

STRIKER 611

Chapter 611: Stranded

Dense Forest

Jeremy Night was watching the forest. Suddenly, his eyes caught something. There were corrupted beasts coming in their direction.

He unsheathed his blade and held it in his right hand.

At that moment, the two pilots and other beast tamers sensed something. The next second, they summoned their Lifeline Beasts.

In the blink of an eye, everyone had their Lifeline Beasts standing outside. Even the pilots and aircrew members summoned their beasts as well.

Shortly afterwards, all the Lifeline Beasts cried out suddenly. They sensed that corrupted beasts had reached them.

"Be careful. The corrupted beasts are none other than hybrid beasts. There are Tier-4 and Tier-5 Corrupted Beasts among them," the Pilot said all of a sudden.

Hearing his loud shout, everyone was alerted. Their Lifeline Beasts were ready to fight against the corrupted beasts.

Swoosh!

A four-legged, dog-type corrupted beast emerged from the bushes. There were more than 30 Tier-4 and Tier-5 Corrupted Beasts.

The numbers on the beast tammers' side were greater than the corrupted beasts, but it was not the time to celebrate.

There could be more corrupted beasts coming behind them, so they had to kill these beasts before leaving the place.

Growl!

Jeremy Night was among the few who were standing alone. There were others as well, but their Lifeline Beasts were either injured or old.

No one paid attention to Jeremy Night right now. Jeremy was the weakest among them; he was a Tier-2 Beast Tamer.

Growl!

In the blink of an eye, the hybrid dog beasts started attacking the beast tamers. A fierce fight erupted the next second.

Cut!

Jeremy Night faced a hybrid dog beast. It was a Tier-4 Corrupted Beast. He swung his blade. The blade cut through the air before slicing through the neck of the corrupted beast.

Pfff!

A torrent of blood gushed forth from the beast's wound.

The dog hybrid beast went past him and crashed into the ground. Jeremy Night withdrew his blade and rushed forward to attack another beast.

He was sure that he had severed the blood vessels; the dog hybrid beast would bleed to death soon.

Swoosh!

In a flash, he came in front of another beast, but it was a Tier-5 Beast.

He covered the blade in starlight power, his gaze locked onto the beast's body. He could see where the blood vessels were located.

Swoosh!

He drew his sword to attack again. The blade glowed white, stunning the Tier-5 dog. The beast got angrier the next second.

It swiped down its claws to attack him. It had sharp claws that could tear through anything.

Slice!

He made a move. He shifted his body while his katana swept across the beast's flank. The blade went through the side of its body easily, leaving a red line.

The starlight power showed its deadliness.

Pfff!

Blood emerged from the horizontal wound. It was not fatal, but it was a critical wound. The blood poured out, dyeing the ground red.

He didn't stop there. Jeremy used a movement method, and his speed burst forth.

Swoosh!

The force propelled him forward. He went to the other side and drew the blade to attack the other side of the body. This happened within seconds.

Slice!

The starlight-filled blade went through the side of the body and left behind another terrible wound.

Pfff!

Blood splattered on the ground. This time, the Tier-5 beast lost its balance and fell to the ground. The landing was brutal, which further widened the injuries.

Jeremy Night sheathed his blade and turned around to face another beast, leaving that spot.

On the other hand, the people nearby noticed the young man and his fighting skills. They were frozen like statues.

Jeremy Night's strength was clear to everyone. The young man was a Tier-2 Beast Tamer, yet he fought across ranks and slayed Tier-4 and Tier-5 beasts.

This scene was witnessed by a few of the nearby Beast Tamers. It was not an ordinary cross-kill; the young man had crossed the second and third tiers to fight against the corrupted beasts.

Boom!

Time went by. The veteran beast tamers, the Tier-6 Captain, the pilots, and crew members were able to kill most of the beasts.

The passengers hadn't had to fight alone. Everyone killed the beasts a few minutes later, but they were not complacent.

The Captain and others felt there were more corrupted beasts hiding in the dark. They had to be ready to face them at any time.

At that time, Jeremy Night sheathed his blade. His eyes sharpened. He found other corrupted beast species as well.

They had taken down the hybrid corrupted beasts without suffering any casualties, but the same could not be said for other beasts. The other beasts could use abilities to hurt them.

Swoosh!

Jeremy caught the clear appearance of the next beast. It was a dark green scorpion. His face changed drastically.

Unlike the hybrid beasts, they couldn't be complacent around the scorpion beast because they could use poison.

The veteran Beast Tamers, the Captain, and the Pilots felt the presence of the scorpion beasts. Their expressions changed.

They knew the scorpion beasts were different from the others. They had to kill them in one attack; otherwise, they could be poisoned to death.

If anyone suffered injury or poison attacks, it would be hard for others to provide help. The city was far away from their current location.

None of them had thought to find information about their exact location. They didn't know where they were stranded.

If not for the sudden attack from the corrupted beasts, they would have figured out what to do next.

"Get ready. It's another round. But this time the corrupted beasts are Scorpion beasts. Careful when dealing with them," the Pilot said once again.

His voice reached everyone's ears. This time everyone stood firm. They understood that it was going to be an important fight.

They didn't know what the pilot's words would be next. They were all waiting for the beasts to emerge.

Chapter 612: Part 1: Tier -5 Green Scorpion danger looming

Wilderness:

The green scorpions rushed out of the bushes and started targeting the Beast Tamers. The clash between the two sides started right away.

The green scorpions were over 3 meters in size. They were between Tier-3 and Tier-4 beasts. The Tier-4 beasts were slightly larger and sturdier than the Tier-3 beasts.

There were even Tier-5 beasts among them, but they had yet to make an appearance. The Beast Tamers had spotted them early, so they were going to be cautious.

On the other hand, Jeremy Night was facing a Tier-3 Scorpion. He couldn't afford to waste his Starlight power, so he decided not to use it against the Tier-3 Scorpion.

He was going to rely on his ability instead.

Swoosh!

A green scorpion over 2 meters long turned toward him and started charging. He knew this Tier-3 beast's target was him.

He held the katana tightly. Unlike the previous hybrid beasts, he couldn't target the flank because the green scorpion had a venomous stinger.

Even a single hit from it could poison a beast tamer to death. He had no idea where the nearest human zones were, so he would do his best to slay the beast without taking damage.

Swoosh!

