

STRIKER 541

Chapter 541: Heading to the 9th Zone!

Shadow Moon Chamber:

The evening time comes. Jeremy was resting in his room. Then he got a message that someone from the office was coming here to deliver the goods.

He knew it must be the battle armour and katana blade. However, he is comfortable using the rust blade and old battle armour.

For the organisation's sake. He will use the new items. Then he got out of the bed to collect the item. When he appeared outside. He saw the female staff carrying the items in a large suitcase.

"Jeremy Night, here are your goods," she said.

Jeremy thanked her before collecting the items in the storage ring. Then he went inside to get ready. Since he got the item. He can leave now.

About 20 minutes later,

He was wearing comfortable clothes, not a uniform. He plans to wear it after reaching 5th Zone. Jeremy then texted Team Leader Gisela.

He got a reply from her. She intended to send him off at the airport. He agreed and left the room. He then quickly came to the lobby.

He saw Team Leader Gisela in her uniform.

"You are here. Let's go," Gisela said.

"What about the Head?" Jeremy asked.

"There is no need to meet him. He knows your departure. He already informed his friend. He will send someone to pick you up at the airport," Gisela explained.

Hearing that I nodded to her. We left the building then.

About 15 minutes later,

We reached the airport. On the way, she has given some advice. Just as I was about to part ways. He heard her voice again.

"Be careful, don't offend anyone unnecessarily. Although we have the main branch in the 5th Zone. Others could have backgrounds as well," Gisela said with a worry.

Hearing that Jeremy's eyes ignited with a spark. He is not stupid or reckless person. As a son of the City Governor, he knew how to behave.

"Don't worry, leader. I'll keep it in mind," He then assured her.

Gisela relaxed her eyebrows. She knows Jeremy Night is smart. But she had her own experiences during her early days. The descendants of the top 5 zones are evil and cunning.

They don't care about anything other than increasing their strength. Sometimes, the Human Alliance turns a blind eye to their evil crimes. Because they needed their strength against the Beast invasions.

She had already given her piece of advice. She believes that Jeremy Night knows how to act.

Inside the airport, Jeremy Night came to the boarding area. His eyes flickered. He didn't forget his other goal. He will try to find rich resources.

Time passed,

Gisela made the return journey.

Jeremy Night waited for his flight to come. It came delayed an hour later. Then everyone started moving towards the flight.

Shortly afterwards,

One after another passenger boarded the flight. Jeremy Night appreciates the fortified flight. He doubts whether any beast could break the defense.

Next, his turn came. He entered inside and quickly found his seat. It's next to the window. He then sat down.

Jeremy Night didn't speak. He closed his eyes to avoid the conversation with the person next to him.

Buzz!

Shortly afterwards, the flight took off. It left the airport in a few minutes.

Jeremy could feel that the flight was moving. He opened his eyes to see the passengers. His gaze scanned the place. He was surprised to find out that there were very few people inside the plane.

He recalled the number of people in the waiting area. He realised that not everyone had entered the flight. Maybe they have an issue with the permission.

He then removed the thoughts and closed his eyes. He doesn't know how long it will take to reach the 9th Zone.

Time flies,

The night time comes. Some of the passengers are watching movies. While others are sleeping.

Jeremy opened his eyes. There is no one beside him. It's an empty seat. Because of it he is having quiet time.

Thunderclap!

Suddenly, a loud thunderclap was heard. Jeremy spotted purple lightning in the sky. It spreads like a spider web the next second.

Everyone thought it's a natural phenomenon. Including Jeremy Night. But the sound was terrifying. If such a power were to land on their flight, it would explode.

Some of the passengers are panting. Quickly, the staff came to assure everyone.

On the other hand, Jeremy could still see the purple arcs in the sky. His eyes flashed with a doubt.

He then started using eye ability. He is trying to observe the details in the sky. Then he saw something incredible.

He sees a massive beak of a sky bird. It emerges out in the dark before disappearing. The visual impact was too much. He broke out into cold sweat.

"Colossal," His heart was in turmoil.

He had never seen such a massive beak before. Its body would be even more massive. He was stunned.

He continues to look at the outside scenes through the window. Fortunately, the thunderclap didn't appear again.

Everyone believed it's natural climatic occurrence. But he knows that's not the truth. They had just escaped from the death crisis.

It took him a long time to calm down. If the Colossal Sky Bird wanted to hurt them, then its snort could be enough.

He also noticed that there aren't any powerful beast tamers in the flight. The highest he has seen so far was the Tier-4 Beast Tamer.

Time flies,

After a few days of journey, the flight got closer to 9th Zone. They could feel the rich natural energy again.

It didn't take long for them to get near the city.

Since the route from 10th Zone to 9th Zone's A City passes via B-City.

He can exit here. They were already inside the 9th Zone. Through the window. He could see towering trees behind the city.

Surprisingly, the place appears to be a dark and gloomy forest. Jeremy Night did not like it. He hadn't felt this kind of vibe before.

In the broad day light, the place appears to be dark. If the Beast Invasion occurs it would be disastrous.

Chapter 542: Matteo and Lucas Rossi

9th Zone, City B:

The flight flew over the city wall and headed towards the airport. Jeremy Night's expression was solemn.

He could see that these people weren't aware of the ongoing threat. He thinks that City Governors here didn't announce anything about the Beast Invasion.

"Sigh!"

He breathed in a sigh. Then his gaze fell on the towering structures. The size of City B is equal to the size of City A in the 10th Zone.

Except he sees a lot more narrow streets and congested buildings. There are other rich residential areas as well. He thinks the economic difference is clearly visible here.

Before coming here, he assumed every human zone would be the same. But it's actually not. Even the infrastructure models are different here.

Soon, the flight came to the airport. Next, it's attempting to touch down the land. Jeremy sees that the flight landing was successful.

Next, the plane came to a halt. Then the passengers are ready to leave. Then the staff opened the exit door. The passengers started to leave one by one.

Soon, it was his turn. He exited and came outside. He then looks at large dark gloomy clouds in the sky.

The vibe of the city is quite dark. He thinks it's to do with the nature of the wilderness surrounding the City.

Then he checks the information sent by Head Neil. The friend of Head Neil belongs to the Rossi Family here. He is going to find a helper sent by them.

