

## **STRIKER 551**

Chapter 551: Arthur Croft

9th Zone-City B:

After getting freshened, Jeremy came back to the lobby. He saw Nico seated at his seat, looking quite worried.

He thinks it's related to him. So he didn't mind and walked up to him.

Nico notices Brother Jeremy. He felt a huge weight lifted off from his shoulder.

"Brother, you are here. Let's go," Nico said in an urgent tone. He doesn't want to bump into those guys.

Jeremy felt quite strange. But he didn't ask him. Then they walked out of the building and proceeded to walk towards the flying cab.

Nico is getting relaxed. He thinks they have avoided the trouble.

"Hey, look who we got here?"

"Someone from the Rossi Family is going out alone."

An annoying voice reached their ears. Jeremy's eyes flickered. He saw Nico's eyes change. Then he recalled his previous words.

"Rival Family," Jeremy thought.

Then both of them turned around and saw a Tier-2 Red haired young man with pale skin tone coming towards them. There are 2 men in uniform accompanying him. They are Tier-4 Beast Tamers.

"Arthur Croft," Nico lost his voice, he utters in a low tone.

"What happened?" Jeremy asked.

He is smelling trouble.

The young man heard their mumbling. His smile got wider.

He said, "You seem to be a new face here. Let me introduce myself. My name is Arthur Croft. I'm from the Beast Taming Croft Family."

Jeremy heard it. He is going to have a headache. No wonder Nico was against him coming out.

"Arthur, stop bothering us. We have work to do," After saying Nico turned around to leave.

Jeremy Night turned around and started walking together.

Arthur's face darkened. He noticed that the new face is a Tier-2 Beast Tamer. He got a good opportunity. If he bullies Nico Rossi here, no one will be able to help him.

"Ha...Ha...Ha...,"

"Capture two of them," Arthur said with a laugh.

He is planning to teach a small lesson. This place is the Beast Taming Association. He can't cause trouble here.

"Brother Jeremy," Nico uttered. His eyes flashed with fear. They can't handle Tier-4 Beast Tamer.

Jeremy saw Nico's face. He sighed inwardly. He wanted to be low key. But it appears to be impossible.

"Don't worry," Jeremy uttered.

From his side glance, he saw 2 Tier-4 Beast Tamers about to touch him. His eyes flashed with a cold glint.

Swoosh!

Jeremy turns around and unsheathes his blade. Next, he made a few slashes casually.

In a flash, their clothes are cut down. Their bare bodies became visible.

"My blade can hurt your eyes and ears next time," Jeremy said with a smile.

Hearing that Tier-4 Beast Tamers were petrified. They looked at their condition and realised that they were close to death.

Swoosh!

They broke out into cold sweat and quickly returned to their master's side.

The red haired young man wide opened his mouth. He didn't take the new face seriously. But he was able to make such precision cuts. His eyes filled with fear.

"Who is he?" He uttered.

He knew if that new face attacked him. It would have resulted in an embarrassing situation. Right now, he doesn't want to stay here. He vacated the place with his men.

This small episode was not witnessed by many. But there are few passing by Beast Taming Teams. They noticed the blade cuts.

"What sword control? "

"He doesn't seem to be a beginner for his Tier-2 stage."

"Which family prodigy is he?"

The veteran beast tamers praised. They were more curious about the identity. There are discerning people who recognised the identity of the Rossi and Croft Family children.

They are expecting some good shows in the future.

On the other hand, Jeremy and Nico entered the flying cab. The cab departed from the place shortly.

About 20 minutes later,

The cab dropped them at the gate community. Both of them decided to walk over to the mansion. Since no one was here.

Jeremy Night decided to ask about the Red haired young man.

"So, who are they?" He asked.

"I knew it brother. You would definitely ask me. Remember, I told you. We got a rival family as well. "

"He is from the Croft Family. It's one of the Beast Taming Family. Like me, he is from the branch. But his branch is second to the main branch."

"That's why he had people accompanying him," Nico said with a smile. Since they are back in territory. He is feeling a lot more relaxed.

Then he thought of something.

He said, "Brother Jeremy, I never thought you are so skilled in blades. No wonder you are carrying the blade with you."

"Is that your talent related to blades?" He asked.

A quick gleam appeared in Jeremy Night's eyes. If he had blade talent, he would have mastered the Intermediate stage already.

Right now, he is slightly better than basic skills.

"You will know soon," Jeremy replied.

Nico was dumbfounded. "Brother, you can talk," He replied. He remembers he was the one who was speaking constantly to him. While the other party listens quietly to him.

Then they reached the mansion gate. Both of them walked in. To their surprise, they came across the butler.

"Mister, Jeremy. The master wanted to see you. But he is outside right now. Once he returns I'll call you," Butler said.

"Okay," Jeremy replied.

"Brother, I'm leaving. I'll see you in the evening," Nico decided to leave.

Jeremy nodded to him. Then he walked into the building and headed towards his room.

After reaching his room, he closed the door and began to take a rest. He had thought he could make use of the Beast Taming Association's facilities for training.

But the appearance of the people from the Rival Family is quite annoying. The other part is especially looking for ways to mess with the Rossi Family.

He doesn't want to get caught between them.

"What to do?" Jeremy uttered.

His gaze fell on the window and through he saw the other buildings. If he could use Rossi Family Facility, it would be better.

But he doesn't want to cause problems. He has yet to know the attitude of these people.

Chapter 552: Elder Matteo was injured!

9th Zone, B-City:

Jeremy was in his room. He is simply swinging around the blade. He doesn't have room to train. It doesn't mean that he would waste time.

Without having a target to practice. He is imagining a target in his mind and fighting with him. Most of the corrupted beasts are massive in size.

The higher tier beasts are equal to the towering building. Most importantly, in front of the Colossal Beasts, the size of humans are like ants.

So when facing such dangers. He won't have much time for repeated strikes. To win, he needed to end the beast in one or two moves.

So he is currently focused on precision strikes.

---

Meanwhile,

Arthur Croft went back to the family with the guards. The guards have changed their dress on the way. But they never forget the humiliation.

Especially Arthur Croft, he was scared today. He decided to share the news with cousin , brother and sisters. It's a big family.

He knew cousins from the main family are strong. But if they knew about it, they would scold him instead. So he is going to share among the trusted ones.

---

Time goes by,

A figure with bloodied dress enters the Matteo Mansion. The person is none other than Elder Matteo. His appearance immediately scared the servants.

He immediately went inside and asked the butler not to allow anyone to disturb him.

