

STRIKER 591

Chapter 591: Tier-2, 7th Rank -Early Stage

10th Zone, City-A

Time went by.

That night, Jeremy walked out of the training room. He was content with his progress. He had a feeling that he would achieve a breakthrough in one or two days.

So, he went to bed and slept peacefully.

Meanwhile

The noise surrounding the 9th Zone beast invasion had died down quickly. It hadn't been significant to begin with. It was only because of Jeremy Night and Head Neil Moon that everyone had discussed it.

Now, everyone has gotten back to their work. People were doing missions day and night. They were focused on their own lives.

The Following Day

Jeremy Night didn't come out; he continued to stay inside the training room for practice. People who knew him were not surprised.

Head Neil Moon was the one who had told him to take a rest. At that time, people nearby had heard it clearly. So, Jeremy Night's absence didn't draw much attention.

Inside the Chamber

That noon, he opened his eyes. The continuous practice had put a burden on his veins. He was tired out. He decided to take a small break.

An hour later,

He started practicing the first blade move. Last time, he had gained insights into the intermediate sword level. He wanted to gain more insights again.

He started by practicing the basic moves: drawing, chopping, and splitting. .etc. ,

As time passed, he went on practicing combo strikes. With the power of the Starlight Liquid, the combo strikes could be deadly against corrupted beasts.

After spending some time practicing the blade moves, he switched to the Breathing Method practice.

He had a feeling that the breakthrough would happen soon, but he didn't know when.

That night, the unknown beast egg, which had been absorbing natural energy, suddenly stopped.

Jeremy Night got excited, but he didn't open his eyes. It was like he had guessed the breakthrough opportunity had come.

The power exuding from the unknown beast egg was greater than before.

Click!

Suddenly, feedback energy entered his body from the unknown beast egg. A broad smile appeared on his face.

He closed his eyes and started absorbing the feedback energy. His cells were greedily absorbing it. The feedback energy was the main source of evolution.

The inner organs, veins, meridians, bones, and the whole body were undergoing evolution.

Click!

At one point, he felt like some shackles within his body were broken. He had reached the next stage.

Tier-2, 7th Rank – Early Stage!

The feedback energy didn't stop there. He wanted to use the remaining energy to stabilize his new strength.

He shifted his attention to the black gate outside the mental zone. The concentric circles on the black gate had changed.

The second circle's 7th sub-block had brightened. It represented Tier-2, 7th Rank. Then, he took off his gaze and focused on stabilizing the new energy.

A Few Hours Later

He ended the practice and shifted his attention to the mental zone. The starlight power inside the mental zone was strong.

The Starlight Liquid was more powerful now. Jeremy wanted to test the power of the Starlight Liquid right away.

But he quickly controlled his desire. There were a few hours left before sunrise. He decided he would go to the wilderness later to test the power.

After figuring it out, he went to the bath to take a shower first. The bath lasted for 20 minutes.

About 20 Minutes Later

Jeremy walked out. He changed into his uniform. He was going to the wilderness now. There was about one hour left before dawn. So, he started to get ready.

He wanted to look for a good mission. Not here, but in the Beast Taming Association. He thought the Beast Taming Association would have more challenging missions.

A Few Minutes Later

He left the room and came to the lobby. As usual, his appearance caused a small commotion. He smiled and ignored them before walking out of the building.

He quickly came to the street. Then, he walked up to a group of drivers. The drivers recognized him.

He said, "I'm going to the Beast Taming Association."

Immediately, one of them stepped forward and said, "I'm ready to take you there, young man."

Hearing that, Jeremy Night's eyes flickered, because he found the old man's eyes were enthusiastic.

He nodded to him before entering the car. He sat in the back seat.

Shortly Afterwards

Swoosh!

The cab departed. It started heading towards the Beast Taming Association. In the back seat, he was enjoying the scenery outside.

He could feel that the driver was looking at him from time to time.

"Old man, what do you want?" Jeremy asked directly.

He could tell that the old man wanted to speak to him.

The driver was startled. Fortunately, the car remained under his control.

He then said, "Young man, you are famous. It's just... I didn't have the opportunity to talk to you before. That's why I'm excited right now."

Hearing that, Jeremy understood. He was more popular than before. The rest of the journey was smooth. The old man asked him small questions.

Jeremy gave short and simple answers.

About 12 Minutes Later

The cab driver dropped him in front of the Beast Taming Association building.

He stepped out of the cab. Then, he thanked the driver before walking towards the building.

Swoosh!

On the way, Jeremy came across Beast Tamers going in and coming out of the building. This time, he was not wearing a mask.

But he doubted whether the people here would recognize him. He walked into the building and entered the mission hall.

There were people asking the staff for help selecting missions. There were others choosing missions on their own through digital screens.

His gaze fell on one particular queue where not more than five people were standing. He quickly walked towards the line and stood behind the Beast Tamers.

These Beast Tamers were exuding Tier-4 strength. The people gave him a quick glance before turning back towards the screen.

Time went by.

When it was his turn, Jeremy stepped forward and started browsing the missions. There were missions based on Tiers.

He selected a Tier-5 mission, which was intended for Tier-5 Beast Tamers.

Chapter 592: Part 1: Tier-5 Mission

10th Zone, City -A

Beast Taming Association:

Jeremy Night started going through the Tier-5 missions. The Tier-5 missions were dangerous. Almost all of the missions required Tier-5 Beast Tamers.

If the Beast Tamers standing behind him were to see this, they would be shocked to the core.

His gaze continued to scan over the mission list. Suddenly, his gaze fell on one of the missions.

[Tier-5 Mission: Escort a group of female Beast Tamers from Central University 10 to the area between the Inner Area and Core Area.]

[Mission Reward: 100,000 credit points. People required: 10]

After reading the mission description and mission reward, he was shocked inside. Not much information was disclosed here. The strength of the Beast Tamers was unknown.

He didn't know why they were going there. However, since they were Beast Tamers from Central University, he didn't have to suspect anyone.

It had been some time since he was here, but he had not come across anyone doing illegal activities.

Jeremy still remembered their organization's name. It was called Mighty Order. He didn't know where those rats were hiding.

"What are you doing?"

Suddenly, someone yelled at him from behind.

Jeremy collected his thoughts and started registering. The mission requirement was 10 people. He was the last one to apply.

Fortunately, the application was not rejected even though he was a Tier-2 Beast Tamer.