Then he started leaving with others. It didn't take long for him to complete the checkings to come outside.

Jeremy then started using his eyesight to scan the visitors. Then he saw a blonde haired middle aged man with pale skin tone and white tuxedo coming towards him.

He glanced with surprise. He didn't expect someone with a high profile to come.

"Are you Jeremy Night?" He asked.

"Yes, it's me. Are you from the Rossi Family?" Jeremy asked.

"Good, someone sent me here to pick you up. Let's go," He said.

Hearing that Jeremy agreed. Then he followed him towards a luxurious flying car. The car was in golden color. To be honest, it's eye-catching.

Jeremy's eyes flashes with a doubt. He thinks the identity of the blonde man was not simple. He didn't inquire about anything.

He followed him to the car and sat in the back seat. The person sat in the driver seat before starting the car.

Buzz!

The car hovers above the ground and appears in the mid air. Then the car started moving towards the destination.

The blonde haired middle aged man is keeping an eye on the young man. To be honest, he was shocked. He doesn't know why his Father would ask him to pick up Tier-2 Beast Tamer.

He was not trying to be rude. But there are countless Tier-2 Beast Tamers here. So he was perplexed right now.

Jeremy didn't fail to notice subtle changes in the expression of the middle aged man. His eyes are sharp. But he decided not to talk without knowing anything.

The flying car passes several streets and towering buildings. Jeremy noticed that this city lacked free space. Even the rich buildings don't have much space around them.

"Why don't they expand the city?" Jeremy thought.

Because it's nothing but the wilderness surrounding the City. He then shakes his head and buries the doubts in his heart.

Since he had just entered the city. He could collect the details later.

About 10 minutes later,

The car enters the gates community. Jeremy sees several villas. Soon, the car reaches the end. Where there is a big mansion.

Creak!

The door opened. The car entered inside and came to a halt at the parking area. The middle aged man then stepped out of the car.

Seeing that Jeremy stepped out of the car as well.

"Come with me!"

The middle aged man said. Hearing that Jeremy started following him. His gaze fell on the huge mansion.

He couldn't help but wonder whether other villas inside the community could belong to the same family.

He led me inside the mansion. We came to the living area. Then he saw a white haired old man seated at the chair.

The old man's gaze immediately fell on Jeremy. The next second, he felt completely exposed. He didn't know whether he could find any anomaly in his mental zone.

"Jeremy Night!" The old man uttered.

"My name is Matteo Rossi. I'm friend of your Head Neil Moon. I heard a lot about you from him. He can't stop his appreciation of you,"he added.

Jeremy was stunned. He knew Head Neil Moon had been keeping an eye on him. But he never heard high praise from him actually.

But he didn't expect he would tell his friend good things about him.

"Thanks for your kind words," Jeremy replied.

"Good, he sent you here to train under my guidance. Now that I looked at you. I can understand why?"

"You can be considered a genius for your age. You're just slightly weaker than the S-Grade Talent. But stronger than many A-Grade Talents."

"The A-Grade Talents in our city just reached Tier-2, 1st Rank but you have gone further and touched 6th Rank," The old man said with a smile.

The blonde haired middle aged man was shocked. He didn't know about this earlier. Now that he is listening to their conversation. It makes sense to him.

"You don't have to worry too much. We expect there could be a beast invasion in the coming days. If it happens you will join one of the family teams to fight."

"Are you ready for it?" Matteo asked.

"Okay. Elder," Jeremy replied.

"Good, you have any doubt you can ask my son here. His name is Lucas. He is a Tier-5 Beast Tamer," Matteo said.

Hearing that Jeremy was dumbfounded. He didn't expect the blonde haired man's identity to be his son. No wonder he looked rich and got a fancy car.

"Hi. Junior. My name is Lucas Rossi. If you need anything you can contact me. I'll give you my contact after showing your room," Lucas said with a smile.

Jeremy doesn't know what to say. He was still in shock. So he nodded to him.

Chapter 543: Meeting Nico Rossi!

9th Zone, B-City:

Matteo Family,

Jeremy then followed Mister Lucas. Mister Lucas led him to the guest room.

"This is your room. I'll assign a guide to you later. He can take you around the city. And this is my contact save it," Lucas said.

Hearing that Jeremy took his digital device out and saved his contact. Then he thanked him before watching him leave.

Jeremy feels thankful that he didn't have any conflict with this person. But it doesn't mean that he will let down his guard.

He will judge everyone based on their actions. He still remembered the advice given by Leader Gisela before coming here.

He understood that she didn't have good experiences in her early days. She must have faced bad encounters in other top zones.

Shaking his head, he walked into the room and locked the door.

On the other hand, Lucas Rossi was quite interested in this young friend after hearing about his strength. He quickly went to see his father in the study room.

Matteo Rossi wasn't surprised by his appearance.

"What did you see?" He asked.

"Father, this young man looked confident. He was not afraid of facing you and me. But he is just a Tier-2 Beast Tamer."

"Is that his combat strength really high?" Lucas asked as he pulled out the chair and sat down.

A sharp glint appeared in the old man's eyes.

"Yes, it's true. His information is confirmed by the Human Alliance. When he was in Tier-1, he killed a Tier-3 Beast and created a record."

"Later, his name was added to the genius list of the Human Alliance. But for some reason his name was not announced in the final list," Matteo said in a serious tone.

"He made it to the genius list. Then what happened?" Lucas asked. He was right. The young man was not ordinary.

He is someone who made it to the Genius List. How can he be ordinary?

"I guess it's related to his A-Grade Talent. The people in the Human Alliance pay attention to the S-Grade Talents."

"This kid's competitors might be S-Grade Talents. That's why he missed out the opportunity," Matteo added.

"Hiss, what bad luck?" Lucas replied.

"So pay attention to his request. Since I agree to watch over him. We don't want any mishap to happen to him."

"My friend's organisation is different from before. He had another friend running the main branch in the 5th Zone."

"We should befriend them," Matteo patiently explained.

Lucas was not a fool. He could understand that the background of the young man was special as well. There are still four zones higher than the 5th Zone.

But for them 5th Zone is still a powerful zone.

"Don't worry, father. I'll take care of him," Lucas replied.

"I'm not worried about you. I'm worried about other family members. Especially the descendants of other Elders. They naturally looked down on talent from other zones," Matteo said.