"Master is injured," the butler's pupil shrank.

He then immediately ordered the servants not to leak the news. Otherwise, they will be punished. The servants knew the punishment would be severe. So they kept silent.

Matteo comes to his study room and locks the door. Then he opened the hidden chamber and took the healing type treasures out.

Then he took a few for himself and his Lifeline beasts.

He then immediately sat down there to heal his injuries.

Time goes by,

In the evening, Lucas Rossi comes to the Mansion in a hurry. The butler told him the news. He couldn't believe his father was injured.

He immediately thought of the higher tier beasts. But he doesn't know which one is Tier-7 or Tier-8. Lucas' eyes turned red.

The locals don't know yet. But his father had filled him in with details earlier. He knew the city is going to face the beast invasion from some higher tier beasts.

He waited outside the study room.

At the same time, Jeremy left his room after getting ready. Butler told him that Elder Matteo wanted to meet him. But he doesn't know whether the Elder has come or not.

But whenever he walked past the servants. Their faces are grim. They were afraid to speak up. He then comes to the lobby and sees the Butler.

"Mister, Jeremy. The master has returned. But his condition is bad. You can talk to the young master. He is outside the study room," Butler said.

Hearing Jeremy was shocked. He knew the power of the Elder Matteo. He is someone similar to Head Neil Moon. He could be a Tier-8 Beast Tamer.

How could someone like him be hurt? His heart was in turmoil. Next, he goes to meet Lucas Rossi. He arrived at the study room and saw the blonde haired middle aged man.

"Mister Lucas," Jeremy greeted.

Hearing that Lucas raised his head and saw Jeremy Night coming. His tense brow slightly relaxed.

"I heard from Nico that you taught a lesson to the Croft Family Guards. You didn't have to do it. But thanks for intervening," Lucas said with a smile.

"One more thing, you can call me Brother Lucas," he added.

"Okay. Brother Lucas," Jeremy replied.

He doesn't care about the Croft Family right now. He wanted to know the well-being of the elderly.

"Brother Lucas, what happened?" Jeremy asked. He could see brother Lucas frowning. Something is bothering him.

"Sigh!"

"My father is injured right now. It foreshadows possible beast Invasion," Lucas said.

Jeremy's heart stirred again. He was right in his guess again. When Head Neil Moon sent him here. He didn't think much about it.

Right now, I'm starting to feel a life or death crisis.

Lucas notices Jeremy's expression.

He said, "Don't worry, it's just a higher tier beast. We don't have those Colossal's here."

"I wonder how you guys are living in the 10th Zone," he added.

Hearing that Jeremy's mood got better. The city won't be facing existential threat here. So most of the people are safe.

"Thank you. Brother," Jeremy replied.

"Ha...Ha...Ha..., it's okay. If I'm not wrong father must be using the healing treasures. So you don't worry about him," Lucas said.

Jeremy understood. Then both of them started waiting here.

A 2 hours later,

The door opens. "Both of you come inside," A weak voice sounded.

Hearing that Lucas rushed in first. Then Jeremy stepped inside. His heart was racing. He didn't know how bad the injury was.

Then walked up to the end of the study room and saw Elder Matteo seated inside the stone chamber cross legged.

Jeremy catches a clue with his eyesight. Elder Matteo's complexion looks better. There didn't seem to be a life or death situation.

Lucas sighed in relief as well.

"Father," Lucas called out.

Elder Matteo opened his eyes. A weak smile appeared on his face. His gaze fell on both Lucas and Jeremy.

He said, "This time we were careless and fell into the trap of higher tier purple gem snake beasts."

"Purple Gem Snake," Lucas' expression changes.

As a Tier-5 Beast Tamer he knows the power of the Purple Gem Snake. Their population is high. The city administration tried many times to eliminate them.

But because of the higher tier beasts they failed every time.

Jeremy is digesting the shocking information. He knew the horror of the higher tier beasts. He had escaped luckily from the clutches of the sky bird sometime ago.

Matteo then said, "The Purple Gem Snake population grows in astonishing numbers. They are hunting Beast Tamers for food."

"We found out the truth. It won't be long before we can expect a direct attack. It may be one or two days," he added.

Chapter 553: City Governors (City-B)

9th Zone, B-City:

Jeremy and Lucas' expressions were solemn. They could expect Beast Invasion in one or two days.

"Father, what should we do?" Lucas asked.

"Make preparations. I think we can start expecting orders from the City Administration soon," Matteo said.

"Now, you can go back to your room. I will head to the Main Family next," Matteo said.

Hearing that Jeremy and Lucas exited the study room.

"Brother Jeremy, if you want you can use training facilities here. No one will say anything," Lucas said.

"Okay," Jeremy replied.

Then they parted ways. Jeremy reaches back to his room. After entering inside, he closed the door. Then he walked to the sofa and sat down.

His expression was serious. Compared to before he was a lot stronger. He had thought he would become Tier-3 Beast Tamer soon before facing any major event.

Now, he is going to face one soon. He then recalled the beast's name. It's called Purple Gem Snake. He then takes out the device and starts looking for the information.

After typing it, he quickly found many articles. He selected one of them and began to read it.

Time goes by,

He was able to gather more information about the corrupted beasts. Including the purple gem snake and other beasts.

Like everyone said he figured out that this snake species is dangerous. Because of the powerful venom. There is an antidote available for the venom. It can be found at each store in this city.

But the problem is something else. If someone is inflicted with poison, then they need to be administered with an antidote within 15 minutes.

If not then the person will die due to corrosion of internal organs.

Gasp!

Jeremy sucked a cold breath of air. If he had entered deeper into the wilderness without an antidote, he would be facing death for sure.

Fortunately, yesterday he hunted in the periphery before returning to the city. He didn't want to repeat the same mistake again.

Since he is going to join the Rossi Family team. He believes they will give him an antidote. Then he collected his thoughts and continued to read about other corrupted beasts.

---

Meanwhile,

In the city administration, an intense meeting is taking place. Many Beast Tamers have died. Yet the City Governors had not taken any action.

They were waiting for Beast Invasion to occur. But other forces are simply dissatisfied with their decision.

Numerous people are dying each day. The Purple Gem Snake Beasts are looking for food. They are hunting Beast Tamers coming into their territory.

They are not leaving full corpses behind. It made the forces behind them angry. They have come here to seek a solution.

But the City Governors are not changing their mind.

In the main hall, people seated at three seats are facing others. They are the City Governors. The first one seated is a burly middle aged man. He has black hair and a beard.