The beast reached him in a flash. He was on edge from the start. His eyes never left the beast; his gaze captured all its details.

The green scorpion's red eyes glowed. It moved both pincers all of a sudden.

Swoosh!

The next second, Jeremy shifted his body. The pincers hit empty air. He was able to avoid the hit.

But he moved his blade just in time. The vertical tip of the blade struck the side of the pincer.

Cut!

The blade pierced through the skin. The next second, blood spilled from the wound.

The Green Scorpion moved the pincer abruptly in pain.

Jeremy felt the impact force. He immediately withdrew the blade and retreated.

Pfff!

A torrent of blood gushed forth from the wound. The Green Scorpion shook its body.

Swoosh!

He jumped back. His gaze then locked onto the beast. He saw the beast had four eyes: two on the median and two lateral.

He decided to target the two median eyes. He then bolted out from his spot, charging toward the beast.

Swoosh!

He appeared before the beast in a flash. He then leaped forward to attack.

The Green Scorpion once again moved its pincer to attack, but it missed the target.

Jeremy Night brought down the sword to stab at the eyes. In a flash, he stabbed two of the median eyes before landing on the ground.

Pfff!

Blood surged forth from the wounds. The beast lost half its sight. It started moving frantically here and there.

Seeing that, Jeremy thought this was the right opportunity. He once again used the blade to attack the beast.

This time, his target was the area connecting the head and the body.

Slice!

He used his movement method to burst forth. The curved tail of the beast wouldn't be able to target him with accuracy, so the risk of getting attacked by the stinger was low.

Pfff!

The blade cut through the flesh and severed the part in one move. The next second, green blood streamed out of the gash.

The body of the beast dropped to the ground. The severed head landed a second later.

After dealing with the beast, his eyes turned to the next one. It was a Tier-4 beast, stronger than the Tier-3 beast that was now dead.

If he used Starlight power, it would be easy for him. He could kill a larger number of beasts with that power. But he didn't want to do it, because he was not without help.

Actually, the veteran and higher tier beast tamers were clearing out the beasts in large numbers. He didn't have to take the risk.

So, he decided to handle the beast coming toward him. Also, he wasn't going to use Starlight power unless it was necessary.

Swoosh!

The Tier-4 Scorpion, over 3 meters in size, was massive. It would take extra effort to target its vital points. It wasn't going to be easy.

But he decided to use the same tactics again. His senses were stronger than the beast's. The Tier-4 beast wouldn't be able to catch him.

The Tier-4 beast arrived before him. It started using both its pincers and stinger to attack him. Jeremy evaded the attacks one after another.

The beast was fiercer than he had expected. It wasn't giving him any chance to counterattack.

Swoosh!

As seconds passed, Jeremy used his senses to evade the deadly attacks. The beast tamers nearby watched the kid in amazement.

Had they not already witnessed his strength fighting against the corrupted beasts, they would have already rushed to help him.

So, they didn't think he was going to face any trouble.

Jeremy Night knew that people nearby were watching him, but he ignored them. Right now, he wanted to deal with the beast in front of him.

The beast was not giving him any chance at all.

Boom!

At one point, he used the flat side of the blade against the pincer. When both of them came in contact with each other, the impact force sent him backward. He immediately stabilized his body.

Compared to the scorpion type corrupted beasts from earlier, this one in front of him was completely different.

It was as if this scorpion beast was born to fight like this. It was not relaxing its pincers or its curved tail.

Both were moving to face the threat.

Jeremy was then forced to make a decision. He used the Second Eye ability.

He could see the blood vessels of the beast, especially the blood vessels in the path where the head connected to the main body.

Compared to the previous attack, this time he wanted to do it cleanly.

Because he wouldn't get a second chance. The next second, he covered the blade in Starlight power.

Swoosh!

He used the movement method and erupted with force. In one hand, he held the katana glowing white while rapidly moving toward the target.

Chapter 613: Part 2: Tier-5 Green Scorpion danger looming

Wilderness

The Tier-4 Beast saw that an attack was coming. It prepared to move its pincers to grasp him and readied its stinger.

Swoosh!

As Jeremy got closer, he saw the pincers coming at him. His senses sharpened, and his eyes revealed every detail.

For a moment, the beast's movements appeared slow. He easily evaded the pincers and reached the flank.

Cut!

The glowing white katana made an arc in mid air before slashing downward. The starlight blade struck accurately, slicing into the skin and cutting the blood vessels.

Puchak!

The next second, blood gushed out in a heavy torrent. The connection between the head and the main body was half severed.

Since the beast was massive, he needed to make one more move.

Screech!

The Tier-4 Dark Green Scorpion shrieked in pain. At the same time, the ground was dyed in blood.

As blood continued to flow freely from the gash, Jeremy used a movement method.

"Explosive Steps!"

A powerful force propelled his body forward. He returned to the flank and struck again.

Puchak!

The blade made direct contact with the remaining flesh connecting the body. The starlight blade sliced through it like butter.

Feeling no resistance, the blade swept across the remaining blood vessels. When the blade emerged from the other side, the head was completely severed.

Puchak!

As the severed part hit the ground, blood pumped out uncontrollably. The huge Tier-4 Dark Green Scorpion twitched before breathing its last breath.

After killing the beast, Jeremy shifted his gaze to the other side. He saw that the number of corrupted beasts had been considerably reduced.

They were high in numbers to begin with, but now, holding the advantage, everyone had killed most of the scorpion beasts. However, the real problem was yet to come.

The Tier-5 Dark Green Scorpions were still hiding behind the bushes and large trees, yet to make their move.

Jeremy's eyes flickered, and he sheathed his blade. He had fought against four beasts and killed them in the end. There were no other beasts near him, so he relaxed slightly.

The rest of the beasts were being taken care of by other Beast Tamers. Jeremy used his eye ability; he wanted to see what the Tier-5 Scorpion was doing.

Then, his eyes spotted a beast over five meters in size. It was massive. The Tier-5 Dark Green Scorpion looked menacing.

Both the pincers and the stinger were massive. The stinger, in particular, was over half a meter long and deadly sharp, lethal to both humans and Lifeline Beasts.

Especially for humans, no one could survive a hit from a stinger that size.

His eyes sharpened. He didn't know when the Tier-5 Beast would appear. Jeremy started to scan the surroundings.

He wanted to see if other corrupted beasts were hiding. His eyesight was sharp; he could see far better than the other Beast Tamers.