"You are right, father. I'll ask my men to watch over Jeremy Night. In case any problem occurs, I will intervene," Lucas assured his father.

Time goes by,

The evening time comes, Jeremy is watching the outside view from the attached balcony. He is paying attention to the natural energy in this place.

Earlier, when he tried to practise the inner healing method. He himself became moody. At first he didn't pay attention.

As the time passed, he became quite negative and grumpy. Unfortunately, with his Tier-2 Strength he could not find any difference in the natural energy.

So he stopped practicing. Ever since he stepped out of his home city, he has been coming across many strange things during his travels.

Now that city was added to the list. His gaze shifted to the sky. The sky looked darker in the daytime.

Now it looks creepy since the daylight has gone.

Knock!

There is a knock on the door. Hearing that Jeremy turned around. He doubted who could disturb him at this time.

Then he went to open the door.

Creak!

A person similar to his age was standing outside. He got the same blonder hair as well.

"Hi. My name is Nico Rossi. Cousin Lucas sent me here to help you. I heard you are a guest here. I can take you around the city," Nico said with a smile.

He looked spirited. More than that he got the opportunity to impress his cousin. His family is related to Elder Matteo Rossi.

They are working under him. If he makes a good impression, then it will be good for his family and him.

Jeremy's mouth curves into arc. In this moody place, he saw this bright person. He found it quite amusing.

"Okay. It's nice to meet you Nico. My name is Jeremy Night. Let's go, I want to explore the city," Jeremy said.

Nico nodded his head. He didn't expect the person to be nice as well. Then they immediately set off for the City journey.

About 10 minutes later,

A flying car left the gated community. The driver is driving the car. Both of them are seated in the back seats.

Nico is non-stop talking about the city. He is introducing famous places here.

Jeremy is listening and nodding to him. At the same time, he kept his eyes on the driver. The driver is an old man.

He can hear their conversation. So Jeremy is careful of not divulging any information.

Meanwhile,

Everything that happened at Matteo Rossi's home was known to the Family Head of the Rossi Family.

The Head of Rossi Family lives in separate territory with their own guards and servants.

Unlike the old generation families. The Beast families here are quite different. All of them are not living in one territory.

Since the city faces threats from the Beast Invasion. All the powerful Beast Tamers and their families are spread around the city.

In case something happens, they can respond immediately. By doing it, they can save the lives of a lot of people here. It also assures the locals and businesses here.

Chapter 544: Broken sword pendant!

9th Zone-City B:

The flying car came to the busy public square. Both of them exited and started observing the place. Jeremy sees that the city is filled with busy people. He sees hawkers and vendors.

What more? Jeremy is taken aback by surprise. The strength of these people were at least Tier-3.

"The public square is one of the famous spots here," Nico said from the side.

Then he started leading him to the different shops. Jeremy is still heightened his vigilance. After going around multiple shops, they came to the small market.

The small market is known for selling beast related items. Though the items belong to the lower tier beasts. Jeremy is not interested in this items

But the person leading him was different. He noticed Nico is Tier-2 Beast Tamer as well. He had brought him here to find some good items.

"If there is any interesting item, you can tell me. I will bargain for you,"Nico said.

Jeremy nodded to him. Then he saw that Nico was looking for items to buy as well. So he started paying attention to the items on the stalls.

It didn't take long for them to find the next stall. Where the stall is known for selling burial items. They dug up items belonging to the era before the mutation.

If the antiques are good, then there are people who always buy such items for decoration.

Nico went inside and started chatting enthusiastically with the shop owner. Jeremy looks at them before starting viewing the items by himself.

Then he came to the antique jewel section. His eyes sweep over the items. Just his gaze passes over a certain pendant.

He felt something. It was a fleeting moment. But he caught the moment with his sharp senses. His senses never went wrong.

Then he casually looks at the pendant. A sharp glint flashes in his eyes. Because the pendant was a half broken black sword pendant. It was covered in mud.

The sword symbol had faded. If not for his eye sight, he wouldn't have noticed it. His heart is stirred right now.

The sword symbol reminds of his own sword skill.

"Is there any technique hidden in it?" Jeremy thought.

He quickly decided to buy it. He doesn't plan to show his desire. He casually picked four pendants together and went to the shop owner.

Nico, who is speaking to the shop owner, saw this. He was surprised.

"Ha...Ha...Ha..., brother. I knew it. Our public square is known for having good items.

"How could it miss your eyes?" Nico said with a joyful laugh.

The middle aged shopkeeper was surprised. He knew Nico Rossi. The child from the Rossi Family. Not only that, Nico was a regular customer here.

If there is any interesting item, he would buy from him. He didn't expect him to bring out his new friend. His friend happens to be a new face.

Jeremy showed the items to Nico. But he showed no reaction on his face.

Nico received the four pendants. These four pendants are ordinary pendants. But it can be worn after some restoration work.

"Shop owner, I want to buy it. Give me the best price," Nico asked.

The middle aged shop owner smiled. He received the items and began to observe them. The four pendants are old items covered in mud.

He didn't do good work to clean this pendant. He felt embarrassed. Then he saw Nick's enthusiastic face. For an old customer, he decided to give it for free.

"Since you are a friend of our old customer Nico. You can take it for free," The shop owner said.

Jeremy was stunned. He didn't expect to gain such a thing for free. Then he didn't stand the ceremony. He thanked both of them.

Then he got the item and collected it into his storage ring. He decided to experiment with the item later.

Then they spent a few more minutes in the same shop. He didn't find anything else. Then the duo left the shop after thanking the shop keeper.

They decided to explore a few other places. Jeremy Night's eyes flashed with expectations. He casually strolled around the staff and came across the sword pendant.

He doesn't know whether he could stumble across such a treasure item again. Next, they went to another spot.

An hour later,

The duo returns to the mansion. After the public square, Nico showed him 2 more places. It's a market for luxurious people. You need some wealth to buy anything in that street.

More than that he didn't come across other treasure items. Jeremy Night was not interested in luxurious items either. So he decided to return. After returning to the mansion, they both parted ways.

Nico was happy. He did make a good impression. He thinks cousin Lucas would be happy. So he happily made his way back towards his home.

At this time, Jeremy Night returned to his room. He closed the door and went to his bedroom. Sitting on the bed, he took out the four pendants to examine.