When the registration was done, a message showed up saying he had to leave for the mission at 6 PM in the evening. The gathering point was here, the Beast Taming Association building.

After he was done with the registration, he left the mission hall. Then he went to seek help from the staff. His Beast Taming license needed to be updated.

He is 7th Rank now. He went to a staff member and stated his request.

The person was a middle-aged man. Jeremy gave his Beast Taming license to the staff member.

The man then brought Jeremy to a room where a scanner tested his strength. The result came back as Tier-2, 7th Rank - Early Stage.

Jeremy was worried that the staff might ask for lifeline beast details. Then, it happened.

"What about your lifeline beast?" the middle-aged man asked. "I just checked the database. It was empty," he added.

Jeremy smiled and replied, "There was no need to update the lifeline beast details."

The middle-aged man frowned, but he didn't say anything. After updating the details of the Beast Tamer, he gave the license back to him.

Jeremy took the license and left the room. The work here was not over yet. He had to make preparations for the mission tonight. He needed safety items, including medicine and supplies.

He had made up his mind to buy poison as well. He could smear poison on the bullet surface and use it against the corrupted beasts.

He had to innovate continuously. This improved his rate of survival.

Time went by.

He was busy shopping.

Meanwhile, Team Leader Gisela was in her office. She had thought Jeremy Night would come and meet her, but to her disappointment, he was yet to come.

"Could it be...?" she muttered.

She didn't know why, but she thought Jeremy Night might have gone to the Beast Taming Association. So, she immediately called the staff in the admin office.

The staff knew almost everything. Some of them had seen Jeremy Night leaving the building earlier. After learning that, Gisela had a knowing look on her face.

She knew Head Neil Moon had told Jeremy Night to rest. But since Jeremy Night had once again left the building, she was sure that he went to the Beast Taming Association.

To confirm, she called him, and Jeremy Night answered the call. She asked about his whereabouts and confirmed that Jeremy Night had indeed taken up a mission.

Gisela got angry and told him to come and meet her once he was done with his work. She then ended the call.

Two hours later, Jeremy Night returned to the organization. He was done with his purchases. Compared to before, he was loaded with safety items. He was armed as well.

He still had the assault rifles, sniper, and handguns with ammunition. He had looted the arms from the armory. If he had wanted to buy them separately, it would have cost him hundreds of credit points.

Fortunately, no one questioned him about it. He walked into the building. The next second, he felt various gazes on him. He especially felt the gazes coming from the admin office.

He turned towards that place and noticed the staff members were looking at him. He already guessed the reason. Leader Gisela had called him earlier. He ignored their gazes and headed towards Leader Gisela's office.

A few minutes later, he arrived in front of the office room. The door was already open. He walked into the room and saw that Leader Gisela was sitting behind the desk. He walked up to the chair and sat opposite her.

Gisela was doing some other work on her screen. She stopped and turned towards Jeremy Night.

"I don't know whether you are being reckless or calm," she muttered.

"Head Neil Moon gave you a rest. It's because Head Harold can call you at any time. If you leave for a mission, then it would be a waste of time for others," she added.

Hearing that, Jeremy's eyes glinted with understanding. Then he told her that he had achieved a breakthrough. He wanted to test his new strength. That's why he applied for the mission.

Gisela was surprised. Her gaze immediately fell on Jeremy Night. She did find an increase in strength. Her eyes gleamed with a twinkle.

"7th Rank," she said.

"Yes," Jeremy replied.

"What about the mission?" she asked.

Jeremy started talking about the mission. At first, she was calm when she heard about Central University 10. But the mission location stumped her.

"Are you suicidal?" she asked. "We had the beast invasion not long ago. The Central University people are going there for some reason. Let them test the waters first."

Jeremy Night hesitated a little bit.

Chapter 593: Part 2: Tier-5 Mission

Shadow Moon Chamber

Jeremy heard her words, but he was not convinced. He wanted to control his new strength. He wanted to check his progress with his "Blade One" move as well.

All of this could be done by fighting against the corrupted beasts.

He then said, "Leader, don't worry about me. If there is any threat to my life, I'll abandon the mission."

Gisela frowned but sighed in the end. She didn't want to control Jeremy Night; she was just giving him some advice.

"Okay. It's up to you. What is the mission time?" she asked.

"This evening," Jeremy replied.

She raised her eyebrows. She thought of reporting this to Head Neil Moon; otherwise, he might scold her.

"Alright, let me inform Head Neil Moon first," Gisela said.

Hearing that, Jeremy nodded to her. Gisela then made the phone call.

The call connected in a few seconds. Head Neil Moon learned what had happened. He was surprised by Jeremy Night's activities.

He had thought that the kid would be resting right now. To think that the kid had taken up a mission... he was impressed.

It meant that Jeremy Night was focused on his goal and self-improvement.

That kid did not relax even after knowing that he might go to the 5th Zone, Head Neil Moon thought.

He then told Gisela to let him go on the mission. Head Harold was like him; he was not that strict. He would be happy if he knew Jeremy Night prioritized the mission.

Gisela was surprised. She had thought Head Neil Moon would be angry. After ending the call, she turned towards Jeremy Night and told him that Head Neil Moon had agreed.

Phew!

Jeremy Night heaved a sigh of relief. He was worried that he might anger the higher-ups. Then, he spoke a few things with Leader Gisela before leaving the room.

A few minutes later, he went to his own room. He checked his storage ring. He had obtained the same toad poison known for its potent killing power.

Whether it was Beast Tamers or higher-tier corrupted beasts, they would be poisoned to death. The grade of the toad poison was Tier-5.

It cost him a few thousand credit points, but he knew it was worth it. Then, he began to rest, since the mission was going to be this evening.

He needed to be prepared. He checked his mental zone. The starlight liquid had filled the mental zone. There was no need for him to enter the practice room.

He had to be ready and in an optimal state, so he went to bed to rest.

Time went by.

He woke up at 5 PM. There was still an hour left before everyone gathered at the Beast Taming Association.

So, he got out of bed and began to get ready. He wore the Red Moon Chamber uniform. Then, he wore the Grade-3 armor and sheathed his Grade-3 blade in the scabbard.

His gaze fell on the helmet. He didn't have a habit of using it before, but now he wanted to be fully prepared. So, he wore the helmet as well.

A few minutes later, he left the room and walked down to the lobby. When he got there, the staff were looking at him. He ignored them.

But before exiting the building, he texted Leader Gisela about his departure.

Then, he walked out of the building. He went to the driver quickly and entered the car, sitting in the back seat.

