

The next second, his expression changes. He stopped using the eye ability. Instead he focused on his hearing ability.

Mo!

He continues to hear the same sound. Right now, he has found out which direction the sound is coming from.

He turned around and looked at the unexplored region ahead. His eyes flashes with seriousness. He suspects that sound could be coming from ox type beasts.

In order to find out, he can only go to the other end. Then he started walking forward. While walking, he takes out his hand gun and holds it in his right hand.

If there are any sudden changes, he could always use his hand gun.

As the time passes, he is getting closer to the unexplored area.

Mo!

The sound of ox beasts is getting clear. He is using the eye ability to observe the surroundings. Even if the corrupted beasts appear here, he would know at first glance.

He reached the border of the grass land more than an hour later . Now he can clearly hear the sound of the ox beasts.

After killing one of them, he will collect the mission items. Then he will leave the place. The wilderness here is strange.

He had already encountered one situation earlier where he entered the core area. At that time, it was his luck to escape from the Tier-7 Snake.

He doesn't think he can escape from the same situation again. Before stepping inside the unexplored area. He paused his footsteps and looked ahead.

Hereafter, it's a different place. There is no grass land anymore. He could see wild vegetation has covered the area ahead including towering trees and plants.

It's not even a semi-desert with empty lands here and there. It's a wild nature like a core area. He doesn't know why the wild ox sounds coming from here.

He then puts the hand gun in the case. Then he unsheathed his katana blade. The area ahead is so dangerous that even a plant could attack him.

Then he took a deep breath before stepping inside. Slowly, he started walking into the unexplored area. He is following the wild ox sound again.

As the time passes, the cry of ox sound becomes clear. As if the ox was asking for help, it's crying out of desperation.

He cuts down the vines and plants. Then he goes to that place. Finally, he came to the cave-like structure.

Upon looking at the cave. He is feeling dread. The help cry is coming from here. A sense of crisis envelops his heart.

He doesn't know what's hidden inside the cave. But if he doesn't do something he might be wasting time. There is only one or two hours left before the evening.

He has already wasted time in the grass land. He doesn't want to waste time anymore. Otherwise, he could be spending time here tonight. New NOVEL chapters are published on [novel·fire·net](http://novel-fire.net)

Which is more dangerous. He doesn't want that to happen. He then takes a deep breath before going inside the cave.

Mo!

The sound of ox cry was getting larger. The daylight is decreasing. Finally, he sees what's going on.

There is a 10ft tall dying ox lying on the ground. Its body was bitten by something. The massive chunk of flesh was gone. The backbones were visible.

Jeremy felt nauseous. His gaze fell on other things. There are skeletal remains of the wild ox near the dying one.

A look of realization dawned on me. This cave belongs to predatory corrupted beasts which hunts down the wild oxen for food.

He has unintentionally stumbled upon the place. Before he could think further. The cry sound of the ox beast was gone.

The wild ox dies in front of him. He then collected his thoughts. Though it's a dangerous place. He got a good chance in front of him.

He needed Wild Ox materials for the mission. He doesn't want to go empty handed. He thinks that dead wild ox was Tier-4 Corrupted Beasts. Which matches with the mission description.

He then began to collect the blood of the wild ox beasts. After collecting the blood in the storage bottles. He then began to collect the flesh and bones.

## Chapter 484: Tier-6 Dark Red Lizard

Wilderness (10th Zone)

Unexplored area,

Jeremy spends 20 minutes further in collecting the necessary items. By that time his back was drenched in sweat. The sense of crisis didn't reduce at all.

After completing the task, he then turns around to leave. He got a katana blade in his right hand.

He slowly approaches the exit. He doesn't want to alert the corrupted beasts nearby. Just as he was about to leave the place.

He feels the sense of crisis again. There is a dense green forest in front of him. But he doesn't know where the sense of crisis is coming from.

Boom!

The next second, he hears the booming sound coming in the right direction. He turned around and used his eye ability.

His eyes zoomed into the place and among the dense green cover of the vegetation. He sees vertical pupils.

The vertical pupils were red in color. As he tries to see further. He sees dark red scales. Then he sees the head of the lizard above the ground surface.

Upon seeing that his sense of crisis grew. Now he knows where the feeling of danger comes from. A dangerous lizard type corrupted beast hidden under the ground.

Just as was about to take off his gaze. His eyes meet the eyes of a lizard. Jeremy felt he was exposed the next second.

Boom!

The ground explodes. The next second, a gigantic dark red lizard emerges from the ground. It immediately destroyed the nearby tall trees and plants.

The dark red lizard was over 20ft in height. The body length stretches over 30ft. It's a terrifying beast.

Swoosh!

The next second, the dark red lizard stormed out towards him with a wide opened mouth. The speed immediately swept away the nearby plants and trees.

If Jeremy doesn't do anything to flee, he would be eaten alive. The next second, Jeremy uses the movement method.

"Explosive Steps!"

A terrific force generated beneath his feet. The next second, the impact force propelled him forward.

Jeremy started running using the extreme speed. Along the way, he is using the boulders and rocks to step over. So that he could increase his speed.

Swoosh!

The Dark Red Lizard appears to be more ferocious. It reached the cave and found out that something was missing through smell.

Roar!

It lets out an angrier roar. Then it started chasing the prey. The Dark Red Lizard's eyes flashes with intelligence.

It's a Tier-6 Corrupted Beasts. It has been living in this unexplored area ever since it was born. Not many corrupted beasts were living here.

From time to time the Human Beast Tamers enter the place to explore the place. But every time they will be killed without any exception.

