

STRIKER 521

Chapter 521: Resource Collection Task!

City A (10th Zone):

City administration:

"Governor, we found a large number of beast tamers from other zones coming to our city," one of the officials said.

City Governors Marcos, Enzo and Leonor are in the room. Marcos raised his eyebrows. He was not surprised by beast tamers from other zones visiting the city.

Because the core area was a fatal attraction to them. It's filled with resources and danger. Only the higher tier beast tamers can take risk.

Before the Beast Invasion it was normal routine. Now that the city has returned to normalcy. You can expect Beast Tamers from other zones entering the core area very often.

"It's okay, just don't forget to record their information. In case something happens we need their information to handle," Marcos said to him.

The official nodded his head before leaving the room.

Only Enzo and Leonor showed angry expressions.

"We already paid too much price during the Beast Invasion. If the Beast Tamers from other zones offend any Tier-8 or above beasts. It could cause another disaster."

Leonor voiced her anger.

Enzo's eyes flashes with a glint.

He said, "It's something unavoidable. The other zones have similar issues. They can only grow if they get resources."

"The resources for the higher tier beast tamers are found in the core area and unexplored region," he added.

"I know. It's just the locals are paying the price for it," Leonor said.

"Sigh!"

Marcos breathed a deep sigh. He can understand the emotions of these two. Even he doesn't like these rules. But he had to follow it.

"Don't worry. If there is a problem, we can take action," he added.

Shadow Moon Chamber:

Harold Red contacted Neil Moon. He requested a list of resources from him. These resources can be found in the inner and core area.

Once the resources were found. He can sell them in the 5th Zone for high prices. Neil Moon accepted the task.

After the merger, the organisation is experiencing tremendous growth. Many of the Beast Tamers broke through.

The resources sent by Harold benefited the members greatly. Only then did everyone understand the power of the 5th Zone.

They have advanced resources and various methods to utilise them.

But these methods and resources are not publicly available. You can get them through the Organisation.

Neil Moon then collected his thoughts and summoned the Team Leaders. After the mass resignation, the team size reduced.

Even the squad members were reduced. But they have started their recruitment. He thinks the organisation numbers will return to their original size soon.

But the strength of the organisation will be stronger than before.

Soon, the team leaders arrived at his office. He gave the list to them and asked them to divide the task among them.

"The main branch needs these resources urgently. Send a team as soon as possible," Neil Moon said to them.

Everyone agreed. Gisela went through the list as well. Her heart was stirred. Some of the resources are found in the core area.

Only the Tier-5 Beast Tamer above can hardly survive in that place. Unless, she herself enters the core area to find them.

Neil noticed everyone's reaction.

He asked, "What do you guys think?"

Gisela was the first one to speak up.

"Head, some of them are core area resources. Even Tier-6 Beast Tamers would find it hard to survive there," Gisela said.

"Yes, head. It's a bit risky to ask squad members to take up on the mission," A aged man said.

Then other leaders said their opinion. Neil Moon understood it. He can see the danger as well. But in order to develop the organisation. They have to take risks.

He said, "Don't force anyone. If members are willing to take the risk, then they should enter the wilderness right away."

"Harold needed them urgently," he added.

"Okay," Gisela replied.

Others had no option. So they nodded their heads as well. Then everyone stood up to leave.

Gisela returned to her room a few minutes later. She immediately thought of Jeremy, Sinag and Ada. They are stronger than before.

But she is unwilling to put them in danger. If she wanted she could enter the wilderness. But she is holding a position.

If Tier-7 or Tier-8 Beast Tamers are entering the wilderness, then they need to inform the City administration. It's a troublesome process.

If Head Neil Moon had this plan, then he would have told them. She then sat in her seat. Since the team leaders have accepted the list. Then they have to complete the task.

If she picks the inner area tasks and avoids the core area tasks, it would be troublesome. Then other team leaders would raise complaints.

Finally, she decides to send Sinag and Ada for the inner area resources. She then thought of Jeremy Night. She knows Jeremy Night combat strength is greater than two.

"He can kill Tier-5 Corrupted Beasts. He had already escaped from the Tier-5 Wind Leopard," She thought.

There is no one in her existing squad who can take up the core area tasks. She decides to speak with Jeremy first.

Meanwhile,

Jeremy is taking rest after the intense training. He received a call from Leader Gisela. He attended the call. Then he came to know that she wants to meet him right now.

After ending the call, he left his room and made his way towards the Leader Gisela office. After reaching 6th Rank, he continued with his intense training.

He won't take a break until he becomes Tier-3 Beast Tamer. Soon, he arrived at her office. He walked into the room.

He saw Leader Gisela sitting behind the desk. But her expression was serious. He knows she won't call him unless something important to discuss.

"Take a seat," She said.

He nodded to her and sat on the chair.

Gisela then collected her thoughts and began telling him.

Jeremy's heart was stirred. He didn't expect the main branch to send a task list. They wanted to collect precious resources.

But these resources are found in the inner and core area. Jeremy knew why she was upset. The members are weak to enter the core area.

Chapter 522: Outside Teams!

Shadow Moon Chamber:

A few minutes later,

"Jeremy, what do you think?" Gisela asked.

She is not going to force Jeremy Night. She is just giving the opportunity.

Jeremy raises his eyebrows. This task involves danger beyond his imagination. He doesn't know whether a 1% chance of survival is possible.

But Jeremy doesn't want to miss the chance. If he completed the task, then he would attract the attention of the 2 heads. Though he is familiar with Head Neil.

He is not closer to Head Harold. If he impresses Head Harold, then he will have a chance to go to 5th Zone faster.

But he is not that stupid. If there is certain danger to his life, he will abandon the mission. He is just going to try his luck.

"Leader, I have decided to try it. But I will stop the mission whenever I want," He said to her.

Gisela relaxed. She said, "It's a volunteer mission. Head Neil had asked only interested people to take up the mission."

"When should I leave?" Jeremy asked.

"It would be better if you leave right away. The main branch needs them urgently," She replied.

"Okay," Jeremy replied.

Then he stood up to leave. Before walking out of the door, he turned around and assured her. He is not going to take huge risks.

He is going to use this opportunity to gain combat experiences. Soon, he returns to his room. He started packing necessary items.

He couldn't help but think of the explosive devices. The explosive devices are rare and expensive. There is no time available to find out about them.