His name is Black Carter. He is a Tier-8 Beast Tamer.

A female Tier-8 Beast Tamer sat next to him is a female City Governor. Her name is Chloe Morgan. She has long silky black hair and eyes.

The third person was a brown haired, middle aged man who appears to be in his fifties. His name is Carl Reed. He is a Tier-8 Beast Tamer as well.

Three of them are pillars of the City B. Hearing the various complaints from people. They are having headaches.

It's not like they don't want to do it. They haven't got clearance from the Human Alliance. They have also requested help from the City A.

The people from City A have their own work to do. They won't come to help until there is an actual beast invasion. Otherwise, they would be wasting time.

They had even requested help from the Human Alliance. They have asked them to wait. They will send someone to clear up the lairs of the higher tier beasts. So that beasts won't be able to reproduce anytime soon.

The City Governor Black frowned. He could tell everyone has lost their patience. Because the Beast Tamers are dying in large numbers.

"Alright," he said.

But his words fell like a thunderclap in everyone's ears and hearts. Among the people, the Family Head of the Rossi and Croft were here as well.

Quiet!

Next, there is a pin drop silence. Seeing that everyone was quiet. City Governor Black nodded his head.

"I'm going to take a look tonight. If the situation is dire, we can stop sending Beast Tamers to the wilderness," He said.

Gasp!

Everyone was taken aback by surprise. Then they understood that City Governors could have their own difficulties.

Since they have come this far. They can wait for a few more days. City Governor Black can check the situation in the meantime.

"City Governor Black has said it. Then we will listen to him."

"Governor Black. We respect your words!"

"Governor Black, we are taking our leave then."

The heads of the various forces decided to leave. They have come here to demand some answers. Now they have got something out of the meeting.

"Okay, you guys can leave," Governor Black said. His voice was neither loud or slow.

The heads of the various forces left the building one after another. When everyone was gone. It's time for the City Governors to discuss.

"Governor Black, are you serious?"

"It could be a trap set up by the higher tier beasts. They are intelligent," Chloe Morgan asked in a solemn tone.

Governor Carl's blue eyes flickered.

"Governor Black, these people are really impatient. If we recklessly venture into their territory, those beasts might use this as an excuse to attack our city," Carl said in a cold tone.

Governor Black has seniority above them. They have become City Governors later.

Governor Black's gaze is looking at the sky through the window. His gaze looks deep.

"The population of purple gem snakes has grown beyond our control. We failed to exterminate their lair. Now we are facing such problems," Black said.

"More than that I have a feeling that other higher tier beasts are involved. I'm going to try to lure them out. Maybe we can convince the human alliance for urgent help," he added.

Chapter 554: Cunning Beasts!

9th Zone, City-B:

"Senior Black, why don't we call people from the City A?" Carl asked.

"They have their own wilderness surroundings. Unless, Human Alliance gives permission. They won't come out to help," Black said.

"So let me first check out the situation. If things are really that serious, the Human Alliance can't ignore the threat," Black added.

Governor Chloe said, "Since you have decided. I'll accompany you as well. In case of an emergency, we can escape from their trickery."

"I'll be waiting here to help," Carl replied.

He understood that no one can stop Governor Black once makes a decision.

"There is no need for you guys to come. The higher tier beasts can sense the threat. If they know there is no powerful presence in the city, they will be alerted," Governor Black said.

Hearing that Chloe and Carl exchanged helpless looks. Governor Black is senior to them. They have to listen to him.

Black saw that they had become silent.

He nodded his head and said, "Since it's decided I'm going out in the middle of the night."

Time goes by,

The midnight time comes. The whole city is quiet except for some busy parts. Governor Black didn't use flight ability.

Like other Beast Tamers he is walking over towards the City Gate. He had already informed the City Guards.

Soon, he reached the place. Upon seeing his burly body and black hoodie. They recognised him. Then the city guard pretended to be verifying. Then he allowed him to leave.

Governor Black walked through the gate and stepped into the wilderness. His gaze swept across. He frowned. Because he found the number of beast tamers are less.

He immediately thought of those families. Before they could give any official statement. The officials have decided to send their family beast tamers later.

A cold glint appeared in his eyes. He knew if the Beast Invasion happens. Then this family can't hide back from their responsibilities.

Then he started going towards the wilderness. The city guards are watching him leave. None of them spoke anything.

They knew about the recent incidents. Many beast tamers have died in the wilderness. Their bodies were not found yet.

The city guards were scared. But right now, they were relieved that Governor Black is going to investigate the incident.

Swoosh!

As he disappears into the wilderness, he is moving towards the lair of the purple gem snake. Because the series of deaths caused by the purple gem snake.

He wanted to kill at least one before leaving. In a flash, he covers a large distance. He reached the inner area.

As he went towards the lair. He came across an unidentified corpse. Most of them are half eaten. He began to investigate them one by one.

He knows purple gem snakes like to swallow food. They won't waste anything even if it's a bone.

So these corpses are eaten by something else. Suddenly, one of the corpses caught his attention. The corpse was completely dry. There is no blood in it.

But his eyes caught black color hole on his body.

A dangerous conclusion comes to his mind.

"Those things are back," He uttered in a shock.

Compared to the purple gem snakes, these things are a calamity to the city. A never appeared before fear appeared in his eyes.

"What are these cunning beasts planning?" Black asked himself.

He knows that there is more than one type of Corrupted beasts living in the wilderness. The city faces a beast invasion crisis from those beasts as well.

But reports show that there is no activity from them. The casualty was less on their side. He shakes his head and continues to check a few more corpses.

Along the way, he found a similar cold dry corpse. The blood was completely sucked out. A similar black hole mark was seen.

His heart filled with hatred. As he continues with his search. He came across more such corpses. At this point, there is no speculation.

"Blood Steel Mosquito," He uttered the words with hatred.

One of the things got terrifying after mutation was mosquito species.

Due to some strange occurrences a few mosquito species were able to become higher tier beasts with human level intellect.

They were capable of producing terrifying mosquito corrupted beasts. Among such mosquitoes, one of them happen to inhabit this wilderness and grow.

They have their own lair. It's called the Blood cave. There is no light inside the cave. k if Tier-8 Beast Tamers enters the cave, he would face a hard time to leave the cave in one piece.

Governor Black's gaze hardened. The direction of the blood cave was not this one. He is going to the Purple Gem Snake lair.

Now that he encountered the evidence of the Blood Steel Mosquito. He collected the corpses into the storage ring for evidence.