It was an understanding tactic between the powerful corrupted beasts. So it's not going to let the Human Beast Tamer escape.

Swoosh!

It started chasing frantically. It's clearing out the way forward. At the same time, it tries to use the ability.

A fiery red rock appears between its mouth. A vortex of force appears. It's aiming at the fleeing target.

Boom!

The next second, the Dark Red Lizard shoots at the target. The fiery red rock went across the air in a straight line.

On the other hand, Jeremy Night is running back in the difficult terrain. The sense of crisis was never gone. Now the Dark Red Lizard sets its gaze on him.

The sense of crisis was alarming. All of a sudden he felt pure killing intent and a strong death crisis. As if he doesn't do anything now, he might die the next second.

Jeremy uses his eye ability to side gaze. He sees a red star coming towards him. He doesn't have time to think. It has reached him.

He immediately changed direction while running. The sudden change in direction while running at extreme speed broke his rhythm.

He lost his balance the next second. The impact force sent his body flying.

Boom!

At the same time, the fiery red rock struck the ground. A deafening noise sounded the next moment. The red rock broke into pieces and struck the nearby trees and plants.

Everything was lit on fire. Including the impact site, trees and plants.

Roar!

The Dark Red Lizard made a terrible sound. It became angrier because of the missed target. It sees the human beast tamer crash into the ground.

It starts charging towards that spot.

On the other hand, Jeremy felt terrible pain all over his body. The katana blade was near him. He wants to practise against the powerful corrupted beasts.

But the terrain itself was challenging. Not very often he came across the corrupted beasts which could use the ability.

And the ability used by the dark red lizard was not ordinary. The ground exploded. Jeremy then tried to stand up. He knew it's a risk to lie down.

After getting up, the tall tree in front of him was destroyed. A massive black claw appeared before his eyes.

Jeremy picks up his katana blade and continues to flee. He is getting closer to the grass land.

Boom!

The Dark Red Lizard continues to use the ability to shoot down the target. Unfortunately, none of the attacks hit the target.

Jeremy was able to use his eye ability to escape. At the same time, he judged the strength of the Dark Red Lizard.

He thinks it's above Tier-5 Corrupted Beasts.

About 20 minutes later,

He returns to the grass land. But he was extremely tired. After going inside, he immediately switched to the hand gun and was ready to face the beast.

Boom!

The massive 20ft Dark Red Lizard enters the grass land. Its huge shape and size becomes visible.

Jeremy's whole body was aching. He had never run like this before. He doesn't have the strength to cross the grass again. It could take another 2 hours to reach the other side.

Boom!

The dark red lizard opened its mouth to shoot at the target. A fiery red boulder released from its mouth.

Jeremy's hair stood up. He immediately retreated with a full force.

Boom!

The fiery red boulder struck the ground. A deep crater appears. The shock force sweeps away the grasses.

On the other hand, Jeremy Night felt the shock force. It forced him to take a few steps backwards.

Jeremy realises the grass land is not only an advantage for him. For the Dark Red Lizard it's an advantage as well. It can easily move around in this terrain.

More importantly, the Dark Red Lizard can aim better.

Jeremy raises his hand and points his gun at the Lizard's eyes. He wants to hit the vertical eyes. So that the beast can be blinded.

He covers the bullets with the starlight power.

Bang!

Then he pulls the trigger without further thinking. A starlight bullet shot towards the target. In a flash, the starlight bullet streaks across in the straight line.

Jeremy Night is looking at the starlight bullet with expectations. Just as the starlight bullet was about to hit the vertical eyes.

The Dark Red Lizard moves its right claw. The claw appeared in a flash and blocked the starlight bullet.

Clang!

A metallic noise sounded the next moment.

Boom!

The starlight bullet goes through the trunk of the nearby tree. The starlight bullet comes from the other side. .

The bullet hole's size was in red color.

Jeremy was dumbfounded. He didn't expect the starlight bullet to be blocked by the beast. He refuses to believe it.

Bang! Bang!

The starlight bullets went across in a straight line. One after another they were reaching the vertical eyes

Jeremy once again looks at the Dark Red Lizard with expectations. He doesn't believe the Dark Lizard could block two of his bullets.

The Dark Red Lizard's vertical pupils move all of a sudden. As if they were predicting the bullet's trajectory.

Clang!

The next second, the Dark Red Lizard struck the starlight bullets with its claws. The starlight bullets struck the ground and nearby trees.

Seeing that Jeremy Night was dumbfounded. He doesn't know what's going on. It was not a coincidence. The Dark Red Lizard indeed can block his fast moving bullets.

Jeremy Night realises that the Dark Red Lizard has more than one ability. He puts the hand gun back in the case. Then he unsheathed his katana blade.

Slash!

He then covers the blade with the starlight power. Jeremy doesn't know it's good to clash against the Dark Red Lizard.

Already, it has shown two abilities. He doesn't know what the Dark Red Lizard can do next.

Boom!

The Dark Red Lizard's eyes flashes with a glint. Its eyes showed human intelligence. The beast has found that human beast tamers don't have anything else to do.

The next second, it charged forward to attack. In a flash, the huge body appears above the Human Beast Tamer.

Jeremy Night's eyes flashes with a gleam. He is using his ability. His gaze never left the claws of the beast. It was aiming at his body.

Swoosh!

Before the attack could land. He uses his movement method to evade the attack.

Chapter 485: Miraculous escape!

Grass land (Wilderness):

Swoosh!