Apart from the broken back sword pendant. The other items are ordinary. After examining them, he put them back inside the storage ring.

His gaze then fell on the sword pendant. His eyes flashed with a glint. He fears that black sword pendant could cause a phenomenon. He doesn't want to take risks here.

He was not 100% pure sure. The function of the Black pendant is unclear yet.

If the others found out about it, he won't have a good time. He then made a decision. It's not safe here. If he gets an opportunity in the wilderness in the coming days, then he will examine the item.

After making the decision, he collected the sword pendant into his storage ring. Then he went to take a bath.

Meanwhile

Matteo Rossi got the reports from his son Lucas. Apparently, one of the family children went as a guide for Jeremy Night.

Both of them were talkative. He learnt they went to the public square to explore. Matteo Rossi was impressed. He asked his son to reward the young man named Nico.

Chapter 545: Family children!

9th Zone-City B:

The following day,

Jeremy Night woke up early in the morning. He started doing his morning routine. The routine lasted for an hour. Then he shifted his attention to daily practice.

Unfortunately, there is no training room here. Besides, the natural energy is different here. It's not comfortable for him to practise.

He believes others knew about this situation. He decided to ask Nico later. He thought of the sword pendant as well.

He took the sword pendant out. A quick gleam appeared in his eyes. He is thinking about entering the wilderness.

But he doesn't know when the Beast Invasion will happen. If it doesn't happen it's still good news for him. It's just that he is getting impatient.

He wanted to access the sword pendant. Then he controlled his thoughts and took deep breaths. He placed the pendant inside a storage ring.

"I'm being reckless. There is no point in a hurry. Perhaps, I should inquire about the training room," Jeremy thought.

Then he began to rest on the sofa and started browsing the news online. The news from local media appeared on his feed.

Suddenly, his eyes caught something. Anonymous posts are talking about the weird changes in the wilderness.

His mouth curves into an arc. He thinks the locals will soon learn about the dire situation they were in.

Meanwhile,

Nico Rossi was in his home. Today he is planning to meet his brother Jeremy. Yesterday, they missed out on many places due to time constraints.

He wanted to take brother Jeremy around the city today. He walked out of the house and met his friends. They were all children of the Rossi Family.

"Nico, I heard Elder Matteo received a guest. He seems to be our age. People have seen both of you together. Tell me how strong he is?" A young man asked.

Nico was taken aback by surprise. He had thought they were moving discreetly. Yet people have found out about them.

"Yes, he is our guest. His name is Jeremy Night. But he is our age. He is Tier-2 Beast Tamer," Nico replied.

"What?"

"Tier-2 only. I had thought he was some kind of genius. Why would Elder Matteo give such treatment?" Another friend asked.

Nico doesn't know what to say. He himself doesn't know.

"Maybe he has some background. So stop thinking about it," Nico said to his friends.

He recalls the advice given by Cousin Lucas. He doesn't want anyone to offend Brother Jeremy Night.

Because of it he is careful of not offending the person despite both being Tier-2 Beast Tamers.

"Harumph!"

"It's too late. I heard someone from the family went to challenge him?" The young man revealed the news.

"What?" Nico's expression changes drastically.

His 2 friends dropped such shocking news. He knew they wouldn't lie. He vacated the place right away. He is going to meet Brother Jeremy and inform him to be careful.

Elder Matteo Mansion:

There are few young men and women here. The Guards didn't stop them. They are family childrens. They thought they were here to need Elder Matteo.

But these young men and women went to the courtyard.

The Guards are surprised. At this moment, they realised they were wrong. They don't know what's going on.

They decided to inform young master Lucas. Only he can order around these young men and women.

"Tck!"

"Where is he?"

"I heard Elder Matteo brought him here," a golden haired young man asked.

"Only Nico knows. He was with the stranger yesterday," a young female replied.

There are 2 male and 3 female Beast Tamers. All of them are Tier-2 Beast Tamers.

But they are from the main branch. Like Nico's parents, their parents are working under Elder Matteo Rossi.

"I'm sure he is hiding inside his room. He will come outside for sure," Another young man said.

While they were chatting and laughing. Nico Rossi made an entry. Upon seeing 6 familiar faces, his expression changes drastically.

They are known for having arrogant attitudes. These 6 people are always together. Nico knows that they are kind people. But their character is unbearable.

At this time, the six of them noticed Nico Rossi as well.

"Hey, look who has come here?"

"Nico, this way. Hurry up?"

They started calling him out. Hearing that Nico shakes his head before walking up towards them.

"Nico, where is the guest?"

"We have come here to meet him."

The young men and women started asking him questions.

Nico gritted his teeth and said, "Young Master Lucas told me not to offend him. It's the same for you guys. If you guys continue to create trouble, then I'll report to him."

"Young Master Lucas!"

The six of their faces change. They are quite unruly. But it doesn't mean that they would be the same facing Young Master Lucas.

They exchanged looks. They knew Nico wouldn't be joking with them. But they are unwilling to leave. They wanted to see whether the guest was a strong Beast Tamer or not.

"Let's go, we will think about something else," the golden haired young man said.

Hearing that others agreed. Then they started leaving. Nico watches them leaving. When the last one left the place. He breathed in a sigh of relief.

He averted a huge problem. If Brother Jeremy had conflict with these people, then the consequences would have been unimaginable.

Young Master Lucas would skin him alive. He collected his thoughts and went inside the mansion to meet Brother Jeremy Night.

The butler and the staff greeted him. He nodded to them before going towards Jeremy Night's room.

He then quickly arrived in front of the room. Looking at the locked door, he hesitated. He doesn't know whether brother Jeremy is free or not.

Knock!

The next second, he knocked on the door.

Jeremy Night was resting on the bed. Upon hearing the knocking sound, he opened his eyes. He then got out of the bed to open the door.

Creak!

Jeremy Night opened the door and saw Brother Nico standing outside. He was surprised. Because he didn't receive any message.

Chapter 546: Paid practise rooms!

9th Zone-B City:

"Brother Nico, what are you doing here?" Jeremy asked.

"Brother Jeremy, there are some problems," After saying that Nico walked inside the room.

Jeremy was stunned. He doesn't know what's going on. He closed the door before turning towards Nico.