If the news reaches those families that Blood Steel Mosquito has emerged, then they will be terrified.

Swoosh!

He continues his walk. It didn't take long for him to find another clue. By following the corpses he came to a trench.

The trench was created by ground beasts. Governor Back then flew over to check the trench. But when he saw what lies in the trench.

"Wretched things," He shouted with hatred.

The trench is filled with corpses of the human Beast Tamers. There is a clear sign of purple gem snake prints on the ground.

Hiss!

Right then, a hissing sound comes. A 20ft head emerges from the dense vegetation from the opposite side.

The Head alone is larger than human height. The overall length of the purple gem snake is over 80ft.

If it stands tall, it would be equal to a 100ft towering building.

Governor Black recognised the snake. It's one of the Purple Gem Snakes. It's a Tier-7 higher tier beast.

Yet its potent venom can kill Tier-8 Beast Tamers and harm Tier-9 Beast Tamers. That's why the Human Alliance is not sending out help right away.

They need a Tier-9 Lord who can take down Purple Gem Snake. Otherwise, the snake venom can harm Tier-9 Lord. It will cause damage to the Human Alliance.

Chapter 555: Making decisions!

9th-Zone, B-City Wilderness:

Hiss!

The snake beast started charging forward to attack. In a flash, it crossed over the trench and started to attack with its snake fangs.

Its huge monstrous body appears before Governor Black. He knew confrontation was unavoidable.

Boom!

The next second, he brought a huge black shield in front of him. The size of shield is almost human adult height.

Right then, the snake fangs struck the shield. He took a few steps backwards.

Hiss!

The purple snake beast momentum came to a halt. While hissing it watches the huge shield. Two Purple dents can be seen on the shield.

The fangs are so powerful that it almost tore through the shield. Not only that, purple venoms ejected from the fangs are corroding the shield.

If Governor Black was not careful, he would have been poisoned right now. His face looked solemn. He came to investigate but he discovered ugly truth.

He wants to go back. If he continues to fight here, it will attract other beasts. He had ordered Chloe and Carl to stay back. So he can't expect any help.

Swoosh!

While staring at the purple snake. He is retreating.

Hiss!

The purple snake didn't leave the trench. It slowly watches human beast tamer go. When the human beast tamer disappeared from its sight.

The purple snake moved back to the trench.

Governor Black is going back to the city. He had retrieved the corpses before the purple snake appeared.

He thinks the corpses were enough to prove Blood Steel Mosquitos involvement.

It didn't take long for him to reach the city. This time he didn't hide his whereabouts. He directly flew over the city wall and headed straight towards the city administration.

The guards at the city gate heaved a sigh of relief. They were worried that a big incident might occur. Now that Governor Black is back. They can be at ease.

But they didn't know Governor Black had returned because of the Blood Steel Mosquitos. If the guards were to know it would send a cold shiver down their spine.

The blood mosquito insect beast is a nightmare for local people. It's hard to deal with it.

Swoosh!

A few minutes later,

Governor Black comes back to the main building. Governor Chloe and Carl are already waiting for him.

"Senior"

Both of them greeted each other.

Black sat down in the main seat and turned towards others. His grim expression made the other 2 nervous.

"Senior, what happened?" Chloe asked.

Carl is looking at him with a solemn face as well.

Governor Black straightened his back. He then looks at them.

"I have discovered the traces of Blood Steel Mosquito," Black said in a cold tone.

"Blood Steel Mosquito," Chloe uttered in disbelief

"Impossible, there is no movement from the blood cave," Carl added.

It's unbelievable for them. But they knew Senior Black wouldn't say it without evidence. That makes them more afraid.

"I know. It's hard to believe. But it's true," After saying that he started recounting things to them.

10 minutes later,

Governor Chloe and Carl are quiet.

Tud!

Governor Black then put the dried corpses on the floor. The clear sign of blood sucking was on the corpses.

Swoosh!

Both Chloe and Carl appeared in front of the corpses. They have started inspecting it. They can tell whether the corpses were recent or old.

Their lifeline beasts can easily tell the difference.

Governor Black is watching them inspect. But he is already thinking about the next course of action.

He decided to ban people from entering the wilderness. He knows this comes with a risk. The hungry beasts can attack the city in search of food.

But it would be worse if beast tamers continued to die in the wilderness. Their strength will be reduced. You can't say that corrupted beasts won't attack the city then.

Then they will become easy lambs to slaughter.

"Senior, I'm convinced. Let's send the evidence to the Human Alliance and City A. They will send man power right away," Chloe said.

"Yes, senior. Purple Snake is dangerous. But these blood steel mosquitos are even more dangerous. We don't know how many higher tier beasts appeared this time," Carl said in a grim tone.

They are Tier-8 Beast Tamers themselves. Not only that, they have the support of the Tier-8 Lifeline beasts. But still they are wary of the corrupted beasts.

"Okay, I'm going to take care of that. You guys should release a statement saying that no one should enter the wilderness from next morning."

"Those who have entered should come back immediately," Black said to them.

Both the City Governors nodded their heads.

---

Matteo Mansion:

Next morning, Jeremy does his usual routine after getting out of the bed. He then practises imaginary training.

Brother Lucas told him to check out the training facility. He was quite reluctant to use their facility. But he doesn't have another choice right now.

He doesn't want to cause problems because of their rival family. He made up his mind to visit the training facility here.

Time goes by,

Jeremy is ready to leave an hour later. Right then, he got a message that Nico had come. He smiled and left the room.

Then he comes to the living area and sees Butler. He inquired about Elder Matteo. He told him that Elder Matteo was still with the main family.

Then he walked outside and saw Nico Rossi.

"Brother Jeremy, cousin Lucas asked me to take you to the training facility," Nico said.

Hearing that Jeremy raised his eyebrows in surprise. It saves his time. Then both of them left the place and started walking over to the training facility.

They crossed a few narrow streets and came to another broad road. There are houses on both sides of the street.

"The houses belong to the Rossi Family members," Nico said.

Jeremy nodded to him.

Buzz!

Just then Rossi's device buzzes with the modification. He takes out the device to check.

"What?" He uttered.

Before Jeremy could ask anything. Nico turned around and said, "Brother Jeremy, we can't enter the wilderness anymore. There is an official statement from the city administration."

Chapter 556: Elder Drake Rossi

9th Zone, B-City:

"What do you say?" Jeremy asked.

"It's true brother. Look at this news," Nico said before showing the device.

Jeremy received the device and his gaze fell on the official statement. He knew what the official statement looked like.