The lizard claw misses his head. The blade in his hand moves and tries to cut through the skin of the lizard. But the starlight blade comes in contact with hard skin.

Boom!

The starlight blade in his hand shook. The powerful recoil force made him lose his balance in the mid air.

Right then, a huge lizard tail comes at him. His pupils shrink. He tries to evade. But it was too late.

At the last moment, he brought the flat side of the blade to his side.

Boom!

The lizard tail struck the blade. The next second, the blade vibrates and the impact force sends Jeremy Night flying like a projectile.

Thud!

His body tearing through the air before landing on the ground. The landing was bad. Jeremy Night took a hard fall.

Roar!

The Dark Lizard made a sound. Its eyes flashed with cunningness. The Human Beast Tamer tried his best. But it emerges out as a stronger opponent.

The Lizard has seen through the strength of the Tier-2 Beast Tamer. It noticed that white power made it to hesitate.

Otherwise, the Beast Tamer would have been injured faster. Seeing that Beast Tamer hit the ground. It started rushing out towards the impact site.

On the other hand, Jeremy Night felt terrible pain all over his body. His body is aching in pain.

He feels immense pain from the chest. Then he felt something struck in his throat.

A look of realization dawned on him.

Pfff!

Then he spat blood. After a long time, he felt fear. He underestimated the Tier-5 and above beasts.

There are corrupted beasts which are not ordinary. There are some which could use abilities.

Boom!

The next second, he felt the ground beneath him was vibrating. Then he uses his eye ability to look at the distance.

He sees the massive dark red lizard charging towards his place. His expression changed.

He had thought the dark red lizard wouldn't leave its territory. Now it's actively hunting him down.

Argh!

A muffled grunt left his mouth as he tried to move. If he doesn't do anything, he may die here.

He is using his brain to come up with a solution. Then he takes out the hand gun and holds it in his right hand.

Then he collected the blade into his storage ring. He covers the bullets with starlight power again.

Boom!

Once again the Dark Red Lizard made a sudden leap. It's using the same claw attack again.

The distance between them was closer.

Bang!

The next second, a starlight bullet came out at a fast speed and struck the small spot near the right vertical eye.

Pucak!

The starlight bullet managed to penetrate the soft skin but it was blocked by the thick skin in the next moment.

Yet the trickle of the blood drops on the ground.

The Dark Red Lizard was stunned. It didn't expect the human beast tamer to injure it.

On the other hand, Jeremy Night rolled over towards his right side. He noticed that the Dark Red Lizard stopped for a few seconds.

His eyes flashes with a gleam. It's harder to hit the moving target than the paused one.

Bang!

He fired the starlight bullets again.

The dark red lizard was alert this time. When the sound was heard. It moves its both claws to block the bullets.

Clang!

The bullets were blocked again. The metallic noise was sounded.

But Jeremy catches a clue.

Bang! Bang!

He continues to shoot. The starlight bullets rained at the dark lizard's red lizard's eyes and few vital organs.

Since the distance between them was less. The starlight bullet reaches the dark red lizard in a flash.

Clang! Clang!

The dark red lizard was angry. It continues to block the raining bullets one by one. By doing that the dark Red Lizard retreats from the place.

Phew!

Jeremy heaved a sigh of relief. He stood up and began to flee. When the last starlight bullet was blocked. He uses eye ability to shoot as many starlight bullets as possible.

The Tier-6 Dark Red Lizard was forced to stay in one spot and to block those bullets. As the time passes, the dark Red Lizard gets angrier.

Swoosh!

It goes backwards to widen the gap. Then it opened its mouth wide to attack.

A red vortex appears before it. A fiery red boulder appears. The next second, it shoots the fiery red boulder at the target.

Boooooom!

The fiery red boulder goes through the air. It travels at breakneck speed.

On the other hand, Jeremy Night felt the target behind his back. As the boulder reached him he felt the scorching heat.

"Explosive Steps!"

The next second, he used the movement method. At the last moment, he changed direction to evade the attack.

He has entered the wilderness again.

Boom!

The fiery red boulder struck the ground. The next second, an explosion occurs. The shock force sweeps away the surroundings.

The impact force struck Jeremy Night as well. He smashes into the tall tree before falling down to the ground.

Pfff!

He coughed up blood again. Then he struggles to stand up. He wants to leave the place before the Tier-6 Dark Red Lizard catches up.

On the other hand, the Tier-6 Dark Red Lizard was pissed. Once again the attack was missed. The human beast tamer fled from the place.

The Tier-6 Dark Red Lizard looks at the wilderness. It always maintained a rule of not leaving the territory. It usually comes to the grass land to hunt down the wild ox.

It doesn't want to enter the wilderness because of the human Beast Tamer. If the Human Beast Tamer comes to the place next time. Then he won't be able to walk out alive.

Swoosh!

The next second, the Tier-6 Dark Red Lizard turned around and started going towards the unexplored area.

Meanwhile,

He traveled non stop for an hour before resting under the tree. So far there is no sign of corrupted beasts living here. So he started practicing the inner healing method.

Chapter 486: Ineffective weapons

Wilderness (10th Zone):

Jeremy Night is feeling the pain. But while practicing the inner healing method. The natural energy enters and starts going through the body.

The healing element of the body was triggered. The body cells are greedily absorbing the natural energy. The injured parts are beginning to heal right after that.

Seeing the changes he continued to practise the inner healing method.

Time passed,

The night time comes. He didn't stop practicing the Inner Healing Method. Compared to before, the dangerous injuries were almost healed.

