

## STRIKER 621

Chapter 621: Explosive news

5th Zone, City-A

Melinda heard about the rival forces. Her expression changed drastically. She knew that the rival forces wouldn't allow them to grow.

The competition here was cutthroat. If they knew about the new recruit, they would try to eliminate him.

"Head, I have a suggestion. It's not good to send Jeremy Night into the wilderness until he becomes a Tier-3 Beast Tamer."

"It's impossible to keep an eye on him all the time," she said in a serious tone.

Head Harold heard it. This time he agreed with her as well, since he had given his word to Jeremy Night that he would send him for a mission twice a month.

He then thought of something.

"Okay, since I have decided to give him missions, the missions won't be dangerous. But you have to keep an eye on him as much as possible."

"I'm going to assign him into your team later," Head Harold said.

"Okay," Melinda agreed.

She didn't dare to disobey.

Jeremy Night heard everything, but he didn't have much to say. Being a newcomer, he was observing their conversations.

About half an hour later,

He and Melinda walked out of the room.

"You can go back to your room. I have a mission to do. I'll see you later." After saying that, Melinda left the place.

Jeremy Night stood on the spot. When she was gone from his sight, he started going back towards his room.

A few minutes later,

He was in his room. He changed his clothes and wore comfortable clothes back. He needed time to process. There was so much information in his mind.

He sat on the sofa and began to think about the distribution of the forces here. He didn't expect the Red Moon Chamber to have this many rivals.

The enmity was greater than in the previous Sun Wheel Organisation. Not only that, but murders, arson and other types of crimes were common here.

But the city was supposed to be safe, because it was the 5th Zone, one of the top 10 zones. Yet the situation was like this. He couldn't comprehend it completely.

Then he took out the booklet from the new storage bracelet. The booklet was about the distribution of forces here.

So he started going through it.

...

Meanwhile,

The staff members were the first group to know about the new recruit. They were quite shocked, because it was the young Tier-2 Beast Tamer who was brought here by Melinda.

At that time, they didn't take it seriously. But this morning, Melinda came and officially registered the name of the new recruit.

They were shocked to know his background. The new recruit named Jeremy Night was not from here. He was recruited from their 10th Branch.

After the merger, their organisation had become stronger. So recruiting the people from the 10th Branch was like an internal transfer.

So they couldn't complain about this matter, because both the branches had Tier-8 Beast Tamers as their heads. They also knew that both the heads were friends. That's why the merger happened.

If the kid was transferred here, then both the Heads must have given approval. So the staff didn't make a fuss about it.

But it didn't mean that news wouldn't spread. The staff came from some background as well. They started sharing the news with their families.

Slowly, the news reached the ears of other members in the organisation.

Unlike the 10th Zone, the 5th Zone's structure was large. Here, there were 50 Beast Taming Teams. Each Team had 10 members. Their strength ranged from Tier-3 to Tier-5.

So there were 500 members on the team level.

The Tier-6 and Tier-7 Beast Tamers were higher ups of the organisation. They made the next level decisions. Their numbers were more than 50.

It showed how hard it was to become a Tier-6 and above beast tamer even in the 5th zone.

Finally, the head of the organisation, Harold Red was the final decision maker. He was a Tier-8 Beast Tamer.

Before the merger, the organisation didn't have this much team count. After the merger, Head Harold recruited more people.

He made the growth of the organisation to this level because they were taking a wide range of missions. From trade to wilderness hunts.

So the missions were not always about hunting corrupted beasts.

The missions included tasks as simple as providing security to some clients for a certain period of time, to danger level missions such as collecting intel in the wilderness.

So the organisation here was big. So was the competition. The competition between the 50 teams was so severe. It was all about the fight for resources.

Time went by,

The news about the new recruit was spreading to the team members. The members who heard the news for the first time were in shock.

It was hard to join any one of the 50 teams. The members were strong beast tamers. Even the families behind them were trying various means to send their descendants here.

But they had failed as well. Head Harold Red was clear in recruiting only talented and proven Beast Tamers.

Most of the team members were between S-Grade and A-Grade. Only a few of them were B-Grade Beast Tamers. But their B-Grade was special.

But there were no C-Grade Beast Tamers in the organisation.

In this situation, many of the team members didn't like the internal transfer. Mostly because the new recruit was a Tier-2 Beast Tamer.

They didn't know what the necessity was for the organisation to recruit a Tier-2 Beast Tamer. The team leaders of the 50 teams got the news as well.

The weakest members in their teams were at least Tier-3. But their talent was S-Grade. So they were helpful to the team despite being Tier-3 Beast Tamers.

But they didn't know what a Tier-2 Beast Tamer with A-Grade Talent would do. This news was causing great ripples.

Since it was an internal transfer, even the team leaders couldn't do anything. They were silent on this matter. But some of them had already made a decision.

They were not going to accept the new recruit into their team. They had decided to talk to the higher ups later.

Chapter 622: New criteria unfold!

5th Zone, City-A

Jeremy Night was in his room. He had spent some time going through the report.

Not only had he gone through the information in the booklet, but he had also read the report given by Team Leader Gisela.

Right now, he had a good idea about the distribution of the forces here.

The immediate threat was none other than an organization called Silver Dominion. His eyes flashed with a sharp glint. This organization was another Beast Taming Organization.

There were other rival organizations as well. But this Silver Dominion was a bloodthirsty rival. It appeared they had a personal vengeance against Head Harold.

The booklet given by Melinda didn't have such information. But the report given by Leader Gisela was thorough. It had some inside information as well.

The Silver Dominion was an organization with similar strength, but they were the oldest. The Red Moon Chamber, however, had grown recently.

Especially after the merger, the organization had grown to this level. So, they were facing problems from the Silver Dominion.

The next threat was an organization called Ashen Circle. It was another rival organization, but a lesser threat than the Silver Dominion.

Because people from the Ashen Circle only targeted the Red Moon Chamber Beast Tamers in the wilderness.

But the Silver Dominion sent their people to target Red Moon members in the city itself. Many murders had already happened.

Jeremy's eyes flashed with a glint. These were all recorded in the report sent by Leader Gisela. The booklet given by Melinda didn't have this information.