He sees that it was released by the City Administration. The City Governors are behind the statement.

After reading it, he was sure that Beast Invasion would occur. The City Governors banned people from entering the wilderness.

It shows that things were out of control. Even the City Governors couldn't do anything about it. His eyes gleamed with a twinkle.

He needs to improve himself. He broke through not long ago. He can only focus on sword skill. If he could understand the intermediate stage better.

Then he could kill the enemies without using the starlight power.

"Brother, what are you thinking?" Nico asked.

"It's nothing. Let's go to the training area first," Jeremy replied.

Nico collected the device into the storage ring. Then they started heading to the training facility. It didn't take long for them to arrive.

It's actually located at the end of the broad road. One could see huge compound walls surrounding the facility.

Then they came to the main entrance. People clad in yellow clothes are entering inside the facility. They are Beast Tamers of the Rossi Family.

Seeing this many people. Nico was stunned. He had not seen this many people coming to the training facility in a long time.

Jeremy is observing the changes as well. He doubts where he could get any room for training. Both of them went inside next.

Their appearance drew attention. Obviously, it's the training ground for the Rossi Family children. No outsider allowed here.

But they stopped after seeing Nico Rossi. They knew him. They heard he is doing work for Lucas Rossi, son of Elder Matteo.

So they are afraid to cause trouble.

"Brother, let's go," Nico said.

He was afraid that people would stop him. Two of them then entered the huge stone building. Inside there are many floors and corridors.

Nico quickly brought him to the training rooms which are located on the first floor.

"Brother the training rooms are here. You can practise inner breathing and weapon training inside the same room," Nico introduced the rooms.

Jeremy was glad that no one came to stir up trouble. He then asked, "How to use it?"

"Brother, you can use my badge," Nico said.

Then he came to the nearest room. Seeing that Jeremy walked up to him. A hint of struggle appeared in his eyes.

He said, "If I'm using your badge. Then what about you?"

"Are you going to miss your practice?" Jeremy asked.

He doesn't want to owe any favors. Nico smiled and said, "Brother, I have some other work to do. You can use it for the time being."

Jeremy knows he is lying. He sighed inwardly. He doesn't want to miss practice. He decides to help him out during the beast invasion.

"Alright," Jeremy said.

Nico then uses his badge to open the chamber.

Creak!

The chamber door opened. Jeremy received a Nico badge before going inside. The door behind me closed automatically.

Nico sighed in relief. He was worried that Brother Jeremy wouldn't go.

"Who is this kid?" A male voice sounded behind him.

Nico turned around and saw a burly middle aged man with blonde hair reaching shoulders.

He recognised the person. He is incharge of the training ground. His name is Drake Rossi. A Tier-5 Beast Tamer.

"Elder, the thing is ..." Nico started explaining.

A few minutes later,

"Since he is a guest of Elder Matteo. Then he can use the training facility. But it doesn't mean that you can relax. I'll open the next room for you."

"Go and practise," Drake said in a stern tone.

Hearing that a wry smile appeared on Nico's face. He was not expecting Elder to arrange room for him. He then agreed and went inside the next room.

"Elder Matteo's guest. But the kid is a Tier-2 Beast Tamer. Interesting .....", Drake said with a smile.

Then he went to monitor other children.

Inside the training room, Jeremy turned on the natural energy switch.

Buzz!

The natural energy started pouring inside the wide spacious chamber. Jeremy folded his legs and sat down.

The natural energy covered the room space in the blink of an eye. So much so mists started forming because of the richness.

Buzz!

The unknown beast egg becomes active once again. It started absorbing the rich natural energy. The rich natural energy appears inside the mental zone and gathers around the unknown beast egg.

They are being absorbed by the unknown beast egg slowly. Jeremy noticed it. Then he sighed in relief.

His breakthrough depends upon the lifeline beast. Since it started acting, he started practicing the inner healing method.

As the time goes by, the natural energy enters every part of his body. The cells are greedily absorbing the energy.

Like the Beast Taming Association's practice room. The room here has a filter. Which filters the negative dark attributes.

Time goes by,

He then lost the sense of time in practise.

---

Outside,

Elder Drake is teaching the Beast Tamers. Some of them had Lifeline beasts next to them. They are training at the same time.

While others wanted their lifeline beasts to learn first. After some session, he turned to address the Beast Tamers.

The yellow clad Beast Tamers are looking at the Elder Drake. They told him about the unknown outsider entering with Nico Rossi.

"Okay, forget about that. You guys should start training with your lifeline beasts more," Drake said in a serious tone.

He appears to be more strict than usual. The changes caught off guard the childrens. Drake was among the elders who attended a family meeting yesterday.

He knew what happened to the main elders who went to investigate the wilderness. Some of them are injured. The main elders are Beast Tamers with Tier-7 and Tier-8 strength.

Even if such people are injured, what about the rest of the family? That's why he doesn't want the children to slack.

Not only that he heard of Elder Matteo's injury. So he didn't make it difficult for Nico Rossi and the new face, Tier-2 Beast Tamer.

Chapter 557: Fear in patrol lines!

9th Zone, B-City:

Inside the practice, Jeremy started using the blade. He is practicing imaginary targets. He wants to get into the intermediate stage of sword skill.

The insights into the intermediate stage was not enough. So he devoted his time to practice. So much so he forgot about the outside noise including Nico Rossi.

As the time passes, he is getting better at it. He is engrossed in practising the sword skill.

---

Meanwhile,

The official statement has alarmed the city. The locals, Mercenary teams, small and medium sized organisations are shocked.

They got this notice out of nowhere. Their livelihood depends on the wilderness. If no one is allowed to enter, then how can they make money?

But people with discerning eyes can tell that something is wrong with the wilderness. The city administration noticed it and put the ban.

Especially, the Mercenary Teams who had lost members in the past few days had no problem in accepting the ban.

Because they too felt something was going on. Now the official statement confirmed their thoughts.

Now, they can avoid unnecessary losses. The organisations behind them can shut their mouth and won't force them to enter the wilderness.

So they all welcomed the ban.

On the other hand, the heads of the top organisations who had a meeting with the administration yesterday weren't surprised by the news.

They received intel that Governor Black returned from the wilderness last night. So he must have done an investigation before coming to this conclusion.

These organisations now face another headache. They don't know how long the ban will last.

As a big organisation, they can handle the loss for some time period. But not forever. If the ban continues for a longer period, they will face bankruptcy as well.

These heads have decided to have another meeting with the administration soon. If they go now, they will anger the City Governors.