Especially, in the chest he felt his bone was broken. But fortunately, nothing serious had happened. During the fight against the dark red lizard, he used the flat side of the blade to block it.

Meanwhile,

The Sun Wheel Organisation's Beast Tamers have completed their missions. They were on their way back home.

Unfortunately, they didn't come across their target Jeremy Night. They suspect that the young man might have gone back already.

Since their member had contact with that young man. After going back, they have to be careful of the retaliation from the Shadow Moon Organisation.

"I'm afraid. We have to be low key," One of them said.

"Don't worry, we can stop taking missions for a week. If there are no actions from them, then we can enter the wilderness," the leading person said.

Then everyone agreed and started walking towards the city.

---

Shadow Moon Organisation:

The next morning,

Leader Gisela was in her office. From the staff she learned that Jeremy Night is yet to come. She raised her eyebrows in surprise.

She doesn't know what kind of mission Jeremy Night has taken. It requires him to spend night time in the wilderness.

From the squad members' conversation she learned that the team was not yet united. Jeremy Night's combat strength surpasses the team members.

So the team missions were not useful to Jeremy Night. He is going to the Beast Taming Association for the exact reason.

Sigh!

She let out a sigh. They don't have many single missions. But she has decided to speak with the Head Neil Moon on this matter.

Meanwhile,

Squad Captain Sinag and others were surprised as well. They heard yesterday that Jeremy Night has taken a solo mission.

Sinag and Ada received a message from Jeremy Night. The other members learnt from them. Sinag had thought team bonding would improve after the Beast Invasion.

But it has become worse instead. Jeremy Night's combat strength was higher than the team. Him joining their team mission would waste his time.

That's why she didn't force him after realizing this fact.

Ada saw through her thoughts.

She said, "Don't worry. Even if Jeremy Night joins the 2nd squad he will act the same. He is stronger than the 2nd squad as well."

Hearing that Sinag relaxed her eyebrows. Then the team started to focus on other matters.

---

Wilderness:

Jeremy Night started walking back to the city in the early morning. He recovered from the serious injuries. But there are some minor injuries as well.

But he doesn't want to waste time in the wilderness. Fortunately, he hadn't come across the dangerous beasts last night.

But it can't be said the same every everytime. After going against the Tier-6 Dark Red Lizard, he learnt a valuable lesson.

Above the Tier-5 Corrupted Beast, there are more chances for the beasts to have some kind of talent ability.

More importantly, with human -like thinking. They have combat experience as well. Now he understood why it was difficult for the City Governor to stop the Beast Invasion alone.

At that time, a single Colossal Beast has covered their city with spider webs. It shows the power of the ability. Him being a Tier-2 Beast Tamer going against the Tier-6 Dark Red Lizard was suicidal.

His current limit was still Tier-5 Rank Beast Tamers and Corrupted Beasts. Maybe if he reaches Tier-3 in future, he can try fighting against the Tier-6 Corrupted Beasts in future.

He wondered why the dark red lizard didn't chase after him. He thinks it's to do with the territory. The powerful Corrupted beasts won't leave their hideouts just like that.

He thinks it was the same with the Colossal beasts. One of the reasons they survived could be related to the core area. He then collected his thoughts and focused on the return journey.

A few hours later,

He returns to the main road. From there, it's easy to reach the city. It's just he has to be careful of the robbery. He checked his magazine earlier.

The newly bought ammunition were all used against the Tier-6 Dark Red Lizard yesterday. He has to rely on his katana blade.

He then unsheathed the katana blade.

"What?" He utters in disbelief.

Because the cracks have formed in the blade. The blade was not that high grade to begin with. It was fine if it was Tier-3 or Tier-4 Corrupted Beasts.

But his repeated clash against the Tier-5 Beasts. And yesterday against the Tier-6 Corrupted Beasts have ruined the blade.

He then sheathed his blade. After going back he will see whether it can be recast.

An hour later,

More teams were walking on the road. The teams were checking out each other. Jeremy Night's Shadow Moon Organisation Badge has altered everyone.

He was not an easy target and his team members could be nearby. This was on everyone's mind. Most of them avoided Jeremy Night and started observing the other teams.

But there are few teams who were not afraid of the Shadow Moon Organisation. They are from the Beast Taming Families.

A few are from the Beast Taming Association. Even a team from the Central University 10th Zone were here as well.

Jeremy Night could recognise most of the badges. When his gaze fell on the Central University 10th Zone badge. He was surprised.

He wonders what could be the strength of the first year students here. If it was City A in the 14th Zone he would be reaching the end of the year in a few months.

He couldn't help but think of the STRIKER Department. He wonders what his friends are doing right now.

Chapter 487: Central University Finley

Wilderness (10th Zone):

Jeremy is traveling on the main road. Even after finding the main road, he couldn't let down his guard. A few teams were constantly checking him out.

Compared to the teams from the Beast Taming Families. The Team from Central University 10 was looking at me. I'm afraid if a fight breaks out, I would be in a disadvantageous position.

On the other hand, the final students of Central University 10 are here. Upon seeing Jeremy Night here, they couldn't help but think of the rumours.

Before the Beast Invasion, Jeremy Night joined the Shadow Moon Organisation. It's because his achievements were mentioned in the genius list. That he has killed Tier-4 Corrupted Beasts before.

Everyone was shocked at that time. Especially the Dean, Head and Instructors of Central University 10. Everyone felt unbelievable.

Jeremy Night was from the same background as them. He entered Central University 14. Whereas they are part of Central University 10.