About 20 minutes later,

He leaves the organisation building and comes to the cab area. He spoke to the driver before entering the cab.

He sat in the back seat and looked at the outside view. He doesn't know what's going to happen today. But he is already having an adrenaline rush.

Fortunately, he is not without a plan. He is going to use the armour given by the Reed Family. Though the armor is worn out. It can certainly save him from the attack of Tier-6 Beasts.

His rust blade is capable of hurting Tier-5 beasts. So he thinks he can injure Tier-6 beasts as well. In the meantime, the cab left the territory.

It's now flying towards the wilderness. It didn't take long for him to see the wilderness entrance. The cab landed at the parking point.

Jeremy stepped out and thanked the driver. He doesn't have to pay. Since he is one of their staff. Then he began his journey towards the inner area.

He sees many others going and coming out of the wilderness. The cabs are coming to pick them up. He was surprised inside.

The activities of the Beast Tamers are higher than before. It reminds him of his first visit here. The number of beast tamers entering the wilderness area is high.

Jeremy is alerted inside. He knew it's hard to judge the human heart. He doesn't want to meet idiotic people.

He is a Tier-2 Beast Tamer for others. So it's normal to say some arrogant people would definitely come to seek trouble.

As time goes by,

He continues on his way. At this point, the Beast Taming Team noticed that a single person was going without a team.

What more? The single person is a Tier-2 youngster.

Jeremy heard mocking words. Some of them openly showed disdain. He was taken aback. He knew the beast tamers showed respect upon seeing his red moon badge.

So what happened today? He was doubtful. But the truth came to light as time went by. Because he heard their conversation.

He didn't expect to see Beast Tamers from other zones here. No wonder they looked down on him. He frowned.

The local Mercenary Teams knew about their organisation. So they don't dare to cause any problems.

But these people are different. He can't say the trip is going to be peaceful.

Time passed,

He continues to walk on foot. He already arrived in the middle of the outer area.

"Hey, look here!"

"Tier-2 Beast Tamer is entering the wilderness alone"

"The 10th zone is not strong as they say!"

"No wonder they suffered during the Beast Invasion."

The hateful words reach his ears. His eyes flashed with ruthlessness. He glanced at the people. There are three teams looking at him and making fun of him.

There are five members in their team. His eyes turned cold. He looks at their green costume and emblem. His eyes glinted with understanding.

Now, he is sure that they are from other zones.

"Hey, Tier-2 Beast Tamer seems to be rich!"

"He is wearing a uniform?"

"Why don't we capture him for fun?"

"Our Green Horn Teams need some entertainment!"

"Let's wait for an opportunity. The other local teams are here."

The beast tamers discuss in a low tone.

Jeremy Night could hear their voices. After breakthroughs his senses have become stronger. He thinks in the future the senses will become more powerful.

Right now, he needs to deal with these outside teams. It's confirmed that they will find an opportunity to attack him.

Time goes by,

The distance between the outside teams and local teams increased. He could feel the murderous gazes of the outside teams.

Jeremy uses his eyesight to observe the surroundings. He needs a perfect environment for the killing. Then he finds a spot.

His mouth curves into an arc. He shifted his body and disappeared into the wilderness.

"What?"

"Chase!"

"The kid must have found out something!"

The Green Horn Team started chasing Jeremy Night into the woods. In the blink of an eye, they vacated the road and entered the wilderness.

Swoosh!

Jeremy Night is going through the dense forest. He is taking a detour to separate the team. Because the strength of the Beast Tamers are Tier-3 to Tier-4.

The leader of the team is Tier-5 Beast Tamer. He needs to be careful dealing with them.

"Damn!"

"Where is he going?"

"Kill him!"

The Beast Tamers are angry. They have decided to kill the young Tier-2 Beast Tamer.

Chapter 523: Taking down the Green Horn Teams!

Wilderness:

Jeremy uses his eyesight to stay ahead of them. Whenever he found them closing in. He would change his direction and disappear into the woods.

As the time went by, the green horn teams got separated unknowingly. The first team is chasing Jeremy Night.

The second and third team stayed behind. They wanted to deal with the kid low key. Clearly, they were aware that the kid was from some kind of organisation or family.

They don't want the news to leak. They could use their lifeline beast out. But doing so would cause unnecessary changes.

The nearby corrupted beasts could be alarmed. It could alert other Beast Taming Teams. Apart from the direct battle, they tend to avoid bringing out their Lifeline beasts.

If these Lifeline beasts were to be harmed, then they would receive the backlash.

On the other hand, Jeremy is monitoring the situation. Once he sees that there is no second and third team behind.

"Phew!"

He breathed a sigh of relief. Next, he can focus on eliminating the group. The leader is Tier-5 Beast Tamer.

Before confronting him, he made up his mind to eliminate others. He then paused his footsteps and quickly found a cover behind the tree.

He then takes the hand gun and holds it in his right hand. The blade is sheathed. He is going to shoot bullets to kill four members.

"Damn!"

"Where is he?"

"Don't worry, leader. We will bring the kid to you."

Jeremy heard the voices near him. He then checks out the place using his eyesight. He sees two Beast Tamers are coming in his direction.

They are under his direct line of sight. If he shoots them now, he can easily kill both. But he is thinking about the other three.

Then he sees two more people a few metres away. They are slowly following from behind. Then he sees another silhouette behind them.

He must be their leader. Since everyone is under his line of sight. He is going to take them down. Next, he starts covering the bullets with the starlight power.

In a flash, all of his bullets are glowing in bright silver color. Jeremy then takes aim. Fortunately, they are walking in open land.

He uses his eyesight to locate the forehead of the first person.

Bang!

The next second, he pulls the trigger. The silver bullet shot at the first target.

He then quickly aims at the second person and pulls the trigger.

Bang!

The second bullet released from the gun. This all happened within seconds. The bullets tear through the air.

Pfff!

The first bullet goes through the forehead of the first target. The second bullet did the same. The bullet leaves his head through the back.

Both the Tier -3 Beast Tamers' eyes filled with disbelief. They died unwillingly. Their bodies dropped on the ground.

"Shots fired!"

"They have been hit!"

The 2 Tier-4 Beast Tamers from behind shouted. They are terrified. They don't know who is targeting them. Someone with long distance ability has shot down their two members.