As locals, they should give some time to Governors. So that they can solve the problems.

---

City administration:

Governor Black has already sent the intel with evidence to the Human Alliance. He shared the news with the governors of the City A and C.

These two cities are neighbouring cities. Unlike other beasts, the Blood Steel Mosquitos can travel from one place of the wilderness to another.

Even the powerful City A is wary of the Blood Steel Mosquitos. Black thinks that City A will send someone to help.

Otherwise, if the Blood Steel Mosquitos travels to their city. Then they will bring more danger.

Black is more looking forward to the Human Alliance's response. Earlier, they said that they will assign someone to come.

Now that he has given evidence. He thinks that higher ups will give priority to this matter.

Governor Chloe and Carl are monitoring the borders from time to time. They are not calm after hearing from Governor Black.

The higher tier beasts are cunning. They can launch attacks while being unprepared. Their actions have indirectly alerted the city guard captains and guards on the patrol.

They were looking at the wilderness with extra wariness. First the ban was issued. Second, the governors themselves came in person to monitor the border.

Such actions made them afraid. The guards couldn't help but discuss the beast attack.

Either it could be attacked from a single higher tier beast or it could be beast invasions from one particular group of corrupted beasts.

In both cases, they have to be careful.

---

That evening, Jeremy walked out the practice room with content. After coming to this city, he had been restless without having proper training time.

Now he can put his heart at ease. The problem of the training facility was solved. But he doesn't know when the beast invasion will occur. He wants to achieve a breakthrough in skills before that.

"Brother Jeremy!"

A familiar voice brought back his thoughts to reality. Then he turned around and saw Nico Rossi who seemed to be coming out of the training room.

"You ..what happened?" He asked out of confusion. Because Nico Rossi's badge was with him. So how did he use the practice room?

Nico was through brother Jeremy's doubts. He smiled happily and recounted things.

A few minutes later,

Jeremy's eyes glinted with understanding. It appears that the training ground has an elder in charge. He was not narrow minded and helped them to practise.

Jeremy thinks it must be due to the latest incident. Everyone was on edge and wanted to improve their strength.

Then he collected his thoughts and started going back towards the Mansion with Nico Rossi. This time he wanted to go back alone.

Since he knew the route he didn't want Nico Rossi to waste time. When he said this to him.

Nico Rossi immediately denied. He still holds the view that someone might come to cause troubles to them.

Jeremy shakes his head. He came to an understanding that it's difficult to persuade this person.

Soon, they came back to the Elder Matteo Mansion. It's time to part ways. Jeremy returned the badge to Nico Rossi.

"Brother, we can continue our practice next morning," After saying that Nico left the place.

But Jeremy's gaze stayed on his back. He doesn't have options to train with lifeline beasts. That's why he is honing his sword skills.

But what about Nico Rossi? He is not interested in prying into other people's lifeline. But if Nico Rossi needs any help in future he will do it.

Jeremy then walked into the building. He made small talk with the butler. Since he is a guest here. He can't be isolated.

These small talks with Butler give him crucial information.

"Elder, do you think beast invasion will occur?" Jeremy asked.

The old man's eyes flickered. He doesn't know why the Master received a guest during such a dire time. But he believes there must be some reason behind it.

"Mister Jeremy, I think it's better not say anything without Master's permission. But it's better for you to prepare for the worst case scenario," the old man said in a solemn tone.

Hearing that Jeremy nodded to him before going towards his room.

Chapter 558: Tier-2, 6th Rank - Peak Stage!

9th Zone, City-B:

Jeremy was back in his room. He took a bath before resting on the bed. The dark clouds are looking over the city.

He took time to check what the locals were saying online. Like he had guessed, they had no clue. The news media is careful not to speculate too much.

If they talk about the beast invasion without evidence they would receive wrathful from the City Governors.

So they are using mild tones in their news writing and reporting.

The day flew by, he continued the mundane routine not knowing when the incident would occur.

But one good thing though he is getting closer to the next breakthrough. It will be the 6th Rank Peak Stage next time. Once he reaches Peak Stage. It will give him more confidence.

---

Snake lair:

The various corrupted beasts in the wilderness have become restless due to lack of food. They ate human beast tamers from time to time.

But during the past couple of days no humans have entered the wilderness. This situation was noticed by the higher tier beasts. Including the Purple Gem Snake.

There are many higher tier beasts among the Purple Gem Snake groups. Including many Tier-6 and Tier-7 Ranks. There are few Tier-8 Ranks.

The oldest Tier-8 Snake Beast is close to becoming Tier-9. But it would take many days and resources for that.

That's why the City Governors are wary of the Snake Lair. Three of them combined make it difficult to bring down the lair.

That's why they needed the support of local powerhouses.

The higher tier beasts are smart as well. They knew the human city had many powerful beast tamers. That's why they don't attack the city unless necessary.

Now everyone is feeling the need for food. What could be a better target than the city? If they attack the city, they could kill the human Beast Tamers coming to defend.

Then they can drag the body back to the wilderness to devour. But by doing so it would weaken their status in the wilderness.

The other corrupted beasts can eye their snake lair. So these purple gem snakes are not in a hurry to attack the city.

The cunning snakes will attack if another group takes the charge.

Blood cave:

The blood steel mosquitos are craving for food. They had harmed other Corrupted beasts and Human Beast Tamers for food.

Now the human Beast Tamers stopped coming. The demands for food rise. If this situation continues they would have no choice other than to attack the human city.

At the same time, these Blood Steel Mosquitos are clever. If they get weakened, there are a lot of beasts that are eyeing to drive them out of the cave.

The blood cave has become long since their home. So they won't take action against the city unless it's necessary.

---

Days went by,

Inside the practice room. Jeremy Night, who had been focusing on his own training, reached the next stage today.

He closed his eyes and started running the breathing method. The natural energy gets into his body. He circulates them according to the routes mentioned in the inner healing method.

Ever since he consumed the mysterious green stone. The circulation of natural energy has become faster.

But he knows evolution relies on the lifeline beasts. If the lifeline beast is powerful, it can make him a powerful beast tamer in no time.

But he noticed his situation is quite different. His unknown egg lifeline beast egg is quite powerful.

Whenever he reaches the barrier. The unknown egg would notice it and attempt a breakthrough. Once the beast breakthroughs, he would receive feedback to attempt a breakthrough as well.

Today is one such day. It's been a few days since he touched the limit. He is not getting any progress further. The cells have stopped absorbing the natural energy.