They had thought the Shadow Moon Organisation made a mistake. But the rumours about that kid didn't stop. His performance during the Beast Invasion was noted by others.

If it was a false reputation maliciously spread by the Shadow Moon Organisation. Then the City Governors and the Beast Taming Association won't be silent.

Not only them, the other major players in the City A were silent as well. It shows there is some truth behind the rumours.

The students in the campus have long wanted to meet the genius. Now the 4th year students got the chance here.

Suddenly, the leading person of the team made the decision. His name is Finley. He signaled others. Which means he has decided to do something.

All of sudden the six men team stopped and turned around to face Jeremy Night.

"Hmmm," Jeremy raised his eyebrows.

He knew something was not right earlier. They have been constantly checking him out. It was proof that they were up to something.

Then he paused his footsteps. He was not afraid of the Beast Tamers. He has survived from the deadly Dark Red Lizard.

It's just that he needs practice to fight without using the weapons.

Commotion!

A small commotion occurs. The sudden act of the Central University students alerted others. Then they saw a Tier-2 young man standing as well.

The other Teams knew something was going to happen. None of them went forward to stop. They are watching the show from the sidelines.

"Are they going to fight?"

"The young man is Tier-2 Beast Tamer. Weren't they bullying him?"

"If the Shadow Moon Organisation finds out it won't end well."

The Beast Tamers were discussing. They don't want to implicate their organisation. So some of the teams immediately left the place.

Those teams whose organisation were on friendly terms with the Shadow Moon Organisation stayed behind. They knew the benefits of rescuing Jeremy Night.

On the other hand, there are hostile teams who stayed behind as well. Upon seeing that hostile parties are interested in the confrontation.

The expression of the friendly team changes. They don't want any factions to fight here. The city is recovering from the Beast invasion.

All the Beast Taming Organisations have suffered during the Beast Invasion. The loss of manpower was huge. The last thing they wanted was another similar news to appear.

Jeremy Night is taking note of all of this. After going back, he will report identities of the Beast Taming Organisation Emblems.

Among the teams he knows some of them are friendly and others are hostile. But he doesn't know the stance of Central University 10.

He thinks that similar to arrogant seniors of the Beast Taming Families back at home. There are a group of arrogant people studying in Central University 10 as well.

So he is not going to blame the whole campus for it.

Finley walks up to him. When there was little distance between them. He stopped. He appears to be in his mid twenties. He was already a Tier-4 Beast Tamer and a final year student of Central University 10.

"So, you are Jeremy Night. My name is Finley, I didn't expect to meet you here," Finley said with a smile.

Seeing that Jeremy decides to respond positively.

"Yes, that's me. Senior. It's nice to see you as well," Jeremy replied.

Hearing that Finley smiled. At the same time, he looks around him. Apart from his team, there are other Beast Taming Teams as well.

Both are divided into two camps. The Central University 10 always maintained a neutral stance. His family connected to Central University 10 as well.

So Finley was not stupid enough to harm Jeremy Night. But it doesn't mean that he would let go without confirming some truth.

Finley clearly sees that Jeremy Night is Tier-2 Beast Tamer who has achieved 5th Rank. He knows this rate of process and strength is comparable to the S-Grade Talents in their first year of studies as well.

The first year students with S-Grade Talents are closer to Tier-3 Breakthrough. They are truly geniuses. He thinks Jeremy Night was far behind them.

The other Beast Taming Teams were quiet. They were wondering what he's . They had thought a fight would break out. Then they can watch the show.

Finley said, "I need to confirm something. If you pass my test, then we can go back to the City together. No other team will bother you."

Hearing that Jeremy Night was taken aback. He thought he was another arrogant man from a rich family. After hearing him, he too understood that he was not stupid.

There are other teams here. If the news gets out, it would ruin the reputation of Central University 10. If it happens, the person in front of me would get into trouble.

Not only would he be implicated, the family behind him would suffer as well.

"What do you think?" Finley asked.

"I agree," Jeremy Night said.

Hearing that a bright smile appeared on Finley's face. Not only would he be able to confirm his doubts. There won't be any complaint since he is going to escort Jeremy Night back to the city safely.

The remaining five members of the team were happy. They had thought Finley would do something drastic.

Now they are happy that there won't be any damage to them.

"Good, then the test is easy for you if your reputation is true," Finley said with a smile.

"Just, survive from the attacks of my lifeline beast for 15 minutes," he added.

Jeremy relaxed his eyebrows. Now he understood the purpose of the test. Finley wanted to test his strength.

"Okay," Jeremy replied.

The other teams heard it as well. The hostile teams were disappointed. They had thought a fight would break out. Both could fight each other. But nothing like that happened.

The friendly teams sighed in relief. They don't want to offend Jeremy Night and the Central University 10. This test was not harsh according to them.

It's useful for them as well. They could share the intel to their respective organisations behind them.

"Jeremy Night, get ready. My pang won't go easy on you," After saying that Finley brings out his Lifeline beast.

Boom!

The next second, a Tier -4 Pangolin appears in front of Jeremy Night. It was brown in color. Its back was completely covered with brown keratin scales.

The height is 8ft long and it's 30ft long. It weighs around 20 tons. A hit from it could crush low tier corrupted beasts.

Squish!

All of a sudden, the pangolin opened its mouth. A long sticky tongue comes out of it. It aims at Jeremy Night.

Jeremy Night uses his eye ability. He sees the trajectory of the tongue. Then he moves away from the spot.

Boom!

A long powerful sticky tongue destroys the ground. The shock force spreads across the place.

