

STRIKER 501

Chapter 501: Part 1: Fight using the armour suit!

City A(10th Zone):

Audrey Reed turned towards Jeremy Night. She was apologetic. "I'm sorry, I didn't expect it," She said.

"It's okay," Jeremy replied.

Then the middle aged man left the place with satisfaction. Jeremy then collects the black box into his storage ring.

"So how much do you need?" Jeremy asked.

Audrey shakes her head and replied,"I don't know. Even if you bring a few it would be fine. We just need them for experiments."

"If the things described in the medicine notes were true. Then we will find a way to get in large numbers," She added.

"Give me approx location," He asked her.

She then sent the information to his device.

"Okay, then. I'm leaving," Jeremy said to her.

She wishes him good luck. She doesn't have courage and strength like Jeremy Night. Otherwise, she would definitely accompany him to the mission.

A few minutes later,

Jeremy boarded the flying cab. He told the driver to drop him off in the wilderness. Jeremy is browsing the information in the car.

When he saw the approach coordinates. His eyes glinted with a doubt. It's the same location where he came across the underground cave.

Later, it was destroyed due to fighting. Till the end, he didn't know which force was behind that plan. He has a feeling that this trip won't be simple.

About 10 minutes later,

The cab driver dropped him off at the entrance. He walked out and paid the fare. Then he disappeared into the wilderness.

From the device, he knew which direction to go. It was the same direction where he found that cave tunnel.

He hopes it's just a coincidence.

Reed Family:

Meanwhile,

Audrey Reed returns to her family. She then meets her father and raises the complaint. She didn't expect them to give old worn out battle armour to Jeremy Night.

Dante Reed touches his head with a headache. Even he didn't expect the elders to object to it. In the end, he couldn't go against the voices of elders.

"Audrey, the elders are not wrong. The higher tier battle armour is extremely valuable. It could save the life of an elder during emergency times," Dante said to his daughter.

"What if Jeremy Night encounters danger?" Audrey Reed asked. She was displeased.

"Sigh!"

Dante let out a sigh.

He said, "I think Jeremy Night is clever. He won't risk his life. If he finds himself in danger, then he will leave."

"Besides, you told him our purpose. If he fails this time, then he can always try next time," he added.

Hearing that Audrey relaxed her eyebrows. Her father's words were right. It's not an emergency mission. Jeremy Night has the option to quiet.

Seeing that his daughter calmed down. He felt relieved.

Shadow Moon Organisation:

Head Neil Moon got the confirmation as well. Dante Reed sent him the message. He frowned. He dislikes the Beast Taming Families.

They have Beast Tamers under them. Yet they are seeking help from the Mercenary Organisation. Compared to the other Beast Taming Families.

The reputation of the Reed Family is good. That's why he agreed for the mission.

"I hope nothing goes wrong with his mission," His eyes glinted with a light.

He then sent the message to Leader Gisela. When Gisela got the message. She felt relieved as well. Even she doesn't believe the Beast Taming Families in general.

It's one of the reasons why she didn't send Jeremy Night to 9th Zone for the Mist Valley trip.

Wilderness:

Time passed,

Jeremy Night has entered deeper. He quickly finds a place to wear the battle armour suit. It's the mountain rock.

He moves to the back side of the mountain rock. He takes out the black box from the storage ring. Then he begins to wear the worn out armour suit.

A few minutes later,

Surprisingly, the battle armour suit fits his body. But the problem is the weight. It's constantly pressing him down.

He finds it hard to move forward. Fortunately, he could take small steps. But this would hinder his speed of doing the mission.

Next, he puts behind these thoughts. He has decided to train his body with this battle armour suit.

He then continues walking towards the destination.

About 20 minutes later,

He came across the first corrupted beasts. It's a wild lizard. It happens to be the Tier-3 Corrupted Beast.

If it were earlier, he would have killed the beast with ease. But right now he is wearing this battle armour suit.

Boom!

The Wild Lizard charging towards him. Seeing that he collected his thoughts. It's time for action not for overthinking.

He punched forward in this armour suit. In a flash, both of them came in contact with each other. The armour fist touched the sharp claws.

Boom!

An explosion occurs. The Wild Lizard was forced to retreat backward. Seeing that his confidence rose. He went forward to attack again.

The Wild Lizard's eyes reddened. It darted out to attack again. This time it's using the tail to attack.

Swoosh!

In a flash, both of them got closer. He is still using the tactic. He punched forward. The weight behind the battle armour suit was high.

Boom!

The armour fist struck the claw again. The wild lizard tries to resist. But the force behind the attack pushed it backwards.

Jeremy was satisfied. A simple casual punch was enough to push the Tier-3 Corrupted beast backward.

If he fights seriously with the armour suit, he could kill the corrupted beast.

The Wild Lizard bewildered. It couldn't cause harm to the enemy. Both of its claws were deadly weapons. Yet it failed against the Human beast tamer.

Swoosh!

The Wild Lizard got angry. The bloodthirsty instincts took over the mind. In a rage, the wild lizard charges again towards the enemy.

Jeremy felt the change in the Corrupted beast. He knew the madness would provide a boost in strength. But he still chose to trust the strength in the armour suit.

Boom!

The claw touched the armour fist. He felt the force behind the claw. He immediately tried to withstand the force.

The Wild Lizard is in a maddened state. It's using the claw to force the enemy backward.

Chapter 502: Part 2: Fight using the armour suit!

Wilderness:

The black armour suit is withstanding the attacks of the wild lizard. But those Tier-3 Claws weren't able to pierce through the black armour.

Jeremy uses the left armour suit to punch all of a sudden. The armour fist struck the wild wizard's head.

Boom!

The Wild Lizard flung backward. But the attack did not hurt it. The weight behind the armour suit is forcing it backwards.

Boom!

The Wild Lizard once again leaps forward to attack. Seeing that he becomes ready to block it again. Jeremy knows he can't waste time here.

He needs to reach the location. Not long after, he brought the rust blade outside the storage ring. He then slashed at the Wild Lizard.

Pfff!

The rust blade went through the neck like butter. The lizard's head rolled over. The lifeless body dropped dead on the ground.

Jeremy Night looks at the rust blade with satisfaction. He had wasted time with the wild lizard. He got only a small gain.

Next, he resumed walking towards the inner area. Since there is no time limit for the mission. He decides to train his body with an armour suit.