Nico then brought up the topic. He started to tell what's happening outside. He was afraid that they would offend brother Jeremy Night.

When Jeremy Night heard this. He was not feeling offended. It's normal for people to pay attention to him. So he didn't take it seriously.

He then said,"You don't have to worry about it."

"Sigh!"

"Brother Jeremy, you are right. I'm thinking too much," Nico said with a sigh.

Jeremy then thought of something. He then looked at Nico and asked, "Nico, I need a place for practice. Can you recommend something?"

Hearing that Nico was stunned. Then he realised it's the truth. They don't have training rooms in their house.

They have a common facility for the entire Rossi Family. The facility is large. All the branches of the family children are training there.

Jeremy saw that Nico is taking too much time to think.

"What is it?" Jeremy asked.

Hearing that Nico recovered his thoughts.

He said, "Brother Jeremy, you don't know. The natural energy in our city is different. It has dark attributes. So we don't have typical training rooms to cultivate."

"Instead we have a common training facility. The training rooms there have formations which could filter the dark energy," Nico explained.

"I can take you there but we need permission from the Elder Matteo," he added.

"There is no need for it," Jeremy denied it.

He doesn't want to cause any commotion. If he goes there, then he might attract a lot of attention.

Nico sighed. He can understand that Brother Jeremy might be feeling bored. He then thought of another idea.

"Brother Jeremy, there is a way. But it will cost credit points," Nico asked.

"What is it?" Jeremy asked back.

"Our Beast Taming Association has paid training rooms for practice. You can use it," Nico replied.

Hearing that Jeremy's eyes glinted with understanding. He was worried that there would be no other ways.

"Alright, take me there," Jeremy said to him.

"Okay, let's go brother. I was planning to take you around the remaining places today," Nico said with a smile.

Then they both left the house. It didn't take long for them to walk out of the mansion.

Jeremy sees that there are no other Beast Tamers here. Then they came to the parking area and approached the car driver.

About 20 minutes later,

The flying car left the gated community. It continues to fly over the series of the infrastructure. Then it joins the traffic. There are other flying cars moving past them.

Jeremy's gaze is passing over other flying cars. They are in different sizes and shapes. He even spotted a flying bus carrying children.

All of this appears to be peaceful. But he knows that Undercurrents are surging. He doesn't want the beast invasion to happen.

He still vividly remembers the attack of Colossal Beast. Just a single attack had collapsed the entire city.

He just hopes such Colossal Beasts are not here. While he was thinking over it. The flying car got closer to the Beast Taming Association.

There is a massive circular building surrounded by huge compound walls. There are 6 wide floors with countless rooms.

Jeremy's eyes filled with surprise. The infrastructure here is 3 times larger than the 10th zone. Jeremy calmed down his heart. He is getting many visual impacts lately.

The flying car then landed on the ground slowly. When the driver parked the car. Then both of them stepped out of the car. Jeremy sees a massive 100ft building.

The buildings show that many Beast Tamers are members of the City B.

"Brother Jeremy, how is this building?"

"We got hundreds of members," Nico said with a smile.

Hearing that Jeremy didn't deny it. He could already feel the presence of the powerful Beast Tamers here.

"Brother, let's go. The paid training rooms are inside," Nico said.

Then both of them started walking towards the entrance. Jeremy's gaze is scanning the people passing by. He could tell each of their aura is extraordinary.

It's not like your average Beast Tamers going for a mission. Each of them is carrying some kind of oppression. It was dark and eerie. It reminds him of the weird negative wilderness here.

Click!

The next second, something clicked his mind.

"Don't tell me the changes are brought by the wilderness here," Jeremy thought.

If the Tier-3 Beast Tamer from here faces, the Tier-3 Beast Tamers from 10th Zone. He will have the upper hand because of oppressive black aura.

Now he is starting to realise why Head Neil has sent him here. It's not only because of the Beast Invasion. But because of the special environment here. It could improve one's aura.

Jeremy's eyes gleamed with excitement. He made the right decision to come outside. Otherwise, he wouldn't have realised it.

Then he recovered his thoughts and realised that they were in front of the entrance. Nico is using his Beast Taming License for inspection.

Seeing that he did the same. Then the door opened. Both of them walked inside. People's noise greeted him the next second.

Everyone is moving around. They seemed to be busy. Nico brought him to the Admin desk. There is a female staff member seated at the chair.

Nico started speaking to her. After knowing that they are here for paid training rooms. The female staff said the price. For one hour of practice, you need to pay 1000 credit points.

Jeremy was stunned. Then he realised the difficulty of getting a practise room here. He then agrees to pay.

"What about you?" Jeremy asked.

"I will wait for you here brother," Nico replied.

"No, you don't have to waste time. You can go back," Jeremy said.

"Brother, my cousin asked me to take care of you. Otherwise, he will be angry," Nico said.

Jeremy then nodded to him. He then got the key from the staff.

"Show me the room no," Nick asked.

"It's, 55," Jeremy replied.

Chapter 547: Time to earn money

9th Zone -City B:

Beast Taming Association,

A few minutes later, both of them arrived at the room.

"Brother Jeremy, you train here. I'll come here in an hour," Nico said with a smile.

Jeremy Night smiled. He then nodded to him. Then he turned around and used the passcode to enter.

Creak!

After going inside, the door closed automatically. Jeremy sees that the training room has quite a large space.

Not only you can practise breathing methods here.

You can train other skills of yours. Jeremy immediately thought of the sword pendant. But he controlled his desire.

First, he decided to focus on the breathing method. His gaze fell on the switches on the wall. He turned on the switch, allowing natural energy to enter the room.

Buzz!

An opening in the ceiling opened. A fresh natural energy started coming inside. Jeremy began to pay attention. Natural energy is pure without dark attributes.

Anyone can practice their breathing method here.

Sigh!

He breathed in a sigh of relief. Then he folded his legs and sat down. He then closed his eyes and started practicing the inner healing method.

The natural energy enters the body. He guided the energy according to the route mentioned in the inner healing method.

The cells have started absorbing the natural energy greedily. The internal organs are observing the natural energy as well.

Buzz!

Shortly afterwards, the unknown beast egg inside the mental zone started sucking the natural energy.

Time goes by,

Jeremy totally forgot about the time.