He had to say Team Leader Gisela truly cared about him. She had given him such vital information.

He had also read about the current organizational structure. He didn't expect there were 50 teams inside the organization.

The teams were really big. The higher ups were quite large in number. The Head of the organization was the founder.

He was none other than Head Harold Red, a Tier-8 Beast Tamer. He was the sole voice and final decision maker.

Like he had said earlier, Jeremy had decided to focus on improving his strength first. The minimum requirement for any organization to recruit a Beast Tamer was Tier-3.

That too, only exceptional and talented Beast Tamers were recruited. Most of the organizations recruited graduates from the University and the Beast Taming Families.

So, he had real challenges waiting ahead. He then shifted his attention to the organization.

Senior Melinda must be part of one of the 50 teams.

He didn't know the name of her team. It wouldn't be long before he heard about them.

He knew that news about his recruitment must have made a splash. At this point in time, the whole organization must have known about him.

He was not expecting a warm welcome. Instead, he knew people would be pissed off. He could face threats outside the building.

But Jeremy didn't plan to hide in the room. He decided to go outside the organization tomorrow.

...

The following day,

The whole organization was busy. Head Harold Red was going to release news about the new recruit officially, so that members, staff, and elders could know that there was a new member.

But he also knew that news about the recruitment had reached everyone, because the elders had called him yesterday itself.

Head Harold Red confirmed the news with them yesterday. But today, the outside world would know after the official statement release.

A few hours later,

As everyone started doing their morning work, the official statement was released. It immediately reached the IDs of everyone. The members viewed the notification.

After reading it, they were not surprised but got angry instead. They knew the news about the new recruit yesterday itself. It was internal news.

But today the official statement was released. The approval must have been given by the Head of the organization.

After learning that Head Harold was behind it, they didn't know what to do. Because it was not mentioned which team the new recruit was assigned to.

Maybe that team leader and the members could protest against this appointment. But they didn't know any further information. They didn't know what to do to stop this nonsense.

So they could only ask the higher ups. The higher ups must have been disappointed as well.

As time went by, almost everyone who was in this building knew about the latest recruit. The others who went on missions didn't know.

Any major news would not stay inside the four walls. It would reach the ears of other forces as well. There were forces who had people inside and outside the organization to collect information.

The Red Moon Chamber was not foolproof against this problem. One of the staff leaked the information for money.

So the news about the Tier-2 Beast Tamer internal transfer reached the ears of the organizations Silver Dominion and Ashen Circle.

Both organizations' higher ups thought that the news was fake because they knew no one recruited a Tier-2 Beast Tamer, even though they had rare talent.

Tier-3 was the basic requirement for any Beast Tamer to join the organization. So both organizations took time to verify the news through other sources.

In the end, they came to the conclusion that the news was indeed true. The Silver Dominion thought it was a golden opportunity for them.

They had got an easy target now. They decided to send some people to cause trouble. If the Tier-2 Beast Tamer went around the city, then it would be his last day.

Similarly, the Ashen Circle people were thinking of doing something against the new Beast Tamer. They knew that it was unlikely for the Tier-2 Beast Tamer to go to the wilderness.

If they wanted to do something, then they would have to do it inside the city.

As time went by, more and more forces learned about the Red Moon Chamber's Tier-2 Beast Tamer.

They were in shock. Since there were a large number of forces, many of them didn't care about the Red Moon Chamber. But the news about the Tier-2 recruitment shocked them.

They had only ever recruited Tier-3 Beast Tamers.

Chapter 623: City sightseeing

5th Zone, City-A

Jeremy Night walked out of the practice room. He then entered the bath to take a shower, just as he had planned yesterday.

He intended to go outside to roam around the city first.

About one hour later,

He got fully ready and stepped out of the room. He then locked the door and started walking towards the exit.

This time, he was not wearing the uniform. He wore casual clothes to avoid attention. He planned to explore the city, so the uniform would definitely attract unwanted gazes.

He then took the elevator and arrived at the first floor a few minutes later.

His eyes scanned the members going about their business. Everyone was busy; no one had time to stop and think.

Jeremy took a few seconds to observe these things. Then, he strode towards the exit. Just as he approached the middle of the lobby, he noticed something.

He found many piercing gazes on his back. People were not even hiding it. They were openly scrutinizing him. His mouth twitched.

He didn't pause his footsteps. He came to the door and pulled it open. Then he walked out of the building like nothing had happened.

Gasp!

An exclamation occurred inside the building.

"He is a kid!"

"He is too young to be a Tier-2 Beast Tamer. I think he is a Tier-1 Beast Tamer who just walked out of high school."

"No, his strength is close to Tier-3. Such strength at this age is not bad."

"Yet, the kid is still a Tier-2 Beast Tamer. It's breaking the rules. Don't know which team is going to have him."

"There is no team information in the statement."

"If I'm not wrong, Melinda is going to have him in her team."

"Yeah, she was the one who brought him here."

"Melinda will be disliked by others."

"Maybe we can talk to her."

The members were discussing it among themselves. Even the staff were discussing it. They saw the new recruit, Jeremy Night, leaving the building.

They didn't know where he was headed. But seeing him dressed in casual clothes, they didn't think it was for a mission.

Meanwhile,

Jeremy Night came to the main street after leaving the main gate. His appearance shocked the guards at the gate.

They had already received the information, so they didn't check the ID of the young Tier-2 Beast Tamer.

Jeremy looked for the stop. His gaze then fell on the parking area opposite him. He crossed the road.

There were a few people waiting there. He went to the area.

The city guards saw this, but they didn't say anything.

Jeremy came to the stop and started waiting for the cab to arrive. He was casually standing there, looking around the area, experiencing the city for the first time.

Suddenly, his senses alerted him to danger.

He didn't show any reaction on his face. He continued to wait. Then, the feeling got stronger and irritating.

Jeremy furrowed his eyebrows. He didn't expect to encounter the enemy so soon. But he knew the rules of the city were strict. No one could openly attack him.

However, if he went near any less populated areas, it could be trouble for him.