He can use the armour suit as weight training. Compared to before, he is walking properly with the armour suit now.

Time passed,

He crossed the outer area and arrived at the inner area. He found the movement of the corrupted beasts. But they are not coming in his direction.

He continues on his way. As the time passed, he went deeper without any problem. He knew the encounter with corrupted beasts would increase.

Hiss!

Not long after, he heard the hissing sound. He uses his eye ability to find out the corrupted beast. Then he saw that the snake beast was hidden behind the dense green bushes.

These monstrous bushes and vegetation have grown beyond the size of the human height. That's why the snake beast was able to hide.

Jeremy paused his footsteps. He uses the second eye ability. The green bushes become transparent. Then he sees the transparent body of the snake beast.

The body of the snake beast stretches over 20ft. It's a Tier-4 Corrupted Beast.

Jeremy Night felt competitive. He tried the armour strength against the Tier-3 Corrupted Beast.

Now he wants to test it against the Tier-4 Corrupted Beast.

Hiss!

The snake beast in dark green color hissed. It's ready to attack the human Beast Tamer.

Swoosh!

Next, the snake beast leaps forward. In a flash, it appears in the sky. Its mouth was wide open.

Clearly, it's ready to bite.

Jeremy Night collects the blade into his storage ring. He made up his mind to confront the beast using the armour suit.

Boom!

The snake beast reached him in a flash. It was one step away from attacking him. Jeremy Night uses the eye ability to predict the movements.

He sidestepped to avoid the frontal attack. Then he delivered a straight punch.

Boom!

It's a simple punch. Yet when the punch hits the snake scales. He felt the hardness of the Tier-4 Beast body.

Tud!

The weight behind his punch was strong. So the snake beast swayed a little. But it was not enough to injure the Tier-4 Snake Beast.

Jeremy understood the limitations. He is just a Tier-2 Beast Tamer. With his Supreme Combat Body, he can fight across Tiers.

But he never trained in that way. He used to use only blade moves. So he is finding it hard now.

Boom!

The Tier-4 Snake was pissed off. It immediately swept its tail at the Human Beast Tamer. In a flash, the tail reached before his eyes.

Before he could evade, it was too late.

Boom!

The snake tail struck his armour chest. He felt he had been hit by a mountain rock. His body flung backwards before crashing into the ground.

Tud!

With the armour suit, the falling impact force didn't harm him. He only felt a slight tremor inside. That's all. The Snake's attack was withstood by the armour suit.

Hiss!

The snake beast let out a threatening sound. It found that the Human Beast Tamer was not dead. He was protected by the armour suit.

Swoosh!

The snake beast bolted out in a flash before arriving at the spot. It once again uses the tail to strike the armour suit.

Boom!

Jeremy Night was stunned. He realises that weakness of using higher tier armour suits. His movements were indeed slow down.

He couldn't move fast to block the attack. One after another, the tail strikes land on him. Whenever he tries to get back on his feet.

Tud!

The relentless attack made him fall down. Jeremy knows that if it goes on, it might lead to an unfavorable situation.

Swoosh!

He takes out the rust blade again and cuts down the snake tail.

Puchak!

The blade goes through the snake flesh like nothing. The tail end was severed completely. The rust blade is doing well without the starlight power.

Hiss!

The snake beast hissed out in pain. It finds the rust blade seems to be threatening.

Swoosh!

Next, the Tier-4 Snake fled from the spot. In a flash, it disappeared into the woods. Jeremy Night was disappointed.

But he can't chase it with this armour suit. Then he puts the rust blade back into the storage ring. Jeremy uses his eye ability to observe the surroundings.

After seeing that there were no other beasts in the vicinity, he continues with the journey.

Time passed,

As he went deeper, he came across more and more corrupted beasts. But this time he was serious. He used the rust blade to deter them.

He didn't go on a killing spree. He just drove away the corrupted beasts from his side.

The night time came, he didn't expect to spend so many hours in the inner area of the wilderness.

He then began to spend time on finding a safe place to rest. It's the night time, the corrupted beasts roam around the place at night time more.

He can't fight against the group wearing armour suit. So it's necessary for him to find a good hideout soon.

Chapter 503: Starlight rust blade!

Wilderness:

Jeremy Night found a large shade tree. He sat at the back of the shade tree. Even if there are corrupted beasts here he would know.

He was tired wearing the armour suit all day long. He decides to remove it. After removing the armour suit he stored it inside the storage ring.

The next second, he felt relaxed all over his body. He started running the inner healing method to escape from the fatigue.

Not long after the natural energy runs in his body. He felt refreshed again. He feels light weight. He would have killed the snake and lizard beast ten times in this state.

Buzz!

Just as he was recovering his strength. A loud buzzing noise disturbed him. Jeremy opened his eyes and used his eye ability.

The place is dark with only star's light illuminating the place. He then stood up and held the rust blade in his right hand.

Jeremy is using his brain. It's not wise to confront the insect type beasts at night. They usually move in a swarm.

He quickly found out the direction where the sound was coming from. The next second, he started running from the place.

Fortunately, the buzzing noises were not coming from his direction. Compared to earlier, he is moving at fast speed without a movement method.

He crosses the hard terrain and easily goes through the place like a fish in the water.

Roar!

He got closer to the core area border an hour later. But the roaring sound disturbed him. He was wondering where the beasts had gone.

But he hadn't expected to hear one soon. In the stars' silver light. He sees a black tiger corrupted beast with red eyes.

The bloodthirsty eyes were all familiar to him. But he was surprised by the size of the beast. The Human height tiger beast is a Tier-4 Beast.

To think it's living near the core area. He was shocked. He was ready to confront the black tiger with his rust blade.

Roar!

But the black tiger is roaring in some other direction. He followed the directions. Then he raised his head to spot the overgrown bushes.

Roar!

Next, an even more thunderous roaring sound. Something big came out of the bushes. When Jeremy sees it his pupil shrinks.

A giant black tiger almost twice the height of the human is standing in front of this Tier-4 Black Tiger.

"Tier-5," Jeremy uttered.

It's bad luck to encounter this thing at night time.

Roar!

The Big Black Tiger let out a roar. The Tier-4 Black Tiger fled from the spot. Next, the Tier-5 Beast turned towards him.

He was not surprised. He is standing at close proximity. This place is closer to the border as well.

Roar!