Meanwhile,

Nico Rossi is seated at the waiting area. He is reporting to his cousin Lucas. After knowing that Jeremy Night is using a paid practice room.

Lucas was surprised. He almost forgot that Jeremy Night was from the 10th Zone. The environment there is different.

Here, they have to use special rooms to practise. Otherwise, the dark attributes will slow down their training.

Nico also said that Brother Jeremy doesn't want to use family practice rooms. Those who were all reserved for the family members.

In the end, Lucas sent him money. In case if they need anything they can use this money. Nico was happy. He accepted it without any reservation.

When the call ended. Nico was still grinning. He was glad that he was able to make a good impression. His Cousin Lucas was not disappointed.

He knows it's all thanks to Brother Jeremy who is a nice going guy. From the little conversation with his cousin Lucas. He understood that Brother Jeremy came here for training.

Elder Matteo is responsible for the training. After knowing that he sucked a cold breath of air, he knows the elders are busy.

To make them pay attention, he thinks Brother Jeremy's background is unusual. He decided to warn his friends again.

Some of them are willful they could offend Brother Jeremy next time.

Buzz!

When the one hour ended. The natural energy began to decrease. The credit points come to an end.

Jeremy opened his eyes. His eyes flashed with a sharp glint. Not long ago, he reached 6th Rank Mid Stage. Now, his physique has gone one step further.

He thinks he will soon reach the barrier. Once he breaks the barrier, he will reach Peak stage. That day is not faraway.

Then he stood up and turned off the switch. He understood that without money you can't practice in this city.

Now he needs to make some money. He can't stay inside the Mansion and wait for the Beast Invasion to occur.

Creak!

He opened the door and walked out. He spotted Nico Rossi coming towards him.

"Brother Jeremy, how was the training?" Nico asked.

"It went well. But I understand that I need money now," He started walking while saying that.

Nico is walking side by side. He remembers the money given by Cousin Lucas.

"Brother, you don't have to worry about money. I have some with me. It's credited by brother Lucas. If you need anything you can use the money," Nico said. He was honest and revealed the truth.

"Brother Lucas," Jeremy uttered.

He understood that Elder Matteo asked his son to take care of him. But he doesn't want it for free. It's just money, he can earn by hunting the corrupted beasts.

"I don't need that. I guess you already know why I'm here. I wanted to train in the wilderness here. I can earn money by hunting the corrupted beasts," Jeremy said.

Nico Rossi understood that he can't persuade his brother. In this little time, he understood brother Jeremy's character. He is a strong willed person.

Nico greeted his teeth and said, "Brother, wait. I'll talk to my parents. After getting their permission, we can enter the wilderness together."

"No, I'm going alone. I'm just going to wander around the periphery to hunt some lower tier beasts. You don't have to waste time. "

"If you want you can wait for me at the city gate, I'll come back in 2 hours," Jeremy replied.

Nico gave some thought and nodded his head. He never went alone to the wilderness. The Rossi Family has many Beast Taming Teams. He is part of one as well.

They walked out of the building and approached the flying car. Without Nico realising, Jeremy is observing another person's aura.

Nico's aura is better than average. But it's not oppressive as the Elite Beast Tamers. He wanted to ask him but before that he decided to do the experiment in the wilderness.

A few minutes later,

The flying car departed towards the City Wall.

"Brother, where is your armour?"

"The guards won't allow you," Nico said.

Hearing that Jeremy was stunned. He didn't think about it. Then he realised that it was a different city and had different rules.

"I have it here with me. Is there any place to change?" Jeremy asked.

"Good, there is a medic building near the city wall. We can go there," Nico said.

A hint of seriousness flashes in Jeremy's eyes. He already understood that there are strict rules here. He felt good that he asked Nico Rossi to accompany him.

About 20 minutes later,

The flying car arrived before the medic building. Both of them stepped out. Nico paid the fare.

Chapter 548: Tier-2, Mantis Corrupted Beast

9th Zone, B-City, Wilderness:

After going inside the medic building, Jeremy found a dress changing room and quickly wore his battle armour.

When Nico saw Brother Jeremy coming out. His eyes flashed with a surprise. Because he saw the battle armour was new without any scratches.

It can confirm that Brother Jeremy has indeed come for training. Then Nico led his brother to the gate. The Guards are inspecting people who are coming and going out.

Jeremy's eyes flickered. He could tell that news about the beast invasion was not released yet. That's why the Beast Taming Teams are going about their business.

He joined the line and stood behind the Beast Tamer.

"Brother, I'm going to wait here. You have my contact address. You can contact me after coming back," Nico said.

There is a huge building near the administration building. The Beast Tamers usually rest there. He is going to wait for Jeremy Night there.

"Okay," Jeremy replied.

He already spotted a building in the distance. Many of the Beast Tamers are resting there.

When Nico disappeared from sight. He turned towards the line. He is going to use the Beast Taming License given to him in the 10th Zone.

Soon, his turn came. He stopped forward and gave his card to the guard. The Guard glanced at the license. The license was the same design.

After checking he received the license back. Then he placed the license inside the storage ring. Then he entered the wilderness through the gate.

The battle armour he is wearing, comes with the helmet. But he is not wearing one. After walking away from the gate, he started heading towards the periphery area.

Since he knew the under current was surging in the wilderness. He is not stupid to venture deeper into the woods.

While walking, he takes out a new grade-3 Katana with a single edge. He touches the fine blade. He doesn't know what type of materials were used.

But there are intricate designs printed on the blade surface. It looks beautiful. The scabbard was a mix of green and purple. The blade handle matches the scabbard with purple and green mix color.

He then gripped the katana and continued looking for the corrupted beast. His eyes are wandering around the surroundings.

In this broad day light, very little light touches the ground surface. A large canopy made of a series of monstrous trees covers the top.

He is taking steps slowly. The ground is covered with dry fallen leaves. There is no actual path. He is making it on himself. At the same time, he is making route marks. So that he can get back to the city later.

Buzz!

Suddenly, he heard a sound. He paused his footsteps and perked up his ears. He then started looking around.

Buzz!

A 1 metres tall mantis insect beast flies past him. Jeremy raised his eyebrows in surprise. Because you can only find the insect type beasts in a specific environment. He didn't expect to see it here.

Buzz!

In a flash, the mantis beast appears before him. Its compound eyes were looking at him. Looking at the human height beast in front of him, he gripped the handle tightly.