The teams were surprised. They knew about the pangolin. It has hard scales. It's not easy to destroy a powerful defense. The strong claws can dig through any small mountain.

Jeremy Night stands far away and sees that beast. He didn't expect the Pangolin to attack right away. He furrowed his eyebrows.

Finley smiled and said, "What are you doing?"

"You have only 15 minutes left. If you want you can use your lifeline beast as well," he added.

Jeremy Night ignored his words. If the blade hadn't cracked, he could have injured it. His starlight power can break the defense of the Tier-4 Beast.

It's a pity that his situation was not good. He cannot engage in close combat as well. The thing weighs over several thousand pounds.

He can't take the risk of getting hit by it. He had experienced the pain of getting hit from the Dark Red Lizard. He doesn't want to go through the pain again.

Swoosh!

Finley gives the command to the pangolin. Then it started chasing Jeremy Night.

Finley furrowed his eyebrows. Earlier, he saw Jeremy Night's reaction speed. If it were others they would have gotten hit from the tongue attack.

But Jeremy Night escaped from it. It shows that rumours might not be false. He still wants to see more.

Chapter 488: Finley's request!

Wilderness (10th Zone)

Boom!

The pangolin is destroying the ground one after another. None of the attacks touched the body of the Tier-2 Beast Tamer.

Each and every time Jeremy Night is evading the attack using his sense and eye ability. This scene has stunned both the Ally and Hostile Beast Taming Teams.

15 minutes passed by,

Finley took back his pangolin into his mental zone. He was satisfied with the result. The young man was not hurt. It's also good in this case.

Not only that they have confirmed the strength of Jeremy Night. He is a Tier-2 Beast Tamer. But he can fight across two tiers above him.

The Beast Taming Teams have decided to share the news to higher ups. Their elders will reward them with the resources.

Finley said, "Jeremy Night, you are good. Now we can travel together to the city."

"Okay," Jeremy replied.

The next second, the five men from the Central University 10 came forward to meet him. After some casual chat, everyone is friendly.

This scene was seen by other teams. They left with unwillingness. They can't take action today. The Central University Warriors won't be silent.

What more? They don't want to offend Central University 10. Some of the organizations have connections with the Human Alliance.

For example, the Beast Taming Association, The Central University, the Medicine Association and the Auction House.

Not long after they left, this team started walking. They are discussing interesting things with Jeremy Night.

Jeremy is using this opportunity to learn more about other zones.

Finley was the most talkative among them. When the topic of other top 10 zones came up. His expression changed. This was noticed by Jeremy Night.

"Senior Finley, what's on your mind?" Jeremy asked.

Hearing that the other team members quieted down.

Finley then made a decision before turning towards Jeremy.

"Junior Jeremy, if you don't mind can we speak alone for 10 minutes," Finley said.

The members exchanged looks with surprise. They knew Finley wouldn't waste time. It must be something important.

Jeremy was surprised. But he nodded to them. Then both of them came to the tree not far from the tree.

"What's the problem?" Jeremy asked again.

Finley said, "After confirming your strength with my own eyes. I couldn't help but think of the family matters."

"Family matters," Jeremy asked.

Finley nodded his head before saying, "Junior Jeremy, I think I can use your help."

Hearing that Jeremy understood something. He is from the City Governor Family. He knew Family politics.

So he asked, "First tell me what the problem is. Then I'll decide what to do."

Finley sighed. He knew he could only tell the truth.

He said, "Actually, my mother's side family requires someone to enter one of the Forbidden Places in the 9th Zone to collect something."

"It's called 'Mist Valley' the place known for having treasure herbs and natural resources," He added.

Jeremy's heart stirred. It's the first time he is hearing about the special places in other zones. He thinks that place is interesting.

From his words, he understood that the family might need some kind of herb from the valley. But it can be done by other Beast Tamers. Why does he need him?

Finley saw through the thoughts.

He said, "You must be wondering why can't the family send other Beast Tamers."

Jeremy Night nodded to him.

"It's because the Mist Valley is special. The Beast Tamer above Tier-5 can enter there. Otherwise, they will be killed by the overlord beast of that place."

"The place is too dangerous for Lower Tier Beast Tamers. Only Tier-4 and few Tier-5 Beast Tamers were able to survive."

"The Overlord Beast doesn't kill lower Tier Beast Tamers. But the Beast Tamers fell from other dangers inside the valley," Finley explained.

Jeremy was dumbfounded again. He is hearing these things for the first time.

"What Overlord Beast?"

"Is this some kind of Colossal Beast?" Jeremy asked him.

Finley shook his head and said, "It's not the Colossal beast. It's a Regular Beast with human intelligence. Where do you think the beast egg for lifeline beast contract comes from?"

"What?" Jeremy uttered in a surprise.

Now he understood the importance of that place. Regular Beasts though not corrupt and violent like the corrupted beasts. But they are still Wilderness beasts.

They can still kill Beast Tamers and he knows why?

"Looks like you have understood the importance of the place. Powerful organisations like Beast Taming Association, powerful families send people to steal beast eggs from that place."

"Then they give it to their talented descendants. For people like us we buy some low or medium tier beast eggs from stores."

"Unfortunately, not all the wilderness surrounding humans zones have the habitat of the regular Beasts. Otherwise, the number of strong Beast Tamers would be higher," Finley added further.

How could he not know? His father is City Governor. In childhood, he learned that a powerful organisation goes to the wilderness to collect beast eggs for contracts.

He never expected the 9th Zone to have such a place. When it comes to the 10th Zone. He doesn't think they have one. The existence of the Colossal Beasts was enough.