If there were any corrupted beasts hiding in the distance, he would know.

Time went by.

The Captain and the veteran Beast Tamers were waiting for the Tier-5 Beast to come out. The pilots, crew members, and other passengers dealt with the remaining beasts.

But they didn't know how long they would have to fight. Even if they finish the scorpion group, another species might attack.

The Captain's name was Colt Hardin. He was slightly over middle age, but his flight experience was extensive.

He saw that the Tier-5 Scorpions were not ready to come out, even though it had been a few minutes since they wiped out the Tier-3 and Tier-4 groups.

He worried that the Tier-5 Scorpion beasts were waiting for orders. If they were waiting for orders, it meant that Tier-6 Beasts could be behind them.

His expression changed drastically at the thought. Not only him, but the Tier-6 veterans were also afraid of such a possibility.

If there were only one or two Tier-6 Beasts, they could handle it. But if there were more Tier-6 Beasts behind this attack, no one would survive.

Tier-6 Beasts were on a different level. Their speed and reactions were at a terrifying level. No lower-tier human Beast Tamers or Lifeline Beasts could defend against them.

There was an even more terrifying possibility: the presence of Tier-7 Beasts behind the attacks. If that were true, their deaths would come even faster.

The veterans understood the threat and the danger to their lives.

Suddenly, one of the veterans turned towards the Captain.

"Captain Colt, we should call for assistance," he said.

"Yes, the flight was following the set path. There must be a human zone at the next destination. We could come across one of the cities," an old woman added.

"Before more terrifying beasts show up, we should be ready," an old man said.

Hearing that, everyone turned towards the Captain. The pilots and the crew members looked at Captain Hardin.

Captain Hardin made a decision. He, too, knew the dangers of staying there.

He said, "Okay, first of all: Who among you has a flying type Lifeline Beast suitable for long distance travel?"

Hearing that, the Beast Tamers looked at each other.

One of the veterans raised his hand and said, "I have a Sky Eagle species on my side."

Captain Colt's brows relaxed.

He said, "Senior, then you should take the Beast Tamers with the flying type Lifeline Beasts to the nearest city and call for assistance."

The veteran heard Captain Colt's plan. It sounded solid. Instead of just waiting there, getting help would be far better.

He agreed to the plan. The other Beast Tamers nearby heard it as well. Both the pilots and a few crew members stepped forward.

They all had flying type Lifeline Beasts. Whether due to their aviation jobs or not, they had selected flying-type Lifeline Beasts in their childhood.

Then, the Captain turned towards the rest of the crowd and informed them in a loud voice, "Those who have flying type Lifeline Beasts, step forward!"

His words reached the rest of the Beast Tamers.

Jeremy Night raised his eyebrows.

Chapter 614: Part 1: Reaching out

Wilderness

A few minutes later, a veteran Beast Tamer began leading the team of Beast Tamers to seek help from the nearest city.

The Beast Tamers are from the passengers and crew.

They were all flying on the backs of their lifeline beasts. In the blink of an eye, they disappeared from everyone's sight.

Then, everyone's attention shifted back to the forest. The Tier-5 Dark Green Scorpion was still not making a move.

As time went by, the tension rose.

Captain Colt Hardin and the others were worried that there could be Tier-6 beasts behind the attack. Their eyes scanned the surroundings.

On the other hand, Jeremy Night was observing the situation just like everyone else. He had observed what happened a few minutes ago.

A team of Beast Tamers had left the place on their flying-type corrupted beasts. He thought they were likely going to ask for assistance from the nearest city.

Screech!

All of a sudden, a terrible sound alerted him.

He turned around and saw massive beasts, over 5 meters in size, emerging from the vegetation. There were more than ten Tier-5 Corrupted Beasts.

They had entered from all sides. However, the numbers on the Beast Tamer side had reduced, as some of them had already left.

Now, they were going to face the Tier-5 Dark Green Scorpions.

Captain Colt Hardin and the rest of the veteran Beast Tamers took direct action. They intended to kill all the beasts before any casualties appeared on their side.

Jeremy Night had a tight grip on his blade. There was a Tier-5 Scorpion coming in his direction.

It was one thing to fight against Tier-3 and Tier-4 Corrupted Beasts, but Tier-5 Corrupted Beasts were different. Their size and attacks were powerful.

Jeremy thought that an attack from a Tier-5 Scorpion could hurt even the Tier-6 Captain Colt.

Boom!

Suddenly, a few of the seniors took action before him. To them, he was still just a Tier-2 Beast Tamer.

"You can cross-kill, but leave the Tier-5 Corrupted Beast to us," an old man said before rushing past him.

He charged toward the Tier-5 Scorpion. Hearing that, Jeremy didn't react. He was not reckless. Unless he was forced to, he wouldn't take chances against the scorpion.

If needed, he would provide assistance from behind.

Boom! Boom!

Time went by, and the veterans were gaining the upper hand against the Tier-5 beasts. From time to time, the scorpion made a sudden attack, but with their massive experience, the tamers avoided the deadly stinger

...

7th Zone, City F:

Meanwhile,

The Beast Taming team went to look for help. They reached the city an hour later. It was City F, a big city in the 7th Zone.

The size of City F alone was massive compared to the cities in the 8th, 9th, and 10th Zones.

The arrival of the Beast Taming Teams on flying-type beasts shocked the city guards. It didn't take long for the City Governors to come out and learn what had happened.

They were all shocked. Like other cities, City F had three City Governors as well. The heads of various forces were also present.

Everyone learned about the situation and decided to lend a hand because they understood that an attack from a Tier-5 Scorpion wouldn't be simple.

There could be Tier-6 beasts behind it. The Tier-7 Beast Tamers and some Tier-8 Beast Tamers, who were heads of the Beast Taming Forces, left the city immediately with the team.

Among the three City Governors, two of them joined as well. The City F wilderness was filled with threats, so they needed to rescue the others before anything worse happened.

Meanwhile,

The remaining Tier-5 Scorpions were going to die. Jeremy Night didn't have to make any moves from the beginning.

They were going to win, but none of them were happy. Jeremy Night had a feeling that something was not right.

They were traveling from the 10th Zone to the 5th Zone by flight. The threat level should have been high, right? Yet, they hadn't faced a life-threatening crisis so far.

Screech!

"Everyone back off!"