He saw through the strength of the beast. It's a Tier-2 Corrupted Beast. Why is it corrupted? Because the compound eyes are blood red in color. He could feel the madness from those eyes.

Not only that he could feel dark vibes from the beast.

Buzz!

The Mantis beast uses hind wings and charges forward to attack. For Mantis beast, the human is a Tier-2 Beast Tamer. It doesn't feel like a threat.

Jeremy's eyesight is sharp. His gaze never left the beast. The speed of Tier-2 Beast appears very slow in his eyes. He had someone who hunted Tier-3 and Tier-4 beasts regularly.

Killing Tier-2 Beast is easy for him. That's what happened next.

Swoosh!

At the last moment, Jeremy stopped. His body moved but he casually swung the blade using his eyesight.

Slash!

His move accurately pinpointed and went slashing the neck region. The blade swept across the neck severing the head.

Puchak!

A torrent of blood gushes forth. Next, the decapitated head rolled over the ground. The beast dropped to the ground with a heavy thud. The process went smoothly.

His gaze fell on the corpse. He began to observe. The dark aura is released from the corpse. He was not wrong. Fortunately, he ended the mantis beast life in one move.

It may appear to be a casual move. But he knows it was a precise strike. He then collected the beast corpse and headed into the storage ring.

Swoosh!

He then departed from the location. Since he came across the insect beasts. He believes there must be insect beasts nearby.

In order to sell these corpses, he has to be careful in striking the beasts. No one buys mutilated corpses.

Not long after, he spotted Beast Taming Teams. He could see them from this distance. The Beast Tamers appears to be in his age.

But they were all moving as a team. He became interested. He doesn't know the level of the Beast Tamers here. Especially the Beast Tamers in his group.

He had only met Nico Rossi from the Rossi Family. So he doesn't know the combat power of the genius beast tamers in the city.

Matteo Rossi Mansion:

Study room,

Matteo seated at his seat going through the reports. When he is done with the last one. The image of Jeremy Night comes to his mind.

"What is he doing?" He asked himself.

Then he called his son Lucas Rossi. Then he learned from his son that Jeremy Night is exploring the city with one of the family children. So he was relaxed and ended the call.

If he knows Jeremy Night entered the wilderness, he won't be this calm. The family is getting reports that many beast tamers are dying.

Yet the city administration is hesitating to make a decision. They were all waiting for the corrupted beasts to make their move first.

The Beast Taming Families don't have any choice to follow them. But they have reduced the number of teams entering the wilderness.

Only the Elite Teams from the Rossi Family are making trips to the wilderness.

Chapter 549: 3000 Credit points!

9th Zone, B-City:

2 hours later,

Jeremy Night returned to the city. Apart from the Tier-2 Mantis, he did not find any other beast in the limited time. He had already given his word to Nico Rossi.

He must be waiting for him. Soon, he meets Nico who was waiting for him.

"Brother Jeremy, you are back!"

"How did it go?" Nico asked.

"I hunted Tier-2 Mantis, " Jeremy replied.

"Wow!"

"Tier-2 Mantis. It's known for its speed. I had never heard anyone hunting it solo. Brother, your lifeline beast must be strong," Nico started praising.

"Alright, let's go to the Beast Taming Association Store," Jeremy said.

"Brother, you can sell the beast corpse to our Rossi Family Store. We will give you the best price, " Nico said.

"No, I'm going to sell it to the Beast Taming Association Store. I have my own reasons for doing it," Jeremy replied.

"Oh," Nico uttered. But he didn't think too much about it. Both of them left for the Beast Taming Association Store.

They have to return to the same building. The store is located in that Massive Building as well. Jeremy didn't plan on wasting Nico's time.

Once gets used to the city, he will go out alone. The risk of the Beast Invasion still exists.

It didn't take long for them to get there. When they entered the building, Nico quickly led him to the store.

Jeremy was curious how much the corpse will fetch for. Upon arriving at the store, he told his purpose to the staff. Next, they came to a wide spacious room.

The massive beast corpse can be placed here. Under the expectant eyes of everyone, he took the mantis body out and placed it on the floor. He also took the decapitated head and placed it near the body.

Gasp!

A surprise gasp sounded from the staff mouth. He came to evaluate the corpse. But he didn't expect to fully preserved one. Only the head was separated from the body.

The staff saw the young man's Tier-2 strength. He started suspecting him as a genius already.

Nico was more shocked. It's one thing to do a solo hunt but to kill the beast in one strike is another thing. Nico's expression changes.

For the first time, he thinks Brother Jeremy is not ordinary. Others should be worried about him. If they needlessly try to offend him, then they will suffer.

Now he understood why Cousin Lucas was paying close to attention to Brother Jeremy.

He then thought of something and said, "Brother a completely intact corpse is valuable. It will be sold for a high price."

Hearing that staff's mouth twitches.

Jeremy nodded to him. Then he turned towards the staff. He wanted to know the price.

"I'll go and bring the manager," After saying that the staff left. Obviously, he can't make a decision about it.

Shortly afterwards,

An old man came. His gaze lingers on two customers before turning towards the intact corpse. The Mantis body was completely preserved.

There is no knife or wound mark in it. The old man completely believed the staff's words now.

"I can give 3000 credit points. It's the best price. If you go to other shops. The price will be under a similar range,"the old man said.

"Alright," Jeremy replied.

He didn't want to waste time. He takes it as a learning experience. If he comes back with a lot more to hunt, he can make a good bargain then.

They came to the front floor. The old man paid the 3000 credit points to Jeremy Night's account. Nico was thinking what would be the price in their family store.

After the work was completed, both of them made a return journey to the Matteo Rossi Residence.

About 20 minutes later,

Both of them arrived at the mansion. Jeremy asked the doubt which was bothering me for a while.

"Do you know the dark aura coming from the corpse of the mantis beast?" He asked.

Nico was surprised. Because it was common knowledge. Then he realised Brother Jeremy went to the wilderness for the first time.

"Brother, if you are talking about the black aura. It's something special to the environment here. Even the Beast Tamers and their lifeline beasts develop such strong aura if they stay in the wilderness for longtime,"

Nico said in a serious tone.

Jeremy nodded to him. He was right. One can have such aura by training in the wilderness here.