The office driver asked about the destination. Jeremy told him to drop him at the Beast Taming Association Building.

Swoosh!

The flying cab departed. The cab started moving towards the Beast Taming Association Building in mid-air.

At the same time, Gisela saw the text messages and reported to Head Neil Moon.

About 20 minutes later, the flying cab dropped him in front of the Beast Taming Association Building. Jeremy walked out and thanked the driver.

He was not the only one with an armor suit; there were others as well. But there was more than one group. Jeremy swept his gaze across the people.

He then saw people with Central University uniforms. They must be the Beast Tamers from Central University 10. He started walking up to them.

There were 20 Beast Tamers from Central University. His eyes quickly scanned them. There were 10 Tier-3 Beast Tamers and 10 Tier-4 Beast Tamers.

Everyone was wearing the Central University uniform. If there were 20 Beast Tamers here, then what about the Beast Tamers from the Beast Taming Association?

Swoosh!

His arrival attracted attention. Suddenly, he saw two people appear in front of him. One was a middle-aged man, and the other was a middle-aged woman.

Both of them were Tier-5 Beast Tamers.

"Who are you?" the middle-aged woman asked.

Hearing that, Jeremy replied, "I have applied for the mission."

After saying that, he took his device out and showed her the mission details.

The middle-aged man stood perplexed because he saw the young man was a Tier-2 Beast Tamer. Tier-2 Beast Tamers are usually in their 2nd year at the university.

He had never seen a Tier-2 Beast Tamer doing a Tier-5 Mission.

The middle-aged woman was shocked because the information was true.

She then said, "No, we can't accept you. You are a Tier-2 Beast Tamer. You will be the first one to be killed."

The next second, the middle-aged man didn't hold back his words.

He said, "Kid, did you take the wrong medicine this morning?"

"It's a Tier-5 mission. Not a Tier-1 or Tier-2 mission," he added.

Hearing that, Jeremy felt a headache coming on. He needed to introduce himself.

"My name is Jeremy Night. It's not the first time for me to do such a dangerous mission. I have done it before," Jeremy said to them.

"Jeremy Night," the middle-aged man muttered.

The middle-aged woman paused for a second. She seemed to recall the name. The name sounded familiar to both of them.

They looked at each other. They were 4th-year instructors at Central University 10, so they knew some important information.

Chapter 594: Part 3: Tier-5 Mission

10th Zone, City-A

Jeremy noticed the expressions of the two people. His mission was to escort the female beast tamers.

However, among the twenty Beast Tamers gathered, ten were assigned to the other group.

This included five Tier-3 Beast Tamers and five Tier-4 Beast Tamers in each group. He thought the team was yet to be divided.

The middle-aged man and woman came to a realization. They knew who Jeremy Night was.

"My name is Wyatt. I'm a 4th-year Instructor at Central University 10," the middle-aged man said in a calm tone.

"I'm Dolly. I'm also a 4th-year Instructor at Central University 10," the middle-aged woman said.

"We've heard a lot about you. The Dean of our university, especially, wanted to recruit you," Dolly said with a smile.

"But we were late. Team Leader Gisela recruited you before us," Wyatt said with regret.

After saying that, he thought of something and added, "We also know you contributed during the Beast Invasion, and that you can fight across ranks."

"So, there is no problem for us. You can join the mission," he finished.

"Yes, now that we know it's you, we are more relieved," Dolly said from the side.

According to their information, no Tier-4 Corrupted Beasts could escape Jeremy Night. He could fight across ranks. During the recent beast invasion, Jeremy Night had killed many Tier-4 Corrupted Beasts.

On the other hand, Jeremy Night was not surprised. That was why he was confident in accepting this mission; Central University must have known about him.

Then, he asked the question that was bothering him.

"My mission was to escort female beast tamers. There is also a men's team here," he noted.

Wyatt was not surprised.

He said, "You are part of the team escorting the ten female beast tamers. The male students are going to do another mission."

"Once the rest of the beast tamers from the Beast Taming Association arrive, we will leave," he added.

"Yes, you were the first one to come," Dolly said.

Jeremy's eyes glinted with understanding.

He didn't expect to be the first one there. He began to wait for the others to arrive. At the same time, he was curious about what they were up to.

He didn't believe that they were going there just for sightseeing.

As time went by, Jeremy continued to observe the place. He was not the only one wearing battle armor; there were others as well.

From time to time, the Central University Beast Tamers looked at him, including both the 3rd and 4th-year students.

They could see a young Tier-2 Beast Tamer standing beside both Instructors. It confused them. They didn't know what to make of it.

It didn't take long for the beast tamers who took the mission from the Beast Taming Association to arrive.

In a matter of a few minutes, the other nineteen Beast Tamers came to the spot. Nine belonged to the mission escorting female Beast Tamers.

The other ten Beast Tamers were going to escort the male students to the border. They were between Tier-4 and Tier-5. Jeremy was the only one with Tier-2 strength.

He saw they were wearing battle armor as well.

Instructor Wyatt and Dolly began to check the Beast Tamers' mission details. They wanted to confirm their identities and see whether they were the ones who took the Tier-5 Mission.

Both instructors were Tier-5 Beast Tamers. Some of those who took up the mission were Tier-5 Beast Tamers as well.

Jeremy Night was watching them. It was really rare for him to do a team mission, especially a team from the Beast Taming Association.

Not only that, but he was also going to see the strength of the Beast Tamers from Central University 10.

Instructor Wyatt and Dolly verified the mission details of everyone. Both of them then exchanged looks.

Wyatt said, "Alright, everyone. Listen up."

"The teams from the Beast Taming Association have come. It's time to depart. The 3rd and 4th-year male students follow me."

"The female students go to Instructor Dolly's side," he added.

Hearing that, ten male students from the 3rd and 4th years moved to Instructor Wyatt's side, followed by the Beast Tamers from the Beast Taming Association.

Instructor Wyatt then spoke to Instructor Dolly. Their expressions were solemn. It was noticed by Jeremy Night, and his heart skipped a beat.

He started feeling that he was right. They were up to something. But he didn't ask anything.

Swoosh!

Instructor Wyatt then left with the male students. Only the female students remained back.

Instructor Dolly scanned the female students before turning towards Jeremy Night and the other Beast Tamers.

"I hope this mission will go smoothly," she thought to herself.

"Let's go," Dolly said to them.

Hearing that, the others started following her. Jeremy Night moved as well, walking behind them. He then saw everyone boarding a long bus.