The Tier-5 Black Tiger has similar features with blood red eyes. It charged towards him suddenly.

Jeremy grips the handle tightly. He started circulating the starlight power. The rust blade was covered in starlight liquid for the first time.

Surprisingly, the rust blade absorbs the starlight liquid well. The blade was coated in a silver white in the blink of an eye.

Swoosh!

The black tiger beast appears in front of him.

Jeremy's eyes glinted with understanding. He is using the eye ability. His senses kicked in. The Supreme Combat Body Talent comes into play.

All of a sudden, the beast moves slowly in his eyes. His confidence rose.

Swoosh!

Next, he moved. The starlight coated rust blade is beaming with the power.

Jeremy swings the blade at the side body of the beast. The blade touched the skin. Next, it goes tearing through the flesh. Leaving behind a terrible wound.

Pfff!

Blood splattered across the ground. The defense of the Tier-5 beast was weak against the starlight coated blade.

Roar!

The beast made a sound in pain.

Cut!

Jeremy made the move again. His blade dances in the air before piercing through the flesh of the beast again.

Puchak!

He then withdrew the blade before severing the head in the next move. Next, a torrent of blood gushes forth.

Jeremy's eyes glinted with shock. The decapitated head rolled over the ground. The Tier-5 Beast body fell to the ground.

He knew the value of the dead body. The Tier-5 Tiger Beast have value. So he collected the whole body into the storage ring. Including the decapitated head.

Next, his gaze fell on the rust blade. He knew the Tier-5 beasts were strong. It's not easy to slay them. It used to take time earlier.

Now he easily cuts down the body during the fight. He thinks it's thanks to the rust blade. The rust blade can sever the tail end of the Tier-4 Snake.

So it's normal for a rust blade with starlight power to have this much power. Surprisingly, he didn't have to use the "Blade One" move.

He thinks that opportunity to use was not faraway.

He then collected his thoughts and started moving away from the place. There is still some distance left before the actual border.

He could confirm that the underground tunnel which he had found last time was not faraway from this place.

His current goal was to collect the red pine woods. The next morning, he decided to focus on it. He now sees another giant shade tree.

He decides to wait under the giant tree till the sunrise. If he continues the mission in broad daylight, he could reduce the dangers.

Shadow Moon Organisation:

Head Neil called Gisela and asked about Jeremy Night. But Jeremy Night has yet to return from the mission.

Neil Moon frowned. Then he thought about that kid's cleverness. That kid was someone who was ready to go to the 9th Zone alone.

The current wilderness was not dangerous for that kid to survive. He then ended the call.

On the other hand, Gisela was worried. Because Jeremy Night had encountered many schemes of unknown organizations.

Last time, he helped the City Administration and the organisation by finding that cave tunnel. Till today the forces behind them were not clear.

She hopes that Jeremy Night will complete the mission without any problems.

Chapter 504: Crisis again?

Wilderness:

The next morning, Jeremy resumed his mission. His speed was fast in this morning sunlight. It didn't take long for him to reach the border to the core area.

Surprisingly, there were no corrupted beasts on his path. Instead of getting into the core area. He started looking for the pine woods as soon as possible.

He doesn't know what's special about the Red Pine woods. He wanted to collect a few before going back to the city.

As the time passed, he came across different types of tall trees. But there was no sign of the Red Pine woods. He was sure that this was an area given by her.

Jeremy is not thinking too much about it. If he wasn't able to find it, then he would go back. He won't stress too much about it.

He was already walking on thick ice. Who knows? If dangerous beasts come from the core area, it could become a fight for survival.

But his luck was good. Before noon, he spotted a straight red pine tree over 100ft tall in height. Audrey Reed needs few materials for experiments.

He is not going to destroy the whole tree. He then started cutting branches with a rust blade. He spends time neatly cutting down woods.

An hour later,

He stored them inside the storage ring. Now he is ready to leave.

Creak!

A sense of crisis covers his heart suddenly.

Jeremy Night knew trouble had come. Fortunately, he had finished the work.

Swoosh!

Next, he started fleeing towards the inner area without turning back. He doesn't know which beast has set his gaze on him.

If it's a Tier-6 or above Corrupted beasts, then there is no point in the confrontation. He is running without turning back.

Croak!

The weird voice sounded again. It's following him from behind. He felt goosebumps all over his body. He is not wearing an armour suit.

So he is moving at fast speed. Despite that, some beast is following him from behind.

When he felt a sense of crisis again. He started fleeing in the zig zag manner.

Croak!

This time voice sounded so close to him. Jeremy mustered up his courage. So he turned around to take a look.

He sees a giant frog beast. Its whole body is covered in black dots. Not only that the skin is secreting a weird liquid. The size was well over human height.

Not all the frog species grow over this size. He suspects it's a Tier-5 or Tier-6 Corrupted Beast. Like he was worried earlier. He was indeed spotted by a terrifying beast.

"Explosive Steps!"

Jeremy Night used the movement method. The terrible force generated with every step beneath his feet. Because of it he was able to move faster.

Swoosh!

He widened the gap between the frog beast and him in the blink of an eye. He suspects it's a core area beast. It won't leave its hideout for a long time.

He believes after giving him a long chase. It will return.

Sure, it did happen. The Giant Frog stopped following him an hour later. Jeremy then doesn't relax until he finds a cave structure to hide.

He never ran like this before. He was not stupid to engage with the Tier-6 Beast anymore. The mucous liquid in its body could be poisonous.

If he gets poisoned by such a beast, then he would die for sure. It would take a long time for him to return to the city.

"Hey, there is a hidden cave here!"

"We can rest now!"

"Damn, the Tier-5 Beasts must all flee to the core area. They aren't that many beasts living in the inner area"

A group getting near a cave structure while discussing.

Jeremy Night inside the cave opened his eyes. He didn't expect to have visitors. He is looking at the entrance. Then he saw a group of 5 people entering the cave.

Two were female middle aged women. The three of them were middle aged men. His eyes flashed with a glint when he saw their sun emblem.

They are from the Sun Wheel Organisation. He is wearing the moon emblem from the Shadow Moon Organisation.

Today, his luck was so bad that encounter the crisis twice.

A middle aged man spotted someone sitting inside the cave.

"Hey, look someone is here before us," the middle aged man uttered.

Hearing that the other four of them turned towards the cave. Then I saw someone sitting inside. The person was young and he was watching them.