Jeremy heard a terrific sound and the voice of Captain Colt. He retreated without thinking any further.

After retreating a couple of meters, he raised his head and saw a towering tree. Beside the tree, a beast over 6 meters tall walked in casually.

The size of the beast was taller than the trees themselves.

Jeremy Night and the others immediately felt a sense of oppression. He felt it even more intensely. He had once escaped from the clutches of a Tier-6 beast.

At that time, the Tier-6 beast hadn't made any effort to catch him. Otherwise, he would have faced a crisis long before.

Now, he was facing such a crisis again. This time, the threat level was high. Everyone felt it. If they didn't do anything, they could really die.

Pfff!

A Tier-5 Beast Tamer and his lifeline beast were cleaved into two halves by pincers all of a sudden.

Swoosh!

The speed was so fast that everyone failed to sense it. The beast didn't stop there. It shot toward the nearby Tier-5 Beast Tamers and their lifeline beasts.

All of them were veterans.

Pfff!

In a flash, mutilated corpses could be seen on the ground.

Captain Colt Hardin's face changed drastically. He immediately went forward to attack. He didn't hold back.

The four-legged hybrid tiger beast beside him darted toward the target as well.

On the other hand, Jeremy Night gripped his blade handle even more tightly. He was using his eye ability, yet it was hard for him to track the beast.

He could only see blurs in front of his eyes. He immediately removed any lingering thoughts about engaging the beast.

He could not even see the beast. How could he fight against it? Moreover, his senses were being overwhelmed. He stood rooted to the spot like a statue.

He then saw a massive tiger type lifeline beast of similar size attacking the Scorpion. His gaze then fell on Captain Colt. It immediately brought him a sense of relief.

Chapter 615: Part 2: Reaching out

Wilderness

The massive hybrid tiger beast pounced on the scorpion. Although the tiger beast was slightly smaller than the scorpion, its power was immense.

Boom!

The claws of the beast struck the pincers. Sharp claws tore through the defense, cracking the hard scales.

Puchak!

The next second, blood seeped from the wounds, painting the ground.

The massive scorpion beast retreated. Its movement alone caused a huge shockwave across the ground, uprooting larger trees and dense vegetation. This happened in the blink of an eye.

The two beasts were Tier-6. Their fight could devastate the surrounding area.

The rest of the beast tamers continued to retreat; otherwise, they would be affected by the shockwaves as well.

Jeremy Night retreated along with the others. He was also using his eye ability. He didn't know whether there was more than one Tier-6 beast behind the attack.

The beast had killed a couple of beast tamers within a few seconds. If Captain Colt Hardin hadn't reacted faster, the casualties would have been higher.

Jeremy Night's sight reached far into the distance, but all he could see was dense forest cover.

However, the size of a Tier-6 beast was massive; one could spot them from far away. He didn't see any other beasts in the surroundings, which gave him some assurance.

He relaxed and continued to watch the battle between the Tier-6 beasts.

Time went by.

Captain Colt Hardin was able to push back the Tier-6 Scorpion. His hybrid tiger lifeline beast was agile and able to avoid the deadly stinger.

He worried that even a small scratch could cause problems, but his lifeline beast was fast enough to avoid the attacks.

Both pincers of the Tier-6 Dark Green Scorpion were cracked by the sharp claws. It was injured.

The beast only had its deadly stinger left. If the stinger were injured, the beast would be defenseless.

Roar!

The hybrid tiger targeted the curved tail. The sharp claws were about to strike, but the scorpion beast was able to avoid the attack. In the blink of an eye, the Tier-6 beast retreated into the dense forest.

Time passed.

The two City Governors and the Tier-8 Beast Tamers, followed by a team of higher-tier beast tamers, reached the location. They witnessed the confrontation between the two Tier-6 corrupted beasts.

The two City Governors were middle-aged and were Tier-8 Beast Tamers. One of them immediately disappeared from the spot and reappeared above the Tier-6 Dark Green Scorpion.

The next second, the City Governor released a powerful coercion. The force struck the body of the Tier-6 Dark Green Scorpion.

Puchak!

The massive scorpion, over six meters in size, was blown to pieces. Blood splattered across the ground.

After killing the beast, the City Governor returned to his previous spot.

Only then were the rest of them able to collect their thoughts. Captain Colt Hardin recalled his hybrid tiger back into his mental zone.

He appeared before the City Governors to greet them. Colt was relaxed; he had worried that help would be late and didn't expect them to arrive so quickly. Now, they could be at ease. They were saved.

Then he looked behind the two City Governors. There was a stream of beast tamers arriving at the spot, including the team that had gone to ask for help.

"There is no need to waste time. Everyone, follow us back to the city," one of the City Governors said.

Hearing that, Captain Colt recovered his thoughts. He then appeared in front of the rest of the team.

His gaze scanned the area before finding the aircrew members. He saw the mutilated corpses as well; not a single one was intact.

He felt sadness, but he had to make a practical decision. He turned towards the crew members and told them to gather the survivors.

The City F Beast Tamers monitored the surroundings. Seeing that there was no immediate threat, they wanted to leave right away.

On the other hand, Jeremy Night sheathed his blade. His tense nerves eased. Seeing the appearance of so many experts, he believed they were close to the nearest city.

A few minutes later, everyone started following the City F Beast Tamers on foot. Not everyone had flying-type corrupted beasts.

The City Governors saw a massive open space not far from their current spot. They decided to use flying vehicles to bring the beast tamers back to the city.

They knew it was a flight en route to the 5th Zone. Many of the passengers had backgrounds in the 5th Zone, which was more powerful than the 7th Zone. They didn't want to anger anyone.

They guided the beast tamers to the massive open land. From there, they sent a few teams back to the city to bring drivers.

They needed 15 vehicles in total. Each could carry four passengers. Only a few of the flight passengers remained; most had already gone to the city.

Only veteran beast tamers had come back to assist, and they had suffered casualties as well.

The group relaxed on the massive open ground.

Higher-tier beast tamers were around them, so they didn't have to worry about their safety. Jeremy sat on one of the stones.

He was the only Tier-2 beast tamer among them, so he attracted special attention. Even the beast tamers from City F looked at him in surprise. Even the two City Governors took a look before turning away.

They knew only a person with status could go to the 5th Zone with mere Tier-2 strength, so they weren't surprised.