One by one, they entered the bus. When it was his turn, he entered and found everyone's gaze on him.

Especially the female beast tamers; they were scrutinizing him.

"Who is he?"

"He is a Tier-2 Beast Tamer!"

"Don't tell me the Beast Taming Association has sent a Tier-2 Beast Tamer for the mission."

"We are doomed!"

The female Beast Tamers started discussing among themselves. They didn't have any idea what was going on right now.

They could only look towards Instructor Dolly, who was seated at the front. But she didn't say anything.

Jeremy Night found the gazes were not only from the female students. Even the Beast Tamers from the Beast Taming Association were looking at him with disdain.

He shook his head, reached the last row of seats, sat down, and waited for the bus to depart.

No one said anything.

Shortly afterwards, the long bus departed towards the city gate. The bus hovered in mid-air, moving towards the destination slowly.

Jeremy Night watched the outside scene through the window. It was the first time he had boarded a bus here. So he was curious.

Chapter 595: Part 4: Tier-5 Mission

10th Zone, City-A

The long bus moved towards the city gate. The Beast Tamers on the bus were whispering.

Jeremy Night's senses were heightened to begin with, so he could hear their conversation clearly.

Most of them were speaking about him; they didn't want to team up with him.

Jeremy sighed inwardly. He didn't care about their opinions. He wanted to test his own strength.

Furthermore, he wanted to witness the strength of the Beast Tamers from Central University 10.

He knew that they were not the only beast tamers studying at Central University 10, but he thought that these ten students were the elite.

Their talents likely ranged between B-Grade and S-Grade. He could check the gap between him and them.

He also thought about May Lindsey and Victor Scott. They must have entered the top 10 zones as well.

With their S-Grade Talent, it was possible for them to become Tier-3 Beast Tamers faster than him.

While Jeremy was contemplating, the long bus slowly arrived at the city gate ten minutes later.

He gathered his thoughts. The long bus came to a stop and landed on the ground.

One by one, the female students stood up. Instructor Dolly stood up and exited the bus.

Then the female students left one after another, followed by the Beast Taming Association's Beast Tamers.

Then it was Jeremy Night's turn. He came to the door and exited the bus. Now, everyone stood in front of the city gate.

Then, everyone walked through the gate to enter the wilderness.

Instructor Dolly had verified their identities, so the city guards didn't do an inspection. Central University was one of the top forces here; the city guards didn't doubt them.

They came out on the other side. Then, they all started moving forward in formation under the orders of Instructor Dolly.

Jeremy Night found it interesting. It had been some time since he followed the orders of anyone, but now he was following the orders of Instructor Dolly.

As time passed, he noticed that the female students and the Beast Tamers from the Beast Taming Association were keeping their distance from him.

A sharp glint appeared in Jeremy Night's eyes.

He didn't take their actions to heart. He knew this would change when a crisis arose.

Time went by.

They entered deeper into the outer area of the wilderness. They came across lower-tier corrupted beasts but ignored all of them.

They didn't want to waste energy on lower-tier beasts. The female students were Tier-3 and Tier-4 Beast Tamers. The lower-tier beasts were basically no threat to them, so they kept moving forward.

But Jeremy Night had always been cautious, so he used his eyesight to scan the place. Even if there were dangerous beasts hiding, he would know.

The Beast Taming Association Beast Tamers were joking and discussing the young Tier-2 Beast Tamers. They were mocking him to pass the time.

Jeremy Night was sensitive. He marked the people who were speaking badly of him. He wanted to see what they would do in a dire situation.

At the same time, Instructor Dolly was not stupid. She was listening to these jokes as well. Her face darkened.

They didn't know that Jeremy Night had graduated from Central University 14 already, or that he had already killed Tier-4 Corrupted Beasts during the Beast Invasion.

She shook her head, didn't correct them, and continued to lead the way forward. Right now, she is focused on the mission.

It was already late evening. She wanted to get to the border before midnight.

...

Shadow Moon Chamber – Head Office

Head Neil Moon was in his office going through a report when he received a call from Head Harold Red.

Seeing that contact name, Head Neil Moon was surprised. His friend was calling him this late in the evening.

He answered the call.

"Hey, what's up?"

"You wouldn't call casually at this time," Head Neil Moon said.

"I heard that the 9th Zone was safe. They managed to deescalate things," Harold said.

Hearing that, Head Neil Moon understood. His friend wanted to know about the 9th Zone. So, he started speaking to him.

Time went by.

Their conversation regarding that topic came to an end. Then, Harold Red suddenly asked about Jeremy Night.

Head Neil Moon was not surprised. He smiled and started telling him about Jeremy Night's activities.

Head Harold Red was surprised to learn that the kid had taken up a mission immediately after coming from the Beast Invasion. He was genuinely impressed and astonished.

Suddenly, he asked, "Don't fool me. Are you the one who sent him to do a mission?"

Head Neil Moon almost laughed out loud.

He said, "You know me. I wouldn't do that. If you would like, I can send the kid there."

"Hmm, you always wanted to send the kid to the 5th Zone. Is he that special? He is still an A-Grade Talent. Compared to the S-Graders here, there is a wide gap," Harold said.

Neil Moon frowned and said, "You already gave your word. Are you going back on your own words now?"

"No, I'm still the same. We do lack talented members here. You can send him over this weekend," Harold Red said to him.

Head Neil Moon's smile broadened. Then they changed the topic and started talking about other things.

...

Wilderness

The group reached the inner area of the wilderness a few hours later. They started coming across Tier-4 Corrupted Beasts.

Instructor Dolly wanted the female students to fight against them while the Beast Taming Association Beast Tamers rescued them in moments of crisis.

But everyone ignored Jeremy Night. During the fight, Jeremy Night leaned against a big shade tree and started observing their fights.

As he had guessed, the female students were not ordinary. They were elites. Their lifeline beasts were rare, high-bloodline beasts.

One of the lifeline beasts attracted his attention. It was a Tier-4 Red Tiger. The pressure from the beast was threatening other beasts. It belonged to a Red-haired 4th-year female student.

Chapter 596: Part 1: Flaunting talent

Wilderness

Jeremy Night leaned against the big shade tree. His eyes never left the Red Tiger.

The Red Tiger was shredding the four-legged hybrid corrupted beasts into bloody pieces. The scene looked like bloody gore.

There were other lifeline beasts as well, including the sky bird ones. But his gaze never left the Red Tiger; it was killing more corrupted beasts than the others.