One of the females saw the moon emblem badge. Her mouth curves into an arc.

"We got a lamb here," she uttered.

Next, everyone noticed the moon emblem. Their expressions changed.

"Should we kill him?"

"Our organisation seems to be different nowadays," The leading middle aged man said.

He is a Tier-5 Beast Tamer. Rest of them are Tier-4 Beast Tamers. He knew a mysterious young man visited their organisation not long ago.

The Head of the organisation was respectful to that young man. Everyone was wondering whether Head Frank Doolin had sold out his organisation or not.

If it's true then they are not the old organisation anymore.

The female Beast Tamer said, "It's just one young man. Look at his strength. He is just a Tier-2 Beast Tamer. He must have split away from his team."

"It's a good opportunity to inflict damage to the Shadow Moon Organisation. So many of our brothers and sisters died at their hands before. We should not miss this opportunity," Another female Beast Tamer said.

Hearing that three men looked at each other. What if? The young man's team was nearby. Then they would be targeted.

"Why are you guys hesitating?"

"He won't have any trump cards," the female beast tamer said.

On the other hand, Jeremy Night is hearing them. His heart turned cold. More than the males he was angry at the females.

The 2 females didn't want him to leave. Not long ago, he was targeted by the Sun Wheel Organisation. His name was on the killing list. These people didn't seem to recognise him either.

Chapter 505: Killing!

Wilderness:

Jeremy thinks that confrontation is going to be unavoidable. He doesn't want to kill them for no reason. But if they insist on eliminating him, then he doesn't have another choice.

He will kill them before they could realise what happened. Then he stood up and started walking towards the cave exit.

The Beast Tamers got alerted. Five of them are still making decisions whether to kill him or not. The 2 Female Beast Tamers' eyes were cold.

Clearly, they can't wait to eliminate the trouble. The leading middle aged man is a Tier-5 Beast Tamer. He was not afraid. He clearly saw that the young man was a Tier-2 Beast Tamer.

If he wanted he could easily kill the young man. It's just the young man's calmness and confident walk that is making him uncomfortable.

He was wondering whether the young man's team was really waiting outside. The other 2 male beast tamers were looking at him.

As long as he gives a signal, they will be ready to act. But the middle aged man is still indecisive.

At the same time, Jeremy Night got closer to the cave. He is using the eye ability. Their facial expressions never went unnoticed.

He is observing their micro expressions as well. He could tell that they were awaiting orders from the Tier-5 Beast Tamer.

If he gives permission, they will definitely attack him.

But he didn't care about that. If they move against him, then he will be ruthless as well.

He then walks past them with confidence. This infuriated the 2 female Beast Tamers. They were looking at their leader.

The Tier-5 Beast Tamer frowned. He watches the young man leave the cave structure.

"Look he is leaving. We should not miss this good chance. I'm going to act," the tallest female Beast Tamer said before dashing forward to attack.

"Wait?" The Tier-5 Beast Tamer raised his hand to stop.

Swoosh!

Next, the second female Beast Tamer and other 2 male Beast Tamers started rushing forward to attack.

They fear that a young man's team is here. They wanted to eliminate him before he could send a message for help.

The Tier-5 Beast Tamer was hesitant. Because he is feeling something is not right from the beginning. Which Tier-2 Beast Tamer casually walks past the enemy's team.

The enemy's team is especially stronger than him. He was just trying to figure that out. But his team members acted before that.

On the other hand, Jeremy Night felt the sense of crisis. He knew what's going on. He could sense that threat was coming from behind.

Swoosh!

He takes out a rust blade from the storage ring. He held it in his hand and started covering it with the starlight liquid.

The 4 Beast Tamers surrounded him a few seconds later. The 2 Female Beast Tamers were acting like they have a personal grudge against the Shadow Moon Organisation.

"Stop. You can't escape. You are going to die here."

"Kid, put your blame on joining the wrong organisation," the tall female beast tamer said.

The other three Beast Tamers were watching with fun. They were sure that kid would die without them having to bring out the lifeline beasts.

But they didn't know it's going to be a deadly mistake.

Jeremy smiled and said, "You stole my dialogue!"

Swoosh!

Next, he darted out towards the female beast tamer.

The female beast tamer startled. The next second, she sneered. He doesn't believe that kid could harm her.

The Tier -5 Beast Tamer who was watching from the distance was alarmed for no reason. The other three Beast Tamers didn't take it seriously.

Cut!

Jeremy showed no mercy. The woman disgusted him. He swung the blade at her after appearing in front of her.

Puchak!

The female Beast Tamer was an idiot. Only at the last moment, she felt the danger. But she was too late. She only saw the blade flashes before her eyes.

Next, a red line appeared in her neck. A torrent of blood gushes forth.

"Explosive Steps!"

Jeremy didn't stop. He immediately used the movement method. He disappeared from the spot.

The female Beast Tamer widened her eyes in disbelief. She couldn't believe she is dying right now.

Tud!

She fell down to the ground. Next, the other three Beast Tamers reacted.

But Jeremy Night already arrived in front of the next female Beast Tamer. She was terrified. She couldn't believe that the young Tier-2 Beast Tamer could kill them.

Yet it's too late to regret. She met with the same blade as well.

Puchak!

Next, a decapitated head rolled over the ground. Blood gushes forth from the severed part. The lifeless body fell dead to the ground.

"You dare?"

The Tier-5 Beast Tamer shouted. He summoned the lifeline beast the next second.

Boom!

A Tier-5 Armoured Rhino appears on the ground. It immediately started charging towards the target.

The other 2 Beast Tamers reacted. Next they fled in opposite directions.

How could Jeremy allow them to flee? He held the left blade in his left hand. Then he takes out the hand gun to shoot the fleeing targets.

Before that he quickly covered the bullets with starlight power.

Bang! Bang!

A few seconds later, the firing shots were heard. Using his eye ability, Jeremy shot them to death.

At the same time, the Armoured Rhino comes to him. He used his left hand to block the Armoured Rhino.

Boom!

The next second, the Rhino sent his body back flying. The rust blade took the main impact. Yet nothing happened to the rust blade.

But the impact force threw him off.

Tud!

He landed on the ground. He quickly adjusted himself and stood up.

The Tier-5 Beast Tamer arrived at the spot as well. He was totally enraged. Before he could attack two of his members were killed.