Swoosh!

Right then, a flying cab stopped in front of him.

Jeremy collected his thoughts. He immediately opened the door and sat in the back seat.

His gaze fell on the driver's seat. He saw a middle aged driver.

The driver asked where to go. Hearing that, Jeremy told him his purpose: he would like to go around the city.

The driver was taken aback by surprise. He thought that he had encountered a tourist today, so he got excited.

"Young man, sit well. I'll take you around the city." After saying that, he started driving the car.

Swoosh!

The car hovered above the ground and appeared in mid-air a few seconds later. Then the car started moving forward.

The driver saw through the strength of the customer. He was a Tier-4 Beast Tamer. But the customer was a Tier-2 Beast Tamer.

He was not going to underestimate anyone.

Jeremy Night was looking at the city through the window. His mind was thinking about the gazes earlier.

He didn't know whether anyone would follow this car. Jeremy then shifted his attention to the driver and decided to have a casual chat.

This way I can learn more about the city and the conflicts here, he thought. The driver had confirmed that the customer was new to the city.

So, he decided to share what he knew. Maybe he could get rewards in the end.

Meanwhile,

There were two flying cars following the cab from behind. They were not approaching. Instead, they were keeping their distance.

According to them, the target didn't know about their actions. They were people working for the Silver Dominion.

They received a new mission to collect information about the Tier-2 Beast Tamer. They had been waiting there since early morning.

But they didn't expect to see the Tier-2 Beast Tamer this quickly. They shared the news with their higher ups.

The higher ups asked them to follow the car and continue to share updates. Even the higher-ups weren't sure what to do with the target.

If they found the target in an empty alley or street, they would definitely take action. But no one had the guts to take action in broad daylight.

...

#### Red Moon Chamber

Back in the building, the information about the new Beast Tamer spread. Melinda was about to leave for her mission.

She heard from everyone that Jeremy Night had walked out of the building in the morning. He must have gone somewhere.

She was shocked to hear that the kid had the guts to explore the city on his third day. She had thought he would be practicing quietly in his room.

But she was wrong. Jeremy Night decided to go out of the building. She feared that rival forces could use this opportunity.

She touched her forehead, feeling a headache thinking about it. She then turned around and headed towards Head Harod's Office.

She wanted to hear his opinion first.

Chapter 624: Hearing an intriguing conversation

5th Zone, City-A

The flying car was going towards the central public square. The central public area was bigger in size. The driver asked him whether he could make a stop here.

Jeremy Night then saw the outside scene through the window. He saw a big square filled with people chatting and laughing.

The hawkers were selling their food. There were stall owners selling high tech toys. Seeing that, he decided to take a look around the area.

He told the driver to stop here for 20 minutes. After that, he could continue to take him around other areas.

The driver then landed the vehicle at the parking area. Jeremy stepped out of the car. He then told the driver that he would be taking a stroll here.

The driver agreed to wait here. He had a big customer. How could he leave like that?

Jeremy then left the car and started walking through the crowd. His eyesight was sharp. He spotted some interesting things.

He saw a pawn shop, antique shops, and other shops selling rare exotic items. The reason he had come to the 5th Zone was for the resources.

His first stop was the exotic shop nearest to him. He saw people going in and coming out of the shop. He joined the line and entered the shop.

He walked inside and noticed that people of different age groups were looking at the glass shelves. It was as if something was placed on the display.

When he came to the display area, the scene before him stunned him. In the glass display, beast eggs were placed.

These were beast eggs of regular beasts, which could be used for a contract after a student awakened his talent.

The names of the eggs were mentioned there. The eggs placed there included a flying-type lifeline beast, the Great Sky Hawk.

He then continued to walk. He came across more and more beast eggs. The hybrid lion and tiger were common here.

Then he saw the beast egg of an underground type beast, which he had never seen before.

Meanwhile,

A few more people walked into the shop. They were the people from the Silver Dominion. Usually, they wouldn't go to such low grade shops.

Because of the target, they were forced to come here. They were going to keep an eye on him. Then they saw the target was looking over the eggs.

They found it funny. The target was looking at them as if he were seeing beast eggs for the first time.

On the other hand, Jeremy was going over the names of the beasts. He wanted to see whether any rare beasts were here.

Because his lifeline beast egg was one with a high grade, he doubted whether high grade bloodline beast eggs were sold here.

Then he walked out of the shop a few minutes later. He went to the next shop, which was the pawn shop. There was a small group of people inside the shop as well.

He was about to enter the shop when he suddenly felt gazes on his back. He didn't immediately turn around. He entered the shop.

This shop had similar items for display, but these items were pawn items. You could buy them and use them for home decor.

Jeremy casually walked around the shop. He was not the only one with Tier-2 strength. There were students who had come here as well.

They were students from Central University 5th here. Some of them were from their family run academies.

These people noticed Jeremy Night, who was alone. Since the person was wearing casual clothes, they didn't know which organization he was from.

Jeremy didn't find anything interesting. Most of them were decor stuff and old books. He was not interested in that at all.

After spending a few minutes there, he walked out of the shop. His gaze swept across. Then he found another interesting shop. It was none other than the antique shop.

He didn't know what they were selling. Before entering the shop, he wanted to know who the guys following him were. He thought it could be the same people who spied on him earlier.

So, he casually walked through the crowd. He went to a hawker selling street food. He asked for hot soup and started to keep an eye on the exit of the shop.

The hawker started cooking the food. His gaze fell on the exit of the shop. Then he saw four people walking here and there.

A cold glint appeared in his eyes.

Looking at their behavior, he was sure that these were the people. The group then turned towards the next shop and started rushing towards it.

They didn't even spot him here.

At this time, another group came to the hawker stall. The group was none other than a group of 5th Central University students.

Among them, three were male and the other three were female. All of them were Tier-2 Beast Tamers. They were doing their first year at their university.

The students were chatting and laughing. Then they saw the hawker giving soup to the stranger whom they had seen inside the shop earlier.

Jeremy accepted the soup and found a small chair to sit down on. He then started enjoying the food. This experience was going great for him.