A red-haired woman was ordering it from behind. Jeremy saw that she was a Tier-4 Beast Tamer and a 4th-year student.

While he was observing her, the other Beast Tamers from the Beast Taming Association were helping the female Beast Tamers.

Instructor Dolly was watching from the sides. She didn't have to intervene. It was because the corrupted beasts were Tier-3 and Tier-4.

Even the Tier-5 Beast Tamers were helping out the students. Only Jeremy Night was watching from the sidelines.

As time passed, this scene was witnessed by everyone.

Instructor Dolly didn't say anything. She knew the real strength of Jeremy Night. He could take down these beasts with ease.

But others were not like this; they thought the young Tier-2 Beast Tamer was scared. The Beast Tamers from the Beast Taming Association showed disdain.

Even the female Beast Tamers felt they had brought a burden here. These Tier-3 and Tier-4 Corrupted Beasts could kill the young man easily.

"Instructor, what is the Tier-2 Beast Tamer doing here?"

"He is hiding under the tree?"

"Is he scared that the beasts would kill him?"

The female Beast Tamers started complaining to Instructor Dolly.

"Yeah, we don't know why the Beast Taming Association allowed him?"

"He should go home now."

"Instructor Dolly, make the decision."

The Beast Tamers from the Beast Taming Association started telling Instructor Dolly. They wanted the young man to be gone. It was also good for his life. They didn't want to carry a burden to the border area.

At this point in time, everyone understood that a young man was wasting time here. They didn't know how he was able to participate in this mission.

Jeremy could hear everything. Yet he didn't act, because he knew that Instructor Dolly knew about him.

At this point, the red-haired woman saw the young Tier-2 Beast Tamer. Her face was written with dislike.

Suddenly, she made an unexpected move.

She ordered her lifeline beast to lead the corrupted beasts towards the young Tier-2 Beast Tamer. She wanted to play a prank.

She believed that Instructor Dolly or the Tier-5 Beast Tamers would save the young man in the end.

The Red Tiger charged towards the big shade tree where the young man was standing.

A Tier-4 Corrupted Beast was frantically chasing from behind.

Gasp!

A loud exclamation occurred.

The female Beast Tamers were shocked to the core. They didn't expect her to do this.

Instructor Dolly was stunned. She knew about the red-haired female Beast Tamer. She liked to prank people. She thought this time she was doing the same.

The Tier-5 Beast Tamers were stunned. They didn't know what was wrong with the red-haired woman.

The red-haired woman was smiling. She thought that Instructor Dolly or others would intervene.

She then ordered the Red Tiger to move away all of a sudden.

Swoosh!

The Red Tiger moved sideways. It stunned everyone again. The four-legged hybrid corrupted beast was startled. But the eyes of the beast were still reddened. It saw the young Tier-2 Beast Tamer there.

The four-legged hybrid corrupted beast continued to charge. Now it was charging towards the young human Beast Tamer.

The faces of everyone changed drastically. They thought the young man was going to die. He was going to die for sure.

The corrupted beast would bite him into pieces.

The Red Tiger came to a halt and looked ahead. The lifeline beast also knew the prank of the human contractor. She had always done this.

The Red Tiger beast was watching to see what the young human Beast Tamer would do next.

Instructor Dolly and the others remained silent.

A few seconds later,

Suddenly, the red-haired woman started panicking.

She had thought others would intervene. But they were just standing there.

The other female students closed their eyes. Even some of the Beast Tamers from the Beast Taming Association looked away.

Only Instructor Dolly remained silent, along with a few other Beast Tamers, including some Tier-5 Beast Tamers. This was because these Beast Tamers saw the young man was not panicking at all.

He was silent and focused. It immediately attracted their attention. They didn't know how he could be so calm and composed.

On the other hand, Jeremy Night's eyes flashed with a sharp glint. He touched the scabbard. The reaction of the people had not escaped his eyes.

His lips curved into an arc. His gaze then deepened. He used his eye ability. The movement of the beast became slow in his eyes.

When the corrupted beast got closer to him, he drew his katana blade and covered the blade in starlight power.

In the blink of an eye, the katana blade shone with the starlight.

Roar!

When the beast was a few steps away from him, he moved and made a horizontal slash at the beast.

Boom!

The corrupted beast hit the empty air. The katana blade went across the beast's side. Like butter, the starlight blade felt no resistance.

Swoosh!

In a flash, the blade came out on the other side. Only a red line could be seen on the beast's side body.

Puchak!

The next second, a torrent of blood gushed forth from the beast's wound. The thick blood started dyeing the ground.

Gasp!

A loud exclamation occurred. The female students widened their eyes in disbelief. They couldn't believe what they had seen just now.

How had the young Tier-2 Beast Tamer escaped the attack? They didn't know.

Instructor Dolly was calm. But still, her eyes flashed with surprise. It was the first time for her witnessing Jeremy Night's combat.

The Tier-5 Beast Tamers from the Beast Taming Association were taken aback. Now they started to realize why the young Beast Tamer was calm.

Roar!

The hybrid corrupted beast made a painful roar. It couldn't believe a weak human had attacked it. The beast ignored the bleeding and turned around immediately.

Chapter 597: Part 2: Flaunting talent

Wilderness

Swoosh!

The hybrid beast started charging towards the young human Beast Tamer again. Blood was still running and dyeing the ground.

Jeremy Night was not surprised. He was ready to face the beast again.

Swoosh!

The hybrid corrupted beast came charging again this time. Another side of its body was exposed.

Jeremy Night coated the blade in starlight power again. A bright, glowing white power almost blurred the beast's eyes.

Pfff!

This time, when it got closer, he used the same tactics again. He moved sideways to evade. At the same time, his blade came in contact with the beast's body.

The starlight blade penetrated the skin and made another red horizontal line.

Puchak!

The thick blood gushed forth like water. Now the hybrid corrupted beast was injured on both sides of its body. It was bleeding profusely. If left like that, the corrupted beast would bleed to death.

Roar!

The corrupted beast made a low roar. Its senses kicked in. It realized that it was injured. The young Tier-2 Beast Tamer was not weak. The beast finally felt fear.

Swoosh!

The next second, it turned around and started fleeing.

Roar!

The Red Tiger made a loud roar. It quickly caught up with the beast and ended the beast's life in one move.

Puchak!

The huge beast claw decapitated the beast's head. The blood gushed forth like a torrent. The severed head rolled over the ground.

