

## STRIKER 77

### Chapter 77 Captured

Jeremy's expression turned serious. He didn't expect the 2nd Years to be crazy. They were going to use the 1st Year Beast Tamers as shields.

Robin and Rudi exchanged looks. They were not stupid. They could see that the 2nd Years wanted to use them. The next second, they fled from the spot.

Seeing that other 1st Years followed them as well, they realized that no one would win against Jeremy Night. Even if they did joint attacks, they still wouldn't be able to defeat him.

The 2nd Year Beast Tamers were shocked. They didn't expect the 1st Years to flee. But they couldn't act like that. The families behind them had ordered them.

Even if they went back, they would face the consequences. The university wouldn't let them go.

Boom!

Jeremy Night evaded one attack after another. The elemental attacks struck the empty ground. He was facing all of them at once, including their lifeline beasts.

The 2nd Year Beast Tamers and their lifeline beasts didn't give up at all. They were doing everything they could to land a perfect hit. But so far, they had not been able to do anything.

Just as the 2nd Year Beast Tamers started closing in...

Cry!

A giant eagle appeared above the clouds. Both Ariel and Jacob were standing at the back. They both observed the situation on the ground.

The 2nd Year Beast Tamers and their lifeline beasts stopped attacking. Their lifeline beasts were scared. The 2nd Years didn't know what was happening.

Jeremy Night raised his head and looked at the sky.

Ariel's eyes turned cold. She gave the command to the eagle. The eagle then dove down. In the blink of an eye, it reached the ground.

When it touched down, a powerful coercion released from the beast.

The 2nd Year Beast Tamers were shocked. But before they could call back their lifeline beasts, the powerful coercion hit them.

The pressure immediately made their bodies and lifeline beasts plant themselves on the ground. The Beast Tamers' faces were facing the ground.

They were trembling in fear. They didn't know who had attacked them. For that, they had to raise their heads. But the giant eagle flattened them.

Jeremy Night faced the coercion as well. But Jacob appeared before him and dismissed the pressure.

"Instructor," Jeremy uttered in surprise.

Then he saw someone standing on the back of the giant eagle. He recognized the person as well.

"Instructor Ariel has come as well," Jeremy said, surprised.

"Are you alright?" Jacob asked.

"I'm just tired," Jeremy replied with a smile.

The 2nd Year Beast Tamers heard the conversation as well. They were quite scared. They didn't expect instructors to arrive. Now, it was impossible for them to escape.

Thud!

Ariel then gave another command before landing on the ground. The eagle beast dismissed the coercion. The 2nd Years lying on the ground heaved a sigh of relief.

Their lifeline beasts were gasping for breath.

"You guys will not be moving from this spot. People from the university will come to arrest you. If you want to say anything, you can speak to them," Ariel said in a cold tone.

The 2nd Year Beast Tamers were trembling in fear. They could only nod their heads. But they called back their lifeline beasts to their mental zone.

Jeremy thought of something before asking, "I don't know why they attacked me?"

Jacob turned towards the 2nd Year Beast Tamers and asked, "He wants to know. Why don't you speak?"

The 2nd Year Beast Tamers looked at each other. One of them started to speak.

A few minutes later,

Jeremy's doubts were cleared. He knew why these people attacked him.

"The re-establishment of the Stiker Department has instilled fear in many people," Jacob said with a sigh.

"These medium-sized families have lost their minds. Dean Carolyn won't be able to forgive them," Ariel supported the argument as well.

Jeremy was surprised. But that was all. He came from the Governor Family. He knew this problem would arise sooner or later.

"Hmmm," he raised his eyebrows in surprise.

He felt the natural energy being absorbed by the unknown egg lifeline beast again. He then recalled something.

"Instructor, I think there is some natural energy treasure hidden here," Jeremy said to him.

Hearing that, Jacob nodded his head. He had felt it before, but he hadn't paid attention to it because whatever treasure was here was useful only for low-tier Beast Tamers.

Swoosh!

He then disappeared from the spot. Jeremy stood there in shock. He had never seen instructors in action. Even the giant eagle in front of him was dangerous. He could tell that it was a lifeline beast of Instructor Ariel.

"Don't believe anyone just like that," Instructor Ariel's voice sounded.

Hearing that, Jeremy turned towards her. He could only smile bitterly. Who would have thought a 1st Year Beast Tamer would do this?

"Don't worry, Instructor Ariel. I will be careful hereafter," he replied.

Shortly afterwards,

Instructor Jacob arrived carrying a white and rose mixed flower. Seeing that, Ariel's eyes lit up.

"To think a 3-petal rose flower was growing here. It's useful for Lifeline beasts. But it can be eaten by Beast Tamers as well," Ariel said.

Jacob gave it to Jeremy and said, "You can consume it later."

Jeremy nodded his head in response.

They continued to wait. The 2nd Year Beast Tamers were standing like statues.

Not long after,

A huge flying vehicle appeared in the sky. It was one of the vehicles of their university. The door opened and the university patrol team members exited one after another.

They landed on the ground. Jacob and Ariel explained the situation to them. The patrol team didn't waste time. They immediately captured all six of the 2nd Year Beast Tamers.

"What about our juniors?" one of them shouted.

"They will face the punishment as well," Ariel replied.

Then everyone boarded the vehicle. The huge flying vehicle then left the place.

"Let's go back to the university," Jacob said.

Cry!

The giant eagle beast let out a cry. All three of them seated at its back. Then they left the place within seconds.
