

## **STRIKER 80**

### Chapter 80 Part 1: Meeting with Violet Heath

Violet Heath comes to the 1st year's area. Her eyes are filled with surprise. It's been some time since she last visited here.

Then she thought of Jeremy Night. She knew that Jeremy Night's Department shares the building with the Medicine Department and Machinery Department.

She decides to go there first.

Behind her, there are 2nd Year Beast Tamers who followed her to come here as well. Their numbers are few, but they are surprised by the fact that Violet Heath is heading to the 1st Year's area.

They didn't expect her to visit the 1st Years' area. Unless there is something to do, people avoid coming here.

They were cautious, but their appearance drew the attention of the 1st years here, especially those who were walking on the footpath.

The 1st Year Beast Tamers who were going about their business stopped moving and turned towards them.

The 3rd Year Beast Tamers hesitated. If they attracted too much attention, then the instructors might come here. Normally, seniors won't visit the 1st years' area.

They looked at each other before leaving the place. They knew Violet Heath had a reason to come here, whereas they were stalking her. If Violet Heath got offended, then it would be all over for them.

Swoosh!

Before the news spread across the 1st years, the 3rd years hurriedly vacated the place. Their sudden appearance and disappearance left the people looking at them speechless.

The 1st years didn't know the identity of these people; otherwise, they would be more shocked.

Meanwhile,

Violet Heath arrives at the Department Building. She doesn't know whom to contact, but then she sees someone walk past her.

"Hey, wait a second!"

She calls out to her.

The female beast tamer who walked past her just now was none other than Betsy Lowe.

Betsy Lowe turns around and looks at the purple-haired woman. She is shocked. The purple-haired woman looks beautiful, and she wonders why she called her.

"My name is Violet Heath. I'm a 3rd-year student. Right now, I'm looking for Jeremy Night, the Striker Department Representative."

"Could you tell me which floor the Striker Department is located on?" she asked.

Betsy Lowe was petrified. She stood like a statue. The name Heath after her first name shocked her to the core.

When she mentioned 3rd year, Betsy was surprised again. But after hearing the later words, she was able to calm her heart.

Anything related to Jeremy Night was not normal.

"Senior, my name is Betsy Lowe. I'm the second member of the Striker Department. Currently, Jeremy Night has gone outside for a mission."

"I don't know whether he has returned or not, but he is not in the class," Betsy replied in a pleasant tone.

A hint of surprise flashed in Violet's eyes. She knew a new member had joined the Striker Department recently, but she didn't expect to meet her here.

"Betsy Lowe, nice name. Could you call him and ask him to come to the department class? I have something important to tell him?" Violet said in a serious tone.

Seeing her expression, Betsy Lowe's face changed as well. Betsy knew the identity of the woman; that's why she was shocked at first.

Now that she was asking for Jeremy Night, she didn't know what Jeremy had done. She then made a call.

Meanwhile,

Jeremy Night was in his room watching some videos. But the call from Betsy broke his thoughts. He turned towards the device and saw the name.

Seeing that it was Betsy Lowe, he frowned.

As far as he knew, Betsy wouldn't contact him unless something was up. He then answered the call.

"Jeremy, come to the department class. A 3rd-year Senior Sister wants to meet you," Betsy Lowe said.

"3rd-year student? Who?" he asked back.

"She has an important identity. Don't ask anything further; just come here ASAP!" After saying that, Betsy ended the call.

"Important identity? Could be someone from a Top Beast Taming family," Jeremy questioned to himself.

He then recalled today's incident. It's possible that the families behind captured Beast Tamers might want to negotiate.

His eyes flashed with a cold glint. If not for the university's rules, he would have killed those people.

Jeremy then thought of the person who was waiting for him. He didn't want to go, but Betsy herself mentioned that the person had an important identity.

He thought it was not wise to create one more enemy. He decided to meet and talk first before making any decision.

Then he quickly went to freshen up.

About 10 minutes later,

Jeremy left the dorm building and headed back towards the Department Building. He didn't know which senior had come to convince him.

He hoped to have a peaceful dialogue. This time, he was close to death. If the university wouldn't take any action regarding this, then he would ask his father to do something.

Shortly afterward,

He came to the five-floor building. He then took the lift and arrived at the top floor within a few minutes. When he walked into the class, he saw 2 women sitting and talking. His appearance startled them.

"Jeremy Night, I thought you probably wouldn't come," Violet Heath said.

Hearing that, Jeremy's eyes flickered. The purple-haired woman looked beautiful, but he had seen her somewhere before, so he was confused. He couldn't remember her face.

Betsy saw that Jeremy Night was confused. She thought that they were meeting for the first time here.

Violet saw through his doubts.

She said, "I'm Violet Heath, a 3rd-year student. My family is one of the shareholders in our Central University 14."

Jeremy was stunned. He then raised his eyebrows in surprise. Her identity turned out to be more powerful than he had expected. More importantly, he remembered now.

The name Violet Heath rang a bell in his mind. He knew some of the names from the top families in City A. The Heath Family is said to be more powerful than those top families.

Jeremy calmed his heart down before sitting in the nearest chair.

"Senior, I have heard of your family name," Jeremy replied.