He noticed the group of students as well. Their strength didn't go unnoticed in his eyes. If he had continued to study in the university, he would have been like them.

The students got their soup bowls one by one. Then they found empty chairs to sit in. They were having a conversation about the university.

The students were part of different factions. The factions were formed based on family background and talent.

The descendants of the friendly families formed the allied faction inside the university as well. Similarly, their rival families did the same.

Right now, these six Beast Tamers were from a single faction. Their families were friendly families as well.

Right now, they were discussing faction things.

Jeremy Night was overhearing their conversation while having hot soup. He found that the faction thing was interesting.

Back in the 14th Zone, things were not that serious.

Chapter 625: 5th Central University students

5th Zone, City-A

The students were enjoying their soup. Three of the male students looked different. A student with a lean physique, curly black hair, and black eyes was sitting at the end. His name was Clint Dalton.

The person in the middle was well built and taller. His skin tone was tan. He had black hair and eyes. His name was Travis Mercer.

The last one was good looking. He had a well chiseled face with pale looking skin. He had good height with a normal body weight.

His name was Jessie Boone. He had brown hair and eyes. All three of them were from good backgrounds. Their families were well known Beast Taming Families in the top 5 zones.

Their Family Heads were Tier-8 Beast Tamers. Their family Ancestors were Tier-9 Beast Tamers.

On the other hand, the three female Beast Tamers had similar personalities but different facial features.

They had pale skin and lean bodies. They had black hair and eyes. Their names were: Catherine Rosewood, Sadie Turner, and Abigail Collins.

While they were having the conversation, they used each other's names very often.

Jeremy Night, on the other hand, was able to learn their names as well. Thinking about the university life here, he couldn't help but think of the 14th University.

Especially Betsy and Daniel. There were also May Lindsey and Victor Scott. He didn't know what was going on with them right now.

May Lindsey and Victor Scott had moved to the top 10 zones. It was the last information he got from his friends. But he didn't know in which zone they were living.

Jeremy Night was shocked by another revelation. They were Tier-2 Beast Tamers. But they were just 1st year students.

He had assumed that they could be second year students. Now, this news left him stunned. He thought that they must have been Tier-1 Beast Tamers before joining the University.

It was totally different from the situation back home.

They had joined the University after awakening their talent. He thought the difference was due to the lack of resources back home.

The resources here were abundant. Jeremy thought it could be the answer to their strength.

Catherine Rosewood, with her curly hair, stole looks at the stranger from time to time. She found the stranger to be of a similar age to them.

Maybe a few months older. But she had not heard of anyone so handsome before. She knew most of the popular male Beast Tamers.

Especially those of similar ages. But she was seeing a stranger for the first time here.

"Could he be from other zones?" She thought.

Catherine's actions were noticed by her friends as well. Especially the males sitting opposite; they saw that she was looking behind them.

They knew the stranger was having food behind them.

"Catherine, what are you doing?" Jessie asked.

He was visibly displeased. He didn't know why she was looking at the stranger.

Seeing that the others turned towards her, Catherine withdrew her gaze. But her eyes flashed with annoyance. She looked at Jessie and said, "I'm just enjoying my soup."

"Harumph," Jessie snorted.

The others exchanged looks. They knew what this was about. They didn't want to spoil the current environment.

Right after this, the other two girls, Abigail and Sadie, were looking at the stranger as well. This time, the males were even more pissed off.

Travis and Clint noticed their reactions as well. They didn't say anything, but they found the presence of the stranger behind them annoying.

Catherine continued to look. Suddenly, she saw the stranger get up and pay the hawker before leaving the place.

She didn't even know his name. It would be good if she got his contact info. Just as she had this thought, she noticed a group of four people following the stranger.

A strange glint flashed in her eyes. She stood up suddenly.

"Catherine!"

Abigail and Sadie stood up as well.

The male members were confused. They didn't notice anything.

"Give me a second. I need to go somewhere." After saying that, Catherine left the place.

Abigail and Sadie looked at each other's faces because they knew what had happened. Four people were following the stranger.

The stranger's life could be in danger.

Jessie Boone felt something wrong.

"What happened?"

"Did you guys notice anything?" Jessie asked them.

Abigail and Sadie didn't know what to say. They didn't want to anger Catherine. Both of them shook their heads and sat down.

Jessie didn't believe them. Clint and Travis were silent. It was because they too didn't want to anger Catherine.

Everyone had their family background. It was impossible to put pressure on each other. That's why Jessie was silent.

Otherwise, he would have lashed out already.

Meanwhile,

Jeremy came to the parking area. He saw the driver there and asked him to depart. He then entered the car and sat in the back seat.

The driver sat in his seat and started driving the car.

Swoosh!

The car hovered in the air before moving towards the destination.

At that time, the four Beast Tamers caught up as well. But they couldn't do anything in the middle of the public square.

Right now, they were afraid that their intentions would be exposed. They could lose track of the target.

"Let's go," one of them said.

The next second, the four of them went towards their car.

Catherine Rosewood was not far away from them. She saw the stranger leave the place in a cab. Then she noticed the stalkers did the same as well.

She took out her device and phoned someone. She intended to find out the identity of the people. Especially the identity of the stranger.

She saw someone interesting for the first time. She didn't want to miss the chance. After ordering the person, she ended the call.

A bright smile appeared on her face. She then started walking back to the hawker stall. When she got there, she saw everyone was waiting for her.

She didn't say anything and sat down. She started enjoying the remaining soup. Abigail and Sadie were curious. They didn't know what had happened.

After seeing her smile, they were more intrigued. Especially Jessie, who was on the opposite side. He badly wanted to know what was going on?

Chapter 626: Melinda's advice

5th Zone, City-A

Catherine found the gazes of everyone on her. But she didn't plan to tell them. Jessie got frustrated.

He glanced at his friends. He wanted their support. But Travis and Clint were not going to offend her.

Abigail and Sadie stopped thinking about this matter. They believed that they had met a random stranger.

There was no possibility for them to meet again. But they didn't know Catherine had already sent people to collect intel.

If they learned about it, they would be shocked to the core. Then everyone completed their food. They paid money before leaving the place.