If another similar existence was here the city would have collapsed long ago.

He then said, "So the overlord beast must have made some contract with the City Governors over there. So that beasts in the valley can grow and produce eggs."

"The Beast Tamers can enter the place in exchange to hunt for the Beast eggs. That's why it's not attacking the beast tamers below Tier-5."

"Though lower tiers, the Beast weren't killed by the overlord. They died under other beast attacks and the environment," Jeremy added.

"Good, you understood the whole problem. You are a perfect candidate for the job. My mother's side family had sent many Beast Tamers to that place. But everyone failed."

"So they are looking for the Beast Tamers from outside. It's not for free. You can select one of their treasures," Finley said.

Hearing that Jeremy sighed inwardly. Since he started showing a positive attitude. Finley began to reveal more information to him.

He thinks Finley is not lying. But still he decides to confirm the details through the Team Leader Gisela.

Chapter 489: The news of Regular Beasts!

Wilderness (10th Zone):

"I need some time. I can't say now," Jeremy said.

"It's okay. Save my contact. If you are willing then you can contact me," Finley said.

Jeremy nodded to him. Then both of them joined the team and started walking towards the city.

Time passed,

The team and Jeremy Night returned to the city in the evening time. He parted ways with them before finding a cab.

Then he returns to the Shadow Moon Organisation in a cab.

After arriving at the shadow moon organisation, he immediately headed to see the Team Leader.

To his surprise, she was in her office. When he asked for permission. She allowed him to come in. Jeremy then walks inside the place.

He sees that the Team Leader is sitting behind the desk doing some work. She asked him to sit.

Jeremy stepped forward and sat on the chair opposite her.

"What is it?"

"Did you stumble across another conspiracy?" Gisela jokingly asked.

Hearing that Jeremy Night was stunned. He realized that he has been uncovering some secrets lately.

"Leader, it's a different matter this time," After saying that he explained the incident.

He is meeting with the Central University 10 team and later confronts him. Then he told her about Finley's request.

A few minutes later,

Gisela raised her eyebrows in surprise. She feels Jeremy Night is growing fast. Not only he had come in contact with higher tier beasts.

He is getting to know about other zones as well. This kid was not like others. He is not ready to settle down.

"I still don't know whether it's good to send you to higher zones with a Tier-2 strength. I knew about Mist Valley as well. I had been there," Gisela said.

Jeremy was surprised. He didn't expect her to have such experience. Then he realises that strong beast tamers must have explored that place.

He then said, "Leader. My combat strength is different. I can kill Tier-4 beasts. If I put in a little effort, I can injure Tier-5 Beast as well."

Gisela shakes her head before saying, "The Regular Beasts are not less dangerous than the Corrupted beasts."

"The Corrupted beasts have a single mind. The attacking and hunting instincts. They are bloodthirsty in nature despite the higher tier beast having intelligence."

"But the Regular Beasts are equally dangerous. They can think like a human. They can plot and kill. After having human intelligence, they run their habitat like humans."

"They have lower tier regular beasts under commands. So without knowing about them. It's not wise for you to go to such a place," Gisela explained.

"Think and act like humans," Jeremy uttered in a doubtful tone.

Gisela said, "If you see their habitat, then you will understand. It's not like human cities. But it's better than the Corrupted beasts' place."

After saying that she takes out her device to show some pictures. The Human Alliance has put a ban on confidential information.

They only tell people what they need to know. But higher tier Beast Tamers are aware of some secrets.

She then showed the pictures taken by the Beast Tamers from other zones. Some of them were taken by her.

Jeremy received the device and started going through the pictures.

The first picture was the habitat of the Crimson Lion. It lives at the foot of a small mountain. But the other three sides were covered with the walls.

Upon seeing the walls, he felt goosebumps all over body. Though the walls were not perfect. But they were arranged like human city walls.

Gulp!

Jeremy gulped his saliva.

He asked, "Do all the Regular Beasts live like that?"

"No, only regular beast with bloodline power. They are different from other regular beasts. Some low tier regular beasts are living in the wilderness."

"But the higher tier ones have their own territory. Just like the overlord beast of the Mist Valley. That's why the Human Alliance doesn't mess with them."

"Because understanding has reached between them. The Regular Beasts won't attack our cities. Similarly, we won't attack their tribe."

"Yet the confrontation in the wilderness is open. Strong preys on weak. Survival of the fittest. Some of the Powerful Beast Taming Families have subdued Regular Beasts with bloodlines."

"Later, their cubs were used for their descendants," Gisela said.

Jeremy felt too much information getting to his mind. He has decided to explore the places himself. He then gives the device back to her.

"What do you say?" Gisela asked.

Jeremy takes a deep breath.

"I'll need night time to think. I'll tell you the next morning," Jeremy said to her.

"Okay," Gisela replied.

She can see that Jeremy was overwhelmed. It's already big news for that kid to know that they are sharing territory with the Colossal Beasts.

If he knows more about the world of the Regular Beasts. Then he will know how the situation of the Human Society was weak.

The Human Alliance needs strong talent every year. For protecting the cities, finding the resources and exploring the unexplored region.

She then collected her thoughts.

"You can go now," She said to him.

Jeremy nodded to her before walking out of the room. After arriving in the corridor, he feels powerless again.

The Dark Red Lizard had already made him realize. While fighting against Pangolin, he understood the difficulties of fighting without weapons.

As he started heading back to his room. He thinks Leader Gisela's advice was right. If his shortcomings were cleared, then his combat strength would be improved.