The Tier-5 middle aged man was alerted. He was their leader. His eyes flashed with confusion. They were chasing after the Tier-2 kid. So how did it happen?

He fears that kid has found backup. They could be surrounded by a kid's acquaintance. It's the worst situation they wanted to be in.

"I think we were surrounded. Let's retreat!"

The middle aged man shouted at his two members. Not only is he worried about them. He is worried about the other 2 teams behind.

"Damn that kid!"

"Is it because of him?"

"We should have killed that ant on the road."

A tall middle aged man is berating.

Whizz!

They heard the bullet sound all of a sudden. The tall middle aged man saw something flashes before his eyes. His forehead was pierced the next second.

Pfff!

A hole appeared in his forehead. He dropped flat to the ground breathing last breath.

The Tier-4 Beast Tamer next to him was terrified. He only heard the bullet sound. His friend was dead the next moment.

A cruel realisation dawned on him. They are open targets.

The Tier-5 Middle aged man fled from the spot. He realises that they were an open target. He doesn't want to die here. So much so he forgot about his last member.

Whizz!

Then he heard the same bullet sound from behind.

The Tier-5 Middle aged man was scared. Only after crossing a couple of metres, he looked behind. He sees a corpse of his last member lying on the ground.

Gasp!

He sucked a cold breath of air.

On the other hand, Jeremy is approaching the Tier-5 Beast Tamer. He immediately left after shooting down the 4th member.

He puts his hand gun back in the case. He then unsheathed his blade. Before the Tier-5 Beast Tamer could join other 2 Teams. He needs to kill him.

"Explosive Steps!"

He used the movement method. He burst forth with great speed the next moment. He is going straight towards the Tier-5 Beast Tamer.

Swoosh!

The Tier -5 Beast Tamer was ready to leave. Then hears another sound. But it's not the sound of the bullet. He turns around and sees that someone is coming towards him.

When he saw the person's face. A hint of anger appears in his eyes. It's the same Tier -2 Youngster. At this time, he forgot about the surroundings.

He just wants to take down the young man who killed his team mates.

"B@stard!"

"You are going to die now."

Boom!

A car sized insect beast appears above him. It's an iron armored beetle. It's his Tier-5 Lifeline Beast.

The Iron Armored Beetle looked menacing with razor sharped mandibles and blade like wings. The hard scales in the back are like armor.

The wings are creating a buzzing sound.

"Iron Head, kill this kid for me," The middle aged man roared.

Swoosh!

The next second, the insect beast goes shooting towards the target.

The middle aged man grinned. His Tier-5 Insect Beast can hurt some Tier-6 Beast.

He was sure that kid was going to be cut into two halves.

Chapter 524: Red Dotted Spider!

Wilderness:

The iron armed beetle is coming towards him. Jeremy is aware of the danger. His senses are heightened. His heart becomes calm.

His eyes flickered with clarity. Then he uses his second eye ability. The iron armed beetle becomes transparent in his eyes.

He could see the blood vessels and inner organs of the insect beast. But it's difficult to target them because of the exoskeleton. He could only target the joint.

He covers the rust blade in star light power. The Star liquid covers the blade.

Swoosh!

The Mandible was about to touch his body. Jeremy crouches to do a slow strike. His blade goes cutting through the underside of the insect beast.

Pfff!

The starlight blade was able to cut through the defense.

Swoosh!

The insect beast misses the target and goes to the other side. Only then it realises its underside was attacked. It's bleeding now.

Aaahhh!

The Tier-5 Beast Tamer felt the emotions as well. His Tier-5 Lifeline Beast was attacked and injured by a mere Tier-2 Beast Tamer.

It's a humiliation. The blind rage took over his heart. He couldn't use his rational thoughts. He is charging towards Tier-2 Beast Tamer to attack.

Jeremy smiled. The enemy underestimates him. It gives him the opportunity to kill both of them. He stood up and went darting towards the opponent.

"Blade One!"

He uses the blade one move. A mysterious feeling envelops him. His movements become fluid. He reaches the opponent in a shot.

Before the opponent could attack him. He brought his blade downward in a sweeping arc.

The Tier-5 Beast Tamer sneered. Then he found something wrong. The blade becomes blurred in his eyes. But it was too late to move.

The blade one move coupled with starlight power brought a sense of crisis to the opponent.

Pfff!

The blade sliced through the exposed neck and severing his head. The next second, the decapitated head rolled over the ground.

Bizzzz!

The armored beetle emitted a sound before perishing. Its body disappears. Only the lifeless corpse of Tier-5 Beast Tamer was on the ground.

"Phew!"

Jeremy breathed a sigh of relief. He was exhausted. The last blade one move coupled with starlight power was a trump card for him.

If it was earlier he wouldn't be able to do this. But the increase in ranks has strengthened the power of starlight energy. He is doing well in practising the blade one move as well.

But he realises one drawback. His Tier was insufficient to bring out the full power of the blade one move. So the joy of killing Tier-5 Beast Tamer was gone.

He then collected his thoughts and decided to leave. He didn't forget the valuables in their body. But he doesn't want to collect it.

Who knows? What kind of trickery was hidden there? So he didn't touch their corpse. On top of it, there are 2 more teams searching for him.

But he doesn't want to waste time with them. If he fights against these people, then he might end up consuming the starlight power.

Right now, he needs to focus on the mission.

Swoosh!

He left the place right away. He disappears into the woods the next second. By using his eyesight. He spotted the people from the other two teams.

Time goes by,

The Green Horn Teams lost sight of the Tier-2 Beast Tamer. Not only that, they have found one of their teams was completely wiped out.

The other Teams are shocked to the core. They don't know who has killed their team. They started to fear that they were targeted by the unknown Beast Taming Teams.

Swoosh!

The remaining 2 Green Horn Teams left the place. They didn't even bother to collect the corpses.

Time goes by,

At night time, he has reached the border of the inner area. He had come across a few corrupted beasts on his way. But he has killed all of them.

Now, he is hiding inside the trunk hole of the giant shade tree. He is going through the resources list. Some of them can be found in the border area.

He is planning to collect a few of them. After figuring it out, he placed the device back in the storage ring and began to take rest.

He just closed his eyes. He is not going to sleep here.

He knows the danger of the place here. The Tier-5 and above beasts roam around this border area. They could easily sense his presence.