He is looking at the young beast tamer with bloodshot eyes. He knew something was wrong from the beginning.

Before he could think of a solution. His team mates were all killed by the young man. His heart was boiling with anger.

"Young man, what's your name?" He asked.

He couldn't believe Tier-2 Beast Tamer did this killing.

Chapter 506: Another success!

Wilderness:

Jeremy Night heard the question. He could easily use his hand gun to shoot down the life line beast to death. But he has decided not to do it.

Because he is going to use the blade skill.

"Are you deaf?"

"I'm asking you. You have killed my team members. Not only I will kill you. I'll report to the higher ups,"
The middle aged man said.

It was clear that he was angry. He can't go empty handed without killing the young beast tamer. He was wary of the blade.

The rusted blade has cut down his friend's body. It's definitely a treasure. His eyes flickered with greediness. He will definitely kill him to get those treasures.

Right now, he forgot about friends' death. All he wanted was to use the benefits for himself.

Swoosh!

The next second, he bolted out towards the young beast tamer. He wanted to kill him before he could use that weird blade.

Growl!

The armour rhino started charging towards the enemy as well.

At the same time, Jeremy Night is using his eye ability. The movements of the two people slow down under his eyes.

He gripped the handle tightly. The blade is already coated with the silver liquid.

Swoosh!

The middle aged man appeared before him in a flash.

"Taste my ability!"

"Armour arm!"

He shouted the next moment. His right arm becomes gigantic. He could easily beat down the Tier-6 Corrupted Beast.

"Blade One!"

At the same time, Jeremy performed the blade one move. The blade in his hand dances before flashing before the eyes of the middle aged man.

The middle aged man couldn't predict the blade moves. It's mysterious and fast.

His giant armoured arm was about to strike him. But Jeremy's blade went through the middle aged man's throat.

Pfff!

Before he could do anything. Jeremy slashed again.

Puchak!

The blade severed the head from the body. The decapitated head rolled over the ground. With his death the mental zone collapsed.

The lifeline beast died with it. The armoured rhino disappeared. Now he has to clean the battle site. So that no one can trace it back to him.

Jeremy spends time disposing of the corpses. After doing that he resumed his return journey.

A few hours passed,

He finally returned to the city at night time. The first thing he did was to go back to the organisation. He finds a cab and asks the driver to drop him off at the organisation.

About 15 minutes later,

Jeremy returned to the organisation. The place is active. The members are still going about their business. His appearance attracted several eye balls.

After that everyone resumed their business. He nodded to the staff before heading towards the room. On the other hand, the staff report to the Leader Gisela about Jeremy Night's return.

Gisela, yet to leave her office, got the news. She sighed in relief. She doesn't know whether Jeremy succeeded in the mission or not. She decides to meet him tomorrow.

Then she reported the news to the Head Neil Moon.

Head Neil was obviously glad after receiving the news. He doesn't want anything bad to happen to Jeremy Night. Then he told her to watch over him before ending the call.

Right now, he is busy preparing for the negotiations. He has decided to form a merger with the Red Chamber of Commerce.

After the merger, both the organisations became one. The new name after the merger will be the Shadow Moon Chamber of Commerce. He thinks that his friend will not interfere in the name change.

There is still some work left. After completing that he will invite his friend here to sign documents. If not for the threat of the Thorne Family, he would have directly gone there.

He is the only active Tier-8 Beast Tamer here. He doesn't want to disturb the old seniors. They will only act if there is an existential crisis.

What more? He got many resignation letters on his desk. Some of the elders, team leaders and squad members wanted to leave.

He will go through it tomorrow. He doesn't hold resentment. But he was disappointed. People don't know that a merger will only strengthen the organisation.

With the 2 active Tier-8 Beast Tamers to run the organisations. They can rival other strongholds as well.

But people who were afraid of death would certainly want to leave. They might want to spend their leisure time in City A. No one can blade them.

Meanwhile,

Jeremy Night entered the show to take a bath. The bath lasted for 20 minutes. He walked out and changed to casual clothes.

He then came to the sofa to sit. His mission went well. He succeeded in the end. He also got to verify the body strength. He has body related talent. But he didn't train in his body.

Earlier, he used to think that blade skill was enough. Nowadays, he thinks it's lacking. If not for his cleverness, eye and star light ability, he would have died many times.

He is only surviving through the ability. But his real strength was Tier-2. He wanted his physique to be as strong as well.

If he could fight across tiers using the body, it would be good. But right now he is using the inner healing method.

Should he change the method? If he could find a better method then he could achieve his goal? But the current breathing method is related to his talent.

The inner healing method is using the healing power of the Supreme Combat Body Talent. If he needs another method then it must be related to healing or attribute less.

Jeremy then shakes his head before removing the thoughts. He still has a long way to go. He then sends a text message to Audrey Reed about his return.

Audrey Reed sent a reply back. She was happy that Jeremy Night was safe and sound.

Both of them have decided to meet tomorrow. Jeremy then went to sleep.

Audrey Reed is happy. She didn't expect Jeremy Night to complete the mission successfully. She thinks that Family Elders will be surprised.

Chapter 507: Mass resignation!

City A (10th Zone):

The following day,

After finishing his morning work, he entered the training room for practice. He spends an hour before coming out. Then he started to get ready. He is going to see Audrey Reed.

10 AM in the morning,

Jeremy left the place. He is going to the Beast Taming Association on the cab. They are going to meet at the usual place. He is not interested in visiting the Reed Family.

The impression of the Reed Family Head has gone down. He is going to have little contact with this family in future.

About 10 minutes later,

The cab driver dropped him off. He then started walking stairs to reach the Beast Taming Association. When he got there. He saw Audrey Reed waiting for him.

He quickly came to her. Before talking to her, he is using his eye ability to observe the place.

"You came here early," After saying that he casually looks around. Then his gaze spotted a person outside the Beast Taming Association looking at the two.

If not for his eye sight, he would have missed him. He was not convinced that it's best to stay away from this family.

Audrey Reed didn't find anything wrong.

"My family elders were surprised. They didn't believe that you got red pine woods," She said.

Hearing that Jeremy Night said, "Let's find a place to carry out the transaction."

Audrey Reed nodded her head.

"There is a family friend's store near the building. We can go there," She uttered.

Jeremy then followed her to the family friend's store. Soon, they reached the place. There was a middle-aged woman who was a shop owner.