But it will take some time. Nobody knows what will happen at the Mist Valley. He has to be careful of humans as well.

A few minutes later,

He returns to his room. Just as he was having two minds, the unknown beast egg inside the mental zone is shaking.

His expression changes. So far he has been thinking about himself. He forgot the original intention of coming here.

He wanted to provide resources to the unknown beast egg. So that it can hatch faster. Now that the Mist Valley is filled with resources.

He thinks it's a perfect place for the unknown beast egg to consume resources.

Chapter 490: Part 1: Treasure Association

City A (10th Zone)

Gisela went to meet Head Neil Moon. He had already said it many times. He wanted an update regarding Jeremy Night.

If there are any new developments, she would report to him. Now someone is giving Jeremy Night an opportunity to enter the 9th Zone.

It's not easy to come by. The permissions were hard to get. Unless an emergency event, the zones won't let powerful Beast Tamers from other zones to enter their city.

It would create an imbalance in City Administration.

Head office:

Head Neil was in his office. Since the past couple of days , he has been keeping an eye on the Sun Wheel Organisation.

He had even spoken to the City Governor Marcos.

The Governor had assured him that the Sun Wheel Organisation had offended both the City Administration and the Shadow Moon Organisation.

At this time, Gisela came to see him. He allowed her to come.

Gisela walks into the office. She greeted the head before sitting on the chair.

Head Neil knows that it must be some important matter again. It's because of her information that he was able to avoid the calamity.

"What is it again?" He asked.

Gisela nodded her head before starting talking about Jeremy Night.

About 20 minutes later,

Both of them were quiet. Neil Moon is frowning. It's hard for high tier Beast Tamers to enter the zones in the top ten.

Unless you have someone to vouch for you. That's how the Sun Wheel Organisation Head escaped before the City Governor Marcos could capture him.

The permissions were almost impossible for the lower tier Beast Tamers unless they are going to enrol in the local Beast Taming Organisation.

They even recruited Jeremy Night in the same method. But in some rare cases the Beast Taming Families can invite talented individuals from outside.

He thinks the chance to enter the Mist Valley was one such example.

He then looks at Leader Gisela.

"I'm going to talk to City Governor Marcos. He can verify the news through the channels. Let the kid wait for a few days."

"This kid can fight across tiers. But there was no guarantee that higher tier Beast Tamers wouldn't target him. Anything can happen to him at the Mist Valley," Neil Moon said in a serious tone.

Gisela replied, "Okay. I'll tell him tomorrow."

A few minutes later,

The meeting ended. She left. Head Neil Moon contacted the City Governor Marcos right away. Marcos himself was surprised that youngsters got such an opportunity.

But he knew not everything was as it seems. So he has promised Head Neil that he is going to verify the news first.

---

The following day,

Jeremy Night wakes up. After getting out of the bed, he does his morning routine. Then he entered the training room for breathing method practice.

A few hours later,

After getting ready, he came to the lobby. He greeted the staff along the way before arriving at the inventory room.

He needed the elder there and showed his broken katana blade. The Elder was taken aback. He then took the broken blade and began to observe it.

After identifying the blade, he was surprised. Because the blade could withstand the attacks of Tier-3 Corrupted Beasts. But it was full of cracks right now.

He turned towards the young man. He recognised the young man. The young man is the only Tier-2 Beast Tamer in their organisation who recently joined them.

He had heard about his performance during the Beast Invasion. Everyone had good things to say about the young man.

So he didn't think too much.

"Jeremy Night, what do you want?" He asked.

On the other hand, Jeremy Night sighs inwardly. Every time he comes here, he sees a new face. He thinks the person in front of him must be elders.

Because he is feeling Tier-5 aura from him.

"Is there a chance to get a katana blade which can withstand attacks from Tier-5 beasts," Jeremy replied.

"Tier-5?" The Elder uttered in disbelief.

Then he realised the person who was talking was none other than Jeremy Night who had killed Tier-4 beasts.

"Maybe the young man wants to protect himself from attacks by Tier-5 Beasts," he thought.

Then the Elder said, "You could have asked for the battle armour. Instead, you wanted a blade."

"But it's not easy. We only give weapons and armour according to their tiers. If you want a high grade weapon, then you need to get permission from Head Neil," he added.

Jeremy was not surprised. There is no free lunch. Why would they give him a high grade weapon to use? He doesn't want it for free. But he doesn't have money either.

"Is there any other way?" Jeremy asked.

The elder saw through his thoughts. He sighed.

"Actually, you don't have to think too much. Considering your talent, Head Neil will give you permission," Elder said.

"No, I want to get it myself," Jeremy replied.

Then he decides to leave. Just as he turned around to leave.

"Young man, wait?" Elder said.

Jeremy pauses his footsteps. He then turned around and looked at the elder.

"You can go to the Treasure Association. They have a floor where you can buy antiques. People who went there have bought good items some time."

"Sometimes good items are covered in dust. Mutation had given birth to strange things. You can try your luck over there," he added.

"Treasure Association," Jeremy uttered in a surprise.

He had heard about it. But he never dug deeper information. Now he thinks it might be the right place to go.

He then thanked the elder before leaving. He came to the lobby and exited the building. He then goes to meet the cab driver.

He told the middle aged driver to drop him at the Treasure Association. The driver looked at him in a different gaze.

As if he was some gambler. But he didn't dare to ask.

Then he entered the cab and sat in the back seat. The driver sat in his seat and started the car.

Swoosh!

The flying car slowly rose above the ground. Then the driver started driving towards the destination.