Right now, he is just taking the gamble. Before coming here, he had observed the area. There are no beast footprints and Beast Tamer's footprints in this area.

So he was confident that there are no beast hideouts here. Then he thought of the unknown beast egg. He shifted his attention to the mental zone.

Inside the mental zone, the starlight liquid is beginning to recover. The starlight mists are being released by the unknown beast egg.

Slowly, the mist is condensed into the starlight liquid. It started to fill the mental zone. It's one of the reasons why he wanted to take a rest.

At this time, a Tier-5 Red Dotted Spider comes out at night to look for prey. There are Tier-4 Red Dotted Spiders around it.

They are silently moving on the ground. At the same time, they are investigating the place. If there are smaller prey, then they won't be able to escape their eyes.

As the time passed, these spiders reached the area close to Jeremy Night. The Tier-5 Red Dotted Spider slowly follows from behind.

The swarm of Red Dotted Spiders was under its command.

Soon, they got closer to the Giant Shade Tree. These Tier-4 and other smaller corrupted beasts felt something wrong with the Giant Shade Tree.

These corrupted beasts felt the aura of the prey. But the prey was not corrupted beasts but human beast tamer.

The spiders immediately reported to the other beasts. In the blink of an eye, more than hundred beasts surrounded the Giant Shade Tree.

Meanwhile,

Inside the trunk hole, Jeremy Night opened his eyes. He had noticed the spider beasts earlier. He expected them to move past.

But to his surprise, they have surrounded the shade tree.

Chapter 525: Rare Red Fruit!

Wilderness:

Jeremy Night is observing the surroundings. The spider has surrounded the place. But they are Tier-3 to Tier-4 Corrupted Beasts.

But there are no signs of Tier-5 and above beasts. His eyes flashed with a doubt. Because these corrupted beasts appeared at the same time.

There is no infighting among them as well. So it's evident that there is a higher tier beast behind them.

His eyes flashes with seriousness. This beast has started climbing the trees. Not only are they large in numbers. These beasts have poison abilities.

Jeremy then jumps out of the tree hole. He landed on the ground and unsheathed his blade. Then he started darting out from the place.

Swoosh!

One after another the Red Dotted Spiders leaped towards him.

Cut!

He is swinging the blade at these beasts. The blade goes through the beast body. The attacks sliced the beast body into pieces.

As he goes through the forest, the trail of blood left behind him. It took him a few minutes to clear out the beast and escape from the circle.

On the other hand, the Tier-5 Red Dotted Spider is already chasing the blood trial. It has already caught the scent of the killer.

The Tier-5 Spider was enraged. It didn't expect the human beast tamers to kill its kind.

Jeremy Night stopped after sometime. He felt he was going away from the border. He still has a mission to complete. He doesn't want to waste time.

He is resting under a tall tree. While standing he is using eyesight to check out the surroundings. At this night time, the noise will attract the corrupted beasts.

He doesn't want to waste time. He needs to find another shelter.

Rustle!

He heard the weird noise the next second. He then turned towards the right side. He sees something coming towards him.

He uses eye ability to zoom in. He sees the Red Dotted Spider Beast. His eyes flickered. He killed those beasts on his way. But he didn't expect the leader to come out.

From the massive size alone. He could tell that it's a Tier-5 Beast. It's a 30ft tall beast. He sheathed his blade and picked his hand gun.

He started to cover the bullets with star light. The next second, he took aim at the beast. The Tier-5 Red Dotted Spider is blindly coming towards him.

Bang! Bang!

The next second, he fires continuous shots at the coming Beasts.

!

The Starlight bullets cut through the air before piercing the spider's body. One after another the starlight bullets struck the spider's body.

Boom!

The Tier-5 Spider crashed into the Giant Shade Tree. The next second, the tall tree uprooted from the ground.

The shock force sweeps away the surroundings. The Tier-5 Corrupted beast was injured. The blood is gushing forth from the wounds.

After injuring the Tier-5 Beast, he left the place. The blood of the beast will attract other corrupted beasts soon.

Time goes by,

It didn't take long for him to find another tree hole. Jeremy Night hid himself inside the tree hole. He breathed a sigh of relief.

He didn't want other corrupted beasts to find him here. He checks the storage ring to see whether there is anything useful.

Unfortunately, he didn't bring it with him. He shakes his head before starting to take a rest.

The following day,

When there is a sunrise. He exited the tree hole. He landed on the ground and started checking out the surroundings.

This place is not far from the border. He decides to look for the resources from here.

As the time passes, by using his eye ability. He began to cover the large place. Suddenly, he spotted a rare red fruit growing in a tree.

This tree is small and leaner than other shade trees nearby. The tree branches are shorter. He then takes out the device to verify it.

He sees the picture of the red fruit. The size and shape exactly matches with the fruit before him. He then puts back his device into the storage ring.

Then he uses his eye ability to check out the tree. He suspects the beasts could be guarding the tree.

He zoomed into the tree. He sees that there is no sign of the corrupted beasts. There are no footprints either.

"Sigh!"

He breathed in a sigh of relief. The next second, he walks up to the fruit tree. Then he uses the blade to remove the fruit from the tree.

The fist sized red fruit dropped from the tree. He then catches the fruit and places it inside the storage ring.

Just as he turned around to leave. He sees a Beast Taming Group coming towards his direction. He frowned. Because he couldn't recognise their emblem.

"It's a Team from outside," Jeremy thought.

He wanted to leave. But one of them has already spotted him. It's too late to go away now.

"Hey, leave the fruit behind!"

A middle aged man shouted.

Hearing that Jeremy smiled and stayed in the same spot.

A few minutes later,

The Beast Taming Team appeared in front of him. It's a five man team. The Leader is Tier-5 Beast Tamer. His four team mates are Tier-4 Beast Tamers.

At first the Beast Tamers were vigilant. But upon seeing there is only one Beast Tamer around. They sighed in relief.

When they got closer. They were shocked to the core. Because the Beast Tamer in front of them is a young man. What shocked me then? The young man is Tier-2 Beast Tamer.

The Beast Tamers exchanged looks. They are not in a hurry to attack. But they are dumbfounded.

"What's going on?"

"Is he a Tier-2 Beast Tamer?"

"How come he is here alone?"

The Beast Tamers raised questions one after another. They couldn't believe themselves.