She gave them a private space. Jeremy didn't waste time. He brought the red pine woods outside from the storage ring.

Audrey Reed was shocked. She had thought it's going to be one or two pieces. But she is seeing more than ten. It was neatly cut down.

She then collected everything into her storage ring.

"Jeremy, thanks for completing the mission. And I'm sorry for the old battle armour. I'll try to compensate next time," Audrey said with guilt.

Jeremy shakes his head before saying, "It's not your fault. Besides, I'm aware of the higher tier battle armour cost. So I'm pleased with the old one."

"Now, I have other work to do. See you next time," After saying that he walked out of the store.

Audrey sighed in her heart. She could tell that Jeremy Night was disappointed. It's going to be hard for the family to ask him to do something next time.

She then meets the store owner and starts speaking to her.

Outside,

Jeremy Night left the store. But he has a feeling that someone is following him. His eyes turned cold. Who could be bold enough to stalk him?

He doesn't know anyone in this city. After going through the crowd he came across a cab. Then he entered the cab and sat in the back seat.

He told the driver to drop him at the Shadow Moon Organisation.

Shortly afterwards,

The cab left the place. At the same time, the person who is stalking left the place as well. The person was indeed someone from the Reed Family.

He was arranged by Dante Reed for his daughter's safety.

About 10 minutes later,

The cab reached the shadow moon organisation. Jeremy paid the amount before going inside the building. He is going to train as per schedule.

Head office:

Head Neil Moon accepted the resignation letter after going through them. Everyone has ambition. He can't forcibly tie them to the organisation.

One hour later,

He released a statement. The statement is about the people who have resigned from their job. Head Neil Moon is thankful for their contribution. He wishes for their future goals.

It came out of nowhere and stunned the members. They were dumbfounded. The statement included the namelist of the people who resigned from the job.

A shock wave spreads across the organisation. Many important people are leaving. From the elders to the staff. People are leaving the Shadow Moon Organisation.

The news has brought sadness to others. Most of them don't know what's going on. But the elders and the team leaders knew the reason.

The Sun Wheel Organisation was bought by the Thorne Family. In future the Thorne Family won't have rivals here.

In order to compete, Head Neil Moon decided to merge the organisation with his friend's declining trade organisation.

Most of them objected to it. A few supported the decision. In the end, people who were against the idea resigned from the job.

The news reached the ears of those who decided to stick with the organisation.

Gisela Reyes heard the news. She was disappointed as well. But she can understand the situation is different today. If it were before the Beast Invasion, everyone would have supported the decision.

After the beast invasion, everyone realised how weak they were. Several Beast Taming Forces suffered losses. So they wanted to join some strong organisation by using this opportunity.

In normal cases, the members weren't allowed to leave. Since it's a special case, they were given a choice. She then goes through the namelist released with the statement.

As she went through the list, her gaze paused on a few names. Her eyes widened in disbelief and sadness.

The names were none other than the 3rd Squad members. Apart from Sinag, Ada and Jeremy, everyone else is leaving. What's so sad about it? They didn't even say a word to her.

If she had known, she would have tried to stop them. She can understand the situation of the Sinag and Ada. They have grown their ties close to the organisation like her.

They don't know what's future holds. Yet they have decided to stick with the organisation. On the other hand, she knew about the Red Chamber of Commerce.

The person who runs the organisation may be weak in business. But he is one of the powerful Beast Tamers. The people who work in that organisation were experienced beast tamers as well.

So she is hopeful about the future. It's just that she was surprised by Jeremy Night's decision. She thinks Jeremy doesn't know. Because he went to the mission during the discussion.

Chapter 508: Good-bye meeting!

City A (10th Zone):

After doing the morning practice, he walked out to take a bath. He then spends 20 minutes in the bath.

Jeremy then walked out and changed to casual clothes. He had no idea about what's going on in the organisation right now.

He was ready to lie down for a minute. But he received a message on his device.

Buzz!

He reads the message. Captain Sinag and Ada want to see him. If it were any other time, he wouldn't mind it. Since he is free right now.

He decides to see them. He had given them a promise that they could request his help for a difficult mission.

After getting ready, he left the room and started heading to the lobby. On the way, he came across many members.

The crowd was larger than usual. As if everyone came to the organisation without going for a mission.

He then came to the lobby and was stunned by the scene. The lobby is filled with people. Everyone is discussing something serious.

Among the crowd, he spotted Captain Sinag and Ada who were looking in his direction. He nodded before walking towards them.

The other teams' people looked at him as well. But their faces are not good looking at this moment. He is genuinely intrigued right now.

He arrived before Sinag and Ada.

He asked, "What's going on here?"

Hearing that Sinag and Ada are stunned. They exchanged looks. Because Jeremy doesn't seem to be lying.

"You don't know?" Ada asked back.

"I had been training in isolation. I didn't pay attention to the news," Jeremy replied.

A wry smile appeared on Sinag's face. Only Jeremy Night can practise like this.

Sinag then looked around and took them towards the corner. She doesn't want to hurt anyone's feelings.

She then started speaking to Jeremy Night. She is telling him what's going on here.

A few minutes later,

Jeremy Night's heart stirred. He hadn't expected such a thing to occur. Their organisation is going to merge with another organisation.

The other organisations belong to the Top 5 Zones.

"Isn't it good news?" Jeremy Night asked.

"It's good news that the organisation is becoming stronger. But nobody can tell that the organisation can stay the same."

"Now, the organisation has one voice. Head Neil Moon makes the decision. After the merger it will change."

"If anyone commits a mistake, then who will decide the punishment," Sinag said.

"Besides, the Sun Wheel Organisation is now property of the Thorne Family. Nobody wants to get targeted by them."

"So many of them wanted to leave to find a suitable organisation," Ada said from the side.

Jeremy Night's eyes glinted with understanding. To be honest, he is happy that the organisation is going to merge with another organisation.

If their status is elevated, then they could provide protection to him. He then thought of something important.

He asked, "Is it possible for us to enter the top 5 zones?"

Sinag and Ada are taken aback. They realised with their talent it's almost impossible for them to enter the top 5 zones.

After the merger, there is a chance.

"I think there is an opportunity," Sinag said.

"Then the merger is a good option," Jeremy thought.

His lifeline beast needs resources. He had always thought top 10 zones would be the answer. Now he is living in the 10th Zones.