Gasp!

Another loud exclamation occurred. The female beast tamers and the beast tamers from the Beast Taming Association were rooted to the spot.

The red-haired woman was dumbfounded. Her heart was in turmoil.

She had been playing a prank. She had thought others would rescue the young beast tamer.

But it turned out he didn't need help at all. He was strong from the beginning, so strong that he could fight across ranks. It was they who were fooled by him.

Jeremy then sheathed his blade. His gaze swept across everyone. He could see everyone was looking at him with a different gaze.

The Tier-5 Beast Tamers' eyes were filled with surprise and respect.

Earlier, their eyes were filled with disdain. It was no more. They were in such shock that no one was speaking up.

Instructor Dolly felt it was time to speak up.

She said, "His name is Jeremy Night. He may be a Tier-2 Beast Tamer, but he was just a high school graduate a year and a half ago. He fought during the Beast invasion and killed many Tier-3 and Tier-4 Corrupted Beasts."

"His name was once recommended for the genius list of the Human Alliance," she added.

Gasp!

A loud exclamation occurred. The name was not new to them, especially to the students from Central University. This name was one of the most discussed on their forum.

They couldn't believe the young beast tamer in front of them was Jeremy Night. It was because Jeremy Night was wearing an armor suit and helmet; they had failed to look at his face and recognize him.

The Beast Tamers from the Beast Taming Association understood now. He was not an ordinary Tier-2 Beast Tamer, but a genius.

The red-haired woman didn't have any words to say. Her heart was still shaking. She had heard about Jeremy Night.

She didn't expect the person inside the armor suit was him.

On the other hand, Jeremy Night saw everyone's reactions and noted the expressions of those who had made fun of him earlier.

Instructor Dolly realized that it was time to leave. They had yet to reach their destination.

She said, "Alright, everyone. It's time to move. We still need to reach our destination."

Hearing that, the students and the beast tamers recovered their thoughts.

Swoosh!

Instructor Dolly then started moving forward, the female students following behind her.

Then the Beast Tamers started moving as well. As usual, Jeremy Night was the last one to follow.

But this time, he found a few people were interested in talking to him. Yet, he ignored them and maintained a distance.

This situation was observed by everyone. They realized their attitude towards Jeremy Night earlier was different. It couldn't be undone right now.

...

Meanwhile

,

Instructor Wyatt and his team had gotten closer to the destination. They were going to the area between the inner area and the core area.

About 10 minutes later, they reached the spot. Instructor Wyatt's face did not look good. His expression was grave.

He then turned towards the students and the Beast Tamers from the Beast Taming Association.

"Look for the corpses of our students. They were buried here somewhere," he said to them.

Swoosh!

Hearing that, the male students began to act swiftly.

They started going through the area, looking for signs of burial.

The Beast Tamers from the Beast Taming Association were confused. Their mission was to escort these people, not to look for corpses.

So, they chose to remain silent.

Instructor Wyatt saw this situation. He looked at the Tier-5 Beast Tamers.

He said, "If you help us find the graves, I will give you extra credits."

"I'm not forcing you. If you want to volunteer, it's fine," he added.

Hearing that, the Tier-5 Beast Tamers looked at each other. Some of them really wanted to help. The credit points were important to them.

A few of them stepped forward and started helping out.

Seeing that, Instructor Wyatt relaxed a lot.

Boom!

Not long after, their search was disrupted by the appearance of corrupted beasts.

They were Tier-5 Corrupted Beasts. More than three Corrupted Beast Scorpions had come to attack them.

Instructor Wyatt noticed the beasts. He and the other Tier-5 Beast Tamers went to attack them.

"Don't stop working. We have limited time here. We have to find the corpses before more beasts arrive," Wyatt said to the students.

The 3rd and 4th-year students started working more seriously.

The other Tier-5 Beast Tamers were shocked and confused. They didn't know who killed and buried the corpses of the students here.

They knew something was going on, but they didn't want to be part of it. They wanted to go back home after completing the mission.

Chapter 598: Part 1: Flower Pattern Spiders

Wilderness

An hour later,

Jeremy Night and Instructor Dolly's group reached the destination. It was located between the inner area border and the core area border.

Jeremy wanted to see what they were up to. He thought he would find out soon, now that they had reached the destination.

He had completed the first part of the mission by safely escorting them to their destination.

Like himself, the Beast Tamers from the Beast Taming Association were wondering what they were going to do next.

Instructor Dolly took out her device and checked the place. Her eyes flickered when she confirmed the location.

She then turned towards her female students.

She said, "It's this location. Search for student corpses buried here."

The female students around her listened to her and started doing the work. The Beast Tamers from the Beast Taming Association stood quite a distance away from them.

They were talking among themselves.

Only Jeremy raised his eyebrows. Actually, he was shocked in his heart. For a second, he thought he had heard it wrong.

Then he calmed his heart and started listening carefully. He then started observing the female students.

They were searching the ground surface. As if they were looking for a corpse. Jeremy Night was shocked in his heart.

What he had heard earlier was right. They were looking for corpses. He started using his eyesight. Not long after, one of the female students found a single corpse.

She immediately informed Instructor Dolly.

Instructor Dolly came to the spot and started inspecting it. This time she couldn't hide it. She started digging up the corpse.

Seeing that, Jeremy Night was shocked. He couldn't help but walk forward to the location. His movements alerted the other Tier-5 Beast Tamers.

They saw what he was doing. When they followed his gaze, they saw what Instructor Dolly was doing. She was digging up the corpse.

Everyone felt like a thunderclap struck their heads. The Beast Tamers from the Beast Taming Association were shocked.

They started dashing towards the site. Instructor Dolly's face darkened. She couldn't hide it anymore. But she was not planning to, anyway.

She said, "I need your help to dig out the graves."

Hearing that, the Tier-5 Beast Tamers were stunned. They didn't know what to say. They were exchanging looks with each other.

"We won't do it for free. We need money," one of the Tier-5 Beast Tamers said.

Hearing that, the others started saying the same. They wouldn't do it for free.

Instructor Dolly agreed to their words. She decided to pay for their work.

Only Jeremy Night was standing there. He wanted to ask something. He was not worried about the money.

He was thinking about these graves.

Instructor Dolly suddenly noticed Jeremy Night.

"Are you not going to help?" she asked back.

Jeremy asked, "What's going on here? Why were the corpses buried here?"

Instructor Dolly frowned. She didn't want to tell him.