On the other hand, Jeremy Night stayed calm. He could see that the beast tamers were looking at him; he was the oddball here.

He wanted to reach the 5th Zone as soon as possible. He didn't know what else was hiding in this wilderness.

Not only him, there are other Beast Tamers who were still wary of their surroundings. They were observing the place despite the presence of the City Governors.

The Tier-6 Beast attack earlier given them a huge shock.

Chapter 616: Special flight

7th Zone, City F

Shortly afterwards,

Many flying vehicles came to the open landmass under the instructions of the City Governors.

Everyone started boarding the flying vehicles. When it was Jeremy Night's turn, he came to the last flying vehicle and entered. Then, he sat in the window seat.

The driver was a middle aged man. He was a Tier-5 Beast Tamer. Upon seeing the young Tier-2 Beast Tamer, he was shocked.

He knew the young man was one of the passengers as well. So, he immediately thought the young man was from some big force.

He carried a pleasant smile on his face. Then, a middle aged woman entered the vehicle. She was a Tier-5 Beast Tamer as well. Only the two of them remained.

She nodded to Jeremy Night before minding her own business. Jeremy Night did the same. But he noticed the woman was in deep thought, so he was not offended.

A few minutes later,

The flying car departed from the place. The driver was following the other cars in front of him. As the car was moving in mid air, he got the chance to view the forest through the window.

Wherever his gaze passed over, he could only see the thick forest cover. Just as he was about to withdraw his gaze, he spotted massive beasts.

But they were located far away. The range was beyond his eyesight. What's more, he could only judge by seeing their movements.

Something taller than a giant shade tree was moving behind it. It must have been a higher-tier corrupted beast. He then withdrew his gaze and didn't ask the driver about it.

Right now, he wanted to reach a safe place. He believed there must be a flight to the 5th Zone.

Time went by.

The two City Governors and Beast Tamers of City F were the last ones to follow. One of the City Governors purposely released his coercion to kill the Tier-6 Dark Green Scorpion.

It was done not only to kill the corrupted beasts but also to alert the other higher tier beasts living in the wilderness.

The higher tier beasts must have already felt the Tier-8 Coercion. The corrupted beasts below Tier-8 wouldn't dare to approach the place.

Because of this, they were able to leave the place without any problem.

About 30 minutes later,

The flying cars reached City F. Everyone could see the view of the city from the window.

On the other hand, Jeremy Night and the middle aged woman saw the city as well. There were towering buildings and many modern structures with beautiful colors.

The infrastructure was vast and beautiful. The city was bigger than their City A.

Jeremy Night raised his eyebrows. His eyes scanned the city. He thought of something. Then he glanced at the middle aged woman sitting beside him.

The middle-aged woman's facial expression was normal. As if she was not surprised by the view of the city.

"She could be from the 5th zone," Jeremy thought.

A few minutes later,

The flying vehicles flew over the city gate and went to the middle of the city. The airport of City F was located here.

When the flying vehicles reached the airport, they came to a halt in the parking area. The flying cars landed on the ground one by one.

Jeremy Night's car touched down on the ground. He understood that they were brought here to the airport. They were not going to stay here.

They might board the next flight. Then, they stepped out of the car. Jeremy Night's gaze fell on the other cars.

The other Beast Tamers were stepping out one by one as well. His gaze wandered around before seeing Captain Colt Hardin.

Captain Colt was thanking the City Governors.

He didn't know what they were going to do next.

On the other hand, Captain Colt heard that the City Governors were going to make arrangements for them to leave on a special flight.

"You can only go to the 5th Zone from our City A. There is no direct flight from here," one of the City Governors said.

Captain Colt Hardin knew the route as well, so he was not surprised. But he thanked them once again for the special flight.

A few minutes later,

The City Governors and the local Beast Tamers left the place. The airport officials would take care of further matters.

Captain Colt Hardin instructed the air crew members to bring everyone in front of him. Those who had first entered the city with their flying type lifeline beasts were here as well.

Jeremy Night and the middle aged woman joined the group.

"Listen up, everyone. The City Governors have arranged a special flight for us. We are going to City A next."

"From there, we will take a direct flight to the 5th Zone. There is only the 6th Zone between the destinations. So get ready," Captain Colt Hardin said.

Hearing that, everyone heaved a sigh of relief. Most of them were tense earlier because they had suffered casualties. It was a big deal. It was not easy to recover from it.

But they heard the good news now. They could be at ease after reaching their destination.

Seeing the calm and composed reaction of everyone, Captain Colt Hardin sighed.

He was worried that there would be a strong reaction from them. They were responsible for their safety, yet the casualties had occurred.

Obviously, he and the crew members would face an investigation later. But he had to reach the destination for now.

30 minutes later,

The survivors boarded the special flight with the same crew members, two pilots, and Captain Colt Hardin.

Captain Colt Hardin checked the number of people in person. He didn't want to leave anyone behind.

Captain Colt Hardin was surprised to see the young Tier-2 Beast Tamer. He had thought the young Beast Tamer would be traumatized by the incident.

But the youngster was calmer and more collected than the other passengers. He knew the young Beast Tamer was not ordinary. Everyone had witnessed his power earlier.

He then gave the green signal to the crew members and the pilots. The flight could depart from the place now.

Chapter 617: 5th Zone, City-A

Journey

The special flight left the airport. Now the flight was going towards City-A. They didn't know that the two City Governors had never left the airport.

They watched the special flight going away from their territory. Then, they exchanged looks.

They decided to report the news to the City Governors in the 5th and 10th Zones.

Time went by,

The news reached the ears of the City Governors in the other two zones. They were shocked. Flight accidents were rare.

They hadn't expected the flight to the 5th Zone to meet with an accident. Not only that, the Governors heard that there were casualties as well.

This incident saddened them. They decided to inquire about the details from the Captain and the crew members later.

For now, the City Governors didn't inform the families. Otherwise, it would cause unnecessary problems. Once the passengers touched down at the destination, they decided to inform them.

Time went by,

The flight eventually left the area of the 7th Zone a few days later. Now, it has entered the area of the 6th Zone.

Fortunately, the climatic conditions were normal here. They were not facing any thunderstorms or rain.

The passengers and crew members were relaxed a lot. They wouldn't face any problems during the rest of the journey.

Coincidentally, Jeremy Night and the middle-aged woman were seated next to each other. He was a bit surprised.