Meanwhile,

Jeremy was in the car's backseat. His mood was worse. Those guys were following him again. At first, he didn't take it seriously.

But seeing their continuous pursuit, he showed hesitation.

Buzz!

Just then, his digital device rang up. He took the device and saw the contact name. He was surprised. Then he attended the call.

The person on the other side was none other than Melinda.

"Jeremy Night, where are you?" she asked.

Hearing that, Jeremy told her that he was touring the city. She then asked about his situation, whether he was alright or not.

Jeremy Night chose not to hide it. So he answered that a couple of people had been following him ever since he left the main gate of the building.

Melinda was shocked. She immediately urged him to return. She warned him that it was not like the 10th Zone.

Jeremy Night furrowed his eyebrows. To be honest, he was not that afraid. He could take down these people.

Still, it was a new place. It was better to listen to her. Otherwise, it would create a bad impression. What if Head Harold got angry?

So he thought it was better to stop the tour. He then told the driver and asked him to stop at the Red Moon Chamber.

The name of Red Moon Chamber sent alarm bells in the driver's mind. He had thought that the young man was a tourist.

But the organisation told by the young man was a recently developed powerful organisation. There were rumors that this organisation had another branch in the 10th Zone.

He then calmed his heart and took a U-turn in mid-air. Then he started driving towards the Red Moon Chamber.

The people following them in the car were stunned as well. They continued to follow the car. They had yet to get any answers from their higher-ups.

About 20 minutes later,

The driver dropped him in front of the main gate. Jeremy stepped out of the car. He then paid the extra amount to the driver before going towards the main gate.

The driver then saw the organisation name board. Seeing that young man walking into the gate, he immediately assumed the young man could be a descendant of a big figure.

He then left the place in the car.

Shortly afterwards,

Many cars arrived at the spot. Seeing that the target had entered the building, they reported the matter to the higher-ups.

They thought that their actions were exposed. The higher-ups thought the same as well. They immediately ordered them to stay low-key and monitor.

Since it was the first news, the higher-ups themselves were confused. They didn't know how the Tier-8 Beast Tamer Harold Red would react.

Since it was like an internal transfer, the approval must have been done by him.

If they had misjudged his patience, then he could have targeted them directly.

On the other hand, Jeremy Night walked into the building. Before he could go to his room, he came across Melinda in the lobby itself.

"Senior," he called her immediately.

Melinda turned around and saw Jeremy Night. Her eyes flashed with anger. There were other members who were busy.

She immediately brought him outside the building. They started walking on the footpath to the massive garden behind.

"Young man, do you have a death wish?" she asked in a stern tone.

Jeremy's face turned solemn. He was displeased internally by her tone. But he didn't show it on his face.

Melinda saw that Jeremy Night was calm. She nodded her head and said, "Those people could be from Silver Dominion. If they had targeted you in broad daylight, what would happen?"

After saying that, she stopped and faced him.

Jeremy was still confident that he could take them down. So he thought her worry was unnecessary. But he still chose to listen to her.

"The Silver Dominion would be ready to sacrifice their pawns. The City Governors won't dare to cause problems for them."

"If you are dead, then your death will be in vain," she said in a grave tone.

Finally, he couldn't remain calm. His expression changed.

"Senior, how is that possible?"

"City Governors should follow the rules. Won't they be afraid of the Human Alliance?" Jeremy asked.

"Ha...Ha...Ha...," Melinda let out a small laughter.

Jeremy couldn't understand.

"Why do you think Governors will take action?"

"The top forces have Tier-8 Beast Tamers in their organisation. Some of the families have a Tier-9 Ancestor in their families."

"The wilderness here is dangerous. From time to time, the Tier-8 and Tier-9 Beast Tamers take action to reduce pressure on the City Governors."

"So the City Governors won't target anyone. They would try to maintain balance and harmony among the forces. Your death won't cause anything," Melinda said.

Hearing that, Jeremy's eyes glinted with understanding. He thought that might was right here. The Wilderness was a major threat.

If they withdraw help during a crisis, it could cause huge problems. Now things started making sense to him.

"Do you understand?" Melinda asked.

"Now, I know why there are open murders and other crimes occurring in the city. The forces behind them are strong," Jeremy said to her.

Melinda's eyes flickered. She didn't expect him to deduce this far.

"You are right. There are underground organisations as well. City Governors will turn a blind eye to some of their acts. But they can't cross the red line," she replied.

"You have to be careful of the underground organisations as well. They will do anything for money," she added.

Chapter 627: Reality check

5th Zone, City-A

They had reached the garden. Jeremy still had this doubt in his mind when she told him about the underworld organization.

He couldn't help but think of the one he had a bad encounter with.

Melinda saw that Jeremy was thinking about something.

"Senior, what's the name of the underground organization?" He asked.

"There are many small-time organizations. But the major threat was one organization called the Might Order. They control many other small organizations to do illegal business."

"Unfortunately, their founder was said to be a powerful Tier-9 Beast Tamer. He had helped the Human Alliance find a few unexplored regions with resources."

"So, his contribution to the Human Alliance was huge," she said.

Hearing that, Jeremy Night understood the seriousness of the matter. If he engaged with such organizations, he was not just facing the people; he was offending the Tier-9 Beast Tamer as well.

Suddenly, he felt the 5th Zone was not that good at all. The only drawing factor was the abundant resources here.

He then continued to listen to her advice.

A few minutes later,

Both of them returned to the building. He went back to his room. He had been able to explore the Central Public Square.

But he was not able to enjoy it because of some annoyance. Suddenly, he recalled the scene of the students sitting opposite him.

He remembered the female Beast Tamers stealing glances at him. Especially the one seated at the last. She never withdrew her gaze.

But thanks to them, he was able to learn a few things about their university as well. He then went to bathe.

About 20 minutes later, he changed into comfortable clothes. He then picked up his digital device and saw the unread messages.

They were from his parents and seniors. Senior Sinag and Ada messaged him as well. He sent a reply back.

Then he made a video call to his parents. He had been avoiding the call. Now he is having a good time.

...