"I can't tell. It is confidential." After saying that, she brought the container outside.

She then opened the container box and stored the corpse inside. She then closed the box cover and stored it inside her storage ring.

She then left without looking back. Jeremy Night stood there. His eyes flickered. The situation was bothering him.

He didn't know why they were killed. From the whispering of the female students, he heard that they were the corpses of students.

"Someone killed these students and buried them here," Jeremy thought.

His gaze then fell on the female students. He decided to listen to their conversation while helping them out.

Time went by,

The female students and the Tier-5 Beast Tamers found some corpses buried in the ground.

The female students recognized a female corpse. It belonged to their seniors. She was also a 4th-year student.

"She died on the mission. Someone killed her," one of the female students said.

"Who are these people?"

"How dared they slaughter our people?"

One after another, the female students voiced their opinions.

On the other hand, Jeremy Night dug out a corpse. It was the corpse of a male student. He spotted the torn uniform cloth and skin.

It meant that the student was killed not long ago. The uniform belonged to Central University 10. Jeremy Night's expression worsened.

He was shocked by the fact that someone would attack Central University 10. The Central University was one of the top forces of the Human Alliance.

It had branches across every city in the human zones. He could tell that Instructor Dolly was hiding something.

He decided to ask her later.

Boom!

While he was looking for the buried corpses, his senses alerted him to the danger. He turned around and started observing the surroundings with his eye ability.

He saw spider beasts coming from the distance. The spider beasts were dangerous. They could use spider webs to trap you.

It would become hard for even Tier-4 Beast Tamers to free themselves. Jeremy stood rooted to the spot. He wanted to confirm the strength of the beasts first.

At this time, the other Beast Tamers got alerted as well.

"They are Tier-4 Flower Pattern Spiders," Instructor Dolly warned the others.

Hearing that, the female students were terrified. They had heard about these spiders during their classes. These spiders were known to have flower patterns on their backs.

It was a way to recognize them. What made them more terrifying was that the spider webs of the Flower Pattern Spiders were hard to break.

So the female students retreated from the site.

At the same time, Instructor Dolly and the other Tier-5 Beast Tamers went forward. They recognized the Flower Pattern Spiders.

The Flower Pattern Spiders were almost 6 meters in size. Their legs were long with small bodies.

Swoosh!

There were more than 6 Flower Pattern Spiders. They stepped forward. They started releasing their spider webs all of a sudden.

The Tier-5 Beast Tamers were fast in their movements. The Flower Pattern Spiders were Tier-4 Beasts. Yet their actions and movements were not slower than the Tier-5 Beast Tamers.

Immediately, Instructor Dolly and the others brought their lifeline beasts outside and started fighting against the Flower Pattern Spiders.

Chapter 599: Part 2: Flower Pattern Spiders

Wilderness

Jeremy Night was watching them. Instructor Dolly and the Tier-5 Beast Tamers were confronting the six Flower Pattern Spiders.

His gaze then fell on the red-haired woman and the female beast tamers. They had retreated and were watching the battle from a distance.

Swoosh!

Suddenly, one of the Flower Pattern Spiders shot a spider web towards the female beast tamers.

The attack was so sudden that the female beast tamers were caught off guard.

The transparent spider webs fell on a few of the female beast tamers and trapped them completely.

The group included a few Tier-3 and Tier-4 Beast Tamers. They were completely trapped and unable to get out.

Swoosh!

The red-haired woman and a few others avoided the trap. But upon seeing their friends, the rest of them exchanged looks and decided to help them.

The Flower Pattern Spider was not only known for having its famous flower pattern on its back; it was known for having strong webbing and venom abilities.

Once trapped inside, one needed help from someone outside to break free. Otherwise, you would be helpless.

On the other hand, Jeremy Night was witnessing all of this. Since the Flower Pattern Spiders were Tier-4 Corrupted Beasts, he could kill them easily.

However, he was not going to act until they needed immediate help.

Because Instructor Dolly and the Tier-5 Beast Tamers were there, they had already killed one of the Flower Pattern Spiders.

"Aaahh!"

"It's not breaking at all!" one of the female students shouted.

Roar!

The red-haired woman summoned her Red Tiger Lifeline Beast.

The Red Tiger let out a roar. The roar was so loud that the trapped students became quiet.

The red-haired woman gave orders. The massive Red Tiger started using its claws to cut down the spider webs.

Shred!

Under the sharp claws, the spider webs were easily broken. Seeing that, the red-haired woman sighed in relief.

She was a Tier-4 Beast Tamer. She could deal with the spider webs to release her trapped friends.

Roar!

The Red Tiger continued to break down the spider webs one after another.

At the same time, Instructor Dolly and the Tier-5 Beast Tamers managed to kill three more Flower Pattern Spiders.

Only two Flower Pattern Spiders remained at the spot after they killed the rest of them.

The two remaining Flower Pattern Spiders started charging towards the female students.

Compared to the human Tier-5 Beast Tamers, the students were easy targets for the corrupted spider beasts.

"Explosive Steps!"

Jeremy used the movement method at that moment. A powerful force erupted from his feet, propelling him forward with great momentum.

Swoosh!

In a flash, he got in between the incoming Flower Pattern Spiders and the female students.

The faces of the female students changed; they were horrified. Right then, they noticed someone intervening.

That person was none other than the young beast tamer whom they had made fun of earlier.

Then, they relaxed, because they saw how the young beast tamer had cut down the Tier-4 Hybrid Beast earlier.

The red-haired woman and the Red Tiger noticed the situation as well. The red-haired woman wanted to see how the young beast tamer was going to kill the Flower Pattern Spiders.

She was not the only one watching the scene; Instructor Dolly and the Tier-5 Beast Tamers saw this situation as well.

But they were not relaxed, because Jeremy Night was going to face two Corrupted Beasts at the same time.

If a single mistake occurred, then the young beast tamer would face terrible consequences.

Swoosh!

Jeremy Night unsheathed his blade and coated the blade in Starlight power.

His eyesight had become sharper. His senses were already heightened to begin with, so he found the movements of the beasts to be slow.

The Tier-4 Flower Pattern Spiders' movements seemed to slow down.

He arrived in front of the beasts and confronted the first one. He decided to use the "Blade One" move.

Slice!

He drew his sword and swung it. The footwork and drawing of the blade went smoothly. The blade cut through the air before coming in contact with the spider's legs.

Puchak!

The blade sliced through the legs one after another. In a flash, all eight legs were cut down.