But still, she minded her own business. Jeremy Night felt bored. He wanted to talk, but he was being careful.

He decided to rest until reaching their destination. Because of the incident, the flight was delayed by one day.

But it was going towards the destination at the set speed. The pilots were following the instructions.

...

5th Zone, City-A

A couple of days later,

The special flight finally reached the 5th Zone, City-A. It was a long journey. The passengers were all tired.

The flight then reached the airport and touched down on the ground. The flight came to the destination a day late.

But they didn't know that it was a flight from the 7th Zone, not from the 10th Zone.

A few minutes later,

The door was opened. The passengers then started exiting the plane one by one.

Soon, it was Jeremy Night's turn. The middle-aged woman exited before him. He then followed her and walked out of the plane.

He came to the ground. Only then did he feel a strong relief in his mind.

The other passengers were relieved as well. Their journey had involved death.

Some of the passengers started thanking the Captain, the crew members, and the pilots.

It was because of their help that they were able to survive. If they hadn't fought against the Corrupted Beasts and killed them, the casualties would have increased.

Jeremy Night didn't shy away from thanking them as well.

Captain Colt Hardin stood in front of everyone. His gaze fell on the passengers.

"Thanks for cooperating with us. Hereafter, you guys can leave. We will be reporting to the higher-ups. The news of the deceased will be shared with their families," he said to everyone.

Hearing that, the passengers felt sad again. But they had to go on with their lives. Then, everyone started leaving.

Jeremy Night followed them towards the airport exits. He knew someone would be there to pick him up. Since the flight was delayed, he didn't know whether the person was there or not.

A few minutes later,

He came outside. He saw other passengers leaving in aircabs, including the middle aged woman who was seated next to him during the flight.

Suddenly, he noticed a blonde haired woman in a red suit coming towards him. His eyes flickered. The woman was approaching as if she knew him.

The blonde haired woman was none other than a Tier-5 Beast Tamer from the Red Moon Chamber. Her name was Melinda. She was sent there to pick up Jeremy Night.

She had already received the news about the flight delay earlier.

"Are you Jeremy Night?" Melinda asked.

Hearing that, Jeremy Night was taken aback. Then his mind acted. He realized she could be from the Red Moon Chamber.

"Yes, I'm Jeremy Night. Are you from the Red Moon Chamber?" he asked her back.

Melinda looked the young Tier-2 Beast Tamer up and down. She knew a little information about this young man.

It said that he was a young prodigy who could fight across tiers. But his Talent Grade was A-Grade.

"Yes, I'm from the Red Moon Chamber. Head Harold asked me to pick you up. Come with me." After saying that, she turned around and started walking towards her car.

Seeing that, Jeremy quietly followed her to the car.

Melinda used to drive her own car. She then asked him to take a seat.

Jeremy opened the door and sat in the back seat near the door. She then sat in the driver's seat before driving the car.

Shortly afterwards,

The flying car hovered above the ground. It reached mid air. Then it started moving towards the Red Moon Chamber.

The car came out of the airport and joined the other moving cars in the air.

Jeremy Night looked at the outside scene through the window. He got a quite good look at the airport. It was of a more massive size than he had imagined.

As the car went forward, he spotted other buildings. Wherever his gaze passed over, he could see the towering buildings.

The buildings were so close to each other. The layout of the city appeared to be beautiful.

Melinda didn't speak a word. She was driving towards the organization. But she saw the reaction of the young Beast Tamer.

She was quite worried. She knew the young man was coming from the second branch in the 10th Zone. It was like a promotion for him.

But the competition here was cutthroat. If he didn't do missions well, then there were people ready to replace him.

Though the organization was different than before it had merged with another organization, there were still things which Head Harold couldn't ignore.

Such as the Beast Taming Families and other forces.

Melinda hoped that the young man had come prepared for everything.

Chapter 618: New home!

5th Zone, City-A

Melinda was driving the car. Jeremy Night continued to observe the surroundings.

About 20 minutes later,

The flying car entered the area of the Red Moon Chamber building. Jeremy Night, who was in the back seat, saw the towering building.

The towering building had 10 floors. There was a name board that read "Red Moon Chamber."

She stopped the car in the parking area. The flying car came to a stop. Melinda then walked out of the car.

Then Jeremy Night stepped out of the car.

"Come with me," Melinda said.

Hearing that, Jeremy collected his thoughts. Then he started following her. He slightly glanced at the towering building.

The towering building was a transparent glass building. The building was larger than the one back in the 10th Zone.

Jeremy Night then shifted his gaze and reached the gate by following her.

The door opened automatically.

Melinda then walked in. Seeing that, Jeremy Night walked into the building next. The next second, he saw a wide, spacious living room.

The staff were going about their business. Melinda then brought the new kid to the admin office. There were male and female staff inside the room.

She spoke with one of the female staff. The female staff was surprised. The other nearby staff were taken aback as well.

They didn't expect a new member to join them.

Melinda didn't explain further. She got the room key.

She then turned towards Jeremy Night and said, "Your room is on the top floor. Which is the last and 10th floor. The room number is 10."

After saying that, she gave the key to him.

Jeremy Night accepted the key and thanked her. Then she guided him to the lift.

"Let's go, I'll take you to the room," Melinda said.

Hearing that, he thanked her. Next, they started going towards the elevator.

On the other hand, the staff were surprised. They looked at each other's faces.

"Who is this new kid?"

"Why is Melinda bringing him?"

The other staff began to discuss. They thought some Beast Taming Family might have sent their descendant here.

Because they saw that the young man was a Tier-2 Beast Tamer. How could the organization accept a Tier-2 Beast Tamer? They were confused.

Since Melinda didn't explain much, they didn't discuss it further.

Meanwhile,

Both of them came to the 10th floor a few minutes later. Jeremy then arrived in front of the 10th room with Melinda.

"You can go inside and take a rest. I'll come tomorrow morning. Then I will take you to meet Head Harold Red. Then we will finish the rest of the formalities," Melinda said in a solemn tone.

"Okay," Jeremy replied.

He then thanked her once again.

Melinda then left the place. Seeing that, he used the key to open the door. He then walked inside and closed the door.

His gaze swept across the room. The room was wide and spacious. There was not only a wide living room, but there was a wide bedroom as well.

He then started going around the room. He found there was a training room as well.

A look of understanding dawned on him. The facility was better than the 10th Zone. His eyes flashed with interest.