The Tier-5 Beast Tamer was vigilant. He had seen Beast Tamers with many weird abilities.

He thinks it could be fake. The young Beast Tamer could be Tier-5 Beast Tamer like him.

"Be careful!"

"Don't let down your guard," The Tier-5 Beast Tamer warned others.

Chapter 526: Medicinal plant!

Wilderness:

Jeremy Night is looking at the new team in front of him. They are the Beast Taming Team from outside. He didn't want any confrontation.

Swoosh!

The next second, he used the movement method to leave the place. He burst forth with great speed. Fortunately, the area close to the border is dense forest.

It's not open land where you are exposed to the enemy. Jeremy disappeared into the woods in a flash.

The Beast Taming Team is stunned. The members looked at each other's faces. They turned towards their leader who shouted at them earlier.

The Team Leader is Devon, Tier-5 Beast Tamer. Their Team is called VANQUISH TEAM. One of the Beast Taming Teams from 6th Zone.

They are not like other Beast Taming Teams. They are working for an illegal organisation in the 6th Zone. The organisation has sent them here for a mission.

They have to collect resources from the core area. That's why he was unwilling for any confrontation.

"Leader?" Someone called out.

Devon collected his thoughts.

He said, "We are here for a mission. Not many Beast Taming Teams entering the core area."

"We have to be careful. Otherwise, we could face problems," he added.

Hearing that the Team members are understood. They were quite eager to kill the Tier-2 Beast Tamer earlier.

The VANQUISH Team then turned around and resumed their journey to the core area.

Time goes by,

Jeremy reaches the border again. This time he faced no corrupted beasts on the way. Now he has to make a decision.

He should look for the resources here. If not, he should take the risk to enter the core area. He was not in a hurry to enter the core area.

Only last night he had met with the Spider Beasts. The core area will be more dangerous. He will enter the core area if there are no resources found here.

So he started his work here. He is using the eye sight to observe the surroundings. Since he is looking for the resources. He is being patient and moving slowly.

From time to time he came across the beast's footprints. He doesn't know whether the beasts have entered the core area from here.

It didn't take long for him to find another resource. It's one of the medicinal plants with a strong smell. The stem is thick and medium sized. The leaves are textured.

His eyes flashed with excitement. He didn't expect to find the second resource quickly. He takes out the device to verify the picture.

A few minutes later,

He confirms the picture was matched with description. He then puts back the device and removes the medicinal plant. He then put the medicinal plant into the storage ring.

Earlier, he was worried that the mission might be unsuccessful. But he has found two resources so far.

Then he continues his work.

Meanwhile,

Several Beast Taming Teams have entered the core area. Most of them are Team sent by the Illegal Organisation. They have long coveted the resources here.

These foreign zone teams witness local teams entering the core area as well. It has reduced their vigilance. They were worried about being exposed.

Now even locals have entered the core area. They are more confident to do the mission now.

But they don't know about the Thorne Family's Sun Wheel Organisation and the new Organisation called Shadow Moon Chamber.

The Thorne Family had also set their eyes on the core area. They don't lack Beast Tamers. If the locals are weak and incompetent, then they can send their own teams from the 5th Zone.

On the other hand, a few teams from the Shadow Moon Chamber have entered the core area. They have accepted the mission from their leaders.

Since it's an assignment from the main branch in the 5th Zone. They wanted to do it without any problems.

Time goes by,

Jeremy Night has covered more area now. It's been an hour since he found that medicinal plant. He couldn't find another one.

He understood the growing conditions for these rare plants and trees. He had found them in a hidden location. He was lucky that red fruit was not seen by the Corrupted Beasts.

Otherwise, they would have eaten it for sure.

Rustle!

Suddenly, he hears the rustling sound. He then turns around to check the place. He was sure that if there were any beasts he would know.

The higher tier beasts are larger in size. They can't escape from his eyesight. But right now he sees none. But where does this sound come from?

Rustle!

He heard the noise once again. This time he quietly listened to the noise. As the time goes by, he notices that noise is not nearing him.

It's coming from one place. He then began to follow the noise. He crossed the path filled with weeds and rocks.

As he followed the noise, he got closer to the core area.

After realising that he paused his footsteps. He looks at the dense monstrous forest in front of him. The tall vines and tree roots have entangled the place.

The weeds and plants have grown up to the size of humans. This entrance to the core area is more dangerous.

"No wonder, they have built an underground tunnel to go there," he thought.

He gave a deep look before turning around to leave.

Rustle!

Suddenly, the hanging vine shot towards him. It was so sudden. Just before the vine could hurt him.

He shifted his body sideways. The sense of danger came at the last moment and alerted him. Then he understood what's going on.

The Vine Beast is making noise.

Swoosh!

He didn't waste any time before retreating from the place. The Vine Beast didn't chase after him. Only after coming to the safe place, he sighed in relief.

He knew it's not easy to encounter plant type corrupted beasts. That too a vine type beasts. He was sure that it was not a Lower Tier Beast.

If he wasted time there then the vines would have captured him. His strength is not enough. The higher tier beasts can easily harm his body.

Chapter 527: Core Area again!

Wilderness:

Jeremy left the place and started continuing his work from a new area. As the time goes by, he covers more ground.

But unfortunately he didn't come across other items on the resource list. He then tried to find the new area. He is using his eyesight for that.

All of a sudden his eyes caught something abnormal. He took a pause and continued to observe the place.

There seems to be a Beast Tamer movement at distance. He was sure that something moved into the burrow. But he was sure that it was not the beasts.

His eyes flashed with curiosity. He sheathed his blade and started walking towards that place. He crosses the uneven land full of overgrown plants and weeds.

Slowly, after crossing that place. He came to the burrow. It's blocked with grasses at the entrance. Someone placed the grasses to cover that front.

It was done by someone deliberately. Then Jeremy removed the grass and found the entrance to the tunnel. Yes, it's not a burrow anymore. It's a man made tunnel.

The entrance was made small to fool others. But their curious minds made them explore the place. Now they have found out someone dug a tunnel into the ground.

He is sure that it's the act of the Beast Tamers. It's one of the safe methods to reach the core area. But he doesn't know whether it belongs to the legal or illegal groups.

He knows that last time someone from the illegal groups dug up a tunnel there. It could be same this time.

Jeremy's eyes flickered. If it's an illegal group, then he has to stop them or report them to the authorities. He can't do that without getting evidence for later.