Once he broke through, his body would evolve. Then his body cells would become active naturally.

Buzz!

Not long after the circulation of the natural energy. He felt the movement inside the mental zone.

The unknown beast egg vibrates before attracting more natural energy towards it.

The mental zone filled with natural energy in the blink of an eye. The unknown beast egg enveloped in white mists.

Click!

Jeremy is paying attention. The absorption continued until he felt shackles inside his body broken.

The next second, the feed back energy from the unknown egg entered his body and began to flow through his veins.

Tier-2, 6th Rank - Peak Stage!

His efforts became fruitful. The arduous training paid off. He was happy. These days have been tiring.

The breakthrough came at the right time. Next, he collected his thoughts and started focusing on stabilizing the energy.

One hour later,

He opened his eyes and felt the surge in strength within him. Next, he shifted his attention to the concentric circles on the huge black gate.

He saw 2 big circles shining bright. Then his focus became deeper and saw the 2nd Circle's have 3 empty blocks.

These 3 empty blocks represent the 7th, 8th and 9th stage. His heart had the yearning. He will soon reach the 9th Rank Peak Stage.

Next, he shifted his attention to the unknown beast egg. Now the unknown beast egg is surrounded by the misty milk liquid.

These white liquids have become thick and bright. He named it Starlight liquid. Even though it's a small stage breakthrough.

The power of the Starlight liquid has gone one step further. He can't wait to test the power.

A quick gleam appeared in his eyes. After coming here, not only did he have a breakthrough. His sword skills have become better.

Including his mastery in sword method : blade one move has improved. Unfortunately, the entry ban to the wilderness still persists.

Everyone is staying in their home. If the ban was not there, he would have already gone to the wilderness.

Then he stood up and turned off the function. The natural energy in the room disappears in the blink of an eye.

Creak!

He then opened the door and left.

Chapter 559: Part 1: Purple Gem Snake Invasion

9th Zone-B City:

Jeremy Night went back to the mansion. These days, he has been coming alone without Nico Rossi.

The children from the other families didn't cause any problems for him, so he had been having a peaceful time.

He told Nico Rossi to focus on his work; he didn't have to accompany him all day. Upon returning to the mansion, he headed back towards his room.

...

Wilderness:

The corrupted beasts had all become restless and impatient. None of the higher-tier beasts took chances to attack the city yet.

The Purple Gem Snakes were preparing to go out. They couldn't live without food anymore. If this hunger continues, they might eat each other.

The higher-tier beasts made a decision. They were more fearful of the oldest Tier-8 Corrupted Beast. They didn't want to become food for the Tier-8 Purple Gem Snake.

Currently, the Tier-8 Purple Gem Snake was in a deep sleep. Unless it woke up on its own, no one dared to disturb its sleep.

The Tier-7 Purple Gem Snakes decided to attack the city. At least they could catch the human Beast Tamers patrolling outside the city.

That night, a large number of Tier-5 and Tier-6 Purple Gem Snakes reached the city. The snakes surrounded the city in a short period of time.

City B was usually covered in dark clouds, and the forest appeared to be covered in a dark canopy.

The corrupted beasts here were more menacing, possessing dark attributes.

Their presence alone would scare others. Unless an experienced native Beast Tamer of the city came in, no one from outside could handle it.

At this time, the patrolling teams were doing their work. Most of them were pacing back and forth on top of the walls. There was a path connecting four watchtowers.

There were also guards on the ground. They were walking on foot while keeping an eye on the wilderness.

Between the city gate and the entrance of the wilderness, there was a vacant area without green patches.

If any of the corrupted beasts appeared, they could be spotted by guards from anywhere on top of the walls.

Swoosh!

Suddenly, one of the Tier-5 Purple Gem Snakes emerged from the bushes. It was a sprint. The speed was so fast that the guard was unaware of its approach.

The guard was a Tier-3 Beast Tamer. A black shadow came behind him before he could think further. His neck was bitten. A dark purple poison entered his body and killed him instantly.

Swoosh!

The Tier-5 snake, over 20ft long, swiftly dragged the corpse back into the woods. It was done with such speed that no city guards were alerted.

Swoosh!

In the blink of an eye, more than five guards were attacked at the same time and dragged into the forest. The Tier-6 Purple Gem Snakes were watching the scene from behind.

They wanted to snatch the food, but behind them, the Tier-7 Purple Gem Snakes had already given the command. The Tier-5 Purple Gem Snakes quickly dragged the corpses towards them.

The Tier-6 snakes were watching out for the enemy while the Tier-7 snakes enjoyed the food.

---

Five minutes ago:

The City Guard Captain felt something was wrong. He found five guards were missing. He immediately alerted the others.

The City Guard Captain and the patrol guards quickly found the traces of the beasts.

"It's the Purple Gem Snake," the Captain uttered.

The next second, he turned on the alarm function.

Alarm!

A loud emergency alarm started ringing. All the patrolling units immediately got alerted. Everyone rushed to defend the city walls.

Above the captains, there were various Heads. They were Tier-6 Beast Tamers. In the blink of an eye, these various Heads flew over the city wall.

Hiss!

The Tier-7 Purple Gem Snake realized that the humans were alerted. It immediately ordered the Tier-6 Snakes to attack. Before the Tier-6 Snakes, the human Beast Tamers were fragile.

The Tier-7 snakes could take care of the Human Tier-8 Beast Tamers. Their poison alone was enough to kill them.

In the blink of an eye, the Tier-6 Snakes rushed to the front. They ordered the Tier-5 Snakes to attack as well.

Hiss!

When the Tier-5 and Tier-6 Purple Gem Snakes made their appearance, the City Guards were stunned.

Boom!

Next, everyone brought their Lifeline Beasts outside for the fight. The City Guard Captain and guards were going to face the Tier-5 Snakes.

The fear of death covered everyone's hearts. The Purple Gem Snake was notorious, known for its deadly poison. The poison could kill across Tiers.

The various Heads above brought their Lifeline Beasts to fight against the Tier-6 snakes. At the same time, they sent an emergency signal.

Because the numbers of corrupted snakes were high, the city guards alone couldn't hold the front for a long time. They needed help from the family Beast Tamers.

Boom!

In the blink of an eye, a fierce fight started. Different types of Lifeline Beasts were bombarding the purple snakes with elemental attacks.

Kreee!

A Tier-6 Eagle Sky Bird grabbed a Tier-6 Snake and shot towards the sky. It was the Lifeline Beast of one of the Heads.