Then he opened the training room. His gaze saw the big training room built with special walls, floors, and a ceiling.

He then walked into the room, and his eyes scanned the control switches. He understood that this was not only a training room but also a natural energy practice room as well.

He then walked out and went around the room. He then finally sat on the sofa.

"The room is twice the size of my previous room. The facility here is the best as well," Jeremy thought.

Then he decided to go and sleep. So he stood up. Just as he was about to leave, he recalled Leader Gisela.

He then texted her and Head Neil Moon about his safe arrival. He also texted his parents. He wanted to call them, but he decided to do it tomorrow.

Next, he went to the bedroom to sleep.

...

Meanwhile,

Melinda came out. She then went to meet Head Harold Red. Harold Red was busy on a call. But when he learned Melinda was standing outside, he allowed Melinda to enter the office.

Harold ended the phone call. He was the one who sent her to pick up Jeremy Night. He asked her to take a seat.

Melinda sat on the chair.

Harold Red then asked, "How is the kid?"

Melinda understood the question.

She said, "I can't see anything special about the kid. He is just a Tier-2 Beast Tamer."

Harold's eyes flickered. He found that Melinda was honest.

"Don't judge too quickly. You will be surprised if you knew about his achievements," Harold said.

"That kid has participated in three beast invasions in three different zones," he added.

"What?" Melinda uttered.

Her eyes flashed with disbelief. For a second, she thought she was hearing something incredible.

She found it hard to believe as well. It's hard for a Tier-2 Beast Tamer to survive in the wilderness. They can't take normal missions at all.

In all the zones, it's common for Tier-3 Beast Tamers to take starting-level missions. Only a few Tier-2 Beast Tamers from the Beast Taming Families can do the missions.

But they all belonged to powerful Beast Taming Families.

Melinda was silent for a few minutes.

Even Harold was quite skeptical. He had not seen these things himself. He had heard it from his friend, Head Neil Moon.

So he was interested in seeing Jeremy Night's performance.

"It's true. Don't underestimate the kid. He can fight across Tiers. He can kill Tier-4 Corrupted Beasts easily," Harold said.

"This kid's home was located in the 14th Zone. He was then recruited to the 10th Zone because of his talent."

"After the merger, I have decided to recruit the kid to our branch. Here, the kid can use more resources," he added.

Hearing that, Melinda's eyes flickered. She had never seen Head Harold praising someone before. She decided to verify things in person.

Head Harold then spoke about a few other things.

Chapter 619: Tier-2, 7th Rank-Mid Stage (Breakthrough)

10th Zone, City-A

Red Moon Chamber:

Head Harold was staying in his office. He had been working long hours. Suddenly, his device rang.

He shifted his attention and picked up the device.

Then, he saw the text message sent by Jeremy Night. He sighed in relief.

He didn't know the exact reason for the flight delay, but he believed something had happened. He decided to ask his friend the next morning.

Meanwhile,

Leader Gisela had the same reaction. She was wondering why Jeremy Night hadn't texted her. She had also received the news that the flight was delayed.

After reading the message, she put her heart at ease. However, she knew the real challenge for Jeremy Night started now.

The 5th Zone was entirely different. The competition was cutthroat. The higher-tier beast tamers there were as numerous as clouds.

Even their lifeline beasts were not ordinary; they were high grade bloodline beasts.

Although there was going to be competition, she believed it would open new doors of opportunity for Jeremy Night.

With a stronger A-Grade Talent, she believed Jeremy Night could thrive in that place.

The only limiting factor was Jeremy's current strength, which was at Tier-2. As long as he became a Tier-3 Beast Tamer, many problems would be gone.

After collecting her thoughts, she decided to have a full conversation with Jeremy Night tomorrow.

...

14th Zone, City-C

City Governor Ron Night returned to his home. These days, he had been restless because he had received no calls from his son.

He was worried. Then, he met with his wife, Nora. Tension was written on her face. She was extremely worried as well.

Both of them were in the living room having a conversation about this matter.

Buzz!

Ron and Nora both received the message at the exact same time. They picked up their devices to read it.

The message was from none other than their son, Jeremy, who had landed safely in the 5th Zone. He had now reached the organization.

He wrote that he would talk to them tomorrow after taking a rest.

Phew!

Ron and Nora looked at each other and heaved a sigh of relief.

"The 5th Zone was something we dreamt about. But I never expected one day our son would go there to live," Ron said with a smile.

He knew that the powerful organization of the Human Population was located in the top 10 zones. The most powerful ones were in the top 5 zones.

With the opportunity and abundant resources there, he believed their son could achieve something great.

Nora then said, "Do you think Lord Martha is keeping watch over him?"

Hearing that, Ron was stunned. Lord Martha from the Human Alliance was the one who had changed Jeremy Night's fate.

"I believe she is quietly keeping an eye on our son," Ron replied.

Then, they shifted the topic and started discussing other things.

...

5th Zone, City-A

The next day,

Jeremy Night woke up on time. He got out of bed and did his morning routine.

Since it was a 10th-floor room, he could look at the building and streets through the window.

He walked up to the window and opened it. The morning sunlight touched his face. Then, the light reached the room, brightening it immediately.

He looked around and found it hard to believe. He had moved into the new city. This room was going to be his new home from now on.

Buzz!

Just as he was appreciating the city view through the window, the unknown beast egg lifeline beast showed movement inside the mental zone.

The unknown beast egg started vibrating. The next second, it started to suck the natural energy from the surroundings.

Jeremy Night was stunned because he found the natural energy to be pure and rich. It was stronger than in the 10th Zone and the 7th Zone.

He had failed to pay attention earlier. Now, he was shocked to the core. If this was the natural environment here, then what about the practice rooms?

He immediately collected his thoughts and went to the practice room. He went inside and closed the door. Then, he turned on the switch.

Buzz!

The next second, natural energy accompanied by pure white mists started entering the room from the inlet.

The unknown beast egg inside the mental zone got more excited. It started absorbing the natural energy right away.

Then, he closed his eyes and started running the inner breathing method. He had a feeling that a breakthrough opportunity was near.

As the natural energy entered his body, he started guiding the energy according to the routine. Then, he found surprising changes in his body.

The cells became active. They started absorbing the natural energy right away.

Seeing that, Jeremy continued repeating the process. His strength was now close to the 7th Rank-Mid Stage.