He made a decision. Eventually, he had to enter the core area. There is no safe entrance. The higher tier beasts have occupied the border edge.

If they want to enter, then they have to kill the higher tier beasts. So for Jeremy Night, it's the safest option.

He then entered the small gap and managed to get himself inside. In a few hours, it will be night time. He didn't know whether he could reach the other end in a short time.

He started walking inside the narrow tunnel. There is less than a 2 metres gap between his head and ceiling.

A few minutes later,

He could see the traces of the footprints left by the Beast tamers.

His expression turned ugly. He doesn't know anyone in the local force has the guts to enter the core area.

There are no other forces except their organisation and the Sun Wheel Organisation. He knew of the recent change of ownership of the Sun Wheel Organisation.

He thinks it's possible for them to carry out a similar mission. So he continues walking.

Time goes by,

There is no light whatsoever in this dark tunnel. He is getting the same vibes as the previous experience.

Last time, he had encountered the beast and Tier-6 Beast Tamer in the end. But he was lucky enough to escape from his hands alive.

He is hoping for a different outcome today. He wanted to find the resources on the list quietly. Then leave the place.

Time passed by,

The night time comes. Fortunately, he sees an opening gap not faraway from him. He was worried. Now, there is no need for that. He rushed towards the end.

He could feel the increase in natural energy. The unknown beast egg inside the mental zone sensed the increase in quality of the natural energy.

It started to absorb natural energy. Seeing that change, Jeremy was not surprised. He decided to find a safe place quicker.

He then walks out of the opening. Like the last time, the tunnel end was dug in the sunken land. So he started moving upwards.

At the same time, he is looking for the footprints. Then he found several of them. His eyes flickered.

As he guessed earlier, the Beast Taming Teams have come here. He doesn't know whether they are good or bad. For now, he has decided to go in the opposite direction.

He shifted his body and started going in the opposite direction. The plants and trees are gigantic in sizes. In the inner area, you can only find them in small numbers.

He randomly finds a suitable tree and begins to dig a tree hole. He is using the blade for that. It took him a few minutes. He completed the work.

Then he unsheathed his blade and entered inside. He blocked the entrance with twigs and leaves. After doing that he began to practise the breathing method.

The natural energy from the surroundings enters his body. The natural energy is richer and purer than before.

The inner healing method works well. The cells are greedily absorbing the natural energy. He thinks that with this quality of energy. His body will reach the limit faster.

But unfortunately, he can't stay here forever. Once the unknown beast egg stops absorbing the energy. Then he will start looking for the resources.

On the other hand, the Beast Taming Team is looking for the resources nearby. They are none other than the VANQUISH Team.

If Jeremy Night sees them he would be surprised. They are the Beast Taming group he encountered them earlier.

They have their own resources list. They are searching for the items on it. But this place is not ordinary. It's filled with dangers.

The higher tier beasts are roaming in the vicinity. All they needed was a clue, if they found human scent then they would rush to the place.

As the time went by, the VANQUISH Team Leader Devon was able to find flower type resources. He collected them.

Fortunately, these resources are unguarded. They were able to get it. But the important ones could be guarded.

For that they needed to go deeper. But Devon was unwilling. He wanted to complete his search here. Then he will take his team deeper.

They are fortunate that they have yet to come across corrupted Beasts. But if they go deeper, they will come across them for sure.

Chapter 528: Tyrant Black Centipede

Wilderness:

A Tier-6 Black Centipede is living nearby. It's over 80ft long with hundreds of legs. It has mouth parts with powerful jaws. Including the terrible poison claws.

Right now, it's resting under the ground right next to the huge bed rock. The place is surrounded with vegetation. It's laying low to hunt the prey.

The Centipede beast is vigilant. If there are prey trespasses in this place, then it would know. Not knowing, the VANQUISH Team is looking for the resources in this area.

Suddenly, the Centipede opened its eyes. It caught the scent of the prey. But it's not the scent of the beasts. But the scent of the human beast tamers.

The scent immediately excited the beasts and ignited its bloodthirst. The Tier-6 Beast are quite intelligent. The Black Centipede was angry realising that humans have trespassed into their core area.

These beasts were aware of the battle sometime ago. The Colossal beast living in their territory had warned the humans. Yet the humans had dared to come here.

Swoosh!

The Black Centipede moves. It's going to hunt humans. The two antennas are moving. It quickly found the location. It's a few metres away from the spot.

Swoosh!

The Black Centipede bolted out towards the location. Its body is flying like a projectile.

On the other hand, the VANQUISH Team were doing their job. Their Captain Devon was in a hurry. They have come to the core area on a whim.

But from the beginning, he is feeling a sense of crisis. He didn't know why but he wanted to find the resources as soon as possible.

They have already got some in the inner area. They won't be returning empty handed. So he won't be spending too much time here.

Rustle!

But his expression changes the next second.

"Be careful," Devon shouted.

Hearing that his team members alerted. They turned around and saw a massive beast looking at them from above.

The Beast Tamers' face turned pale with fright. The Tier-6 Black Centipede is casually looking over them. But its oppressive presence has scared others.

Swoosh!

Devon moved towards his members. He appeared before them facing the Tier-6 Black Centipede.

His forehead is dripping with cold sweat. He was expecting some corrupted beasts to appear. But he didn't expect it would be a Tier-6 Black Centipede.

Devon is looking at the venom claws. It's not ordinary Tier-6 Corrupted Beast but

"Ready to flee from the place," Devon said in a low tone.

Hearing that members nodded their heads. Devon can fight against the Beast. But he wouldn't guarantee the victory. But the Tier-4 Beast Tamers are cannon fodders.

tchk-tchk!

The Black Centipede made a threatening sound before leaping forward to attack.

Seeing that Tier-4 Beast Tamers are terrified. Devon was nervous as well. He glanced at others.

"Go!"

He shouted. The Tier-4 Beast Tamers turned around and started fleeing. But the Black Centipede caught one of them.

The powerful jaw caught the body. The Beast Tamer was scared sh!t. He couldn't even call his lifeline beast. The beast's jaw tore the body into pieces in the blink of an eye.

Swoosh!

It gave a chance to other Beast Tamers precious seconds to flee. They hop on to their lifeline beast and fled from the place.