The Purple Gem Snake was struggling, but it had met its nemesis. It couldn't free itself from the sharp claws.

The sharp claws had a firm grip over the snake's body, so much so that the snake scales were cracking under pressure.

Swoosh!

In a flash, it flew over to the forest. Before it could continue, the Eagle Sky Bird faced a sense of crisis. It immediately freed its claws and dropped the snake beast from the sky.

Gulp!

It fled from the spot the next second. The Tier-6 Snake was about to land heavily on the ground when a huge mouth appeared all of a sudden and swallowed it.

It was the mouth of the Tier-7 Snake, which had just finished its human meal.

On the other hand, the Eagle Sky Bird went back to its Beast Tamer. She was an old woman and also one of the Heads. Her ability was related to eyesight.

More than that, she could use the eyesight of the Eagle Sky Bird. She saw Tier-7 Snakes lurking in the shadows. One of them was right below the Eagle Sky Bird earlier.

She made the decision to drop the snake and rescue her Lifeline Beast.

## Chapter 560: Part 2: Purple Gem Snake Invasion

9th Zone, B-City:

The alarm sounded and woke up the whole city.

Governor Black, Chloe, and Carl quickly flew out of the building and appeared in mid-air. Their gazes were deep as they quickly noticed the situation outside.

They didn't expect the Purple Gem Snakes to attack. Today, the long standstill had come to an end.

Swoosh!

At the same time, one after another, the family heads and owners of powerful business organizations appeared in the sky.

They couldn't believe the corrupted beasts had decided to attack.

Swoosh!

The Governors took the lead. In a flash, they stood on top of the wall. The heads of various forces appeared behind them. They were Tier-7 and Tier-8 Beast Tamers.

The heads of the small families were Tier-6 Beast Tamers. They even came to assist after hearing the alarm.

Governor Black could only see Purple Gem Snakes hiding in the dark. There were no signs of other corrupted beasts.

Upon sensing the powerful auras, the Purple Gem Snakes didn't stop their attacks; rather, they became more aggressive.

More and more Purple Gem Snakes emerged from the forest.

"Purple Gem Snakes," Black uttered with hatred.

He didn't think the attack was going to stop. The Purple Gem Snakes started coming out in greater numbers.

"They are not backing down. Start attacking," Black said in a cold tone. His voice reached everyone's ears.

Swoosh!

The heads of various forces divided and started dealing with the Purple Gem Snakes on the ground.

Only the Tier-5 and Tier-6 Snakes were attacking. The Tier-7 Snakes were inside the forest. They were waiting to come out.

Chloe and Carl noticed the problem as well.

"What cunning beasts!" Carl muttered.

They were Tier-8 Beast Tamers. If they wanted, they could wipe out the beasts below. But they were more wary of the Tier-7 beasts and a Tier-8 Corrupted Beast behind the scenes.

"Should we go inside?" Chloe asked.

"As long as we take down the Tier-7 Snakes, then the Tier-6 Snakes will flee in fear," Chloe said.

"No, it's a trap. We don't know how many Tier-7 Snakes there are," Black said.

"Just kill the ones which attack our city. If casualties appear on our side, I fear the other corrupted beast species could take advantage to attack us," he added.

Hearing that, Chloe and Carl agreed. They were now facing an attack from the Purple Snakes alone. Even so, their numbers were high.

It required more manpower to deal with the beasts.

Swoosh!

Chloe and Carl separated. Each went towards a watchtower to guard the city wall.

Boom!

All the Tier-5 and Tier-6 Snakes were killed in a short period of time.

A few minutes later, no more Purple Snakes were coming towards the city. The heads of the various forces were alert.

They even asked the family Beast Tamers to come. No one thought that the Beast Invasion had stopped.

Governor Black looked towards the wilderness. He knew how cunning these beasts were. They had been hungry for several days.

They had come to attack the city tonight, which showed that they couldn't tolerate hunger anymore. So, he immediately ordered others to be alert.

Meanwhile,

The Tier-7 Purple Snakes were angry. Their plans were failing. After seeing this many powerful Beast Tamers, they stopped sending Tier-5 and Tier-6 snakes to the city.

The Tier-7 Beasts were smart. Initially, they wanted to capture the human Beast Tamers who were patrolling. But now, everyone has come out.

These beasts were waiting for the Blood Steel Mosquitos and Hybrid Vine Beasts to make moves. They had been watching from the sidelines.

But no one had taken action so far. Some of the Tier-7 Snakes went towards their lair. If they didn't take any action, the Purple Snakes wouldn't move.

Blood Cave:

The Blood Steel Mosquitos were smaller in number, but they were hard to kill because their bodies were like steel.

Suddenly, one of the higher-tier mosquitos came outside. Its body was massive, 4 meters in size. It was a Tier-7 Beast.

It sensed an unwanted visitor coming towards the cave. The visitor was none other than one of the Tier-7 Purple Gem Snakes.

"You have come to the wrong location," the Blood Steel Mosquito said.

"We have killed a few humans. It's a good time for you guys to take action. We can easily cause more damage to human Beast Tamers. We can divide the spoils later," the Purple Snake spoke.

Its vertical pupils flickered. It wanted the Blood Steel Mosquito to take action because they could fly into the city. It would cause more panic and destruction.

"Purple Snake, you guys are digging your own graves without your old monster. He doesn't even know you guys are attacking the city," the Blood Steel Mosquito said.

Hiss!

Hearing that, the Purple Snake was offended. They had attacked the city out of fear.

The Blood Steel Mosquito flew around in the air. It was not afraid of the Purple Snake's massive body.

"Alright, we will send a few teams to attack. But we can't do more than that," the Blood Steel Mosquito said.

"I also wanted the Hybrid Vine to take action as well," he added.

They too had an oldest Blood Steel Mosquito trying to break through. It was a Tier-8 Blood Steel Mosquito hiding in the deepest part of the Blood Cave.

If the Tier-9 Beast Tamers in the Human Alliance were to know, they would be petrified.

Hiss!

The Purple Snake was angry. But it knew that there was a Tier-8 Blood Mosquito hiding in the cave. After taking a glance at the Blood Steel Mosquito, it left the place.

Now it was going to another dangerous place in the wilderness. The place had the largest canopy; it was also the home of the Hybrid Vines.

The Hybrid Vine Beasts were so large that their bodies formed a canopy. If any Beast Tamers stepped into this area, they would be assimilated by the large vine canopy.

Even the Purple Gem Snakes and Blood Mosquitos were scared to enter this area. If they did, they would become food for these Hybrid Vines.