He finds that resources here are lacking. It will change if he could enter the top 5 zones to make a living.

"It's a pity that everyone else is leaving. In our squad, only three of us decided to stay. Leader Gisela is going to be disappointed," Sinag uttered.

"Don't worry, they will regret later," Ada added.

Jeremy sighed inwardly. He didn't expect other members to choose to leave. He thinks it's good in one way. They are not strong.

If they come across the Beast Tamers of the Top 5 Zones, their situation would be bad. Even he had to work hard.

Fortunately, Team Leader Gisela is not leaving. Otherwise, he would be disheartened.

Time goes by,

He meets other team members. It's the final meeting. Everyone is chatting and laughing. The other team members are not young anymore.

They are middle aged. Albert, George, Fredric and Cedric wanted to settle down. Going to the top 5 Zones is a risk.

The female members Florence, Amelia and Ruby wanted to settle down as well. They are not planning to leave the city.

They too understood that the threat posed by the Thorne Family is huge. They don't believe the organisation after the merger can rival the Thorne Family.

Head Neil Moon has given them the opportunity to leave. So they took it. If they join a medium sized Beast Taming Organisation, then they can enjoy more resources with less risk.

"Jeremy Night, I hope you can do well in other zones as well," Fredric said.

Hearing that everyone turned towards him. It's the first time Fredric is saying something positive.

"He is right. With your combat power and talent. You will definitely enter the top 5 zones. I hope we can hear your news in future," Albert said.

After that George and Cedric said the appreciative words as well. Since they are going to part away. Everyone forgot about the old bad memories.

Even Florence, Amelia and Ruby spoke nicely to him.

Jeremy Night also asked for forgiveness if he was ever rude to them.

Sinag and Ada are surprised. They didn't expect Jeremy to do this. The other members are surprised and happy as well.

"We are not angry at you. You saved our lives during the Beast Invasion. It's just you are stronger than us. We had miscommunication a few times," Albert said with a smile.

"Yeah, that's all in the past. I hope we all can meet each other in the future," Fredric added.

"Looks like you guys are having a good-bye meeting without me!"

Everyone heard a cold voice the next moment. Then everyone saw that the person who spoke was none other than Team leader Gisela.

The other members are ashamed. They didn't invite her. Because they don't know how to face her.

Chapter 509: Harold Red

Shadow Moon Organisation:

Team Leader Gisela's arrival shocked them. Gisela broke the awkward situation by wishing the members who were going to leave.

The Members Fredric, Albert, George and Cedric thanked her for the support so far.

The female members Florence, Amelia and Ruby shed tears. Gisela sighed in heart. She could tell that Beast Invasion had impacted them greatly.

Before they could recover from the trauma. The news about the Thorne Family broke their last hope. Now they wanted to leave the organisation and live peacefully.

She is not going to stop. Then her gaze fell on Sinag, Ada and Jeremy Night. These three are stronger than others. They have a strong mind. The current situation is not a problem for them.

The meeting didn't end with a simple discussion. Gilsela brought all the 3 squads for the dinner outside.

There are 30 members in total. The Tier-3, Tier-4 and Tier-5 Beast Tamers. Each squad having half of the members leaving.

Their 10th Team is better. The 2nd and 3rd Team, the whole team resigned along with the team leader and the three squads.

It's a huge loss of man power. Even some of the elders resigned as well. Unknowingly, the Beast Invasion had impacted everyone.

Jeremy Night and others enjoyed the dinner. It's not like they are not going to meet hereafter. The members are going to join other forces. But they will meet each other in the future.

After having dinner, they officially parted ways. The remaining members returned with her to the organisation.

Her actions didn't go unnoticed. Head Neil Moon had observed everything. He is neither happy nor sad.

He knows the impact of the Beast Invasion. It's not like the top 5 zones are peacefully living without Beast Invasion.

Merger means more missions and rewards. Which includes dangerous tasks such as facing the Beast Invasion.

Unlike their core area, the wilderness around the top 5 zones are different. They are not peaceful. They wanted to occupy the cities of human population.

So fighting is unavoidable. If these people with weak mentality continue to stay, it's not going to be good for them and their organisation.

He then collected his thoughts. His friend is going to the next morning itself. Since the resignation and leaving the organisation has become official.

Soon, the media and people will find out. Before the hostile organisations could plan anything. He wanted the merger to be official.

The following day,

A luxurious large aircraft landed on the ground. It's a private aircraft.

Creak!

The cabin door opened. A man in his sixties stepped out. He has short red hair and a beard. His name is Harold Red. He is a Tier-8 Beast Tamer from 5th Zone.

He is the founder and owner of the Red Chamber of Commerce. Upon his feet touching the ground. He began to notice the natural energy in the surroundings.

"It's a bit weaker," he mumbled.

At that time his friend wanted to be alone and started his own organisation. His friend doesn't like the competition and rivalry.

He wanted his organisation to contribute to the Human Alliance. Since then decades have passed. Now both of their organisations are facing a crisis.

He then collected thoughts and started walking towards the exit.

When he walked out of the airport. No one noticed him. He is an unknown face here. Even the City Governors here won't recognise him.

But to his surprise, his friend Neil Moon came to receive it in disguise.

"Ha...Ha...Ha...."

"What are you doing?"

Harold asked with a laugh.

Neil Moon smiled and said, "All the media channels have published about the merger. I think we should not waste any time."

Hearing that Harold became serious.

"Alright," he said.

Then both of them returned to the organisation.

At the same time, it's breaking news everywhere. Nobody knows about the Sun Wheel Organisation's new owner. Yet they knew about the Shadow Moon Organisation.

But because of the beast tamers who resigned from the organisation yesterday. The media people were able to get the news.

They were shocked to know that Head Neil Moon is planning to merge his organisation with his friend's organisation.

But nobody knows about the friend's organisation. Head Neil Moon is keeping it to himself. Only if the merger was announced, the truth will be revealed.

10 minutes later,

They arrived before the organisation. Neil Moon brought his friend to the office through another secret door.

Both of them started their discussion. Harold is reading the resignation report.

His eyes flashed with a twinkle.

"So many people resigned," he uttered in surprise.

"It's good. They were old and their potential was exhausted," He added.

Neil Moon sighed inwardly. He knew his friend had seen the talents of the top 5 zones. The average Beast Tamers there are stronger than the members here.