A big cat is running through the forest. Devon sat on its back. Their current direction is towards the underground tunnel.

Not faraway from the tunnel. Jeremy Night is hiding inside the tree hole.

As the time went by, the Black Centipede chased down others. Its speed is faster than the Tier-4 Beast Tamers.

A Tier-4 Beast Tamer is flying on a blue sparrow. But the sparrow wasn't able to escape from the sudden attack.

ttrrrr-ttrrrr!

The sparrow was alarmed. It was caught by the corrupted beasts. The Black Cenipede immediately pounced on it. The Beast Tamer was thrown off the sparrow.

Pfff!

In the blink of an eye, the blue sparrow became food for the Black Centipede.

Aaagh!

The Beast Tamer screams out. He is suffering immensely. Because of the death of the lifeline beast. His mental zone cracked. He became crippled.

tchk-tchk!

The Black Centipede tasted the Lifeline beast. I was satisfied with the food. Then the beast gaze fell on the Human Beast Tamer.

Swoosh!

The Beast Tamer was not himself. He is experiencing pain all over his body. Before he could realise what happened.

He found himself between the jaws of the Black Centipede.

Aaagh!!

He screamed. The Black Centipede bit the Human Beast Tamer. It began to chew down.

Pfff!

Blood splatter across the ground. It didn't hurry. It has already caught the scent of others. After eating the human Beast Tamer.

Swoosh!

The Black Centipede starts chasing down the next target.

Meanwhile,

Devon reaches the other side of the Tunnel. He was about to go deeper. But he suddenly felt the presence of something.

He asked his big cat about this feeling. The big cat has powerful senses. It quickly found the human scent coming from one of the giant shade trees.

It communicated with the contractor Beast Tamer.

Devon's eyes sharpened. He got a target behind his back. He wanted to get rid of the tail. It's only possible if he shifted the target.

Then he communicates with his big cat. The Big Cat then started moving towards the Giant Shade Tree.

Meanwhile,

Jeremy Night is practising the breathing method. Suddenly, he feels a sense of crisis. It was real. His heart skips a beat. He then ended the practice.

He removed a small portion of leaves covering the entrance. He then uses his eye ability to look outside.

He then spotted a human beast tamer riding a big cat. They are coming in his direction. As they got closer, he recognised Beast Tamer. It was the same person who blocked his path earlier.

He doesn't know why? They are coming towards his direction. He observes their facial expression. It was evident that they knew someone was hidden inside the giant tree.

"Could they be here to attack me?" Jeremy thought.

Then he looks around to find out their team members. But there were none.

Chapter 529: Deadly Situation!

Core Area:

Jeremy Night's mind is spinning. He had to make a decision now. Though he couldn't see anyone. But he was sure that he was exposed.

Swoosh!

The next second, he appeared outside of the tree hole and landed on the ground.

Devon, who is riding on the big cat, saw this sudden change. He realises that someone was hiding inside the tree hole.

He was glad that someone was here to take the blame. He didn't even glance at the other person. He asked the big cat to go past him.

Roar!

The Lifeline beast roared. It immediately reached the human beast tamer and went past him. If the Black Centipede appears it would first target the human here.

Devon didn't even see the Beast Tamer's face. Otherwise, he would be shocked. But he didn't know the person had seen his face.

Jeremy Night was dumbfounded. He was ready for the fight. But the person went past him at the last moment.

He feels abnormal. The sense of crisis didn't leave. He started using the eye ability to scan the place. Since the person was coming in this direction.

There is a chance that he is fleeing. Otherwise, they would have fought right now. After figuring out the matter, he left the place.

He didn't go towards the tunnel side. Instead he chose the north direction to flee. He wants to find another big shade tree in the distance.

He doubts the Corrupted beasts could sense him over 100 metres away. He went further deep into the woods. He almost forgot that there could be other dangerous beasts living nearby.

A few minutes later, he managed to find a suitable giant shade tree. It took a few more minutes to dig up the hole with a starlight blade.

After doing that he covered the entrance with twigs and leaves. But he left a small hole in it to observe the outside scene.

Meanwhile,

The Tier-6 Black Centipede caught others one by one.

It had a full meal in 20 minutes. Except the leader, the rest of the Tier-4 Beast Tamers died along with their lifeline beasts.

They wouldn't have expected they would become food for the Tier-6 Corrupted Beasts. The Black Centipede is now tracing the Tier-5 Beast Tamer's aura.

The beast caught the scent of the lifeline beast and the beast tamer. It started following the traces. It didn't take long for the beast to appear near the Giant Shade Tree.

Suddenly, the Black Centipede caught the scent of another human. But this new scent is going somewhere.

Swoosh!

The Black Centipede thought the new scent belonged to the same team. The human could be one of their members who fled from the scenes earlier.

The beast started following the new traces. It's moving so fast. The wind force generated by its movements.

It's sweeping away the nearby vegetation, rocks and stones on the way.

Jeremy Night is hiding inside the tree hole. His heart palpitates all of a sudden. He then looks at the outside scene through the window.

He spotted a corrupted beast in his vision. He then uses his eye ability to zoom in. Then he saw a terrifying beast coming towards him.

"Black Centipede," Jeremy uttered in shock.

He felt a terrible sense of crisis again. Now he understood why he felt tense earlier. He was exposed.

Swoosh!

In a flash, the Black Centipede reaches the giant shade tree. Before it could attack, Jeremy left the tree hole in a flash.

Boom!

The Black Centipede struck the shade tree. The big tree shook fiercely in the end. But there was no sign of humans in the tree. Then it spotted the Beast Tamer fleeing.

tchk-tchk!

Swoosh!

The humungous body of the Centipede Beast turns around and looks at the human prey. Seeing that human prey is running away from the place.

It started to give chase.

On the other hand, Jeremy Night's heart is overwhelmed with a sense of crisis. It's the second time he is facing a Tier-6 Corrupted Beast here.

He was right. He is feeling a stronger sense of danger than the typical Tier-5 Corrupted Beast. It could only be brought by a Tier-6 Beast.

Not only that, the size of the beast is larger than the Tier-5 Beast. It's a second clue. If it were Tier-7 Beast and above, he would have frozen on the spot.

He knew the sense of danger given by Leader Gisela and other elders.

Because of it he was able to judge the strength of the beasts. Right now, he is trying to find a hideout. To avoid the Centipede, he is moving in a zig zig manner.