Central Public Square:

The driver who dropped the Tier-2 young man was stopped on his way to the Central Public Square.

He was stopped by a couple of Beast Tamers wearing the same uniform. They were not here to get the cab service.

So, he was shocked. He got out of the car and faced them. Then his gaze fell on their badges. It was a rose-type drawing.

A look of understanding dawned on him.

Why are people from the Rosewood family here? He thought.

The next second, the Beast Tamers started asking about the young Tier-2 Beast Tamer. The driver was dumbfounded.

He didn't know why they were asking about his details. But he knew the young man was not an ordinary person either.

So he revealed the information to them. He knew the strength of the Rosewood Family. They had a Tier-9 Ancestor in their family.

It was a known fact to the outside world. Whereas the Red Moon Chamber was a recently grown organization. He was not sure about their strength.

So the driver was clever. He didn't want to offend the Rosewood family.

After getting information from him, the Beast Tamers left. The driver then decided to go home. He had shocking experiences today.

He didn't want to stay outside. He didn't know who could come next.

Not long after, the Beast Tamers met with Catherine Rosewood. She was still at the Central Public Square.

But all of her friends had left. She waited here to get this information. Her other friends didn't have a clue about it.

Even Jessie Boone had some thoughts. But he still chose to leave. He didn't want to anger her either.

Catherine's eyes flickered. She didn't expect the stranger to enter that organization. She knew some information as well.

It used to be a medium-level force. But it had become bigger after a merger. As far as she knew, no organization recruits a Tier-2 Beast Tamer.

She also thought that person could be the descendant of some big figure. Her eyes flashed with interest. She was not afraid of anyone.

She ordered the family Beast Tamers to keep an eye on that organization. She had already told them about the young Tier-2 Beast Tamer.

The Beast Tamers got some information from the driver as well. So they were not going to miss anything.

Catherine told them that she wanted information about the Tier-2 Beast Tamer. She didn't want anyone in the family to know about it.

The Beast Tamers hesitated. But still, they agreed in the end. The Beast Tamers then left the spot.

Only then did Catherine leave for her home.

...

Meanwhile,

Jeremy Night had a conversation with his parents. They were relieved knowing that he was safe here.

He also then phoned Sinag and Ada. They were happy that he was doing fine here. But Jeremy Night didn't tell them about the forces here.

He had experienced the reality of the place on the first day itself. He then sat on the sofa. He picked up the device and started going through the online information.

After that conversation with Senior Melinda, he became interested in the underground organization. He saw the news articles about the local crimes.

He began reading the articles.

...

Head Office:

That evening, Head Harold was about to leave the office. Then he recalled Jeremy Night. He didn't know how the kid was doing.

He had heard things from Melinda earlier. So he called her.

A few minutes later,

Melinda came to the office. She sat on the chair and faced Head Harold.

Head Harold started asking about Jeremy Night.

Melinda then started telling him about Jeremy Night's experiences.

After knowing that spies outside tried to follow Jeremy Night, Head Harold was not surprised. But he was sure that those forces wouldn't dare to attack in broad daylight.

But he was worried about something else. He could take care of the Silver Dominion and Ashen Circle.

Yet there were some forces that were hard to deal with. One such force was the underground organization.

Harold said, "Tell him to be wary of the underground forces. It was already a headache for us to deal with them. Hope the kid stays low key."

Chapter 628: Part 1: Routine fighting at the city gate

5th Zone, City-A

The following day,

Jeremy Night woke up early. He had a call with his parents and seniors last night, and he had reassured them.

Next, he could focus on things here. Just walking out of the building yesterday made him realize that things were not easy in this zone.

He couldn't go out without a plan. He thought there would still be people outside keeping an eye on the gate.

The current situation was such that he had to become a Tier-3 Beast Tamer as soon as possible.

After collecting his thoughts, he got out of bed.

Then, he started doing his morning routine. The routine lasted for an hour. Next, he entered the practice room.

Creak!

After he entered, the room door closed automatically. He then turned on the switch. The natural energy started entering from the inlet.

Seeing that, he walked to the middle of the room. Then he folded his legs and sat cross legged on the ground.

The natural energy began to fill the room. A few minutes later, the room was full of it.

He closed his eyes and started running the breathing method as he practiced the inner healing method.

The natural energy entered his body. He began to guide the energy internally. The natural energy flowed through his veins.

The cells in his body were absorbing the natural energy, and the healing talent of his body was triggered.

So, more and more natural energy was being absorbed by his cells.

At that time, the unknown beast egg inside his mental zone began to vibrate. The unknown beast egg started to absorb the natural energy as well.

Jeremy Night felt relieved in his heart. Now that the unknown egg had started absorbing the natural energy, he thought he would reach the next breakthrough opportunity soon.

A few hours later,

Jeremy stopped practicing. He opened his eyes and checked his mental zone. The mental zone was filled with starlight liquid.

The starlight liquid was more powerful than before. He then stood up and opened the door.

Creak!

The door opened the next second. He walked out and headed straight to the bathroom. He spent the next 20 minutes in the bath.

He walked out later and changed into comfortable clothes. He still didn't think it was good to wear his uniform before breaking through to Tier-3.

Next, he sat on the sofa comfortably and started going through the online articles on his device.

Meanwhile,

Melinda was confronted by the higher-ups and fellow members. They wanted to know what was going on with the fellow recruit.

They were asking whether she intended to add the new recruit to her team. Melinda wasn't surprised.

She was already expecting such questions. She simply told them that she didn't have an idea right now. But she didn't completely deny it.

This left the members with frustration.

Melinda then continued with her work. She texted Jeremy Night to be low-key and to inform her if he planned to explore the city again.

Head Harold Red was busy as well. He left the matter of Jeremy Night to her care.

Time went by,

Jeremy Night continued to train in his room. He didn't leave the room at all. He was doing weapon practice.

He wouldn't have started practicing so soon if not for the articles. The articles about the wilderness here gave him a scare.

There were various kinds of corrupted beasts with large, higher-tier beast populations. Unlike the previous zones, the fight was going on daily here.

The city guards outside the gate were fighting with the corrupted beasts on a daily basis. Sometimes it was a solo attack. Many times, it was a group attack by corrupted beasts.