Neil Moon gave him the official document.

Harold began to go through it. He sees the name change as well. His mouth curves into an arc.

Compared to the organisation name change, he was glad that so many members have left from the Shadow Moon Organisation.

Harold thinks that they can recruit new talents. Hereby strengthening the new organisation. He is not looking down.

But he knows the reality of the top 5 zones. In order to compete with them. You need strong talents as well.

Sun Wheel Organisation:

The Former Head Frank Doolin is in shock. He didn't expect the old rival to make such a decision. He had thought Thorne Family won't have rivals.

But that seems to be not the case now. He knows about Neil Moon. Neil Moon was not originally from here.

So his connections must be strong. Because he didn't make a move against him all these years. Now that he is using his contacts.

Frank Doolin thinks it's important to share the news with the Thorne Family. He changed the ownership of the organisation because of the fear.

Now, he started to worry again. Head Neil Moon could target him after the merger. How could he stay silent?

He then quickly finished reporting to a higher up of the Thorne Family. He will soon get an answer from them.

Chapter 510: Official news!

Shadow Moon Organisation:

Time goes by,

Harold Red went through everything. He was satisfied with the terms and conditions. He liked the name change as well.

"Shadow Moon Chamber of Commerce," Harold uttered.

"But it's a bit lengthy," he added.

Neil Moon sighed in relief. He had thought his friend might dislike the name.

"Why don't we call it a Shadow Moon Chamber!"

Neil Moon said with a smile.

Harold shook his head and said, "I hope this new organisation will be successful."

"What about your Family?" Neil Moon asked.

Harold's smile disappeared. He looked into the eyes of Neil Moon.

"You have to ask that. This is going to be our organisation. It has nothing to do with my family. I have parted ways with them a long time ago"

"Now it should be my brother's family," Harold said in a serious tone.

Neil Moon's eyes flashed with a glint. He knew Herod, his friend, comes from one of the Beast Taming Families. Later, an incident caused his friend to cut ties with his family.

Ever since he is trying to stand on his own. His organisation Red Chamber of Commerce was the best example.

Harold saw through his friend's thoughts.

"Don't worry, they live in the 3rd Zone. It's a vast territory. He never bothered with me," Harold said.

"Okay," Neil Moon replied.

"Let's submit the documents to the Human Alliance. Once we get approval. We can announce it," Harold said.

"Next, we have to recruit new talents as well. We can do it in the 5th Zone,"he added.

Neil Moon became serious. He knew the new organisation had a shortage of talent. Then they begin discussing important things.

Harold wanted the organisation to be at 5th Zone. He already has a base there. There is no need to change location.

Neil Moon agreed to it. But he wanted the current Shadow Moon Organisation to become a branch organisation.

In the future, they can attract talents from here. Harold agreed to it. Then their discussion continued till the evening.

They discussed everything including financial and organisation structure and power sharing. Both of them wanted their elders to be taken care of.

Evening,

Harold Red made a return journey from the airport. He is happy that everything went well.

A few days later,

The confirmation came from the Human Alliance. Thereafter, there are no organisations named Shadow Moon Organisation and Red Pill Chamber of Commerce.

It has become one organisation called Shadow Moon Chamber of Commerce. All the major forces learned about it.

Because it's reported by the Human Alliance. Many forces are surprised. They didn't expect old friends to reunite to merge their organisations into one.

Both the founders of the organisation are Tier-8 Beast Tamers. Many Beast Taming Forces don't have Tier-8 Beast Tamers in their organisation.

Even if they have one, many of them are at the end of their life. But Harold Red and Neil Moon are old. But not that very old. They could still be active for a couple of decades.

The Thorne Family got the news as well. Not only that, Human Alliance released news about their merger.

They released news about their acquisition as well. The Throne Family paid attention to the Shadow Moon Organisation.

They took it seriously. They were worried that it has to do with old rivalry.

Then they did their own investigation and found out that the Red Chamber of Commerce was declining.

The merger saved the organisation and Harold Red.

Besides, the Thorne Family was not worried. They have Tier-9 Beast Tamer among the family. They have some say in the Human Alliance as well. So they are not scared.

The only person who was scared was the former Head of the Sun Wheel Organisation, Frank Doolin. So he is staying low key behind the scenes.

Meanwhile,

The organisation looked empty. Many members resigned. Only the rest of them are looking forward to the future.

Jeremy Night, Sinag and Ada are outside the building. They are walking around the garden. They are discussing the future.

The past few days have been restless for them. None of them were able to practise properly. But the official news released by the Human Alliance made them sigh in relief.

"What do you think?"

"Are you going to the 5th Zone?" Ada asked.

Jeremy's eyes flashed with anticipation.

He said, "I'm ready. But I doubt that they would allow Tier-2 Beast Tamer to go there. My strength is still lacking."

Sinag nodded her head. She said, "I heard the talents in 5th Zone are stronger than us. Even those with our age are one tier higher than us."

"We have to improve. The current progress is not enough," Ada said.

Seeing that two girls are feeling lacking in strength. Jeremy sighed inwardly. Now he understood why they didn't leave the organisation.

They still have hunger to grow stronger.

"Why don't we do a team mission?" Sinag asked.

Ada's eyes lit. She said, "It's a good idea. What about you?"

Hearing that Jeremy Night said, "If it's the inner area, then I'm ready."

"Good!"

"Then we should see Leader Gisela," Sinag said.

Then we turned around and went to meet Leader Gisela.

10 minutes later,

We are in her office. Leader Gisela is sitting behind the desk. She is carrying a serious expression on her face.

"Looks like you guys are following the news," Gisela said.

Sinag and Ada exchanged looks. Then they started speaking to her about the mission.

A few minutes later,

Gisela looks at three of them. But she didn't give her word. Because the current atmosphere appears to be calm. But undercurrents are surging.

Sinag said, "Leader, we won't go deep inside the inner area. We will find some beast to sharpen our skills."

"Yes, leader. We wanted to increase our combat strength," Ada said.

Jeremy Night was silent. Because he is thinking about the killing he had done last time. He had eliminated the ground of Sun Wheel Organisation.

But so far there is no news about it. He wanted to verify the news before going for this mission.

"Jeremy, what do you think?" Gisela asked.

"Leader, what's going on with the Sun Wheel Organisation these days?"

"Are they still attacking our Beast Tamers?" Jeremy asked.