If it was in a straight line, the beast would have caught me long ago. But he could still feel the beast chasing him from behind.

There is no option of fighting back in his mind. His body is weak. The Tier-2 physique won't be able to withstand the attack of Tier-6 Beast.

Swoosh!

At the same time, the black centipede understood the pattern. The human prey is fleeing in a difficult path to cut the trail.

The Black Centipede then uses its ability. Hundreds of legs were energized and started moving faster. The speed was so fast that it went shooting towards the prey.

Jeremy Night's heart tightened. The sense of crisis shot up. He turned around and saw the beast coming towards him like a shooting star.

The beast will reach him in a fraction of seconds. He didn't have enough time to evade. His eyes flashed with anger. He used a movement method.

"Explosive Steps!"

He shifted his body. Yet it was too late.

Boom!

He avoided being caught by the deadly mouth. Instead he was struck by the massive body. Like a stone, he was sent away flying.

Swoosh!

The body goes through like a projectile. It crosses several distances in the mid air before crashing into the rough terrain.

It's filled with stones of uneven sizes, sharp rocks and heavy boulders.

Pfff!

There is a narrow space between the mountain rocks. Jeremy Night struck in between. His whole body was covered in blood.

Chapter 530: Sky Eagle

Core Area:

tchk-tchk!

The Black Centipede made a sound. Then it started flying towards the spot where the prey crash landed.

Swoosh!

The big centipede appears in the blink of an eye at the spot. It eyes scans the surroundings. The two antennae move to find out the prey.

The next second, it caught the scent. The hundreds of legs moved. The Black Centipede then finds out the exact spot and appears in front of it.

It saw the human prey was stuck between the 2 mountain rocks. It uses a mandible to move the rock. But it couldn't move the rock.

The Black Centipede was surprised. With its strength it's easy to move these rocks away. With its speed just now it has swept away the nearby vegetation and rocks.

Boom!

The Black Centipede then tries its sharp metallic legs to break rocks. The next second, a noise occurs. A small piece of stone fell off from the rock.

The Beast was stunned again. It was sure about the power of sharp metallic legs. The legs can leave holes in the body of Tier-6 Corrupted Beasts.

Yet the sharp legs only made a dent so far. The beast was unwilling. It started again. It's using hundreds of legs to destroy the small 2 rocks.

So that it can catch the prey.

Boom! Boom!

One after another noise sounded.

Meanwhile, Jeremy Night was conscious. But his condition was miserable. Like he had guessed, his body can't withstand the attack of a higher tier beast.

He could feel some of the bones in the body are cracked. His internal organs suffered impact as well. He was severely injured in the end.

Thanks to the giant mountain rocks on both sides. He was alive right now. But he doesn't know for how long.

He recalled the Tier-5 Beast Tamer and his lifeline beast. If not for that guy he wouldn't have suffered this much. Because of him, he is facing a life or death situation.

He uses his eyesight to observe. He zoomed into the sinister face of the Black Centipede. It's desperately trying to break the rocks. Not to save him but to eat him.

If it succeeds in breaking the 2 rocks, he is dead for sure. Now he is starting to regret his recklessness. He was fortunate many times to leave safely from the inner area and core area.

But this time he was taught a lesson. He dared to come here with meagre Tier-2, 6th-Rank Strength. He is experiencing the consequences for that.

Boom! Boom!

The beast continues to make a dent in it. The shaking vibration is hurting his body more. He could feel the severe blood loss.

He doesn't know where he is exactly at. But he could guess that it was well inside the core area. The border was not near.

If Jeremy Night could escape from this situation, then he would definitely kill that b@stard.

As the time goes by,

Many dents appeared on the mountain rocks. So the size of the rocks is being reduced. One by one the rock pieces fell off from it.

It would be a matter of time before the beast reaches the prey.

Meanwhile,

Devon and his big cat have returned to the border inner area through the tunnel. They are not going to go back. He lost his entire team.

If he goes back he would face certain death. He thinks it's thanks to the unknown beast tamer who took the bait. But he still thinks that the Tier-6 Beast could catch on to him.

So he started moving towards the city. Hereafter, he won't face any threats. He can handle the Tier-5 Beasts living here.

Time passed,

Boom! Boom!

20 minutes later, the Tier-6 Black Centipede succeeded in destroying the 2 mountain rocks. Then the beast proceeds to catch the prey.

It lowers its head. The Mandibles are about to touch the prey.

Stab!

Jeremy stabbed the right eye of the beast with his last ounce of strength.

Puchak!

The starlight filled rust blade goes through the right eye of the beast. A torrent of blood gushes forth the next second.

tchk-tchk!

The Black Centipede made a sound in pain. It's moving its head fiercely. The blade loosens.

Swoosh!

Jeremy Night with the blade in his hands was once again sent backwards flying. This time his body was thrown further deeper.

He once again felt flying in the air. But he knows his situation has become dire.

Kee-Kee-Kee-Kee!

A 20ft Sky Eagle appears out of nowhere and catches the flying thing. The next second, it soars in the sky, taking away the food.

tchk-tchk!

The Tier-6 Black Centipede was enraged. The bird beast came out of nowhere and snatched its prey. The beast can't follow the prey now.

The sky birds live in different territories. If the Black Centipede goes there, it is certainly asking for death. It could become food for other powerful bird beasts.

The beast was unwilling. But it had no choice but to give up.

Swoosh!

It turned around and started chasing the other trail. With its speed it could still catch up to the other prey.

Kee-Kee-Kee-Kee!

The sky eagle is soaring in the sky. Jeremy Night was scared sh!t. He thought he would become food for that Centipede earlier.

Now that sky eagle has captured him. He doesn't know whether it's good news or bad news. Because the sky bird's territory is deep in the core area.

The Sky Eagle is one of the bird beasts. Jeremy doesn't know what to do. He is betting everything on luck right now. He then puts the rust blade into the storage ring.

Then he started running the inner healing method. He suffered a huge blood loss. His bones are cracked. His internal organs are hurt.

The only thing that could help him right now was the inner healing method. As the time goes by, the sky eagle is flying calmly high in the sky.

The natural energy from the surroundings is entering Jeremy's body. The healing attribute of the body was triggered.

He could feel the cooling sensation inside the body. He thinks that self-healing started now.