Jeremy wanted to see these things himself. For that, he had texted back to Senior Melinda, as she was checking on him earlier.

He texted back his interest to her. But he got no reply. He believed she would send him a reply soon.

He then shifted his attention and continued to practice.

...

That evening, Melinda came back to the organization. She had a big family in the city as well, but she liked to stay in the organization so that she could be ready for a mission at any time.

After returning to her room, she freshened up.

Several minutes later,

She sat comfortably on her sofa. She then took her device out and started going through her unread messages.

Jeremy Night's message caught her eyes. She then began to read it.

A quick gleam appeared in her eyes.

"It appears he watches online news. The state of the Wilderness threat here is open for everyone to see," she thought.

But for Jeremy Night, this must be new. The 10th Zone and 14th Zone didn't have daily battles against corrupted beasts because the population there was not that big.

But the 5th Zone was different. Not only did they have a city located near the wilderness, but the wilderness itself was also largely unexplored.

The size of the world had increased after the mutation. The area beyond the wilderness was an unexplored area.

From time to time, the Human Alliance sent a team on an exploration mission. It showed how dangerous the wilderness was here.

They had the problem of Colossal Beasts as well. But the Colossal Beasts had their own territory inside the unexplored area.

Only the Human Alliance had the information about their location. She then collected her thoughts.

Since Jeremy Night wanted to see the battles happening outside, she decided to take him to the city gate tonight.

Once he saw the battles himself, he would become serious. She then could rest assured that he would be low-key. But before that, she decided to ask permission from Head Harold.

Though Head Harold had given her full permission regarding Jeremy Night to make her own decisions, sometimes she wanted to take advice from him.

She then phoned him and told him about her idea.

Head Harold didn't reject it. He told her to show him around the city, especially the places to watch out for.

Head Harold was still concerned about the Underground Organization.

Melinda agreed to that. She ended the call a few minutes later.

Chapter 629: Part 2: Routine fighting at the city gate

5th Zone, City-A

Jeremy Night was resting after completing his practice. He was waiting for Senior Melinda's reply, but he had received no answer so far.

Just as he was worrying and thinking about calling her, he got a new message in his inbox. He opened the message to read it.

A relaxed smile appeared on his face.

He had been worried that Senior Melinda wouldn't see his message. But fortunately, she read those messages and texted him back.

He then put the device on the table. His eyes flashed with a sharp glint. He didn't expect her to take him to the spot tonight.

He began to get ready.

That night, both of them left the building and traveled in her car to the city gate. The spies outside the city gate ignored the flying car.

They wouldn't follow every flying car entering and exiting the Red Moon Chamber. But they didn't know that Jeremy Night was in the car.

At the same time, Jeremy Night noticed the situation outside. Seeing that no one was following the vehicle, he was shocked.

His eyes then glinted with understanding. With many cars going in and coming out of the building, it was impossible for anyone to stalk every person to gather intel.

Melinda was driving the car. She said, "Jeremy, you have to listen to my words and follow me. Don't act on your own. The situation outside is different."

"Okay," Jeremy replied.

He didn't have any problem with that. He just wanted to witness the battle outside.

A few minutes later, they reached a spot a hundred meters before the city gate. There were barricades everywhere. No civilians were allowed to trespass here.

Especially during the battle situation. In the nighttime, everyone could see bright light appearing from time to time outside the city gate.

But it was not natural light. It was the aftermath of the attack.

Boom!

Jeremy Night heard a deafening sound the next second. It sent a vibration across the place.

Melinda's expression turned serious.

She said, "Follow me!"

Hearing that, Jeremy nodded to her and started following. Both of them ignored the barricades and continued walking towards the admin office near the city gate.

Their arrival caused alertness. The City Guards then saw Melinda's uniform, and they were rest assured.

Jeremy Night felt the lingering gazes on him. They must have been wondering what a Tier-2 Beast Tamer was doing here.

They came to the office. Melinda then asked the guards about 2nd Captain Charles. He was inside the office.

She requested to meet him. One of the guards went inside to inform the 2nd Captain. Jeremy Night stood beside her.

He had learned some information from the articles. More than 20 City Guard Captains were in this city. It appeared there was a shift for everyone.

No single person could fight the battles continuously.

The guard came out and told them that the 2nd Captain was waiting for them. They walked inside. Melinda walked to the office.

He followed behind her.

Creak!

After reaching the office, which was located at the corner after taking a right, she pushed the door open and entered inside.

Jeremy followed her from behind.

A dark-haired, middle-aged man with pale skin was seated at the desk. He was a Tier-5 Beast Tamer. A good friend of Melinda.

He was surprised by her sudden presence there. Normally, she would call him first. He then saw a young Tier-2 Beast Tamer beside her.

It once again surprised him. He then collected his thoughts and asked them to sit down.

Melinda signaled Jeremy Night with her eyes. Both of them sat in the chairs opposite him.

"Melinda, what a surprise."

"What brings you here?" Charles asked.

Hearing that, Melinda said, "I'm glad that it's your shift now. I have brought our new recruit here. He wanted to see the ongoing battle."

Hearing that, Charles' face changed drastically. He looked at Melinda with surprise. He didn't know when the organization started recruiting Tier-2 Beast Tamers.

Melinda saw that Charles was confused, so she started explaining to him.

A few minutes later, Charles' eyes filled with surprise. He looked at Jeremy Night up and down. He didn't expect the Red Moon Chamber to recruit such a talented young man.

But that was it. He had seen many talented youngsters. Especially their 5th Zone, which was filled with many such talented young Beast Tamers.

Yet it was rare to see such a young Beast Tamer from the 10th Zone. Since it was an internal transfer, he was not surprised.

Charles then said, "Now, I understand. But it won't be easy to get permission."

"I have to ask the Commander," he added.

Melinda nodded to him.

Under the gaze of Melinda, Charles made a phone call to one of the commanders and explained the situation.

Knowing that someone from the Red Moon Chamber had come, the Commander hesitated. Normally, permission wouldn't be granted. Unless there is a crisis, the city guards won't ask for help.