He didn't know when the unknown beast egg would break through. Because if it broke through first, he would receive the feedback energy.

Then, he would smoothly reach the Mid Stage.

A few hours later,

The unknown beast stopped moving all of a sudden.

Click!

The next second, the unknown beast egg reached the next stage: Tier-2, 7th Rank-Mid Stage.

Shortly afterwards, it shot the feedback energy towards the contractor. The feedback energy entered Jeremy's body.

The cells began to absorb the new feedback energy. The next second, they started evolving. In return, his whole physique rapidly strengthened.

Jeremy Night had been hoping earlier to have a breakthrough sooner, but he didn't expect to get the breakthrough opportunity right away.

So, he continued to run the inner healing method.

It didn't take long for his physique to reach the next level.

Click!

Tier-2, 7th Rank-Mid Stage

His strength successfully reached the next level. Now, he was at the Mid Stage. If this progress continued, he would reach the Peak Stage in a few weeks.

He could reach Tier-3 within at least two months. Once his strength reached Tier-3, he could handle the problems here.

Jeremy collected his thoughts and continued to guide the energy to stabilize his new strength base.

Time went by,

The unknown beast egg stopped giving feedback energy. Then, it became still. On the other hand, Jeremy Night didn't stop his practice.

He continued to use the natural energy to stabilize his new strength.

Chapter 620: A meeting with Head Harold

5th Zone, City-A

2 hours later,

Jeremy Night walked out of the training room. He then went to the bathroom to take a shower. The shower lasted for 20 minutes.

When he walked out, he immediately changed into fresh clothes. It was the uniform of the organization.

A sharp glint appeared in his eyes. Yesterday, he noticed that beast tamers were dressed in casual clothes.

He then began to get ready.

A few minutes later,

Someone knocked on the door. He immediately thought of Melinda. He knew it was time to meet Head Harold Red.

He walked up to the door and opened it. The next second, he saw the middle aged woman, Melinda.

Melinda saw that Jeremy Night was ready. He was wearing the uniform, but it was not the uniform of their 5th Branch.

She then walked into the room. She looked around before taking out a new storage bracelet.

"Here, take this new storage bracelet. It has a uniform and other necessary items, including the map and booklet about the distribution of the forces here," Melinda said.

Hearing that, Jeremy received the new storage bracelet. The new storage bracelet was wine red in color.

He was used to seeing black and silver bracelets. This was the first time for him to see this color of bracelet.

"Go and change into the new uniform. Head Harold Red is waiting for us," Melinda said.

"Okay," he replied before going to the room.

Melinda then sat on the sofa. She raised her eyebrows in doubt. She found Jeremy Night's aura seemed to be stronger.

It surprised her. She recalled Jeremy Night was not this strong yesterday. She thought he must have broken through today.

She couldn't help but recall the words spoken by Head Harold Red yesterday.

"It appears Head Harold was right. This is interesting," Melinda thought.

But she still had the thought that Jeremy Night's strength was not enough. If the news were to be released, what awaited was chaos.

There would be many opposing voices. She didn't know how the kid would face all of it.

A few minutes later,

Jeremy Night walked out wearing the wine red and black uniform. Melinda saw Jeremy Night and nodded to him.

"Let's go." After saying that, she stood up and left the room.

Jeremy Night followed her to the exit. He then closed the door and started walking behind her.

A few minutes later,

They reached another floor and came to see Head Harold Red. His office room was open. Both of them walked inside.

Jeremy Night was feeling slightly nervous. It was the first time for him to meet Head Harold. Then he saw an old man over sixty seated at the desk.

He had short red hair and a beard. He was wearing the red uniform as well. It was a battle uniform. Jeremy observed Head Harold Red.

Head Harold was looking at him. In one glance, he saw through Jeremy Night's strength.

"Mid or Peak stage," Harold thought.

He was surprised. He knew that just one year had passed since the kid graduated from high school. Yet, he was able to reach closer to Tier-3 with a special A-Grade Talent.

He thought Jeremy Night's talent was special. He knew about the talent called.

"Supreme Combat Body," he thought.

On the other hand, Melinda saw that the two of them were observing each other. She then coughed to attract their attention.

The next second, Harold looked at her. He then asked both of them to sit down.

Jeremy Night sighed inwardly. He then pulled out the chair to sit down.

Melinda did the same.

Head Harold said, "Kid, my friend was saying great things about you. Your track record proved well."

"You did well in the 9th Zone's Beast Invasion. Not only that, you survived the flight accident to come here," he added.

"Flight accident?" Melinda uttered in shock.

"You don't know? Another incident happened." After saying that, he started talking about the flight accident.

Jeremy was not surprised. It had been a day; the news must have reached every force. They had encountered a Tier-6 Beast in the end.

Fortunately, the City Governors there came to rescue us.

A few minutes later,

Head Harold finished saying everything. Melinda was dumbfounded. She glanced at Jeremy Night sitting beside her.

She was shocked that Jeremy Night, who was a Tier-2 Beast Tamer, had survived. But a few of the higher-tier beast tamers were killed by the Tier-6 Corrupted Beasts.

Head Harold then said, "Now that you are here, you are part of the 5th Branch. But your strength is still below the basic requirement."

"You have to become a Tier-3 Beast Tamer before joining any other teams here. Until then, you will receive missions from me."

"But I will give you a mission twice a month. You have to use the rest of your time in practice. Once you become a Tier-3 Beast Tamer, I'll assign you to Melinda's team," he added.

Jeremy Night understood. He didn't have great expectations from the beginning.

Since his strength was Tier-2, he didn't think much about the teams here.

Now that he heard that Head Harold would give him missions, he sighed in relief. What he needed was the reward after completing the mission.

Melinda asked, "Head, are we going to release the news?"

"The news of the new recruit will shock others. The families were already wanting to send their descendants here," she added.

Jeremy recovered his thoughts. The topic turned to a serious situation. Team Leader Gisela gave him a similar report as well before leaving.

But he hasn't read it yet. He had thought about reading it during the flight journey, yet the incident had happened.

Head Harold said, "I will release the news. At the same time, I will tell them that I'm watching over this kid. So no one on our side will target him."

"But the rival forces could send their Tier-2 and Tier-3 Beast Tamers to cause trouble if he goes outside," he added.

Hearing that, Jeremy's eyes flickered. He was not expecting to hear about the rival forces so soon.