The Starlight blade felt no resistance. The next second, the spider beast's body dropped to the ground.

Swoosh!

Jeremy Night's gaze then fell on the second beast.

But the second beast had already gone past him. It was now charging towards the female students.

Roar!

The Red Tiger made a loud roar. It leaped towards the second Flower Pattern Spider.

The red-haired woman did not want to back down. She wanted to fight and show off her skills.

Swoosh!

The Flower Pattern Spider stopped and confronted the Red Tiger. It started shooting out spider webs.

The Red Tiger easily avoided the spider webs by moving its body here and there.

In a flash, it jumped above the Flower Pattern Spider.

The red-haired woman gave the order the next second. The claws of the Red Tiger burned in crimson flames.

Boom!

The Red Tiger swiped down with its claws. The massive claws struck the back of the spider.

Boom!

The crimson flames hit the flower pattern on the spider's back. The flames blasted the spider beast away.

The spider beast hurled through the air before crashing into the ground.

Thud!

The crash was a heavy hit. It created a deep pit in the ground.

Gasp!

The Tier-3 female students and the Tier-4 female beast tamers exclaimed in surprise. They knew about the red-haired woman.

She had played a prank earlier. They were annoyed, but this time they were happy that she was able to rescue them.

At this time, Instructor Dolly and the others arrived. They were relaxed right now. If given a small chance, the Flower Pattern Spider would have caused damage to the students.

Jeremy Night sheathed his blade. It was new for him to fight while wearing the armor suit and helmet. Not only that, but he had also used the Blade One move earlier.

Chapter 600: Credit points earned

Wilderness

The Red Tiger rushed to the side of the spider and attacked with its flaming claws again. This time, the spider's back couldn't withstand the attack.

Puchak!

The Red Tiger shredded the beast. A torrent of blood gushed forth and dyed the ground red. The last flower patterned spider died.

Phew!

The female beast tamers heaved a sigh of relief. They had been worried that they would be trapped by the spider webs. Fortunately, all the flower patterned spiders were dead.

Instructor Dolly said, "Alright, everyone, continue with the work. We need to recover the remains as much as possible."

Hearing that, everyone got back to work. The Beast Tamers from the Beast Taming Association started helping them as well.

On the other hand, Jeremy Night was using his eye ability to observe the surroundings. He was wondering whether there were any other beasts nearby.

But he saw no one. After confirming that, he started helping out the female students as well.

He didn't know exactly what was going on, but he decided to help out with their work first. Otherwise, more and more corrupted beasts could appear.

Meanwhile

Instructor Wyatt and the others were able to defeat the scorpion beasts in time. Then, they resumed their work of excavating the corpses.

Time passed by.

Until sunrise, both teams encountered corrupted beasts from time to time, but not any corrupted beasts above Tier-5.

However, they didn't have the permission or the courage to continue once the daylight was there. Their presence had already alerted the corrupted beasts nearby.

If they continued with their activities, they could encounter more terrifying beasts, including beasts above Tier-5.

They didn't want to take the risk, so both teams started leaving.

On Jeremy Night's side, Instructor Dolly was leading the female students. The Beast Tamers from the Beast Taming Association were following them from behind.

Their job was still to escort them safely back to the city.

Jeremy Night was using his eyesight. He had never experienced such a mission before. More than 20 corpses were recovered, including the remains of both male and female students.

Without asking Instructor Dolly anything, he was able to discern a few things.

The dates of the corpses were different. Some were dead not long ago, but others had been buried for some time.

He understood that Central University 10 was facing a crisis. Their students were killed in the wilderness.

Yet, there was no news about it in the media. It appeared no outsiders knew about it. He then shifted his attention and focused on the path.

As they were returning from the inner area, they came across the other Beast Taming groups. They were going toward the inner area.

They saw the Central University uniforms and walked away. No one caused any problems. It was because Instructor Dolly and a few others were Tier-5 Beast Tamers.

No one caused trouble for them. The team quickly increased their pace toward the city.

A few hours later, they reached the city.

After entering the city, Instructor Dolly and the others waited for Instructor Wyatt and the male students to arrive.

Jeremy Night was among them as well. He was waiting to get his credit points.

It didn't take long for Instructor Wyatt and the others to arrive. The male students rejoined the rest of the students.

There were no casualties. Both Instructors were able to recover as many remains as possible. They needed to go back to the university urgently.

Instructor Wyatt saw Jeremy Night as well. He could tell that they were thinking about the students' remains. Unfortunately, they couldn't speak about it without permission from the higher ups.

Both Instructors discussed their next move. They decided to go back to the university before transferring the payment.

Then they told the others everything.

Jeremy Night and the others agreed. They knew about Central University and the Beast Taming Association.

Right now, everyone is tired out. They wanted to go back and rest.

Then the instructors left with their students. Before leaving, Jeremy Night saw that the red-haired woman was looking at him.

He thought that they were going to meet next time.

She nodded to him all of a sudden. Seeing that, he nodded to her in return.

Then Jeremy Night left the place and found a cab. He entered the cab and told the driver to go to the Shadow Moon Chamber.

Swoosh!

The cab departed. It started moving toward the Shadow Moon Chamber.

About 20 minutes later, the cab reached the destination. The car came to a halt at the spot. He walked outside and paid the fare to the driver.

Jeremy then started walking toward the building. He walked up to the door and opened it to enter.

He was still wearing his armor and helmet. The next second, he found the gazes of everyone on him.

He nodded to the staff before going toward his room. He quickly came to the room and opened the door to walk inside.

Jeremy then removed his armor and helmet. Then he entered the bath to take a shower. The bath lasted for 20 minutes.

He then walked out and changed into comfortable clothes. Then he went to bed to rest.

An hour later, he received a message regarding the 100,000 credit points from the Beast Taming Association. Seeing that, he sighed in relief.

He was not ready to get out of bed. He decided to see the others late in the evening.

Then he went back to sleep.

Meanwhile

Team Leader Gisela heard from the staff that Jeremy Night had returned from the mission. She immediately shared the news with Head Neil Moon.

Head Neil Moon was happy that the kid had returned so soon, because Head Harold Red wanted Jeremy Night to travel to the 5th Zone this weekend.

He asked her to tell Jeremy Night to meet him the next morning. He knew Jeremy Night would take a rest today.

Head Gisela agreed. They talked about other reports before ending the call. She then texted Jeremy Night first.

She decided to call him in the evening.