But this time, the Commander decided to give face to the Red Moon Chamber. The founder of the Red Moon Chamber was a Tier-8 Beast Tamer.

The organization had many higher-tier beasts. In times of crisis, he could personally ask for a favor. So the commander agreed to their request.

Charles was shocked. But then he knew the big picture. He turned towards Melinda and the young man.

He said, "Your request was granted. So come with me."

Hearing that, Melinda and Jeremy Night thanked him.

Charles stood up and left the room. Jeremy Night and Melinda left the room as well.

They walked out of the Admin building. The city guards outside were surprised. They saw Captain Charles taking them towards the city gate.

They didn't know what was going on. Charles walked up to the door. He asked the guards to open the city gate.

Hearing that, the City Guards were shocked. But upon seeing that Captain Charles was serious, they opened the gate.

Boom!

The next second, everyone heard a loud noise.

The three of them walked through the door. Upon reaching the other side, the city guards closed the gate.

Chapter 630: Frontline battle

5th Zone, City-A

Captain Charles brought them a few hundred metres behind the fighting line. Jeremy Night's gaze fell on the front line.

Fierce fighting was taking place. The land and sky-based lifeline beasts were bombarding the corrupted beasts.

His gaze then shifted to another side, where a corrupted beast had bitten off flesh from a lifeline beast. The scene looked gory.

Aahhh!

From time to time, screams and deafening noise could be heard. The battle was intense.

The four-legged corrupted beasts appeared to be hyenas.

The hyena beast was over 6 meters in height and length. It was a massive beast with a strong neck and shoulders. Its teeth were razor-sharp.

They were hyena beasts between Tier-3 and Tier-5. It was a battle where there was no use for the Tier-2 Beast Tamers.

Boom!

The City Guards and their lifeline beasts were pushing the hyena beasts backward. The hyena beasts didn't have a wide range of attacks.

Its mouth was its only weapon. Before it could reach the front line, the lifeline beasts were attacking it.

Blood and flesh were scattered across the ground.

Melinda's face was neutral. She was used to this situation. Captain Charles was angry. He wanted to drive them back as soon as possible.

But the current command was in the hands of the 4th Captain. During his shift, he would do everything to drive them away.

Charles then thought of something and turned towards Jeremy Night. He saw the young Tier-2 Beast Tamer was calm and composed.

This scene stunned him. If it were other young Beast Tamers, they would have puked on the spot. In the worst case, they would have fainted.

Yet, this young Beast Tamer was rather calm. As if he was ready to fight against the corrupted beasts.

At this time, not only was he surprised, but Melinda was taken aback as well.

"This kid is indeed something," Melinda thought.

She remembered her younger days. It took her a lot of time to recover from it. But this young man was different.

She recalled the things told to her by Head Harold. She came to the understanding that Jeremy Night had already participated in three Beast Invasions.

So, the current situation was not new to him.

On the other hand, Jeremy Night frowned. He thought that the City Guards were taking a lot of time. With the remaining men on standby, they could eliminate the beasts.

He didn't know why they were fighting this kind of battle instead of going in with full force.

A few minutes later,

"Are you guys done?" Charles asked.

Hearing that, Melinda took back her gaze and nodded to him.

Jeremy Night recovered his thoughts as well. To be honest, he wanted to fight. But because of the new place and rules, he didn't want to cause problems for the organization.

The Red Moon Chamber was one of the big forces, not the big force. So, he had to be careful. Then the three of them returned to the admin office.

Melinda was grateful. She thanked Captain Charles once again. Seeing that, Jeremy thanked him as well.

"Young man, what's your name?" Charles asked.

"I'm Jeremy Night," Jeremy replied.

"Good name. You are calm and composed. I hope to see you on the front line soon," Charles said.

Jeremy didn't understand, but he still nodded to him.

Then he and Melinda left the place. They got back to their car. Melinda sat in the driver's seat; Jeremy sat in the back seat.

Swoosh!

The next second, she started driving back to the organization.

"Did you find it dangerous?" Melinda asked.

Hearing that, Jeremy Night smiled and said, "Senior, I have faced Tier-4 and Tier-5 Corrupted Beasts before."

"I would have felt threatened if they were Tier-6 beasts," he added.

"Tier-6," Melinda uttered.

Even she had to think twice before facing Tier-6 Beasts, because she was a Tier-5 Beast Tamer. Yet the Tier-2 young man was talking about Tier-6 Beasts.

She was hearing it for the first time. She didn't ask anything further.

But Jeremy Night had serious doubts. He decided to ask her.

"Senior, why are there so few teams fighting on the front line? Why don't you use the full force?" Jeremy asked.

Melinda raised her eyebrows in surprise. She didn't expect him to notice this situation.

She said, "Do you think the corrupted hyenas are fighting with their full strength? They have greater numbers than us."

"If they used their full numbers, then it would be considered a Beast Invasion," she added.

Jeremy Night's eyes glinted with understanding. But he still thought that the population here was large, so why be afraid of a Beast Invasion?

Melinda said, "I can guess what you are thinking."

"The hyena beasts are only one of the problems. There are many kinds of corrupted beasts. They could be watching from the dark. So we have to be watchful of them as well."

"So other teams are keeping an eye on other threats while the frontline battle is going on," she added.

A look of understanding dawned on Jeremy Night. The situation of each zone was different. But the 5th Zone made him think that there were multiple crises occurring at the same time.

So everyone's energy was divided. Then he asked her a few questions. She answered them patiently.

Not long after, they returned to the organization. She parked her car slowly. Then they stepped out of the car.

Jeremy saw the building was still illuminated. There were people working day and night. They walked into the building.

He spotted members going about their business at this time as well. He then thanked Senior Melinda.

"Head Harold has asked me to take you around the city. Especially, he wanted me to show you dangerous places so that you can avoid them in the future," Melinda said.

Jeremy Night was surprised. He was planning to go out alone. But he didn't expect things to go his way. He was happy that Senior Melinda would show him around the city.

So he thanked her again. Then they parted ways. He went back to his room. Melinda felt the gazes of the members, but she ignored them.