They reached the courtyard and pulled out the chair each to sit down. Jeremy then started asking general questions regarding the wilderness.

He wanted to know about the border and dangerous places. Nico himself had little knowledge. But he is sharing everything he knows to brother Jeremy.

Wilderness:

Somewhere in the border. There is a long narrow trench created by higher tier ground beasts here. Right now, the trench is soaked with blood and mutilated corpses.

From time to time, corrupted beasts take corpses from the trenches as food.

Hiss!

A sudden hissing caused four legged beasts to be petrified in fear. A towering 20ft Purple Gem Snake appears at the trench.

It opened its mouth to swallow multiple corpses at the same time. It ate more than 20 corpses in the blink of an eye.

Hiss!

The Purple Gem Snake Corrupted Beasts hissed out again. It feels like the number of foods was not large enough. It won't fill its stomach.

How can it fill the stomach of the family? The Purely Gem Snake turned towards the city. The corpses are brought here by killing the Beast Tamers.

If they need more food, they can only attack the city. But the higher tier beast is intelligent. It knows the powerful Beast Tamers in the city. It can't do the job alone.

The Purple Gem Snake decided to contact other beasts who were in need of food as well. After making the decision, the snake beast begins devouring again.

If the scene was seen by the locals of the City B, it would send a cold shiver down their spine. The Beast Tamers entering the wilderness have become targets for higher tier beasts.

Chapter 550: Tension surged

9th Zone, B-City:

After some discussion, Nico left for home. Jeremy then went inside the mansion. The butler greeted him. He nodded to him before going towards his room.

After coming to his room, he locked the door and came to the sofa to sit. He got some understanding of the wilderness.

Like Leader Gisela said the wilderness here is dominated by a few higher tiers beasts. The species of the same kind are large in numbers.

He felt glad that he didn't recklessly enter the wilderness.

Meanwhile,

The name of the newcomer started spreading around the family children. A few of them tried to meet him. But they returned dejected.

If anyone could force into the Elder's mansion, then the main branch family can. But the main family's children had no interest in meeting someone else's guest.

Time goes by,

When it was night time. He rested on the bed to sleep. But he wasn't able to sleep at all. His heart is restless. This feeling is not good.

He started recalling today's events in his mind. Everything went well. It's just that he refused to come in close contact with the Rossi Family.

Knowing Elder Matteo was enough. Since he got the credit points. He should start visiting the Beast Taming Association myself.

—

The following day,

After getting ready, Jeremy walked out of the mansion. Then he entered the flying cab and departed for the Beast Taming Association.

Before leaving, Jeremy didn't forget to inform Butler. So that Elder Matteo can rest assured. The Butler hesitated to allow him to go.

But he was not a kid. He had assured him that he is going to the Beast Taming Association for the paid room practice.

About 20 minutes later,

The flying cab touched down in front of the familiar towering building. He stepped out of the car and paid the fare to the driver.

Jeremy then started walking up to the entrance. He was familiar with the place. So he quickly paid the credit points for 3 hours.

He then got the passcode before going towards the room. Soon, he arrived in the room. He used the passcode to enter.

Inside, the door closed automatically.

Buzz!

A pure natural energy started filling the room. Jeremy didn't want to waste anymore time. He knows that time is precise.

He folded his legs and sat down. Then he closed his eyes and started practicing the inner healing method.

Buzz!

The unknown beast egg inside the mental zone reacted. It started to suck the natural energy. Feeling that Jeremy Night didn't feel loss.

Since both of them are absorbing the natural energy. He thinks credit points are worth it. Besides, there is nothing else here he could offer to the unknown beast egg.

He had found that it didn't absorb natural energy from here. He decided to pay attention to this matter later.

Now, he started focusing on the breathing method.

Time flies by,

As the natural energy enters the body, the cells are greedily absorbing the natural energy. Like they were starving for a long time.

Meanwhile,

Nico Rossi goes to the Matteo Mansion. Upon arriving there, he found out from Butler that Brother Jeremy went to the Beast Taming Association alone.

He was shocked. A slight anger rose in his heart. Then he recalled brother Jeremy's words. He had come here for training. So he might want to do things alone.

Still, he knows the dangers of the city. They are not the only big family here. Butler advised the same. He doesn't want the guest to run into other families.

Then Nico immediately left for the beast taming association.

Butler shared the news with Elder Matteo. When Elder Matteo heard it. He was surprised. Then his eyes flashed with a hint of approval.

He felt that kid was not afraid of running into dangers. He knew that kid had faced the Beast Invasion before in the 10th Zone.

Many of the family children here never faced true beast invasion. They have faced attacks from the higher tier beasts from time to time.

But the family elders have taken care of them. During true Beast Invasion, one has to take care of oneself.

He thinks it's a good opportunity for the family children to meet Jeremy Night. So that some of the children won't run arrogant.

He then told Butler to tell Jeremy Night to meet him once he returns. After saying that he left for work.

3 hours later,

Jeremy opened his eyes. The natural energy stopped coming. He then stood up to leave. The practice went well.

Creak!

He walked out of the door. The next second, he was stunned after seeing the person in front of him.

"Nico, what are you doing here?" Jeremy asked.

He didn't want to bother him. Yet Nico came looking for him.

Nico shows little anger on his face. Then he calmed his heart.

"Brother Jeremy, I know you wanted to be alone. There is a reason why cousin Lucas wanted me to be with you."

"We are not the only Beast Taming Family here. We got rivals as well. We don't want you to encounter them," Nico said in a solemn tone.

Jeremy's eyes glinted with understanding. But why would anyone mess with him for no reason? But still he doesn't want to say anything.

"It's okay. I just came here for practice," Jeremy replied.

Nico nodded. Then both started going to the lobby.

Jeremy didn't leave immediately. He went to use the bathroom facility here.

So Nico started waiting in the lobby. But unexpected things do happen. They are not the only ones who came to the Beast Taming Association.

Nico spotted people from the rival family. Most importantly, he spotted his peers. If it were elders, they wouldn't bother young people.

It's different for young people to meet. Nico is hoping that they won't see him. When they were gone from his sight.

"Phew!"

He heaved a sigh of relief. No one saw him.

Then he thought of Brother Jeremy. He wants to take Brother Jeremy away from this place as soon as possible.
